

Divorce 1471

Chapter 1471: I won't be going

Since ru Yu was pregnant, she would naturally come back to the Lei family every day. Lei Zhenyu also tried his best to cancel his social engagements. Usually, he would not attend any important social engagements at night, so he would always return home on time.

Lei Taihe was more nervous than anyone else. Also, because ru Yu showed signs of miscarriage that night, he actually did not allow ru Yu to go to work. He said that what if she accidentally fell. Moreover, the painting had to come in contact with paint, Turpentine oil, and the like. He was also afraid that it would affect the fetus' development, especially during the first three months.

Ru Yu had also considered this point, so she gladly accepted Lei Taihe's suggestion. It was just that the studio was still open. However, they were selling some of the paintings that they had left behind in the past. In order to not sell enough paintings, they had specially raised the prices of all the paintings.

This time, Cui Jingying didn't say anything. Of course, he was congratulating her. He only hoped that she could return to work as soon as possible after giving birth. He didn't want to delay taking care of the child for another one or two years after giving birth. If that was the case.. It was likely that the studio's price wouldn't be enough to sell the paintings.

Ru Yu smiled. She said that she would talk about this after the child was born. Now, she could only talk about what happened this year. As for what would happen in the future, there was still time to discuss it in the future.

Ru Yu was pregnant. It was not only the Lei family that was nervous. Che Qixuan's family and the Dongfang family were also extremely nervous. This was because ru Yu had type B RH negative blood. She had a miscarriage before. When she gave birth to a second child, 99% of them would produce hemolysis.

Xi Muru had called to ask Ru Yu more than once. Did the doctor at that time give you an injection of RH D LGG Ru Yu smiled and said, "yes, of course. How can the gynecologists nowadays not know this? "

Xi Muru said, "It's good that you've given her an injection. As long as you've given her an injection, everything will be fine. When the baby is born, there won't be any hemolysis of the newborn. That's why I'm relieved. "

Everyone was relieved. Lei Zhenyu had even personally called the gynecologist who had operated on ru Yu back then. That specialist patted his chest and assured him that the RH D LgG injection was definitely given. Ru Yu would definitely not have hemolysis of the newborn after giving birth.

Everyone was very relieved. Everyone poured all kinds of love and care into this child. Ru Yu was ordered not to use a computer because of the radiation. She rarely used her cell phone. If she did not go out, everyone would call the Lei family's landline.

While everyone was relieved, only ru Yu was very worried. She did not need anyone's advice. She was very careful. Ever since she found out that she was pregnant, she had never worn high heels. She always wore soft cloth shoes at home. Moreover, she was also very careful when going up and down the stairs.

Nine weeks pregnant, Lei Zhenyu wanted to take her to have her first comprehensive check-up. However, ru Yu refused to go no matter what. She just said that she was pregnant. What was the point of having a check-up? She could only go after she had given birth.

Lei Zhenyu smiled and said, "Che Ru Yu, are you living in ancient times? What society is this now? Can a child be easily given birth? You definitely have to go for a prenatal check-up."

"I'm not going." Ru Yu's stubborn temper rose. She sat on the sofa and refused to move. She pouted unhappily and said, "what is there to have a prenatal check-up for? I think he is growing very well in his belly."

Lei Zhenyu could not help but laugh. He reached out to pull her up and said, "do you think... do you think it will work? Now we have to do a more comprehensive examination. This is responsible for you and the child. How can we, as parents, be careless?"

Chapter 1472, the first Prenatal check-up

Even though Ru Yu was very reluctant to go to the hospital for a prenatal check-up, she was still dragged away by Lei Zhenyu. Moreover, if she did not go, Lei Zhenyu would probably be suspicious too.

It was the first prenatal check-up for a pregnant woman, so it was inevitable that she would have to do all kinds of checks. The items came in piles and piles. Lei Zhenyu took a thick stack of documents. Then, he said to Ru Yu, "let's go. I've made an appointment for you in advance. You don't have to wait in line today. All the doctors are waiting for you for all kinds of checks. You can't waste any more time because you're not only wasting the time of the doctors, but also the time of other patients."

