Chapter 69

Arriving at the room, Gerard is struck by Luz, who is curled up on the sofa reading, with a frown and one of her nails in her mouth.

-Is the book very interesting?

.

i a know

"It's on the best part," she tells him with a smile, setting the book aside. She stands up, letting herself be seen only in a satin robe, Gerard unbuttons his shirt and she pulls the ribbon that ties the garment, leaving herself completely naked in front of the man who remains with his mouth open.

"You're tempting me, little girl..." She takes off her shirt and leaves him on the chair. (This novel will be daily updaed at )But I think today was a lot of movement for our little guy.

He kneels in front of Luz and leaves a trail of kisses on her belly, which were intended to be tender, but for Luz it has a more... hot effect. Gerard stands up again and Luz's face is very different, the girl puts her hands on her belt, then on her pants button, the zipper...

And unable to stop her, she is on her knees in front of that bulge that has inadvertently grown inside her boxers.

-Light...

Shhh, now it's my turn.

-No...

But Luz's wet tongue on the glans of his enormous penis shuts him up once and for all.

Timidly, she begins to explore that part of her man that has given her so much satisfaction these days, she begins to lick and suck without fear. Gerard just closes his eyes and throws his head back as she tries to swallow something that barely fits in her mouth.

It's another level for her, her instinct tells her to suck, lick, while her hands gently massage his testicles, Gerard's hip moves marking the rhythm he wants for his first fellatio.

He feels that current go down to that point and tries to pull Luz away before he's done, but she doesn't move and cums in her girl's mouth. Breathing hard as she helps her to her feet, she smiles at Gerard's affected face.

-Are you okay? I ... I didn't want to end up in your mouth, my love... I'm sorry...  
-Ah no, (This novel will be daily updated at ) Gerard, don't come to me with that, I knew very well how I wanted to end this And I loved it, it made me feel... powerful. The way she says it, so proudly, makes him smile, leads her to the bed, finishes removing her clothes, and forces her to open her legs to receive his body.

a

-This time it's my turn and I can only tell you, I won't stop until you beg me to.

He leaves a soft kiss on Luz's belly and then follows his way to her folds. Luz can feel Gerard's warm breath on her clit and she closes her eyes with a gasp as her tongue licks right there.

With his fingers, he spreads the girl's folds a little and begins to lick and suck and drink all the essence of the girl. He drives her crazy with those pampering that she gives to her intimacy, provoking the

most delicious sensations she can feel. The spasms of her body make her writhe on the bed, while Gerard enjoys the way she enjoys her caresses, until a brutal orgasm engulfs her and ends up screaming her name, but she doesn't stop. .

He continues with the torture, until he provokes another orgasm in her and there she begs him to stop, that she can't take it anymore, but it goes on a little longer and leaves her exhausted, lying on the bed panting. He climbs up to get closer to her, covers her with the covers and presses against her body to enjoy her warmth. He kisses her hair and they drift off into peaceful sleep. So the days go by, until the day comes when Gerard must face the first monster.

Dan goes to his office to tell him that everything is ready, one of Alpha's men *will* pick them up in half an hour, in an inconspicuous vehicle, and that they must follow the instructions at the bottom of the office.

lyrics.

-One of the indications is not to carry a telephone. – For me there is no problem, even better – he silences the device and puts it in his desk drawer -, -I will arrive with you alone until the first point, after that there will be a change of car. “I guess I can take this,” he tells her, pointing to the cloth bag where the mask goes. -Yes, it's better, that way there are less chances that he will recognize you, although he assured me that everything will be prepared so that he won't even see your eyes. Gerard nods and they wait together for Dan's secret phone to ring.

-Hey, how did you meet that Alpha? – That one ?-Yes, Alpha... the informer.

-I met her a year ago, by chance, she is the most tremendous woman you can find, a thousand times worse than Luz. – she is a woman!

-Yes, my informant is a woman, a twenty-four-year-old girl, at most.

The conversation ends when a message tells Dan that it's time. (This novel will be daily updtaed at )The two fix their suits and walk out as if to take down one of the most dangerous criminals in court. Although in a certain way it is true, but not precisely in the most legal way.

