\*DAMIEN POV\*\*

"Impossible, that lady cannot be my mate." I thought.

Moon goddess why?!

"She is our mate, now go to her." My wolf, Cayden, shouted at me angrily.

He must be pissed off because I ignored our – his mate.

As I was walking towards the guest room, I bumped into a lady.

"Oops, sorry," I said and she looked up to me.

"It is okay." She said smiling.

"Hi, I am Nicole." She introduced herself bringing her hands forward.

I shook her hands.

"Alpha Damien of Silver moon Pack," I said with pride.

"Oh, Woah, I see, see you around then." She said before running off.

My wolf repels her like two like poles. We are still fighting a battle in my head. I sighed.

\*\*NICOLE POV\*\*

Oh my goodness, he is so handsome

His cologne..... Gosh so enticing.

His voice... So s\*\*y and manly. Awwwwnnn.

His hands... So perfectly calloused and cold.

"We have a mate," Lora said in my head but I ignored her.

Entering into my brother's room,

"Hi, brother," I called out as I walked into the inner room.

"You are awake already," I asked Eunice.

"Yes." She said and smiled a bit.

"Look, Eunice, I am sorry, I did not trust you despite being friends for several years I left you when you needed me most, I am sorry." I apologized to her.

"I forgave you." She said with a little smile.

"How are you feeling?" I asked her.

"Good." She said.

"Okay," I said.

My brother came out of the bathroom dripping wet with a towel around his waist.

I heard Eunice gulped hard, I wanted to laugh at her but then I remember the reason I was here.

"I think it is high time you met the visitors," I said.

"I know." He replied gruffly.

"The Luna ceremony is in four days, so chill." He continued.

"I know," I replied rolling my eyes.

**\*\*CIARA POV\*\***

**\*\*The next morning....\*\***

I woke up very early in the morning – my usual schedule. I went to the packhouse and cooked all sorts of delicacies for breakfast.

I could this past few days the guest had arrived, they have fallen in love with my food. And also I felt more at peace with myself.

No bullying.

The guests already started arriving in the big dining hall. I set the tables and started placing the food immediately.

After they settled down, I placed each plate in front of everyone.

“Why is there an omega radiating off the power of a beta in your pack, Alpha Xander?” A lady I supposed is a Luna asked but got no reply.

I did not even know that Alpha Xander already came into the hall and was sitting with Eunice. I placed a plate in front of Alpha Xander and Eunice.

The next and last person was no other than my mate. I got nervous, so as I placed the plate on the table, our hands brushed each other sending sparks down my body, I jumped back.

I left to serve other people food before exiting the place. I felt people’s eyes on me but I did not bother to look.

**\*\*XANDER POV\*\***

“Good day everyone, I appreciate your honoring the invitation,” I said while greeting them.

“This is my mate, Eunice Perkins,” I said introducing her to them while she smiled at them.

We continued with the introduction and all that, some alphas were angry at the fact that I did not receive them on the day they arrived but I apologized to them.

After everything, we went into our room, I slumped on the bed feeling tired. Then suddenly the voice of the luna came into my head,

“Why is an omega radiating off the power of a beta in your pack?” That question left me dumbfounded. I did not know what to say. In as much as I want to ruin her in front of the guests, the reputation my dad built would be ruined, that is why a lot of packs want to be allied with my pack. Currently, Alpha Damien of Silver moon pack came here for an alliance. Even though we had omegas in the past, my dad made sure that we do not mistreat them in any manner but Ciara’s case is different.

To say I was shocked when I heard it was an understatement, I could feel it too, no matter what her rank does not just drop, her wolf is quite strong I guess, that is why I use my alpha voice on her each time, sometimes her human submits but her wolf, she just keeps saying things that annoy my wolf, which makes him angry and gives the human punishment.

Lucas was so angry with the question but I mind linked him to be calm because he starting to emit his beta energy which might serve as a threat to the other pack leaders there.

She has survived for too long. Like how does she live such a life, I'm not having any pity for her, like she caused my parent's death, who will forgive such a person, I just do not want her dead.

She has been my best friend since we were younger, she even used to be my crush, like you know that kind of love. Despite her wolf being annoying, my wolf still makes sure she gets enough rest. Yes, you thought right, I often secretly order the pack member to lessen her work. When I had pa\*\*ed that judgment, I was mourning my parents then, so it was the first time I would use my Alpha voice, she was the first person I used it on.

"Xander..... Xander". I heard Eunice's voice from afar.

"Xander!!!!!!" She called.

"I have been calling you." She said looking annoyed.

