

## **Crazy Wife 2221**

### [Chapter 2221 The Ning Family's Storm \(2\)](#)

Since the founding of the craftsmen's Guild headquarters, there had been a total of three presidents. The founding president of the Guild headquarters had deep feelings for master Yu. After master Yu's accident, the president resigned from his position and disappeared. The one who took over the position was his disciple, who was the second president of the craftsmen's Guild headquarters.

The second president's temper was very similar to his master's. He looked down on Wu Xuan in every possible way and did not give a good look to the people of the divine lord's estate. Moreover, the blacksmith's status in the divine world was very high. Therefore, the people of the divine lord's estate at that time could only tuck their tails between their legs in front of the blacksmith's Association! At that time, it was also the most glorious time for the craftsmen's Association in the divine realm.

It was only when the third president took over the craftsmen's Guild and Wu Yan's position in the divine realm was consolidated that the relationship between the craftsmen's Guild and the God lord's estate eased up a lot! However, the two of them were definitely not in a superior-subordinate relationship.

After the two previous presidents of the craftsmen's Guild had unloaded the heavy burden of the Guild, they had actually disappeared without a trace. As for where they had gone, no one knew!

Although the two previous presidents were not master and disciple in name with the great elder, they were in fact master and disciple. Therefore, the great elder had always paid close attention to their news. He even thought that they might have fallen into the hands of the fog as a result of the fog's revenge. However, the possibility of this was very low. After all, the two presidents were not weak. If they had really fallen into the hands of the fog, the fog would definitely not let go of the opportunity to control the armament Guild headquarters. However, such a thing did not happen now.

At the same time, the first elder was also well aware that the two of them were still alive and well, because their Jade plates of life were still intact. This was the only thing that made him feel gratified.

As for the current president of the craftsmen's Guild headquarters, although he was very cunning in some ways, but now this President basically did not care much about the affairs of the Guild. And now, the original three vice presidents of the Guild headquarters had become two and these two had an unusual relationship with Xue 'er. Therefore, the great elder was not worried that anyone in the craftsmen's Guild would dare to rebel, unless that person's brain was kicked by a donkey!

Thinking of this, the great elder was more confident in his words, and Liu Feng naturally did not need to worry.

Shen nuo and Liu Yue were also very confident in The Alchemist Guild headquarters. After all, the relationship between the three vice guild leaders of The Alchemist Guild headquarters was very good, and in terms of importance, The Alchemist Guild headquarters was a level higher than the blacksmith Guild headquarters. After all, one could not use weapons and equipment, but one could not guarantee that one would not be injured, right? Therefore, alchemists were absolutely not to be offended!

After the first elder finished speaking, Shen nuo also solemnly represented The Alchemist Guild to express her attitude.

"Master ning, The Alchemist Guild always has us two vice guild leaders here. You don't need to worry!" Shen nuo said with a smile. He had obtained many precious medicinal ingredients from Xue 'er, so even if he was short on hands, he still had to firmly stand on that girl's side.

Moreover, how could he not know what kind of strength that girl had after being with her for so long? They had been living here since the end of the elite gathering.

"Al! Maybe I'm just worrying for nothing, but I hope things will be as easy as you say. " The master of the ning family suppressed the uneasiness in his heart and sighed.

"Old man ning, you have to believe us. We will definitely stand on Xue 'er's side. No matter what kind of pressure there is from the outside world, it will not shake our determination!" First elder consoled.

When Liu Feng and the other two heard this, they quickly nodded.

"Hmph! I'm finally not wrong about you!" The master of the ning family was proud.

When first elder and the others saw this, they could not help but chuckle.

After the heart-to-heart talk, master ning and the others left the room one after another.

Leng ruoxue, who was in the garden, saw that her Godfather and the rest had come out. Her Godfather seemed to be in a good mood, so she relaxed and teased,""Godfather, are you guys done resting?"

"Yup! Xue 'er! We're setting off tomorrow morning, why haven't you rested yet?" Seeing that Leng ruoxue and the rest were still sitting in the garden and chatting, master ning deliberately put on a stern face.

"I'm listening to Lin tell me about master! While you're at it, wait for uncle long and Dongfang Yue. " Leng ruoxue laughed.

"Oh, really? Then we'll listen as well. " The master of the ning family was interested and added,""I don't think uncle long and Dongfang Yue will be back so soon, right?"

"Who said that?" As soon as the master of the ning family finished speaking, everyone saw uncle long and Dongfang Yue walk in.

"Hehe! Godfather is wrong. They are back. " Leng ruoxue laughed evilly.

"Uh! The Phoenix territory isn't close to here, how did you guys come back so quickly?" The master of the ning family asked curiously. Even if the divine Lord was fast, it would take three or four days to go from here to the Phoenix territory. However, these two people only took a few hours. He could not help being surprised.

"We didn't go to the Phoenix territory." Uncle long glanced at the master of the ning family and said unhappily.

Leng ruoxue and the rest perked up when they heard that there was something wrong with uncle Long's tone. They all looked at uncle long and Dongfang Yue with sparkling eyes, making the two of them speechless.

"We met two old phoenixes on the way. They started fighting with us without saying anything." Dongfang Yue explained.

"Uh! Isn't that Little Phoenix called Qing 'er here?" Leng ruoxue understood. There must have been some misunderstanding with the two old phoenixes.

"At that time, the little Phoenix was unconscious. The two old ones thought that we were bullying their family's younger generation and wanted to fight us to the death." When Dongfang Yue said this, he glanced at uncle long and forced a smile. He clearly remembered that uncle long had admitted that he was the one who had knocked out the little Phoenix.

"Uncle long, didn't you explain to them?" Leng ruoxue could not help but ask.

"We didn't have the time. They asked me who knocked out Little Phoenix. I said I didn't have the chance to say what I was going to say next, and they started fighting with us! "You bastard!" The Feng clan has always been so barbaric. I'm going to stay far away from them in the future. Also, Xue 'er, let's not meddle in these things in the future! Those little fellows were disobedient. Even if they were captured by humans and forced to recognize them as their Masters, they were the ones who asked for it! Let's not waste our efforts!" Uncle long complained. Now that he thought about it, he still had a stomach full of anger!

"Uncle long, the ancestor that the little Phoenix was talking about is my Beastie, so I can't just ignore it! But don't worry, there won't be too many of such things! In the future, if any small beasts come looking for me, I'll just leave them here and wait for their parents to come and claim them. Is that okay?" Leng ruoxue tried her best not to laugh as she coaxed him.

"En!" Uncle long nodded in satisfaction.

Seeing that uncle long wasn't so angry anymore, Leng ruoxue took the initiative to change the topic and said, "I'm going to the Yao family with Godfather tomorrow morning. Who else wants to go?"

"Little girl! We're not going to have fun, so there's no need for so many people, right?" Before the others could react, the master of the ning family quickly reminded them. He felt that if he brought Xue 'er, he couldn't leave behind little ye and senior Cang. Including him and Xue 'er, four people and one beast were enough, so he didn't plan to bring anyone else! Otherwise, if they went down the mountain in such a grandiose manner, wouldn't it be equivalent to sending living targets to the group of people at the foot of the mountain?

### [Chapter 2222 The Ning Family's Storm \(3\)](#)

"It doesn't matter, it's more lively with more people!" Leng ruoxue didn't take this trip to the Yao family seriously at all. Furthermore, she really did have the thought of going out to relieve her boredom. She felt that in the past few days, uncle long and the others must have been holding a grudge in their hearts because of the reward notice from Wushan. If this grudge couldn't be released in time, what if it caused the people around her to be suffocated?

Hence, for the sake of their health, Leng ruoxue also hoped that they could go out with her to relax. As for those people at the foot of the mountain, if they were willing to guard it, then let them do so. She would just treat it as if they were watching over her house!

"I do want to go out, but I still have to consider our bounty!" Dongfang Lin said softly. The bounty on their side was also a counterattack against the fog ice sect. It was considered an official declaration of war against the fog ice sect. Therefore, he regarded it more seriously than Leng ruoxue. However, he was also quite interested in Leng ruoxue's suggestion. Hence, he was in a dilemma.

"Thinking while strolling will help you write a touching reward!" Leng ruoxue coaxed.

"Really? Then I'll go!" Hearing this, Dongfang Lin immediately made his stand.

"I'll go too!" Uncle long said.

With these two people taking the lead, the people present were actually eager to follow the Yao family to see the show. Seeing this, the face of the ning family's master darkened.

"Do you really think we're going out for a scenic tour?" The master of the ning family stood up from his seat in anger and roared.

"Old man ning, calm down! Actually, it's not like there are no benefits for us to go! At least, we can see the ugly faces of some people with our own eyes, and if you get into a fight with them, we can help!" First elder saw that the master of the ning family was furious and quickly comforted him.

"Godfather, everyone should go! When they're free, they can just stay in the house. If there's a commotion, they can see it through the house. If anyone wants to come out for a breath of fresh air, just let me know. It's fine if they don't want to come out, just like when they're at home, nothing will be affected." Leng ruoxue also consoled him.