Chapter 70

After almost an hour of driving, including changing vehicles, Gerard feels the car stop and the door open for him. As soon as they got into the car, outside of Finnick and Abbot, they covered their heads with a cloth sack.

They help him down and warn him to be careful on one step, a few more steps and they take his coat away.

He realizes that the room where they have left him is very similar to a police interrogation room.(This novel will be daily updtaed at ) He looks around the room and finds a woman no older than Luz, but her expression calls him to be cautious.

-Good morning, Mr. Finnick – she says, raising her feet to the table that is in the place – I'm Alpha, you should know about me from Dan Abbot, your partner and friend.

-Nice to meet you miss...

-Alpha, only Alpha – he tells him with careful politeness, something that does not correspond to someone who is dedicated to that -. Please take a seat. There are things we need to fix before you entertain.

Gerard does as she asks, putting down the bag with the mask, and she smiles more. He sits up straight and looks at the man in front of her as if searching for her secrets.

-Well, in the next room we have Rickon Albert Bowman, the son of Henry Tadeus Bowman, one of the mafia bosses and my greatest enemy – he stands up and presses a button, which allows him to see through the huge mirror from a few seconds ago, the boy's figure -. Do you want him dead?

-No.

-Great, it's less work for me, well, for my men. Torture?

-Yes.

-Until where?

– Until he confesses that he drugged a girl a few months ago with the intention of raping her.

-Wow – Alpha frowns and looks at the boy with a disgusted face -, Damn bastard... if it were up to me he'd cut it off. two

-I need him alive, to deliver him to justice.

-But it doesn't bother him to get hold of her a little before that... he's the first lawyer I like, after his friend – he crosses his arms for a few seconds, facing the window and then lets out an applause -. Well, what we came for!

I take the mask out of the bag and she smiles like it's a piece of candy. She leads me through a door and points to the one in front of us.

-Look, he's tied up and can't move. Surely as soon as he enters, he will hear the expletives that the wall did not let us hear. In the same room there is a cabinet with "work utensils", in case he needs any, if he wants to do it with his own hands, I suggest a pair of gloves, so that his DNA does not remain in the bastard.

Gerard puts on his mask, takes off his suit jacket and tie, Alpha welcomes them with a good face and opens the door for him, only recently realizing that it only opens with a fingerprint. As soon as she opens a few

millimeters, Rickon's swearing is heard.

But Gerard has faced that and more for his job, so it doesn't affect him at all. He unbuttons his shirt, two buttons is enough to show what's under the fabric, he rolls up his sleeves as he stands in front of the boy and he tries to spit on him.

-What I was missing, a rich boy behind all this! What?! Did I steal a candy from you? – (This novel will be daily updated at ) he says mockingly, but Gerard doesn't react. Se goes to the closet and takes out some gloves while the boy continues talking -. Uuuyy and he comes with a mask, is there a party and they didn't invite me?

He puts one on and as soon as he finishes, he punches him in the face that makes him jump saliva, blood and a tooth,

Behind the glass, Alpha widens her eyes, bites her lower lip, and squeezes her legs together.

-That man in bed, must be a beast.

In the next room, Rickon looks at Gerard with eyes wide with fear. It's obvious, because he always got away from fights, since he was little he was the protected and pampered of his father. Growing up, he started fights, but his bodyguard ended them, he never received a blow, not even a slap from a woman.

-Scared – is a statement with a voice hoarse with fury –

.-Let me go and we measure ourselves, coward! – The boy tells him desperately, but Gerard laughs in a way

so beside himself, it makes him tremble –

Another punch, this time with the left, lands on Rickon's face and he groans. -What do you want? him-he asks more than scared-.

-I want you to tell me, did you drug a girl a couple of months ago, at the Jackson events center?

-Of course not...! – another punch -. I did not do it! – Another one and that one makes him stagger in the chair, but Gerard prevents him from falling -. I did not do it!

Gerard grabs a knife from the closet, sending a chill down Rickon's back, however, the knife is meant to cut the boy's bonds, forcing him to his feet and standing in front of him in a fighting stance.

– Answer – he says with apparent calm –

“I-I-didn't-drug-anyone” Rickon tries to laugh out loud, but Gerard hits him again and this time he doesn't stop –

He grabs Rickon's shirt and punches him punch after punch. Until the boy staggers and falls to the ground like a punching bag that was cut from his support.

