

Crossing 941

Chapter 941 Big Trouble!

“Wang Baozhuang and Liu Furong were both in the 3rd Division, in the 9th Wings Regiment, but they were in different clans!” Little Four found where the two of them were connected.

“9th Wings Regiment was one of the highest ranked regiments in the 3rd Division back then. The Magic Ace Mecha Clan under it was also the runner-up to the position of the top titled special class mecha clan within the 3rd Division. Magic Ace Mecha Clan had the nickname ‘Undeclared Mecha Clan’. This proved that they were a sight to behold back in the day.”

“Back then, Liu Furong was still a small team leader. However, he had already caught the eyes of their regiment commander.” Little Four had looked up the report Liu Furong’s regiment commander had written about Liu Furong. One could tell that the regiment commander saw potential in Liu Furong and wanted to help him in his development.

“If it wasn’t for the fact that Magic Ace Mecha Clan was completely decimated 15 years ago from an enemy ambush, Liu Furong might even have developed to be even more monstrous than now...” Those, who were team leaders from other mecha clans weaker than Magic Ace Mecha Clan, had already become regiment commanders of ace mecha clans by now. Some even became generals. Liu Furong on the other hand only had his rank upgraded, but was still only just a team leader.

“What happened 15 years ago has affected Liu Furong greatly. Although he led a broken team out of the ambush, he instantly went unconscious after getting out because of exhaustion. After he woke up, his memory of the battle was all mixed up. He was treated at the main military hospital for 5 months and then was discharged to rest at home.”

“Five months? Then, when he was discharged, it was already September, when Wang Baozhuang and Wang Qi arrived on Planet Muyang.” Ling Lan saw the files Little Four had shown her and suddenly remembered what Aunt Liu had told her. Liu Furong had once mentioned that his regiment commander was powerful. He didn’t mean Ling Lan six years ago! Instead, there wasn’t any regiment commander that he had admired after Magic Mecha Clan was completely wiped out 15 years ago. Liu Furong would always go through different clans and he had never stayed for more than one year in each one. After joining 250 Ace Mecha Clan in the 23rd Division, he finally stopped moving around.

“Little Four, check the files on the regiment commander of Magic Ace Mecha Clan.” The most crucial person was this regiment commander.

“The regiment commander’s name is called Wang Junan...” Little Four brought out the file on Wang Junan and handed it to his Boss.

Ling Lan read through Wang Junan’s file quickly. She saw that before he was KIA, his wife was 6-months pregnant... She gave birth to a son in June.

“A baby boy?” Ling Lan looked at the picture of Wang Junan and quickly had Wang Qi’s image appear in her mindscape.

“Don’t the two of them look alike?” Ling Lan finally found a hint of some sort.

“Somewhat.” Little Four looked back and forth between the two images. He felt that when the two of them stood together, they did indeed look similar.

“Then, that makes sense.” Wang Baozhuang, Wang Qi and Wang Junan. They were willing to change their names and yet still didn’t want to change the name of the regiment commander’s son? It seemed Wang Junan was really admired by the soldiers in the clan. Even a logistician from a different clan was willing to help him even if it meant death.

“The files on the battle back then were almost all gone. Even if there are some files, they are limited in information. Not sure whether it was because those involved had perished or someone had meddled with the information and purposely hid it away.” Little Four couldn’t find any detailed records on battle that completely wiped out Magic Ace Mecha Clan.

“Of course someone meddled with the files! It’s just we don’t know whether those who meddled with it was helping them or their enemies,” Ling Lan said with a frozen expression.

If the military wanted to know something, they would definitely get to the bottom of it. They were playing dumb on purpose since there weren’t any details about it. The military would rather let a titled ace mecha clan get wiped out without any reason than to investigate to get to the bottom of this. It seemed that this issue had a lot of politics involved.

Ling Lan was in dismay. She was only running away from home to have some peace and quiet. She didn’t want to do anything to upset the balance of the world. Why did God hate her and always create problems for her?

Ling Lan knew that she was amidst a huge problem now...

“Little Four, you unlucky little thing, why did you chose Planet Muyang?” Saddened, Ling Lan pinched Little Four’s pink cheek and began to rub it furiously to quell her feeling of dismay.

“H-ow suold I rnow (How should I know)...” Little Four felt wrongly accused. Although the galaxy map was created by him, wasn’t it still his Boss that pointed to this planet? How come he was to blame now?

“Boring, not as nice to pinch as Little White.” Ling Lan disliked the fact that Little Four’s face was not as chubby and wasn’t as stretchy as Little White’s face.

“Right, since we’re talking about Little White, it has been playing around with Aijun recently. Does it not want to leave with us?” Ling Lan thought whether she should use this chance to toss away this dumb and cute pet.

“Not sure, but Little White goes out to the surrounding area of the town everyday for adventures with Little Jun.” Little Four told Ling Lan what Little White had been up to these past few days.

“It’s having a lot of fun, huh.” It wasn’t even think about her, his master, one bit. Ling Lan was disheartened that she kept a good for nothing pet. However, she wasn’t apologetic about how she was just thinking of ruthlessly abandoning Little White.

“Rawr!” She suddenly heard Little White’s angry roar. This was the difference of spiritual power. Other than Ling Lan or experts in spiritual power, the average person wouldn’t be able to hear it.

“Not good!” Ling Lan’s expression changed instantly. Little White was informing her that someone was making a move on Liu Aijun.

Ling Lan disappeared from the room and appeared at the location where Little White had screamed in the next second. However, she only discovered the grass and trees around her were a mess, while Little White and Liu Aijun were nowhere to be seen.

Ling Lan put out her finger, closed her eyes and felt the presence that was still lingering in the air...

“The earth element is quite thick here...” Ling Lan immediately knelt down and pushed her right hand into the ground to feel the changes in the earth element.

“Who knew that a small planet like Muyang would actually have an earth element domain realm master. Plus, he is at least a titled domain realm master if he could kidnap Liu Aijun and Little White from my watchful eyes.”

Right as Ling Lan felt the enemy’s location, she heard a loud explosion coming from the Liu family’s home.

Ling Lan’s concentration was disrupted. Now, the trail she had caught on from the earth element domain realm master instantly broke off. She sensed it again, but she could not sense it anymore.

“Sh*t!” Ling Lan could only give up on searching and run back to the Liu family’s house. She saw the originally old and tattered home of the Liu family had already become a pile of debris.

Aunt Liu was sweeping the yard at the time. Although she was sent flying by the shockwave produced by the explosion, she was not hit with anything. She didn’t have any life-threatening injuries and was quite lucky.

Seeing Ling Lan appear, Aunt Liu, who was dumbstruck and had a blood smear on the corner of her mouth, instantly regained her focus. She cried happily, “Jiang Hui, it’s a good thing you’re okay.” Just now, she actually thought Jiang Hui had perished in the explosion. That was because in her mind, Jiang Hui should have been in the guest room eating breakfast.

Ling Lan helped Aunt Liu up and brought her to rest in the open area outside. She then took out a vial of medicinal agent and gave it to Aunt Liu as she comforted her, “Aunt Liu, I’m fine. This is medicine for treating your wounds. Rest for now.”

Chapter 942 Who Is It?

Aunt Liu nodded and drank the medicinal agent obediently. Although she knew this type of medicine was expensive, she still needed to regain her health in order to take care of her two children. For that, even if she was to owe a huge favor to Jiang Hui, she still had to accept it.

The commotion at the Liu family house alerted the neighbors around them. They all came running when they heard the explosion. When they saw Aunt Liu, they all rushed forward and asked her about the situation. They asked whether there were people under the rubble and whether she needed help.

Although Planet Muyang was somewhat underdeveloped, the relationship between neighbors were much better than those seen in more modernized planets. The neighbors here were willing to lend a helping hand and not just watch coldly on the side.

Seeing that there were two ladies around the same age as Aunt Liu comforting her, Ling Lan backed away from them. She looked at the rubble that used to be the Liu family's house again and narrowed her gaze. There was no doubt that this explosion was aimed to kill her.

"Little Four, rewind the video." She wanted to see who caused the explosion.

After rewinding the tape to four days ago, Ling Lan finally saw the culprit. After Ling Lan had left the Liu family home that day, one of the neighbors entered the home to ask for some soy sauce from Aunt Liu. When Aunt Liu went to get the soy sauce, the neighbor's seemingly random moving hand touched a blind spot on a piece of furniture 'accidentally' while she was talking to Aunt Liu.

Just like that, the neighbor stuck a miniature time bomb on the blind spot of the furniture.

The movements and expression of that person seemed to be natural. Ling Lan and Little Four didn't think that someone on Planet Muyang would want to get rid of them so quickly, and so they had neglected the possibility of it happening that quickly.