Ru Yu nodded. Things had already come to this point. She could not back down anymore. Thus, she could only bite the bullet and let Lei Zhenyu accompany her to do the examinations one by one.

She fainted when she was taking blood. This was because the first prenatal examination of a pregnant woman required five or six tubes of blood. However, she fainted when she got the third tube. Lei Zhenyu and the doctors and nurses were shocked.

"Is it because she fainted?" The nurse asked Lei Zhenyu nervously, "has she ever fainted before?"

"I don't know." Lei Zhenyu hugged ru Yu and sat on the stool, shaking his head. "She's in good health. Other than that time a year ago, she hasn't been to the hospital."

"Let's wait until she wakes up." The nurse was about to pull out the SYRINGE that was used to draw the blood when ru Yu slowly woke up again.

"I'm fine. Continue," ru Yu said to the nurse in a weak voice. Then, she looked at Lei Zhenyu and squeezed out a smile. "I'm fine."

"Are you anemic?" Lei Zhenyu looked at her pale face nervously and asked with a trembling voice.

"No," ru Yu answered with certainty. Then she smiled and said, "it's okay. I just felt dizzy just now. I'll be fine once I wake up."

Lei Zhenyu nodded and took her for another check-up after the blood draw. Fortunately, ru Yu was normal during the next check-up and her face gradually recovered. Lei Zhenyu let out a long sigh of relief.

It took half a day for the first comprehensive check-up of a pregnant woman. Moreover, there was no queue at all. It was not until noon that he got all the results.

Lei Zhenyu took the results and looked at them again and again. Then, he shook his head and said, "I can't even look at them. They're like ants. Let's go and find Professor Gu. She will tell us if anything happens."

Ru Yu nodded. Professor Gu was a well-known gynecologist in Seoul. He was Lin Yuxin's teacher. He was already in his fifties this year and had worked in the gynecology and obstetrics department for more than thirty years. He had rich experience.

When Lei Zhenyu and ru Yu arrived, specialist Gu had just finished his work and was waiting for them. Lei Zhenyu handed ru Yu a pile of examination forms and said with a smile, "thank you for your trouble, Professor Gu. Let's see if there are any problems."

Professor Gu nodded and took over the checklists and looked at them seriously.

Lei Zhenyu looked calm, but ru Yu was especially nervous. She prayed that there wouldn't be any flaws in this checkup because she only wanted to get pregnant quietly and have a child. She believed that she should be able to do it.

However, when Professor Gu flipped to the page of the Electrocardiogram and obviously stopped, his expression changed slightly. Then, he quickly took out the piece of paper. Ru Yu knew that this was probably not good. Professor Gu, could it be that he had found something?

Professor Gu checked the rest and took out two more pieces. Then, he looked at her and asked, "you called for Che Ru Yu?"

Chapter 1473: It's not suitable to get pregnant and have children

Ru Yu nodded, but Lei Zhenyu added, "she also has a name called Dongfang Yu, but she usually uses this name. Dongfang Yu's name is rarely used."

Professor Gu nodded, and then quickly typed on the keyboard in front of the computer. Ru Yu's hands and feet instantly turned cold. She knew that she couldn't come for a prenatal check-up. She really couldn't come for a prenatal check-up. Well, she couldn't keep all her secrets anymore.

"What's wrong, ru Yu?" Lei Zhenyu finally felt that something was wrong with Ru Yu, who was beside him. He quickly made her body tremble, and couldn't help but hold her hand tightly and ask softly.

"She can't get pregnant," professor Gu answered for ru Yu Then, he looked at ru Yu and said, "nine months ago, Professor Wu, the brain specialist, repeatedly told you that you must not get pregnant. But why didn't you listen? You knew that you couldn't do it. Are you joking with your own life?"

“Why can’t she get pregnant?” Lei Zhenyu was shocked. He looked at Professor Gu and asked, “isn’t she pregnant? What’s going on?”

“She should know what’s going on.” Professor Gu shook his head. He handed a stack of examination results of Ru Yu to Lei Zhenyu and said, “the only suggestion I can give is to have an abortion. If you don’t do it, go to Professor Wu and see if he has a solution. I found that Professor Wu made a special note about her illness at that time. It’s not suitable for this patient to get pregnant and have a child.”