"Hey, I'm sorry," I said.

"What do you want?" I asked her.

"Xander, I want to see Kira." With that, I jolted out of my thought.

#### ADVERTISEMENT

"What?" I asked to be sure of what I heard.

"I said I wanna see Kira." She repeated.

"You will only see her when you have become the Luna and when you are strong enough to move about because where she is, is a place you would not wanna be in for the rest of your life," I said hoping it will scare her a little bit but to my disappointment, it did nothing instead it improved her morale. I could have said I was proud of her as my Luna but the current situation did not let me think at all.

"Okay." She said and pecked me on my cheeks. I pouted, she laughed at my expression and kisses me so tender and soft.

**\*\*DAMIEN POV\*\***

If my wolf were to be a human, I would have been six feet underground. He kept chanting that I should go meet mate but as the alpha of a prestigious pack, I cannot be seen with an omega, but the thing is that I cannot reject her because I

already felt a pull towards her. I do not even know what to do about it but rejection is a no!. It takes me a lot of effort not to mark her.

She was at the dining hall today arranging plates and the food, after setting down, she served us.

“What happened to her body?” I heard someone asked whisperingly.

#### ADVERTISEMENT

I was taken aback by the question that Luna asked, even a luna could feel it, I felt it but ignored it. So she is from the beta bloodline but why an omega ?. I thought.

After she had served the food, I felt someone’s eyes on me so I turned to look in the direction, then I saw a lady... Her name... Erm... Err... What is her name again? .... Yes... Nicole.

She smiled at me which I returned with a little nod, I do not want to be all friendly with her. I looked away and saw my mate leave the dining hall, I sighed and started eating.

**\*\*NICOLE POV\*\***

He kept staring at Ciara, I could not tell what emotions his eyes held. He turned to me and I smiled but he just nodded, I felt bad.

Ciara doesn’t have any charm. So why look at her that way?

I do not even know why I felt bad that he did not look at me the way he did to Ciara.

**\*\*NICOLE POV\*\***

In the afternoon.....

“Hi, Lucas,” I said greeting Beta Lucas in the kitchen.

“Hey, Nicole.” He replied.

“What of Jane?” I asked.

After the incident with Kira, Jane was pained that she was her friend and she did not notice her going through the wrong path, or else she would have corrected

her. She claimed to be her friend yet she did not notice her friend needed help. She cried but Lucas was there to console her. She even begged Xander to bring her out of the dungeon but as you know who Xander is, he refused to say she tried to kill his mate. Well, I do not blame him, what I keep wondering is why Kira wants to kill Eunice. No one dares ask my brother.

"So what business do you have?" I asked him.

"We are having a meeting with the Alpha of Silver moon pack today concerning some alliance." He said.

Wait, is that not Damien's pack.

Finally, I can work my way. He seems not to be attracted me.

"Alpha Damien right?" I asked to be sure.

"Yes." He said before leaving with a gla\*\* of juice in his hands.

This is my chance, an alliance with us.

I stood up and went to meet my brother.

ADVERTISEMENT

Knock! Knock! Knock!

"Come in." I heard his voice say, guess he already caught my scent.

"Hi, brother," I said. He raised his eyes from the paperwork he was doing.

"Hi. Nicole." He replied staring at me intently.

"Killian is telling me something I do not want to believe is the reason you came here." He said.

Lora!!!!!! Urghhhh!!!!

"Yes, it is true," I said.

"What of your mate?" He asked me.

"My mate." I scoffed.

"Xander, I am 20 years and I have not found him, does he even care about me?" I asked.

"A marriage alliance, huh?" He asked.

"Yes," I replied.

"Does your wolf agree to it?" He asked.

No! Lora said. I ignored her.

ADVERTISEMENT

"Anything I do, she is always supportive of it," I said which is true. In the past, I had numerous boyfriends. I am no virgin.

"Okay, I have heard." He said and turned to his paperwork.

"Thank you so much, brother," I said jumping up.

"Okay, goodbye." I said and left.

**\*\*CIARA POV\*\***

Two days later.....

The Luna ceremony.....

For the past two days, I have been so busy preparing for the Luna ceremony. I kept working my @ss off because of a ceremony that will not add any benefit to me.

Guess what?! I found that my mate's name is Damien and he is the Alpha of the Silver Moon pack.

Today is the luna ceremony, I have been given a pretty navy blue dress and a pair of black sandals. After I was done with bathing, I applied the ointment given to me by the doctor, so that my wounds could heal faster and it prevents me from smelling bad.