-Talks.

-;No!

Gerard loses consciousness and throws himself at him, more than six feet of pure fury and muscle on that man, it seems not fair, but it was not what he did to Luz... and at least twenty girls plus.

-S-Stop! Please...-she says sobbing-. Yes... I did it, I've done it with several girls... I drug them to later... enjoy them – another blow takes him to the mouth and he coughs up blood -. Carla...Erika... *Megan* ...Light...

- Your co-worker – she says taking him by the clothes – -Yes, all of them... that's why they left the company. I... I made them believe that they had asked me, except for Luz... she escaped from me. Gerard drops it on the floor and gestures to Alpha. -This is what will happen, you will stay with some friends for a couple of weeks. The next time you see the light of day, it will be when you are transferred to a police station and you will tell them the same thing that you told me.

-Are you crazy?

- you let them prosecute you for being a fucking rapist... or I leave you with some friends who do the same as you, except they like men like you.

Before leaving, she kicks him in the stomach causing him to squirm like the worm he is and then stands in front of the door. It opens and Gerard comes out of there, takes off his gloves and Alpha receives them. he hands her a bag containing a new suit and a pair of shoes just like the ones he wears.

-Come with me, I need all your clothes, here we leave nothing to chance.

He ushers him into a room, tells him to put all his belongings in a trash can.(This novel will be daily updated at ) Except for 1st mask, Gerard throws everything in there. He puts on the clothes Alpha has given him and walks out. She hands him the tie and jacket, but frowns when she sees the mask.

-This goes with me, it may not be the first time I have to do this.

-I like you, if you didn't already have such a prominent career, I would leave you as my right hand – she approaches him and places a hand on his arm to squeeze it – Do you have a girlfriend? -Yes, a daughter and a baby on the way.

- My private luck...

-But you could meet my partner, I'm sure you'll love him.

-I doubt it, but thanks for the honesty. See you.

He places the sack on his head and they help him out again, to meet Dan and that truth that is getting closer. When he has all the information he needs, he will be able to put those unfortunates in jail and do true justice for his Little Light... and for the others.

Chapter 71

Dan and Gerard walk into the latter's office, take a seat, and stare into space for a minute. The one who breaks the silence is Dan, since Gerard has not told him anything about what happened with Bowman's son.

-And... um, what happened? -I beat him to a pulp – Gerard replies with an uncharacteristic calmness of him -.

not

He stands up and pours two glasses of cold water, hands one to his friend, and sits back down. He stares at his hands, they don't have a single mark of what he did to the boy, he only had pain left.

– But... is he, you know, alive?

-Yes. I can't kill him, first he has to live through hell here on earth.

-Phew! Dan leans back in his chair and breathes. You scared me, like you said you were going to take revenge...

-Dan, we both know that killing someone is not revenge. Now, let's focus – (This novel will be daily updated at )Gerard takes the control position and with a gloomy look tells his friend -. The unhappy man not only drugged Luz to rape her, there are more victims. Start with the girls who worked at the agency, but don't rule out girls who have shared a party or school with him...

-Perfect, I'll talk to Alpha – Dan stands up, but stops and approaches with curiosity -. Did you see her? Did you meet Alpha in person?

-Yes. Pretty pretty little girl.

-Little girl? – he asks surprised and sits down again- ,

-He must not be more than twenty-two or twenty-three years old, but don't let his appearance deceive you. If he had to kill for what he wants... what's more, I think he already did it a few times.

Dan stares at the desk and smiles sadly, Gerard stands up and looks out the window.

-You're screwed, you fell in love with a voice, a lethal woman who knows exactly what she wants. She even asked me to have something-Gerard laughs and Dan stands up and walks out of the office-. Thanks for this, you've given me a little breathing room until we put that case together.

-A pleasure, brother. I just hope it ends as soon as possible, so you can tell your girl the truth and be happy...-he leaves the office and whispers to himself-. Unless one of the two is happy with the woman he loves.

He goes into his office for a while to order some , then returns to Gerard.

-Ready. I've already spoken to Alpha and she'll be in charge of finding more information on the victims.

