

Crossing 771

Chapter 771: Another Look At The Headquarters!

“Little Brother Shaoyun should be safe, but he forgot his pet in all the chaos,” Mu Chaoran guessed.

“Rawr... please tell my master that I didn’t deliberately threw her...” Little White looked at Mu Chaoran with a pitiful expression on its face, hoping that Mu Chaoran could help it explain to her master.

“Look how sad it looks. It’s probably frightened. Don’t be scared, I’ll find your master for you in just a bit...” Mu Chaoran pinched Little White’s cheeks and comforted.

“Find my master?” After hearing that, Little White jumped up and down frantically, “Rawr... I don’t want to go! I don’t want to go! I will not go before my master assures me that she is not angry at me!

“You’re excited because you know we’re going to go look for you master, right?” Mu Chaoran laughed. “But, we need to go to the headquarters first so you’ll just have to come with us.” Right after Mu Chaoran finished speaking, he and Tang Ningyu moved out and quickly ran towards the headquarters in the center of the forest.

Little White, who was being held by Mu Chaoran, suddenly remembered that yesterday, its master mentioned that she was going to go to the headquarters to save someone...

“Rawr!” Little White let out an agonized cry. Isn’t it serving itself to its Boss in a silver platter? If it could, it would definitely return to its original form and smash Mu Chaoran into a pancake. He wants me to suffer from master. Jerk, jerk, jerk...

Unfortunately, his master did say that it couldn’t use its original form without her permission! It knew that if its master caught it in its original form, it would live the rest of its days in fright, waiting for the punishment to come. If it was caught and exposed, then it would definitely become a dead Little White...”Wah, wah, wah. Just you wait, Mu Chaoran!” Little White sobbed and laid limply onto Mu Chaoran’s palm. It waited in despair for its tragic end!

Ling Lan deliberately let herself get hurled by Little White. After being saved by those soldiers, she followed the hostages to retreat to the back-lines. However, when they retreated, she silently left the big group.

That was because the place was in chaos and no one was keeping track of the number of hostages. Ling Lan’s silent departure didn’t attract any attention.

In a few seconds, Ling Lan arrived at the entrance of the headquarters in the forest. Li Lanfeng and Li Shiyu were already waiting there. From the beginning of the attack on the academy, Ling Lan had ordered Li Lanfeng and Li Shiyu to hide in the forest during the chaos to monitor the situation of the base.

“How are things looking?” Ling Lan walked beside the two of them and used spiritual power to communicate with Li Lanfeng.

“Other than those fake domain realm masters who went to the academy, there weren’t any others moving out of the headquarters.” Li Lanfeng told Ling Lan what they had seen.

Hearing this, Ling Lan frowned. She knew that with the military attacking this academy, the headquarters only sent out a few fake domain realm masters to defend and yet these people didn’t use this chance to move the rest of their troops. This was clearly strange. Suddenly, Ling Lan expression changed slightly after thinking of another possibility.

“Little Four, get me all of the surveillance footage of all the areas surrounding the Azure Central Scout Academy. See if any area suddenly had a large convoy or crowd moving through.” The gate wasn’t the only place they could escape from. Ling Lan actually didn’t think of this possibility.

“Yes, Boss!” Right as Little Four was about to connect to the surveillance equipment, he discovered that this forest was the same as the Li mansion, not having any surveillance equipment. Little Four immediately notified his Boss of this situation.

“Enter the base!” If they couldn’t gain any information from the outside, then they must go inside to investigate. Ling Lan decisively made this decision.

Ling Lan made Li Lanfeng and Li Shiyu stand guard outside. No one knew what the situation inside the headquarters was like. Ling Lan didn’t want her comrades to be in unnecessary danger.

Seeing Ling Lan entering the enemy’s headquarters by herself, Li Lanfeng, who had a warm aura around him, suddenly became stone cold. This version Li Lanfeng, or rather Li Mulan, was never before seen. Li Shiyu, who stood beside him, couldn’t help but worry for his mental state.

“It’s alright. One day, I’ll be able to follow in his footsteps.” Li Lanfeng turned around and smiled at Li Shiyu. He would never give up on his goal. It was the same in the past, the present and the future.

“Alright!” Li Shiyu pretended to not be concerned, but he still couldn’t help but say, “I feel you’re self-inflicting pain and suffering.” A monstrosity like their Boss was not someone who anyone could easily follow and become on par with.

“If I can’t do that, how can I defy my fate?” Li Lanfeng raised his eyebrows. He never once thought that following in Ling Lan’s footsteps was more difficult than changing his own fate. If he couldn’t do that, then he shouldn’t even consider trying to change his fate.

“Defy your fate?” Li Shiyu was confused. It was the first time he heard his eldest cousin brother say something like that. Did he say it because of his weak and delicate body from the past? Li Shiyu felt that the situation wasn’t as simple as he had previously thought. Is his eldest cousin brother still hiding something?

Seeing a confused Li Shiyu, Li Lanfeng smirked...

At that moment, Tang Ningyu and Mu Chaoran also arrived.

“Here.” Tang Ningyu reached the entrance of the headquarters. The location of the headquarters was very intricate. If it wasn’t for the fact that Tang Ningyu was given a map by his superiors, they may not be able to find it in a short amount of time. Currently, with all of the fake domain realm masters and guards being sent to intercept the military... the entrance was no longer guarded.

“This gate should be one of those high-tech password gates. Do you know the password?” Mu Chaoran inspected the gate, then turned around and asked Tang Ningyu.

“No!” Tang Ningyu replied sharply.

“Then, how do we get in?” Mu Chaoran was dumbfounded.

Purple lightning appeared and started buzzing around Tang Ningyu’s palm. He calmly said, “By force!”

After saying that, a flash of purple lightning shot towards the gate. The gate was instantly melted into a pile of mush and could no longer be used as a gate.

Seeing this, Mu Chaoran rubbed his nose and said, “Very forceful indeed!” He suddenly opened his hand and a fire dragon flew out from it. The fire dragon wrapped around the mush and boiled it until its gaseous state.

After getting rid of the gate, it revealed a bottomless hole. Tang Ningyu and Mu Chaoran looked at each other, then both of them jumped down one after the other.

After landing at the bottom, Mu Chaoran and Tang Ningyu knew that they were around a few hundred meters deep based on how long it took for them to land.

What they first saw was a wide corridor, but it wasn’t as dark as one would think being in a tunnel hundreds of meters deep as there were lights for every three steps that they took which lit up the entire corridor. If there were guards in this corridor, even if there were only one for every 50 meters, they would still be discovered the moment they entered it.

However, currently, there weren’t any guards in the corridor. They were probably all intercepting the military. This made it easier for them to move about and not worry about being attacked.

The two of them didn’t slow down and quickly ran across the corridor. Once they got out of the corridor, they saw large headquarters. No one knew how this unknown organization managed to build such a large headquarters under the forest. Even these two from the Flying Dragon Special Forces couldn’t help but be in awe of this organization’s achievements.

However, this large headquarters which was originally orderly, was now chaotic. People there were like headless flies, running around aimlessly without a supervisor in sight.

Tang Ningyu seemed to have realized something and shouted, “Not good!”

“What’s wrong?” Tang Ningyu made Mu Chaoran jump up in fright.

“This headquarters has another exit,” Tang Ningyu said with certainty.

“That’s impossible. We received information that there’s only one.” Mu Chaoran couldn’t believe it.

“I speculate that the exit is only known to a few. No, maybe only the boss of this headquarters knows where it is,” Tang Ningyu smiled bitterly.

“In other words, they gave up their lives to keep their boss safe?” Mu Chaoran said confusedly.

“Looks like that’s the case. Those in the academy area, along with these people in the base, are people that have been abandoned.” Once the military breaks into this headquarters, these people will be sitting ducks.

“Why don’t they just leave the headquarters?” If they didn’t know about the other exit, couldn’t they just leave with the gate the two of them came in from?

“It’s possible that they don’t even know they have been discovered,” Tang Ningyu said calmly. “This is an enclosed space so they can’t contact the outside world.” This was why they couldn’t get hackers to find the location of the headquarters and could only use spies that only had results popping up after three years.

“The reason for the chaos is probably because they can’t find the person-in-charge. I guess they could already tell that there is something going on. However, the enclosed lifestyle made them react much slower,” Tang Ningyu continued. “However, even though they are very slow on the uptake, they will soon escape from the place we entered from...”

Mu Chaoran smirked, “Looks like we came right on time. We have to stop these people from leaving.”

“I can handle it myself. Shouldn’t you be finding someone?” When they were coming here, Mu Chaoran talked about Xiao Yiqiu’s situation.

“Alright, I’m going to go find him. Just call me if you can’t handle them.” Mu Chaoran went to find Xiao Yiqiu.

Right as Tang Ningyu was about stop people from escaping, Little Four, who had already took control of the headquarters, gave an order in the voice of their boss under Ling Lan’s command. After completing that, he then had the time to tell his Boss that her two roommates had arrived.

“If they’re here then that means the military will be here soon as well. Little Four, did you find the second exit?” Ling Lan target was the second exit.

“Boss, I found it, but that exit can no longer be used.” Little Four told Ling Lan the bad news.

“What happened?” Asked Ling Lan.

“When they left, they destroyed the passage,” said Little Four.

“They’re getting away just like that?” Ling Lan was in dismay. Ever since she discovered what this organization had done, Ling Lan had decided that she wouldn’t let them go no matter what.

“Maybe not... ah ha, I found their location!” Little Four expanded the map of the Azure Central Scout Academy by a few hundred yard radius in Ling Lan’s mindspace. There was a red dot blinking on one spot of the map. “The exit is there! They’re still packing something and haven’t left yet.”

“Good job, Little Four!” Ling Lan finally smiled slightly. Then, she disappeared into the mist and began to move about. She had to get there.

“Little Four, give Mu Chaoran some hints to let him find Xiao Yiqiu quicker.” After saying that, Ling Lan completely disappeared.