Ling Lan looked around again and discovered that among the group of neighbors who came out of their house, that person had a face full of sincerity when she was talking to Aunt Liu as though she was actually concerned about Aunt Liu's safety.

"Little Four, ever since we came out to travel, have I become less alert about my surroundings?" The similar environment to her previous life, the slow way of living, had made Ling Lan feel much more peaceful. She had indeed become much less alert about her surroundings than before.

"Yeah. Though we didn't know that such a peaceful-looking planet would actually hide this many secrets," Little Four murmured. He felt his Boss wasn't to blame. After all, they had only come here to travel on a whim. If traveling required them to constantly be alert and on guard like being on a mission, then where would the fun be? It would better to just rest at home instead.

"However, since they made on move on us, then if I don't reciprocate, then that won't be like me." Ling Lan smiled coldly. She slowly walked forward and went to join the crowd. She then went beside the neighbor in question.

Although Ling Lan was there, everyone naturally neglected her, including the neighbor she was moving towards.

Suddenly, the neighbor felt her throat was being choked ruthlessly. She wanted to scream out loud but her voice just wouldn't come out. She wanted to move too but she couldn't move a muscle.

'What is happening?' Before she could react, she had already arrived in an open wasteland area in the next second. Right at that moment, the choke hold was suddenly released. This 40 year old woman instantly knelt to the ground as she coughed hoarsely. It was though she was about to cough her lungs out.

Right at that moment, the woman who was weak from all the coughing suddenly pounced behind her. A silver colored sharp object appeared in her hands as she ruthlessly stabbed towards Ling Lan, who was standing behind her.

“Bang!” Ling Lan only used one finger and flicked the dagger away. The dagger instantly shattered into thousands of pieces.

The woman was stunned, and she quickly backed away from Ling Lan. When she wanted to make a run for it, the belts that were originally wrapped around the Ling Lan’s arms suddenly loosened and pounced towards her like snakes.

“Bam!” The belts were like long whips, wrapping around her legs, causing the woman to fall down.

No matter how much the woman tried to struggle free, she was still slowly dragged towards Ling Lan by the belts wrapped around her.

“Who are you?” Ling Lan asked calmly.

The woman glared at Ling Lan angrily, but didn’t make a sound.

“Yao Minyi, born on Planet Muyang... never went to school. A person who stays at home to take care of her younger brother and sister would definitely not have moves like yours.” Ling Lan knelt down with leather gloves on her hands and squeezed the woman’s face.

“The muscles on your face have been reconstituted. Your bones seem to have also been done.” Ling Lan used her Qi-Jin to feel the woman’s face and instantly understood the situation.

“It seems that the real Yao Minyi has already been disposed of by you. Did you use Yao Minyi’s identity to surveillance on the Liu family?” It was probably because Liu Furong had unknowingly left something incriminating, but they didn’t have proper evidence on him. That was probably why they used this method to keep a watch on the Liu family.

Yao Minyi didn’t answer and only glared at Ling Lan coldly.

“It seems I am right.”

Ling Lan’s words stunned Yao Minyi. She didn’t know how this person could be so confident that his guess was right. She didn’t even answer Ling Lan.

“Sometimes, not answering is also answering.” Ling Lan smiled as she put her right index finger on Yao Minyi’s forehead.

Yao Minyi suddenly felt a coldness go from her forehead into her brain. It was so comforting that she wanted to moan, but there was also an indescribable terror that made her hairs stand on end.

Ling Lan smiled as she took back the belts. The belts that were flying around everywhere, wrapped around Ling Lan’s arm naturally and hid within her sleeves once again.

Ling Lan’s actions dumbfounded Yao Minyi. She didn’t know why her opponent didn’t do anything to her and let her go.

“Don’t be grateful to me. You’re just useless to me now.” Ling Lan shook her head and disappeared in the next second.

Yao Minyi waited for a moment. When she discovered that her opponent had indeed left, she couldn’t help but laugh coldly, “As expected of a child. He was actually soft-hearted under this situation. Our team leader was actually worried that someone like this would cause us problems...”

In her mind, she remembered the words her team leader had told her recently. Then, she suddenly began to remember how she came to Planet Muyang. In the end, she actually began to have flashbacks to times when she was in the hellish training program organized by the organization...

“Why am I thinking about these things. Sh*t, sh*t...” Yao Minyi began to hit her own head. Those memories were all hidden in places deep in her mind as she didn’t want to ever remember them. However, those memories suddenly flooded her mind. She wanted to remember happier things, but for some reason, couldn’t control her thoughts.

In the end, Yao Minyi held her head and knelt to the ground in pain. She felt as if she was being split open. The pain from it made her almost go insane.

Yao Minyi, who could no longer handle the pain, began to roll around on the ground. In the end, she had gone unconscious from the pain.

When she woke up once again, Yao Minyi saw the bright sun above her head. She felt that it was odd that she would be sleeping on the floor. She then suddenly remembered something and immediately got up. She dusted the dirt off her and quickly ran towards the Liu family house.

She was Yao Minyi, a person born on Planet Muyang, and mother of two children. Now, her best friend, who grew up with her, had something happened to her house. How could she not be beside her to comfort her?

Yao Minyi, who had more important things to do, stopped thinking about why she woke up on the ground and quickly went to the Liu family home.

Now, Yao Minyi was the real Yao Minyi. The spy who organization had sent to survey the Liu family no longer existed.

Chapter 943 Frustration!

“Master, Little Blossom is back.” The moment Little Blossom left Yao Minyi’s mind, he merged with Ling Lan’s spiritual power in the air and used it to return to Ling Lan’s mindscape.

Ling Lan smiled. She tapped Little Blossom’s cold and chubby face then complimented him. “Little Blossom, you did well.”

Little Blossom followed Ling Lan’s command and destroyed all the memories that weren’t related to the real Yao Minyi. All the information that was left was all related to the real Yao Minyi. These memories in her head would make the woman believed that she was the real Yao Minyi.

Since they destroyed a Yao Minyi, she would return another Yao Minyi to the family and make this family perfect again.

Little Blossom finally smiled when he heard his master praising him. Little Four saw the smile and his chip surprisingly became hotter. He almost shutdown again just like that time when he saw his Boss smiling.

Little Four managed to regain his sense after he recuperated for some time. He suddenly realized that he had a fetish towards smiles. That was why he couldn't handle his Boss's smile in the past and now, he couldn't handle Little Blossom's smile too. Thinking back, he really couldn't resist against people who always wore a smile on their faces, for instance, Ling Xiao, Lan Luofeng, Luo Lang, Luo Chao...

Based on this theory, he should like Li Lanfeng too. However, Little Four weirdly didn't have a good impression of Li Lanfeng. It must be because that fellow's smile was too fake. Only real smiles had effects on him.

Little Four felt at ease after he found the reason for the rise in the temperature of his chip. He just had a liking for real smiles. He wasn't enchanted by Little Blossom's smile.

In the learning space, Number Five saw Little Blossom's smile and said to the air above him, "Look, your teachings are useful. It's just that the effects couldn't be seen last time.

"Hmph." The space beside Number Five split open, then a sexy and charismatic woman walked out of the cracked space. It was Number Four.

"You didn't tell me that Little Blossom would evolve to become like its master." Number Four glanced at Number Five coldly. It was a mesmerizing glance. Number Five's heart wavered for a moment. If he wasn't focused enough, he might have already succumbed to Number Four's charisma. Number Five really respected Number One's resistance against Number Four. 'Is what Ling Lan said the truth? Is Number One actually asexual?'

Number Four didn't know that Number Five was thinking about the relationship between Number One and her. She was just immersed in her own thoughts. She remembered the setbacks she faced in front of Little Blossom. That time, she actually tried her best to groom a seductive and charismatic person who could use any expressions to curb his opponent. However, she didn't expect Little Blossom to start evolving.

Before Little Blossom evolved, he could still perform some of those various expressions. She was not satisfied with them but he could at least do the expressions when she asked him too. After he evolved, Little Blossom only had one expression. He only kept that cold face on him all the time. Number Four almost wanted to vomit blood when she saw that.

Number Four couldn't understand what was happening so she dragged Number Five out of his space and forced him to explain the situation to her.

Number Five told her the truth. Little Blossom's evolution path was based on his master. Little Blossom's master was Ling Lan and since Ling Lan constantly had a cold face after Number One's teaching, Little Blossom would move towards that direction too. Whether this path could be broken depended on Number Four's teaching.

Number Four almost went crazy when she knew that her disciple would become like Number One in the future. 'Damn it, I have enough of that ice-cold face. I don't want to see another cold face anymore.'

