

Divorce 1571

Chapter 1571 finally escaped

After Lei Zhensheng left, Yu Xin used the fastest time to contact Li Weisheng. Li Weisheng had already prepared her documents. In fact, he had asked someone outside to apply for a set of fake documents.

Yu Xin did not dare to resign from the women's hospital because she was afraid that the person-in-charge of the women's hospital would call Lei Zhensheng. Therefore, no one knew that she was leaving except herself.

She also did not dare to let Lei Zhensheng's family's chef know. Fortunately, the chef was not ah Ling, so he was not responsible for keeping an eye on her. However, after Lei Zhensheng left, his driver came back to the house and was responsible for taking care of his dog and the gorilla on the rooftop.

Before leaving work in the afternoon, Yu Xin called the chauffeur and told him that she had to work overtime in the evening. She asked him to inform the family's chef that there was no need to prepare her dinner, so she ate in the hospital cafeteria.

This was the seventh day after Lei Zhensheng left. There were two nights before that when she worked overtime at eight o'clock in the evening. Therefore, the chauffeur did not suspect her and only told her to call him if she worked overtime late and that she would drive over to pick her up.

In fact, Yu Xin did not have to work overtime tonight. Moreover, she left the hospital an hour earlier in the afternoon because she took an hour off because she was not feeling well.

Li Weisheng's car was waiting for her outside the hospital entrance. Moreover, in order to prevent Lei Zhensheng from finding out where she was going in the future, Lei Zhensheng had specially borrowed a taxi to drive it.

Of course, the taxi could not drive directly to Tainan because it would be too risky. Therefore, the taxi drove directly into the downtown area of Taipei and then dropped Yu Xin off in the downtown area. Li Weisheng then drove the taxi away.. Meanwhile, Yu Xin followed Lei Zhensheng's instructions and went to a blind spot that was said to be invisible to the electronic eye.

In that blind spot, there was already a tricycle rented by Li Weisheng. The driver of the tricycle followed Li Weisheng's instructions and wore sunglasses and a hat with a very low brim. Then, he took a very small.. It just so happened that he could ride away from the alley where the tricycle was parked.

There was no video surveillance in this alley, so he was not worried about being traced at all. At the end of the alley, Li Weisheng's car was parked there. Coincidentally, this place was the entrance of the alley, so there was no surveillance equipment.

Yu Xin and Li Weisheng were in his car at the entrance of this alley. Li Weisheng went to drive, but for safety reasons, Yu Xin did not dare to sit in the front passenger seat. She did not even dare to sit in the back seat. In fact, she was squatting under the back seat.. Using the front seat to block, even if there were electronic surveillance cameras, they would not be able to detect her. This was because the electronic surveillance cameras could only see if there was anyone in the back seat.

From Taipei to Tainan, usually, there would be less than four hours of traffic jam. However, tonight, Li Weisheng had brought Yu Xin to change cars several times in a row. In the end, it took them more than an hour to drive on the highway.

Therefore, it was already past seven o'clock in the evening when they really left Taipei. They encountered traffic on the road, and by the time they reached Tainan, it was already past midnight.

Although Taiwan was a southern city, it was still a little cold in the early morning of October. Yu Xin was afraid of being discovered, so she did not dare to bring clothes out from Lei Zhensheng's house. When she got out of the car, she could not help but shiver.

Lei Zhensheng immediately took off his coat and put it on her body. He hugged her and walked towards a hotel. He said in a low voice, "I'll take you to buy a few sets of clothes tomorrow, and then I'll take you to the hospital to register. I've rented a one-room, one-hall House for you near the hospital. This way, it'll be more convenient for you to go to and from work."

Yu Xin nodded and turned her head slightly. She looked at the man standing beside her and said with a slightly choked voice, "thank you!"

Chapter 1572, a smile that he had never seen before

Lei Zhensheng stayed in Hong Kong for three days before returning to Seoul. This was because he had been in the branch office for nine months and had yet to return to the head office to take a look. There were some things that he had to return to meet up with the head office.