"Right! Right! Xue 'er and I have our own houses, enough for everyone to live in. Furthermore, we promise to be obedient and not cause any trouble for you." The first elder guaranteed on behalf of the group.

"You ..." Hearing this, the master of the ning family was particularly helpless. Moreover, seeing the eager eyes of everyone present, he could only nod in agreement.

Just like that, the next morning, Leng ruoxue and the rest led the large group and set off.

Of course, on the surface, there were only Leng ruoxue, the evildoer, master of the ning family and Cang. In order to hide from the public, the three humans and one beast had specially consumed the appearance-changing pill. This time, Cang had changed into the appearance of a cat.

When the three people and one beast went down the mountain, they did not attract the attention of many forces at the foot of the mountain. Those people thought they were from other forces. How could they know that the ning family's main residence had long been empty!

After they were far away from the territory of the demonic lands, Leng ruoxue moved uncle long, Dongfang Lin, Dongfang Yue, Ao Jie, and the others out. The team of three people and one beast instantly grew a lot!

Looking at this group, the master of the ning family was a little depressed. He didn't want to bring so many people. After all, they had to go back to the ning family before going to the Yao family's divine realm. If some blind people in the ning family said something they shouldn't, wouldn't he lose all his face and dignity in front of these people? However, when he saw the strength of these people, he was

rather gratified because the combat power by Xue 'er's side was definitely not weaker than any of the eight great divine regions.

In his opinion, the people around Xue 'er were even stronger than the ning family!

"Ning family boy, don't dawdle, quickly bring us to the ning family!" Uncle long couldn't help but smile and urge the master of the ning family.

"Yes." The master of the ning family nodded and summoned his flying beast. He carried Leng ruoxue and the rest and flew straight to the ning family's divine territory.

After arriving at the ning family's God domain, they didn't waste any time and headed straight for the ning family's main city.

The ning family's second elder, who had received the news long ago, had already brought people to stand at the city gate in advance, respectfully waiting for their arrival.

The second elder of the ning family learned from his master that the former war god of the divinity, Dongfang Yue, and the others were with him this time. He was so nervous that he didn't know where to put his hands and feet.

Leng ruoxue and the rest had just reached the city gates when her sharp eyes spotted second elder looking around cautiously.

"Second elder!" Leng ruoxue called out softly. Second elder raised his head and saw his clan head with a serious expression. He quickly jogged over to welcome him.

"Patriarch, seniors, welcome! Welcome!" The second elder of the ning family said very enthusiastically, but the cold sweat on his forehead revealed his nervousness at the moment.

"You're really welcoming us? We're in big trouble now, aren't we?" Uncle long teased.

Upon hearing this, the second elder's cold sweat dripped down even more. Because other than his own family head, the others were all in disguise, so he didn't know who the person who ridiculed him was. The only thing he could be sure of was that these people were all older than him, and he couldn't afford to offend any of them!

"Uncle long, stop teasing the second elder." At this moment, Leng ruoxue kindly helped second elder out of his predicament, and she received a grateful look from him.

Ever since Leng ruoxue's relationship with second elder and the others improved, second elder had become her staunch supporter. Naturally, Leng ruoxue would have to take care of him.

And because of Leng ruoxue's care, second elder's status with the family head naturally rose in a straight line. Thus, second elder was happy to return the favor. Therefore, other than the family head, second elder had no lack of contact with Leng ruoxue, and would chat with her when they were free.

After calming down, the second elder looked at Leng ruoxue and said to his family head with a serious expression, ""Master, third brother is back."

"When did you come back?" Hearing this, the master of the ning family couldn't help but frown and ask.

"Two hours ago," The second elder quickly said.

"Oh! You don't have to report to me about such a small matter. " The master of the ning family said indifferently.

"Master, as soon as third brother came back, he wanted to go to the land of demons to find you, but I stopped him ..." The second elder wanted to say something, but he stopped. Although he only said half of it, the master of the ning family already understood what he meant.

"I know." The master of the ning family nodded slightly, then led Leng ruoxue and the rest towards the ning family's main residence.

When they arrived at the main residence and settled Leng ruoxue and the rest, master ning ordered second elder to bring third elder to his study room.

In the study.

As soon as the third elder saw the master of the ning family, he immediately said straightforwardly, ""Old ancestor, the Divine Master's estate is offering a reward for Leng ruoxue's arrest. Hence, I think we should draw a clear line with her immediately. Otherwise, we will incur the wrath of the masses in the divine world!"

"What did you just say?" Hearing this, master ning narrowed his eyes and his tone became colder.

"I said that we should draw a clear line between us and Leng ruoxue, so that we won't be implicated by her! After offending the Divine Master, she still wants to establish herself in the divine realm? isn't that a fool's dream?" Although the third elder was very afraid of his father, he still mustered up the courage to say it. Moreover, he felt that he was doing this for the good of the ning family. With this thought, his confidence also increased a lot.

"Is this your personal idea, or ..." Master ning asked, slightly raising his eyes.

"I've asked many elders, and they all have the same idea. " The third elder quickly said.

"In that case, bring all the elders who have this idea to me! I want to hear them say it themselves!" The expression on master ning's face was very calm, and no one could guess what he was thinking.

"Yes!" Hearing his own father's words, third elder was secretly happy. He felt that there was a way!

Then, he turned around and left master ning's study.

After he left, the second elder said worriedly, ""Master, I didn't expect him to be back in such a short time and already ..."

The second elder was clear that third elder had always hated Leng ruoxue to the core because of the previous incident. He had also thought that Leng ruoxue would make things difficult for him because of this incident. However, second elder had never expected that third elder would be able to convince a portion of the elders to stand on his side within a short two hours of his return.

But when second elder saw the number of elders third elder had brought into the study, second elder's heart instantly became cold, because the number of ning family elders who had the same thoughts as third elder was at least half of all the ning family elders, and many of them were his people!

Seeing these people, the second elder couldn't help but tremble with anger, and those elders who had originally followed his lead all lowered their heads, not daring to look at him!

"You all want me to draw a clear line with Xue 'er, right?" Master ning's cold eyes swept over the elders before he asked.

"Master! This is all for the safety of our ning family!" The third elder said with a righteous expression.

"I'm not asking you! I'm asking them!" The master of the ning family reproached unhappily.

"You guys tell me! Say it one by one!" After yelling at the third elder, the master of the ning family turned to the elders present.

### [Chapter 2223 Expelled \(1\)](#)

"Master, I, I agree with third elder's suggestion." An elder trembled as he gave his answer under the intense gaze of the ning family master.

After someone took the lead, the other elders also said it one by one. After saying it, all the elders immediately heaved a sigh of relief.

"What if I don't agree?" After hearing everyone's opinions, the master of the ning family continued to ask.

"Master, if you don't agree to this, then we can only announce that we are leaving the family. After all, the ning family members are innocent. They can't become the sacrifice of Leng ruoxue's battle with the Divine Master. As the third elder of the ning family, I have to consider the interests of our family members." The third elder said in a righteous manner.

"Oh? Are you doing this for the benefit of your clansmen?" Hearing the third elder's words, the master of the ning family couldn't help but raise his eyebrows.

"Yes! The master only has Leng ruoxue in his heart, while I only have the safety of my clansmen in my heart!" The 3rd elder nodded very seriously.

"If that's the case, then take these people who have the same opinion as you and leave the ning family!" The ning family master's sharp eyes shot at the third elder like a knife, and his tone was also extremely cold. The elders of the ning family, including the second elder, did not expect their master to make such a decision. Suddenly, all of them were stunned.

The third elder was obviously caught off guard by this situation. After all, according to his original intention, he just wanted to leave the ning family to let his father know their determination, but he didn't expect that his father would actually agree.

This fact made him instantly dumbfounded.

After he came back to his senses, the anger in his heart grew even stronger.

Could it be that Leng ruoxue was that important to the family head? For a woman who had no blood relationship with him, the head of the family was willing to give up his children and grandchildren? The third elder could not accept this result.

He widened his eyes in disbelief and looked at master ning with tears in his eyes. He choked and asked, "Master, are you really our ning family's old ancestor, my biological father? How could you be so cold-blooded? you're willing to abandon us for a woman who has no blood relationship with you? Have you ever considered our feelings? We are your descendants! How could you treat us like this?"

The 3rd elder choked with sobs. The other elders present also couldn't help but have tears in their eyes when they heard the 3rd elder's words. They sobbed in low voices, but they didn't dare to say anything. The air pressure in the study room instantly dropped below zero degrees.

However, when the master of the ning family heard the third elder's words, the expression on his face became colder and colder. He revealed a mocking smile and said, "You also know that I'm your ancestor and you're my grandson? I've lived for so long, but I've never heard of any family's descendants forcing their own ancestors to leave the family! You've really opened my eyes today!"

