

## Crazy Wife 2231

### [Chapter 2231 Eight Families Gathered \(3\)](#)

Hearing this, Zong Yun immediately chose to leave. The master of the ning family didn't ask him to stay, but as soon as Zong Yun left, the master of the ning family's face immediately became serious. As for the elders of the three families, as soon as they entered the living room, they saw the master of the ning family's cold face and unkind eyes staring at them. Suddenly, the three elders' hearts tightened, and they didn't know how to say it.

After a long time.

The elders of the three families almost knelt down under master ning's sinister gaze. In the end, master ning was kind enough to look away from them and asked indifferently, "What's the matter, three elders?"

"Master ning, this time you must give us Justice! You're a good friend of my family's old ancestor. Since he's not here, you're our backbone, so you have to support us!" A certain elder of the Cheng family said with tears and snot in his eyes after he came back to his senses.

When the other two elders heard this, they quickly chimed in.

When the master of the ning family heard their words, he said with a puzzled face, "I wonder what the three elders want me to support you with? As far as I know, the patriarchs of your three clans should be arriving soon, right?"

"Master will only arrive in a few days, so master ning, we're all counting on you now!" A certain elder of the Cheng clan hurriedly said.

Master ning couldn't help but laugh at her words.

"You only asked me to back you up, but you didn't say what it was. I can't help you!" The master of the ning family reminded.

"The Yao family is really going too far! "It's like this ..." The Cheng family elder's face was filled with righteous indignation, and then he told them in detail how elder Yao Jiu had found them. Before he finished, he didn't forget to add that they thought the Yao family had already looked for the ning family's patriarch, only to find out later that elder Yao Jiu had only looked for their three families.

"Al! Should I say that you guys are too stupid, or that you guys are too naïve?" After hearing the Cheng family elder's words, the ning family head couldn't help but sigh.

"Uh!" The ning family Master's words made the three elders speechless, because these two adjectives didn't sound good, and the meaning was similar, so they didn't want to hear either. But with the current situation, it seemed that they couldn't get rid of the big hat of being stupid or simple.

Then, the three elders heard the master of the ning family continue, "The Yao family is famous for its snobby nature. Although we are all from the eight great divine domains, our positions are absolutely different in the Yao family's heart! Just like this time, why did the Yao clan look for you first? Didn't they think that you were easy to deal with? I'm afraid you'll listen to me and make the Yao family bleed. As

the saying goes, pick the soft persimmons and pinch them! That's exactly how important you are in their hearts!"

"As for the nings, if we don't deal with you first, he won't come to me. But I'm not in a hurry. The Yao family won't dare to kick us out anyway. Otherwise, I'll never let them off!" After saying this, master ning's imposing manner immediately rose, almost scaring the three elders to sit on the ground.

Master ning's words were sharp and made people feel uncomfortable, but the three elders couldn't deny that he was speaking the truth. In master Yao's heart, the other six masters were indeed not as important as master ning. This was an indisputable fact. As for the elders, they were even less important!

Al! Master! When will you arrive! At the thought of this, the three elders couldn't help but sigh in their hearts. At the same time, they were thinking that if the family head was here, no matter what, the Yao family wouldn't treat the family head the way they treated them! More importantly, the family head could make the decision directly, but they couldn't! Otherwise, why would they swallow their anger and compromise?

In fact, the patriarchs of the Cheng, Yin, and Lu families had not arrived yet. Other than the long journey, it was also because the patriarchs of the three families had met by chance halfway. After meeting, they naturally had to discuss this matter in detail in secret, so it had taken some time.

As a result, the elders of the Cheng, Yin, and Lu families were a little anxious from waiting. Otherwise, they wouldn't have gone to the master of the ning family time and time again. But in the end, the master of the ning family could only tell them not to agree to anything with the Yao family before their master arrived. If the Yao family asked, they would all reply with four words: 'no comment'!

The elders of the three families were very obedient. When the ninth elder of the Yao family wanted to talk to them again, they directly told him, "we'll wait for their family heads to come and talk. They have no comment!"

This fact drove the ninth elder of the Yao family crazy.

Three days later, the elders of the three families finally saw their family heads.

Coincidentally, the patriarchs of the Chi, fan, and Yu families also arrived at the Yao family at the same time.

Seeing this lineup, elder Yao Jiu, who was in charge of receiving them, immediately had a headache!

Originally, he thought that he could settle the matter of the poisoning before the other three families arrived, but now, it was obviously not possible. Perhaps the poisoning incident a few days ago would rise to the level of a meeting between the Eight Families, and become a topic that must be discussed among them. If this continued, the Yao family would have to face the collective blame of the other seven families!

For elder Yao Jiu, this was definitely the worst situation and the one he didn't want to happen. Thus, after some consideration and obtaining the permission of the family head, he arranged for the guest courtyards of the Chi, fan, and Yu families to be on the west side of the Yao family's main residence, while the other four families' residences were on the east side. One East and One West didn't sound like

much, but the distance was definitely not close. At least, if one had nothing to do and wanted to have a small chat, it would take at least three hours to go back and forth.

The ninth elder of the Yao family, who was quite proud of his own creativity, didn't know that his unnecessary action made the other seven family heads laugh.

In fact, if they wanted to chat, they wouldn't have to go through so much trouble and go to someone else's place. Did the Yao family forget that there was a tool in the world called the voice transmission Jade tablet? Of course, it was also possible to send a message directly. This was not difficult for reverent-god level cultivators, but it would consume divine power. They rarely used it unless it was an emergency.

Just like that, the seven family heads simply communicated through the voice transmission Jade plate. The two family heads of the Cheng family and the yin family, who had a better relationship, directly stayed with the ning family's master. The Lu family, who was in the same boat as them, also did not want to be isolated, so they also came to disturb them from time to time.

Elder Yao Jiu felt helpless in the face of all this! Because he could not stop it at all!

In the living room of the ning family's guest house.

The Cheng clan head hadn't even warmed up his seat when he asked about Leng ruoxue's situation in front of the guest house's butler, who had yet to leave.

"Why didn't that girl come with you? I really miss her food!" The head of the Cheng clan said expectantly.

"Me too!" The yin family's master agreed as he glanced at the housekeeper, who looked constipated.

"It's an unusual time and troubled times, how could I dare to bring Xue 'er here? if she really came, wouldn't the Yao family eat her? I'm also afraid that you'll join forces to kill my adopted daughter and get the reward from Rime!" The master of the ning family glanced at the two people who wanted to see the world in chaos and said with a smile that was not a smile.

Upon hearing this, the patriarch of the Lu clan broke out in a cold sweat. As for the guest house's butler, who wanted to leave but realized that his legs were weak, his body was already shaking like a Fallen Leaf, teetering on the verge of collapse! He regretted not leaving immediately just now. In the end, he had let him hear such a thing. Wu ... He wouldn't be killed by master ning, would he? He couldn't help but imagine!

Of course, the master of the ning family didn't know what he was thinking. Otherwise, he would have told him that he was overthinking it! Even if they wanted to silence him, it wasn't just a small housekeeper like him!

"Hahaha! How could that be! I don't dare to provoke that girl!" Hearing this, the only two people who didn't change their expressions were the master of the Cheng and Yin families.

The two of them were willing to come here not only because someone in their family was poisoned, but also because they felt that they might run into the little girl. So, they put down everything they were doing and ran over.

When they heard that the little girl didn't come, the two of them were quite disappointed! However, they would never think that this was a sign of fear from the little girl!

"You're all wise!" After a deliberate pause, the master of the ning family revealed a proud smile.

Seeing him like this, master Cheng and master Yin really wanted to beat him up. Did he have to be so smug? It was really too detestable!

Not wanting to see the old man of the ning family continue to be smug, the master of the Cheng family changed the topic. "By the way, what are your plans for the poisoning incident? Why don't you all share your thoughts so that we can consolidate our opinions before telling old man Yao?"

"Old man Yao was afraid that we would do this, yet you still dare to brazenly discuss this matter with us!" Master ning said with a smile.

"What's wrong? He's afraid of us, so we're not discussing it? Who does he think he is!" The head of the Cheng family said disdainfully. Hearing his words, a certain Butler wanted to just faint. Otherwise, he was afraid that his heart wouldn't be able to take it. Sob ... The person they were talking about was their own ancestor! Was he going to listen or not? Obviously, the other party had no intention of avoiding him!

A certain Butler was very conflicted.