That was why she wanted to come out and teach Ling Lan. Number Four felt that Ling Lan was led astray by Number One. She needed to save Ling Lan.

In order to not lose to Number One, Number Four spent much time and effort teaching Little Blossom. However, Little Blossom's evolution path was strong. The more effort she used, the colder Little Blossom became. In the end, Number Four couldn't take it anymore and kicked Little Blossom back into Ling Lan's mindscape.

'Damn it, I'm not playing with emotionless people anymore!

Number Four gritted her teeth in anger as she thought about this. She turned around and went to Number One's space. She wanted to vent her frustration on Number One.

Number Five didn't know how Number One dealt with Number Four. He was extremely curious but he knew that if he tagged along, he would be thrown into the little black room by Number One and be locked up inside for a few years. If he was locked inside for a few years, he would be unable to get close to Number Nine and touch her hand. Thus, Number Five decided to give up on following Number Four.

He needed some fun in his life. If not, what was the purpose of his life?

"Ah, something is happening! Haha, so many things are happening at the same time. How is our Little Ling Lan going to solve all these? This is exciting..." Number Five, who was thinking about Number Nine a moment ago, got attracted by what was happening in the real world. He took out a bag of sunflower seeds from somewhere and created a table out of nothing. Then, he sat on the floor and watched the show excitedly while munching on the sunflower seeds.

A fair hand grabbed a bunch of sunflower seeds and asked indifferently, "What's the situation now?"

"Haha, Little Ling Lan is alone while there are many enemies on the opposite side. They caught those people who are important to Ling Lan. Little Ling Lan is in a bad state now. She can't split herself up so who will she save first?" Number Five was schadenfreude.

"So, are you happy?" The voice was cold with a tinge of anger.

Number Five suddenly woke up. He looked at Number Nine's cold face and shook his head firmly. "No, I'm not. I'm very worried for Ling Lan too."

He couldn't let Number Nine know his real thoughts. Number Five knew that Number Nine treated Ling Lan as her own child. He couldn't provoke a mother, especially when he had romantic thoughts towards the mother too.

"Hmph!" Number Nine knew that Number Five didn't mean what he said. However, she didn't have the time to bother about Number Five's thoughts for now. Just like what Number Five said, Ling Lan was in trouble now.

As Ling Lan and Little Four looked for Liu Aijun and Little White, Wang Baozhuang, whose real name was Luo Yi, was seriously injured. He got carried to the Liu family with the help of his neighbours. If Ling Lan didn't feed him a bottle of the restorative agent, he would have died by now. After he woke up, he told

Ling Lan that Wang Qi and Liu Aijun got kidnapped by some unknown people. He wanted to stop them but he was almost beaten to death.

"A trap after a trap. What a cunning scheme." Ling Lan frowned deeply. Planet Muyang was an unfamiliar planet to her. She finally understood how frustrating it was to be curbed by her opponent. The sudden enemy, the sudden change, and the secrets hidden for 15 years made her confused and her mind be in a whirl.

Chapter 944 Go Home!

Aunt Liu was flabbergasted when she heard that Liu Aijun was kidnapped. Then, she hurriedly ran to the place where he always played at. She had a breakdown when she saw no one was there.

"Jiang Hui, is Aijun kidnapped too? Is it the enemy of their father? Is it?" Aunt Liu wasn't gentle anymore, as she grabbed Ling Lan's hand agitatedly.

"Aunt Liu, calm down. This has nothing to do with Uncle Liu." Ling Lan used some spiritual power as she spoke. It woke up Aunt Liu who was drowned by emotions.

Aunt Liu felt her mind becoming clearer. She calmed down and started crying. "It's all my fault. I can't even protect my children."

'Crying is a good thing.' Ling Lan relaxed for the moment. She signaled to another woman at the side and asked her to console Aunt Liu.

"Boss, what do we do now?" Little Four didn't know what to do in the face of such a sudden situation.

"Look for Wang Qi and Liu Aihua," Ling Lan rubbed her forehead as she said.

"What about Little White?" Little Four was more concerned about Little White who had some relationship with him.

"With Little White around, anyone below the domain realm won't be able to hurt Liu Aijun." Ling Lan replied calmly, "I'm more worried about Wang Qi and Liu Aihua, especially Wang Qi. I feel that the opponent's real objective is him. The Liu family is just to confuse me."

'I understand, Boss.' Little Four got a trance so he started tracking Wang Qi and Liu Aihua. Little Four's tracking ability was impressive. After some time, he managed to find the den of the people that kidnapped Wang Qi and Liu Aihua.

"Here?" Ling Lan was shocked but not surprised. This was the only place that had the ability to restrict her movements.

"The government of Planet Muyang. Let me see who you are!" Ling Lan prepared to save the two people. However, before she left, she hid Aunt Liu and Luo Yi somewhere safe. She didn't want them to get abducted after she came back from saving the two people. It was tiring to keep saving people.

"Aunt Liu, did Uncle Liu leave any words behind? For instance, someone you can find for help when you meet any trouble." Ling Lan only hoped that Liu Furong was a responsible person. Aunt Liu thought for a moment and shook her head. There was no one she could rely on in Planet Muyang. If not, she wouldn't have to lead such a poor life.

Ling Lan had expected this answer. She just asked in case there was some chance. After she heard Aunt Liu's reply, she decided to bring them along with her. She would hide them close to her while she was carrying out her plan. Under Little Four's surveillance, her opponents wouldn't have a chance to attack them.

Just as Ling Lan was about to tell Aunt Liu her decision, Aunt Liu suddenly thought about something. She gasped and ran into her house. The house was in ruins but the courtyard was still there.

There was a cellar in a corner of the courtyard. She opened it and walked in. Ling Lan was afraid that Aunt Liu would face some danger so she followed her closely.

It was a simple cellar. The walls were made from crude soil. In one glance, you could see the entire cellar. Besides cabbage and potatoes, there was nothing of value in the cellar.

Of course, this was what a normal person would see. Ling Lan used her spiritual power to scan the area and noticed an abnormal spot.

Unsurprisingly, Aunt Liu walked to the abnormal spot. She took a shovel from the wall and started digging the spot.

The soil in the cellar was hard. Aunt Liu started panting after digging a few times. Ling Lan came forward and said, "Aunt Liu, let me do it."

"Thank you. Jiang Hui, dig in this direction. My husband said that if I meet any life-or-death situation, I can dig the thing out. It may be able to save my life." After Aihua was born, her husband came back to see the baby. Before he left, he left her with this sentence. Many years had passed so Aunt Liu had forgotten about it. Her husband had just casually mentioned it at that time too.

Ling Lan used her domain energy and dug the ground. After some time, a deep hole was formed. Aunt Liu didn't suspect anything. She just thought that Ling Lan had herculean strength. Clang! The shovel hit something hard. Ling Lan bent down and picked up a hard object.

It was a small wooden box in the size of a palm. It looked like a metal box and the sound when the shovel hit it sounded like a metal box too. However, Ling Lan knew that it was really made from wood. This wood was a special kind of wood, metal wood. This kind of wood was as tough as metal.

But, it could still be burnt. A high temperature was required to burn this type of wood but it could still be burnt.

There was a passcode lock on the box. Ling Lan looked at Aunt Liu. A passcode was needed to open the box.

"It's a four-number passcode lock," Ling Lan reminded Aunt Liu.

"It's Aihua's birthday, 0430." Aunt Liu thought for a moment. She remembered her husband telling her that it was a birthday gift for Aihua.

Ling Lan pressed the number and heard the sound of lock opening. The wooden box opened, revealing a small object that looked like a button.

Ling Lan was speechless when she looked at the thing. She dug with so much effort and this was what she got? If she knew this would happen, she would have contacted 250 Ace Mecha Clan directly.

“Ah, it’s this.” Aunt Liu’s eyes lit up. She took the button and squeezed it.

The button broke...

Ling Lan felt helpless as she asked, “Aunt Liu, do you know what this is?”

Aunt Liu nodded. “My husband told me that we can use this to communicate with him when he was away from us. However, the communication is one way and it can only be used one time. I wonder if he can receive it.” Aunt Liu was worried that the communicator was spoilt.

Aunt Liu was hopeful but Ling Lan knew that she couldn’t rely on Liu Furong. Liu Furong was on Planet Haijiao now, helping 250 Ace Mecha Clan to gain more merits. Even if he had returned to the Federation, he was still a few millions of light-years away from Planet Muyang. He would need at least ten days to reach here.

By the time Liu Furong reached here, it would already be too late.

Ling Lan had no choice but to continue with her ordinary plan. She brought Aunt Liu and Luo Yi along with her as she went towards the central government building of Planet Muyang.