His younger brother, Lei Zhenyu, was more capable and dedicated than he had imagined. This made him very gratified. He could not help but praise Lei Zhenyu and said, "with you in the Lei family, I can be at ease. In the future, I may not return to Taipei for a long time."

"What?" Lei Zhenyu was shocked when he heard this. He could not help but quickly ask, "why You should be the CEO of the Lei family, right You should hurry back "I don't want to be the CEO. I still prefer to be a lawyer. If I continue to be the CEO, I'm worried that Che ru Yu won't be able to live with me anymore?"

"Why would che ru Yu not live with you anymore?" Lei Zhensheng found it strange. He could not help but ask, "aren't the two of you very close? Back then, you couldn't even break up after being torn apart. Now that no one is tearing you apart, could it be that the two of you are tearing yourselves apart?"

Lei Zhenyu was stunned when he heard this. He could not say that he and Che Ru Yu had become colder and colder recently. In fact, it was probably because Jin Zhengnan's death had too much of an impact on che ru yu that she began to neglect him.

He did not say these words in the end, and Lei Zhensheng was not that interested in the relationship between Lei Zhenyu and che ru Yu. Before he left, he casually asked, "about that, how is Shaofen doing now?"

Shaofen Lei Zhenyu was stunned for a moment before he reacted. Lei Zhensheng was asking about his former sister-in-law, Cai Shaofen. He did not expect that his elder brother, who had been in Taipei for more than nine months, could still remember his sister-in-law.

“It should be pretty good, right?” Lei Zhenyu thought for a moment and answered, “I heard that she works at a new company and is doing pretty well. She seems to be in a relationship with the vice president of her company. I heard that she is about to get engaged or something, but I don’t know whether she is engaged or not. In any case, I have almost no contact with her.”

Lei Zhensheng nodded and bade farewell to his brother. He walked out of the Lei Corporation and directly drove the car around on the road. Unknowingly, he drove the car to Cai Shaofen’s company.

It was the afternoon when he got off work. October in Seoul had already begun to turn cold. The employees of this company gradually walked out. He waited patiently, wanting to see when Cai Shaofen would come out.

After waiting for a long time, when he thought that he could not wait, Cai Shaofen came out. However, she was not alone. Instead, she walked out side by side with another man who was about 50 years old. The two of them were talking in a low voice. They were very intimate.

He only felt a little uncomfortable. Cai Shaofen, the woman he used to be, had been his wife for 18 years. Although they did not start their marriage with love, in the end, they still lived together for so many years. It was impossible to say that there was no love at all.

He had originally thought that if Cai Shaofen came out alone, he would invite her to a public dinner and chat with her. He would then apologize to her. After all, in their marriage, he had indeed cheated on her and done so many things that had wronged her. Even though she was no longer his wife.

But who would have thought that God would not even give him a chance to apologize? When he finally came to look for her, she already had other men by her side to protect her.

He saw the man very gentlemanly open the car door for her, saw him very gently pull the seatbelt for her, saw her face with a smile that he had never seen before, and enjoyed all this in peace.

Chapter 1573: Once a perfect wife

He felt his nose turn sour. Cai Shaofen had been married to him for eighteen years, but she had never smiled at him like this. She had always been gentle and gentle in front of him, and the expression on her face was indifferent and cold.

He had once thought that a woman like Cai Shaofen was not suitable to be smiled at, because she did not need to smile to show her nobility. Therefore, a few years before their marriage, he still loved to take her out to socialize.

But who would have thought that in eighteen years, he had not truly understood her, nor had he truly entered her heart. It was not that she did not like to smile, but she just refused to smile at him.

Thinking about it, it made sense. His marriage to Cai Shaofen originated from a marriage alliance. At that time, the person he loved was Lan Yunxi, and his father didn't allow him to marry Lan Yunxi because Lan Yunxi couldn't bring benefits to the Lei family, but the Cai family could.

At that time, it wasn't that he hadn't resisted. In order to be together with Lan Yunxi, he even ran away because Lan Yunxi was already pregnant with his child at that time.