However, the head of the Cheng clan obviously didn't take him seriously and continued to add oil to the fire, "I've decided that if the Yao family doesn't give us a satisfactory explanation this time, my Cheng family will be the first to not let this matter rest!"

#### [Chapter 2232 The Battle Of Words At The Banquet \(1\)](#)

"That's right! If the Yao family can't satisfy us, at worst, the four of us will join forces and smash the Yao family's main residence. In short, this time, we must make that old thing's heart ache!" The master of the yin family also laughed evilly.

Hearing this, the patriarch of the Lu clan broke out in even more cold sweat.

They didn't say that when they came! Why did these two immediately change their minds when they saw master ning? W-will this work?

Although the Lu family was also one of the eight great divine regions, he really didn't dare to say such a thing. There was a certain gap between the Lu family and the Yao family in terms of strength, and the Lu family's relationship with the ning family's master wasn't as close as the Cheng family and the yin family's relationship with the ning family's master. Therefore, he absolutely didn't dare to say such a thing!

However, it was undeniable that it was so satisfying to say such words. In fact, among the other seven families in the eight divine domains, none of them liked the Yao family or wanted to make friends with them. Usually, it was just a matter of face. However, when the master of the Lu family heard such words, other than a trace of nervousness, he was more excited. After all, if the sky fell, there was a big one to support it! With these three family heads around, the Yao family couldn't just pick on a soft persimmon like him, right? If that was the case, that would be bullying!

With this in mind, the patriarch of the Lu clan slowly let go of the anxiety in his heart and focused on the conversation between the three of them. Not far away, the guest courtyard's butler, who had been trying to faint but was unable to, had an ashen face, as if his parents had died. His expression was as ugly as it could be.

When he saw this, the Lu clan's clan head started to pity him!

Al! What a pitiful guy! You have to hold on!

You can't blame anyone else for this, you can only blame yourself for living in the Yao family!

The head of the Lu family sympathized with a certain Butler as he focused all his attention on listening to the three men's conversation with admiration. However, he suddenly realized that the three men were getting more and more excited as they chatted, and they did not have anyone else in their eyes!

After a long time.

Only a 'plop' was heard. With a loud thump, the guest house's butler, who could no longer hold on, finally fell to the ground, his limbs twitching and his mouth foaming.

Seeing this, the head of the Cheng family smiled evilly and said, ""This little fellow has finally fainted! Al! It's really not easy. "

When he heard this, the Lu clan's clan head's face was already filled with black lines. He thought to himself, so you're doing this on purpose? You guys are too bad! However, he liked it! Hehe!

"Does this little guy have some hidden disease? Why was he in this state after fainting? Do you want to find someone to treat him?" At this moment, the master of the yin family also interrupted.

"No need! Just send him to elder Yao Jiu. This guy is that kid's confidant, so elder Yao Jiu will find a way to cure this little guy!" The master of the ning family said disapprovingly.

"If that's the case, then what are we waiting for? Men!" The head of the Cheng family looked very anxious. Those who didn't know would definitely think that something had happened to his Cheng family! In reality, he was more than happy to see the world in chaos.

As soon as the patriarch of the Cheng family finished speaking, two attendants ran in. When they saw their boss lying on the ground with white foam at the mouth, their faces turned pale with fright. They thought to themselves at the same time, "is the Butler being abused?" Sob ... Butler, you're so pitiful! How did these people torture you to the point that you're twitching!

When the two of them saw the Butler's miserable state, they were so frightened that they trembled a little. Moreover, they did not dare to touch the Butler without anyone's permission, for fear that they would be the next one to be like this!

"What are you guys doing? Hurry up and bring the housekeeper to your ninth elder. Tell him that this little guy's illness is acting up and ask him to get us a new housekeeper!" The master of the ning family saw that the two waiters were too scared to move and quickly urged them.

"Yes! Yes!" The two of them shivered as they replied. Then, they hurriedly dragged the unconscious Butler out.

Why did he drag it?

Because the hands and feet of these two people were trembling to varying degrees, their hands and feet were somewhat unstable, so they naturally limped as they walked! The housekeeper, who had already fainted, became a mophead, directly cleaning the floor.

Watching the three of them leave, the master of the ning family sympathized with the housekeeper.

With such an out of line and timid subordinate, she wondered how a certain Butler would react when he woke up! Hehe! He was looking forward to it.

When a certain housekeeper was brought to elder Yao Jiu, the already badly battered elder Yao Jiu's head immediately swelled again when he saw the housekeeper.

"Dammit! What was going on? Who did this to him?" Looking at the guest house's steward, who had vomited so much that his body was covered in filth, the ninth elder couldn't help but roar in anger.

The deafening roar made the two servants, who were already trembling in fear, sit on the ground in fear. The two of them, who were trembling non-stop, curled up into a ball like little chicks that had just come out of their shells!

Seeing them like this, elder Yao Jiu's anger grew!

"Dammit! Don't you know how to speak? Are you mute?" Elder Yao Jiu jumped up and roared.

"Ninth, ninth elder, we don't know what's going on either. I think, I think the housekeeper was abused by master ning and the others? They were the ones who asked us to bring the person out to you!" The two attendants finally finished what they wanted to say.

"The Butler was beaten up by them?" After hearing the attendant's words, elder Yao Jiu asked with uncertainty. Those people were all important figures, so they wouldn't be so low class as to beat up a small housekeeper, right?

"It seems so!" The two waiters weren't too sure, but looking at the housekeeper's appearance, they were undoubtedly being abused!

Hearing this, elder Yao Jiu could only invite an Alchemist to help the housekeeper consume a pill. The unlucky housekeeper immediately slowly regained consciousness.

The moment he saw elder Yao Jiu, the pitiful steward acted as if he had seen his own father and immediately started bawling. His bawling caused elder Yao Jiu's heart to be in a mess. In the end, elder Yao Jiu could only roar out, "Alright! Don't cry!"

"N-ninth elder ..." The housekeeper, who had been yelled at, looked at the ninth elder in a daze. His teary eyes were filled with disbelief. He had thought that he would be able to get some comfort! Who knew that the treatment would not improve at all! Wu ... At the thought of this, he felt aggrieved again. However, under elder Yao Jiu's furious gaze, he forced back the tears that were about to burst out.

"You were abused? You were beaten up by master ning and the others?" Seeing that the Butler's condition had improved, elder Yao Jiu hurriedly asked.

"No, I didn't!" The Butler shook his head vigorously.

As such, elder Yao Jiu didn't understand and couldn't help but ask, "Then why did you faint? And you even made yourself so miserable?"

"I, I was scared! Although master ning and the others didn't hit me, they cut me from the bottom of their hearts! Sob ... They were so scary! They said, they said that if our Yao family can't give them a satisfactory answer, they will join forces to destroy our Yao family's main residence!" The Butler said fearfully.

### [Chapter 2233 The Battle Of Words At The Banquet \(2\)](#)

"Hmph! They dare!" When elder Yao Jiu heard this, he jumped up in anger.

"Ninth elder, I feel that what they said might be true!" Seeing that the ninth elder did not believe him, the housekeeper could not help but express his opinion in a low voice. Of course, his words carried little weight, and the ninth elder would definitely not accept it!

"What did they say? tell me everything from the beginning!" Elder Yao Jiu became serious as he spoke.

The Butler nodded his head and then, from the beginning to the end, he described everything in detail. After he finished, he even looked at elder Yao Jiu carefully and assured him again and again that he was not lying and that he did not exaggerate anything!

"Rest well for a while. I'm going to see master ning. When you're done resting, go back and keep an eye on master ning and the others!" Elder Yao Jiu said after some thought after hearing the housekeeper's words.

"Yes!" Looking at the ninth elder's serious face, even if a certain Butler really wanted to tell him not to go back and serve those people, he couldn't bring himself to say it.

Then, a certain Butler watched as elder Yao Jiu left.

After elder Yao Jiu left, he immediately went to see his family head and reported what the Butler had said.

After hearing this, the head of the Yao family was so angry that he jumped three times high! There were still faint flames burning on his body.

He was still cursing, "damn it!" 'Damn old things, do they dare to try?' I'm not done with them!"

Hearing his family head's seemingly self-consoling words, elder Yao Jiu couldn't help but think to himself, 'family head, if you're really not afraid of them, why are you so angry? You're clearly too concerned!

Of course, he didn't dare to say this out loud. Otherwise, the master's anger would be directed at him!

But there were some things that he had to say!