Professor Wu was a brain specialist, Professor Wu. Ru Yu had seen professor Wu nine months ago. How could he not know?

“What’s going on?” Lei Zhenyu stared at Ru Yu who had her head lowered in front of him. He could not help but ask in annoyance, “Che Ru Yu, we’re husband and wife. Why are you hiding everything from me?”

“I went for a check-up nine months ago.” As soon as ru Yu opened her mouth, her tears came first. Her voice was choked with sobs. “At that time, I fainted in the hospital. Coincidentally, when I fainted, I fell on my head. I was worried that there was nothing wrong with my head, so I did a head CT, and then...”

When ru Yu said this, she only cried. Lei Zhenyu became nervous as well. He wiped her tears with a tissue while whispering to her, “then what happened? Ru Yu, don’t cry, okay? Tell me, what happened?”

“The doctor said that there is a little bean in my brain. It is very small, but I can see it.” Ru Yu looked at Lei Zhenyu. Then, she whispered, “Professor Wu said that it is a sleeping demon. As long as I don’t wake it up, I may be able to live peacefully until the end of my life. However, if I wake it up, this...”

“So, you absolutely can’t get pregnant, right?” Lei Zhenyu finally understood why ru Yu was so afraid of getting pregnant, why she had been ignoring him, why she was so straightforward when she found out that Song Yuxi was pregnant with his child, and why she didn’t even argue with him.

“Let’s go and look for Professor Wu again.” Lei Zhenyu held ru Yu’s hand and quickly contacted the director of the hospital to contact the brain specialist, Professor Wu, to see what his opinion was.

Professor Wu performed a brain examination on ru Yu again. Then, he shook his head and said, “did you ignore my advice nine months ago? The most taboo thing about your illness is pregnancy. Now, it’s only eight weeks old, and there’s no reaction. But as the pregnancy increases, what if the illness attacks? You still want to have a child. Don’t you have to consider your own life?”

“Professor Wu, what are the chances that... she can give birth to a child safely?” Lei Zhenyu immediately knew the seriousness of the situation when he heard Professor Wu question ru Yu ...

Chapter 1474 was to be operated on today

“less than 20%,” professor Wu answered very calmly.

Less than 20%, how small was the probability WHO dared to take the risk, and who could take the risk?

There was a tumor in her brain. It was very small, but it was real. Professor Wu said that as long as she was not pregnant and did not let her be greatly stimulated, she would not wake it up. Then, it would not be a big deal. Pregnancy was definitely not allowed.

“Che Ru Yu, get rid of the child today!” Lei Zhenyu immediately made a decision because with such a small probability, there was no need to consider the problem of gambling. Moreover, it was not worth gambling.

“I won’t.” Ru Yu’s stubborn temper also rose. She could not help but glare at Lei Zhenyu and said, “you said you wanted the child. You said you wouldn’t allow me to get rid of the child. You said you would get a few nurses to look after me. You said...”

“What I said doesn’t count.” Lei Zhenyu quickly denied Ru Yu’s words. Then, he said firmly, “now, what I said counts. The child can not be kept. It must be gotten rid of!”

“I won’t get rid of it.” Ru Yu insisted. She touched her belly with her hand and said, “I can feel it growing inside every day. I know it’s fine inside. I know...”

“It’s fine now.” Lei Zhenyu was not in the mood to listen to her long-winded words. He quickly interrupted her, “the key is that it will threaten your life. This is too scary. I’d rather not have a child. Moreover, you might not be able to give birth to the child even if you get pregnant in such a situation...”

“Didn’t Professor Wu say that there’s a 10% chance of success?” Ru Yu quickly interrupted Lei Zhenyu’s words. “Maybe we’ll be lucky...”

“Don’t have those wild dreams.” Lei Zhenyu quickly interrupted Ru Yu’s words and quickly made a decision “You will be hospitalized in this hospital today. A comprehensive check-up has been done. I will give you the best obstetrician and gynecologist, the best nurse, and the best abortion specialist to minimize the pain you will feel during the abortion operation.”