"Clan head, aren't we doing this for the clan? Now that Leng ruoxue is wanted by the Divine Master's residence and the magical beasts, if we continue to be too close to her, we will definitely be implicated by her! For the safety of the ning family, we had no choice but to do this!" The third elder said with an aggrieved expression.

"There's no need to say anything more. I'll tell you clearly now that I will not draw a clear line between me and Xue 'er! Don't even think of threatening me with leaving the family. From this moment on, you are no longer a member of the ning family!" The master of the ning family said ruthlessly. It was time for the ning family to be reorganized. This time, he would not be soft-hearted! Since these people wanted to threaten him by leaving the ning family, then he would fulfill their wish, Hmph! They would regret it one day!

The master of the ning family was very disappointed, because the great elder's words were still in his ears, and the heat had not even subsided, and the thing that the great elder had expected had happened in the ning family. This fact made him quite lose face.

After all, at that time, he was thinking that no one in the ning family would dare to challenge his authority like this! He didn't expect that it had only been so long! The great elder's words came true!

"Second elder, you supervise their departure. Divide a third of the West of the ning family's God domain as their territory. They can also take away their own things. Their deadline is before tomorrow morning. I don't want to see them again. " The master of the ning family ordered, and then left the study angrily.

The second elder, who had originally wanted to plead for them, swallowed his words when he saw this scene. This was because he knew that the family head had always kept his word! And this time, the family head was equally serious.

"Al! Go back and pack your things, and prepare to leave the ning family's main residence!" The 2nd elder sighed, then looked at the 3rd elder with dissatisfaction.

"Second brother!" The third elder called out with a dispirited expression.

"Don't call me second brother! I'm not worthy!" The second elder said coldly. He was also angry at the third elder's actions, so he didn't want to bother with him at all!

After saying that, the second elder called over some guards and accompanied the elders to pack up their things. This time, it was not just these elders who were leaving. Their descendants, subordinates, and so on, all those who had a close relationship with them would be expelled.

On this day, the ning family was destined to not be peaceful!

The other elders who had heard the news rushed over. After asking the second elder about the situation, they wanted to plead for mercy on behalf of the expelled elders to the family head. However, they were stopped by the second elder.

"Second elder, we can't just ignore this!" An elder said anxiously.

"Once the master has decided on something, he won't change his mind. Don't go to him, it will only make him angrier." The second elder said helplessly.

"Second brother, are we just going to watch the ning family split up?" The seventh elder said worriedly.

"I can't do anything about third brother's actions. You should know how important Leng ruoxue is to the master. So, I'm not surprised that the master would make such a decision." It was because he was not surprised that he tried to restrain his clansmen after the reward incident. He was afraid that they would accidentally say something they shouldn't and anger the master. However, he didn't expect that he couldn't guard against his third brother when he came back.

"Ai!" The second elder's words made the seventh elder sigh. In fact, the third elder had looked for him before and tried to sound him out. However, at that time, he had very seriously advised the third elder to give up on that idea. At that time, although the third elder didn't clearly express anything, he didn't refuse either. Who would have thought that the third elder not only didn't give up, but also ridiculed many elders and threatened to leave the family? it was no wonder that the family head was angry!

Now, the master had gone along with their wishes in a fit of anger, and the ning family had been completely divided!

"Second elder, seventh elder, why don't we look for young miss Leng and ask her to help third elder and the others plead for mercy!" At this moment, an elder suggested.

## [Chapter 2224 Expelled \(2\)](#)

But in the next second, all the elders' expressions changed drastically.

This was because a roar came from their hearts at the same time. "Whoever dares to bother Xue 'er because of this matter will be expelled!"

In an instant, the second elder and the others dispelled this thought.

In master ning's room.

The master of the ning family gulped down cup after cup of wine. When the great elder sitting opposite him saw this, he could only shake his head and sigh.

"Old man, why are you sighing? I've done what I said! Those who dared to threaten me were all driven out of the ning family by me, Hmph! Our ning family doesn't need such a descendant!" The master of the ning family said tipsy.

"Why do you have to do this! After all, they are your descendants!" The great elder said helplessly.

"Hmph! It's precisely because they're my descendants that I've only driven them out and given them a third of my territory. Otherwise, do you think I'd let those who threaten me live? Don't you always say that I have too many children and grandchildren? But now, the ones left behind were all obedient! At the very least, they wouldn't dare to threaten me!" The master of the ning family said with a bitter smile. Then, he poured himself another glass of wine and drank it all.

"By the way, you can't tell this to Xue 'er, do you hear me? Otherwise, I won't acknowledge you as my friend!" Suddenly, the master of the ning family pulled the head of the first elder and warned him very seriously.

"I won't tell her, but have you thought about it? paper can't hide fire. We can't keep this from her forever, right? When the time comes, if she finds out that you've chased your own children and grandchildren out of the ning family for her, how will she face herself?" The first elder said with a worried expression.

"Xue 'er will understand me. She won't let her imagination run wild like you." He knew that Xue 'er would agree with him, but he didn't want to put pressure on her now.

"Alright! Since you've already made your decision, I can only support you!" The great elder said.

"This is more like it! Don't try to persuade me! Please don't!" As master ning spoke, he passed out on the table.

First elder shook his head and helped him to the bed. He covered him with the blanket and left the room.

"How's Godfather?" The great elder had only taken a few steps after leaving master ning's room when he heard this. He was so scared that he quivered. After seeing the person in front of him clearly, he patted his chest in fear and said with a little dissatisfaction, "Little girl, are you trying to scare me to death?"

"I never knew that the great elder's courage was actually so small." Leng ruoxue glanced at first elder, who was pretending to be afraid, and teased him with a smile.

"Hehe! It's not too late to know now!" The first elder laughed awkwardly. Then, he pulled Leng ruoxue to the side and lowered his voice, "You know about it?"

"With Cang and green vessel around, do you think you can hide such a thing from me?" Leng ruoxue raised her brows and asked.

"Alright! I knew I couldn't hide it from you, but can you pretend you don't know?" The great elder requested.

"I'm just pretending not to know! Otherwise, I wouldn't be waiting for you outside!" Leng ruoxue said with a smile.

"That's true. By the way, girl, what do you think of this matter?" The great elder asked again.

"Since this is Godfather's decision, of course I won't interfere. We'd better wait and see!" Leng ruoxue thought for a moment. Actually, from her point of view, her Godfather's actions were completely understandable. After all, it was normal for those people to want to draw a clear line between them and her. However, they should never have used this matter to threaten her Godfather. This was something that she absolutely could not tolerate!

Hence, with Leng ruoxue's protective nature, she would never speak up for those people. However, she would not kick them while they were down, either. After all, Godfather's blood flowed in their bodies! At most, they would not mind their own business in the future. Of course, the premise was that those people would not come to her for trouble. Otherwise, after they were kicked out of the house by Godfather, she could not guarantee what kind of miserable end they would have. Everything would depend on the choice of those people.

Leng ruoxue really hoped that those people would know their own limits!

She was also very touched by her own Godfather's protection of her. Hence, at this moment, Leng ruoxue had decided that if the ning family knew what was good for her, she would love them as much as she loved them!

Following that, Leng ruoxue turned to first elder with a smile, "First elder, if you're kicked out of the armament Guild headquarters, I will definitely take you in. So, don't be afraid!"

The great elder had just responded with an "Oh" before he immediately reacted and stomped his feet in anger, "Stinky girl, how could I possibly be kicked out of the armament Guild headquarters? I'm the head elder of the craftsmen's Guild!"

"That's hard to say!" Leng ruoxue sized up first elder and blinked her beautiful eyes as she spoke with uncertainty.

With that, Leng ruoxue disappeared and ran away!

Only the first elder was left, stomping his feet in anger.

The next morning.

After Leng ruoxue and the rest finished their breakfast, they prepared to head to the Yao clan's God domain.

It was as if everything that had happened the previous night had never happened. The ning family was still as calm as ever, but only the second elder and the others knew that the ning family had not been peaceful last night.

Under his supervision, the third elder and the others packed up and left the ning family's main residence. Although many elders had tears of regret in their eyes, it was too late.

After they left, the second elder and the others had to remind those who knew the situation to act as if nothing had happened. No one was allowed to show any emotion on their faces, or they would be punished by the Family Law.

Hence, what Leng ruoxue saw was a group of ning family elders forcing a smile.

However, she had to pretend that she didn't know anything about this matter. Because this was Godfather's intention, she had to cooperate.

At the entrance of the ning family's main residence.

"Little girl, this time, seventh elder will accompany you to the Yao family. I'll stay at home to look after the house!" The second elder, who had come out to see off the family head and the others, said to Leng ruoxue nonchalantly.

"Yes, take good care of the house. When there's nothing to do, you must close the door tightly. Don't run around. The divine realm is very chaotic. Be careful not to be caught by fog and become fertilizer for her flowers!" Leng ruoxue warned him seriously. Then, she saw the second elder's face turn black. He was obviously frightened.