At the same time, the shuttle that entered Planet Muyang once a week was moving towards it slowly. There was a passenger who had a thick beard on the shuttle. His eyes revealed his excitement and longing. Suddenly, his expression changed for the worse. He turned agitated. He wanted to land on Planet Muyang immediately.

This man was Liu Furong. After Liu Furong returned to 250 Ace Mecha Clan, he requested for a leave from Lin Zhong-qing. When his leave was approved, he travelled to many planets and changed his disguise multiple times. After confirming that no one was following him, he used the disguise that he always put on when he went home.

Chapter 945 Seven Stars of the North!

In an underground secret room under the central government building, the prime minister looked at the frightened Wang Qi and the trembling Liu Aihua then frowned. He looked at the 30-year-old young man sitting at the side and asked, “Mr. Yi, why do you need to do this?”

“You have been found out.” Mr. Yi took out a pack of cigarettes from his pocket and took a stick out. He placed it in his mouth and flicked his fingers. A small flame appeared from the tip of his finger and he used the flame to light up the cigarette.

“Impossible. We have been watching over him for almost a year.” They didn’t notice anything amiss.

“You underestimate Luo Yi. He is just a logistician but he came from the best ace mecha clan. His anti-reconnaissance ability is as good as any professional.” Mr. Yi took a puff of his cigarette. He flicked the cigarette above the ashtray and continued, “He must have noticed your men when they were watching over him. However, he knew that he didn’t have the power to escape so he chose to bear with it and wait for a chance to strike back patiently.”

“Are you saying that he found his chance?” The prime minister turned serious. The people watching over Luo Yi didn’t tell him anything.

“Despair gives courage even to cowards.” Mr. Yi gave a sinister smile. “That person is just a young traveler. I don’t understand why he dares to take such a huge risk.”

The prime minister heaved a sigh of relief. His men weren’t the ones that were useless. His opponent just decided to take a risk.

“However, we haven’t found out if the item is with them. If we act now, will it interfere with the organization’s overall plan?” the prime minister asked worriedly. In order to bait a big fish, their organization didn’t attack their target immediately when they found his position. Instead, they sent him to take over the position of the prime minister on Planet Muyang so that they could control their target entirely. What Mr. Yi did just expose them.

The prime minister was unhappy that Mr. Yi kidnapped these two people without informing him first. However, since Mr. Yi was sent by the organization, his status was higher than him. Hence, he could only suppress his anger.

“I don’t want to do it too. But, there is another unknown faction on Planet Muyang...” Mr. Yi’s expression turned stern. “Their target is Wang Qi too. They even kidnapped the son of the Liu family.”

When they received news that Wang Qi was attacked on his way back from the casino, they rushed over immediately, only to realize that the other party had erased all traces. There were no clues left behind. They managed to find the headquarters of the other party after much effort but when they sent their special forces over, no one was there. There was nothing inside it too. It was as if no one had ever used the place.

Without a doubt, the other party had seen through all their plans. This was the only reason why they were able to retreat before they were exposed. It didn’t feel good when your opponent was always ahead of you. When he knew that his opponent had kidnapped the son of the Liu family, he was afraid that they would kidnap Wang Qi too so he decided to act first.

The prime minister got a reality check of him not having full control of Planet Muyang. The underground gambling dens was a section he couldn’t touch. He couldn’t touch the new faction too. Mr. Yi had no choice when he made this decision to kidnap the two children. It was better than letting the other faction take Wang Qi away. He wouldn’t be able to answer to his organization if that had happened.

“Why didn’t you bring Luo Yi too?” Leaving a person out would expose their plan, right? The prime minister was puzzled. “If that item is in his hand, he will bring it here to exchange for the sole descendant of Wang Junan.” Mr. Yi explained, “If he doesn’t have it, it means that it’s with this boy. If not... it is with her father.” Mr. Yi looked at Liu Aihua.

Liu Aihua started trembling harder when she noticed Mr. Yi’s gaze. Tears started falling down her face. Although Liu Aihua was much calmer than most children her age, she was still scared when she got abducted suddenly and brought to an enclosed space. She knew that crying out loud might irritate her kidnapers so she cried silently. The guards looking after her felt pity for her when they saw her expression.

“We still haven’t found out her father’s real identity yet. Are you sure that he is related to Luo Yi?” the prime minister asked curiously.

“The organization has always been tracking Luo Yi. At first, we thought he came to Planet Muyang because it’s remote. However, there are many other planets that are remote and peaceful too. Why did he choose Planet Muyang? There must be some other reasons. There might be people he knew on this planet who could help him cover up his identity.”

“Is that the reason why the organization started taking notice of the Liu family? No wonder the organization asked me to watch over the Liu family too.” The prime minister felt enlightened.

“Of course. Luo Yi has seen many life-or-death situations on the battlefield. His blood is colder than a normal person. Would he be so kind and take care of a little girl for no reason?” Mr. Yi laughed coldly, “It must be because the Liu family is related to him. No matter what, the Liu family has something to do with him.” Luo Yi didn’t know that he dragged the Liu family into this just because he helped them out.

“We can’t find the name ‘Liu Zhongguo’ in the military’s mainframe. He must be a mercenary.” The prime minister revealed his findings. “He comes back every five years. This fits the holiday of a mercenary.”

“Five years? The last time he came back was five years ago, right?” Mr. Yi thought about something.

“Yes. It has been five years. Two more months and it’ll be the sixth year.” The prime minister checked the records on Planet Muyang for the past years and noticed that Liu Zhongguo came back every five years.

“He should be coming back soon. Before seeing Liu Zhongguo personally, I can’t confirm if he is a mercenary Luo Yi befriended outside or is he this person.” Mr. Yi moved his wrist and a photo flew out of his hand.

The photo pierced into the wall on the opposite side of the room. The prime minister looked over and saw a handsome young soldier around 30 years old. His gaze was intense. It was a photo of Liu Furong when he first became a major.

“Liu Furong from the Seven Stars of the North.” The prime minister narrowed his eyes. “He is the only one remaining from the Seven Stars of the North.”

“Didn’t they say that he is crippled?” The prime minister had been on Planet Haijiao for the past year so he didn’t know that Liu Furong was back on the battlefield.

Chapter 946 Misunderstanding!

“Do you know the mecha clan that received huge merit from the war on Planet Haijiao? 250 Ace Mecha Clan?” Mr. Yi was very serious.

The prime minister nodded. The Federation promoted this clan’s actions widely, so he knew about it even though he was far away from the center of the Federation.

“He is now the team leader of team 02 of 250 Ace Mecha Clan. After he returns to the Federation, he may even rise in rank again. He has a bright future ahead of himself,” Mr. Yi finished his sentence coldly. He moved his wrist again and a silver needle shot through Liu Furong’s forehead in the photo.

“Are you saying that Liu Furong was never crippled?” The prime minister turned serious too.

“Maybe, maybe not. 250 Ace Mecha Clan used to be made up of a bunch of useless and mentally disabled soldiers. However, after just one person appeared, they were all reborn from the ashes of their past self.” Mr. Yi’s voice was filled with admiration and jealousy.

The prime minister suddenly remembered the highly debated Ling Xiao issue. He said, “That is Ling Lan’s, the son of Ling Xiao, team?” Ling Lan’s reputation was already on par with General Ling Xiao. Almost everyone knew who he was. Pamphlets promoting his valiant actions could be found on Planet Muyang too.

“If Liu Furong became one of the Ling family’s subordinates, the organisation will have a hard time touching him.” The prime minister got worried. The organisation could do anything to a talented mecha operator who had no background. However, if the mecha operator had a powerful background... as long as the person backing him up didn’t give up, the organisation needed to think thrice before attacking the mecha operator.

“That was why the organisation send me here. They wanted to know Liu Zhongguo’s true identity. If he is really Liu Furong, we must kill him secretly without letting the Ling family know anything.” Mr. Yi told the prime minister the newest order he had received from their organisation. “Your mission is to watch the port carefully. Once Liu Zhongguo enters planet Muyang, control him.”

Beep! The prime minister’s communicator started vibrating. He looked down and smiled. “Speak of the devil. Liu Zhongguo has arrived on Planet Muyang.”

“Immediately bring Liu Zhongguo here. Don’t let the unknown faction contact him.” Mr. Yi stood up and gave his order.

The aim of the unknown faction was that item. The purpose of kidnapping Liu Zhongguo’s son was probably to threaten Liu Zhongguo so that he would pass them the item. Mr. Yi must act before them.

“I understand. I’ll go and make the arrangements.” The prime minister left the room and asked his men to go stop Liu Zhongguo.

Liu Aihua stopped crying when she heard Liu Zhongguo’s name. Her father was finally back. Her mother always said that her father was invincible. He was finally back.