After thinking for a while and coming up with the right words, elder Yao Jiu turned to the head of the Yao family and said with a serious expression, "Patriarch, now that the patriarchs of the other seven families have arrived, I'm afraid that it won't be enough for me to receive them. If they think that our

Yao family has neglected them, it will affect the meeting between the Eight Families, which will be quite disadvantageous for us! So ..."

"You mean, you want me to personally receive them?" Even though elder Yao Jiu didn't finish his words, the Yao family head understood the moment he heard it.

Elder Yao Jiu felt helpless when he saw the reluctance on the Yao family head's face. However, he still braced himself and said, "The other party is the head of each family. With such a lineup, only you, the head of the family, can show our sincerity. Otherwise, if we cause their dissatisfaction, I'm afraid the purpose of our meeting this time will be obstructed."

In reality, this was elder Yao Jiu's implicit statement. There were some truths that he couldn't say directly in front of the family head. Otherwise, the family head would definitely go crazy. Therefore, he could only hope that the family head wouldn't be so reserved and that it was time for him to appear!

After thinking for a long time, the head of the Yao family, who knew that the ninth elder's words were very reasonable, finally agreed helplessly. Although he was a thousand, ten thousand times unwilling to entertain those cunning old foxes, but since they were invited, as the master, he couldn't just not show his face!

Speaking of which, he didn't expect that the other seven family heads would come in person! With that, the original arrangement would naturally have to be raised!

The next day.

After a long nap, master Yao finally set up a banquet in the banquet hall to entertain master ning and the others.

During the banquet, the family heads naturally sat at the main table, while the elders and subordinates who were not poisoned were arranged to sit at the lower seats, accompanied by the great elder and others.

However, because the master of the ning family and the others were all pulling a long face and not saying a word, the atmosphere in the banquet hall was unusually dull.

"Master ning, master Cheng, master Yin, Master Lu, I'm really sorry for the poisoning incident a few days ago." The head of the Yao family glanced at the people at the table before speaking with a sincere expression.

"Yao family head, don't talk about these empty gains, let's talk about how you'll compensate us! The people of our four families can't suffer in vain! In addition, you should also quickly refine the antidote. If this drags on, how long do you plan to drag it out? You can afford to wait, but we can't. If someone from our four families dies, your Yao family will be the murderer!" After hearing patriarch Yao's words, patriarch Cheng was the first to feel troubled.

"Hehe! The Cheng family head was right. No one died yet. If someone died, it would be too late for you to refine the antidote. Therefore, you must get the compensation and antidote with both hands. We'll be waiting!" The master of the yin family quickly followed.

"Patriarch Yao, if someone from our Lu family dies, I'll suspect that the Yao family has other intentions by inviting us here! So, do as you see fit!" The patriarch of the Lu clan mustered up his courage and expressed his opinion. He knew very well that if he didn't say anything, the other three clans would definitely not interfere in the Lu clan's Affairs. At that time, the Lu clan would have little chance of winning against the Yao clan alone! Therefore, even if he had to offend the Yao family this time, he had to stand on the same side as the ning family, the Cheng family, and the yin family!

"Lu family head, may I ask what is the Yao family's intention?" The Yao family's head could tolerate the Cheng family head and Yin family head's words, but he really couldn't tolerate the Lu family head's words. Hmph! The Lu family was currently ranked second from the bottom in the eight major divine domains, yet they dared to go against the Yao family. They really didn't know their place! He was filled with hatred!

"How would I know? I'll have to ask your Yao family! Why did the families that came before us all get poisoned by your Yao family? isn't this enough to explain the problem?" The patriarch of the Lu family glanced at the patriarch of the Yao family and said in an infuriating manner.

"Yup! Yao family head, why are we all poisoned when we came first? If the other three clans come with us, I wonder if all seven of us will be poisoned?" The head of the Cheng clan also asked curiously.

As soon as they finished speaking, the other three patriarchs immediately focused their gazes on patriarch Yao, all of them waiting for his answer.

Seeing this, the Yao family head's lungs were about to explode!

The Yao family elders' faces were ugly, but they didn't even dare to breathe!

"How is this possible? Being poisoned was just an accident. " After taking a few deep breaths, the head of the Yao family suppressed his anger and said.

"Impossible? Then may I ask master Yao, why are only the four of us poisoned, but not your Yao clan? Don't tell us that we ate something bad? Hehe! If I'm not wrong, the well water of your Yao family is also poisoned, right? After so many days, this matter should have been cleared up! Can you give us an explanation?" After listening for a long time, the master of the ning family slowly spoke.

Patriarch Yao's face immediately darkened when he heard this, while the other seven patriarchs looked at patriarch Yao in shock.

### [Chapter 2234 The Battle Of Words At The Banquet \(3\)](#)

"Yao family head, has the well water been seized?" The master of the ning family asked again when the old man of the Yao family stopped talking.

"Not yet," After a long time, the head of the Yao family spat out two words.

"There's no problem with the well water? Or has your Yao clan already warned the Yao clan members not to dig for the water in the well?" The master of the ning family asked with a sneer. He had been biding his time these days, waiting for this day! Hehe! Today, he was going to make this old thing suffer in silence.

"I admit that there's something wrong with the Yao family's well, but the reason for your poisoning might not be because of the well water." The head of the Yao clan said stubbornly.

"Oh, really? Then can you tell me the cause of the poisoning?" The master of the ning family asked.

"This ... We're still investigating!" The head of the Yao clan said.

"Check my ass! It's been so many days, what have you found? Your Yao clan's Alchemist has already said that the poison in our four clans was from a snake, and that the poison was in the water. Yet, you still dare to say that the poison in our four clans has nothing to do with the poison in your well! Hmph! Even if he wanted to get rid of responsibility, he shouldn't be lying through his teeth, right? Do you think we're that easy to fool?" The master of the ning family sneered.

"Master ning, I want to ask you, since you insist that the four families were poisoned because of our Yao family's water, how come you're fine? Didn't the other three families also have people who weren't poisoned? Besides, we, the Yao family, also drank the water from the well, but we're still fine!" After listening to master ning's words, master Yao also questioned the doubts.

"Hahaha! You're asking me why I'm fine? I'll tell you the truth, I'm fine because I haven't eaten anything from your Yao family, not even a sip of water. If you don't believe me, you can ask your Butler. In fact, it should be because I haven't had the time to eat, because the food of your Yao family is just too hard to swallow!" The master of the ning family laughed and said with a hint of ridicule.

At this moment, the elders of the other four families also stood up and said to the head of the Yao family with a serious expression, "Yao family head, we're fine because we didn't eat the Yao family's food and water!"

Their testimony made master ning laugh even more.

But the Yao family head was so angry that his face turned green!

F \* ck! Could he say that these four families were all in the same boat?

At this moment, a guard ran into the banquet hall in a panic, shouting, ""Master! Not good, something has happened!"

Seeing this, the head of the Yao family immediately vented his anger on the guard and roared, "Why are you panicking? You're so loud, you really don't have any rules!"

"Master, something has happened! Many of our clansmen have been poisoned!" The guard shouted again.

Upon hearing this, everyone present stood up in unison. Other than the members of the Yao family, everyone's eyes shot towards the head of the Yao family.

When the Yao family's head saw this, he felt his head throb! He couldn't help but curse the guard in his heart!

'Damn idiot, is there anything that can't be said in private? He had to come here and talk about this in front of so many people. Now, he couldn't deal with it quietly even if he wanted to!

As expected, just as the thought appeared in patriarch Yao's mind, he heard patriarch Chi say with a worried expression, "Yao family head, the Yao family members have also been poisoned. Let's quickly go and take a look at the situation!"

"We have to go over and take a look! Hurry up and lead the way!" Without giving master Yao a chance to speak, master ning rushed to say. When the waiter heard this, he didn't dare to delay and immediately turned to run. Master ning and the others quickly followed.

At this time, the poisoned people were gathered in the hall, so that it would be convenient for The Alchemist to treat them.

After seeing the various family heads, the head Alchemist of the Yao family, Zong Yun, who was in charge of this matter, politely saluted them. Then, he anxiously said to the Yao family head, "Master, the area affected by the poison is very wide. Not only that, but the poison is also contagious. Therefore, we must immediately isolate the poisoned people! Otherwise, the consequences will be unimaginable. "

"It's that serious? What about the four of us? Do we need to isolate them?" When the master of the ning family heard this, he became anxious. He didn't care if this was the Yao family or not, and directly asked.

