

## **Crazy Wife 2271**

### [Chapter 2271 The Defeated Master Of Justice \(1\)](#)

Leng ruoxue, who liked to let nature take its course, stayed in the pill refining room in her house with Shen nuo and Liuyue. They thought of all sorts of ideas day and night and thought of countless plans. However, none of them were able to cure the symptoms of the seven Crystal Flower!

Other than coming out of her house occasionally to feed the seven Crystal Flower the pills she had concocted, she basically never left the house.

As for how to feed it, she had to put the pill into the flower pot. In order to facilitate absorption, she had deliberately ground the pill, which should have been solid, into powder. However, even so, the effect of those pills on the seven Crystal Flower was not very good. Seeing this, she could only continue to work hard.

But before that, she had to think of a way to comfort the little fox who loved to cry. Because every time that little guy saw her come out of the house, he would be elated and excited, but not long after, his eyes would be filled with tears and he would look pitiful!

And she had no choice but to promise that she would definitely find a way to cure the seven Crystal Flower.

Seeing how hard it was for Xue 'er, the evildoer's heart ached. However, he knew Xue' er very well. He knew that since she had promised the little fox, she would not give up halfway. So, he could only hold back the resentment in his heart and support Xue 'er. However, the pressure at the bottom of the cliff was getting lower and lower.

"This guy's aura is getting stronger!" The great elder sighed as he looked at the monster from afar. Dongfang Yue and the others could only smile bitterly when they heard this.

They already knew the identity of the monster. They had almost no other feelings except shock. And that Cang, Ai! The few of them kept sighing, deeply feeling their own insignificance.

Seeing them like this, first elder couldn't help but tease, ""Calm down! You'll get used to it, but you must be very disappointed now, right?"

"....."

Dongfang Yue didn't know how to react when he heard this. Were they disappointed? It did seem like it. After all, they used to be all-powerful in the immortal realm, but now ...

AI! It was a long story!

"Where did master ning go?" Dongfang Yue also sighed and changed the topic. He couldn't let the great elder continue on this topic. Otherwise, that Chatterbox great elder would definitely force them into a corner!

"That old man actually went to the verdant fir waterfall for a scenic tour. You didn't even bring me along!" The Grand Elder couldn't help but grumble.

"First elder, can I say that we can't see the light of day?" Dongfang Yue sighed and said.

"What do you mean we can't be seen in the light? Our current identities are his ning family's guards, but he went out to play and didn't call us. This is really preposterous! This old man is too disloyal!" The more the first elder spoke, the angrier he became. In the end, his resentment soared to the sky.

"We weren't by his side at that time! He can't possibly come here to call us! Besides, we still have to stay here to protect Xue 'er!" Dongfang Lin couldn't help but speak up for master ning.

"It's enough for Xue 'er to have the protection of me and that demonic man!" Suddenly, Cang, who wasn't afraid of blowing things up, interjected with a smile.

Seeing it speak, Dongfang Yue and the others all mourned for master ning in their hearts. Then, they all tactfully closed their mouths. As if they had found a backer, the great elder excitedly said, "That's right! He can at least ask us! We'll talk about it another time! In short, he's in the wrong if he doesn't ask!"

Dongfang Yue and the others looked at each other, but no one was willing to answer. Far away at the verdant fir waterfall, the master of the ning family couldn't help but sneeze a few times. He muttered to himself, could he be sick? Or was Xue 'er talking about him?

At this time, the head of the Cheng family walked to his side with a face full of concern and asked, "Old man ning, what's wrong? Could it be that you've done something wrong, so you're being scolded?"

Of course, master Cheng's words were just a joke, but he had hit the nail on the head. However, how could master ning admit that he was being scolded!

"I'm sick!" He said with a serious face.

Sick?

The head of the Cheng family was a little dumbfounded. He had only heard of gods being injured, but he had never heard of any God saying that he was sick! However, master ning's words made those who had heard it and those who hadn't all gather around. Of course, those who had heard it were basically the ning family, and those who hadn't heard it saw that master ning was surrounded, so they came to join in the fun out of curiosity.

Seeing this, master ning had a headache.

However, the seventh elder of the ning family was very nervous. He asked with a worried expression, "Master, are you not feeling well? Why don't we go back to the inn first?"

"I'm fine. I just sneezed a few times. Don't make such a big fuss!" Hearing this, master ning's head hurt even more! Al! How good would it be if Xue 'er was here? didn't they say that a daughter was a father's little cotton jacket? With Xue 'er around, she would definitely be able to comfort him!

The master of the ning family thought happily.

"Hmph! Want to leave? There's no way?"

Suddenly, a discordant voice sounded out of thin air. When everyone heard it, they looked at each other and saw the big question marks in each other's eyes. Only then did they unwillingly turn their heads and look in the direction of the voice.

Then, the master of the ning family and the others saw that they were surrounded! Furthermore, it was from several different forces.

This was definitely someone looking for trouble with them!

Seeing this, the master of the ning family couldn't help but raise his eyebrows and ask with a faint smile, "What do you want? Is this a robbery?"

Hehe! Here comes the trouble maker! Just as well, he was bored!

"We don't Rob!" When the leader of one of the forces heard this, he almost stumbled and fell to the ground. They were the Masters of justice, how could they be here to Rob! To them, these words were a great humiliation!

"Then you want to ask for directions?" The master of the ning family guessed, pretending to be confused.

When the others heard his words, they laughed in their hearts. They didn't expect the master of the ning family to be so good at pretending to be confused! However, when the forces surrounding them heard this, they were so angry that their faces turned green.

"Dammit! We're not here to ask for directions!" One of the opponents couldn't help but shout.

"This is not it, that is also not it, then you must be lost! Otherwise, he's on an outing like us! However, we've already occupied this place, so you'll have to move to another place!" The master of the ning family glanced at the other party and said to himself.

"You bastard!" The people of those forces were almost driven crazy by the words of the master of the ning family. They didn't know what the difference was between asking for directions and getting lost. Moreover, wasn't this person a little too much?

At this time, they didn't know that they were facing the Masters of the seven great divine regions. After all, although these forces were the first to arrive, their status in the divine world wasn't high. Naturally, it was impossible for them to have the opportunity to meet a Big Shot like the master of the ning family. Otherwise, they wouldn't dare to show off in front of the master of the ning family! And now, without anyone knowing, the few groups of Wuhe who had joined forces were now in a great momentum!

#### [Chapter 2272 The Defeated Master Of Justice \(2\)](#)

"Cut the crap! We are here to kill Leng ruoxue! Hurry up and hand Leng ruoxue over!" Someone from the opposing faction shouted.

They really didn't want to listen to this old man's nonsense anymore, so they simply told him their purpose. However, when the master of the Cheng family and the others heard this, cold sweat trickled down their backs.

Oh my God! These people were really gutsy. They actually dared to say that they wanted to kill Leng ruoxue in front of the overprotective old man ning. This was great, they would definitely leave before Leng ruoxue! They were well aware of this!

Then, master Cheng looked at master ning with worry and excitement.

They were worried because they were afraid that old man ning's temper would go out of control and he would vent his anger on innocent people, which were them! He was excited because there was a fight! It was just that these people's strength was really not enough, so while the head of the Cheng family was excited, he was also somewhat uninterested.

Al! What a contradiction! The head of the Cheng family felt that he was simply a complex of contradictions! However, what he wanted to know more was why these people were looking for Leng ruoxue.

Thinking up to this point, the Cheng clan's head gave old man ning, who was on the verge of exploding, a comforting look without a change in his expression. Then, with a calm and composed face, he asked, "If you guys want to kill Leng ruoxue, shouldn't you go to the land of demons? Why did he come to the green fir waterfall? This is the Yao clan's sacred tourist spot in the divine realm. There's no Leng ruoxue here!"

"Hmph! Who are you trying to fool? Do you think we're stupid? Who in the God World doesn't know that Leng ruoxue is hiding at the verdant fir waterfall!" The Cheng clan's clan head's words caused the powers that wanted to kill Leng ruoxue to look down on him. They looked at him as if they were looking at an idiot.

Hearing this, the head of the Cheng family was deeply worried!

Why didn't anyone believe him when he told the truth?

In reality, the other forces did not believe the Cheng clan's clan head's words because they were eager to make a contribution. After all, they were the first group to arrive at this place because they had the geographical advantage. Hence, they had to continue to expand this advantage. Otherwise, when the other forces arrived one after another, they would not have the chance to kill Leng ruoxue first!

It had to be said that they were a group of hot-headed and hot-blooded people. Unfortunately, they were a little greedy!

"Did you just say that everyone in the God World knows that Leng ruoxue is hiding at the green fir waterfall?" Suddenly, master ning looked at the man who had just spoken and asked indifferently.