"Don't be afraid! You're a reverent God. Unless Wu Cheng comes personally, no one can capture you. " Seeing the second elder's darkened face, uncle long threatened him again.

Hearing their parting advice, the second elder couldn't help but tremble. He was on the verge of tears. 'These bad people!' Don't scare people like this, okay? He had been very obedient recently, so why did he still bully her?

Actually, Leng ruoxue felt that the atmosphere of the farewell was not too good, so she wanted to livene up the atmosphere so that everyone would not be so nervous. But now, while the others seemed to be happy, second elder was on the verge of tears.

### [Chapter 2225 Expelled \(3\)](#)

Al! Poor second elder! Leng ruoxue patted him on the shoulder sympathetically, then casually threw him a Jade bottle. When second elder saw it, he immediately broke into a smile, no longer caring about Leng ruoxue and uncle Long's bullying.

Leng ruoxue could not help but chuckle to herself when she saw the second elder's attention on the pills in the Jade bottle. This old man was getting easier to please. Then, she gave a look to the rest of the group, and they quickly got on their flying beasts and flew away from the ning clan's divine realm.

By the time second elder reacted, Leng ruoxue and the others had already disappeared.

The Yao family's divine territory wasn't too far from the ning family's divine territory. If they flew at full speed, they could reach it in five days. Thus, they arrived at the Yao family's divine territory at noon on the fifth day.

Hundred Bird City.

It was an ancient city with a long history, and it was not Leng ruoxue's first time here. The last time they came, it was to get rid of Xiao Bing, and this time, it was to accept the Yao family's invitation.

Of course, the Yao family had only invited the ning family this time. Leng ruoxue had nothing to do with it, so she was just a bystander!

Walking on the streets of hundred Bird City, Leng ruoxue gave her Godfather and great elder a look of tacit understanding. Then, like a happy bird, she pulled the demon and strolled around the streets.

However, after consuming the disguise pill, their appearances were really a little apologetic. Therefore, wherever they went, they could be said to have suffered from all the eye-rolls.

Leng ruoxue was very depressed about this.

Although she did not have a stunning face now, it was not to the extent that people would hate her, right? However, at this moment, in the eyes of the pedestrians on the street, she was like a fly that was being despised.

Why was this so?

Leng ruoxue could not understand.

"Girl, did you suffer a blow?" The master of the ning family, who had been watching coldly from the side, laughed and joked.

"A little! They didn't do this the last time we were here, right?" Leng ruoxue could not understand.

"Last time was last time. In fact, the Yao family's people in the divine realm have always been like this. They only like beautiful things and reject things that aren't so beautiful. It's just that your feelings last time weren't so obvious." The master of the ning family said very vaguely.

The moment Leng ruoxue heard this, she understood. Her Godfather wanted to say that she didn't disguise herself the last time, so she didn't feel the rejection. But now, she could feel it deeply. However, she also found it unbelievable. She didn't expect the Yao family in the divine realm to judge people by their appearance!

"Last time? What last time?" "What's going on?" the evildoer who heard their conversation asked with a puzzled look.

"When I was brought to the divine world by the yin clan's patriarch, Godfather and great elder brought me here once." Leng ruoxue explained softly.

"Oh!" The evildoer gritted his teeth when he heard this. At the same time, he hated master Yin. If it wasn't for that old man messing things up, how could he not have been involved in Xue 'er's matters?

At this moment, the seventh elder's voice rang out, ""Master, the Yao family has sent someone!"

When Leng ruoxue heard this, she immediately kept quiet and played the role of a servant girl, standing behind master ning with the demon. Then, she heard an extremely enthusiastic voice.

"Hello, master ning. Master heard that you'd come in person and specially sent me to welcome you." A short, chubby man appeared with the voice. The man looked very ordinary, and his height only reached the chest of the ning family master. However, with his chubby body, he looked like a ball.

Seeing this person's appearance, Leng ruoxue couldn't help but think to herself, 'just based on this person's appearance, the Yao clan from the divine realm actually dares to reject me? are you kidding me?'

Of course, she would never say this out loud. However, her impression of the Yao family's divine realm had worsened.

When the master of the ning family heard the ball's words, he only raised his eyebrows slightly and asked, "And you are?"

"I'm the ninth elder of the Yao family. Don't you recognize me?" The man who claimed to be the ninth elder of the Yao family looked at the master of the ning family with resentment.

Hearing this, the master of the ning family couldn't help but shiver. He wiped the cold sweat from his forehead without changing his expression. This meatball was the ninth elder of the Yao family? He didn't hear wrong, did he? Although he had only met the ninth elder of the Yao family once, the ninth elder he had met last time was definitely not the one in front of him!

"Master ning, um ... I had a little accident, so I became like this!" Seeing the confusion of the master of the ning family, the ninth elder of the Yao family told the truth.

"I see!" The master of the ning family nodded, then glanced at the ninth elder of the Yao family with sympathy, and said politely, "The Yao family head is really too polite, he actually specially sent someone to pick us up."

"Hehe, that's what I should do!" The ninth elder of the Yao family smiled so widely that his eyes narrowed into slits. The truth was that the head of the Yao family thought that they were moving too slowly, so he had sent him on this trip.

Then, the ninth elder of the Yao family showed his flying beast and made a gesture of invitation. "Master ning, I'll take you to the main city. Please don't stand on ceremony."

"Ninth elder, of course I won't stand on ceremony with you. However, your flying beast is so thin and weak, and there are so many of us, can it carry us?" Glancing at elder Yao Jiu's flying beast, the head of the ning family said with a worried expression.

Elder Yao Jiu's flying beast was a pigeon. Of course, pigeons in the immortal realm were definitely much larger than ordinary pigeons in the lower realm. However, no matter how large a pigeon was, it couldn't compare to birds of prey like eagles and Condors. Thus, the ning family head had asked this question.

When Leng ruoxue heard master ning's question, she laughed in her heart.

The embarrassment on the Yao family's ninth elder's face also disappeared in a flash. Immediately after, elder Yao Jiu nodded his head with certainty and said, "Don't worry, master ning, it can carry you!"

"If that's the case, then we won't be polite. Little Pigeon, you've suffered!" The master of the ning family looked sympathetically at the White Pigeon with a sad face, and then sat on it directly.

After that, Leng ruoxue and the rest also sat on it. Finally, it was the ninth elder's turn.

That pitiful pigeon trembled slightly as it flew up. Leng ruoxue looked at its wobbly appearance and was worried that it would not be able to hold on and throw them down.

Seeing this, the ning family's master frowned even more and said hesitantly, "Ninth elder, why don't we take our own flying beasts?" He was starting to pity the pigeon! It wasn't its fault for being small, but it was their fault for being overweight!

Flying in a super-gravity range was really dangerous!

"Master ning, it's a bit inappropriate for you to ride your own flying beast!" In the Yao family's divine realm, the Yao family's people who were qualified to ride a flying beast could only ride this kind of exclusive and gentle pigeon-type flying beast. Otherwise, even if he was the ninth elder of the Yao family, he was not allowed to fly above the Yao family's divine realm. Before he left the Yao family, he did not expect that the master of the ning family would bring so many followers and even maidservants. The result of his miscalculation was that he had to suffer the loss of this pigeon. Fortunately, the Yao family's main city was not far from here. He just had to endure it.

Seeing the ninth elder's constipated expression, the master of the ning family could only do as he pleased. In any case, even if this pigeon really couldn't hold on and threw them down, their lives wouldn't be in any danger. Maybe at that time, they would have a reason to slaughter that old Yao man!

With this thought, master ning became calmer and calmer.

After flying with great difficulty for nearly an hour, the poor pigeon finally brought them to the Yao clan's main city. The moment it dropped Leng ruoxue and the others off, the little Pigeon was completely exhausted.

Leng ruoxue glanced at the little Pigeon that was panting heavily on the ground. Even though she sympathized with its plight, she had no intention of helping it. After all, this pigeon belonged to the Yao family! And the Yao family should be considered her potential enemy! Who knows, after this meeting, she might fall out with the Yao family! So, she could only support this little guy in her heart.

"Master ning, please follow me." After putting away the exhausted pigeon, the ninth elder of the Yao family led the master of the ning family and the others into the main house of the Yao family and to the guest house.

After settling them down, the ninth elder of the Yao family immediately went to see his family head and reported to him.

Hearing that the master of the ning family had been brought here, the master of the Yao family let out a long sigh of relief.

Although he didn't expect the master of the ning family to come in person, knowing that the old man had really come, his heart was not at ease.

Originally, he had called for the meeting of the Eight Families and sent an invitation to the ning family just to test the ning family's attitude. He even thought that the old thing of the ning family wouldn't come in a fit of anger, but who knew that the old man would actually come! So be it! He even began to wander around the Yao family's divine territory. As a result, when he received the news, he immediately became nervous. Otherwise, he wouldn't have specially sent the ninth elder to pick him up!