"The people from your four families don't need to be quarantined. They've already been poisoned and have developed a certain resistance to it. Therefore, the poison can't infect them. However, this poison is quite dangerous for us who haven't been poisoned yet. So, the Yao family's poisoned people must be quarantined immediately!" Zong Yun's face was filled with pain.

"If that's the case, then what are you waiting for? hurry up and act!" The master of the ning family urged.

"That's right! Hurry up! For the sake of our safety, we can't delay any further. Don't you agree, Yao family head?" Even at this moment, patriarch Cheng still didn't forget to ask for patriarch Yao's opinion.

When the Yao family head heard this, he nodded his head and immediately ordered Zong Yun and the others, "Zong Yun, you will be fully responsible for this matter! You alchemists have a much better understanding of poison than us. We really can't help you!"

"Family head, you are the ancestor and backbone of the Yao family. Therefore, these poisoned people need your comfort and encouragement. If you can stay here and accompany them, I think they will be able to cheer up!" After listening to the Yao family head's words, Zong Yun suddenly said. After saying that, he even looked at the Yao family head with an expression of anticipation.

"Old man Yao, what Zong Yun said is reasonable. Your Yao family has been poisoned too seriously, if you, the old ancestor, can stay here to accompany them, their fighting spirit will be even higher. So, for the sake of the Yao family, you should stay here! We won't be accompanying you! However, we will support you in spirit!" Master ning patted master Yao's shoulder and said earnestly. In fact, he had been laughing inside. This time, the old man of the Yao family was so depressed that he was about to cry! How did Zong Yun come up with such a good idea?

In fact, what Zong Yun said was the truth.

He sincerely hoped that the Yao family head could stay, because the Yao family members would really need his comfort. Only then would their will to live be stronger! However, he wasn't sure if the head of the Yao family would go to this extent for the Yao family, which was why he made such a request in front of everyone. In any case, whether the other party agreed or not, it didn't have much to do with him, but it was of great importance to the head of the Yao family and the Yao family!

In front of so many family heads and elders, the head of the Yao family naturally could not refuse. Therefore, after he heard Zong Yun's suggestion and the words of the head of the ning family, his face looked as if he was constipated, extremely ugly!

But he still nodded in agreement!

After all, in this case, if he refused because he was afraid of being infected, he would be despised by others. Wouldn't the image that he had painstakingly built up for so many years all be in vain?

In fact, he no longer had any image in other people's hearts, but he would never admit it!

Just like that, the head of the Yao family was forced to stay behind, while the other healthy people quickly left the hall.

The other Masters followed the master of the ning family to the ning family's guest house.

Sitting in the living room of the guest house, the master of the Cheng clan sighed gloomily. "Al! A good banquet was actually ruined by a sudden outbreak of poison. It's really a pity!"

"What's there to pity? you should be glad that the Yao family was poisoned. Otherwise, after this banquet ends, we will be on the list of poisoned people!" The master of the ning family said with lingering fear.

"That's true! But now, if we don't eat the Yao family's food or drink the Yao family's water, we might be infected with the poison. Don't you think we should move out to be safer? Please don't trap us all! Otherwise, we'll lose too much!" The head of the Cheng clan said.

His words resonated with the other family heads. They didn't want to be implicated by the Yao family! In their opinion, the Yao family had clearly offended someone! Otherwise, why would they poison them and even implicate the ning family and the rest!

"Then should we move out?" Glancing at the expressions of the Masters present, the master of the ning family probed.

"I agree!"

"I agree!"

Very quickly, the other six family heads all expressed their agreement to move out.

Then, they sent someone to inform the ninth elder of the Yao family and explained their decision.

Hearing this, the ninth elder of the Yao family immediately panicked.

At this time, if the Yao clan were to really ask the other seven clan heads to move out, then the news of the Yao clan being poisoned would probably spread throughout the entire divine realm by tomorrow.

Especially since their poison was infectious! If things went wrong, the entire Yao family's divine territory might be boycotted by all the major forces! Therefore, he could not allow such a thing to happen!

Before he could report to the master, the ninth elder of the Yao family had rushed to find the master of the ning family.

Seeing the ninth elder of the Yao family sweating profusely, the master of the ning family and the others naturally knew what he was here for. But this time, they didn't want to compromise. After all, this wasn't their own business.

Elder Yao Jiu tried his best to say good things, but the ning family head and the other seven family heads just wouldn't give in. Helpless, elder Yao Jiu could only look for Zong Yun. He also wanted Zong Yun to persuade them to stay.

When Zong Yun received this mission, he was in a difficult position. In fact, although the people carrying the infectious toxin were already under control, he couldn't guarantee that there wouldn't be any more people in the Yao family who would be infected. After all, the poison in the Yao family had a certain latent period!

#### [Chapter 2235 Hit It Off \(1\)](#)

This so-called incubation period could be long or short. Therefore, he couldn't guarantee to the patriarchs of the seven divine regions that the Yao family's poison was under control as elder Yao Jiu had requested!

What if, he was saying what if, another person's illness acted up again, who would be responsible for this?

Therefore, after thinking about it, Zong Yun felt that he could not take the blame.

Therefore, when he saw the master of the ning family and the others, he said directly, "Elder Yao Jiu asked me to come!"

The various family heads were all old and experienced people. The moment they heard this, how could they not understand what Zong Yun meant?

The head of the Cheng clan said with a smile that was not a smile, "Your Excellency Zong Yun, as a pill master, you must be responsible for what you say! I'm sure you're aware that if we continue to stay in the Yao family, we'll be implicated if someone in the Yao family has an illness! It's not impossible, right?"

Hearing these words, other than nodding his head, Zong Yun didn't seem to have any other reaction.

"To be honest, the poison in the Yao family is very strange. Although it's the same kind of snake poison as the one in the other four divine realms, the Yao family's symptoms are obviously much deeper than the other four families'. Therefore, I guess that the Yao family has been poisoned for a long time and has gotten used to it. The reason why the nings' symptoms acted up so quickly is that they're new here and are very resistant to the poison. That's why they reacted faster than the Yao family!" Zong Yun guessed with a serious expression.

"In that case, does it mean that someone has a grudge against the Yao family? Otherwise, why would he poison the Yao family? And our four families have become the unlucky ones in the Yao family incident

and are innocently implicated?" The master of the yin family came to a conclusion and said with a dissatisfied expression.

"This ..." Zong Yun didn't know how to continue the conversation. After all, he was a pill refiner of the Yao clan.

"Isn't it obvious? Fortunately, the Chi clan, Yu clan, and Fan clan came late. Otherwise, our eight great divine regions would have been wiped out by them!" The patriarch of the Cheng clan also roared in a low voice with an angry expression.

"Old man ning, we can't stay in the Yao family anymore. We have to move out, or else we might all be in trouble!" The head of the Cheng clan added.

"What do you guys think?" The master of the ning family didn't express his opinion directly, but asked for the opinions of the others.

"Master ning, didn't we agree to move out together? We won't change our mind!" The head of the Chi family promised.

"It is! That's right!" The other patriarchs also expressed their intentions.

Seeing that his mission had failed, Zong Yun did not continue to persuade him. Otherwise, if something really happened, he would not be able to bear the responsibility.

After that, Zong Yun bade farewell to the seven family heads. Then, he specially went to tell elder Yao Jiu that he had tried his best!

Elder Yao Jiu was well aware that Zong Yun had not tried his best! However, at a time like this, he obviously couldn't fall out with Zong Yun. Therefore, he could only inform his master of the ning family's intention to move out.

When the head of the Yao family heard this, his face turned green with anger!

Originally, he wanted to come to find the master of the ning family and the others in person, but unfortunately, they didn't want to see him at all. They even regarded him as the source of infection, as if he would fall ill at any time. They also told him not to walk around casually, in case he infected others! This fact made the head of the Yao family so angry that it was as if he had eaten gunpowder, and he had no way to vent it.

In the end, he had no choice but to agree to the ning family and the other seven families temporarily move out of the Yao family and arrange accommodation for them in the main city.

Even though the Yao family had taken precautions, the news of the Yao family being poisoned still spread out. Within a day, the news had spread throughout the entire divine world. For the sake of their own safety, the major powers around the Yao family had sent people to the Yao family's divine realm to inquire about the situation. They had also forbidden the Yao family's people from entering the divine realm!

This kind of behavior, which seemed to be adding insult to injury, made the head of the Yao family extremely angry! If it wasn't for elder Yao Jiu stopping him, he might have already charged into the territories of those forces and started a massacre!