I wore my dress and my sandals, combed and styled my hair into a ponytail, and left for the packhouse. What am I even going to do there other than serving people?

**\*\*NICOLE POV\*\***

My friends and I already gotten dressed and as for Kira, she is still in the dungeon spilling nonsense.

As I was about to exit the room, my phone rang revealing the least person I expected – Melissa.

ADVERTISEMENT

"Hello." Her voice sounded from the other end.

"Hi, witch," I said.

"Oh, c'mon you cannot play dumb with me." She said.

"Don't you think I should be angry, ever since I came back to the packhouse, you did not give me a call at all," I said.

"Don't blame it all on me." She said.

"Well, I wanted to tell you that I am coming tomorrow, so be expecting me." She said and hung up.

Melissa is a witch I came across when I went for a run on a particular day, she was all injured so I took her to my house and helped her heal. She told me that she was a witch because I sniffed her. I was cautious around her at first but later on, we became close friends. Since then we have been good friends.

\*

\*

\*

My eyes were on Damien since the beginning of the ceremony, but his eyes... His eyes were someone else... Ciara, who was serving the guests. Well, I do not need to worry, my plan has worked out. I am going to be his Luna.

Wow!!!!!!

As for Ciara, I am still thinking of what I should do to her but not now I cannot risk Eunice's luna ceremony for some useless person. Nah, not worth it.

\*\*XANDER POV\*\*

Today is the Luna ceremony, I am so happy. Eunice will finally be my Luna.

"Hey, handsome " I turned to see Eunice in a white gown, not a wedding gown or a ball gown. It was a white gown with flora color.

"Hi, pretty," I said in return.

"Looks like your friends did a great job, They want me to drool over you and get me hard, huh? imma have to get you to give me a h\*\*\*\*\* there." I said winking at her, like what the fvck, she is looking beautiful.

"Alpha, the ceremony is about to start." A male voice said outside the room.

"We are on our way," I said enough for him to hear.

\*

\*

\*

Soon the ceremony started, the guests already arrived,

"Alpha, take this knife." I took it and cut my wrist slightly, with blood dripping from it.

"Do the same to the Luna too." The elder said.

She is a human so it will hurt,

ADVERTISEMENT

"Do it." I heard her voice say. I cut it slightly with care.

Then we put our wrists in a bowl when there was enough blood in the bowl and then it was put into the lamp in the temple of the moon goddess.

Everyone was scared of the lamp going off but finally, it did not.

I brought my wrist closer to her and as my blood touch her wrist, the injury healed. Since I am a werewolf, mine healed quickly too, Leaving a mark on it.

Then I marked her and as the tradition of my ancestors, we had her first run with the pack. They accepted her gracefully. She sat on my wolf back, she was scared that she might fall with the way we were galloping but I made sure I rea\*\*ured her.

After the run, we went to the party. Since we were both tired, we went back to our room.

"Why am I hearing so many voices and feeling different emotions?" She asked and I laughed slightly.

"Have you forgotten that you are the Luna now?" I asked her.

"All you have to do is imagine a mental block then you won't hear or feel anything," I said.

"I want to meet Kira." She blurted out.

I ignored her and went to the toilet.

**\*\*EUNICE POV\*\***

"I want to meet Kira," I said to Xander, he was quiet for some time.

**ADVERTISEMENT**

For the past few days, I have been wondering why Kira wanted to kill me. Moreover, why is that Xander does not want me to meet Kira, he kept procrastinating, giving flimsy excuses. I just could not pinpoint what I did to her. Urghhh! So frustrating.

Xander stood up abruptly and went into the bathroom without answering me, I walked out of the room.

**\*\*DAMIEN POV\*\***

The past two days have been the worst of my life. Cayden keeps telling me to go meet his mate which I would not oblige to.

I found out her name is Ciara Acacia Jones, daughter of the late beta of the pack, now I understand, even a luna could feel it. I feel like something bad is about to happen. I shrugged off the weird feeling.

It takes a lot of self-control not to mark her.

"Have you spoken to her wolf?" I asked.

"No." He replied.

"Why?" I asked. He scoffed.

"Because someone did not accept her on her first meeting." He said.

"Okay," I said.

"What is okay? , nothing is okay." He said angrily. If he was a human, he would have killed me for doing that to his mate. Cayden has been whipped.

**\*\*NICOLE POV\*\***

**ADVERTISEMENT**

I am so heartbroken right now, I cannot believe it. Xander hid such a big secret from me. Now that I start to think about it, I see what he was so eager to do at the luna ceremony. He knew that I would not be able to leave after the Luna ceremony. He knew the reason Kira did it but did not disclose it to me.