“How can it be reduced to the minimum?” Ru Yu immediately became angry. She could not help but shout, “Lei Zhenyu, you are so cruel. Tell me, how low can the pain of killing your own child be? The pain you are talking about is physical, but what about the pain in your heart? Isn’t it painful to kill your own child?”

Lei Zhenyu only felt extremely uncomfortable. Of course, killing his own child was very painful. How could it not be painful? He had been waiting for the stars and the Moon. It wasn’t easy for him to wait until she became pregnant?

But, who knew? Who would have thought there was actually a little bean in her brain? And that little bean would quickly wake up because of the pregnancy in her stomach, and then..

Then, if that little bean became sick, not to mention giving birth, even she herself wouldn’t be able to live on. She would be the final one!

What was a child? At most, they wouldn’t have a child in this lifetime!

He couldn’t have a child, but he couldn’t do without her. Even if he endured until the day she gave birth to the child, what if he could only have the child but not her?

If he didn't even have her, what meaning would that child have for him? When he saw that child, he would think that it was her killer. Such a child, he estimated that he would fall to his death on the spot. So, rather than wait until that day to fall to his death and not let it be strangled in her stomach now, he wasn't willing to let her take even a little risk. Not even a little.

Chapter 1475: I only want my child

Lei Zhenyu went to find professor Gu to go through the admission procedures. He was really a man with a heart of stone. He did not even blink when he said he wanted to kill the child. He was a person without any sense of humanity.

Ru Yu sneaked out of the hospital when he was not paying attention. She quickly hailed a taxi and took it home. At this moment, she only wanted to escape. No matter what, she would not be obediently captured by Lei Zhenyu to have an abortion.

When she first found out that she was pregnant, she was indeed terrified. At that time, she even thought of aborting the child. However, in the past two weeks, she had gradually fallen in love with this child. She fell in love with the feeling of being pregnant. She was unwilling to kill the child even if she was beaten to death.

The woman on the television said it very well. Every child was an angel that God gave you. How could you bear to kill all the angels?

Lei Zhenyu was a devil. Now, he actually wanted to kill the devil of angels. She did not want to stay with the devil. She wanted to quickly take her things and leave.

The world was so vast. Where could she not go? Moreover, she had money. Where could she not have children?

In fact, she did not have many clothes in the Lei family. If it was just to carry her luggage, she completely did not need to go back to the Lei family. The reason why she took a taxi back to the Lei family was because all her documents were in the Lei family. If she wanted to escape from Seoul, she had to get her documents.

In this world, the greatest pain was having so many documents. Moreover, the most damnable thing was that if she didn't have these documents, she couldn't even move an inch.

Ru Yu went upstairs. Just as she took her documents in the study, she quickly turned around and walked out. Just as she reached the living room, she found that Lei Zhenyu had rushed back in a hurry.

"Ru Yu, where are you going?" Lei Zhenyu saw that she was carrying a small bag, so he quickly stopped her and asked, "it's so late, where do you want to go?"

"I want to go to daddy's house," ru Yu quickly lied. "Auntie Zhi took the child back. I'm going back to take a look and play with Auntie Zhi's child."

“Daddy heard that you were hospitalized, so he’s rushing to the hospital now.” Lei Zhenyu pulled her hand and said softly, “hurry up. Let’s go to the hospital to be hospitalized. I called Binhai’s mother. She and daddy will rush over to see you tomorrow...”

“Lei Zhenyu, how can you be so despicable?” Che Ru Yu couldn’t help but yell and glared at him angrily. “Can a person be so shameless? It’s such a small matter, yet you want to shake the world?”

“since it’s a small matter, why did you run away secretly?” Lei Zhenyu pulled her hand As he walked downstairs, he said softly, “alright, ru Yu, this matter is not negotiable. Moreover, I have to apologize to you. The last time you said you wanted to have an abortion, I was too b * Stard. At that time, I didn’t care about your feelings...”

“I don’t accept your apology because you didn’t do anything wrong.” Ru Yu quickly shook off his hand and ran downstairs. At this moment, she only wanted to break away from Lei Zhenyu’s control and escape from Lei Zhenyu’s sight.

It was obviously impossible. She had just reached her car when Lei Zhenyu caught up to her again He directly pulled her hand and said, “Ru Yu, stop fooling around. Let’s hurry to the hospital. Professor Gu has already promised to perform the surgery on you tomorrow afternoon. She will bring her best team...”