Chapter 772: No Effort Required!

After taking control of the headquarters, Little Four quickly found the lucky Xiao Yiqiu, as he was only just tossed into a room and unconscious.

Tang Ningyu and Mu Chaoran split the workload. Tang Ningyu guarded the corridor to make sure those in the headquarters didn't escape before the military arrived, while Mu Chaoran silently went deeper into the headquarters to look for Xiao Yiqiu.

However, a sudden change surprised the two of them greatly. The originally chaotic and panic-filled headquarters, slowly became orderly. This made Tang Ningyu, who was guarding the corridor, suspect that something was off. Could it be that their guess was off? Is the boss of the headquarters still supervising the headquarters?

Seeing this change, Mu Chaoran also became more cautious. He didn't want to get trapped in this headquarters before he could save Xiao Yiqiu. He had already personally experienced a titled domain realm master's terrifying capabilities. If that titled domain realm master was in the headquarters, or perhaps there were similar level experts within the headquarters, he probably wouldn't be able to stall them until the military arrived.

Mu Chaoran hid within the darkness. Right when he was thinking about how he would find Xiao Yiqiu, two staff members of the headquarters suddenly walked past him. They spoke softly as they walked past him.

"That's odd. Why would the higher-ups order us to move the material in Room Q1 to Room F7?" Normally, a material would only be moved from a room if the modifications were successful or a complete failure. Otherwise, the material would be left in the room for its entire life."

"That's enough, don't say anymore. Ever since yesterday afternoon, the orders from the higher-ups began to be confusing. Now we're only changing the room of a material, there's nothing weird about that," said the other staff member nonchalantly.

"Do you think something happened?" Every since yesterday afternoon, the orders of the higher-ups seemed to be extremely odd. The lower-ranked staff members could feel something was in the air, and also began to suspect whether something had happened to the headquarters...

"Who knows.." the other staff member said dazedly.

"Sigh!" The two of them sighed and shook their heads as they walked towards Room Q1. They were all at the bottom of the chain of command. When the higher-ups were still in the headquarters, they didn't have a chance to run even if they wanted to. They could only obey the orders given to them.

After hearing the conversation between the two of them, Mu Chaoran suddenly had a thought, and he followed behind them. Since he didn't have any idea where to look for Xiao Yiqiu, he should follow them, maybe he could find more clues.

Room Q1 was somewhat far away. Mu Chaoran carefully hid from everyone he had encountered along the way and finally arrived at the so-called Room Q1 mentioned by the two staff members.

Room Q1 was actually the first room in a long corridor of rooms. The rooms all had Q in their names. Each room's design was very simple and crude, all the room just had one bed, a dresser and a tiny washroom.

The two staff members used some equipment to open the door. Behind the door, an unconscious person was lying on the bed. Right as the two of them were about to lift up that person, Mu Chaoran saw the familiar scout uniform and had a thought.

"Bam! Bam!" Mu Chaoran instantly knocked out the two staff members.

Mu Chaoran carefully used the equipment in their hands to close the door of the room. Then, he walked towards the bed and smiled, "That was really easy, no effort required!"

It turns out, it was Xiao Yiqiu who was lying on the bed. Mu Chaoran quickly checked around and instantly let out a sigh of relief. Xiao Yiqiu was only tranquilized and wasn't injured.

Soldiers on missions always had life-saving medicinal agents on them. Mu Chaoran quickly took out a vial of medicinal agent and made Xiao Yiqiu gulp it down.

Not long after, Xiao Yiqiu began to slowly open his eyes. After seeing Mu Chaoran's face, he was instantly surprised and almost shouted. However, he quickly reacted and softly said, "Meng Shaoran, you got captured as well?"

Mu Chaoran glared at him. "You're the one who got captured. I'm here to rescue you."

"Just yourself?" Xiao Yiqiu instantly became nervous. "Do you want to die? There are domain realm masters here."

"Don't worry, the troops the military sent will be here soon. We just need to wait until then." Mu Chaoran didn't want to explain that he was a domain realm master. He only told Xiao Yiqiu that they were going to be safe soon.

Xiao Yiqiu was a smart person and immediately said, "You're a soldier!" He thought of their current situation and said, "You're here to investigate the organization, right?"

Xiao Yiqiu didn't wait for Mu Chaoran to answer and said angrily, "Sh*t, we really have been harmed by this organization. You don't know, the Xiao family..."

"Stop! Su Pei already told me!" Mu Chaoran's lips twitched. He didn't think that Xiao Yiqiu was actually the talkative type! He hated being with talkative types.

"Ah, Su Pei! Oh, is Su Pei alright?" Xiao Yiqiu immediately asked as he was reminded by Mu Chaoran about Su Pei who had tried to escape with him.

"He's luckier than you, and has returned safely," Mu Chaoran replied. In reality, he wanted to save Xiao Yiqiu not just because of Su Pei's request. It was because in the forest he had chosen to save Su Pei and not Xiao Yiqiu. Although he was forced to do so, he still felt that he did Xiao Yiqiu wrong.

"That's good..." Xiao Yiqiu let out a sigh of relief and was happy that Su Pei was able to safely escape. Then, he looked at the monotone room surrounding him and smiled bitterly, "Unfortunately, we don't know when we can leave this god forsaken place..."

“Bang!” Suddenly, a loud quaking sound made Xiao Yiqiu, who hadn’t completely recovered, almost roll off the bed.

Mu Chaoran smirked slightly, “It seems the military is here.” It seemed that those fake domain realm masters have already been taken care of by the military.

After hearing this news while trying to balance his body, Xiao Yiqiu’s eyes brightened, “Are we saved?”

“That’s definitely the case. You wait here, I’m going to see what’s happening outside...” Mu Chaoran opened the door and ran out.

The door close once again and the room became silent. At that moment, Xiao Yiqiu had a big smile on his face. He softly said, “Mu Chaoran, Tang Ningyu, I look forward in becoming your comrades!”

Ling Lan, who turned into mist, went past Tang Ningyu and returned to the surface.

Tang Ningyu frowned and looked back at the empty corridor behind him. He didn’t know why but he felt as though something had gone past him just now... If it was possible, he wanted to activate his domain to lock down the area, but unfortunately his domain was too loud. Plus, the military hadn’t arrived yet. He also didn’t know whether there were any hidden experts within the headquarters, making Tang Ningyu not dare to expose himself.

“It’s probably nothing. Only titled domain realm masters can silently leave under my watchful eyes. If there were titled domain realm masters in the headquarters, how could they let an invader like me come in?” Tang Ningyu thought that it wasn’t possible, so he tossed aside the odd feeling he had.

Chapter 773: The Bigger Pot!

After Ling Lan arrived on the surface, she lead Li Lanfeng and Li Shiyu back to the Azure Central Scout Academy.

“What’s the situation down there?” Li Lanfeng asked.

“It was as expected, everyone important has escaped through another exit, and they destroyed the exit after they left.” Ling Lan replied in a concise manner. Then, she asked, “Have they all arrive?” She originally wanted to just spectate in the backlines, but now it seemed like she actually had a chance to benefit off this altercation.

“Everyone’s here, and they’re all getting ready to let loose,” smiled Li Lanfeng.

“Tell them to come to this set of coordinates,” Ling Lan sent Li Lanfeng the coordinates Little Four had given her to let him arrange everything immediately.

“This is a great chance to get military merits but..., the opponents are very strong, so tell them to be careful.” There was also something Ling Lan hadn’t mentioned yet, and it was the fact that they were going to fight fake domain realm masters. Qi Long, Luo Lang and Xie Yi, who were all stuck at the optimal peak Great Perfection of Qi-Jin for a long time, would definitely benefit from fighting with these fake domain masters.

Ling Lan was currently too strong to be their sparring partner so she could no longer spar with them to help improve. It was even possible that sparring with her would actually be detrimental to their physical skills' progress. If by any chance she pressured them too hard, forcing Qi Long and the others walk down Qiao Ting's path, then it wouldn't be the best for them as they wouldn't advance naturally to the domain stage. This was why Ling Lan would only watch on as Qi Long and the others become frustrated at the fact that they were stuck at the optimal peak Great Perfection of Qi-Jin.

She originally thought that she could only wait for her comrades to naturally advance to the domain stage, but she didn't think that the mission she randomly received allowed her to see an opportunity, the fake domain realm masters. Fake domain realm masters only had a quarter of the power of a real domain realm masters. These fake domain realm master could defeat Qi-Jin experts, but because of their flaws in their domain, they wouldn't be able to outrightly dominate them. Thus, this was Qi Long and the others' opportunity. As long as they could endure the pressure of fighting against a fake domain realm master, they would be able to understand the concept of a domain

Once they gain an understanding and break through their Qi-Jin's barriers, they would not be too far off from advancing to the domain stage. This was why she asked Li Lanfeng to get Qi Long, Luo Lang and Xie Yi to come here as soon as possible.

Li Lanfeng immediately notified their three comrades who had waited for a long time!

"Oh yeah, the military headquarters is also sending their people here." Li Lanfeng told Ling Lan the information he had received.

"Who?" Ling Lan's heart dropped. Is her father coming out again...

"Someone we're very familiar with. Staff Officer He, He Xuyang!" Li Lanfeng cracked a smile. He and Han Jijyun had battled with He Xuyang a few times for some clan resources. Both sides had wins and losses. Every time He Xuyang saw the two of them, his head would suffer from painful headaches. Li Lanfeng hoped that he didn't hate them too much.

Ling Lan smirked. "Looks like the 23rd Division also wants to reap benefits from this mission."

"Since this mission was given to you accidentally, General Ling Xiao would definitely not give up on such a good opportunity," Li Lanfeng said softly. "The 23rd Division is a new division. All of its achievements are not noteworthy. If they want to gain more say in the military, then they must have achievements that the military can not dismiss easily, and this mission is very important for the military so..."