"Of course! This was no longer a secret in the immortal realm, Hmph! All of you, Leng ruoxue's accomplices, quickly hand Leng ruoxue over. Otherwise, don't blame us for not being polite!" The more that person spoke, the more excited he became. Meanwhile, the sympathy that the head of the Cheng clan and the others felt for him was like a torrential River, unending!

This person was really stupid!

Wrong, it should be said that it was not an ordinary two! It was very, very stupid!

"How can you be so sure that we are in cahoots with Leng ruoxue? what if I say that we are here to kill her too?" The master of the ning family was still smiling and asked calmly.

"This is impossible! Other than us, no one else can be the first to arrive at the verdant fir waterfall. Furthermore, from your attire, you can't possibly be from the Yao clan. So, you're definitely in cahoots with Leng ruoxue. " The man said with certainty. It had to be said that he had a good eye. Of course, it could also be a blind cat meeting a dead mouse, purely a wild guess!

After saying this, he pointed at the few women in master ning's team and roared fiercely, ""Leng ruoxue, if you don't want these people to be implicated by you, then take the initiative to come out and court death. We promise not to touch the others! As long as you cooperate!"

There were a total of five women who were called out. They belonged to the yin family, the fan family, and the Yu family. After hearing this, a woman from the yin clan couldn't help but say angrily, ""Leng ruoxue isn't here. You've found the wrong person!"

"This is impossible! You guys are the most suspicious! Leng ruoxue must be one of you. " The man was obviously very stubborn.

"You ..." The women were so angry that their faces turned red. If it wasn't for the fact that their ancestors didn't give any orders, they really wanted to rush up and teach this guy a good lesson. It was fine if he had bad eyesight, but he didn't listen to anyone's advice. What the hell was this!

Furthermore, they couldn't understand how this person was so sure that Leng ruoxue would be one of the five of them!

"I say, you guys are really mistaken. Leng ruoxue is really not here." Seeing that the atmosphere was a little tense, the head of the Cheng family hurriedly said.

"Hmph! Do you think we're that easy to fool? Leng ruoxue must have put on a disguise and mixed in with these women. If you hand the five of them over to me, I'll let you live. How about it?" The man continued. He said it as if it was a matter of course, as if the other party would definitely do as they said!

These words made the head of the Cheng family silent!

Forget it! In any case, those few little girls weren't from their Cheng family, so he'd just let the other three guys have a headache!

"Ancestor!" After the five women heard the other party's words, they all looked worriedly at their own family head. They had come out to gain experience, not to be killed! Moreover, they weren't Leng ruoxue. Not only would they not receive the reward for killing them, but it would also bring shame to their family clan. Therefore, they were naturally unwilling.

They weren't the only ones who weren't willing. The three family heads wouldn't allow this to happen either! Otherwise, how could they survive in the divine realm in the future?

Therefore, not long after that person finished speaking, he was immediately kicked out by the angry Yu family head.

With a loud bang, the man who had been kicked fell heavily to the ground and fainted. However, the head of the Yu family was not satisfied with this and set his sights on the few people closest to him.

When the few of them saw his unfriendly gaze, they were so scared that their legs turned to jelly. One of them even couldn't help but shout, "He's in cahoots with Leng ruoxue! Brothers, let's attack together and kill him!"

"....."

The ning family's master and the others were speechless. Even the Yu family's master twitched his mouth. Was this considered framing?

Even though he admired Leng ruoxue, he was unwilling to be framed by an insignificant ant. Furthermore, ever since the Yu family had become one of the eight great divine regions, his temper had grown. Hence, the person who had shouted those words naturally met with a tragedy!

Following that, the head of the Yu family started to take care of those fellows who did not have good judgment.

Seeing this, the head of the Cheng family didn't forget to cheer him on. "Little Yu, you can do it! Good luck!"

Hearing this, master Yu's mouth twitched even more!

Little Yu? Could she not call him that?

Although he was much younger than the others, he didn't want to be called little Yu! The head of the Yu family protested in his heart. However, he also knew that the head of the Cheng family had always been willful and reckless, so he didn't bother to correct him. His only wish was that the head of the Cheng family wouldn't call him that when there were many people around. However, it was obvious that this wish could only become an impossible dream.

### [Chapter 2273 The Defeated Master Of Justice \(3\)](#)

Al! Sighing deeply, the Yu family head's attacks became even heavier! If he couldn't beat up the head of the Cheng family, wouldn't it be a piece of cake to take care of a few thieves?

In less than half an hour, the few forces that had come to encircle and annihilate them in high spirits were all taken care of by the Furious Yu family head alone! The other party was simply too weak, and no one else was interested in making a move. Therefore, they happily watched.

Glancing at his opponent, who was lying on the ground in a semi-unconscious state and covered in wounds, the master of the Cheng family sighed and said, "You dare to kill Leng ruoxue with your abilities? If it weren't for little Yu's kindness and didn't take your lives, would you still be alive?"

No one dared to refute his words! "Now, we'll give you a chance," clan master Cheng said. "You have to be honest. Who said that Leng ruoxue was at Qingshan waterfall?"

"We ... We're not sure either. This news should have come from the Yao family's divine realm! The entire divine realm already knew about it! Moreover, many forces are heading this way. We're the first to arrive because we're closer!" One of the people who was called out by the Cheng clan head's gaze trembled and stammered as he truthfully spoke.

"The Yao family's God domain? It looks like this news is directed at us! It's not Leng ruoxue. " The head of the Cheng clan sneered.

When the other family heads heard this, their expressions became serious. Only the ning family head was sure that this news was related to the old man of the Yao family.

The old man couldn't do anything to them, so he wanted to use other forces to give them trouble. He didn't think that the old man of the Yao family would want to use other forces to get rid of them. Unless the master God came in person, the other forces probably didn't have the ability!

Of course, if all the forces worked together to defeat them one by one, it was not entirely impossible! However, would the other factions be so united as to fulfill the wishes of the Yao family's old man? Now, the master of the ning family wasn't too sure. After all, with these lessons learned, it was enough to make them vigilant.

After some thought, the master of the ning family looked at the other Masters and put on a serious expression. "Since this news is directed at us, I think we should end our trip here!"

"Are we just going to go back like this? If that damn thing from the Yao family were to find out about this, wouldn't we become the laughing stock of the Yao family?" After hearing master ning's words, master Cheng exploded. He didn't want to make a fool of himself in front of old man Yao.

"Who said we're going back! We won't go back, but we have to let the others go back to the Yao family's main city first so that we can do whatever we want, right?" The head of the ning family comforted them with a smile. He didn't believe that the major forces would dare to go to the Yao family's main city to kill the people of the seven families. Not only that, the Yao family had to think of ways to protect the members of their families. Otherwise, if there was any damage, it would be an offense to the seven families. He believed that the stingy head of the Yao family would never do such a loss-making business.

"Yes, that makes sense!" These words made the head of the Cheng family smile. However, those who were still sober among the forces who also heard these words felt a little sympathy for the forces that were about to arrive. Another unlucky fellow like them was going to die!

Why didn't they realize earlier that these people were not to be trifled with? Now, they had become the other party's prisoners, and they didn't know how they would be treated! When they thought of the unknown future, they were terrified.

In fact, they were overthinking it! In the eyes of the ning family master and the others, they were just some ants that had no value at all. Therefore, after hearing the words of the ning family master, they were all dumbfounded!

Did they hear wrong? Was the other party really letting them leave?

Seeing their disbelieving expressions, master ning couldn't help but sneer, "What's wrong? Do you think we will kill you? Hmph! You're nothing but a bunch of ants. Killing you will only taint our reputation. So, hurry up and get lost. Do you want us to send you on your way?"

"We, we'll leave now!" As soon as the leaders of the forces heard this, they knew that the other party really wanted to let them go. So, they supported each other and ran away from this place.

After they left, it was the turn of the other family members to leave. Although they were unwilling to leave, they did not dare to disobey the orders of the family head. Moreover, they also knew that they might drag the family head down if they stayed here. Therefore, although they were reluctant to leave, they did not drag it out.

After most of the people left, only the ning family's master and the other seven people remained at the verdant fir waterfall. Naturally, they stayed behind to wait for their prey.

On the other side, the representatives of the blacksmith Guild and Alchemist Guild were already on their way to the Yao family's divine realm. However, they were moving at a slow and steady pace.

Seeing the speed of their advance so slow, the armament Guild headquarters "second elder was somewhat unable to bear it.

In a moment of impulse, he ran in front of Mo Yan and Jiang Ning, the two team leaders, and shouted, ""What kind of speed is this? At this speed, it would be too late to reach the Yao clan's divine realm! What's there to discuss?"

"Second elder, do you think that the Yao family head won't wait for us to start the discussion first? If that's the case, what's the point of going or not? Why don't we go back?" Jiang Ning blinked his eyes and said indifferently.