“I don’t want professor Gu. I don’t want the best team.” Ru Yu struggled hard and wanted to break free from Lei Zhenyu’s hand. She kept shouting, “Lei Zhenyu, I only want my child. I only want my child...”

Chapter 1476 everyone’s decision

No matter how much ru Yu struggled, she could not break free from Lei Zhenyu’s control in the end. She was still obediently captured by him and brought to the hospital. Meanwhile, Che Qixuan, Pu Yongjun, and Pu Zhihui had already rushed to the hospital.

Che Qixuan looked at the angry ru Yu He could not help but gently advise her, “Ru Yu, this time, you must be obedient. Listen to the doctor. Children are not the whole of life. Just like Daddy. Even if you don’t have children, aren’t you still daddy’s child “In the future, Yun Heng and Yun Zai will definitely give birth to many children. If they give you one each, won’t you have both children?”

“I want my own child. I gave birth to my own child.” Ru Yu insisted on her own opinion. “I have a child now. I can’t kill it. It’s so small. It’s illegal to kill a child.”

Pu Zhihui knew how a pregnant woman felt. After all, she was only pregnant when she was in her forties. As a mother, how could she bear to let her child be aborted just like that?

However, ru Yu’s situation was too special. She couldn’t risk her life for the sake of a child, right?

Moreover, even if she were to take the risk, what if the tumor in her brain changed before she could give birth to a child The result would be that the adults would be gone, and the child would not be available.

The risk was too high, and it was not worth the risk. Therefore, when Lei Zhenyu mentioned ru Yu's condition, everyone supported Lei Zhenyu's decision. The child in Ru Yu's stomach could not be kept. It had to be aborted, and the sooner, the better.

Ru Yu did not expect that no one would support her. Hence, she was angry with Lei Zhenyu. She did not eat anything at night. No matter who advised her, she would not listen. All she wanted to do was to escape.

Lei Zhenyu knew that she wanted to escape, so he kept an eye on her. Che Qixuan and Pu Yongjun did not go back that night. Both of them stayed at the hospital. They were worried that if Lei Zhenyu fell asleep at night, ru Yu would secretly get up and leave. Therefore, the two of them still had to stay at the door of the ward.

It was really true. At three o'clock in the morning, Lei Zhenyu probably could not stand it anymore in the ward. The door of the ward was quietly pulled open from the inside.

At that time, it was Pu Yongjun who was on duty. Che Qixuan had already fallen asleep, so when ru Yu opened the door of the ward, she was caught by Pu Yongjun.

Ru Yu looked at Pu Yongjun's face and was so angry that she almost vomited blood. She could not help but beg in a low voice, "Uncle Yongjun, please let me go?"

Pu Yongjun shook his head and reached out to stroke ru Yu's head. He comforted her softly, "be good, little feather. Be obedient. When you finish the surgery tomorrow, Uncle Yongjun will buy you a rainbow lollipop to eat."

Ru Yu glared at him angrily and could not help but curse, "Uncle Yongjun, you have no sense of humanity at all. Little feather will never speak to you again."

Pu Yongjun just smiled. For something like this, not only would little feather ignore him in the future, even if she hated him in the future, he would not let her escape. Her life was definitely far more important than the child in her stomach.

That night, ru Yu finally could not escape, and a night of torment had tired her out. So the next day, Lei Zhenyu and Che Qixuan were very energetic, but she herself was so tired that she fell asleep.

It was already noon when Dongfang Mo and Xi Muru rushed over with Little Mu Yao. It happened to be the Qingming Festival holiday, and little feather had time to come over, so she came along with her parents.

Chapter 1477: surrogacy advice

Of course, not only did Dongfang Mo and Xi Muru come, but they also brought their family doctor and specialist, Liu Hao. Liu Hao also invited the most authoritative brain specialist and obstetrician from Bincheng. They said that they wanted to give ru Yu a more comprehensive check-up.