However, now that he had brought her here, he felt that she was a hot potato. He was even more afraid that the old thing would cause trouble for him. Therefore, the plan he had thought of before seemed to be useless!

Al! The head of the Yao family was so worried that he felt that his hair had turned white!

The head of the Yao family was flustered because of the arrival of the head of the ning family, but the head of the ning family in the guest courtyard didn't treat himself as an outsider at all. First, he ordered the people sent by the Yao family to serve him in a circle, and then he began to nitpick on the Yao family's food.

In the dining hall of the ning family's guest house.

Looking at the colorful, fragrant, and delicious food on the table, master ning's brows furrowed deeper and deeper. Then, he suddenly slammed the table and shouted, ""Didn't I say that I don't want to eat this pig feed? Why did you bring it to me again?"

"Master ning, I've remade it several times. It's definitely made according to your requirements. Try it!" The Butler was sweating profusely, and his heart was already filled with tears. Wu...This ancestor was too difficult to serve!

#### [Chapter 2226 Badly Battered \(1\)](#)

If it wasn't difficult to serve, how could he be called an ancestor?

Leng ruoxue, who knew what a certain housekeeper was thinking, was also sighing in her heart. At this moment, the attendants and maidservants were all sitting at another small dining table and watching their Godfather's display of power in the Yao family.

Oh! To be more precise, it was Godfather who was venting his anger!

Because of what had happened at the ning family, Godfather was very unhappy. However, in front of them, he could only endure it. Now that he was at the Yao family, he could easily find an excuse to get angry, so there was no need to endure it anymore. Therefore, these unlucky people from the Yao family were the first to become Godfather's fire extinguisher. However, Leng ruoxue believed that this matter was not over.

In fact, she didn't want the Yao family to have an easy time either. After all, the Yao family was after her this time. If she didn't do anything, she would be looked down upon by the Yao family!

Glancing at the evildoer, Leng ruoxue realized to her dismay that if she did anything, the Yao family would not know. Al! Forget it! It was impossible to have both sides perfect. This time, she would be an invisible hero! Hehe!

As she thought about this, Leng ruoxue couldn't help but reveal an evil smile. At that moment, Dongfang Yue and uncle Lian who were sitting at the same table as her started to feel nervous.

Leng ruoxue's smile had left a deep impression on the two of them. Ever since they had followed her back to the land of demons, every time they saw Leng ruoxue smile like that, it meant that someone was going to be in trouble! In short, they had suffered a lot because of this.

Even though Leng ruoxue had accepted them, when that lass pranked them, she would not hold back at all. Once, they were unlucky enough to let Shen nuo test the medicine! Of course, they couldn't be blamed for this, because they wanted to eat the medicine out of curiosity! Wu ... That detestable girl actually made Shen nuo make the medicine into the shape of a snack, and it was an extremely alluring snack at that. She placed it on the small table in the garden. In the end, their hands were cheap, and they took one to eat, and they fell for it.

Therefore, it was not necessarily to mess with them. It was just that other than them, no one else was as greedy as them! From then on, whenever they saw food, they would be extra careful. Unless they saw Leng ruoxue and the others eating it, they would not dare to touch it.

They could still remember how Leng ruoxue had laughed just like this! He just didn't know who would be the unlucky one this time.

All of a sudden, uncle Lian and Dongfang Yue felt an intense pain in their abdomens. In an instant, their faces contorted in pain. Then, there was the sound of plates and bowls shattering and falling to the ground. Uncle long and the others, who had sensed that things were not going well, also fell to the ground in pain ...

At this moment, master ning, who felt that something was amiss, turned around and saw that Leng ruoxue and the rest had been knocked down. He stood up in a rage and pointed at the guest house's butler, who was already trembling, and shouted, "What's wrong with them? Can you explain it to me?"

"I-I'm not sure!" The poor Butler was sweating profusely. He really didn't know what had happened to these people. Why did they all suddenly fall to the ground?

The Butler's face was full of fear and confusion. However, he was still a Butler, so he could already feel that things were probably going to get worse.

Thinking of this, the guest courtyard's steward quickly said, "Don't worry, master ning, I'll go find someone to help!"

"No hurry, my ass! My people have all been harmed by your Yao family, and you're telling me not to be anxious?" The master of the ning family roared angrily, then stretched out his foot and kicked the housekeeper who was about to leave to the ground.

However, his kick wasn't fierce, so the guest courtyard's steward only rolled twice on the ground, then rolled and crawled to hide in a corner. His face was pale, and he looked at the ning family master with fear.

"Master, master ning, please calm down. I just want to find the ninth elder. I, I can't solve this!" The Butler thought for a moment before stammering.

"Good! Go and find him and quickly get someone who can make decisions in your Yao family to get over here. I'm telling you, if even a single hair on my people is missing, I'll make your Yao family pay!" After master ning said those harsh words, he quickly ran to Leng ruoxue's side and helped her up to check on the situation. The guest house's butler, who was trembling in fear, took the opportunity to run out.

After the housekeeper left, Leng ruoxue, who had been pretending to be unconscious, opened her eyes slightly and gave her Godfather a comforting look. When master ning saw this, he finally relaxed.

However, he could not help but laugh and curse in his heart. This little girl, how could she think of this? she really scared him to death!

Then, he looked at uncle long and the others. He realized that they were different.

Dongfang Yue and uncle Lian's conditions seemed to be more serious. Their faces were somewhat deformed. They had already let the audience down after disguising themselves, but now, their faces seemed to be a little crooked!

As for the others, other than the pain on their faces and their pale faces, they shouldn't be in as much pain as the two of them!

With such a comparison, what did master ning not understand? Ai! What a pitiful guy! Xue 'er still hated the two of them! She didn't know when they would stop being treated so differently.

At this moment, Dongfang Yue and uncle Lian, who were in so much pain that they couldn't even faint, saw that the others had fainted so easily. What else did they not understand? sob ... They had been tricked by this girl again! Moreover, this girl had definitely put the medicine into the food in front of her.

He was really ruthless!

The two of them thought to themselves with lingering fear. However, they also knew that this time, they were definitely not the only ones who were schemed against. That girl's target was probably the Yao family, and they would suffer along the way! But even so, they were already unlucky enough!

However, when they thought that it was possible that only the two of them would fall for it, the two of them felt even more depressed. They would never believe that Leng ruoxue would scheme against everyone! However, seeing how they all acted so well, the two couldn't help but sigh. It seemed like they still had a lot to learn!

Just as the two of them were sighing and even losing consciousness from the pain, they saw a meatball rolling in from the corner of their eyes.

This meatball was the ninth elder of the Yao family. When he received the news and heard that something had happened in the ning family's guest yard, he immediately broke out in a cold sweat. After sending someone to report the matter to the master, he quickly came to see the situation.

It would have been better if he didn't take a look, but the moment he did, he turned pale with fright!

Apart from the master of the ning family, everyone else was lying on the ground, including the seventh elder of the ning family, who had a very noble status.

The seventh elder of the ning family had a high status in the ning family to begin with. This time, his status and position in the ning family team were second only to the master of the ning family. Therefore, when such a big figure was in trouble, the ninth elder of the Yao family couldn't control his cold sweat.

Although the cause of this matter was still unclear, if something happened to the seventh elder of the ning family in the Yao family, the Yao family would not be able to clear their name even if they jumped into the Yellow River!

[Chapter 2227 Badly Battered \(2\)](#)

Then, the ninth elder of the Yao family shouted to his followers who had followed him in, ""You're all dead! Don't you know to help her into the room first?" Of course, those who were shouted at by him were some servants of the ning family who were scared silly. After the incident, they were all frightened and terrified. Their minds had long been muddled, so how could they think so much?

The attendants immediately reacted to the ninth elder's shout.

Just as he was about to carry the unconscious people in a hurry, he heard master ning shout, ""Who dares to touch them?"

Hearing this, the ninth elder of the Yao family became worried. Many of these people had fainted, so what did he mean by not moving them? Was he going to lie on the ground and wait for death? Of course, he didn't think that the master of the ning family didn't allow others to touch them because he wanted to use them as evidence. After all, it happened in the Yao family, and it was impossible for the Yao family to deny it!

Because the master of the ning family didn't play by the rules, the ninth elder of the Yao family was at a loss again! As for the servants of the Yao family, they were even more bewildered as they stood rooted to the ground. Some of the servants even made a gesture of lifting someone up, but now they didn't dare to move!

"Master ning, they'll catch a cold like this!" After taking two deep breaths, the ninth elder of the Yao family gathered his courage and said.

"Hmph! Do you think gods are ordinary humans? How can a God catch a cold so easily?" Hearing this, the master of the ning family couldn't help but say coldly.

"Uh! I'm doing this for their own good. Don't worry, master ning, our Yao family will give you a satisfactory explanation for this matter, so let's have someone send them back to their rooms first! We can't just let them lie on the ground forever!" Elder Yao Jiu couldn't help but feel a little embarrassed when he heard the words of the ning family's head. He also guaranteed that the Yao family wouldn't renege on their debt. In fact, his mind was clearly not calm at this time. Otherwise, he would never have said such words.