"It's good to go back. Our families are so far away from the Yao family's divine realm. We won't be able to get there in a short time. So, we should send a message to the Yao family and tell them not to wait for us!" "Yes!" Mo Yan replied. Before they set off, the Yao family branch knew that they had agreed to go to the Yao family's divine realm. The head of the Yao family must have received the news and was waiting for them, so Mo Yan really didn't know why the second elder was so anxious!

However, it was reasonable for the second elder to be anxious! However, they were not in a hurry!

"No! We can't go back, how can we not keep our word? since we've already informed the Yao family, we can't go back on our word!" The second elder said anxiously.

"Of course we don't want to break our promise, but, second elder, didn't you say that we're walking too slowly!" Jiang Ning said helplessly.

"He's too slow! It's been a few days, but we've only gone through one city. At this speed, won't we reach the Yao clan's divine realm by next year?" The second elder couldn't help but complain.

"What can we do? flying beasts are slow to begin with! Moreover, they had to rest, so they couldn't speed up even if they wanted to! Unless the second elder sacrifices himself and teleports us away. However, we have quite a number of people, and the second elder will have to make a few more trips!" Jiang Ning suggested as he looked at the second elder with a smile.

When the second elder heard this suggestion! He was so angry that he almost vomited blood. With such a long distance, was teleportation something a human could do? If he brought these people along, he would be exhausted to death! Therefore, he shook his head without any hesitation. There was no way he could do something that no one else was willing to do!

"Then we can only fly slowly!" Seeing this, Jiang Ning shrugged his shoulders and said innocently.

When the 2nd elder heard this result, he had no other choice but to grit his teeth and admit defeat. However, from then on, everyone in the team could always see the 2nd elder's dark face. Seeing this, everyone tactfully stayed away from the 2nd elder, a time bomb that could explode at any time.

At the same time, the master of the ning family and several other Masters had been waiting at the verdant fir waterfall for a few days. Finally, another group of people had come to die!

However, it was obvious that some of these people had seen the master of the ning family before and had sent a message to their companions in time. Therefore, when those people saw the master of the ning family, their faces all showed a shocked expression, and there was a trace of fear in their eyes.

"Master, master ning, why are you here?" Someone asked in a trembling voice.

The person who spoke was the person in charge of the operation at No. 1 middle school. He was one of the few people in the team who had the honor of meeting the family Masters. However, the first person he saw was the master of the ning family, so his words were naturally directed at him. However, as soon as he finished speaking, he saw the master of the Cheng family and the others hidden behind a huge tree from the corner of his eye. Suddenly, his scalp began to go numb, and half of his face twitched violently.

F \* ck! What day is it today! Why did so many patriarchs of the eight divine regions appear at the same time? He was depressed and had a headache. It seemed like it was impossible for him to deal with Leng ruoxue today!

After all, everyone knew about Leng ruoxue's relationship with master ning. From what he saw today, master ning was here to support Leng ruoxue! Because he knew very well that other than the master of the ning family, no one else had such a strong appeal!

Actually, knowing the relationship between Leng ruoxue and master ning, they still dared to gather to deal with Leng ruoxue. It was a risk. However, for the sake of the huge reward, many people would rather take a chance and participate in this matter. This was because they felt that they were on the side of justice, while Leng ruoxue had provoked the public's anger.

As the saying goes, the law is not responsible for heavy things!

Hence, they felt that it was no big deal even if they participated in the encirclement and suppression of Leng ruoxue! It was impossible for the master of the ning family to become enemies with the entire God World just for Leng ruoxue!

But now, he didn't dare to continue to think so ...

### [Chapter 2274 Chance Of Survival \(1\)](#)

Looking at master ning's expression, it was obvious that he wanted to stand up for Leng ruoxue! The man frowned and thought to himself. At the same time, he was very nervous.

In fact, he was still very afraid of the master of the ning family. Unfortunately, the reward of the Divine Master's estate was too tempting for them. Wasn't there a saying that 'men die for wealth, birds die for food'? Their current state was exactly like this. They were obviously very afraid, but they still wanted to stand up for themselves in the name of justice. And this daydream had always been very good before he

met the master of the ning family. Even after meeting the master of the ning family, his heart still contained a trace of luck.

Seeing that the master of the ning family didn't respond to him, the man took a deep breath and asked again, "Master, master ning, why are you here?"

"What's wrong? I can't be here? I heard that you're here for my daughter, so of course I have to stay here and meet you righteous Masters!" Master ning raised his eyebrows and said coldly. Most of the people who heard his words broke out in a cold sweat.

When the person who spoke heard this, he laughed bitterly in his heart. It was just as he had guessed, but he was not willing to make a wasted trip, so he mustered up his courage and said, "Master ning, we have no grudges with Leng ruoxue. The reason we want to deal with her is for the safety of the divinity! So, I hope you can understand. "

"The safety of the divine realm? What does my daughter have to do with the safety of the divine realm? Moreover, if I'm not mistaken, are you saying that the divine realm will be safe once I've dealt with my precious daughter?" The master of the ning family was so angry that he laughed and asked curiously.

"Uh! Almost! Leng ruoxue is now known as the great demon in the firmament. Her existence is definitely a great threat to the firmament. That's why we have answered the call of the God lord's estate to take her down before she's fully grown. Only then will the firmament be able to return to its former peace! Master ning, you're the leader of the eight divine regions. I think you'll understand what we're doing for the safety of the divine world, right?" The man laid out the facts and tried to reason with a serious expression. In the end, he didn't forget to use the status of the ning family's master and the ning family's status to speak.

When the head of the Cheng clan heard this, he couldn't help but hold his forehead. Moreover, the extremely sympathetic gaze he gave to the person who spoke made the person who spoke feel uncomfortable!

The man muttered to himself, "I've only said a few words of truth, so why is the head of the Cheng family looking at me like that?" This made him very depressed. And what he had wanted to hear the most was master ning's attitude, but because of master ning's silence, he had not heard it.

After a long while, the master of the ning family said with a smile, "Little guy, you're mistaken. Our ning family isn't the leader of the eight great divine regions! The Yao family was the leader of the eight divine regions. So, don't try to reason with me! I only know that whoever wants to bully my precious daughter is going Against Me! Hmph! Bullsh \* t about the divine realm's safety. If the divine realm's safety can only be exchanged with my daughter's safety, then it's better for the divine realm to always be safe!"

After the master of the ning family finished speaking with a faint smile, he rushed to the person who had spoken at lightning speed and beat him up while muttering, "You bastard! You dare to call my daughter a devil? You're the devil, your whole family is a devil!"

The person who was hit didn't react in time and was knocked unconscious after a few hits. The master of the ning family became angrier the more he spoke. The words of this person just now kept echoing in his mind, so he didn't hold back at all when he beat the person. Not long after, the other party was

beaten until he was covered in wounds and blood, and his original appearance was almost unrecognizable.

"Aiya! It was really tragic! You guys saw it! This is called "trouble comes from the mouth"!" The head of the Cheng clan laughed exaggeratedly at this scene.

When the people present heard his laughter, they all suppressed their fear and sighed in their hearts. This person was really too much, actually taking pleasure in others' misfortune? However, they only dared to think about it in their hearts and did not dare to say it out loud. They looked at the master of the ning family with deep fear.

"Who's next? who wants to test my fist?" The master of the ning family received the other party's gaze and raised his bloodied fist. He asked indifferently, but he couldn't help but think in his heart that the feeling of punching people with his fist was really good. The feeling of punching flesh was very real and very satisfying. No wonder someone liked it so much!

The "someone" in his heart was, of course, a demon.

When the people present heard this, they couldn't help but take a big step back. The expression on their faces became more and more frightened, and their legs began to tremble. At this moment, they really couldn't escape even if they wanted to! Her weak legs refused to listen to her.

However, the master of the Cheng family was quite excited to hear master ning's words. He asked curiously, "Is it fun to punch people?"

"You'll know when you try it!" Hearing this, the master of the ning family raised his eyebrows again and said with an evil smile.

"Hehe! Then I'll try it myself!" As soon as he finished speaking, he grabbed the unlucky guy closest to him. In the next second, his fist, which was as fast as the wind, landed on the other party's face with a bang.

The head of the Cheng family knew very well that the person he had beaten up was also one of the people in charge of this team, and he wanted to kill the chicken to warn the monkeys!

In fact, the actions of the Cheng clan's head this time had quite a big effect. The beating of the last person had already sounded the alarm for everyone, but this time, it deepened the fear in their hearts, especially when they saw the other five people's eager looks. The righteous master, who had come for justice, even wanted to cry to death!

Wu...This, isn't this bullying? You can't bully people like this! The two people in charge had been beaten up one after another. For the others, it was easy to imagine how much pressure they were under. At this time, almost everyone was hoping that someone would raise their arms and call for help, pointing them in the right direction. Unfortunately, no one dared to step out. It could be said that no one had the ability to step out!