.....Flashback.....

I entered the dungeons to see Kira with another guy which I recognize was the creepy guy of that day, lying on the floor with their body swollen and the blood beneath their lips was dry.

"See who we have here, you survived." She choked out a rough laugh.

"Kira, why did you want to kill me?" I asked her, I am not here for some introduction.

"He did not tell you, see how untrustworthy and unfaithful he is." She said

"What? , tell me what?" I asked.

"Xander and I have a past together, he used and dumped me like trash all because of you." She said and started crying.

"I... I... I ... I .. even rejected my mate because of him, i... I gave him my virginity, yet he dumped me." She said and choked out a cry.

Oh my gosh, what the hell did Xander do, how could he be so heartless like?

I left the dungeon angrily.

END OF FLASHBACK.....

**\*\*DAMIEN POV\*\***

"Mate is in trouble," Cayden said moving around in my head and puffing. Gosh! Can't a man get some rest?

Wait, what! Ciara is in trouble, this is the height of it. I stood up instantly.

"Hudson," I called out while wearing a pair of trousers.

"Yes, Alpha." He replied coming in.

"What is happening?" I asked knowing but I just want to ask.

"An omega stole Luna's ring or so is what they said." He said.

Stole? Oh c'mon.

After I was done, I went outside to see my mate lying unconsciously on the floor with people surrounding her. My wolf was clawing at me to rip everyone's head away from their neck.

Easy man!

I cannot act rashly because of the alliance.

Alliance my foot? Cayden scoffed at me.

"Alliance that will keep your pack safe." I retorted.

.....Flashback.....

"Good day, Alpha Damien." Alpha Xander greeted me.

"Good day to you," I replied.

ADVERTISEMENT

"So I think you already know the reason we are holding this meeting." He said while I nodded.

"So we would not beat about the bush." He said looking at his sister.

"The condition for the alliance is a marriage contract." He said quickly.

What!!!!!! Marriage what!!!!!! Wait to whom!!!!!!

Cayden was blowing my head with several questions. I sighed.

"With whom?" I asked.

"My sister here, Nicole." He said looking at her.

I turned to see her smiling all over.

"What of her mate?" I asked. Because I don't want to be in war with a h\*\*\*\* male wolf over a lady that is not mine.

"She chose this herself." The beta said not liking the idea one bit. Oh, I see.

"What if my mate?" I asked. They all looked at me.

"Because I am not going to be rejecting my mate because of some alliance," I said.

"See Alpha Damien, this is the only condition we have for the alliance." He said.

"Don't you care about your mate?" I asked directing the question to her. She looked away.

"Don't you care about your sister's happiness?" I asked Alpha Xander.

"She is happy with the decision she made." He said.

#### ADVERTISEMENT

I could not reject the offer because my pack has been facing a recent rouge attack this day. Other packs are also trying their best in protecting their pack. It has been so hard.

"Okay," I said.

"What of mate?" Cayden said but I chose to ignore. This Nicole of a lady is not breeding my pups.

End of flashback.....

Kill her..... Kill her.....

The chanting of the voices brought me out of my thoughts. I turned to Alpha Xander.

"Can I see you privately?" I asked.

We went inside...

"I want the omega as part of our deal," I said. To say Xander was shocked is an understatement.

"What? Why?" He asked.

"Since she is useless here, I decided to bring her with me to my pack, at least in my pack we do not beat thieves up," I said.

"But....." He was saying.

"You are the Alpha of your pack, you set the rules," I stated annoyed by his reaction. Gosh! He was behaving in a very funny way.

"Okay." He said giving up.

**\*\*XANDER POV\*\***

**ADVERTISEMENT**

I turned to see Alpha Damien.

"Can I see you privately?" He asked. We went inside.

\*\*\*\*\*

To say I was shocked is an understatement, I mean, what does he want with Ciara. We went outside.

I summoned the medical emergency team. They came and took Ciara to the hospital.

"Since the diamond ring has been found, I sincerely apologized for the trouble my pack member caused you," I said.

"It is okay." She said while I nodded.

"Go back to your different post." I dismiss everyone.

I went inside to meet Eunice.

"What happened?" She asked while I explained everything to her.

"Did she steal it?" She asked.

"I don't think so," I said.

"Why?" She asked.

"I have known Ciara for a very long time to know she does not steal," I said and sighed.

"I am hungry and I need a bath, so please excuse me," I said and left for the bathroom.