Liu Aihua only remembered the face full of beard. She had no other memories left of her father. This was because she only met her father once. That time, her father had only stayed for less than a month before leaving. Hence, Little Aihua had no other memories of her father. She only knew that her father had a face full of beard and he loved her very much. He would always give her anything she wanted.

It couldn’t be denied that in the eyes of children, their father was a superhero. Little Aihua was the same too. She believed that her father would save her, so she calmed down a lot.

On the other side, Little Aijun and Little White hugged each other in fright. They looked at the room full of men in black with wide puppy eyes.

“Elder Ying, why did we kidnap this little kid?” One of the men in black was puzzled.

“The government of Planet Muyang attacked us twice already. The second time, they destroyed our base so I must take revenge. At first, I wanted to kill everyone in that town but I realize that there are many secrets there. Hence, I will kidnap this child to warn them,” Elder Ying said in frustration.

“What happened to the other team?” There were two teams from unknown factions that came to Planet Muyang. One of the team was led by the person-in-charge. They were situated at their base. The other team stayed hidden. They wouldn’t come out unless there was a need to.

“I can feel that there is someone as powerful as me in that small town. When I was kidnapping the child, I almost got caught by him.” Elder Ying shuddered when he thought about what had happened. If the explosion didn’t occur, the other person might have found his position and he might not be able to come back alive.

No one knew what the outcome of a battle between domain realms masters would be.

“It looks like there is someone important in that small town. If not, the Federation won’t send a domain realm master to this small place.” One of the men in black voiced out his thoughts.

“No wonder something happened to our men. The government on planet Muyang might have felt that our actions had threatened the person they were supposed to protect so they sent their men to clear our base.” At first, they couldn’t understand why the government of Planet Muyang wanted to target them. Now, they found the reason. The men in black were all frustrated when they thought about it more. ‘Was this considered an unexpected calamity?’

“No matter what the reason is, we need to find out who is the person they wanted to protect. We’ve never suffered such humiliation before.” Elder Ying clenched the handle of his chair so tightly that the handle burst apart. “I must kill him and take my revenge.”

“Yes, Elder Ying.” The men in black stood up and started moving

“As for you, stay here obediently and don’t anger me.” Elder Ying looked at Little Aijun furiously.

Little Aijun nodded fervently. Even if he didn’t, the tentacles on his head would force him to move his head too. Little White knew that this person in front of it was dangerous. If it was alone, it would attempt to wound the man. However, it had a little burden with it. Forget it, it should be obedient. It didn’t want to die from being squashed by its master.

Elder Ying was satisfied with Little Aijun’s reaction. Of course, he didn’t believe that a five years old child could escape under his sight. Thus, he didn’t care much about him which allowed Little Aijun to move around freely in the secret room.

Well, Little Aijun was harmless but Little White was a huge monster in disguise. Is it fine to let him run around freely like this?

“Boss, Liu Zhongguo is on Planet Muyang.” Little Four had been watching over the actions of the government so he got this information when they got it. “The government had already sent people to get him over to them.”

Ling Lan smiled slightly. “That is fast...”

“Have you found Liu Aijun?” Since the government’s target was Liu Furong, they wouldn’t do anything to Little Aihua and Wang Qi. Ling Lan could stop worrying about them for the moment. She moved her attention to Little Aijun. Although he had Little White along with him, the earth element domain realm master still made Ling Lan worry.

Chapter 947 Long Time No See!

“It’s within this area. However, I’m still searching for the exact location.” Little Four was a little disheartened. There was no surveillance camera in the area where Liu Aijun and Little White were at, so he could only rely on the satellite to find out where they were.

“There is no need to be in a rush. Take it slow.” Ling Lan sighed softly. She could only rely on Little Four now, unless if the earth element domain realm master appeared again.

Liu Furong sat in the shuttle and entered Planet Muyang’s port. When he walked out of the shuttle, he saw fully armed soldiers from the government at the platform.

Liu Furong’s heart dropped when he saw this. ‘Did they found me?’ This was his first thought. However, he didn’t get agitated. He just continued to walk calmly towards the platform.

Liu Furong knew that if he was really exposed, there was no way of him escaping. In that case, it was better for him to face the problem calmly and look for an opportunity to escape.

Another reason why he moved forward was because he wanted to know if the people important to him were safe or not.

The person-in-charge of this mission listened to his man reporting to him and his eyes lit up. He walked towards the man in a beard and smiled. “Liu Zhongguo?”

“Yes,” Liu Furong replied calmly. The situation was not too bad. He was still Liu Zhongguo to the other party.

“Our prime minister will like to meet you.” The person-in-charge revealed their motive.

Liu Furong pretended to be puzzled. “I’m sorry, I’m just an explorer. I don’t know your prime minister.” Liu Furong didn’t want to take a risk without knowing what the situation was.

The person-in-charge was prepared for the rejection so he passed Liu Furong a photo. He smiled and said, “Do you recognize these two people?”

Wang Qi and Liu Aihua were looking at the camera fearfully. Liu Furong took the photo and frowned slightly. “I’m sorry, I don’t know who they are.”

He passed the photo back to the soldier. However, beneath his sleeve, his fist was clenched tightly.

Even if he hadn’t seen these two people for almost six years, he still knew who they were in a single glance. One of them should be Wang Qi while the other was his daughter, Liu Aihua.

“Tsk tsk tsk. Mr. Liu, you are such a forgetful person. After five years, you can’t even recognize your own child.” The person-in-charge shook his head and said regretfully.

Liu Furong immediately snatched the photo over and took a look at it again. “My daughter?”

He appeared enlightened. Then, he grabbed the person's collar and said angrily, "If you harmed my daughter in any way, I will never let you go."

Liu Furong acted perfectly as a rash man who had just realized that something had happened to his daughter.

"Mr. Liu, you misunderstood us." The person-in-charge replied calmly, "Your daughter was reported missing so we are looking for her now. Just now, we noticed that you have entered Planet Muyang through our system so we wanted to ask for your cooperation in this matter. We guessed that your daughter is kidnapped and it might have something to do with your enemy."

The ambiguous sentence made Liu Furong narrowed his eyes.

"Fine. I'll leave with you." Liu Furong answered decisively. For the sake of his daughter and his benefactor's son, he must walk into the tiger's den.

Liu Furong entered the prepared hover car. The car moved at high speed towards the central government building of Planet Muyang.

At this moment, Ling Lan was in a hover taxi along with Aunt Liu and Wang Baozhuang. They reached the central government building of Planet Muyang too.

The government of planet Muyang didn't notice their actions. Little Four had altered all the footage on the surveillance cameras along the way. Those people that were following the Liu family and the Wang family had been lured to the mecha maintenance shop. They didn't know that Ling Lan and the other two people had left the small town secretly.

"The government of Planet Muyang? Jiang Hui, why did you bring us here?" Wang Baozhuang asked in surprised.

"If we have a problem, shouldn't we look for the government?" Ling Lan gave an ambiguous smile.

Aunt Liu nodded furiously when she heard this. She was caught off her guard just now so she forgot to call the police when she had realized that Aijun and Aihua were kidnapped. She should have done it long ago.

Wang Baozhuang gave a forced smile when he heard this. 'Can I tell them that they are entering their enemy's lair?' When Wang Qi and Liu Aihua were kidnapped, the first person he suspected was his powerful enemy. The government on planet Muyang was already taken over by his enemy.

Ling Lan sighed. The only people who didn't know the truth was Aunt Liu and her two children. When she looked at Aunt Liu's clear gaze, Ling Lan felt her hands itching. If Liu Furong appeared before her, she would definitely beat him until he was half dead.

'How can he bear to lie to such a pure-hearted lady?'

"Boss, Leader Liu is here." Little Four detected Ling Lan's emotions so he quickly reported this news to her.

Well, he wouldn't admit that he wanted to see his Boss beating Leader Liu up. No, he didn't.

Ling Lan smiled as she thought. 'It looks like even God can't bear to see this heinous act.'

Ling Lan turned around and said to Aunt Liu and Wang Baozhuang, "Let's go in." A good show was about to start

After she finished speaking, she led the way and walked up the steps leading to the central government building. Aunt Liu followed her without any hesitation.

Wang Baozhuang looked at the huge building in front of him. He stomped his feet frustratingly and followed behind them.

For the sake of Wang Qi, he was willing to take any risk.

After entering the main hall of the building, Ling Lan chose the lift furthest away from the entrance. Ling Lan appeared so confident and natural that the workers on duty only took a glance at her before letting her off.

Aunt Liu came from a small town but she extremely worried about her children. Ling Lan's reminder just now made her think that they were really here to ask the government for help so she walked in without any signs of fear too.