"If that's the case, then we're not enough!" Ling Lan only wanted Qi Long and the other two to benefit, and she didn't think as far as Ling Xiao. Now that she thought about it, with just a few of them, they probably wouldn't be able to completely take over everything.

"Don't worry, there are a few domain realm masters from the 23rd Division who are coming with Staff Officer He..." Li Lanfeng didn't think that General Ling Xiao would be so daring that he would disregard the military's order to gather, and instead order the domain realm masters under him to wait for a chance to strike.

"You either don't do it or take the bigger pot!" Ling Lan immediately understood what Ling Xiao was planning. If the 23rd Division's domain realm masters obeyed the military's orders to gather for this

mission, they would only be awarded with the standard amount of military merit upon successful completion. If they weren't successful... the 23rd Division, a division with very few resources, wouldn't be able to afford to spare these domain realm masters. Of course, if Ling Xiao discovered that other force joined in, completely reversing the situation, he would order his generals to help out in the time of crisis. Then, the amount of merits awarded would be very different.

Of course, if the military's domain realm masters could handle this mission by themselves, Ling Xiao would give up the merits of this mission. It was just as Ling Lan had said, Ling Xiao was either going to do it and not want anything, or do it and take the bigger pot to reap more benefits.

"My father isn't as perfect as you think." Ling Lan gave a friendly reminder to Li Lanfeng. She thought of how the people see Ling Xiao as the perfect soldier, the face of justice. She couldn't help but sigh. Only she knew that Ling Xiao also had his own agenda and was definitely not as perfect as people thought.

"I know, that's why I admire General Ling Xiao!" Li Lanfeng replied earnestly. If Ling Xiao was a real saint, Li Lanfeng wouldn't be admiring him that much.

Right at that moment, the military had already taken control of the entire academy area. There were only a few fake domain realm masters from the unknown organization who were still fighting with the military. Ling Lan predicted that soon, the military would finish the battle and attack the headquarters in the forest.

While everyone's attention was on the domain realm masters in the battle, Ling Lan led Li Lanfeng and Li Shiyu out of the Azure Central Academy silently and went towards the direction the higher-ups of the organization retreated towards.

Qi Long's group of three had already reached the location where the coordinates their Boss had given them were indicating, but this location was quite close to where the retreating organization was currently at, so Ling Lan didn't want Qi Long and the other to fight them head on without waiting for her first.

In order to make sure no one notices them, Ling Lan's gathering spot was a remote path with lush trees on both sides, where elders would only pass by in the morning.

When Ling Lan appeared, Qi Long instantly excitedly called out, "Boss!"

"Is everything ready?" Ling Lan asked.

"Of course!" Qi Long cracked his knuckles. Luo Lang was also excited and his face heat up until it was a beautiful blush red color, making Ling Lan understand what it really meant to be blindingly beautiful. Xie Yi on the other hand, just stood there calmly. Although he didn't say anything, one could still tell from his clenched fists that his fighting spirit was at its peak.

"Regiment Commander Ling, it's been a long time!" He Xuyang who was awkwardly standing beside Qi Long, and was thinking that Ling Lan would greet him first, said in dismay.

'Young Master Lan, how could you ignore me?' He Xuyang cried on the inside.

"Staff Officer He, it has indeed been a long time. Your body seems to be stronger than before!" Ling Lan said nonchalantly.

What does Young Master Lan mean by that? He Xuyang thought about the meaning behind Ling Lan's words. Then, he saw a few domain realm masters' lips moving slightly, as if they were trying to endure something. He suddenly realized... Sh*t, Young Master Lan is saying he is fat!

"Regiment Commander Ling!" Staff Officer He felt hurt. He looked at Ling Lan with a depressed expression as if to blame Ling Lan for his sadness. Him becoming fat was because Ling Xiao threw him most of his work, thus not allowing him to have the time to exercise.

"What are the orders?" Ling Lan ignored He Xuyang's expression and asked coldly.

Not fun at all. He Xuyang replied with disinterest, "The general gave us an order. Everything is under Regiment Commander Ling's command."

After hearing that, the domain realm masters that came with He Xuyang had confused expressions on their faces. They originally thought that He Xuyang, the Staff Officer, would be the one commanding them. They didn't think that it was actually going to be this young mecha clan regiment commander.

However, those who were sent out by Ling Xiao were all Ling Xiao's confidants, so the domain realm masters didn't have any gripe with the decision. If General Ling Xiao made the decision, then he definitely must have his reasons.

Ling Lan didn't decline and immediately explained the situation to the domain realm masters. After hearing that the enemy might have titled domain realm masters in their group, the domain realm masters all had serious expressions on their faces.

One of them said, "If they still have titled domain realm masters, then we probably won't be able to handle it."

When it comes to the domain stage, the difference in domain strength could not be overcome with numbers.

"It's alright, if there are any titled domain realm masters, I can handle them!" Ling Lan said calmly.

Ling Lan's words made the domain realm masters widen their eyes. They knew that the person in front of them was definitely not a dumb and naive youngster if Ling Xiao trusted him. He wouldn't joke with them about that as his life was on the line too. Thus his words meant that he could definitely hold control of the situation. Could this very young man be a domain realm master? And also reached the level of being a titled domain realm master?

He Xuyang was satisfied. Before coming here, he was informed that Young Master Lan had already reached the capabilities of a titled domain realm master, which had frightened him greatly. Now, there were finally people who were also frightened by that fact.

"Indeed, Regiment Commander Ling already has the strength of a titled domain realm master." He Xuyang made certain of their guesses.

Ling Lan looked at He Xuyang. It seemed that He Xuyang managed to get past Ling Xiao's test and finally acquired Ling Xiao's trust...

"Since everyone is clear on the mission, let's move out!" Right as Ling Lan finished speaking, she completely disappeared.

The domain realm masters looked at each other. Just then, they felt Ling Lan's domain energy. Shockingly, this young regiment commander was already a domain realm master. After mulling over that, they followed suit and also disappeared.

"Staff Officer He, we're leaving now." Qi Long and the other two waved towards He Xuyang, and also left the scene.

Right as Li Lanfeng was about to follow them, Li Shiyu grabbed him.

"It's too dangerous there!" Li Mulan had only reached peak stage of Qi-Jin so he was not fit to join them.

Li Lanfeng slowly pushed away Li Shiyu's hand and softly said, "If I back out now, then I would never be able to follow them in my lifetime."

Li Shiyu wanted to say more, but Li Lanfeng didn't give him another chance, and he left without hesitation.

Li Shiyu stomped his feet and bit his lip before he followed behind his eldest cousin brother. He couldn't just watch silently as his eldest cousin brother put himself in danger. Domain battles were not something they could participate in.

Chapter 774: Private Manor!

Their destination was a private manor. The entrance of the manor had a few manifestation stage guards patrolling around it. Everything seemed similar to a manor of a rich merchant.

Ling Lan and the others didn't think that it was odd. If the organization was to have the exit lead them to a crowded area or perhaps a normal residential area, then that would be considered odd. A private manor could completely cover up everything that they were going to do.

"Boss, I found the information... this private manor was purchased by a foreign merchant with the surname Xu." Little Four quickly acquired the information of the private manor.

"You can't find any dirt on him, right?" Ling Lan asked calmly.

"How did you know that Boss?" Little Four was surprised. He indeed didn't find any useful information, so he used all of his efforts to try to find some dirt on the owner of the manor. He even gone through all of his ancestors. Unfortunately, it was just as his Boss had said, there was nothing wrong with it at all.

"If they were to screw up that easily, then the military wouldn't have such a headache with this organization, and used almost half of the entire Federation's military power just to find some clues. Even so, in the few years that ensued, they still couldn't even find the tail of the organization, so I knew that this faction's background wasn't that simple. It's possible that this manor's owner is used as a cover-up. If we look for them there, we would definitely not be able to find them." This was why Ling Lan didn't want to expose herself. With her current capabilities, she still couldn't go against them head-to-head.

“Then, would it be too troublesome for us to wrap around them?” After being trained by Ling Lan, Little Four no longer had a one thought mind. His brain worked very fast and immediately thought of this problem. He didn’t want his Boss to be in a sticky situation.

“Since our father made the decision, then he probably already has a fool-proof plan!” Ling Lan trusted that if Ling Xiao went ahead with this plan, then he must have already prepared their plan for retreat. It was just that Ling Lan’s didn’t know Ling Xiao’s entire plan. She could guess parts of Ling Xiao’s plan and could not completely guess it.

However, that was fine! She couldn’t see the plan now, but it didn’t mean that she wouldn’t be able to do it in the future. Although Ling Lan trusted her father, she still didn’t like the feeling of anxiousness that would come up when she couldn’t control the situation.

Ling Lan carefully examined the inner parts of the manor, and felt a few strong auras within it. As expected, there were a few strong domain realm masters within the group who had retreated. Luckily, there wasn’t anyone as strong as the wood element titled domain realm master. Ling Lan also discovered that not only were there fake domain realm masters, but also many actual domain realm masters.

Ling Lan finally had a grasp of the situation. The strength of domain realm masters in the manor compared to her group of domain realm masters were around the same level, so it wasn’t impossible for her group to completely devour the opposition.

Since there wasn’t a really difficult opponent, Ling Lan decisively waved towards Qi Long, Luo Lang and Xie Yi, telling them to move in.

Qi Long and the other two moved stealthily into the guard house without hesitation. They instantly struck down the group of guards, who hadn’t noticed anything. The three of them were decisive, ruthless and didn’t give the guards any chance to react. They took care of the guards and didn’t alert anyone else in the manor.

The five domain realm masters behind Ling Lan couldn’t help but nod at Qi Long and the others’ decisiveness.

Ling Lan nodded towards the five domain realm masters and then led them through the gate.

What they saw a large green forest surrounding a beautiful westernized white manor.

At that moment, the plaza of the manor already had many hover trucks of different sizes parked there. Many people could be seen desperately trying to quickly load things into the trucks as if their lives depended on it. It seemed that, while they were retreating, they wanted to also take some precious resources. It was because of this that allowed Ling Lan and the others to catch up to them.