## Chapter 27

/ [Demoted To An Omega by Honeybeehive](#)

**\*\*NICOLE POV\*\***

"No way, she should have died," I said throwing everything that could be found near me away. When my plan was going pretty well, my... My blood brother had to do that... He saved her like does he not resent her anymore.

"Hey, you need to calm down and think carefully, devise more plans," Melissa said smoking. I inhaled and exhaled.

"Lora, have you spoke to Damien's wolf?" I asked my wolf, Lora.

"Nope, looks like he does not like us." She said and I sighed.

**\*\*DAMIEN POV\*\***

I secretly went to the pack hospital to see my mate. She needed her mate to heal faster and I am not some heartless person so I decided to help. I saw just two doctors attending to her. I was enraged.

"Why are there only two doctors here?" I asked almost like growling.

"Miss Nicole gave orders." One of the two said.

"Get other nurses right now," I ordered.

Is this how they treat her. She does not get enough rest, even treatment she is deprived of it. Ahrrrgggg!!!!

**\*\*XANDER POV\*\***

I came back inside to meet Eunice.

"I have been wanting to ask you this question." She said.

"Go on." I urged her.

"Did you doubt me when you met me in that hotel that day?" She asked and I smiled. I knew she was gonna ask that question.

ADVERTISEMENT

"At first, I was so angry, I could not think straight at that time. But Lucas being Lucas helped me calm down after receiving several blows from me." I said and gave a slug chuckled as I envisioned that day's incident.

"He made me see things from a better perspective," I said.

.....FLASHBACK.....

"Don't you think this is strange?" Lucas said.

"How is it strange?" I asked.

"Come to think of it, if she was with another male, you would have felt it, right? He stated.

"Moreover you would have met him on the bed with her." He said.

Yeah, it is true. This is...

"A setup." Lucas completed as if he was reading my thoughts.

"Their plans have a lot of potholes," Lucas said.

"Where's your phone?" He asked and I brought it out.

"This guy's picture is what lead us to the source." He said.

"Start the investigation immediately but do it discreetly," I ordered.

"Yes, Alpha." He said and stood up.

.....END OF FLASHBACK.....

ADVERTISEMENT

"Oh, that was it." She said. I nodded.

"Kira has been poisoning you with the things you eat or drink, that was the reason that reason you feel sick," I said excluding the part where she lost her child. Gosh! I cannot even tell her.

"So what are we gonna do to her?" She asked.

"I was thinking of banishing her but instead of doing that I would send her to her aunt in West wood pack," I said.

"Is that okay by you?" I asked.

"Yeah, sure." She said.

**\*\*NICOLE POV\*\***

TWO WEEKS LATER.....

We will be going back to or rather returning to Damien's pack today. I was so elated like crazy, I was kinda sad that Ciara was coming but nothing still changed the fact that she will be somebody there.

It felt really strange for Ciara to come along tho but I just did not give them a pack. I would make sure that her life there won't be an easy one since I am going to become the Luna.

I pack my things and stuff loaded in the car. I noticed Damien's beta does not like me. Urrghh! Worse.

"Let us wait for our mate.' Lora said but I ignored them. In the past, she will always drool on other guys wanting to be beneath them moaning but I made sure that I pull the string most times because I know how many guys I would have slept with if Lora was in charge. h\*\*\*\* wolf.

**\*\*CIARA POV\*\***

I recovered a week ago, I mean, I was accused of what I did not do. Stealing a diamond ring. What the hell?

What do I want it for?

ADVERTISEMENT

Some images kept playing in my head, I don't know if it's true or it is just my imagination. I saw Damien come outside that day and after a while when I could not keep my eyes closed, I heard some faint voices. I tuned them out afterward. I noticed I healed faster than usual which is stranger. Who helped me heal? I mean I could not have done it myself. Wait..... Except if your mate was with you during the time... No..... Impossible... Damien could not have... No... Impossible.

I was shocked when I was told that I would be going to Damien's pack alongside Nicole. He said I was part of the alliance deal and I should not think of it as anything. But why was Nicole going to?.

Tavia and Cayden have been getting along so well but Damien and I have not even spoken to each other. I felt bad. I think it was during the time I was in the hospital that they got along so well. Tavia told that she was also playing with another wolf but I don't know the wolf. This she-wolf won't kill me.

So I will be going there today, I packed some of my things like my parent's only picture the was left and a golden necklace my dad gave on my fifth birthday. I packed my things and put them in a small bag. I carried it to the car.

Not long did Damien and another guy came inside the car. The guy I supposed is his beta came to the driver seat mad started the engine, then he drove off. What Tavia did next was shocking to everyone in the car, I was shocked too.