-Thank you – he stares at the bag where the mask is and puts it in his briefcase  
-. While it . she hit, she kept thinking that he could have really hurt Luz, that she could have done horrible things to him.

– That's why I keep thinking that the best thing that could happen to Luz is that it was you. I'm not saying it's a fortune that you raped her, but at least you're looking to redeem yourself from her and do her justice.

-I review in my head again and again that night... I could have stopped, I could have realized that she was not the girl I expected, that she did not speak, she was not in her five senses – she puts her head between her hands resting on the desk  
-. But as you say, at the end of all that horror, something good came out.

Dan stands up to pat his friend on the back, he knows he's got it very bad, (This novel will be daily updaed at )despite the breath of life that turned out to be Light.

-Don't worry, we're going to find out everything and you can be happy with your wife... and your son. A frown until a few seconds ago is transformed into an expression of complete surprise behind the slightly open door.

He walks to his office and locks himself in it, unable to believe what he has heard from the lips of men. he pulls out a hidden picture of Gerard and smirks.

-So you raped the starving woman and the bastard waiting is yours – takes a deep breath and smiles again -. I'm going to look for the best moment so that the mustia knows the truth.

"But that's not enough for me... that son is a hindrance, all children are. I couldn't take care of Charlize, but this one I definitely have to liquidate. No more hindrances that separate me from you.

He stands up and walks around the office, Gerard's picture in his hands, caressing it as if it were the real thing.

-This time with patience and definitely not up the stairs. Although most likely when she finds out the truth, she won't want to see Gerard anymore and that's my chance to finish her off. Or she could leave them alive, if she refused to let Gerard see that freak-she walks to the window and looks at the city-a few minutes, until she sighs and returns to her desk, she puts the picture away and laughs like crazy

which is – "Of course not... they die because they die.(This novel will be daily updaed at ) So, while Luz is walking through the garden holding Charlize's hand, laughing and thinking about what they will do for her birthday, Gerard plans the best way and the right time to tell Luz the truth... Darcy plans the way that the girl finds out the truth in the worst possible way, at the moment of greatest happiness and after that, when she is vulnerable, get rid of her and her son.

From now on, everything gets darker and more tense, because everyone is going to fight to be happy, no matter what, even if it means being away from the person they love.

Chapter 72

With the help of Matías, Gerard managed to meet with his future in-laws, although he didn't say anything to Luz so as not to upset her. If everything went well, he could get them to talk, if things didn't work out, they would go on without them, alone they would miss out on the blessing of having at least five grandchildren.

He arrives at their house, despite his nerves, he gets off with the demeanor of a lawyer entering the court. (This novel will be daily updated at )The condemned man looks so handsome that the Méndez's neighbor's mouth drops open as she takes away five roses with pruning shears instead of the weeds.

He knocks on the door and the one who opens it is Luz's mother.

-Mrs. Méndez – he tells her, extending his hand seriously – Gerard Finnick.

Yes, I know him from the press. He doesn't forget who fires one of his best workers for no reason – he steps aside and Gerard enters without fear, because he already has the answer to that situation,

who does not know is the reason for the dismissal -

-Well, I come to that and another matter.

-My son told us, it's about my crazy daughter – Gerard stands up all the hair on his body and puts on his intransigent lawyer's face –

– I'm going to ask you not to refer to Luz like that in front of me, much less if you know the facts – Victoria gulps, because Gerard's face scares her, it's as if he could kill at any moment -. Mr. Mendez?

-Here – he says leaving the kitchen and invites him to sit in the living room –

-Mr . Méndez , it is a pleasure to see you again.

-I would like to say the same – Gerard takes an envelope out of his bag and hands it to him – *And this?*

-It is the payment of what actually corresponded to him for his dismissal. I reviewed her case as soon as Luz told me what they did to her.

-I don't want charity – he says, returning the envelope –

– *And* or I don't give charity, I give justice. When you left my sight, I was told that you had resigned for a better paid job – Miguel can't help but laugh sarcastically  
-. But then d

Luz told me when I met her that you were fired, I sent her to investigate your case.

I case.

“He was fired for no apparent reason. What I didn't know was why.