They were almost done loading the supplies on the hover trucks. Seeing this, Ling Lan raised her eyebrows and held out her right. She then pointed straight at the hover truck in front of her!

In response, the five domain realm masters all looked at each other. One of them nodded and vanished in the next second. Almost instantaneously, that domain realm master appeared on top of one of the roofs of the hover trucks. He then performed a pushing down, creating a strong force that was pushing everyone at the scene down, freezing everyone.

“Impudent!” An angry shout came from inside the manor. Rocks from all directions suddenly flew towards the domain realm master who was on the roof of the truck.

Seeing that, the 23rd Division’s domain realm master snorted coldly. As the rocks were about to reach half a meter in distance of him, a flash of light went by, knocking the rocks back to where they came from.

Suddenly, a white haired elder flew out from the manor. When he landed, he saw the domain realm master on the hover truck, and he instantly narrowed his eyes. “Who are you? Do you not know that this is a private area?”

“We’re looking for you! You dared to break the laws of the Federation. Even if you wear the skin of a human, I will still peel it off of you!” This domain realm master from the 23rd Division was a middle-aged muscular man. Before Ling Xiao sent him here, Ling Xiao had already told him about all the laws this organization had broken, so the middle-aged man already hated them to the bone. Thus, he did not care about propriety and leak out the killing intent in his words.

After hearing that, the elder knew they had been exposed. He cried out loudly and flew up into the air with a fist coming towards the middle-aged man!

This wasn’t a battle of physical skills, but rather a battle of domain. After his fist was sent out, it turned into a thousand ton stone and flew towards the middle-aged domain realm master from the 23rd Division.

The middle-aged man pulled his hand back and a light appeared in the place where his hand was. Then, he slowly pushed the light out with his hand.

“Bang!” A loud bang sounded. The large stone was stuck in mid-air and didn’t continue to forward.

The elder’s expression froze. He saw a flash of light flashing under him and said, “A light elemental domain!”

It was 2 o’clock in the afternoon, which was when the sun was the most bright, empowering his domain even further, while the elder was at a disadvantage as the surrounding areas were all grassy fields, with only a small amount of the stone element... The only stone element source that could help him was the manor behind him.

However, he wasn’t the only one in this battle! A flash killing intent went past the elder’s eyes. Suddenly, stone walls were erected at the four sides, forming a square cage, boxing the both of them. He then began to go at his opponent from all sides.

“Bang, bang, bang, bang.” Four flashes of light appeared and guarded against the four-prong pillar attack from the walls. The two of them began to fight using their domain to see who would last longer. Right at that moment, a silhouette appeared above the middle-aged man. A sharp sword came from the heavens and ruthlessly went for the middle-aged man’s head.

The man was completely focused on fighting elder so he couldn’t do anything about it. Right as he was about to lose his life, a water whip suddenly appeared and wrapped around the sharp sword. The water whip pulled on the sword and also pulled out the person who performed the sneak attack.

At that moment, a middle-aged man with an elegant aura appeared at the scene. He spoke to the assassin, "If you need an opponent, then I can fight with you!"

Chapter 775: Reaper!

"Who are you people? Aren't people the Federation sent still at the academy?" The assassin asked with a fearful expression on his face. They clearly had lured all of the troops the military had sent. Why are there still domain realm masters here? Is there a traitor among them?

"The Huaxia Federation have had the 36 stratagems since ancient times. Have you not heard of it before?" The elegant middle-aged man replied with a smile.

"Make a sound in the east, then strike in the west..." The assassin said begrudgingly.

"Looks like you've researched the treasures of our ancestors very well. Since you were guarded against the attack on the academy, then we, of course, will make a sound in the east, and then strike in the west!" The elegant middle-aged man was still smiling warmly as if he was a teacher patiently answering his students' elementary questions.

This attitude was undoubtedly to mock these people. The assassin didn't want to say anymore, as another question would undoubtedly lead to another insulting reply. Another sharp blade suddenly appeared in his other hand. With both swords in his hands, he ruthlessly pounced towards the elegant middle-aged man with a heavy piercing attack!

In actuality, there wasn't only just one assassin. Two other assassins did appear, but it was just that they were intercepted by the two older domain realm masters who came with Ling Lan.

Currently, there was only one domain realm master that stayed beside Ling Lan, but not for long, as Ling Lan could feel another three stronger forces of presence in the manor.

In the next second, four domain realm masters suddenly flew out from the manor. Their auras were weaker compared to those who came out in the beginning. The last domain realm master beside Ling Lan frowned as he was surprised by the number of domain realm masters that were coming out of the manor. Although, he could stand his ground if they were to fight him one after another, but the outcome of the battle would be very different if they were to attack together. Right as he was about to intercept them, Ling Lan reached out her hand and pressed down on his shoulder.

This domain realm master had a shocked expression on his face. In the eyes of the others, Ling Lan had stopped him just before he had moved, but this domain realm master knew he had already moved. It was just that in the moment he moved, he was easily forced down by Ling Lan's hand, forcibly removing his momentum.

Are titled domain realm masters this strong? This domain realm master started suspecting something was off. Although titled domain realm masters were stronger than them by one stage, they were definitely not strong enough to instantly stop them from moving. Who is this Regiment Commander Ling? Maybe, he just looked young, but was actually a one hundred old demon?

While this domain realm master was still in deep thought about Ling Lan's age, Ling Lan looked towards Qi Long, Luo Lang and Xie Yi, and nodded to gesture to them that they could go in.

The three of them went in without any hesitation. It was just that there were four fake domain realm masters and they only had three people, so someone needed to fight against two of them.

Seeing this, Qi Long bit his lip and decided to take the harder challenge himself. Out of the three of them, he was the strongest. Thus, only he had hopes of defending against attacks from two opponents for one or two rounds. If it was Luo Lang or Xie Yi, they would probably just lose in one hit.

Suddenly, Ling Lan reached her hand out and grabbed someone behind her. Then, a silhouette could be seen flying straight into the battlefield and landing in front of one of the fake domain realm masters.

"If you're not afraid to follow us, then you must have the resolve to die!" Ling Lan's cold and heartless voice rang through Li Lanfeng's ears.

Although Ling Lan was being cold and heartless, Li Lanfeng was not in low spirits. Instead, he was overjoyed. Li Lanfeng knew Ling Lan really well. If he didn't have any hopes of winning against a fake domain realm master, Ling Lan would never let him go into battlefield and would also not say something like that... This meant that, even if there was a small chance, Ling Lan was still willing to believe that he would be able to find his way and become a domain realm master.

A man will die for anyone who recognizes his potential! Li Lanfeng finally understood the deeper meaning of those words! It was his life worth of luck that allowed him to have Ling Lan in his life.

Li Lanfeng suppressed his emotions and concentrated on the opponent standing in front of him. The only way he could repay Ling Lan was to make sure the trust that was given him didn't go to waste. He must use this experience to understand the rules of the domain stage and become a domain realm master.

That's right, even though Li Lanfeng had only reached the peak stage of Qi-Jin and hadn't reached Great Perfection yet, he could still clearly feel a shapeless barrier that was halting his advancement... It appeared after his spiritual power was quelled by Ling Lan. As time went on, this feeling became even clearer. He didn't know why his situation was different from the others, as they could only feel the barrier after reaching Great Perfection. He didn't know whether it was a good or bad thing, and was clueless on what to do.

He originally wanted to ask Ling Lan after the mission, but after hearing there were fake domain realm masters and Ling Lan telling him to contact Qi Long, Luo Lang and Xie Yi, the intelligent Li Lanfeng knew what Ling Lan was planning. Ling Lan was creating an opportunity for the three of them to advance to the domain stage...

After understanding this, Li Lanfeng was really tempted to join. He didn't want to be left behind by Ling Lan and lose to Ling Lan's comrades. He wanted to follow in Ling Lan's footsteps, so he couldn't let others advance before he did. This was also the reason why he wanted to come here.

"Bam!" "Bam!" "Bam!"

On the other side, Qi Long and the other two have already begun their battles with the fake domain realm masters. They originally thought they would be severely injured in one hit, but their current

situation was that they were just slightly injured. This made them realize that these domain realm masters were not on the same level as their Boss.

After gaining more confidence from their continuous successive defense, Qi Long and the other two became wilder as the battle went on. The three of them were the type of people who don't care about their lives. Once they got used to the pace of the battle, unless they die, they wouldn't stop fighting.

Just like that, they were continuously struck down by their opponents, but would always rebound back up and continue fighting like elastic bands. This made the three domain realm masters feel extremely amused by their hilarious acts, but as time went on, they began to become irritated.

They originally thought that they were just Qi-Jin stage ants who were performing a hilarious act without a care for their lives, and that it would only take a few hits until they die. However, after more than a dozen rounds, these three people were still full of vigor. Every hit caused them to spit out blood as if they were about to die. However, they didn't know what type of medicinal agents they did consume for them to be constantly full of vigor.

In the end, they were actually held back by three Qi-Jin ants, blocking them off to the side so they couldn't help the guests of their manor. They seemed to feel the watchful eyes that were filled with mockery coming from inside manor that were watching their battle. Their boss must definitely feel that they were losing face for the organization.

Everything they had were given by the organization. If the organization abandoned them... the three of them suddenly felt a chill in the air. They didn't want to become 'materials' and die in the laboratory. With that crisis in mind, they finally activated their strongest domain techniques.

A sand element domain realm master was facing Luo Lang. A sand dragon appeared out of mid-air. Seeing the sand dragon, Luo Lang's wild expression suddenly became calm. He transformed from being a berserk beauty to a beauty that was as cold as ice.

A wind element domain realm master, who loved close-range combat, was facing Qi Long. There were shapeless wind blades all around him with attacks that were undetectable by the naked eye. In actuality, Qi Long was in the most danger, but his smile was becoming wider and wider. It was as though he didn't care about his life.