The ninth elder of the Yao family finally appeased his old ancestor with great difficulty before he worriedly brought up the matter of the poisoning.

"Clan head, although the poisoning incident has been contained, the impact of this incident is too bad. We must give the outside world an explanation. Otherwise, our Yao clan will have a hard time in the divine realm in the future!" In the study of the Yao family's patriarch, elder Yao Jiu said bluntly.

"Of course I know that, but the poisoning is getting worse and worse, and it's out of control unless we find the real murderer! Otherwise, I'm afraid we won't be able to explain ourselves!" The head of the Yao family said with a headache.

"If that's the case, we have to speed up the investigation." Elder Yao Jiu said. In fact, he was also worried because there were no clues at all. Even if he wanted to investigate, he had no clue.

"Master, the great elder requests an audience." Suddenly, the Guard's voice sounded out of nowhere. Elder Yao Jiu couldn't help frowning when he heard it. "What's the matter for the great elder to come at this time?" He wouldn't be here to add insult to injury, right?

"Let him in!" The head of the Yao clan said.

"Master, the Divine Master's estate has sent someone!" The Yao clan's first elder immediately said as soon as he entered the study, his face filled with joy.

"Eh? Could it be that the Divine Master's estate is also here because of the poisoning?" The head of the Yao family immediately had a bad feeling. Such a small matter had actually alarmed the Divine Master's estate!

"That's right, patriarch. The exalted Divine master's emissary said that God Lord fogriple had sent him to express his regards to us and to give us a few pointers! "You see ..." The first elder of the Yao family spoke the truth as he looked at the head of the family with anticipation.

"Quickly invite him in!" Hearing this, the head of the Yao family was puzzled, but he still couldn't wait to hear the divine lord's estate's opinion.

"Yes!" The great elder nodded in response. Not long after, a black-robed man was led into the study by the great elder. This black-robed man was the one who had visited the Phoenix Clan before.

As soon as the Man in Black saw the head of the Yao family, he immediately cupped his hands and bowed. Then, he said with a smile, "The Divine Master has heard about the Yao family and sent me here to ask if there is anything that the Divine Master's estate can help with. If there is, please Don't be polite. The Divine Master has ordered me to assist the Yao family with all my might."

"Thank you for your kind intentions, God Lord Rime. However, this matter is a bit difficult to handle, so I truly do not dare to trouble Lord emissary!" The head of the Yao clan laughed.

"If there is anything that Yao family head needs this one for, please don't hesitate to ask, there is no need to be polite, this one will do my best to cooperate with the Yao family, but I don't know if there is anything that Yao family head can not do? Why don't you tell us and we can discuss it together?" After listening to the Yao family head's words, the black-shirted man immediately expressed his attitude. He was just short of saying that he would definitely be in charge of this matter.

Seeing this, the head of the Yao family could only speak the truth, "To tell you the truth, the Yao family's poisoning incident this time was very strange and without any signs. Therefore, we all agree that it should be done by someone who has a grudge against our Yao family! It's a pity that we can't guess who the poisoner is, Al!" After saying that, the head of the Yao family sighed heavily.

### [Chapter 2237 Hit It Off \(3\)](#)

Following that, Leng ruoxue instructed Ling to conceal the identity of those who wanted to leave. Then, the group of them set off towards the Yao family.

They found the Yao family's main courtyard with great familiarity. Leng ruoxue and the rest deliberately made some noise. In addition, it was currently the middle of the night. Although the guards of the Yao family heard the noise, they did not see anyone. Instantly, the guards, who were usually not so timid, were all scared out of their wits.

"Ghost ... Ghost!" Someone shouted, and the guards instantly scattered.

Seeing them like this, Leng ruoxue's forehead was filled with black lines as she transmitted a message, ""What kind of world is this! Even a God was afraid of ghosts! Could it be that this isn't the divine realm?"

"Hahaha! Of course, this is the divine realm. " The demon couldn't help but laugh when he heard this.

"I think they've done too many bad things. Otherwise, they wouldn't have reacted so strongly!" Uncle long also joked.

"These people are so boring." Leng ruoxue started to despise him, then continued, ""Let's go and find that Man in Black! Let's hope he's more resistant to playing!"

Actions speak louder than words. As Leng ruoxue thought of this, she had already taken a step in the direction of the Man in Black.

The courtyard the Man in Black was in was considered remote in the Yao family's main residence, and this was also a special request made by the Man in Black to prevent others from discovering his existence. In addition, other than the head of the Yao family, only the first elder and the ninth elder knew that he was living here!

A moment later.

Leng ruoxue and the rest arrived at the courtyard of the Men in Black.

Before they even got close, everyone could hear the intermittent moans and sobs of a woman coming from inside. This scene made everyone look at each other.

Just as everyone was hesitating whether they should go in and disturb the man, a man's low roar came from inside, ""Argh! Rime ice!"

Instantly, Leng ruoxue and the others were speechless.

Ugh! What was going on?

This accident instantly made everyone decide to go in!

However, the evildoer pulled Leng ruoxue into his arms and was constantly on guard to not let her see the dirty things that she should not see.

Since he had decided to go in, uncle long naturally took the lead and did not neglect his responsibility.

The anxious uncle long went straight to the room where the Man in Black was after he entered the courtyard. It was the only room with the light on.

At this moment, in the room, just as everyone thought, there was an unsightly performance that was not suitable for children. As they walked closer, the moans, begging for mercy, low sobs, and the roars of men became clearer.

The words "Wu Jing" would come out of the man's mouth from time to time.

At this moment, uncle long, who was smiling evilly, gently pushed open the door and walked in ...

"I didn't expect uncle long to have such a hobby!" Leng ruoxue couldn't help but ask.

"If uncle long finds out, he'll beat you up!" Uncle Lian warned him carefully when he heard this.

"Uncle long can't bear to beat me up!" Leng ruoxue said confidently.

As for Leng ruoxue's confidence, uncle Lian expressed that he was helpless.

Suddenly, uncle Lian saw Leng ruoxue hand him a pill. He couldn't help but look at her in confusion.

Of course, he didn't think that this girl was going to give him the medicine. However, giving him the medicine at this time was probably not a good thing!

As expected, in the next second, uncle Lian heard Leng ruoxue's evil smile. "Take this medicine to the Man in Black and throw it in the corner of his room! However, you have to be careful. Don't fall for it!"

Leng ruoxue's words piqued uncle Lian's curiosity. Like a curious baby, he asked, "What is this medicine?"

"Let's ask our esteemed Shen nuo! He was the one who refined this medicine!" Leng ruoxue tossed the ball to Shen nuo, and she laughed even more happily.

When Shen nuo heard that, she couldn't help but blush, "It's a powerful aphrodisiac!"

Speaking of which, he had refined the pill by accident. He had found a captive to test the effects of the pill before he knew what the pill was for. After that, he had jokingly given the pill to Leng ruoxue. Now, Leng ruoxue was obviously giving it to the man in the room.

"Uh!" When uncle Lian heard Shen nuo's words, his expression changed! He knew that this medicine was not a good thing.

As if he was holding a hot potato, uncle Lian hurriedly ran into the house. Then, a few seconds later, he quickly ran out again, his old face with a trace of red.

When Leng ruoxue saw this, she could not help but tease, "Uncle Lian, you have so many descendants, you should have been through hundreds of battles! Why are you still blushing?"

These words caused Shen nuo and the rest to involuntarily lower their shoulders as they snickered. Meanwhile, uncle Lian's old face turned even redder as he could not help but growl, ""These are two different things!"

This detestable girl, teasing him for no reason! This was really infuriating!

"Is that so?" When Leng ruoxue heard this, she blinked her beautiful eyes innocently.

Seeing this, uncle Lian felt extremely depressed.

Fortunately, at this moment, uncle long came out from inside with a smile. Uncle Lian thought that he was saved, but when Leng ruoxue saw him, she said something that made both of them depressed, ""Look at how calm uncle long is. He's been in the audience for so long, but he's never been as shy as you, uncle Lian! Ai! You really need to train!"

"Uh! Girl, I have serious business to attend to!" Uncle long quickly explained awkwardly. Otherwise, these people would think that he liked to watch those things. He wasn't that perverted.

"Good! Both of you have proper business to attend to, but uncle Lian is still more shy than you, uncle long!" Leng ruoxue laughed.

"I see! Then let him in for a while more!" As soon as uncle long finished speaking, he lifted his leg and kicked uncle Lian into the room.