At this moment, they were so scared that they wanted to run away, but their legs were already weak. They could only open their eyes wide in fear and look pitifully at master ning and the others.

Especially when the ning family head's icy blade-like eyes swept over them, they all trembled like little chicks that had just come out of their shells, and then slowly curled up into a ball and tightly huddled together.

Seeing them like this, the master of the ning family couldn't help but laugh. He pointed at them and said to the master of the Cheng family, "Look at them now, it's as if we did something to them! What a bunch of useless cowards. How dare they cause trouble for my daughter? Hmph! My Xue 'er can send them back to their hometown with one finger! He really overestimates himself!"

The ning family head's words were half mocking, and the other half was also for the Cheng family head and the others to hear. Although these Masters didn't shout to kill his daughter like these people, he knew that he didn't ask them for their thoughts. For people of their status, some words didn't need to be too straightforward, so the master of the ning family knew that these people would understand his meaning.

### [Chapter 2275 Chance Of Survival \(2\)](#)

Sure enough, the head of the Cheng family was the first to say, "That's right, don't you see whose goddaughter that little girl is? these people don't even dare to give face to old man ning, aren't they just here to die? Why don't we leave these people for Xue 'er to deal with?"

Master ning really thought about master Cheng's suggestion seriously, but he soon shook his head and said with a look of disgust, "These people are too weak. Xue 'er won't take a fancy to them!"

"Then what do we do?" The head of the Cheng family also asked in disdain.

"Do you guys want to stay and wait for death, or do you want to get lost?" The master of the ning family asked coldly.

These people were just small fries who were being used. There was no point in killing them. He was too lazy to beat them up. Therefore, he kindly gave them two choices. Of course, he would not let them go without a reason. If they wanted to leave, they had to pay a price!

"Get, get lost! I'll get lost!" Hearing this, someone immediately said.

"W-we'll also get lost!" Someone else said.

"Good! Since you want to get lost, I will naturally give you a chance. However, you can't just get lost for nothing. In the future, if there is any sign of trouble in the divine world, you must come and inform me. If you dare to not tell me and let me find out later, none of you will be able to live. Do you hear me?" After the master of the ning family finished speaking, his dark eyes swept around, as if he wanted to remember the faces of all the people present in his heart. Those people were so scared that they nodded repeatedly. Then, without waiting for the master of the ning family's order, those people rolled and crawled away from this place.

"Letting them go just like that is really letting them off too lightly!" After they fled, the head of the Cheng clan couldn't help but say with a regretful expression.

"What, you still want to make him stay?" The master of the ning family asked with a smile.

"How is that possible? Our Cheng family doesn't support idle people!" The patriarch of the Cheng clan hurriedly denied it.

"Don't keep idle people? Don't you have a lot of idlers in your Cheng family?" The master of the ning family raised his eyebrows.

"Uh!" The head of the Cheng family was rendered speechless by these words. He admitted that there were indeed a lot of idlers in the Cheng family, but they were all his descendants! He couldn't just drive them out!

Seeing the Cheng family master being defeated, the others all laughed unkindly. On the other hand, the ning family master said calmly, "I've already driven out some unfilial descendants of the ning family. "

"....."

These words shocked master Cheng and the others. They all stared at master ning, and after a long time, they asked in unison, "What do you mean by that?"

"It's the literal meaning!" The master of the ning family said indifferently, as if he was talking about someone else's family!

"He's really been driven out?" The head of the Cheng clan was stunned for a moment before he confirmed with a look of disbelief.

"Do you think I would joke about this? I'm only telling you this to inform you that in the future, when you hear someone from the ning family talking big in the divine world, remember to ask me if that person is still a member of the ning family!" The master of the ning family said seriously.

"Is it because of that lass Leng ruoxue?" After a long time, the head of the Cheng clan couldn't help but guess.

"Mm! Xue 'er has a different place in my heart. I truly treat her as my daughter, so if anyone dares to bully my daughter or say anything bad about her, I won't let it go!" When the master of the ning family said this, his aura suddenly rose and he said fiercely.

His words also caused some of the family heads present who did not understand the deep relationship between Leng ruoxue and master ning to reconsider Leng ruoxue's position in their hearts.

In contrast to them, the head of the Cheng clan sighed endlessly. Sigh! He did not expect that old man ning would go to this extent for Leng ruoxue. It seemed that he had to deal with the disharmony in the Cheng family as soon as possible. After all, he still wanted to maintain a good relationship with the ning family. He also valued that girl Leng ruoxue!

It had to be said that the master of the Cheng family was very smart. Furthermore, he did not hit someone when they were down. Other than giving face to the master of the ning family, a large part of it was also because Leng ruoxue was the Savior of the Cheng family. Furthermore, he also valued Leng ruoxue very much. With all these factors added up, he naturally did not want to make an enemy out of Leng ruoxue and the ning family!

As for the rumors from the outside world, he had never believed them. After all, he was not a fool. Could he not judge who was right and who was wrong?

In this short exchange, the family Masters were even more clear about Leng ruoxue's position in the heart of the ning family master. The ning family master was someone they definitely did not want to provoke. Therefore, they were smart enough not to mention their opinions on the matters involving Leng ruoxue. However, it was also impossible for them to offend the divine world estate and openly support Leng ruoxue. Thus, on this matter, the Lu family, Yu family, Chi family, and Fan family all decided to remain neutral and not offend anyone!

Even though master Cheng and master Yin had the same thoughts, they felt that Leng ruoxue was closer to them. Hence, unless Leng ruoxue didn't need their help, they would remain neutral. If Leng ruoxue needed their support, they would stand on her side!

However, what they did not expect was that after the battle at the verdant fir waterfall, they had already been assigned to Leng ruoxue's side by most of the forces in the divinity. This was definitely beyond their expectations! Of course, this was a story for later.

After this exchange, the relationship between the seven family heads became more harmonious. However, out of playfulness, the seven family heads still decided to stay at the green fir waterfall and wait for their prey. In the next few days, they really did wait for a few troops of justice who came excitedly but left in disappointment.

When those Masters of Justice First faced them, they were all valiant and spirited, as if they had sacrificed their lives and spilled their blood for justice, as if they had done something great. But when the two sides really met, there was no need for anyone else to do anything. The master of the ning family could deal with them alone!

And these people's fate was naturally the same as the previous teams. They were all required to report to him if there was any sign of trouble. Otherwise, they would bear the consequences!

After sending off groups of people who had come in the name of justice, the head of the ning family and the others finally got tired of waiting for their prey to appear. So, the seven heads of the ning family returned to the main city of the Yao family in high spirits.

When the head of the Yao family heard the news, he was so angry that he almost vomited blood.

F \* ck! He had gone to great lengths to spread the news that Leng ruoxue was in the Yao clan's divine territory and had successfully attracted many teams. However, those teams were completely useless. The moment they heard master ning's name, they were so scared that they peed their pants. Therefore, after doing so much, not only did he not hurt the seven of them, he had even sent many of master ning's underlings to report the news. This fact really made him depressed no matter how he thought about it.

What made him even angrier was that not only did the Divine Master's estate not send anyone over, not even a single member of the beast race had come to encircle and annihilate Leng ruoxue. Only the people of Wuhe who could not achieve anything great had come. He could not understand such an outcome.

### [Chapter 2276 Chance Of Survival \(3\)](#)

What was the difference?

The head of the Yao clan paced back and forth in his study like a trapped beast, while the Grand Elder lowered his head, not daring to say a word.

"Why are those people so useless? They all cowered when they saw that damned old man from the ning family!" The head of the Yao family muttered as he walked, his face filled with indignation! In fact, he was madly jealous because he knew that he definitely didn't have that kind of power. Not only he didn't have it, but the family heads of any of the eight great divine regions didn't have that kind of prestige!

"Master, the old man from the ning family has been famous for a long time. It's normal for him to have some deterrence in the divinity! So, please don't be angry anymore. If it were you, those people would definitely run away faster than rabbits when they see you!" The first elder of the Yao family, who still had a lingering fear, thought for a while and thought of a way to comfort him. Although the head of the Yao family knew that he was flattering him, he really needed this kind of flattery at this moment, so he was very happy to hear it!

Seeing that his master's expression had improved, the first elder continued, ""Patriarch, since things have come to this, you shouldn't be angry. Those people were weak to begin with. When we led them to the verdant fir waterfall, we hoped that they would join forces, but who knew that someone would know those old things and didn't dare to make a move. Ah! This result is beyond our expectations!"

The great elder of the Yao family sighed in regret. In fact, when they had spread the news that Leng ruoxue was at the Qingshan waterfall, they had only hoped that they could fish in troubled waters. Who knew that the waters were not chaotic enough? they did not fish in troubled waters, and the Divine Master's estate did not send anyone over. Instead, they had allowed those old fogeys to get their fill of beating people up. Sigh! Just thinking about it made him feel vexed!