But that escape ultimately resulted in a car accident, and that car accident also caused him and Lan Yunxi to completely separate. Then, he finally resigned himself to fate and married Cai Shaofen, the daughter of the Cai family.

Before they got married, he had only met Cai Shaofen once. He only knew that she was a beauty, as beautiful as the person in the painting. Her beauty was beautiful, but it lacked the spirit of life.

After that, they got engaged and then got married. The two of them didn't even talk much, let alone fall in love. It could be said that two strangers had walked together.

But even so, he still maintained that he and she were husband and wife. The two of them should live a good life, so on their wedding night, he still forced himself. He turned off the lights in the room and went to bed in the dark.

Now that he thought about it, didn't Cai Shaofen force herself as well? When he pressed her under him, she even said, "can you be gentler? I heard that the first time was very painful."

He didn't remember how he felt about Cai Shaofen. In short, he was very gentle on the first night because he heard her say that the first time was probably because of a man's pride. He did indeed get a rare satisfaction that night.

But in the days that followed, he and Cai Shaofen's husband and wife life were very respectful. Not to mention fighting, their faces were almost never red because she was too perfect and did everything very well. He didn't need to worry about her. He could not find a place to be angry.

The first ten years passed by peacefully. It was so dull that he could not find anything that could remember the wonderful things between them. The only thing he remembered was that she was very obedient and drank the Chinese medicine prescribed by the family doctor. It was so bitter and smelly. She drank it so much that she did not even frown.

Now that he thought about it, he really let her down. Because in the eleventh year, out of his desire for children, he actually failed to control himself and found women outside.

In all conscience, he couldn't even remember the names of those women now. Because his original goal was only to have a child, it was impossible for him to have a good relationship with other women.

In the beginning, he did hide it from Cai Shaofen, but these things would naturally be exposed over time, so he couldn't hide it for long.

He had thought that Cai Shaofen would quarrel with him if she knew, but who knew that Cai Shaofen would also pretend not to know when she found out. But one night, when he wanted her, she lightly handed him a box of TT, saying that she didn't want to get sick.

Chapter 1574: The past

He thought that this might be the first quarrel between him and Cai Shaofen, and that was the fifteenth year they had been married. That night, he threw away the TT that she had given him, got up, put on his clothes, and went downstairs.

This might be the only cold war between him and Cai Shaofen, because after that night, he did not go home for two months because he was angry. In fact, he still hoped that she would take the initiative to come back to him.

In the end, she did take the initiative to call him because her parents came from Jeju Island. She did not want her parents to know that they were not happy.

After that time, they naturally reconciled with each other. When he wanted her in the evening, she did not pass him the TT. However, he could clearly feel that she was as unresponsive as a piece of wood.

In fact, since she handed him the TT, he had already sent away the women outside in the past two months. He still thought that the women outside could not bear children. It was probably his fate, so he decided to stop. He would just go home and live a good life with her.

However, she didn't feel any joy at his coming home every day, nor did she feel any joy at his friendliness. She had always had an indifferent face, and that face gave him the feeling that he would never be able to enter her heart.

They didn't get married with love, but in the first ten years after their marriage, he was still trying hard to be a good husband, so he didn't look for women outside.

However, some things couldn't be done just by hard work, such as love. He didn't know if Cai Shaofen had another man in her heart, but when Cai Shaofen married him, it was indeed the first time.

His hard work still could not change the fact that she was like a piece of wood on the bed at night, no, like a corpse. So, in the end, he was still completely defeated. Then, he coincidentally met Jin Qianru outside. That was a woman who looked somewhat like Lan Yunxi.

He thought that when he and Cai Shaofen finally reached the stage of divorce, it was still because of Jin Qianru's deception. If she was not pregnant, he would not have asked Cai Shaofen for a divorce.

Of course, CHE RU YU marrying Lei Zhenyu was also one of the reasons that helped Cai Shaofen divorce him. Because it was che ru Yu who introduced Cai Shaofen to Lin Yuxin. Only then did Cai Shaofen realize that the person who could not have children was not her but him.