"Who is it? Come out!" Following that, they heard a roar coming from the room. However, Leng ruoxue and the rest were extremely calm.

Immediately after, uncle Lian ran out of the room in a flurry and glared at uncle long. However, uncle long didn't care.

At this moment, Leng ruoxue smiled and said, ""Alright, mission accomplished. We should go back and sleep. It's not good to disturb other people's nightlife, so let's not stay here any longer!"

The moment Leng ruoxue's words left her mouth, she immediately received a few disdainful gazes. However, the crowd still returned to the inn in a grandiose manner.

The next day.

When the Grand Elder went to visit the black-robed man as usual, he suddenly discovered that the door to the black-robed man's room was not closed, and a strange smell could be faintly smelled from inside. The Grand Elder was immediately shocked and hurriedly walked in.

When he went in to take a look, the Yao family Grand elder's heart almost stopped beating.

This was because the Man in Black was not only red all over, but his face was also dark and his breathing was weak. His back was facing up as he lay on the bed.

Under him was a woman. The woman had the same appearance, but she was obviously not breathing.

The Grand elder's forehead was immediately covered in cold sweat. This, this black-clothed man was God Lord fogriple's man. If something happened to him in the Yao family, the Yao family would have no way of explaining themselves to the God lord's estate!

As he thought of this, he quickly went forward to help the black robed man up and covered him with the blanket. Then, he went to find Zong Yun in a panic.

The moment Zong Yun entered the room, he smelled the scent of the room and immediately knew the symptoms of this man. However, out of caution, he still checked the man's body before saying to the Yao family's first elder, "Great elder, this person has overindulged in his desires and is only left with one breath. Prepare his funeral!"

"No! He can't be in trouble!" When the Yao clan's first elder heard this, his face paled.

When Zong Yun saw this, he could tell that the situation was getting serious. However, he had no choice!

"First elder, this person's essence Qi consumption is too severe. Even if he's barely saved, he's already crippled! Thus, I feel that rather than letting him live in pain, it's better ... Moreover, the price to pay to save him is extremely great! So, you'd better be clear about whether it's worth it or not!" Zong Yun took a deep breath and said honestly. In fact, as a pill master, it was his duty to refine pills and save people. However, there were some people that he really didn't need to save. This person in front of him was exactly the same. Letting him live was definitely more painful than death!

"No matter what price we have to pay, he can't die! You look after him, I'll go find the master!" The first elder of the Yao family naturally understood what Zong Yun meant, but he couldn't make the decision on this matter.

After the first elder of the Yao family reported this matter to the head of the Yao family, the head of the Yao family gritted his teeth in hatred, but he also understood that this matter was of great importance! Hence, he could only grit his teeth and beg Zong Yun to save that man at all costs.

With the Yao family head's words, Zong Yun naturally wouldn't be soft-hearted when he saved the people.

After consuming countless precious herbs, the Man in Black finally woke up two days later.

Although the Yao family's first elder did not mention his condition to the black-robed man, the black-robed man, who was well aware of his own body's condition, knew that he was finished! He was completely crippled!

From now on, he would be a cripple, and his Lord would never use him again! And it was all because of the Yao family that he ended up like this! Because if the Yao family had not provided him with that woman, causing him to lose control, how could he have indulged in excessive pleasure? In an instant, the Man in Black, who had clearly understood his situation, hated the Yao family!

Soon after, the black-clothed man chose to leave with a dejected expression. The first elder, who represented the head of the Yao family, only politely asked him to stay before ordering people to send the black-clothed man off.

The Yao family's first elder felt extremely unlucky that such a thing had happened. Fortunately, the truth of the poisoning incident was about to be revealed under their planning ...

[Chapter 2238 Top-Grade Witness \(1\)](#)

The day after the Man in Black left, the ning family's master and the other seven family Masters were invited into the Yao family again.

Originally, the seven of them didn't want to go, but the Yao family head used the poison as an excuse, so they had to go unwillingly.

On the way, the master of the ning family asked with concern, ""Elder Yao Jiu, has your patriarch's illness been cured?"

When elder Yao Jiu heard this, he was clearly stunned. Then, he reacted and suppressed his anger. "Master ning, my master is not sick!"

"Not sick? Then why did we hear that more and more people from the Yao family were poisoned, and that the head of the Yao family was also poisoned and was currently in quarantine?" The head of the Cheng clan asked in surprise.

The head of the family is in quarantine, and you still dare to come? Hearing these words, elder Yao Jiu couldn't help but sigh inwardly, but he still put on a pained expression and said, ""Patriarchs, my patriarch is perfectly fine! Besides, if something really happens to him, do you still dare to follow me to the Yao family?"

His original intention was to say, "none of you are stupid. You know that the master has something to do, but you still dare to go." However, the master of the Cheng family and the others pretended not to know.

The head of the Cheng clan said carefully, ""The reason we agreed to go to the Yao family was to verify the authenticity of the rumors. But if something really happened to your family head, even if we go, we won't see him. So, he can't harm us!"

"It is! He knew that he was sick, but he still invited us to discuss about being poisoned. Isn't he clearly trying to trick us? Patriarchs, we have to be more careful and take protective measures in advance. Otherwise, if the old man of the Yao family goes crazy, we'll be in trouble. " The master of the yin family agreed.

At this time, the master of the ning family, who was already laughing in his heart, reminded him with a serious face, ""Right! Everyone be careful later, don't get bitten by the Yao family's old man, otherwise, we might be implicated by him!"

As he listened to the clan heads cursing their own clan heads one after another, elder Yao Jiu was so angry that his face turned ashen, and he almost flew into a rage!

F \* ck! His master didn't have rabies, so how could he bite people?

No, his master wasn't sick at all! It was even more impossible for it to bite!

Elder Yao Jiu was so angry that he secretly cursed. However, no matter how he said it, he felt that something was wrong. Then, he felt the strange and frightened gazes of the other clan heads, and instantly, he felt even more depressed!

Damn it! These people wouldn't think that he had been poisoned, right?

In fact, he was right!

The Chi family and the other patriarchs saw elder Yao Jiu's face flicker between light and dark, green and purple, and truly felt that he was also showing signs of being poisoned. In an instant, all the patriarchs made a decision and jumped thirty feet away from elder Yao Jiu.

This scene caused hazy white smoke to rise from the back of elder Yao Jiu's head! This further confirmed the rumor that the Yao family was mentally unstable. Coincidentally, this scene was seen by the spies sent by the surrounding forces. Therefore, the spies quickly sent the news back. As for whether the news would change after reaching the destination, it was not within their scope of judgment!

Of course, elder Yao Jiu didn't notice any of this at the moment. Otherwise, he would have died of anger.

As for elder Yao Jiu, he took a few deep breaths and decided not to argue with these hateful people. However, the truth was that they were all distinguished family heads. Even if he wanted to argue with them, they wouldn't take it seriously. It was the same logic as the ruler of a country not arguing with the errand boys of another country!

To put it bluntly, he didn't have enough weight. If it was his own family head, he could really make a fuss if he wanted to. When it came to him, there was only one word that could describe his situation, and that was 'tolerance'!

After thinking through all this, elder Yao Jiu quickly calmed down and argued with a serious expression, ""Family heads, my family head is currently alive and kicking without any problems, so please don't believe in rumors. You should know that rumors are forbidden to the wise. I believe that you are all people with great wisdom and can naturally make an accurate judgment.""

Upon hearing this, the few family heads who wished for the world to be in chaos blinked a few times. Then, they looked at elder Yao Jiu in admiration and thought to themselves, 'this guy's mental quality is not bad!' She had actually adjusted her emotions so quickly! Oh! He was a talent!

Seeing that the other family heads didn't have much of a reaction, elder Yao Jiu thought that they understood and said, ""Clan heads, please!""

After this small interlude, everyone continued on their way. For the rest of the journey, the patriarchs were much quieter. Even when they arrived at the Yao family's main residence, none of them were looking for trouble. This fact immediately made the ninth elder of the Yao family, who had been on tenterhooks, let out a sigh of relief.

These ancestors were really not easy to deal with! No wonder the great elder and the others were not willing to step up!

Elder Yao Jiu wanted to cry but had no tears. However, this task was given to him by the family head, so he couldn't refuse it even if he wanted to!

After inviting the family heads into the living room, elder Yao Jiu immediately disappeared without a trace. Of course, to the outside world, he said that he had gone to invite the family heads.

After waiting for a while, he still didn't see the Yao family head.

Instantly, the various patriarchs who had just quieted down for a moment had the trend of exploding again.