After hearing his words, the master of the ning family was indeed angry!

"Do you think I didn't allow your Yao family to touch them because I was afraid that your Yao family would go back on their word?" The master of the ning family asked coldly.

"Uh! Master ning, I didn't mean it that way, I just wanted to make clear our Yao family's position. We will definitely give you a satisfactory explanation for this matter!" The Yao family's ninth elder, who realized his slip of the tongue, quickly added.

However, the master of the ning family still didn't give him a good face. He took a deep breath and snorted helplessly, ""Hmph! I didn't let you touch them because I wanted you to find someone to figure out their situation first. Otherwise, if you touch them and make their situation worse, will you be responsible? I'll tell you clearly today that your Yao family must be responsible for curing these people. If any of them loses a single hair, your Yao family and I will never let this matter rest!"

"Yes! Yes!" The ninth elder of the Yao family nodded his head and bowed as he promised, "'Don't worry, master ning. We'll definitely make them alive and kicking again!"

After making his promise, the ninth elder immediately ordered the ashen-faced housekeeper to find an Alchemist to take a look at these people.

After doing all this, the ninth elder of the Yao family led the attendants of the Yao family to stand in the dining room and enjoy the cold Service of the ning family master with a smile. At this time, no one dared to sneak away.

Fortunately, the Butler was fast enough. In less than ten minutes, a man in his early forties was brought to the dining room by the Butler.

When elder Yao Jiu saw this, he immediately instructed, "'Your Excellency Zong Yun, please help these people take a look. Let's take a look at the seventh elder's condition first!"

The ning family's seventh elder had the highest status among these people, so elder Yao Jiu routinely asked The Alchemist to help him take a look. However, his move did not win the favor of the ning family's master. Instead, he heard a cold snort. Suddenly, elder Yao Jiu couldn't help but wonder if he had done something wrong again.

However, regarding his own mistake, he had a blank and ignorant face!

His Excellency Zong Yun, who was also the Yao family's chief Alchemist, came to the seventh elder after hearing his words and began to treat him carefully.

In the short few minutes that Zong Yun was examining the seventh elder, elder Yao Jiu saw that Zong Yun's expression was constantly changing and he would even frown from time to time, as if he was puzzled and suspicious. His heart was immediately suspended in mid air.

F \* ck! What did Zong Yun mean by this? Elder Yao Jiu cursed inwardly.

Sometimes, it wasn't good for auxiliary personnel like alchemists to have too many expressions on their faces. It was easy for people to let their imagination run wild. Elder Yao Jiu had already imagined many bad outcomes in his mind, and the more he thought about it, the more his heart seemed to fall into an abyss. He didn't dare to imagine how the Yao family would explain to this old man of the ning family if something happened to the ning family!

As everyone knew, the head of the ning family was violent and protective of his own. Therefore, when he thought of the ning family's head's personality, elder Yao Jiu deeply felt that it wouldn't be so easy to deal with the aftermath of this matter.

At this moment, he was really regretful. Why did he take on the job of receiving guests in the seven God domains? Look! It was only the first day and the ning family was in trouble! There was still a long time to go, because he was not sure when the meeting would end. After all, it had not even officially started!

Elder Yao Jiu wanted to cry when he thought about the bitter days ahead!

Just as the ninth elder of the Yao family was letting his imagination run wild, Alchemist Zong Yun had clearly finished his inspection. He lightly stroked his goatee and began to shake his head.

Seeing him like this! Elder Yao Jiu really wanted to give him a few vicious kicks. You're done with the examination, so you can just tell me! Are you deliberately trying to make me anxious?

As if he could sense elder Yao Jiu's anxious mood, Zong Yun stroked his beard and slowly opened his mouth.

"Master ning, ninth elder, these people have been poisoned!" Zong Yun said indifferently.

"Poisoned? What poison?" Upon hearing this, elder Yao Jiu hurriedly asked.

"I haven't found it yet, but it looks like snake venom!" Zong Yun said with a calm expression. However, elder Yao Jiu was unable to remain calm after hearing his words.

F \* ck! If a dignified Alchemist couldn't even detect this bit of poison, then what was the point of having him? Elder Yao Jiu was burning with rage as he screamed in his heart. However, he didn't dare to shout out these words. Otherwise, the consequences of offending Zong Yun would be very serious! After all, Zong Yun was someone that the Yao family had spent a lot of money to poach from The Alchemist Guild headquarters!

"How could he be poisoned by snake venom? Don't tell me that your Yao clan has a venomous snake?" At this time, the master of the ning family held back his laughter and asked with a serious face.

"This old master is not sure!" Zong Yun said indifferently. After he finished speaking, he even intentionally shot a glance at the ninth elder of the Yao family. Instantly, the ninth elder's anger was ignited again.

"Master ning, no one in the Yao family keeps poisonous snakes!" Upon hearing this, the ninth elder promised.

### [Chapter 2228 Badly Battered \(3\)](#)

"Elder Yao Jiu, don't be so full of yourself. In fact, it doesn't matter if you have one. To be able to take in a poisonous beast as a contracted beast is also a kind of ability, no? But the premise is that you have to find a way to get rid of this snake poison! Otherwise, our ning family's seventh elder and my pitiful subordinates will suffer!" The master of the ning family was understanding.

Zong Yun also nodded in agreement, ""Master ning is right. Curing the poison is the top priority. Otherwise, once these people's poison is deepened, even if an alchemy God came, he would be powerless!"

As he said this, Zong Yun had already inspected Leng ruoxue and the others, and had come to the same conclusion. However, from his point of view, the poison wasn't too deep for the others, but there were two people who were rather severely poisoned.

Then, he started to check the food on the table.

In the end, Zong Yun found out the source of the poison and said to elder Yao Jiu, ""Ninth elder, this food and tea are poisoned. According to my guess, the poison should have been in the water. So, ninth elder, please immediately order people to seal the two wells of the Yao family. Otherwise, the consequences will be unimaginable."

When the ninth elder of the Yao family heard Zong Yun's words, he was just about to ask for the permission of the family head when he received a report from the waiter, saying that the Cheng family, Yin family, Lu family, and the others were also showing signs of poisoning. Instantly, he had a big headache!

Elder Yao Jiu, who felt that the matter was too serious, apologized to the ning family head. Before he left, he ordered his attendants to carefully carry the person back to his room and then hurriedly left the ning family's guest courtyard to go to the other three families.

Seeing the ninth elder of the Yao family in such a terrible state, the master of the ning family felt very satisfied! But he didn't expect that Xue 'er would be so fast and think so perfectly. If only the ning family was poisoned, the Yao family would not be able to back out! However, now that there were three more families, it would be impossible for the Yao family to get over all of this easily!

The ning family's master's mood instantly brightened, and he even found the Yao family's Alchemist to be much more pleasing to the eye. He pulled Zong Yun aside and asked, but his face was still filled with worry.

It had to be said that after being with Leng ruoxue for so long, master ning had learned to be able to fool people without changing his expression!

As a matter of fact, after Zong Yun was flattered by him, it was as if he had found a confidant, and he was a little smug. He even very seriously promised the master of the ning family that he would do his best to cure everyone in the ning family.

Just as the two of them were chatting as if they regretted not meeting each other earlier, the ninth elder of the Yao family, who was alone among the people of the Cheng, Yin, and Lu families, couldn't help but feel exhausted.

Originally, he had wanted to send someone to the ning family's guest house to invite Zong Yun to treat the three families and see if they were poisoned by the same poison. However, when he thought of the ning family's master's expression, he gave up on this idea and sent three alchemists to each of these three places. In the end, he concluded that these three families were also poisoned, but the degree of the poison was slightly different.

This result was quite similar to the ning family 's!

The four alchemists had come to the same conclusion, so elder Yao Jiu naturally did not suspect that they had made a mistake. Therefore, after personally reporting the situation to his family head, he rushed to the ning family's guest courtyard without stopping.

Although it was four families that were poisoned, in elder Yao Jiu's heart, the ning family was still the most important. After all, the old man of the ning family was even more difficult to deal with than the other three families. Moreover, the other three families did not come in person, so they were naturally not as good when they met.

But when he arrived at the ning family's guest house, he saw the master of the ning family and Zong Yun talking happily. When the master of the ning family saw him, his originally smiling face was covered with dark clouds. This result made his heart instantly feel stifled.

The difference in treatment was too obvious! He wasn't the one who poisoned the ning family, so why did they have to give him attitude? The ninth elder of the Yao family felt extremely wronged! But he didn't dare to show it, and he had to smile.

Zong Yun was also quite happy to see master ning giving the ninth elder of the Yao family a hard time! It had to be said that the Yao family's relationship with others was really too bad!