He recalled that he had once opposed Lei Zhenyu and Che Ru Yu, that he had once indulged Lan Ruoshui, and that he had once brought Jin Qianru back to humiliate Cai Shaofen. He regretted it so much that he wished he could find a piece of Tofu and kill himself.

Indeed, he could not be blamed for Lan Ruoshui's matter because he also wanted to have a daughter of his own. However, who would have thought that the Lei family's family doctor would lie to him and actually say that Lan Ruoshui's DNA matched his DNA, so.. Only then did he believe that Lan Ruoshui was his daughter.

He had insisted on not leaving his marriage with Cai Shaofen. However, when Cai Shaofen found out that he was infertile, she insisted on leaving him. Moreover, it was useless for him to chase her to Jeju Island. She had made up her mind not to live with him anymore.

Seeing Cai Shaofen and the man happily driving away, looking at the side of her face as she talked to the man with a bright smile, he could not help but feel pain in his heart.

He had lived with Cai Shaofen for 18 years. Cai Shaofen should not have loved him. She was the same as him. She was just doing her duty as a husband and wife. She was trying her best to normalize this husband and wife life. However, no one had thought that she should integrate into their relationship.

He stayed at the entrance of this company for a long time until Cai Shaofen and the man's car disappeared into the traffic. Only then did he come back to his senses and slowly drive away.

Chapter 1575: Lin Yuxin is his calamity

Lei Zhensheng could not help but laugh bitterly as he drove. Perhaps he and Cai Shaofen were only meant to be married for 18 years. That was why so many things happened in the Lei family during the year of their 18-year marriage.

And Lin Yuxin was the key figure in the complete breakdown of their marriage. If she had not discovered that Cai Shaofen did not have any illness, if she had not discovered that there was no sperm in his semen, then his marriage with Cai Shaofen.. What would it be like?

Cai Shaofen's temper had always been docile, especially the longer they had been married, especially since she had not been able to get pregnant. Therefore, she had always been well-behaved in the Lei family and had almost never had any thoughts of divorce.

Of course, if it were not for Lin Yuxin, he might have let Jin Qianru give birth to the child and then carry it back to Cai Shaofen to raise according to the Lei family's rules. After that, he would have a small family outside because Jin Qianru was the child's mother.. He couldn't kick Jin Qianru away.

However, if that was the case, he would really be a complete fool. Because the Child Jin Qianru gave birth to was not his, but he had to keep it in the dark. He even had to ask his wife to help Jin Qianru raise the child of her and the man outside.

Thinking of this, he Mengran felt that Lin Yuxin was not detestable at all. Although she destroyed his marriage, she also saved him from a bigger mistake, right?

At least, he wouldn't continue to hurt Cai Shaofen. At least, he didn't have to help Jin Qianru raise the child of her wild man. At least, Cai Shaofen could finally use this opportunity to leave him and find a truly happy life that belonged to her.

"Shaofen, I'm sorry," he could not help but mutter to himself. In his heart, he muttered to himself, 'so many years, I've really wasted you. Moreover, I even let Lan Ruoshui and Jin Qianru come to the Lei family to humiliate you. I'll see you some other day... ' I'll definitely apologize to you personally.

Lei Zhensheng only stayed in Seoul for a week. Originally, he was going to stay for ten days, but he felt that there was no need to stay any longer. Therefore, once the work was over, he rushed to Taiwan without stopping.

Lei Zhenyu also said that this was the head office and Taiwan was just a branch office. He should stay in the head office to handle matters because he wanted to spend more time with Che ru Yu.

Lei Zhensheng scoffed at his words and could not help but curse in his heart. You and Che Ru Yu are still young and have plenty of time. I will be 49 next year. Wouldn't I have to seize the time to go back and have a child with Lin Yuxin?

Of course, he did not tell his brother Lei Zhenyu that he had brought Lin Yuxin to Taiwan because he was worried that his brother would tell his sister-in-law, che Ru Yu. As for the matter between him and Lin Yuxin, he could not let che Ru Yu know about it yet.