After a more comprehensive check-up, ru Yu appeared to be very happy. She had known the Dongfang Family's family doctor, Liu Hao, since they were young. So when no one was around, she secretly said to

Liu Hao, “when you do the check-up later, help me arrange for the brain specialist that you brought. Just say that I’m fine and that I can get pregnant and have a child. ”

Liu Hao found her words funny. He pretended to nod and said, “okay, little feather, no one will help you. They are all bad people who forced you to have an abortion. I will help you. ”

Little feather heard Liu Hao’s answer without even thinking about it and immediately felt discouraged. Liu Hao listened to Dongfang Mo. if he really helped her, it would be weird. He would probably be more serious about the check-up.

That was indeed the case. After the new check-up, the brain specialist from Binhai met with Professor Wu. The two of them discussed ru Yu’s condition together. In the end, they came to the same conclusion. Her pregnancy would suppress her nerves And that nerves would coincidentally affect the little bean in ru Yu’s brain, so they couldn’t take the risk at all.

Dongfang Mo looked at the result and felt helpless He said to Lei Taihe, “we didn’t expect this. Of course, we are also clear about the Lei family’s situation. Don’t worry, little feather aborted this child. I will let her divorce Zhen Yu. We won’t delay the Lei family’s inheritance. ”

Lei Taihe quickly said, “it’s not like that, Mr. Dongfang. Our Lei family needs to continue the lineage. However, back then, my eldest daughter-in-law was not pregnant for twenty years. I did not ask her to divorce my eldest son. In the end, she was the one who insisted on getting a divorce. Now that the technology is so advanced, it is not necessary for ru Yu to have a child. First, let her perform the surgery. Then, let them find a surrogate mother. This way, the child born will also be Zhen Yu and ru Yu’s child. This is what my family doctor suggested. ”

“That’s a good idea. ” Dongfang Mo listened to Lei Taihe’s words He gave him a thumbs up. “Mr. Lei, it’s good that you can think things through in this aspect. Alright, then I’ll go talk to my daughter. No matter what, we have to get rid of this child first. There’s nothing we can do about it. ”

“I know that. ” Lei Taihe expressed his understanding. Although he could not bear it when he heard that ru Yu could not give birth, in the end, he was not really a person who only wanted a grandson and did not care about ru Yu’s life.

Xi Muru held ru Yu’s hand by the bedside She gently advised her, “ru Yu, be obedient. Mom and dad won’t harm you. We originally planned to let you have the child and Divorce Zhenyu. However, Zhenyu’s father said that you can use surrogacy. That’s when we remembered this. Yes, you just can’t get pregnant. It doesn’t mean that you won’t ovulate, right “As long as you use your eggs and Zhenyu’s sperm for artificial insemination and find a surrogate mother, won’t you be able to give birth to your child “Why do you have to give birth yourself? ”

“But that... I don’t think it’s real, ” ru Yu said truthfully. “I feel that the child born from someone else’s stomach isn’t mine at all, and I can’t love it either... ”

Chapter 1478: Caring for her parents

“Ru Yu, loving a child doesn’t mean that you have to give birth to it to love it. ” Mu Ru continued to enlighten her daughter. “actually, people naturally have feelings after spending a lot of time with each

other. Not to mention the child that someone helped you carry, even if it's a child that you picked up by the roadside, if you keep it with you for a long time, it will naturally have feelings. Slowly, it will be the same as the child that you gave birth to. "

"I know that, Mommy. " Ru Yu looked at Xi Muru and said, "if I wasn't pregnant yet, I would consider this suggestion. But now, I'm pregnant with this child. I love this child. I already have feelings for it. I don't want to, nor do I have the heart to kill it... ". ..."

When ru Yu said this, her tears fell again. When she thought about the child leaving her and the fact that the child was only destined to be with her for two months, she was in so much pain that she could not breathe.

She wanted to personally experience the hardships of pregnancy, to slowly feel the joy of the child growing up day by day in her stomach, and to experience the feeling of being one with the child and mother. Who could understand all of this?

No one, not even her own mother, could understand. Xi Muru had advised her for a long time and said many thoughtful things to her. She even said that after she did the child, she would let her go hiking in the Sahara desert with Leng Rong and the others.