Of course, he did not dare to say these words now! Otherwise, wouldn't the family head, who had just been appeased a little, flare up again!

"Master, when all the forces we've invited have arrived, if master ning still wants to protect Leng ruoxue, he'll definitely be criticized by everyone. By then, it'll be a good opportunity to take care of them! Therefore, please calm down and wait patiently, patriarch!" The Yao clan's first elder continued.

"Mm, you're right! By the way, did the beasts not send back any news?" The head of the Yao family nodded and asked.

This time, the Yao family had invited quite a number of major powers. Some had replied, while some had no news at all. However, what made him the happiest was that the armament Guild headquarters and The Alchemist Guild headquarters had both sent people over. When he found out about this news, he was already grinning from ear to ear. And now, what he was most concerned about was the reaction of the beast race. After all, the beast race was very powerful.

"Family head, there's no news from the four divine beast Kings. Should I urge them to hurry?" The first elder hurriedly said.

"No need! You just need to let someone tell them that The Alchemist Guild's Vice-President Jiang Ning will also be coming. " The head of the Yao family smiled and said confidently.

The beast clan could ignore their Yao family and the armament Guild headquarters, but they could not ignore The Alchemist Guild headquarters because the need for medicinal pills for beasts was definitely not less than that of humans!

And this time, the arrival of Jiang Ning could be said to be his biggest surprise!

As long as he could win over Jiang Ning and get him to stand on his side, would he have to worry about the other forces turning to Leng ruoxue and the ning family?

As the head of the Yao family thought of this, his mood suddenly brightened up. In the end, the entire Yao family heard a burst of arrogant laughter, and all the members of the Yao family were in a good mood.

Cang, who had been brazenly monitoring the Yao family's every move, heard the Echo of laughter in his ears. The corners of his mouth twitched slightly, revealing a meaningful smile. Then, Lil "fire, who had been summoned by him, immediately ran over to him.

After whispering a few words to xiaohuo, xiaohuo left the bottom of the cliff with his subordinates.

The next day, the news of the Yao family elders "disappearance once again spread, and this news made the head of the Yao family extremely furious.

Through his divine sense, he looked at the Yao family's head who was stomping in anger and couldn't help but think in his heart, Hmph! Now you know what is called extreme joy begets sorrow, right? I'll let you be proud!

Azure happily wagged his long tail, his mood was great!

When the demon saw this, he only looked deeply at Cang but did not say anything.

Suddenly, the door of the house on the open ground opened. Evil and cold saw it and quickly pounced over.

Leng ruoxue, who had just stepped out of the courtyard, was hugged by the demon. Cang unceremoniously laid between the two of them, vowing to carry out his duty as a third wheel to the end.

Seeing this scene, the people present were used to it and did what they had to do.

Leng ruoxue smiled helplessly. Then, she took out a transparent jade bottle and said, ""We've developed a new type of nutrient solution. I plan to give it a try on the seven Crystal Flower.""

Upon hearing this, the little fox hurriedly jumped onto Leng ruoxue's shoulder. Her eyes were fixed on the liquid in the Jade bottle, and her face was filled with anticipation.

The transparent liquid in the Jade bottle had a faint pink color. It looked like a pink diamond in the bottle, shining with a charming luster.

When the crowd saw this, they all walked forward in shock and admired the beautiful liquid in Leng ruoxue's hands. When Leng ruoxue opened the bottle, everyone immediately smelled a refreshing fragrance. Instantly, everyone's spirits were lifted.

"This is good stuff!" Uncle Lian couldn't help but take a few deep breaths and sigh.

"Tsk! You don't need to tell me that!" When Cang heard this, he said in an unpleasant tone.

"Uh!" The choked uncle Lian blinked his eyes in embarrassment and didn't dare to make a sound!

At this moment, Leng ruoxue left the evildoer's embrace and walked towards the seven Crystal Flower. She poured the pink liquid from the Jade bottle onto the huge flower.

Although there was only one drop of the pink liquid, it was very sticky. The seven Crystal Flower took about ten minutes to absorb all the liquid. Then, everyone's eyes were fixed on the seven Crystal Flower, not even daring to blink.

They really hoped to see a miracle happen. After all, Xue 'er, that little girl, had been feeding the seven Crystal Flower quite a lot of good things in the past few days! Any one of them would be priceless!

Who knew how many good treasures were in this little bit of liquid! Everyone thought to themselves with some heartache. Thus, they sincerely hoped that the seven Crystal Flower would be able to recover this time.

Unfortunately, to everyone's disappointment, the seven Crystal Flower still looked the same after a long time.

"Ai!" The crowd sighed and left the territory of the seven Crystal Flower.

Leng ruoxue, on the other hand, did not leave. Instead, she continued to observe the seven Crystal Flower, which did not seem to be getting any better.

In fact, this time, she was very confident in the nutrient solution that she, Shen nuo, and Liuyue had developed. Although she was not sure if it could restore the seven Crystal Flower to its original state, it was not to the extent that there were no changes at all!

Leng ruoxue could not understand.

When the demon saw this, he did not say anything and stayed by Leng ruoxue's side.

After a long time.

Leng ruoxue suddenly grabbed onto the evildoer's arm and whispered with a nervous expression, ""Demon, look at the pistil of the seven Crystal Flower. Isn't it different from before?"

She wasn't too sure and didn't dare to speak too loudly. Otherwise, if everyone was attracted and there were no changes, wouldn't she disappoint everyone again? thus, she could only ask the evildoer secretly.

After listening to Leng ruoxue's words, the demon inspected it seriously and said with certainty, ""It seems to have more vitality than before, but it's not obvious and almost invisible,"

"That's right! Demon, I'm going back to continue researching this nutrient solution!" After Leng ruoxue finished speaking, she left in a hurry.

Cang and the little fox also heard Leng ruoxue's words. The two little beasts naturally stared at the seven Crystal flower's pistil and studied it. After confirming it, the little fox was so excited that tears filled its eyes. It couldn't help but burst into tears ...

When the great elder and the others heard the crying, they hurriedly ran over to comfort the crying little fox. As for the evil-minded Cang and demon, they had no intention of explaining that the little fox wasn't crying because she was sad, and let everyone fill in the blanks on their own.

Everyone mumbled as they racked their brains for words to comfort the little fox. They did not dare to speak too harshly, but they had to be very reserved. So after a round of comfort, they were already covered in sweat. This made them deeply feel that comforting people was really physical work!

In the end, the little fox finally stopped crying!

However, as it was less intelligent, it forgot to tell everyone that it was not sad, but happy.

At this moment, Leng ruoxue, who had already returned to the pill refining room, told Shen nuo and Liuyue, who were still in the midst of their experiments, about the results of her careful observations. The two of them saw that the nutrient solution had some effect on the seven crystals flower, so they suggested that Leng ruoxue increase the dosage.

When Leng ruoxue heard this, she hurriedly nodded and the three of them got back to work.

Half a month later, through Leng ruoxue's repeated experiments, adjusting the ratio of the nutrient solution and feeding the seven Crystal Flower a nutrient solution every three days, the seven Crystal Flower finally regained its vitality ...

### [Chapter 2277 A Good Show Is On \(1\)](#)

Seeing the seven crystals flower getting better day by day, Leng ruoxue and the others were very happy. However, Leng ruoxue was thinking that her, Shen nuo, and Liuyue's hard work had not been in vain. On the other hand, the others were thinking that they finally did not have to use various precious medicinal herbs for their experiments anymore. This was because the medicinal herbs used to create the seven crystals flower's nutrient solution were all fixed. There were only five types. However, when they thought of those five medicinal herbs, everyone's heart still ached.

It was because each of the five medicinal ingredients was a priceless heavenly treasure. For example, the Dragon's beard grass, the fish scale flower, and so on. Any one of them would cause countless people to go crazy, especially Shen nuo and Liuyue, who were both alchemists. Although they knew that Leng ruoxue had many precious heavenly treasures in her hands, their eyes were still shining, and their hearts were beating fast!

In the end, Leng ruoxue promised to give them a portion of each of the five herbs. Only then did the two of them forcefully suppress their thoughts of keeping the herbs. From this, it could be seen how attractive good herbs were to alchemists.

In reality, for the sake of precious natural treasures, the two of them could not wait to sell themselves to Leng ruoxue. Right now, even though the two of them did not say it explicitly, they had been lazing around at her place all day long. Therefore, it was almost equivalent to selling themselves.

However, Leng ruoxue didn't mind their little schemes. In her eyes, these two people's characters were trustworthy. They were also important figures in the divine world. Being on good terms with them would only bring her benefits and no harm. Moreover, these two people had rich experience in alchemy. Therefore, if she had anything she did not understand, she could ask them for advice. She basically had all the medicinal pills they needed for alchemy. Therefore, this was beneficial to both sides.