"The Yao family's old man is getting more and more arrogant. He invited us here and made us wait for him! Hmph!" The master of the ning family snorted.

As soon as he spoke, the maidservant who followed behind him, Leng ruoxue, immediately served tea and snacks. When master ning saw this, he nodded in satisfaction.

No one dared to eat the Yao family's food anymore, so they all prepared their own food.

Seeing master ning eat as he spoke without any delay, master Cheng couldn't help but reach out to grab a piece of snack and stuff it into his mouth. His impatient appearance made it seem as if master ning would snatch it back from his mouth.

"Old man ning, you really know how to enjoy life. You actually have such a clever and nimble-handed maidservant by your side. It's just that he looks a little apologetic! But why is her cooking so similar to that girl 's?" The Cheng clan head looked at Leng ruoxue, who was disguised as a maidservant, and could not help but feel suspicious. However, Leng ruoxue merely returned him an ugly smile before turning her head away.

Hearing master Cheng's words, the other Masters' gazes were immediately attracted by the maidservant behind master ning, and then they looked at the beautiful and exquisite dessert placed in front of master ning. They had to admit that master Cheng's words were correct.

However, they weren't as thick-skinned as master Cheng, who directly used snatching. Instead, they adopted a method of closely watching people. Their eyes were fixed on master ning, to see if he would let them eat!

In the end, the master of the ning family felt great pressure from their gazes. He gently pushed the dessert forward and said generously, "Have a taste! My maidservant has learned everything from Xue 'er. Not only that, Lu Qi was her master for a period of time. Thus, her skills are really amazing!"

#### [Chapter 2239 Top-Grade Witness \(2\)](#)

"Really?" When the other family heads heard this, they were all surprised, especially when they heard that Lu Qi had once been the master of that little maidservant. They were all envious. Only the Lu family head looked constipated and hesitated to speak.

In the end, the patriarch of the Lu clan finally gathered his courage and asked, "How is Qi 'er?"

"Qi 'er? Are you talking about Lu Qi?" Master ning asked indifferently.

"Yes." The patriarch of the Lu clan nodded.

"Of course, he's good. He eats and drinks well every day, and he's so free. He's living a much better life than us! By the way, is he ... A member of the Lu family?" As the master of the ning family spoke, he suddenly remembered that they had the same surname, Lu, so he guessed. He didn't expect to see the master of the Lu family nod.

However, the old man's face was bitter, as if he had some unspeakable suffering. But he didn't say anything, and master ning had no interest in prying into other people's privacy, but he could more or less guess that it was nothing more than some melodramatic drama of being driven out of the house or misunderstood because of some matter!

Thinking this way, the master of the ning family changed the topic. "He made us wait for so long, and now that the Yao family's old thing is here, I have to get an explanation from him! Our time is also very precious, how can we let him waste it like this!"

"That's right! We can't let him go!" The head of the Cheng clan's mouth was stuffed full as he agreed in a somewhat muffled voice.

Looking at him eating one in his mouth and holding another in his hand, Leng ruoxue really didn't know what to say! Clan head Cheng, where's your image?

"I'm sorry to have kept you waiting!" At this moment, the voice of the head of the Yao family suddenly rang out in the living room. Following that, a man in green robes floated in.

If you didn't take into account his unhealthy pale face, the image of the head of the Yao family was still pretty good! Leng ruoxue could not help but think to herself.

"I say, old man Yao, what's wrong with you? Why did he look so Haggard? Could it be that you've been hanging around the flowers for too long that you've been blown dry?" He glanced at master Yao. Master ning's words were aimed at angering people!

As expected, the patriarch's face immediately flushed pink when he heard this, finally looking a little healthier than before. He replied in an unpleasant tone, "I'm not as excited as the master of the ning family. I've been busy with the poisoning these days. I don't have time to think about all those messy things!"

"In that case, if you're not busy with the poisoning, you'll have time to think about other things, right?" The master of the ning family deliberately misinterpreted his words and asked with a sincere face.

"Of course not!" The head of the Yao clan replied, suppressing his anger.

Leng ruoxue couldn't help but laugh when she saw how the head of the Yao family was trying his best to hide his emotions.

Then, she heard her Godfather say, "Since you've been running around for the past few days because of the poisoning, I'm sure there's already some progress. Right, don't forget about the antidote and compensation from our four families! This was a big deal! It's the most important!"

"I can't forget!" The head of the Yao family gritted his teeth. Hearing his seemingly affirmative answer, the heads of the ning family and the other three families were exceptionally happy. Therefore, they didn't mind that the old man of the Yao family had deliberately ignored them! After all, he had to give the other party a chance to find a balance, right?

"There are some clues, but we still need to investigate further. That's why I called you here to hear your opinions." After taking a few deep breaths, the head of the Yao family, who secretly told himself that he had to stay calm, continued.

"Then tell us quickly, we can give you some ideas." The master of the ning family was very cooperative.

"According to the clues, we found this matter ..." Looking at master ning, master Yao deliberately paused, as if he had something difficult to say.

Seeing him like this, the master of the ning family couldn't help but sneer. He said in a bad mood, ""Old man Yao, if you have something to say, just say it! Why do you look like you're constipated?"

"You ..." Master ning's words caused master Yao's blood pressure to rise. He was so angry that he was about to explode. How could there be such a despicable person in this world? Didn't she know that he was brewing his emotions? Only then would he appear to be in a difficult position. Otherwise, others would think that he was framing Leng ruoxue!

Originally, their plan was to let the other seven family heads catch the poisoner, but after thinking about it, he was afraid that the seven families would not follow the script they had arranged, so he had to change some strategies just in case. But now, even though he had changed his strategy, he still felt that it was a pain in the ass because he had not revealed anything, and the ning family head was not cooperating in all ways!

Secretly glaring at the master of the ning family, the master of the Yao family decided not to pay attention to this annoying guy, but continued the previous topic.

"We've caught the person who poisoned you ..." Just as the Yao family's head said this, the Cheng family's head jumped up in shock, his eyes widening in disbelief. "Really? Did that person confess?"

"Patriarch Cheng, please calm down and let me continue." Seeing the head of the Cheng family, the head of the Yao family also felt a headache! None of these family heads were easy to deal with!

"Alright! Then you can continue, but I'm an impatient person, so you'd better not beat around the bush and just say it! Who did this?" The head of the Cheng clan reminded.

"The person we captured was a waiter of the Yao clan. All of you should have heard of the Yao Clan Building, right? It's the Yao family building that's located at the foot of the mountain in the land of demons!" The head of the Yao clan explained.

"Of course I've heard of it. I've also heard that the Yao family building is your family's property! Is this really your Yao clan's doing?" The patriarch of the Cheng clan immediately reacted and cried out in alarm. The other patriarchs were clearly also extremely shocked.

Master Yin even gave master Yao a look of praise and said, ""It's the great fortune of the divine world for the Yao family to put righteousness before family!"

As soon as these words came out, all the patriarchs echoed one after another. Most of them were praising the Yao family's patriarch for his righteousness, which made the Yao family patriarch furious!

F \* ck! Were these people really stupid or were they just pretending?

When did he say that the Yao clan tower was the Yao clan 's? It's fine if they're from the Yao family! If the Yao family's building, which could lay golden eggs, belonged to the Yao family, he might even wake up laughing in his sleep!

However, the truth was that the Yao family had no relationship with the Yao family at all. Furthermore, he did not believe that these old fogeys did not know about this matter!

If they knew the truth and still said that, they would be deliberately looking for trouble! The head of the Yao family thought to himself hatefully. Then, he took a few deep breaths before he said with a depressed expression, "Let me finish. That Yao Clan Building does not belong to our Yao clan!"

"How is that possible? If the Yao Clan Building didn't belong to the Yao clan, then who else could it belong to? Don't you guys agree?" The head of the Cheng clan widened his eyes in disbelief, as if he had just heard a fantasy story.

### [Chapter 2240 Top-Grade Witness \(3\)](#)

"On the surface, the owner of the Yao clan house is uncle long, the one from the endless ocean. However, in reality, uncle long is just paving the way for someone else. The real owner of the Yao clan house is Leng ruoxue!" The head of the Yao family was afraid that he would be interrupted again, so he finished his sentence in one breath.

"Old man ning, the Yao Clan Building belongs to that girl Xue 'er?" Hearing this, the head of the Cheng clan deliberately asked with a confused look. At this moment, the innocent expression on his face was as if he had just heard the news. It was as real as it could be.