In fact, Zong Yun couldn't be blamed for being a traitor. The Yao family had always respected him as the head Alchemist on the surface, but many of the Yao family members didn't think much of his status, thinking that he was just a worker for the Yao family. Those Yao family members might not be willing to offend him on the surface, but in the dark, they had always tried to make things difficult for him. He couldn't find any evidence, so he could only suffer in silence. After all, the Yao family had treated him well.

Now, Zong Yun saw that someone dared to give the Yao family a hard time. Although it wasn't because of him, he still felt very happy! At the same time, he was even more respectful to the master of the ning family.

Sensing this change, the master of the ning family was secretly pleased with himself. Then, he said to the ninth elder of the Yao family in a seemingly concerned manner, "What's the situation with the other three clans?"

"Their situation is similar to the ning family 's. They should also be poisoned!" Hearing the master of the ning family's question, the ninth elder of the Yao family didn't doubt him and answered truthfully.

"Has the well water been seized?" The master of the ning family asked.

"Not yet!" The ninth elder of the Yao family said as he wiped the cold sweat from his forehead. When he said this, he could clearly feel that the face of the ning family's master had darkened again.

"Why didn't you seal the well water immediately? Don't tell me that you think that there aren't enough people who have been poisoned?" The master of the ning family said angrily. Of course, he had to put on a full show.

"This ... I've already sent someone to check the well water. If it's confirmed that there's a problem with the well water, we'll immediately seal it up!" Elder Yao Jiu promised. In fact, he had asked the family head, and the family head had said that he would first observe the situation and have someone he trusted check it out.

When elder Yao Jiu heard this, he immediately understood. The family head didn't believe that something would happen to the well water! But in front of the master of the ning family, he didn't dare to say it so bluntly.

But how could the head of the ning family be so easily deceived? as soon as he heard it, he knew that this must be the intention of that old thing from the Yao family. That old thing liked to do useless things. To put it bluntly, he wouldn't turn back until he hit the south wall! Now that the truth was out in the open, they still wanted to send people to investigate.

Hmph! Check it! I hope you don't regret it! The ning family's master secretly sighed to himself, and Zong Yun's expression was also somewhat unsightly.

She clearly didn't trust his judgment! Zong Yun was furious! At the same time, he secretly decided that in the future, if the Yao family came to him to refine pills again, he would ruthlessly slaughter them and make them suffer in silence!

Thinking up to this point, Zong Yun's face was filled with worry as he spoke to the Yao family's 9th elder: "Elder Yao Jiu, this old man has already confirmed that it's snake venom, but I don't know what kind of poisonous snake it is. So, please find the snake that poisoned you as soon as possible. This old man needs its poison, otherwise, I won't be able to refine the antidote."

After he finished speaking, Zong Yun bid farewell to the ning family's master and left.

After Zong Yun left, the ning family's master sighed and said to elder Yao Jiu in a very serious tone, "Ninth elder, I have talked a lot with His Excellency Zong Yun just now. We both agreed that the possibility of the poison being in the well water is the highest. After all, we gods can not eat food, but we can not not not drink water. What a pity ... What a pity ..."

Listening to the ning family Master's words of pity, the ninth elder of the Yao family expressed his helplessness, but he could more or less understand his master's thoughts. In fact, the master didn't want this matter to spread. After all, the impact of sealing the well was too great, and it would cause panic in the Yao family, so they had to be careful.

Opening his mouth, elder Yao Jiu still hoped to explain, but the ning family head waved his hand, indicating that he didn't need to say anything more. He even said that he understood! But he didn't support it, and then he asked elder Yao Jiu to leave.

Elder Yao Jiu resentfully left the ning family's guest house and returned to the meeting hall, where they were currently discussing this matter. Furthermore, the Yao family's elders were arguing with each other until their faces were red and their hands were busy.

The Yao family's elders were divided into two factions. One faction felt that there was a problem with the well water and that it should be sealed up immediately to prevent the situation from escalating. The other faction felt that the poisoning of the ning, Cheng, Yin, and Lu families might not necessarily be a problem with the Yao family's water source.

The two sects stuck to their beliefs and felt that they were reasonable!

When the ninth elder of the Yao family arrived at the meeting hall and saw that these people were still arguing over the water source, he was instantly enraged!

"Are you guys done? Did I gather you here just to discuss whether there's a problem with the water source?" The moment elder Yao Jiu displayed his might, all the elders present were dejected and kept quiet.

Although elder Yao Jiu was only ranked ninth among the Yao family's elders, he was the most reliable and trusted elder of the family head. In the eyes of the family head, elder Yao Jiu's position even surpassed that of the Yao family's first elder. Thus, when elder Yao Jiu got angry, all the elders immediately became as obedient as little chicks.

"Ninth brother, calm down. We're just concerned!" The Yao family's first elder, who was sitting at the head of the table, said embarrassedly.

"Great elder, the water problem isn't the most important thing right now. I've already sent people to investigate, and once the problem is found, the two wells will be immediately sealed up. I've gathered you here in the hope that you can discuss a solution to this matter. After all, the poisoning matter is of great importance, and it might even affect the meeting of the Eight Families. At that time, if the patriarch blames you, don't you think you will be implicated?" Elder Yao Jiu sneered after hearing the first elder's words.

#### [Chapter 2229 Eight Families Gathered \(1\)](#)

Hmph! Don't think that he didn't know what these people were up to, but this time, they had made the wrong move! If the poisoning incident was so serious that it could not be cleaned up, the family head would not only blame him! None of the Yao family elders could escape!

With this thought in mind, elder Yao Jiu slowly calmed down.

But seeing him like this, it was the Yao clan's first elder's turn to be worried.

Ever since he had suffered a crushing defeat at the Yao clan tower, causing the Yao clan to lose a large sum of money, his position in the patriarch's heart had been plummeting. Although he still held the position of the first elder of the Yao clan, it was clear that his words were no longer as important as his ninth brother's!

This fact made him extremely depressed, but he couldn't find any good opportunity to show off and wash away his previous humiliation. Therefore, he could only watch helplessly as the ninth elder of the Yao family became a popular person in the eyes of the family head! The poisoning of the four families this time seemed to have allowed him to see the light of hope. However, after listening to the ninth elder's words, he deeply felt that it wouldn't be easy for him to gain enough benefits from this poisoning incident.

After some thought, the worry on the Grand elder's face deepened. He sighed heavily and said, "Ninth brother, this is all too sudden. We're worried, but we can't think of a good solution even after discussing it for a long time. The key is, will the four families that were poisoned let this go so easily?"

"That's why I think that there's not much point in our discussion here. It mainly depends on what the other four families plan to do. Therefore, I suggest that we first see what they think!" After a pause, the Yao clan's first elder continued.

The Yao family's first elder's words made the other elders nod their heads. Seeing this scene, the first elder couldn't help but feel proud. The older the ginger, the spicier it was. After all, ninth brother was still too young! He only thought about solving the problem, but he couldn't figure out the crux of the problem. In his opinion, those four families would never let go of such a good opportunity. They might even ruthlessly extort their Yao family! He was very experienced in this!

Because he had done that many times in the past. Of course, he had also been treated that way many times. The ones who left the deepest impression on him were uncle long and his people!

When he thought of uncle long and the others, he still gritted his teeth in hatred.

Initially, he thought that he would have a chance to take revenge for his imprisonment with the help of Leng ruoxue's incident. However, he did not expect that the Yao family would be the first to get into

trouble. This caught him off guard! Once this matter was revealed, it was obvious that a shadow had been cast over the meeting of the Eight Families.

Al! The other three hadn't arrived yet! If they heard about this after they came, what would their reaction be? When he thought of this, the Yao family's first elder was truly worried. He definitely didn't just want to see the ninth elder make a fool of himself. After all, this concerned the Yao family's reputation!

After hearing the Yao family's first elder's words, elder Yao Jiu asked with uncertainty, "First elder's meaning is that we should not move first?"

"Right! If the enemy doesn't move, we won't move either. Let's just wait and see what their next reaction is. After all, the one who stands out first will definitely lose!" The Yao clan's first elder said with a shrewd expression.

"But, they were poisoned in our Yao family. We can't just ignore them, right?" Although elder Yao Jiu also felt that great elder's words made sense, he didn't completely agree with them.

"No one asked you to ignore it! He still needed to show some concern! However, our Yao family can't be the first to relent or suggest how to deal with the aftermath. We must let them state the conditions first and then we can discuss them! We need to at least know what they mean first, so we won't be too passive!" The Yao clan's first elder suggested.

"Then ... Alright!" Elder Yao Jiu hesitated for a moment but still agreed. Seeing this, the Yao family's first elder was extremely proud!

At the same time, he felt that his right to speak had increased.

What he didn't know was that the ninth elder of the Yao family wouldn't do everything according to his wishes. After the meeting was over, elder Yao Jiu immediately went to see the head of the family and passed on the elders' wishes to his ancestor. After the head of the Yao family heard it, he pondered for a long time before nodding and repeatedly reminding him that the other three families weren't a threat. The main issue was the ning family's attitude!