On Xie Yi side, a paper world had manifested. Layers and layers of paper started surrounding Xie Yi and the paper element domain realm master. In the end, it became a sphere made of paper, trapping Xie Yi and the paper domain realm master within it.

Qi Long, Luo Lang and Xie Yi had all reached the point where they had to fight for their lives. However, Li Lanfeng's situation was even worse than theirs. With weaker physical skills, he could only be pushed back without any chance to counterattack. If it wasn't for Li Shiyu's medicinal agents, Li Lanfeng probably would have not been able to get up a long time ago. However, even with the medicinal agents Li Lanfeng was still not in a good state. Even though he didn't die, he almost there. He was continuously spitting out blood from the hits his opponent was sending his way.

The domain realm master beside Ling Lan saw this and narrowed his eyes. His body moved unconsciously with the thought of helping them but he resisted the urge in the end. He looked at the cold, heartless and unmoving Ling Lan. He didn't know what Ling Lan was thinking. Is he not doing

anything because his comrades didn't listen to his orders and came here on their own accord? So even if they were about to die on the battlefield, she wouldn't make any moves just because it was their fault to begin with?

"Li Lanfeng, if you insist on following us, and die because of that, I will look down on you forever!" Li Lanfeng, who was somewhat in a dazed state, suddenly had Ling Lan's cold voice rang through his mindscape.

"No, No, I don't want that!" Anyone can look down on him, but Rabbit definitely cannot!

Li Lanfeng returned back to consciousness. What he first saw was his opponent activating his domain. His opponent was actually a gold element domain realm master. The surrounding area was filled with thin gold needles. In the next second, these gold needles would make Li Lanfeng into a porcupine.

His physical skills on paper was only short of Qi Long and the others by a small stage, but the difference in battle was so great. They could still endure in the fight, but Li Lanfeng could only watch as he gets beaten up..."Sh*t" Li Lanfeng cried out internally. If this was the virtual world, no one would be able to bully him like this? In there, he was the reaper who had control over life and death in the virtual world!

"If we are in the virtual world, I will just need one thought to kill them. One thought!"

Li Lanfeng, now full of wounds across his body, had blood running down his forehead like a fountain into his eyes, reddening his originally dark eyes. Now, he saw everything in a shade of red. Everyone was in a blood-red color...

Just like that, the people who he wanted to kill turned blood-red... After losing too much blood, Li Lanfeng's consciousness wavered once again, making him feel that he had entered the virtual world...

"Thousand Needle Rain!" Every gold needle went towards Li Lanfeng. Ling Lan clenched her hand and trembled slightly, but she suddenly had a stunned expression on her face. She didn't think that Li Lanfeng's domain was like that.

"You want to kill me?" Li Lanfeng smirked with hint of mockery. "You actually dare to defy a reaper. Then, you must know that the reaper will take your life!"

Li Lanfeng's entire force of presence changed. The space around him became twisted and a strong force started to suck in everything around him.

Li Lanfeng slowly raised his right hand and a black reaper scythe slowly manifested in it.

Chapter 776: Reformatting!

"What a terrifying domain! What kind of concept does it follow?" The domain realm master beside Ling Lan shouted in surprise. He was also completely surprised by Li Lanfeng's odd yet terrifying domain.

Ling Lan didn't make a sound. She seemed to have figured something out. The reason why Li Lanfeng could feel the advancement barrier for the domain stage while he was only at the peak stage of Qi-Jin. It wasn't necessary for him to strengthen his body to break through the barrier to advance, instead, Li

Lanfeng's terrifying spiritual power had already surpassed his mindscape's capacity. His spiritual power managed to reach the barrier of the domain stage before his body could.

After thinking about that, Ling Lan was worried. If Li Lanfeng hadn't listened to her words and didn't keep on practicing the basic physical skills training to make him able to endure the pain, his current situation might be even worse. Luckily, when he met her in the real world, his spiritual power hadn't reached a level that could destroy his body. After the timely training of the meditation technique, he managed to improve the condition of his battered body.

If anything had gone wrong, what awaited Li Lanfeng was a lifetime of being bed-ridden. He would just be like Ling Lan in her past life. Even if he had the meditation technique, it would all be for naught.

In actuality, in the Li family's manor, Ling Lan had already felt that Li Lanfeng's spiritual power had reached his capacity when she was calming down Li Lanfeng's spiritual power. She originally wanted to wait until the mission was over to think of a method to let Li Lanfeng quickly advance to Qi-Jin with Great Perfection then to the domain stage.

It was just that Ling Lan didn't think that Li Lanfeng wasn't willing to wait! After noticing Li Lanfeng had followed them, she knew Li Lanfeng's decision. Ling Lan thought about it and decided to give Li Lanfeng the same opportunity as her childhood friends.

Looking at all the possible scenario, Li Lanfeng's decision wasn't the best choice in Ling Lan's eyes. However, Ling Lan wasn't going to decide anything for her friends. If Li Lanfeng wanted to fight, then what Ling Lan needed to do was to trust him. This was why Ling Lan tossed Li Lanfeng into the fray. She used that move to tell Li Lanfeng that she supported his decision.

Sometimes, you should just blindly support and trust your friends! These would give them strength in the most dangerous and difficult times. Ling Lan could only help Li Lanfeng in this aspect. The dangerous path of advancing required Li Lanfeng's own strength to walk.

Now, the result of her decision was ideal. Li Lanfeng had become the first person to realize the way to successfully advance into the domain stage. The only thing she has a nit to pick about Li Lanfeng's advancement was that it was too rushed. His body still hadn't reached the requirements of advancing to the domain stage. Advancing up more than one stage like that would inevitably have severe consequences. She was just hoping that the consequences would be mended in the future and wasn't permanent.

With Ling Lan being in the domain stage for quite a long time, she would clearly understand the two clear requirements of advancing to domain. One was physical constitution and the other was spiritual power.

The Federation placed a high degree of high importance on physical skills because of mechas, while spiritual power was regarded as unimportant. The reason why most individual with strong spiritual power would seem to be diseased and weak was because of their lack of physical skills training. When it was known that a person has a weak physical constitution, the Federation would always try to treat and heal them, but would not train their physical skills. Furthermore, the Federation would usually just let them be responsible for jobs related to spiritual power and wouldn't let them operate mechas... Thus, creating a phenomenon where the stronger the spiritual power of an individual, the weaker their

physical constitution was. And as their physical constitution continue to weaken, treatment centers became more and more afraid to treat them as they didn't want their records filled with incurable patients which ultimately lowers the reputation of the treatment center. This was why those individuals with insanely strong spiritual power could never be an outstanding mecha operator.

Thus, it wasn't because those Qi-Jin experts, who were stuck at the optimal peak stage of Qi-Jin with Great Perfection, didn't get any chance to advance. Instead, it was because their spiritual power hadn't reached the lowest requirement to advance into the domain stage, so how could they succeed?

Of course, this didn't mean that those people wouldn't be able to advance to the domain stage forever. If the Qi-Jin in their bodies reached the point of over-capacity, it would naturally break through the barrier, and thus allowing them into the domain stage. However, the concept they would be derived based on their bodies. For example, speed, strength, etc. It wouldn't give them any concept regarding natural elements of the world.

The domain realm masters who had concept bound to nature, along with strong bodies, were people whose physical constitution and spiritual power had both reached the requirement. These people were usually born with level two spiritual power. Babies that had spiritual power past level 3 always had weak bodies. These children would be nurtured towards the spiritual direction and wouldn't be considered for mecha operators. This was why during the talent determination procedure many years ago, spiritual power was a part of the test.

At the same time, if spiritual power was so strong that the mind could not contain, then even if physical skills hadn't reached that level, it would still break through the barrier and advance to the domain stage. However, this type of advancement would bring about a large backlash to the body. While advancing to the domain stage, the physical body could be destroyed by the concept of the domain, and in the end become dust in the air and perish.

However, someone like Li Lanfeng, who had spiritual power that was so terrifying that only one person like him would appear every few hundred years, would usually die as they were born. Those types of babies wouldn't reach the point where their spiritual power would seep out from their bodies.

Due to Li Lanfeng's body not reaching the requirement and his spiritual power breaking through the barrier, Li Lanfeng's domain concept was derived from his spiritual power. He was originally a spectral ability individual. After deriving this concept, he could turn anything into virtual objects within his domain.

Ling Lan had already determined Li Lanfeng's domain concept with just one look. On the battlefield, Li Lanfeng raised his black scythe and swung it towards the fake domain realm master.

"Ah!" That fake domain realm master wanted to get away from the twisted dimensions around Li Lanfeng, but his strength wasn't comparable to a domain realm master who advanced naturally. The scythe easily sliced past his body. Then, his body began to crumble into little particles and started dispersing without leaving any traces. It was as though he never existed in this world.

"That's reformatting!" Little Four cried out with surprise. If someone was to say what intelligent entities feared most, then Little Blossom's power of devouring data was one. The second one was the

reformatting of all of the data in the virtual network they lived in. These two both would severely affect the way of life for intelligent entities and was something intelligent entities never wanted to see.

“As expected, it’s this power!” Little Four’s words made Ling Lan certain of her judgment. Li Lanfeng’s power was as expected a derivative of his spectral abilities. In his domain, Li Lanfeng was a reaper of death that could reformat everything!

Right at that moment, something changed in the battlefield. A silhouette suddenly appeared behind Li Lanfeng. A gold colored hand was going straight towards his unguarded back.

“Bam!” Ling Lan’s hand suddenly appeared and accurately caught the opponent’s hand. She then coldly said, “You’re opponent is me!”

Chapter 777: Qi Long’s Advancement!

It turns out, the person who made the move was one of the three stronger domain realm masters hidden in the manor! However, when Li Lanfeng was advancing to the domain stage, Ling Lan had already made preparations for any sneak attacks. That was because the opposition definitely wouldn’t want them to have another domain realm master. Thus, they would definitely try to attack at that crucial moment.