-Because I heard something I shouldn't have while I was doing my job – he tells her, leaving the envelope that Gerard doesn't receive on the coffee table –

-That's what I don't know, because apparently nobody has any idea about anything. I want you to tell me.

-Not worth it...

-For me, yes, because his dismissal was unfair and I don't treat my people like that, less if I know that he is a loyal,(This novel will be daily updtaed at ) responsible and efficient person, like you.

Miguel sighs and looks at his wife, who nods categorically. So the man sets out to tell Gerard what he knows. -Her cousin fired me because she found out that I overheard a conversation she shouldn't have, with Mr.

Abbot – Gerard is surprised, but does not interrupt him -. Apparently no one should know that they had a sneaky relationship a few years ago.

-How?! – Miguel backs down with Gerard's reaction -. That can't be, I would know, didn't he hear wrong?

-You know not. I was crouched down working on the photocopier, I needed its monthly maintenance. They went in there, they didn't realize I was working, but I didn't say anything, I assumed they were looking for something. “Mr. Abbot was claiming him, insisting that he tell him how he could sleep at night, after having killed his son... apparently she miscarried, or so I understood. For Gerard this is a bucket of cold water, but it's not something I can get my hands on right now. There's another priority.

-Then with more reason you deserve that compensation, you were doing your job, in any case they are the ones who should receive a reprimand for dealing with personal matters in the office.

-I already left that as it is, it was more than a year and a half ago.

-But accept that check. Look, I checked your salary and what Darcy authorized for payment... yes, you were paid as if you had resigned, but there is much more to be done.

:-Thank you, I will accept it only because I see that you are doing it with a sincere gesture and because I know that you do not

Or is it double intentions?

-Okay, that point cleared up... – he takes another envelope out of his sack, a smaller one with decorations on it – I bring you this.

He hands it to Victoria and she looks at it with a frown. From inside he takes out a white card, with beautiful golden letters and his mouth is open when he reads it, Miguel grabs his head with both hands, not understanding anything. – Com-commitment? Does my daughter marry you? the woman says with a whirlwind of emotions at the corner of her eyes.

-Look, you don't have to marry her, she's not worthy...

-Stop there. Do you know the woman you raised? she asks them with real annoyance.

– Well, not for a few months – he says in the same way -. He got pregnant and was not able to say who his father was.

-Well, for all intents and purposes, I am the father of Luz's child -they both remain speechless-, Since I found out about her pregnancy, I decided to support her with whatever she needed and that's how it has been, but since she agreed to be my girlfriend, not without making it clear to me that she was very little to me, that baby automatically became my son.

-I can't believe it... that little girl doesn't deserve a man like you – says Victoria throwing the envelope on the table –

-On the contrary, it's me who doesn't deserve a woman like her. Her daughter, as soon as she met my Charlize, (This novel will be daily updated at ) took care of her, loved her, defended her even from her father's indifference. And if you knew the circumstances in which Luz got pregnant *with her or him*, you would probably ask me to take you with her to beg her forgiveness on her knees.

-Hahaha, please... – Victoria tries to say, but Gerard stands up, because he can't bear to keep talking to them -.

-Your daughter was raped – Gerard walks to the door, so he doesn't see the totally distraught face of those dumb parents -. An unknown man took advantage of the fact that another drugged her, she fell silent out of shame. The only

people programmed to love and comfort her turned their backs on her as soon as things got bad.

“Instead a complete stranger, from the beginning supported her. I want them to know and be clear – he turns and looks at them before leaving the house -, if they want to see my Lucecita again, they are going to have to apologize to her in a way that doesn't blame her for anything, not even for his silence, because they have already caused him too much damage, to add more guilt to his soul. Excuse me, I must go see my wife and daughter.

He walks to the car annoyed, because he can't understand why they behave like this with their own daughter. He also has a girl, who will one day be a woman and he would never make her go through that humiliation, much less he would refer to her in the way that her future in-laws make them her Little Light.

He leaves there with thousands of demons and suddenly the high-speed alert sounds, he stops for a moment, only to hit the steering wheel many times, enough to get rid of the pain in his heart, for having been the one who caused all that to Luz.

-But *it* won't be long, my Little Light, I swear I'm going to lock them all up, and when that happens... and when that finally happens, I'll follow them.