With the family head's approval, elder Yao Jiu was full of confidence. Every day, other than visiting the poisoned people of the four families as usual, he didn't mention anything about the aftermath.

As time passed, the Cheng clan, Yin clan, and Lu clan also felt that something was not right. However, because they were all led by elders, there were many things that couldn't be decided at all. Therefore, the three families secretly discussed and each sent an elder to see the ning family master.

In fact, after the poisoning incident, the other three families had also sent people to the ning family's guest house to express their condolences. However, at that time, they didn't talk much about the matter in order to avoid suspicion, lest the Yao family think that the four families had joined forces, which would make it even more difficult to end the matter. But now, they couldn't care so much!

The three families had already sent the news back to their families. Before the master of the family arrived, they could only follow the lead of the master of the ning family! And this was also forced by the Yao family's attitude. At least, the elders of the three families all thought so.

The master of the ning family received them in the living room and very cordially, he took the initiative to ask about the situation of the poisoned person. The three elders also answered truthfully, but what made them depressed was that every time they mentioned the Yao family's attitude, the master of the ning family deliberately changed the topic. They didn't even lean on it.

The first face-to-face meeting had ended in failure!

The ninth elder of the Yao family naturally received the news immediately, but he was also confused.

What did master ning mean?

If it were him, he would be very happy if the other three families took the initiative to come to him, but the current behavior of the ning family master made him puzzled.

After that, he told the master of the Yao family about the situation. When the master of the Yao family heard it, he immediately believed that the ning family was just being pretentious! He wanted to use this matter to make the other three families stand on the ning family's side.

When he thought of this, he immediately ordered patriarch nine not to let the four families come to an agreement. They had to break the Alliance. Otherwise, it would be bad for the meeting of the Eight Families.

Elder Yao Jiu became nervous when he heard his family head's analysis. Then, he immediately went to see the elders leading the teams from the Cheng, Yin, and Lu families.

Because of an unsuccessful meeting between the four God domains, the Yao family suddenly became serious and acted as if they were facing a great enemy. The master of the ning family, who learned the news later, laughed so hard that his image was ruined!

Sitting in the garden of the house, everyone looked at the master of the ning family, who was laughing so hard that he almost rolled on the ground, not knowing what to say!

Did it have to be so exaggerated!

Wasn't it because the Yao family had started to value the other three families? However, the Yao family had not come to see the head of the ning family because of this matter. Shouldn't he be crying? How could he still smile so happily? Everyone was puzzled.

### [Chapter 2230 Eight Families Gathered \(2\)](#)

In the end, they thought that master ning might have been so angry! Because she was too angry, her behavior was abnormal.

Yes! It must be like this.

Having come to this conclusion, they looked at the master of the ning family with eyes full of sympathy. Even Uncle Lian, who had been tortured for the past few days, had forgotten his own pain and pitied the master of the ning family.

As he laughed, the master of the ning family, who was slow to notice, felt that something was wrong.

"What's with your gazes? Why are you looking at me like that?" The master of the ning family made everyone's eyes look at him with endless sympathy. He felt a little scared and uncomfortable.

"Master, this is no big deal. Please don't take it to heart!" As the direct descendant of the ning family's master, the seventh elder was the first to speak.

As soon as he finished speaking, first elder and the others also began to persuade him.

"You think I'm sad?" After listening to everyone's words, the master of the ning family was speechless! He was clearly smiling, so how could these people tell that he was unhappy?

"Godfather, they think you're trying to find joy in your suffering and force a smile!" Only she knew that Godfather was truly happy. He probably thought that the old man from the Yao family had pleased him!

"How is that possible? I really think it's interesting. That old man from the Yao family is so full of himself that he's afraid that our four families will wear the same pants and join forces to scheme against him because of this matter. He thinks too highly of himself. If we really wanted to scheme against him, would we need to specially join forces?" The master of the ning family said disdainfully.

In fact, the reason why he was so indifferent to the three families last time was all an act for the Yao family. Unfortunately, it caused the Yao family to misunderstand him even more. It had to be said that this was purely an accident!

"Uh!" Hearing master ning's words, the people who misunderstood immediately felt embarrassed.

The great elder cleared his throat and said, "Old man ning, what are your plans for this matter? tell us about it. I don't want to keep pretending to be sick. There are so many people coming and going in the Yao family, I'm afraid I'll be exposed!"

"What do you mean by that? you've really been poisoned. It's just that it's not that serious. Just pretend a little more. No one will suspect you!" Hearing the Grand elder's words, the master of the ning family laughed and scolded.

"That's true, girl. I'm not in pain at all now. Wouldn't it be different if I did this?" First elder asked Leng ruoxue after nodding his head.

"Don't worry, you don't look well. Anyone with common sense will know that you're sick! Of course, if you want to be like uncle Lian and Dongfang Yue, I can also satisfy you. " Leng ruoxue laughed evilly. When she heard this, not only did the great elder's expression change, Dongfang Yue and uncle Lian's faces also darkened.

If Leng ruoxue had not brought this up, Dongfang Yue and uncle Lian would have almost forgotten about the pain they had gone through. But now, Leng ruoxue had reminded them of it.

This girl was definitely doing it on purpose! Wu ... What a detestable, bad girl.

Dongfang Yue and uncle Lian looked at Leng ruoxue with resentment in their eyes! However, he was completely ignored by Leng ruoxue!

"Someone's here!" Leng ruoxue suddenly said.

The next second, everyone had already returned to their rooms. Of course, the person responsible for the transportation work was only Azure.

The person who had come to visit was the Yao family's chief pill master, Zong Yun. After hearing the report from his attendant, the ning family master immediately came out of his room and welcomed Zong Yun to the living room.

Recently, Zong Yun had become a frequent visitor to the ning family. Even if he had not thought of a way to save Leng ruoxue and the others, he would still come over to check on their condition. Of course, the main purpose was to see if the poison in these people had worsened or something! As time went by, he and the master of the ning family had become good friends!

When he saw Zong Yun, the ning family head was as enthusiastic as ever. Zong Yun also received great satisfaction from the ning family head, at least in his heart! After all, as an Alchemist, the greatest glory was to be respected by others, especially by someone at the top of the reverent-god level like the master of the ning family. To them, it could be considered the highest achievement!

The two of them chatted about all sorts of things in the living room, and for some reason, they started talking about the Yao family's ninth elder. When they talked about the ninth elder, Zong Yun's face was filled with anxiety as he looked around, and then, he cautiously said to the ning family head: "Master ning, I'm just gossiping with you. Recently, ninth elder has been in a terrible state because of the Cheng, Yin, and Lu families. It's a terrible sight!"

Of course, Zong Yun's words did not have any sympathy for elder Yao Jiu. On the contrary, there was a hint of gloating in them.

"What?" Hearing Zong Yun's words, the ning family's master put on an expression of interest and looked at Zong Yun expectantly. In his heart, he couldn't help but think, it seems that everyone loves gossip! Even the alchemists who had always been aloof and remote were not exempted from this custom!

The expression on the ning family head's face made Zong Yun's heart feel as if it was filled with electricity, full of satisfaction. If he didn't gossip, he would feel sorry for master ning, who was full of anticipation.

Then, Zong Yun whispered to the ning family's master, "Master ning, two days ago, elder Yao Jiu went to look for the elders of the three families in private and promised them some conditions. The only condition was that they had to keep it a secret, but not only did the three families not keep it a secret, but they even communicated with each other. After the three families checked, they found out that the conditions the Yao family gave them were actually divided into different levels, so the three families are now in a mess! Now, elder Yao Jiu can't even respond!"

"There's such a thing?" When master ning heard this, he pretended to be shocked and widened his eyes, as if he had heard a fantasy story. In fact, he had already known about this.

"Yes, master ning, I'm telling you this because we have a good relationship. I know that ninth elder hasn't come to see you yet, so I want you to be mentally prepared in advance so that you don't fall for the Yao family's tricks!" Zong Yun's face was full of worry, but he was afraid that his words would cause the ning family head to misunderstand and think that he was a traitor, so he added, "I don't have any other meaning in telling you this. I just feel that the Yao family is a bit unreasonable. Although they are

my bread and butter now, I still have a conscience. So, I didn't want to hide it from you. Otherwise, how can I be worthy of being your friend!"

Zong Yun's words were quite sincere.

When the master of the ning family heard this, he expressed that he understood, and implicitly said that if Zong Yun was not happy staying in the Yao family, he could come to the ning family!

When Zong Yun heard this, he was naturally very happy. However, he also expressed that he had no plans to leave the Yao family at the moment. After all, he was a trustworthy person. Although many people in the Yao family were annoying, the head of the Yao family had treated him well! Hearing this, the master of the ning family also expressed his admiration for him, and the two of them chatted more congenially.

At this moment, another waiter came to report that the elders of the Cheng, Yin, and Lu clans had arrived.