The domain realm master, who Ling Lan caught, was surprised. He didn’t think that his sneak attack would be actually seen through by his opponent. Not only that, the pressure his opponent gave him was something he had never felt before, this young man in front of him might be the strongest enemy he must face in his life.

The domain realm master shouted loudly and activated his domain.

As the domain realm master was activating his domain, Ling Lan felt Li Lanfeng’s body trembling behind her. She frowned and let go of the domain realm master’s hand. Then, she jumped backwards, returning to her original spot, taking Li Lanfeng with her at the same time.

Understanding Ling Lan’s intentions, the last domain realm master sent by Ling Xiao appeared at Ling Lan’s previous location to substitute her in the battle against the domain realm master.

“How are you feeling?” Ling Lan asked while her eyes were still monitoring the battlefield because her three comrades were still fighting.

Li Lanfeng cried out and spat out some blood. The consequences of advancing past the stage his physical constitution could endure was beginning to take its effect. The power of the domain stage was something his body couldn’t currently handle.

“I’m fine. It’s just my body still held me back in the end.” Li Lanfeng wiped away the blood on the corner of his lips and smiled bitterly.

“It’s because you’re too hasty. If you had waited until your physical skills advance into Great Perfection, then you wouldn’t have this problem,” Ling Lan said with a cold expression on her face. Although she chose to trust Li Lanfeng and supported his decision, she still didn’t agree with it.

“I couldn’t control my spiritual power anymore so it will not let me wait. Plus, since I will be advancing anyways, isn’t it better to advance earlier?” Li Lanfeng’s face was full of smiles. He didn’t regret his decision even if he had to pay a price for it. As long as he could get closer to the person he wanted to get closer to, he felt that it was worth it. “Rabbit, did I catch up to you a little bit?”

The familiar nickname thawed out the coldness in Ling Lan’s expression slightly. It was as though she had returned to the time when she worked hard with Cheetah, chasing each other around all the time. She suddenly understood why Li Lanfeng made that dumb decision. It was because she was moving too fast, making Li Lanfeng fear that he would not be able to catch up and lose her as a friend in the end. Thinking back to the tragedy of how Li Lanfeng was abandoned by the Li family and was left behind on Planet Azure because of his physical constitution...

Ling Lan softened and nodded. “You got slightly closer. Keep up the good work!” Alright, she should do something good once a day! Li Lanfeng is after all in a quite pitiful position.

Li Lanfeng’s eyes glistened in the light and his smile became even bigger. His resounding ‘Yes!’ made Ling Lan feel that a little cheetah was in front of her, looking to be caressed. She couldn’t refuse such an adorable pet... no, she couldn’t let anyone know her weakness of cute things. It would make her lose her dignity as a Boss. In order to stop her hand from going near Li Lanfeng’s head, she decisively moved away from Li Lanfeng.

Li Shiyu suddenly saw Li Lanfeng getting launched into the sky. He quickly ran to the position where Li Lanfeng would land, catching him the process.

“Treat him!” Ling Lan’s cold voice rang through Li Shiyu’s ears. He knew that he couldn’t hide from his Boss, so after hearing Ling Lan’s order, he didn’t think much of it. He quickly took out a vial of medicinal agent that he had previously prepared and gave it to Li Lanfeng.

“Sorry for the trouble, Shiyu!” Li Lanfeng smiled widely.

“I’m our team’s doctor!” Li Shiyu had a serious expression on his face. He was only doing what the team’s doctor should be doing, and wasn’t only doing it because Li Lanfeng was his eldest cousin brother.

At that moment, some battles were going well underway. The first was Qi Long. He used his Animal Instinct to dodge the invisible wind blades of his opponent. However, his opponent was using his domain to enclose Qi Long, surrounding him with countless wind blades. Although Qi Long’s Animal Instinct was strong, he still couldn’t dodge all of the wind blades with that many surrounding him. However, he successfully dodged the attacks that were perilous. Although it would seem scary to bystanders, with cuts all around his body, dyeing him blood-red, they were still only surface injuries.

These injuries that Qi Long had sustained weren’t not for naught. From the moment he activated his Animal Instinct to passively dodge the wind blades, he began to slowly gain control over this ability. He could feel the direction and location of the wind blades. Animal Instinct gave him a precautionary feeling, making him get hit by less and less wind blades.

The wind element fake domain realm master felt the change that was happening to Qi Long. His expression changed slightly. He had seen the other guy successfully advancing into the domain stage while battling one of his comrades. Is this guy doing the same thing?

With that fear in his heart, the wind element domain realm master went berserk. He suddenly began to use all of the wind element around him, overclocking his domain which was beginning to tremble. A large tornado appeared at the edge of his domain, which immediately compressed itself and moved towards Qi Long, who was still in the domain.

The tornado was made up of countless wind blades. If Qi Long were to get caught in it, he would instantly be diced up.

However, Qi Long wasn't going to give his opponent that chance. His Animal Instinct let him know the location where he would be safe from the tornado. Qi Long began to dodge left and right. Every time he dodged, he would just shy from touching the tornado, making people who were watching fear for his life. If Qi Long made one wrong move, he would be diced up into pieces.

"I see!" While dodging, Qi Long suddenly had an expression of enlightenment. He then stopped moving his body. Right as the tornado was about to touch him, Qi Long shouted. A strong force suddenly expanded out from his body, forcing the tornado to change its direction towards the sand element fake domain realm master who Luo Lang was fighting with.

"Bang!" A sandstorm appeared before the tornado and the two natural disasters smashed onto each other. The sand element fake domain realm master was wounded from his comrade's rogue attack and immediately spat out a mouthful of blood.

"Wind Three, what are you doing?" The sand element fake domain realm master shouted angrily.

However, the wind element fake domain realm master couldn't answer his question as he was shocked speechless by Qi Long. He was able to clearly feel a concept of a domain in the energy from his opponent released just now. His opponent naturally advanced to the domain stage just like that? He wasn't like the other person, who had only advanced after he was almost beaten to death.

Wasn't advancing to the domain stage like a lottery? Some people might not even be able to break through the barrier in their lifetime. This was also why this fake domain realm master lost hope and in the end willingly accepted the organization's offer to be their guinea pig for their illegal experiments, which gave him the opportunity to grasp broken concept and become a fake domain realm master.

Seeing this, Ling Lan smirked. It was as she had predicted, Qi Long being the first person out of the three to advance to the domain stage. In reality, before all this, Qi Long had already reached half a step into the domain stage, but unfortunately, Qi Long had awakened Animal Instinct, which was a good innate talent for mecha piloting. However, as luck would have it, this talent was quite an enigma as it didn't really coincide with any of the more famous concepts. Even Ling Lan couldn't imagine what Qi Long's domain would be like. Thus, this unknown aspect of his innate talent made Qi Long unable to find the direction he should be working towards, making it impossible for him to break through the tough barrier without first finding his direction.

However, fighting against a fake domain realm master who had touched the concept of his domain helped Qi Long find his path much faster. In the end, Qi Long managed to do it. It was just that Ling Lan didn't know what Qi Long's domain concept could be. She could only feel the fluctuation of domain energy with no natural elements. Thus, Ling Lan decisively eliminated the possibility of concept of the

natural elements. In actuality, she felt that the domain concept Qi Long had awakened was similar to Li Lanfeng's, both of them belonging to the spiritual rules.

Animal Instinct was originally an ability that branched from spiritual power! Ling Lan suddenly realized that Qi Long was actually the luckiest person alive. Not only was his physical constitution monstrous, the innate talent he had awakened was completely based off his spiritual power, which easily fulfilled the spiritual power requirement to advance to the domain stage. This also explained why Qi Long had advanced into the domain stage that easily. Both requirements were fulfilled before this fight even started, making his advancement was more or less perfect. It wasn't like Li Lanfeng's advancement where even though he had advanced, he would still have many problems in the future.

Qi Long directed the tornado towards Luo Lang's opponent. Then, he excitedly clenched his fists after feeling the concept of his domain. When he looked towards his opponent, he no longer felt the pressure he had felt in the very beginning of the battle. Although he had just advanced into the domain stage and could only slightly control it, he still felt that if he wanted to kill his opponent, it would be a piece of cake.

This was probably the difference between a natural domain and a fake domain. It was no wonder their Boss didn't allow them to take shortcuts. It seemed their Boss knew very well what price one would pay if they were to use shortcuts.

Qi Long began to laugh. He looked towards his opponent and softly said, "Die!"

Before his voice could reach his opponent, he had already gotten behind the wind element fake domain realm master. Then, the wind element fake domain realm master grasped onto his chest, and began to spit out massive amounts of blood along with his ruptured organs, causing him to fall over dead with his eyes still wide open.

"You think you can escape?" Ling Lan, who was originally fully focused on watching the battle, suddenly felt two strong auras running away in two different directions. Ling Lan moved in a split second and instantly intercepted one of them.

The domain realm master in the other direction was overjoyed, thinking that he had escaped. Suddenly, a silhouette blocked his path. It was Li Lanfeng.

It turns out, after drinking Li Shiyu's medicinal agent, Li Lanfeng's battered body was instantly healed up. When he was using the meditation technique to heal his body, his eyes didn't stop monitoring the manor. Thus, if there was anyone trying to escape from the manor, he would be able to instantly know. The person that Ling Lan had let go moved towards his direction. He thought about it and knew that he was most likely given to him by Ling Lan.

Chapter 778: Difference!

"A newly advanced newbie actually dares to stand in my way. Are you looking to die?" The domain realm master who was blocked off by Li Lanfeng shouted sharply. As he spoke, he simultaneously attacked Li Lanfeng using his right hand. White smoke started appearing in his palm, and it flew towards Li Lanfeng like an arrow.

Li Lanfeng activated his domain decisively. “Bam!” The white smoke crashed onto Li Lanfeng’s domain, creating a loud crashing sound.