Dongfang Mo said to her softly, "Ru Yu, in life, not everything is smooth sailing. Not everyone can have everything they want. There are always some things that are not going well in life. There are always some regrets that happen. You have to face reality, accept reality, and face reality. "

Dongfang Mo continued, "Ru Yu, if you are willing to live with Lei Zhenyu for your whole life, then daddy will not let you have no children. We will find the best gynecologist for you and we will choose the best surrogate mother for you. The child will be yours after it is born. Surrogate mother, you won't even let her take a look. This is the same as what you gave birth to. "

"Of course, if you don't want to have a child like this, if you feel guilty that you can't bear a child for him, if you want to divorce him, I'll support you. As long as you get rid of the child in your belly, everything will be fine. Dad will agree to anything you want, okay? "

Look at how good her mother was, how good her father was. They had never been so considerate to her, never cared for her like this, even if she didn't want to be touched.

Daddy, Uncle Yongjun, father, mother, and Auntie wisdom were all on Lei Zhenyu's side. They formed an alliance, and their goal was the same. They wanted to kill the child in her belly.

This was the first time ru Yu felt so isolated. She was isolated by the group. No one supported her idea of having a baby. In fact, no one was willing to listen to her.

After the experts from Binhai and Professor Wu gave her a checkup, the gynecologist professor Gu gave her an ultrasound. Then, she met the requirements for an abortion. However, it had been almost nine weeks, so she had to stay in the hospital for three days after the surgery.

Many experts sat together for a consultation and then decided on the surgery schedule for the next morning. Ru Yu didn't object anymore. She finally understood one thing, which was that an arm couldn't be twisted over a thigh. One person couldn't fight against a group of people.

Chapter 1479 promised to do the surgery

Because ru Yu finally agreed to do the abortion surgery, everyone let out a long sigh of relief. During dinner, Dongfang Mo suggested that they go out for a meal. He said that ru Yu would not be able to eat chili for a month after the surgery, and she loved Chili so much Let her eat a meal before the surgery.

The family went to a sichuan-style hotel. It was run by authentic Sichuan people, and the chefs were all brought from Sichuan, China. All the key ingredients, such as Chili and pepper, were all flown in from Sichuan.

Mu Yao sat next to ru Yu. She had been telling jokes, telling jokes from her studies, in fact, to make ru Yu laugh. Of course, ru Yu also laughed, but actually, it was a little forced.

Because ru Yu had already agreed to have an abortion, no one talked about it anymore. They talked about other things. Lei Zhenyu said that he had a longer holiday in May, which happened to be Labor Day He could go hiking with ru Yu in the desert. He heard that the Sahara desert was very romantic, and he had wanted to go there for a long time.

Ru Yu listened quietly. She knew that Lei Zhenyu was telling the truth because she heard that he was calling Lin Pianran to ask if they could delay the time of hiking in the desert for a few days, and if they could only set off on the date of May.

She knew that he was good, but it was precisely because he was too good that she became increasingly sad and uncomfortable. In the past, she wanted to divorce him because she selfishly wanted to live a peaceful life and selfishly did not want to help him get pregnant and have a child.

But now, she was already pregnant, and he was so selfless. For the sake of her life, he even wanted to kill his own child. Such a man had already put her above himself.

But it was precisely because of this that ru Yu felt even more guilty and felt even more sorry for him. When she thought of the upcoming surgery tomorrow morning, her heart trembled with fear.

After dinner, they went back to the hospital. Xi Muru and Dongfang Mo sat with Ru Yu in the hospital for more than an hour and talked to her a lot. Then, they brought little Mu Yao and Che Qixuan back at almost nine o'clock Lei Zhenyu stayed in the hospital to take care of her.

"Zhenyu, you should go back too. It's getting late." Ru Yu pushed him with her hand. "I don't have anything to do here. I don't need anyone to take care of me. Besides, if I really want to take care of you, it should be after the surgery tomorrow, right?"

Lei Zhenyu nodded and shook her hand. "Ru Yu, I know. But the key is that I want to be by your side. I want to be by your side. I want to look after you. Anyway, this room is big. I'll just make a single bed for you later."

Ru Yu nodded and then said guiltily, "Zhenyu, I'm sorry, I..."