As for Wang Baozhuang, the moment he entered the main hall, all his anxiety and worries just disappeared. He turned back to the old logistician from the 9th Wings Regiment who was able to keep calm in the face of all dangers and never made any mistakes in the last ten years of his career.

None of the three people attracted the suspicion of the workers on duty. They walked smoothly to the lift.

However, this lift couldn't be taken by a normal person. The moment Ling Lan stepped in, the person who was supposed to guard this area frowned. He wanted to step forward and question Ling Lan but before he could reach her, the detector of the lift scanned Ling Lan and the lift door opened automatically.

The person on duty quickly stopped in his tracks and gave a forced smile. 'It must be another descendant of an elite family with a special pass.' He thought. He shook his head and return to his original position. He didn't dare to offend such powerful people, as nothing good would come out of it.

And thus, Ling Lan smoothly entered the lift with them. The buttons only showed the levels above them. However, this couldn't stop the all mighty Little Four.

Ling Lan scanned the detector in the lift and the number '1' on the lift screen turned into 'o'.

"Where did Liu Furong go?" Ling Lan asked.

Liu Furong was a step faster than them. He had already entered the building.

"Basement level five." Little Four didn't need Ling Lan to tell him what to do. He directly send Ling Lan to the basement level five.

When the number '-1', '-2' appeared on the screen, Wang Baozhuang's expression was suddenly filled with fear. He looked at Ling Lan with fear and vigilance.

The lift door opened and Ling Lan walked out. Aunt Liu wanted to follow her but Wang Baozhuang suddenly grabbed her and pressed the button to close the lift door.

However, the lift had no reaction. Wang Baozhuang looked at Ling Lan with a pale face. "Who are you?"

Only a person familiar with this place was able to use these pieces of equipment so smoothly. Ling Lan's actions caused Wang Baozhuang to suspect that she was on the same side as his enemy.

"I'm just a passer-by." Ling Lan replied calmly, "I have nothing to do with your enemy. I just happen to be a hacker too."

Ling Lan explained how she was able to do all these things. Wang Baozhuang was still suspicious of her but he knew that he was unable to leave this place without her. Hence, he had no choice but to walk out of the lift. Only Aunt Liu was confused. She didn't know why Wang Baozhuang was so agitated.

Liu Furong was brought into a secret room by the person-in-charge. The second he entered the room, he saw the prime minister drinking tea with the man called Mr. Yi.

When Mr. Yi saw Liu Furong, he smiled and guided Liu Furong to his seat.

Liu Furong's narrowed his eyes when he saw Mr. Yi. He didn't expect to see this person in this place. However, the appearance of this person destroyed all his hope. The safe place they took so much effort to create was really exposed.

Liu Furong stopped pretending. Just like how he was familiar with this person, this person understood him well too. He could fool other people but he wasn't able to fool this man.

"Long time no see." Mr. Yi saw Liu Furong sitting down and he got up to pour a cup of tea for him. He greeted Liu Furong as though they were old friends.

"Long time no see." Liu Furong raised his cup and jeered, "You are still the same, pretending to be cultured."

"Well, better than you who likes to hide like a coward," Mr. Yi wasn't affected.

"I want to know how you managed to find this place?" Liu Furong went directly to the main topic. "Even ace hackers can't be perfect in deleting all traces of evidence. If something was done, there would be clues left behind. It was hard for our ace hackers to trace the clues back but they managed to do it after a long time." Mr. Yi explained how they were able to discover Planet Muyang.

"When we found Luo Yi, we found Wang Qi too. However, I didn't know that you will use another identity to protect them. You even married a local who had never seen the world and had children with her." Mr. Yi sighed. "Last time, all the Seven Stars of the North were arrogant and proud. Many exceptional female soldiers wanted to marry you but none of you cared about them. If they knew that they lost to a person from a primitive planet, they might vomit blood in anger."

"Oh wait, I forgot that no one wanted to marry Leader Liu. No wonder, you married a naive idiot from Planet Muyang." Mr. Yi made exaggerated expressions as he said this. He hated the Seven Stars of the North with a passion. In the past, he was always hidden under the shadows of the Seven Stars of the North

“I didn’t expect you to betray your regiment commander and your comrades so that you can achieve a higher status.” Liu Furong’s expression turned cold. “For the sake of your personal gain, you rather become a dog.”

The Magic Ace Mecha Clan was a mecha clan that had 50 mecha teams. Liu Furong was the leader of team 19. Yi Hao was the leader of team 47. Yi Hao entered the Magic Ace Mecha Clan a few years after Liu Furong. However, his exceptional mecha piloting skills and his outstanding commanding ability allowed the regiment commander to make an exception and promote him to become a team leader. He was the youngest among all the team leaders. All the other team leaders treated him as their younger brother. None of them expected their most trusted younger brother to harm them and cause the annihilation of their entire mecha clan.

“Haha, Regiment Commander Wang was clearly aware of the situation. Since we were in the 3rd Division, we needed to follow the command of the 3rd Division.” Yi Hao gave a cold smile. “Anyone who didn’t listen to command would be killed mercilessly. Regiment Commander Wang knew this perfectly. That’s why he passed the item to you and sacrificed the entire mecha clan in order to send you out alive. I don’t want to become an idiot like the rest of the people who died. Why can you remain alive while I have to die trying to save you?” Yi Hao shouted in agitation.

He chose to betray his mecha clan because he couldn’t understand why their regiment commander placed all their hopes on Liu Furong. Why didn’t he consider him? Wasn’t he supposed to be the regiment commander’s favourite junior? It was all fake! Their regiment commander only trusted Liu Furong who was from the same batch as him. He never believed in him. He was nothing to him.

“Since he chose you, I want him to know that his choice was a mistake. It’s all wrong!” Yi Hao lost control of his emotions. The prime minister looked at Yi Hao in shock. He never knew that this powerful Mr. Yi was from the Magic Ace Mecha Clan just like Liu Furong. It looked like the people from the Magic Ace Mecha Clan were not all killed like what the military had reported.

“Stop lying to yourself. You are just afraid of death and afraid that everything you’ve achieved would be gone. No, these things wouldn’t satisfy you. You just wanted a higher position and greater power. That’s why you betrayed us. If it wasn’t for you, none of the people from the Magic Ace Mecha Clan had to die.” Liu Furong couldn’t forget how they got surrounded when they got back that year. Their enemy was stronger than them in terms of numbers. Their weapons were all highly advanced. Only the top-tier titled ace mecha clans in the Federation could have such weapons.

How was a small independent planet able to have such weapons and facilities? At that time, they knew that there was a traitor among them.

“You can’t blame me for this. The regiment commander wanted to swallow everything. I was unwilling to accept this. We all risk our lives to get that item so we all should get a part of it,” Yi Hao refuted.

Liu Furong was in agony. That year, their regiment commander passed that item to him as a safeguard. If their mecha clan was united, they would all be able to return home safely. Once their regiment commander passed that item to the military, the Magic Ace Mecha Clan would gain merits as a whole. Yi Hao would get his share too. From the start, the regiment commander didn’t have any intention of taking all the merits. However, but by showing his favour over for one over the other, he sparked

jealousy and spite in the clan. Thus, Yi Hao felt that their regiment commander was being unfair to everyone

“We were wrong. You are indeed skillful in mecha piloting and commanding but you don’t have a righteous heart.” Liu Furong felt regretful. That year, he had vouched for Yi Hao to become a team leader. If Yi Hao didn’t become a team leader, his comrades might be still alive now. The Magic Ace Mecha Clan might have become the best mecha clan in the 3rd Division just like what their regiment commander used to say

Chapter 948 Uninvited Guest!

Yi Hao sneered at Liu Furong’s words. To him, he betrayed his mecha clan because Liu Furong and their regiment commander didn’t trust him. They were the ones who forced him to find another family to be under.

“Enough of the bullshit. Liu Furong, is that item with you?” Yi Hao revealed his true motive.

Liu Furong replied calmly, “I’ve given away that item a long time ago.”

“It looks like you will not give up until you face the grim reality.” Yi Hao would never believe what he said. He narrowed his eyes and looked at the prime minister.

The prime minister raised his hands and clapped them lightly. Suddenly, the wall beside them cracked open and revealed Wang Qi and Liu Aihua being a room with two guns pointing at their temples.

Wang Qi saw a familiar uncle with a huge beard in front of him. He quickly searched through his memory to find who was the uncle in front of him. After some effort, he finally remembered that this familiar uncle came to his grandfather’s shop five years ago, and his grandfather told to call him Uncle

Liu.

Wang Qi felt as though he found his life savior. He shouted excitedly, “Uncle Liu, I’m Wang Qi from The Wang Shop. Please save us!”