During this period of time, the three of them had been busy with the matter of the seven Crystal Flower. As a result, the relationship between the three of them had rapidly warmed up. Now, they were both teachers and friends, and their relationship was even stronger than before.

Through the trio's hard work, the seven Crystal flower's condition improved day by day. Its vitality was also slowly recovering. Right now, although the seven Crystal flower's petals had yet to fully recover, the few petals closest to the heart of the flower had already recovered very well. They had become bright and fresh, as if they had just bloomed. Leng ruoxue and the rest were also shocked to discover that the petals of the seven Crystal Flower were actually dark red in color, and not the black color that they had always thought.

This fact surprised Leng ruoxue and the others.

Now, there were people surrounding the seven Crystal Flower almost every day, curiously watching its recovery. Who asked the seven Crystal Flower to change every day?

Especially the little fox, after knowing that the seven Crystal Flower was gradually recovering, it had been guarding the seven Crystal Flower closely and would not leave no matter what!

On a certain day.

As usual, Leng ruoxue fed the seven Crystal Flower the nutrient solution. Just as she was about to turn around and leave, she suddenly heard a soft "thank you!". Two words.

These two words shocked Leng ruoxue. Then, she lifted her beautiful eyes to search but could not find the person who had spoken. This made her feel puzzled.

"It's me!"

Another soft sigh was heard and Leng ruoxue suddenly came to her senses.

"You're the one talking?" Leng ruoxue asked as she looked at the seven Crystal flower's flower pot. Furthermore, she saw that the flower pot seemed to be shyly trembling. However, it was not trembling too much, so she was not too sure.

"The seven Crystal Flower spoke?"

"Did the ancestor speak?"

Upon hearing Leng ruoxue's words, everyone and the little fox looked at Leng ruoxue in unison and said in unison.

"Can't you guys hear me?" Leng ruoxue blinked her eyes and asked with uncertainty.

Everyone and the little fox shook their heads in unison.

"They can't hear me," the voice said. "I'm sending you a message. My body is still very weak, so I can't really speak."

"I see!" Leng ruoxue nodded. Then, she glanced at the curious crowd and the eager little fox. She smiled and said, "The seven Crystal Flower sent me a voice transmission. However, its body is still too weak, so it can't speak for now."

"That's great!" Seeing that their ancestor was finally awake, the little fox was so excited that she was about to cry again. Dongfang Yue and the others were so frightened that they hurriedly coaxed her.

When this little fellow cried, it would definitely cause the mountains to collapse and the earth to crack. It would be too horrible to look at. Moreover, once it started to pour, it would really be like a mountain flood that could not be stopped! They were very experienced in this. Therefore, when they saw that the little fox was about to cry, they wanted to kill this possibility in the cradle.

Seeing the crowd coaxing the little fox, Leng ruoxue couldn't help but snicker to herself. It seemed like everyone had been frightened by this little fellow who loved to cry.

At this moment, Leng ruoxue, who was secretly happy, was suddenly pulled into a pair of strong arms. The owner of the arms said with a matter-of-fact expression, "Xue 'er, the seven Crystal Flower is getting better by the day. Do you have time to spend with me?"

During this period of time, he had almost become a wife-gazing rock. Every day, he would stretch out his neck just to wait for the short moment when Xue 'er came out. So, no matter what, he had to fight for the chance to have Xue 'er all to himself.

"The seven Crystal Flower isn't completely healed yet!" Leng ruoxue said softly. Of course, she wanted to accompany the evildoer. However, she had promised him that she would find a way to cure the seven Crystal Flower. Hence, she really did not want to give up halfway.

However, when the demon heard this, he said in an overbearing manner, "Don't we still have Shen nuo and Liuyue? They'll be in charge of the nutrient fluids production from now on. You're being requisitioned by me!"

"Uh!" Leng ruoxue was speechless. Why did his words sound so ...

However, although the demon's idea was good, it was too difficult to realize! Not to mention the others, Cang Du would not let him succeed.

As soon as the evildoer's voice fell, a white light whizzed to the side of the two people. Then, the owner of the white light said in a fierce voice, "Niu doesn't belong to you alone, what right do you have to commandeer her?"

The white light that spoke was precisely Cang. Because other than him, no one else dared to say these words.

"It's not just mine?" The demon narrowed his dark eyes dangerously and said in an extremely unfriendly tone.

"Of course!" Azure puffed out her chest and looked straight at the demon without fear.

"You ... Are you looking to die?" When a demon was angry, the consequences would be very serious.

"We'll talk if you can kill me!" It was a direct provocation.

As soon as they heard this, everyone knew that the man and the Beast were going to fight again. So, they very tactfully picked up the little fox and left the place where the tragedy was about to happen. However, the little fox's face was full of excitement. It was obvious that she wanted to watch a good show. Seeing this, everyone was quite helpless.

Other than crying, this little fox had another hobby. She liked to watch others fight. Sigh! I really don't know how it developed this hobby. Anyway, as long as there are people fighting, it will be extremely excited, and sometimes even throw the sadness to the back of its mind. I really don't know who it got such a gossiping from.

### [Chapter 2278 A Good Show Is On \(2\)](#)

However, at this moment, everyone's only thought was that they could not become cannon fodder. Therefore, the great elder tactfully covered the excited little Fox's eyes and carried it far away.

In an instant, other than the huge seven Crystal Flower that had yet to fully recover, there was only Leng ruoxue, the raging evildoer and Cang.

However, this man and beast did not act as everyone had expected. They did not start a fight immediately. Instead, they turned their gazes towards Leng ruoxue.

The devilish eyes were deep and aggrieved, filled with resentment. Cang's dark and clear eyes were filled with pity.

Seeing this, Leng ruoxue had a headache.

Was this man and beast trying to act pitiful?

Leng ruoxue was not afraid of them fighting! He was most afraid of them being like this! Ah! She couldn't handle it!

Since he couldn't handle it, he could only play dumb! Therefore, Leng ruoxue also looked at them with an innocent expression.

Hmph! Wasn't it just a competition of pitifulness and innocence! She would not lose either! Leng ruoxue thought to herself.

After a long time.

The two humans and one beast, who had been staring at each other for a long time, could not help but laugh helplessly.

This time, evildoer and Cang Du didn't get any advantage. The winner was Leng ruoxue.

Seeing them bury the hatchet with a smile, Leng ruoxue's heart, which had been in her throat, could finally be at ease!

Then, she wiped the cold sweat off her forehead and thought to herself, that was close!

"Al! Xue 'er is getting more and more cunning. " Glancing at Leng ruoxue, who had clearly heaved a sigh of relief, the demon said with a face full of hidden bitterness.

"Isn't that so!" Azure agreed, not going against demon's words.

After saying this, Cang and evildoer glanced at each other and sighed.

Seeing them like this, Leng ruoxue finally could not hold back her laughter.

Were these two guys trying to make him happy? Even though they would not admit it, Leng ruoxue knew that even if they were to really fight, this man and beast would definitely have a sense of propriety. Thus, Leng ruoxue was happy to cooperate with them. But now, these two people seemed to have the intention of joining forces!

As expected, the moment she thought of that, the man and the Beast pounced towards Leng ruoxue. Following that, a white light flashed and the two of them disappeared.

He glanced at the place where the two people and the Beast had been, and the first elder who was hiding in the corner. He then turned to look at Shen nuo and Liuyue, patted their shoulders, and said, ""I'll leave the treatment of the seven Crystal Flower to you guys!"

"Yes, that girl Xue 'er has increased our workload. I wonder if we can ask her for overtime pay?" After thinking for a while, Shen nuo could not help but ask.

"If you can get it, I'll support you." The first elder said with an evil smile.

Who would have thought that after hearing these words, Shen nuo would actually give up. After that, he was openly despised by the first elder and the rest, and without any complaints, he took up the responsibility of taking care of the seven Crystal Flower.

At this moment, Leng ruoxue and the demon were brought into the God protection Pagoda by Cang.

"Cang, why did you bring us into the God-protecting Pagoda?" Leng ruoxue asked in confusion.

"If I don't bring you to the God-protecting tower, do you want me to watch you enter the broken bracelet?" Cang Qi snorted. This was called 'the first to strike is the best'. Otherwise, once the two of them entered the broken bracelet, it could only watch helplessly. Who asked it not to enter!

However, the words 'broken bracelet' deeply provoked the little one.

Following which, Leng ruoxue and the demon heard a furious voice ring out beside them, ""Damn it, you're the broken bracelet, your whole family is made of broken bracelets!"

"I'm not a bracelet!" When Azure heard this, he said in a calm manner.

"Hmph! You damn tower!" Qing Jue said, unwilling to be outdone. Although he was not at his peak condition yet, and even if he was at his peak condition, he might not be able to defeat this broken tower, but he was definitely not afraid of it. That was why he dared to challenge Cang.