"I, Tavia Jones, the wolf of Ciara Acacia Jones rejects Vengeful Eyed pack as my pack and do not and will never have anything to do with you anymore."

I felt the mind link with the pack break. I felt relieved..... Way too relieved. Looking forward to what is ahead of me.

Tavia has been planning this for too long. I mean for your wolf to reject her pack. I was shocked.

"Tavia, why did you do it?" I asked her but got no response. I sighed.

The car screeched to a halt, everyone in the car faced me but I just looked down to my feet.

"So you have been waiting for this?" Nicole asked with a mocking laugh. I guess she felt it too.

I suddenly got the courage to look at her in the eyes — Tavia took control and looked at her.

"I am a human and I also have the right to reject my pack." She said with a smirk.

Nicole's eyes almost bulged out. My eyes were blazing blue meaning Tavia was in control.

"Tavia, give me the control," I ordered her which she complied. I noticed Damien's eyes on me but I did not look at him.

### Chapter 28

[/ Demoted To An Omega by Honeybee hive](#)

**\*\*DAMIEN POV\*\***

During the entire time she was unconscious, I was not feeling okay. I was not being myself like I felt uncomfortable. I knew what was wrong my mate was in pain so I would feel it indirectly. Even my beta asks me if I was fine, I just made sure I evade it. I went to the hospital secretly at night to stay near her because she will heal faster if I am beside or close to her.

I was so elated when I was told she getting discharged the other day. So we will be going back to my pack today. Cayden is so happy to take his mate away from this place that gives her nothing but pain and misery.

She rejected her pack, way too courageous for her wolf, Cayden was howling happily the moment she did that.

Both our wolves have been getting along these days but i... I don't even know how to strike a conversation with her. Urrghh! So bad.

I mean my parents do tell me how sweet a scene is when you meet your mate. The male will be like "MATE" and then they will hug and start making out or even might mark each other. But mine..... Mine is different. I could not even talk to her. She thinks it is because of the scars I don't want to talk to her. To be honest, I don't know what is stopping me also.

"Why does my wolf repel Nicole?" Hudson asked through the mindlink.

"I don't know," I replied.

"And also Jace said he has been interacting with she-wolf named Tavia." He said.

An animalistic growl found it was out of me. Everyone in the car looked at me for an explanation but I ignored them.

"Tell Jace not to mess with me," I said.

"Why?" He asked.

"Because she is my mate," I said obviously.

"Woah, surprising though." He said.

ADVERTISEMENT

He looked back at her.

"Hey, face the front unless you want us all to die," I said.

"Congratulations but what of your so-called fiancée?" He asked. I scoffed at the word fiancée.

"I don't know yet still thinking," I replied.

\*\*NICOLE POV\*\*

She rejected the pack. Funny. Pathetic.

I already asked Melissa to look into why Damien's wolf does not like me but she just could not find anything despite trying several times.

I feel so restless right now. I mean I am going to my soon-to-be husband's pack.

"Will they accept me?"

"Will his parents love me?"

"How would they react?"

All these thoughts crept their way into my mind. I am so nervous right now.

Soon we stopped in front of a black iron gate, a guard came to open it so we drove into a garage. As soon as the car stopped, we alighted from the car. The view before me was mesmerizing, I mean the packhouse was beautifully built. I guess they spent more money on its architecture to make it feel like home. So homely.

ADVERTISEMENT

We started heading to the door, as we entered we met four elders.

"Dad, mum." The other guy that drove us greeted a couple. So they are his parents.

"Dummy," Lora said. I rolled my eyes at her.

"Good day mom." I heard Damien's voice say. Woah, she is his mom. She is so beautiful.

He planted a kiss on her forehead.

"And who is this beautiful lady here?" The other guy's mom asked. I blushed.

"I am Nicole Williams. Damien's fiancée." I heard a scoff from someone but I did not look around to see who did it.

The woman narrowed her eyes at me and looked at Damien. Then boom... I was engulfed in a hug.

Not long did Ciara entered.

"And who is she?" Damien's mom asked.

"She is an Omega who rejected her pack a while ago," I replied with a smirk.

**\*\*CIARA POV\*\***

I was so nervous and scared to enter the packhouse. As usual, my head was bowed, Tavia the courageous left me to my fate. Now I have to be in the presence of people I don't know. I hesitated a little bit before finally entering.

"And who is she?" I heard a woman's voice say, I could not see her because my head was bowed.