"silly, what's there to be sorry about?" Lei Zhenyu quickly covered her mouth Then he said in a low voice, "you didn't let me down. Really, it's not your fault. If you can't accept a surrogate child, we won't

have children. There are many children in the orphanage in this world. We'll just adopt two at that time.
”

Ru Yu nodded. Her fingers ran through his hair. She sighed in satisfaction and said, “with a husband like this, what more could a husband ask for? In this life, I will never regret marrying you!”

“silly.” Lei Zhenyu pulled her hand down. He smiled and said, “a lifetime is still a long time. Don't say silly things. Go to sleep. You have to do the surgery tomorrow. You have to rest well tonight. Although it's a small surgery, it will still bleed and hurt.”

Chapter 1480: Ru Yu disappeared

“But, I want to eat wontons.” Ru Yu looked at him. She said embarrassedly, “actually, the Sichuan restaurant just now had too much Sichuan pepper. After I was pregnant, my appetite seemed to have changed. Although it was delicious, I didn't eat much. Now I'm a little hungry. Can you help me buy a bowl of wontons?”

“Of course.” Lei Zhenyu smiled and nodded. Then, he kissed her cheek and said, “I'll go and buy it for you now. I remember there's a Wonton shop near the hospital.”

“I want to eat Shanghai Wontons,” Ru Yu whispered with a red face. “I want to eat the Shanghai wontons from the shop on Inchan road. The taste of that shop is the best.”

“okay, I'll drive and get it for you.” Lei Zhenyu saw that she was no longer clamoring to keep the child. Seeing that she had finally figured it out, he did not suspect anything. His wife wanted to eat wontons, so of course, he had to buy them himself.

The distance from the hospital to the Shanghai Wonton shop on Inchan road was not close. It would take twenty minutes to drive. Fortunately, it was already past nine o'clock in the evening. There were fewer cars on the road, and Lei Zhenyu drove a little fast. Therefore, it only took him fifteen minutes to get there.

The Shanghai Wontons were all sold on the spot. When Lei Zhenyu was still a few kilometers away from the Wonton store, he called to ask for it to be cooked in advance. But when he arrived, he still waited for a few minutes before he got it.

The genuine Shanghai wontons were full of a big bowl. It was packed in a jar to keep it warm. Lei Zhenyu carefully placed it under the passenger seat and found something to separate it.

Because there were wontons in the car, he did not dare to drive fast when he went back. It was a twenty-minute drive, but it took him twenty-five minutes to get to the hospital.

He carried the steaming and fragrant large wontons of Shanghai and walked happily to the inpatient department. He thought that it was actually a happy thing to be able to buy a can of wontons for his wife.

However, when he pushed open the door of the ward and walked in, he was stunned. There was no one on the hospital bed. He could not help but panic and quickly put down the wontons to push the door of the bathroom.

However, the door of the bathroom was locked from the inside. He could not push it open, so he could not help but shout loudly, "Ru Yu, are you in there? Ru Yu, open the door?"

There was no response, and his heart became more and more flustered. He thought that ru Yu might have fainted because she had fainted when she drew blood yesterday, so he called the nurse over loudly.

The nurse also knocked a few times with her hand, but she could not open it, so she immediately found the key to open the door. However, when she opened the bathroom door, she was shocked to find that there was no one in the bathroom.

"where did the patient go?" Lei Zhenyu was angry and questioned the nurse angrily.

"We don't know." The few nurses shook their heads at the same time, and then quickly stated, "we have so many wards here. Moreover, we did not find her at the front desk. She probably did not use the main door."

"quickly get the security staff to check. Where did she go? Is She still in the hospital?" Lei Zhenyu was flustered. An ominous premonition instantly welled up in his heart.

"Mr. Lei, don't be anxious. Maybe she just went downstairs to buy some things?" The head nurse came over to comfort Lei Zhenyu Then, she quickly said, "I'll get the broadcast room to broadcast it. Tell Ms. Che ru Yu to hurry back to the ward. Maybe she's still in the hospital."

Lei Zhenyu waved his hand. "Why aren't you going? The sooner the better!"

He quickly ran downstairs and took out his phone to call Che Qixuan as he walked. Ru Yu was gone. This was definitely not a good sign.