However, what made him most unhappy was that he couldn't leave the universal bracelet now. Otherwise, he would definitely go out and fight this guy one-on-one! Who asked this fellow to always

snatch his sister away from him? as long as he had the opportunity, he would definitely teach it a lesson! Qing Jue was filled with hatred.

However, Leng ruoxue felt a headache coming on when she saw the two little fellows at each other's throats. She knew that Qing Jue was no match for Cang, so Qing Jue could only be bullied. She really did not want to see Qing Jue cry, so she had no choice but to change the topic, ""Cang, you brought us into the God protecting Pagoda. You should have something to say, right?"

"Hehe! Niu's smart!" When Azure heard this, he smiled.

"What is it?" Leng ruoxue asked curiously.

"Do you know this person?" Cang smiled mysteriously. Then, he raised his small claws and a light screen appeared in front of Leng ruoxue.

Leng ruoxue was stunned when she saw the person on the screen. She then asked, ""Cheap old ancestor?"

"Cang, this person is my family's cheap old ancestor. You let me see him, did something happen to him?" Leng ruoxue could not help but guess.

"He's fine! Moreover, he's heading toward the Yao family's divine realm. He's probably here to attack you!" Azure said with a smile.

"Suppress me? Are you saying that the Yao family is being dishonest again?" Leng ruoxue raised her brows and asked indifferently.

"En en, while you were researching medicinal pills for the seven Crystal Flower, the old man of the Yao family secretly contacted many large forces, such as The Alchemist Guild headquarters, the artifact master Guild headquarters, the ascender Alliance, and the Beast race. They were all invited! It won't be long before these major powers arrive at the Yao family's divine realm. " Azure explained with a smile.

"Are you here to die?" Hearing this, the demon said coldly.

"Hehe! It's up to them to decide if they'll send themselves to their deaths. However, there are plenty of people who want to fish in troubled waters!" Cold laughed even more delightedly. Its face was filled with an expression of schadenfreude. Seeing it like this, Leng ruoxue really didn't know if she should pity those fellows who were invited because she could tell that cold was very bored.

At this moment, Leng ruoxue suddenly thought of a fact and asked, ""Cheap old ancestor is here representing the armament Guild headquarters?"

"Of course, not only him, but his master is also here!" Azure reminded.

"Uh! They're probably here to join in the fun!" Leng ruoxue understood.

"Are you sure? Why don't you think that they might be here to put righteousness before family?" Azure asked, somewhat puzzled. Seeing Niu so calm, it felt that it had no sense of accomplishment, which made it a bit disappointed.

Al! How it wished it could see Niu's panic-stricken appearance! Unfortunately, this wish seemed to be difficult!

"Mo Yan and our cheap ancestor are both very protective of their own. It's impossible for them to put righteousness before family unless they've taken the wrong medicine!" Leng ruoxue said with certainty. She was very confident in this!

### [Chapter 2279 A Good Show Is On \(3\)](#)

"Maybe they just took the wrong medicine!" Cang mumbled softly. However, no matter how soft his voice was, Leng ruoxue could still hear him.

"....."

What did Azure mean by this? Leng ruoxue was speechless. Why did it seem like it was hoping that its cheap ancestor would put righteousness before family?

The helpless Leng ruoxue automatically ignored Cang's resentful words. She raised her head and looked at the white sky above her, feeling a little sad.

However, very quickly, Leng ruoxue forgot about these small interludes and admired the Yao family head's appearance, which was like a trapped beast, with a face full of excitement.

When she found out that Cang you had ordered Lil "fire to abduct the Yao family's Grand Elder and the rest, Leng ruoxue expressed her deep sympathy for the Yao family. However, it was only sympathy. She had no intention of being kind enough to let Lil" fire release them.

In addition, she was also clear that the Yao family didn't have much money left. Xiaohuo and the other beasts probably wouldn't be able to Rob anything from the Yao family!

And the current Yao family was also in a situation where they had no one to use.

Elder Yao Jiu, who had been put in house arrest by the Yao family's head because of the repeated kidnapping of the Yao family elders, was released. However, when he heard that the first elder and the others had disappeared again, he didn't show any gloating expression, but instead expressed deep concern.

After all, as members of the Yao family, they were bound together for good or bad. The disappearance of the Yao family elders was definitely not good news for the Yao family. Furthermore, this news had spread out uncontrollably. To the Yao family who had been trying their best to hide it, it was definitely adding hail to snow!

At this time, although the head of the Yao family knew who had kidnapped them, he had no way to save them. This was because all his thoughts were focused on entertaining the various major forces, and elder Yao Jiu's work was naturally focused on this.

null

"Old man ning, are you really not in a hurry?" The head of the Cheng clan, who had been spinning around like a headless fly, couldn't help but ask after feeling a little dizzy. Seeing old man ning's calm and composed appearance, he really wanted to bite him hard.

Al! He wasn't the Emperor, he wasn't in a hurry ... No! He was not a eunuch! Just as he thought this, master Cheng immediately reacted and glared at master ning.

Seeing this, the master of the ning family took another sip of tea and said helplessly, "What's the use of me being anxious? If I'm anxious, won't those people come? However, I feel that the old man of the Yao family should be even more anxious than me right now, right? You should know that the Yao family's elders have gone missing again. " Thinking of this, the master of the ning family couldn't help but be secretly happy. He didn't need to guess to know who did this! Moreover, not only did he know, everyone on earth knew!

"Uh! It is reasonable to say that he should be anxious, but right now, he has clearly placed the safety of the Yao family's first elder and the others before dealing with you. Therefore, you should be the one to be anxious first. " The head of the Cheng family sighed softly. He didn't know what to say when he thought of the elders of the Yao family who had gone missing twice. How could those snakes do such a thing? they were really, really too evil! But to him, it was a great satisfaction! Furthermore, even with his eyes closed, he could guess the old man's reaction.

"I'm not in a hurry. If I'm so anxious that I'm stomping my feet, then I'll have fallen into that old man's trap! I'm afraid he can't wait to see me throw myself into chaos!" The master of the ning family said.

"That's true! However, I heard that this time The Alchemist Guild and the armament Guild also sent people. Do you think they will stand on the Yao family's side? If that's the case, you'll be in a passive position!" The clan head of the Cheng clan said with a face full of worry. He was well aware of the transcendent status of The Alchemist Guild and the blacksmith Guild in the divine realm. These two large guilds would often not even give face to the divine lord's estate.

"Do you think that these two headquarters will be at old man Yao's mercy?" Hearing the Cheng clan's clan head's worried words, the ning clan's clan head lightly smiled and asked. To be honest, he wasn't worried about the armament Guild, but he wasn't certain of The Alchemist Guild's intentions. After all, from a certain perspective, The Alchemist Guild's position was more special!

"I won't! However, it's better to be safe than sorry!" The patriarch of the Cheng clan couldn't help but remind him.

"Keep your worries to yourself!" The master of the ning family consoled him. He looked calm on the surface, but in fact, he was not that calm on the inside.

He was only slightly relieved when the people from the two headquarters arrived at the Yao family's main city.

This was because he saw Mo Yan and Leng Xiaoyu in the armament Guild headquarters 'team. However, the two of them acted as if they did not see him and turned a blind eye to him.

The master of the ning family was very confused, but since the other party pretended not to know him, he could only ignore his existence.

When he saw the people from the armament Guild headquarters, the ning family head immediately informed Leng ruoxue of the situation. However, Leng ruoxue was much calmer than he had expected and did not comment much on Mo Yan and Leng Xiaoyu's reactions. This made the ning family head

even more confused. However, he didn't ask any further and remained as calm as ever in the inn in the Yao clan's main city.

During this period, many family representatives had visited the people from the two headquarters, but only the ning family had adopted the policy of biding their time.

"Patriarch, should we also go and see Jiang Ning and his Excellency Mo Yan?" In the room of the master of the ning family, the seventh elder of the ning family asked for his opinion.

"Why should I see them? I don't need them to refine pills or weapons!" Hearing this, the master of the ning family blinked his eyes, looking puzzled.

"Uh! Being on good terms with them will only benefit our ning family! Besides, they're here for Xue 'er, that girl. If we take the initiative, they'll have to consider our position when they express their opinions. So, in general, it's still good!" The seventh elder racked his brain to think of the benefits of meeting the two people and reminded them.

Who knew that after hearing his words, the clan head didn't take it seriously at all and waved his hand, "Our ning family doesn't need to curry favor with them!"

He was also very proud, okay? Moreover, in terms of seniority, Mo Yan and Jiang Ning were not as senior as him. So, before he knew the other's intentions, he was not willing to lower himself to meet those two people!

When the seventh elder heard how stubborn his master was, he knew that it was useless to persuade him, so he could only dispel the idea in his heart.