"She is just an omega who rejected her pack a while ago," Nicole said. My face fell instantly.

She is so bent on ruining my name.

"Raise your head darling." I heard another woman's voice say. I did not do anything, I remained still like that.

"That is not who she is." The voice earlier on said. Raising my head slowly.

"What is your name dear?" She said.

"Ciara Jones," I said.

"What happened to your body?" She asked but when they say I did not reply, they let it go.

"Okay, Ciara." The two women hugged me.

Why? – I don't know.

"Nicole, this is my pack and in my pack, we don't look down on people especially omegas, get that?" Damien said feeling irritated.

"Yes, Alpha Xander." She replied sadly.

**\*\*DAMIEN POV\*\***

Nicole has been uncontrollable this past few days that she arrived. She kept asking about the date for her Luna ceremony and when we are going to get marked. Urrghh! So frustrating. She keeps behaving like she is the luna already.

I had told my parents about the so-called marriage alliance between us.

.....FLASHBACK.....

"What of your mate?" My dad, Alpha Derrick, asked.

"I am not going to reject her," I said, almost growling at the thought of rejecting Ciara.

"So when is the luna ceremony?" He asked.

"In three months' time." I said and left.

\*\*\*\*\*END OF FLASHBACK\*\*\*\*\*

"You are not marking Nicole," Cayden said in my head.

"I know, I know," I said tiredly, pinching the bridge of my nose. I am really tired.

She has been finding it hard to adapt to the new environment. Most times when we will see each other, she will keep her head bowed and be like "Good day, Alpha Damien", I just nod my head and walk off.

I noticed she and Hudson had been getting along recently. She does not talk to anyone tho, I guess she is still scared of being bullied.

#### \*\*CIARA POV\*\*

It has been two weeks since I got to Damien's pack. It has not been easy to blend in. I kept my head bowed, did most of the chores like cooking and cleaning. The pack members loved my food the very moment they ate it, they told me I should keep cooking.

Well, there was this wolf Tavia had been hanging out with during the time I was still at Vengeful Eyed pack. I later realized that it was Beta Hudson's wolf, Jace, he is the only one that knew I am Damien's mate.

A lot of females wanted to befriend me but I told them to give me some time. Nicole has been talking badly of me since but they don't look at me from that perspective. They want me to let them in but the last time I did that, I was blamed wrongly for something I did not cause. I cannot give anyone such a chance maybe with time... I can make friends fully.

I need to go for a run, Tavia has been clawing at me to let her out. HmMMMM.

I walked towards the room and pulled off my clothes. I imagined myself in my wolf form, soon I morphed into my wolf form, my eyesight and hearing became clear and sharp. She pushed me to the back of my mind.

Then she took off at a very inhuman speed, feeling the soft breeze on my fur, I felt relaxed. Then suddenly I heard some other footsteps, I screeched to a halt and stood in a very defensive stance.

A wolf with black fur and some cream dots came into view.

"Who is this?" I asked

"Him," Tavia said.

"Him, who?" I asked not knowing who it was.

"Damien." She said. Then I noticed his silvery pair of eyes.

"What?!!!!!" I yelled.

She barked at him but he did not bulge,

What the hell is she doing?

Instead, he started walking towards us,

"Move away," I told her but Tavia being a h\*\*\*\* wolf, did not move but gave him a Wolfy grin.

"Ciara, Cayden wants to go for a run with me." She said, not waiting for my approval they took off. Urggghhh! h\*\*\*\* wolves.

\*\*DAMIEN POV\*\*

I was going for a run in the woods when I caught this refreshing scent that has my wolf purring,... She is closer. Following the scent, I got to where she was in her wolf form.

She stood defensively but relaxed the moment she saw that it was me. She barked at me. Huh, defiant wolf.

"Get out of the way, Cayden," I said to him since he was in control. But Cayden being fully whipped by Tavia did not bulge but walked over to her.

"Do not tell her that," I said sternly but as usual my wolf does not listen to me.

He told her that they should go for a run. Urgh! Argh!. And they took off.

"Woah, this feels so good," Cayden said.

"Yeah, so relaxing and refreshing," I said in agreement.

We stopped by a lake and played around for a while, chasing each other, pushing her into the lake, and she dragging into the lake also. My wolf got lots of courage when it comes to women. He's had several crushes in the past, it's a pity that they all had their mates. They kept playing around like even we the humans were confused, if someone had seen us like this, they would have thought we were couples, not like we were not though. We are mates, pretty much.

Moon goddess knows how much I am restraining myself and Cayden from marking her.