Li Lanfeng’s body trembled a bit from the sound. He could feel the blood rushing up his chest, leaving a sweet yet gamey taste in his mouth. He was now facing an actual domain realm master with many years of experience. This domain realm master had a much higher proficiency over his concept than he had over his own. This opponent wasn’t someone who had just advanced into the domain stage could compare with.

However, Li Lanfeng was a stubborn person. Since Ling Lan trusted him and gave him the responsibility of delaying one of the domain realm masters, then he couldn’t let Ling Lan be disappointed. He forced down the blood that was trying to rush out his mouth and looked at his opponent with a calm expression on his face.

The domain realm master’s expression changed slightly after seeing that his attack blocked by Li Lanfeng. Only he knew that his seemingly simple attack actually consisted of the full power of the concept that his domain applied. He didn’t think that his opponent would be fine after blocking his attack...

This domain realm master knew that he couldn’t escape that easily anymore. He was regretting it somewhat. In reality, when they had discovered that there was a titled domain realm master among their enemies, they should have made the decision to escape.

It turns out, the reason why these two domain realm masters ran away was because they saw their comrade being intercepted by the opposing side’s titled domain realm master. They discovered that this titled domain realm master was so much stronger than their front-line titled domain realm masters. This discovery instantly quelled their will to fight, so they didn’t dare to make any sudden moves. As the fight continued, they saw Qi Long advancing to the domain stage perfectly, at that moment, they knew they couldn’t wait any longer. Otherwise they would all be defeated here and become prisoners of war.

Almost simultaneously, the two of them both chose a direction to run towards. They only hoped that the titled domain realm master could only stop one of them. The other would then be able to notify their strongest people to come and save them. Unfortunately, they thought of it too ideally and neglected the fact that Li Lanfeng’s body could have healed. In the end, both of them were intercepted and didn’t get away successfully.

However, they weren’t going down without a fight, especially the one who was intercepted by Li Lanfeng. That domain realm master did not believe that a newly advanced domain realm master would be able to stop him no matter how strange his domain concept was. He still had a chance to escape, as long as his comrade was trying his best to stall the titled domain realm master.

These domain realm master from the unknown organization were unwilling to die here, and still had hope in their heart, so they both released all their domain energy simultaneously. In a single moment, all the elements began crashing against each other, creating a picturesque scene filled with myriad of colors.

The domain realm master that was intercepted by Li Lanfeng suddenly turned into a body of white smoke, and it started to spread out. Seeing this, Li Lanfeng’s expression changed slightly, and then

activated his domain. After he activated it, the space around him began to become twisted. The white smoke that was spreading all around was held in place by the twisted space, locking the white smoke in place.

The black scythe appeared in Li Lanfeng's hand once again. Seeing this, the domain realm master was scarred as he had watched his own subordinate, the fake domain realm master, be instantly erased out of existence. After feeling a sense of crisis, the domain realm master used all his might. White smoke began to spread to the surrounding area wildly. Not long after, Li Lanfeng along with his domain were both engulfed by the white smoke.

Li Lanfeng wasn't surprised, and he ruthlessly sliced towards the white smoke that had surrounded him.

"Bang!" The scythe sliced the white smoke, but was blocked by a much stronger domain concept than his own.

"I can only disintegrate domains that are weaker than my own?" Li Lanfeng frowned. He felt that it shouldn't be the case, but he only had just the basic understanding of his domain so he couldn't fully understand it.

Seeing he was alright, the domain realm master instantly breathed a sigh of relief. He now knew his opponent's domain was not as strong as he had previously thought, and it could not kill someone who had a deeper understanding of his or her concept. In reality, this was the law of domain. If there was a concept where that concept would overrule any other domain concept, then that would be unfair. How would they be able to live if that was the case?

After relieving his concerns, this domain realm master used his domain to attack Li Lanfeng wildly. Li Lanfeng's domain was ineffective against his opponent, and it could only be used to defend himself. However, even so, Li Lanfeng didn't take any steps back. He didn't forget his mission and that was to stop his opponent even with his life.

"Sh*t!" Seeing his opponent not budging just to hold him back, the smoke element domain realm master instantly became irritated. He knew very well that if he didn't escape soon, he wouldn't be able to escape when the titled domain realm master would eventually defeat his comrade.

Knowing that his time was limited, the smoke element domain realm master made a tough decision. Suddenly, the smoke that was originally surrounding Li Lanfeng began to disperse. The smoke quickly formed into three transparent ropes. Then, these smoke ropes began to dance around Li Lanfeng... Under the light of the sun, these ropes actually had a rainbow hue to them.

Then, a silhouette suddenly walked out of the smoke. He reached his right hand out and clenched it tightly. The ropes that were originally dancing around Li Lanfeng instantly tightened and wrapped around Li Lanfeng and his domain.

Li Lanfeng's domain instantly became unstable as it couldn't endure this type of attack, and it began to shake violently.

Pinpoint attack! The opponent's method of attack was undoubtedly using this idea. This attack condensed the concept of his domain into three thin strings in an attempt to destroy the opponent's domain.

Suddenly, a force shot down from the sky. The smoke element domain realm master was stunned and could no longer shackle Li Lanfeng, so he moved to the side instantly to dodge this force.

“Bang!” A fist struck the ground where the smoke element domain realm master previously stood on, causing countless rocks to fly about. A silhouette slowly stood up and clenched his fist as he smiled, “Sorry for making you wait, I was stabilizing my domain.” The person who came to save Li Lanfeng was Qi Long.

“It’s alright, I can still hold on!” Li Lanfeng replied calmly. Although it was dangerous just a moment ago, it was just as he said, he could still hold on. It was just that fighting with real domain realm masters made Li Lanfeng realize the difference between himself and those experienced domain realm masters. The amount of domain techniques he knew were zero to none. It seemed that he needed to invent many more domain techniques.

Chapter 779: Change Between Three States!

The domain realm master who Ling Lan stopped was the strongest among the three domain realm masters that were hiding in the manor. Ling Lan had detected his force of presence and concluded that he was only half a step away from becoming a titled domain realm formidable warrior. Hence, she decided to stop this person herself as no one other than her could match-up to him. Plus, Ling Lan had already made the decision to eliminate everyone here, so she would, of course, not allow anyone to escape.

The domain realm master frowned when he saw Ling Lan appearing in front of him. At first, he thought that Ling Lan would stop the weaker domain realm master, so he was slightly furious that Ling Lan chose him. Did his opponent think that he was afraid? He only chose to escape because he didn’t want the manor to suffer more damages and was also going to look for reinforcements.

There were two powerful domain realm masters guarding the headquarters. One was Elder Hong who disappeared without a trace yesterday. No one knew if he was on a secret mission or was he caught by the military. The other person was Elder Liang. Elder Liang liked to suppress his force of presence and hid among the masses. He was not like Elder Hong who had a high status. When they were retreating, Elder Liang even disguised himself and fought with the enemies outside. He didn’t retreat from the headquarters with the first batch. This domain realm master was planning to ask Elder Liang for help.

Since he was stopped, he could not leave this place anymore. His only hope was to tie down this person so that his comrade could maybe leave. The domain realm master made a decision and immediately activated his domain. He prepared to fight with Ling Lan, to the death.

Ling Lan felt a huge gush of hot air when this person activated his domain. Flames appeared out of nowhere in her opponent’s domain. Compared to Mu Chaoran’s red flame, this person’s flame was slightly green and the energy in it was more powerful than Mu Chaoran’s red flame. If she was right, a green flame was a tier higher than a red flame. This showed that her opponent had a strong understanding of his domain concept.

Ling Lan frowned. She didn’t expect her opponent to have a fire elemental domain. The fire and ice element naturally restricted each other. Additionally, she had ever fought with a fire element domain

realm master before. Will this fight give her some new experiences? Ling Lan felt a growing fighting intent, and a cold aura started to exude out from her body.

“Ice element!” The fire element domain realm master was extremely sensitive to elements that restricted him. Ling Lan had only released a little of her force of presence but he instantly knew what her element was.

His expression changed slightly. He started to turn vigilant. This kind of mutated domain was very hard to predict and was very powerful, so they were hard to deal with. Domain realm masters hated opponents who had such mutated domains. Thus, to not get caught off guard by them, one would have to constantly stay on their guard.

Among the five basic elements, the fire element had the strongest offense, the metal element had the greatest explosive power, the earth element was the sturdiest, the water element had a good balance between offense and defense, and the wood element was the hardest to detect. All of them had their advantages. It could be said that most domain realm masters knew these five elements inside-out. Thus, when they fought against such elements, they already knew what to expect. However, mutated elements were rare, so not much information could be gathered. Thus, people could only rely on their personal experiences to battle against these mutated elements.

This kind of domain was very troublesome to deal with. However, there was another kind of domain that was not just troublesome, but it was also so scary that enemy domain realm masters had to be constantly careful and be alert of it, and it was the special domains. Li Lanfeng’s weird domain was a perfect example of those special domains. No one could know what the domain could do, so a moment of carelessness might cause one’s death.

On one side of the battlefield, the air was burning hot and filled with green flames. On the other side, it was cold and icy. Steam appeared at the meeting between the two domains. Soon, the steam disappeared.

The two of them confronted each other silently for a few seconds. Then, at the same time, the fire and ice arrows flew towards each other. The two people acted in unplanned unison. Both of them were trying to gauge each other’s strength. No one was able to gain an advantage over the other. The clash between hot and cold produced a slightly warm mist that warmed up the entire battlefield. It seemed to be overpowered by the warmth from the flames.

The fire element domain realm master’s eyes suddenly lit up. The mist surrounded him started to clear up first on his side first due to the heat from his flame. He could see his surroundings clearly again. Then, he saw the mist around his opponent and suddenly had a thought, and instantly, his entire body became engulfed in flames. The flames around him started to spiral upwards, twisting and curling into a huge green flame dragon that flew towards the Ling Lan side, covering the Ling Lan’s entire side of the battlefield.