Liu Aihua saw the familiar face and couldn’t hold back her tears anymore. She tried her best to stop herself from crying in fright just now, but now her tears just continued to rain down from her eyes. Her mother would always take out the only photo of their father out and tell her brother and her that the person in the photo was their father. The person in front of her was clearly her powerful father who loved them dearly.

“I came here so that I can save you two,” Liu Furong said firmly to comfort Wang Qi. He turned his head and looked at the little girl that was crying silently with great emotion in his eyes. Although this little girl was different from the five-year-old little girl in his memory, Liu Furong knew immediately that this little girl was his daughter whom he had missed dearly for the past five years.

“Father!” Liu Aihua shouted weakly. Liu Furong’s heart ached when he heard his daughter calling out for his help. He really failed as a father. Most importantly, he implicated his daughter and caused her to be in danger.

“Liu Furong, where is the thing? If you tell me, I’ll let Wang Qi and your daughter go,” Yi Hao pointed at Liu Aihua and said.

Wang Qi finally regained his senses. This familiar uncle was actually Little Aihua's father.

Liu Furong looked at Wang Qi and Liu Aihua without replying to Yi Hao. Yi Hao smiled. He was confident that with Wang Qi and his daughter in his hands, Liu Furong would listen to him.

Liu Furong remained silent for a moment before saying, "I can tell you..."

Yi Hao's smile got deeper. As expected, for the sake of Wang Qi and Liu Furong, Liu Furong would bow down to him.

"In your dreams!" Liu Furong's tone of voice suddenly changed. He waved his hands and two silver rays shot past Yi Hao's eyes.

Yi Hao's expression changed. Liu Furong's actions had caught him off his guard so he didn't have the time to stop him.

"Ah!" The two people pointing their guns at Wang Qi and Liu Aihua screamed in pain. They leaned back and fell on their backs. There was a tranquilizer syringe in their foreheads. Everyone from 250 Ace Mecha Clan had more than 10 of these tranquilizer syringes on them at every time. Whether they were on holiday or they were in the army, they always carried an ample amount of these tranquilizer syringes.

To ensure the safety of their comrades, Ling Lan and the logisticians tried their best to ensure that everyone had enough tranquilizer syringes.

Liu Furong slammed the table and used the force gained from it to jump up into the air. Then, he shot multiple syringes at the prime minister and Yi Hao.

Yi Hao's force of presence exploded out, creating a counterforce that stopped the miniature syringes from coming anywhere near him. As for the prime minister, he just retreated back swiftly and dodged all the syringes that were shot at him.

Liu Furong didn't place much hope that the syringes would hit these two people. He just wanted to use the syringes to restrict their movements, so that he could save Wang Qi and his daughter.

Liu Furong came beside Wang Qi and Liu Aihua instantly. He used his hand like a knife and cut the ropes that were wrapped around them.

Yi Hao scoffed when he saw this. He clapped his hands and numerous men dropped down from the top of the room, surrounding the three people in the middle of them.

"Since you came to my place, you will never leave." Yi Hao was delighted. When he suspected that Liu Zhongguo was Liu Furong, he set up this trap in advance.

Liu Furong pushed Wang Qi and Liu Aihua behind him. He scanned his surroundings and wondered if he was able to defeat all of his opponents with his syringes.

Just as the atmosphere was about to reach its breaking point, the door of the room was suddenly busted open and two people staggered into the room.

Liu Furong's heart scrunched up when he saw the two people. With Liu Aihua and Wang Qi around him, he was already at his limits. Plus, he didn't even know if he would succeed in saving them. If these two people were caught too, he would really have no way out.

Yi Hao got a shock when someone suddenly entered the room without his consent. However, when he saw Aunt Liu and Wang Baozhuang, his astonishment turned into delight.

"Liu Furong, it looks like even God doesn't want you to have a good time. He gave me two more hostages." Yi Hao laughed loudly. "Prime minister Lu, thank you."

The prime minister was stunned when he saw the two people too. When he heard what Yi Hao said, he hurriedly replied, "I didn't ask my men to send them here."

Yi Hao's laughter was suddenly held back in his throat. 'If it isn't him, who brought these two people to the secret room that only we know? Did someone betray us? Or did the unknown faction do something?'

Yi Hao and the prime minister exchanged glances with each other. Then, they quickly took out their handgun at the same time and aimed it at the entrance.

"Who are you? Come out!" Yi Hao shouted furiously. He was at the edge of achieving his lifelong dream but the appearance of an unknown third party made everything ambiguous. Yi Hao felt frustrated that his plan was wrecked by someone.

Footsteps were heard from outside the door. The clear sound of boots stepping on the hard floor entered the secret room. Everyone's heart was at their throats. They were all waiting for the appearance of this person so that they could decide if the person was a friend or foe.

Wang Baozhuang and Aunt Liu were frightened when they got suddenly pushed into the room. Even Aunt Liu, who always trusted Jiang Hui, didn't know if he was a good person or a bad person anymore.

A young man in a black windbreaker and with a golden mask covering the top half of his face walked into the room calmly. He had a gentle smile on his face and his hands were inside the pockets of his windbreaker. It was as if he was taking a stroll in his garden.

The people from Yi Hao's side quickly aimed their beam guns at him.

"There are quite a few people." The young man didn't seem to notice the beam guns pointing at him. He simply walked passed Wang Baozhuang and Aunt Liu and came to the table where Yi Hao and Liu Furong were drinking tea just now. After that, he scanned the chair with his eyes and sat down naturally with a satisfied look.

Chapter 949 Too Late!

The young man raised his gloved hands. Bandages could be seen in the gap between his sleeve and his gloves. Then, he took an unused teacup and started pouring some tea for himself.

"What a thoughtful host. You know that your guest will be thirsty after walking for such a long distance so you prepared some tea." Ling Lan raised her cup at Yi Hao.

Yi Hao was astounded. This person knew that he was the one in charge of this place. He had good eyesight. Normally, people would think that the prime minister was the person-in-charge.

“Aunt Liu, Grandpa Wang, since the host is so thoughtful, come over and have a cup of tea.” Ling Lan smiled as she spoke to Aunt Liu and Wang Baozhuang

Aunt Liu saw Liu Furong and Liu Aihua, who was behind Ling Lan. Her attention was all on them so the fear she had at the start had disappeared. She looked at Liu Furong curiously. When Jiang Hui called her, she walked over without thinking and sat down beside him.

Wang Baozhuang saw Liu Furong and Wang Qi too. He relaxed a little when he saw Liu Furong. He heard Jiang Hui calling them too. Aunt Liu walked over so Wang Baozhuang followed behind her hurriedly. He was suspicious of Jiang Hui so he couldn't let Aunt Liu be at risk.

Liu Furong was puzzled when he saw Ling Lan. At first, he thought that it was Li Lanfeng due to the gentle aura around the person. However, after looking at the person clearly, he dismissed this thought.

The lips and chin that could be seen outside the mask didn't look like Li Lanfeng's. Plus, Li Lanfeng appeared gentle and kind but it was all faked. Someone as powerful as Liu Furong was able to detect the viciousness Li Lanfeng was hiding deep inside him. On the contrary, the gentle aura from the person in front of him was natural. It was enough for people to put down their guard and want to get closer to him.

Liu Furong knew he had never met someone with this aura. However, he still felt a sense of familiarity with the person in front of him, but after thinking hard about it for some time, he still couldn't figure it out.

Yi Hao was furious when he saw this uninvited guest treating his place as though it was his house. He even started drinking his tea shamelessly. Such actions meant that this person looked down on him.

“Who are you?” Yi Hao forced himself to calm down as he said coldly.

“Huh? A passer-by.” Ling Lan glanced at Yi Hao indifferently. “If you hadn't catch Wang Qi and Liu Aihua, I might be on the spacecraft that is leaving this planet right now. Unfortunately, you did all this and as a guest of the Liu family, I couldn't bear to leave.”

Ling Lan stared at the teacup in her hand. She followed the rim of the cup slowly with her finger and smiled. “Additionally, you have to pay for my wasted ticket.”

Yi Hao narrowed his eyes. He turned around and looked at Prime Minister Lu. Prime Minister Lu nodded. This person was indeed living with the Liu family for the past few days.

‘What kind of luck does Liu Furong have? A random guest that stayed at his house is a powerful person.’ Yi Hao was unhappy. He knew that this young man was not a simple person. He was able to enter their room with two people beside him without their knowledge. “Mister, this is an old affair between us and the Liu family. It has nothing to do with you. If you leave now, we'll forgive you for what you just did. We can even send you on a shuttle so you can leave this planet immediately.” Yi Hao wanted to kill this person but he was currently in a mission. All his targets were here so he didn't want to ruin his mission just because of a dumb decision.