Before you know, they both shifted to our human form leaving us naked without telling us. Fvck!

\*\*CIARA POV\*\*

"Tavia, what the fvck?" I shouted at her. I am now naked in front of Damien.

Damien was also naked.

"Gosh! He is so huge." My h\*\*\*\* wolf, Tavia, said.

My body is full of scars, he kept scanning through my body and I could see that he was angry. He went behind a tree and brought some shorts for himself and a shirt for me. He wore the shorts and he handed the shirt over to me. He did not say anything, he just left leaving confused.

I sighed when it was not like we were on speaking terms. The scars always find it way to ruin my day.

I stood up and went back to the packhouse, I went straight to the kitchen and saw Hudson.

"Hi," I said as I entered.

"Hey, Ara." He said calling by the nickname he had sought for me. He even said that it was Damien that said it. I was flustered.

"I want to train," I said to him. He raised his eyebrows at me.

"I am not the one to permit for this." He said.

"But you are the beta," I said obviously.

"Yes but...." He stopped looking around to see if someone was around.

"But because you are his mate, he would kill me the moment he sees you training." He said.

"Ask him for the permission.' I said.

"Yourself." He said.

"Gotta go." He said after rinsing the cup he used in drinking juice and left.

Argh!! So frustrating.

I went ahead to prepare dinner.

**\*\*DAMIEN POV\*\***

Why is her body full of different scars?

I mean, she is a human and a lady. I don't think she lived her life as a lady did. Well, she was an omega in her pack. I was angry when I saw the scars, why was her pack this wicked towards her?

Knock! Knock! Knock!

The knock on the door brought me out of my thought.

"Alpha, dinner is ready." I heard an omega say.

"Okay, I am on my way," I said and stood up, packed some of the files together, and left.

**\*\*NICOLE POV\*\***

So I have been trying to talk to Damien about the next step in our relationship but he keeps ignoring me. Like the other day at the training grounds, he behaved as if I was not talking to him. So I decided to bring up the matter in the presence of his parents. I heard that his father was the one that asked for the alliance. I smirked.

Going into the dining hall, people were already seated there even that witch called Ciara – Urgh!.

I sat down and served myself.

"This food is so delicious." Eric, Damien's father said munching on his food.

"Yes." Another person complimented.

"Ciara is such a good cook." His mother, Loretta said.

Why are they praising her like she is some food goddess?

"So Nicole can you also cook?" The beta's mother, Ashley, asked.

What? Me? Cook? I have not even entered the kitchen to prepare tea or boil water to talk more about cooking.

"Nope," I replied simply.

When I felt everyone's gaze on me, I looked up to see an expression of disappointment on her face. I ignored them and I shrugged.

"So Damien when is my Luna ceremony?" I asked taking all of them by surprise.

"I am still thinking about it." He replied casually.

"You allied with my brother and the condition was to make me your Luna." I spat angrily.

"Hey, you better watch your tongue, you are speaking to an Alpha." The beta, Hudson, said almost growling.

"Just cut off the deal," I said standing up and was about to go but I felt a handhold me back.

I turned to see Damien's dad holding me back.

"In a week." He said and I sat down triumphantly. I smiled evilly, at least that witch plan worked out this time pretty well.

**\*\*DAMIEN POV\*\***

"What?" I yelled the moment I heard my dad give Nicole an answer.

"Dad, she is not my mate," I said angrily.

"Have you found your mate?" He asked getting angry.

"Who knows maybe she is dead," Nicole added while I growled at her.

I glanced at Ciara and nodded my head negatively.

“Even if she is alive, she will understand that you are doing it for the safety of the pack.” My dad added. I stood up and left.

I was angry at myself, at my dad for forcing me into this marriage, at the stupid alliance. Cayden was hurt and it affected me. I stripped off my clothes and ran towards the border, going to patrol and take my mind off these things for a while.

**\*\*CIARA POV\*\***

I choked on my food the moment I heard Nicole mention Luna’s ceremony. So that was the reason she came, they allied and it was to get married to her.

“In a week.” I heard Damien’s father say.

I was heartbroken, he did not even tell his parents that I am his mate. What kind of mate was I given?. I feel so hurt right now. He even rejected me in the presence of other people.

**\*Am I not worth his love and care?\***

**\*Is he not proud of me as a mate?\***

**\*Am I that ugly to be called someone’s mate?\***

**\*Why is that whenever I thought my life was going to change for the better, it just crumble down at the mere thought alone?\***

**\*Moon Goddess, why?\***

I stood without anyone noticing me and left for my room. I need to cry.