"No!" As soon as the ning family's master denied it, the Cheng family's master revealed an expression that said 'I knew it was impossible'. Instantly, the Yao family's master was driven mad!

Following that, all the patriarchs heard the Yao family's patriarch roar, "The Yao Clan Building is clearly Leng ruoxue 's, how can you not admit it?"

"Yao family head, the Yao family building really doesn't belong to Xue 'er! It's opened by uncle long, and I heard that the first elder of the Yao family once worked at the Yao family building. May I ask if you have some shares in the Yao family building?" The ning family's master asked with a gossipy look. His words also made the Yao family's master so angry that he didn't say a word for a long time.

Seeing the Yao family head fall silent, the other patriarchs understood. Some even thought to themselves that the Yao family tower really did have a deep relationship with the Yao family!

Of course, the head of the Yao family wasn't aware of the thoughts in everyone's minds. Otherwise, he would be even more depressed. As for the thoughts of the people present, Leng ruoxue was very clear about it. Naturally, she was already laughing in her heart. Furthermore, she was very happy to see the head of the Yao family suffer a loss. It was just that she didn't know if everything that the head of the Yao family had arranged would go smoothly as they had expected!

From the looks of it, Leng ruoxue didn't think much of them. It was because these family heads were too uncooperative! Among them, the head of the Cheng family was the most powerful!

Leng ruoxue was well aware of why the Cheng clan's head was acting this way. She would remember this favor!

The head of the Yao family was so angry that he couldn't say anything. Seeing this, the other heads of the family also stopped and temporarily rested. For a time, in the large living room, only the sound of a certain head eating could be heard.

After a long time.

It was still the master of the ning family who was kind enough to take the initiative to ask, "Patriarch Yao, you said that the person who poisoned you was a servant of the Yao clan. What was that about? Have you already interrogated him?"

Actually, it wasn't that he was kind, but he felt that if he didn't let the Yao family head continue directing and acting, everything Xue 'er had arranged wouldn't be able to play out as scheduled! He was still waiting to watch a good show! Therefore, he could only let this old man from the Yao family take advantage of him.

Hearing master ning's words, master Cheng, who was struggling with the snacks in front of him, perked up his ears at the same time and looked expectantly at master Yao. The other Masters also had similar expressions.

Seeing this, the head of the Yao family sighed and said, "I haven't interrogated him yet! However, what I want to say is that the Yao family building really has nothing to do with our Yao family, and we don't have any shares there. The Yao family building belongs to uncle long, and it has a very close relationship with Leng ruoxue!"

"I also don't think that the Yao clan tower has any relationship with your Yao clan. Your Yao clan has never had such a successful business before!" As soon as the Yao family's head finished speaking, the Cheng family's head couldn't wait to express his opinion. As soon as he finished speaking, the Yao family's head, who had slightly suppressed his anger, immediately felt his anger surge up to the top of his head.

Especially when he saw that some of the family heads were echoing the Cheng family head's words, the anger in his heart burned even more fiercely!

However, he quickly forced himself to calm down. He kept consoling himself that he shouldn't be calculative with a barbarian, as it would lower his own class.

Yes! In his heart, the head of the Cheng family was an uncultured barbarian!

After calming down a little, the head of the Yao family said again, "In order to avoid suspicion, I would like to invite all the patriarchs here to interrogate that attendant of the Yao clan!" This time, he directly stated his purpose to prevent these people from talking nonsense. He would let them find out the truth from the waiter's mouth!

This was what the head of the Yao clan thought!

"That ... Didn't the Yao family head just say that the Yao family and Xue 'er have a close relationship? Do you need me to leave?" After hearing master Yao's words, master ning asked hesitantly.

"Oh, right! Old man ning, since the old man of the Yao family said that the Yao family building is related to little girl Xue 'er, I think it's better for you to avoid it. Otherwise, if something happens, you won't be

able to clear your name even if you jump into the endless sea!" The patriarch of the Cheng clan hurriedly said.

"No need to avoid it. I believe in master ning's fairness!" When the head of the Yao family heard this, he hurriedly stopped him. What a joke! If that old thing of the ning family left, how could he continue with his show? He wanted everyone to see how the master of the ning family would shield Leng ruoxue, the rat on the street that everyone hated!

"What if I don't believe you?" The Cheng clan's patriarch innocently said something that could make the Yao clan's patriarch vomit blood. The other clan patriarchs looked at each other in dismay. In the face of this matter, it seemed that they should remain silent.

"You guys don't believe it either? Could it be that master ning's credibility is that bad?" The head of the Yao clan ignored the innocent look on the head of the Cheng clan's face. He narrowed his eyes and looked at the others present.

"This has nothing to do with credibility. It's human nature to protect one's shortcomings. I'm also thinking for you. If master ning participates in the interrogation and you say something else, it will affect the relationship between the eight great divine regions. That's why I think master ning should avoid it!" The head of the Cheng clan said with a face full of righteousness. These words of consideration for the other party caused a small flame to burst out from the heart of the Yao clan head.

"I said master ning doesn't need to avoid it. I hope you can be a witness. After all, I don't want our relationship to be affected because of this. What do you think, master ning?" The angry master Yao kicked the ball back to master ning.

The master of the ning family nodded and said, "If all the patriarchs have no objections, then I naturally don't need to avoid it."

"If that's the case, then I have no objections!" The master of the Cheng family laughed, and then secretly winked at the master of the ning family.

The other family heads naturally had no objections to this. After all, this matter was led by the Yao family, and they followed the host's orders.

After that, master Yao, who felt that his wish had come true, was as if he had been injected with chicken blood and brought master ning and the others to the prison.

The Yao family's prison cell was as magnificent as the Yao family's main residence!

Although the few family heads had known the Yao family head for many years, this was the first time they had visited the Yao family's prison. Therefore, for a moment, they were dazzled by the magnificence of the Yao family's prison!

F \* ck! The Yao family was really rich! Even the prison cells are so well built! A few family heads who hated the rich secretly hated him!

However, their faces were filled with envy, and they even began to flatter the head of the Yao family, making him so proud that he almost forgot the purpose of this trip!

Fortunately, the head of the Yao family had not completely lost his mind. After a short wandering, he brought the other family heads to one of the prison cells.

A young man in a waiter's uniform was locked in the cell. When the young man saw the head of the Yao family, he immediately glared at him and roared, "Yao family dog, you'd better let me go, or you'll regret it!"

"Yo! This little fellow is quite bold! You actually dare to threaten our Yao family's patriarch?" Upon hearing this, the head of the Cheng family laughed happily and couldn't help but tease.

Then, as if he had discovered a new continent, he said in surprise, "This guy's clothes really have the three words Yao clan 'on them! It seems like he really is from the Yao clan!"

Hearing this, the head of the Yao family was secretly pleased with himself, but he was smart enough not to express any opinions, allowing the other patriarchs to think as they pleased!

After hearing the Cheng clan head's words, the imposing-looking waiter glanced at the silent Yao clan head and, as if he had found his backbone, roared again, "That's right, I'm from the Yao clan. So, if you're smart, you'd better let me go. Otherwise, when my young lady comes, you'll have a hard time!"

"Is your family's young miss very powerful? Who is she?" The waiter's words caused the Cheng clan's patriarch to feel curious, and he shamelessly asked.

"Of course it's powerful! My lady is Leng ruoxue!" The waiter said proudly.

Hearing this, the head of the Cheng family couldn't help but laugh wildly. His laughter was so exaggerated that he almost rolled on the ground. His laughter also made the other person laugh for no reason!

Until now, they still didn't understand what the head of the Cheng clan was laughing about. Even the waiter who had spoken arrogantly was dumbfounded.

After a long while, the master of the Cheng family, who had laughed enough, said, "Yao family head! I don't think there's a need to interrogate this person. Look, we haven't even asked anything yet! He had confessed everything himself! Al! How could you have the nerve to ask us to interrogate a guy with such intelligence? Are you testing our intelligence?"

The Cheng clan's patriarch didn't need to make his words too clear, because no one present was an idiot. Otherwise, they wouldn't have been able to become the patriarch of one of the eight great divine domains. However, when the Yao clan's patriarch heard these words, he immediately felt his face burn!

To be honest, he didn't expect that the first elder and ninth elder would find such an outrageous person. He had never seen this person before, so he naturally didn't know what this person was like. Otherwise, he would never have let this person have the chance to appear in front of the family heads!

It was really too embarrassing, wasn't it?