Ling Lan glanced at Yi Hao and said slowly, "It's too late."

Yi Hao understood what this young man was saying. He was going to interfere in their affair no matter what. He sneered. "In that case, don't blame us for being merciless."

He pointed at Ling Lan immediately and all his men pulled the trigger.

Everyone shot at Ling Lan. Yi Hao wasn't killing the other people in the room because the item he wanted was still in their hands.

Aunt Liu screamed in fright. Wang Baozhuang was flabbergasted. At this moment, four crystal-clear ice walls appeared around the table Ling Lan was sitting at, blocking all the beams that were coming towards

her.

A round of firing ended. The ice wall started melting from the beams. The water dripped down and in the end, the walls turned into puddles of water.

Liu Furong narrowed his eyes when he saw the ice walls. There was fear and happiness in his eyes when he looked at Ling Lan again. His face turned red in shame. If he had a choice, he wanted to dig a hole and bury himself in it. He had no regrets towards Wang Qi but he felt ashamed of himself for lying to his wife and children. Yet, his regiment commander knew about this. He felt embarrassed.

The appearance of the ice wall enlightened Liu Furong. He finally knew who the person in front of him was. Besides their regiment commander, who else was able to become an ice element domain realm master at such a young age?

He didn't expect his regiment commander to be so gentle after he restrained his cold aura. Even he was fooled by him.

What? Regiment Commander Ling was supposed to be gentle? His cold aura was his disguise? Are you having a fever? You need to visit Doctor Li and get some medicine.

Everyone in 250 Ace Mecha Clan believed firmly that their regiment commander was an ultimate devil that came from hell. Gentleness was not something that their Boss had. If their Boss decided to stop their training for one day, it was because he was in a good mood. There was no other reason.

Yi Hao's heart dropped when he saw the ice wall. The worse scenario had happened. He did wonder if this young person was a domain realm master since he appeared so confident. However, because of his age, he still had some hope that this wasn't the case. That was why he ordered the attack. If this person was not a domain realm master, he would perish from the attack.

No matter how powerful guns were, they could only kill someone that was below the domain realm. For domain realm masters, guns were useless.

Yi Hao regretted his actions. He had offended a domain realm master. It was troublesome.

Suddenly, he thought about something. He shouted in fear, "The regiment commander of 250 Ace Mecha Clan, Ling Lan!"

He remembered his superior showing him some information about the young and promising soldiers. One of them was about Ling Lan. It stated clearly that he was an ice element domain realm master as well as an imperial operator (But based on the latest news, he was heavily injured and his potential had dropped drastically).

Chapter 950 Explanation?

Ling Lan smiled as she looked at him. She didn't deny it nor admit it. This ambiguous expression made Yi Hao doubtful of his guess. He didn't know if his guess was right.

Just as Yi Hao was contemplating about the identity of Ling Lan, he felt an unprecedented sense of danger. He immediately leaped back. Prime Minister Lu did the same thing. The two of them then attacked the air in front of them simultaneously.

Bang! Due to their attack, the air in front of them exploded. Ice shards flew everywhere and scattered throughout the secret room.

"Ah!" Aunt Liu pointed to the people around her and screamed.

Wang Baozhuang quickly realized that those people who were pointing their guns at Ling Lan had become ice statues. No wonder they didn't continue shooting at them.

"Pretty good reaction time," Ling Lan stood up slowly.

This simple action caused Yi Hao and Prime Minister Lu to take a step back in fear. They prepared their stance to welcome a fight, but Ling Lan still put them under a lot of pressure.

Ling Lan flicked her fingers and the ice statues turned into dust after cracking apart. Yi Hao and Prime Minister Lu were in despair, as they faced the reality that they were going to die today.

Ling Lan turned her head to look at Liu Furong. His face was red. He looked awkward.

"Leader Liu, do I need to greet you personally?" Ling Lan asked calmly.

Liu Furong stood up straight instinctively when he heard this voice. He saluted and said, "Regiment commander."

Aunt Liu covered her mouth in astonishment. She didn't expect the young man who stayed at her house and whom she treated as her nephew to be the regiment commander that her husband admired.

Wang Baozhuang stared blankly at Ling Lan with a gaped mouth. He knew Liu Furong very well. Ever since Wang Junan died, Liu Furong never acknowledged any regiment commander even though he went into so many different mecha clans. But, based on his actions and expression just now, he was genuinely convinced by this young man in front of him.

Little Aihua looked at Ling Lan with stars in her eyes. In order for her invincible father to respect a person, he must be the most powerful person in the world.

Only Wang Qi was confused. His gaze jumped around as he looked at the people around him.

When Yi Hao heard Liu Furong's salutation, he knew his guess was right. He glanced at Prime Minister Lu. Their eyes met and they rushed towards the door simultaneously.

Bang! Bang! Two loud noises were heard. Yi Hao and Prime Minister Lu slammed back down to the ground.

This time however, Ling Lan didn't do anything. She just blocked the entrance with an ice wall silently when she entered the room. The two people trying to escape didn't even notice the transparent wall. By the time they saw it, it was already too late. They were knocked back into the room.

Ling Lan walked to Prime Minister Lu and placed her forefinger on his forehead. Prime Minister Lu started trembling in fear as he gave a look of despair. He thought that Ling Lan was about to kill him.

A cold aura was felt on his forehead. It was a frightening feeling. Prime Minister Lu closed his eyes and waited for his death. However, the ice cold finger suddenly left his forehead. "You should know what to do and what not to do." Ling Lan wasn't planning to kill a prime minister. The military would take notice if a prime minister from a planet suddenly disappeared or died. Ling Lan was able to clear the traces she left behind but she didn't want to cause too much trouble to the people of this planet.

Prime Minister Lu understood that his life was spared. He nodded his head furiously to express that he knew what to do. He didn't know why Ling Lan was bold enough to spare him but he wasn't stupid to ask for the reason why.

"As for you..." Ling Lan looked at Yi Hao who was feeling hopeful. She called, "Leader Liu."

"Yes, regiment commander!" Liu Furong maintained his position of attention. He didn't dare to move a single inch.

"Solve your own problem." Ling Lan didn't want to interfere with Liu Furong's personal affairs.

"Yes, regiment commander!" Liu Furong looked at her gratefully. It was time to end the grudges between him and Yi Hao.

"Is there another room?" Ling Lan asked Prime Minister Lu.

Prime Minister Lu nodded hurriedly. Ling Lan brought Aunt Liu, Wang Baozhuang, Wang Qi, and Liu Aihua to another room. She left this room for Liu Furong and Yi Hao.

After some time, Liu Furong walked out of the room with blood all over his body. A man who had a pale face and was shivering furiously stood outside the entrance.

"Prime Minister Lu?" Liu Furong raised his eyebrows in surprise.

Prime Minister Lu was drenched in sweat. He looked at Liu Furong and opened his mouth. He forced his words out of his throat. "What kind of person is Regiment Commander Ling?"

"Didn't you see it just now?" Liu Furong sneered. "Don't think about resisting against him. He'll let you understand what a living hell is like."

Prime Minister Lu gave a bitter smile. He did try to run away just now when he was waiting for Liu Furong based on Ling Lan's order. However, the moment this thought appeared in his head, his head started hurting tremendously. Something seemed to be swallowing his spiritual power. He finally understood where that sense of danger came from. No wonder Ling Lan wasn't afraid that he would betray them.

Even if Ling Lan didn't explain it to him explicitly, he knew that if he revealed anything about Ling Lan, that thing would swallow his entire mindscape.

How frightening!

Liu Furong followed Prime Minister Lu and came to another secret room. Inside the room, Little Aihua, Wang Qi, Aunt Liu, and Wang Baozhuang were sitting down and having some tea, only Ling Lan had her eyes closed on the side. She seemed to be resting.

When she heard footsteps, she opened her eyes. She looked at Prime Minister Lu knowingly. That intent gaze made Prime Minister Lu lower his head in shame.

Ling Lan shifted her gaze to Liu Furong. She asked calmly, "Have you resolved it?"

"Yes," Liu Furong replied in gratitude. "Thank you, regiment commander." Without him, he wouldn't have the chance to end his grudge with Yi Hao. He might not even be able to save the people he wanted to protect as well as his family.

"Well then, Leader Liu, how are you going to explain this?" Ling Lan looked at Aunt Liu. She just wanted to know how Leader Liu was able to chase Aunt Liu. She would never admit that she wanted to hear some gossips.

Liu Furong's heart pumped faster when he saw Ling Lan's stern face. He had violated the military rule. His regiment commander definitely wouldn't let him off.