However, the fire dragon didn’t hit anyone. It just struck an empty piece of land. Molten rocks and boulders were flung into the air. The fire dragon stood up and it started receding back, forming a human silhouette which was the fire element domain realm master who was wearing a worried expression. The green flames around him started to burn even brighter and grew from three inches to ten inches. His force of presence also increased almost three times.

He didn't expect his opponent to disappear without a trace. There were no signs of ice around him. Where is the ice element domain realm master hiding? Why wasn't there any force of presence here? Domain realm masters who could turn into their element would usually carry the presence of their element with them. However, he didn't feel any coldness around him.

Did he leave? The fire element domain realm master inspected the air around him again and confirmed that there was no coldness in it. Another thought flashed through his mind.

This is bad! He suddenly turned his head towards the direction where his comrade when and he felt the force of presence of a domain realm master with his comrade. He immediately understood what had happened. He got tricked by his opponent. His opponent's real target was his comrade.

The other party didn't plan to let any one of them away! The fire element immediately changed into a green flame dragon again and flew as fast as he could. He was filled with anger and grief. "Don't worry, I'll definitely find Elder Liang and take revenge for all of you!" At the last moment, he chose to save himself and sacrificed his comrades.

He was focused on escaping that he didn't notice a warm mist entering his domain. The temperature of the mist was the same as his aura so he thought that it was just some leftover mist from the battlefield. By the time he realized that something was wrong, it was already too late.

"Ice Blockade!" A cold voice could be heard next to his ear. He felt his body turning cold. The moment he felt that his body froze into an ice statue.

The mist around him slowly dispersed, revealing Ling Lan's body. She had never left.

The fire element domain realm master didn't stop struggling. The green flames on his body tried to burn the ice surrounding his body. However, he was cut off from the surrounding fire elements by the ice, so he could only rely on his domain energy. If he couldn't escape before his energy got depleted, he will be dead.

He saw Ling Lan walking out of the mist. His eyes widened in disbelief. He could still clearly feel that there was no cold aura in the mist. It was warm. This couldn't be done by an ice element... He let down his guard because of this and allowed his opponent to infiltrate his domain with his ice element.

The coldness in his body got even colder. The cold didn't just come externally, it came from within him too. When he turned into a flame dragon, he sucked in the mist accidentally. This mist turned into ice element in his body and disrupted the energy inside him.

"As expected of someone who was almost a titled domain realm formidable warrior. You lasted for a long time even after my ice element infiltrated into your body," Ling Lan said calmly.

This battle with this fire element domain realm master made Ling Lan gain a deeper understanding of the third state of the water element. Compared to the other two states, this state was almost invisible. She could attack her opponent without a trace. The bugged technique could only be used when her opponent touched her in her liquid state. In the gaseous state, she could hide in her opponent's domain and sneaked an attack on him without him noticing.

The damage done to her opponent when her ice element infiltrated his body was stronger than any external attack. If she purely used her ice element in its solid state, she would need to use a technique

that would overpower her opponent. For instance, Ice Blockade. However, her ice element energy would be used up in the process, and she wouldn't be able to resist against an attack by another domain realm master. If she used the gaseous state to infiltrate her opponent's body and then turned it back to its solid state, the results would be the same as using Ice Blockade. But, the energy consumed would be much lesser. Even if another enemy came to attack her, she would have the strength to fight against him.

Through this battle, Ling Lan was able to use the three states of the water element interchangeably and seamlessly. She understood that strength was not the only decisive factor in a battle. Understanding her opponent's mindset and using the right technique could kill people were important factors that could swing a battle to either side.

At first, Ling Lan thought that she already had a good understanding of her domain. Now, she realized that those understandings were just theoretical, and only through experience would she be able to gain enlightenment and more insights towards her own domain. She always thought that the gaseous state was only suitable for sneak attacks and not direct confrontations. Now, she felt that she needed to further explore the offense techniques of the gaseous state. She might be able to create some new and unique techniques.

No wonder her father always gave her difficult missions. His intention was to let her understand her domain quicker through all these experiences. As expected of her father, he knew her the best. Ling Xiao knew that Ling Lan was not someone who likes to fight. Hence, he had no choice but to bear with the pressure from his wife to give Ling Lan some troubles.

Chapter 780: Tea Party!

Ling Lan looked intently at the struggling fire element domain realm master. Then, she turned back and increased the power of her domain. The ice element soon consumed all the domain energy inside him, ending his power to resist. The ice element slowly froze his body from the inside until jagged ice shards could be seen puncturing out of his skin, slowly the ice shards started to merge with each other, creating an ice statue with a face that was filled with grief and regret.

Ling Lan snapped her fingers. The ice statue started to show some visible cracks, and the number of those cracks got higher and higher, soon it reached its threshold and the shards started to fall apart, as the shards were falling down, the shards were somehow dissolving in mid-air, and soon no traces of the ice statue were left behind. Usually, her liquid state technique would still leave a pool of blood but for this technique, not even the smell of blood was left behind, only the coldness in the air could be felt. But, under the hot sun, it would disappear soon too. Compared to the techniques of the other two states, Ling Lan preferred the solid state of her element. It had nothing to do with how powerful they were. It was just her personal preference.

As Ling Lan killed the fire element domain realm master, Luo Lang and Xie Yi's battles were coming to an end too.

Compared to Qi Long, Luo Lang was in a worse situation. He almost got trapped by his opponent's sand seals and was almost dragged into a sea of sand. Luckily, Luo Lang activated his innate talent on time and released his calm personality, managing to save himself from the danger.

"I didn't expect the primary personality to be beaten so badly by a fake domain realm master..." Not everyone liked the calm personality, but the primary personality trusted the calm personality the most, and would always release it during times of danger. Hence, the other personalities were jealous.

"It's better than being a crazy dog." The calm personality refuted, mocking the personality that spoke up. The other personalities were furious. If Luo Lang hadn't suppressed them, all the personalities would have fought within him.

"Why are you all still arguing with each other? If it wasn't for all of you, why would I still be stuck at the optimal peak of Qi-Jin for so long? Even that bastard Qi Long managed to advance to the domain stage, but I haven't even scrape the surface of it. You all know that I don't like to lose to Qi Long but you all are still not helping me! Not only that, you all just constantly fight among yourselves. I'm so angry!" Luo Lang finally exploded in anger. "If you all don't want to help me, fine, just stop disturbing me."

Luo Lang wasn't a scheming person. He was straightforward and forthright. Additionally, he treated his other personalities well. As long as his other personalities didn't go too overboard, he would just close one eye and let them do what they want. He never used his power as the primary personality to force the other personalities to do anything. It should be known that Ling Lan had already helped him to subdue all the other personalities, so Luo Lang felt that these personalities were his companions who had been through thick and thin with him. That was why he didn't want to use them as servants.

Luo Lang's outburst caused the other personalities to shut up. If the primary personality didn't like that specific personality, that specific personality would just disappear. This was the reason why they didn't want to submit to Luo Lang in the beginning because submitting to him meant that they would have to listen to him.

The personalities thought back about how the primary personality treated and endured them all these years. They felt guilty. Sometimes, when a certain personality felt that he hadn't come out for quite a while, he would discuss it with the primary personality and the primary personality would let him out for a while. If they had met an oppressive primary personality, they believed that their days wouldn't be so easy.

"Actually, we should really think about this..." The cold personality felt that this wasn't a good time to fight among themselves.

"I agree!" The personality with a strong killing intent turned friendlier. It was rare for him.

"I agree too!" The savage personality didn't want to see the primary personality get beat up too. If the primary personality advanced in his physical skills, it would be beneficial for them too. They felt that they might be able to come out more often in the primary personality advanced to the domain stage.

"Isn't it good to come out?" The calculative and cold personality always chose things that were beneficial to him.

The other personalities knew that doing this wouldn't harm them. It might even be beneficial for them. Hence, they all agreed. What a rare occasion for all the personalities to agree on something.

"Based on Boss's investigation, if one can understand his or her domain, one can advance to the domain stage, and understanding one's domain has to do with one's innate talent. My innate talent is Alter Ego, which is all of you. However, I don't understand what domain can I derive from Alter Ego..." Luo Lang was stuck here. Just like Qi Long, his innate talent was too unique. He couldn't use the five basic elements as a reference to find out what his domain could be.

This was why there were very few domain realm masters with special domains. Not many of them were able to understand what concept their domain could be and advance to the domain stage. From the data collected over thousands of years, special domain realm masters only made up 1% of all domain realm masters. The five basic element domain realm masters made up 60% of the domain realm masters. Mutated elements domain realm masters made up 20%. Combining these two, the elemental domains made up 80% of the domain. Besides elemental domains, there was the true form domain which took up 10% and the assist domain which took up 9%... based on these data, special domains were extremely rare.

However, the world is fair. Special domain realm masters had it hard but once they succeeded, they would be stronger than most other domain realm masters. Almost everyone with a special domain had a bugged technique, making them extremely strong. No normal domain realm masters wanted to face a special domain realm masters.

"Li Lanfeng's ability should be the virtualization of the real world, right?" The calm personality suddenly asked.

"Yes, we should think about it in that direction. It is the actualization of his spectre ability. Maybe we can actualize our innate talent too," one of the personalities said excitedly. If they could actualize their innate talent, then all of them could appear in the domain, right? And they wouldn't have to fight for space anymore.

Everyone's eyes lit up when they heard this and they looked at Luo Lang with sparkling eyes.

"How can we do that?" Luo Lang was puzzled. He had thought about this too but he didn't know how to do it.

Luo Lang's other personalities turned quiet. Indeed, this was the hard part.

"F**k, I don't believe that we can't think of a way. We have so many brains," a bad-tempered personality shouted.

"By the time you all think of a method, grass will have grown on our grave," said the calm personality while evading another dangerous attack. Damn it, why are these people having a tea party now? Can't they tell that he was having a hard time?

"Capable people should take more responsibility," the primary identity replied to him.

"Yes, you are powerful, right?"

“You are the big brother. Of course, you should handle it...” The other personalities complimented the calm personality half-heartedly.