Just like that, the ning family became the only power that had not paid a visit to Jiang Ning and Mo Yan. As soon as the ning family appeared in the inn, they would immediately become the center of attention. There were even a few times when the seventh elder heard the other party whisper that the ning family was too arrogant! If he didn't consider the consequences, he almost couldn't control himself and beat up those people who were making sarcastic remarks!

However, when the seventh elder reported these things to his family head, the calmness of his family head made the seventh elder quite annoyed!

Just like that, the seventh elder of the ning family's depression continued until the banquet that the Yao family had set up to welcome all the forces.

As one of the top forces in the divine realm, no matter how much the head of the Yao family hated the ning family, the ning family would naturally be invited. Seeing the excitement of the head of the ning family when he received the invitation, seventh elder ning was deeply worried.

Although he really wanted to say, "master, can you not be so excited?" Those who didn't know would think that you were going to cause a scene! And in fact, master ning really wanted to smash the place! He had been waiting for this day ever since he found out that the Yao family had invited many other major forces.

In addition, even though it was called a welcome banquet, no one, including the Yao family, was sure what the outcome would be. Whether or not both the host and the guests would be happy, no one was sure.

Especially the Yao family, since the arrival of the armament Masters Guild and The Alchemist Guild, the entire Yao family had been in a state of anxiety and excitement. With this kind of contradictory mood, under the financial support of the Yao family, the reception banquet in the inn where master ning and the others lived finally began.

As the host of the banquet, elder Yao Jiu naturally stayed in the inn and busied himself with work. On the day of the banquet, the head of the Yao family arrived at the inn unexpectedly early. Of course, his main target was Jiangning!

As for the ning family master and the others, they were completely ignored by him.

Seeing that he had been neglected, the master of the ning family remained calm. However, the master of the Cheng family pretended to complain, "This damn thing is so realistic! When he saw people from The Alchemist Guild headquarters, he cast everyone to the side!"

"What else? He now hates us to the bone, do you expect him to treat us like guests?" The master of the ning family teased.

"Not to the extent of being a VIP, but I didn't expect him to be unwilling to even do things to save face now. It seems that the hatred he has for our seven families is not just a little bit!" The head of the Cheng clan was speechless.

"It's good that you know!" The master of the ning family smiled and found a seat himself. Seeing this, the master of the Cheng family also sat down beside him.

At this moment, a loud Phoenix's cry suddenly sounded, followed by a dragon's cry, and then a tiger's roar ... The roars of the three beasts echoed each other, as if they were competing with each other.

The weaker people's faces gradually turned pale when they heard the beast's roar.

"It's going to be even more lively now!"

### [Chapter 2280 Beautiful Man \(1\)](#)

Hearing the roars of the beasts, the master of the ning family couldn't help but frown. He was the one who had said those words just now. Moreover, in the eyes of others, the roars of the Dragon, Phoenix, and Tiger were powerful and imposing, but in his eyes, these were all demonic sounds that filled his ears. They were all noisier!

Moreover, he didn't need to guess to know why these beasts were here.

Al! Old man Yao should be happy now, right? However, this was all thanks to Jiang Ning. This was because alchemists were simply too attractive to both humans and beasts.

However, no matter what the reason was, the fact that these beasts were willing to come to the Yao family's divine realm was something that the old man of the Yao family was gratified about.

As soon as the sounds of the Dragon, Phoenix, and Tiger appeared, the head of the Yao family came out of the room with a face full of joy. His face was even red, making it obvious that he was in an extremely good mood.

Normally, before the banquet started, a person with the status of the head of the Yao family didn't need to appear too early. After all, he was the head of the family! Unfortunately, the Yao family had been tormented by the blue snake Clan during this period of time, and their reputation had been tarnished. Various versions of rumors were everywhere, so the Yao family, from the head of the family to the ordinary clansmen, attached great importance to the reception of the various forces. This could be seen from the banquet this time. Therefore, the head of the Yao family had lowered his status and came out early to build a good relationship with everyone.

And the first person he wanted to rope in was naturally The Alchemist Guild's main Guild's Vice President, Jiang Ning.

As long as Jiang Ning was willing to stand on his side, he would be able to win over at least half of the people and beasts. However, Jiang Ning wasn't someone that could be easily used, so he wasn't even sure if his plan would succeed.

However, after a short period of contact, the Yao family's head and Jiangning had a very good conversation. Their relationship had improved by leaps and bounds, and they were only short of calling each other brothers. Therefore, with such a good start, the Yao family's head's confidence had increased by several times. His depressed mood, which had been stirred up by the damn blue snake Clan, had instantly lightened up.

Almost everyone could sense the good mood of the head of the Yao family, so they couldn't help but wonder if he had reached some kind of agreement with Jiangning.

The doubts in everyone's heart were like a cat scratching, itching. The more they wanted to know some inside information, the more they couldn't ask at this time, because everyone knew that now was definitely not a good time to inquire about this information.

Right now, the time and the limelight belonged to the beasts!

After the head of the Yao family came out of his room, he only glanced at the hall before immediately stepping out of the store. He raised his head and saw several huge white tigers, Dragons, and phoenixes floating in the sky. However, to his disappointment, he did not see the figure of the Qilin clan. However, he was still very happy that these three clans were willing to give him face and come!

This time, each of the three clans had sent two elders, a total of six beasties. However, the strength of these six beasties was only equivalent to a human divine Emperor, so their status among the elders of the three clans should not be the highest. However, they were of noble birth, so even the head of the Yao family would not easily neglect them.

The moment the Yao family head saw them, he immediately smiled and said affably, "Elders, please come down for a chat!"

The six huge beasts nodded and landed on the ground, transforming into their human forms.

There were two men and four women. From their appearance, there was nothing to be picky about. The men were handsome and the women were beautiful. However, the expressions on these six people's faces were somewhat unpredictable.

They seemed to be disdainful and dissatisfied. In short, the six of them put on more airs than the family Masters of the eight divine regions. After being invited into the inn by the Yao family master, they still turned a blind eye to the people present.

Originally, everyone felt that it was unfair!

Even if you're three of the four great king divine beasts of the magical beasts, the people present here are basically the representatives of the various great powers of the divine realm! No matter how arrogant you are, no matter how noble your bloodline is, you shouldn't have left us here without even a word of greeting, right?

However, when they saw that the master of the ning family and the others, who were of higher status than them, were also ignored, everyone's heart instantly balanced out.

Compared to the family heads of the eight great divine regions, they were really nothing! He didn't even put master ning and the others in his eyes, so they were as small as dust! However, after their hearts were balanced, they began to sympathize with master ning and the others. After all, they were the Masters of the eight great divine regions! Their status among the humans in the divine realm was equivalent to the king of the Four Great Kings of the magical beasts. However, at this moment, those few people were being looked down upon by a few unremarkable elders of the Four Great Kings of the divine beasts. To the humans, this was definitely a great humiliation!

Everyone suddenly felt indignant, and their impression of the three beast tribes took a sharp turn for the worse. However, no one dared to offend the three beast tribes. Therefore, no one was willing to stand out at this time, even though they were dissatisfied.

However, everyone's Red and undisguised sympathetic gazes made the head of the Cheng family a little angry.

F \* ck! Why was he looking at them with such a gaze? Wasn't it just those little beasts who ignored them?

Hmph! Fine, I'll ignore you!

You guys are ignoring me, but I don't want to talk to you!

I'm the family head of one of the eight divine regions. I can't afford to lose face by sticking my warm face to your cold ass!

Not to mention you guys, even if your King came, I wouldn't care! The master of the Cheng family cursed in his heart. At the same time, his small eyes involuntarily drifted to old man ning. Seeing that he didn't even blink, that his expression didn't change, and that he was still calmly drinking his tea, his heart was filled with admiration!

As expected of his boss! Look at this aura, this style, I played it well! Moreover, he didn't treat himself as an outsider at all, and the banquet hadn't even started yet! He would eat it first!

At this time, The Cold Dish in front of master ning had already been eaten by him several times, and it was even eaten with tea. It really didn't match no matter how he looked at it.

After some thought, master Cheng leaned closer to master ning and whispered in his ear, ""Old man ning, those little bastards didn't give us any face. Should we teach them a lesson?"

"Don 't!" Hearing this, master ning raised his head and glanced at master Cheng, whose eyes were shining and whose face was full of expectation.

"Why?" The head of the Cheng clan was puzzled.

"I won't do such a shameful thing! If it's their King, I might consider it. " Master ning said matter-of-factly.

"Uh! However, these little B \* stars were too detestable! In my opinion, they're clearly doing this on purpose!" The head of the Cheng family was still very angry.

"Have you ever heard of the Wheel of Fortune? If they look down on us, others will also look down on them!" The master of the ning family smiled mysteriously.

"Eh? What do you mean by that?" The head of the Cheng clan felt that his brain was unable to wrap itself around this. He actually didn't understand old man ning's words.