When he returned to Taiwan, he had to prepare a romantic proposal for her. As he sat on the flight to Taiwan, he still had this thought in his mind. He had to impress that woman, Lin Yuxin. He had to make her agree to marry him.

When he thought of the proposal, he suddenly remembered that he had lived for more than 48 years, but he had never proposed to any woman. Because his marriage to Cai Shaofen was a marriage alliance, there was no need to propose at all. It was a direct engagement.

Finally, he had left a first for Lin Yuxin. As he thought of this, he felt a little more comfortable in his heart. When he thought of the woman's resistance to him, he could not help but feel melancholy again.

Chapter 1576 her name was Wang Peiqin

Yu Xin's name in Tainan was Wang Peiqin. It was completely different from her original name. Even if Lei Zhensheng saw the name Wang Peiqin, he would never think that it was her.

This hospital in Tainan really wanted her. They did not even suspect her fake Id. They even asked her indifferently if she had a bank card, saying that they usually gave her a bank card for her salary.

No, how could she have a bank card Moreover, this ID was fake. She did not even dare to take it to the bank to open a card, okay?

If you don't have a bank card, then I'll give you the cash every month. The Personnel Department of the hospital spoke calmly. Li Weisheng had probably already informed her.

Therefore, Lin Yuxin, no, it was Wang Peiqin, stayed in this hospital and started her career in the Gynecology Department of another hospital. She continued her essential work and continued to serve the majority of her female friends.

The House that Li Weisheng helped her rent was near the hospital. One Room and one living room were enough for her to live alone. The next day, Li Weisheng accompanied her to the mall to buy some daily necessities and clothes. After that, he accompanied her to have a meal before leaving.

Once Li Weisheng left, her life began to get on the right track. She was still working as a doctor in this hospital. However, it was no longer the Department of infertility and sterility, but the department of Obstetrics and gynecology. Every day, she would give birth to pregnant women with big bellies. Occasionally, she would go to the delivery room to deliver the babies Or she would have to do a Caesarean section.

Under normal circumstances, doctors usually had a more regular schedule, from nine to five. However, the doctors also had a clear rule that they could not turn off their phones at any time. If there was a temporary situation in the hospital that required her to go.. Even if it was in the middle of the night, she would still have to get up and run over.

Of course, when she left Taipei, she threw away her cell phone card. Her current number was a new one. Lei Zhensheng could not find it, and she could not let Lei Zhensheng find it.

After Yu Xin settled down in Tainan, she originally wanted to call her best friend, Che Ru Yu, and ask her to help get a replacement ID in Seoul before sending it to her.

However, when she thought about it, she felt that it was not appropriate. It was not that she did not trust Che Ru Yu, but she did not want to implicate her. This was because ru Yu was not liked by Lei Zhensheng and Lei Taihe in the Lei family. If she helped her again.. In the end, it would not be good if she and Lei Zhenyu could not get along.

Therefore, she gave up looking for Che ru Yu. However, other classmates and friends either did not trust her too much or they had limited ability to trust others. Therefore, she had no choice but to find an agency in Seoul, South Korea, online.

She specifically helped people to get documents. She told the agency about her situation and the agency asked her to provide photos. Of course, she had to send 10,000 US dollars back for various expenses.

10,000 US dollars. She had worked at the women's Hospital in Taipei for a little more than four months, but she had only received three months'salary, which was in Lei Zhensheng's card.

Lei Zhensheng's card was in her hands. Of course, there was more than 10,000 US dollars in it. Normally, there should be 100,000 US dollars in it, but she could not withdraw the money no matter what, because once there was a change in the card, Lei Zhensheng would definitely chase after her She could not let Lei Zhensheng know where she was.

Therefore, Yu Xin had to temporarily shelve the idea of getting a replacement card. She was glad that at least the money found in this hospital was given to her, and she would need about four months to save up 10,000 US dollars.

Her monthly salary was about 3,000 US dollars, but she had to rent a house, live daily, and spend some money. Therefore, she decided to use four months to save up 10,000 US dollars.

Chapter 1577 became famous one after another

In Tainan, not only did she come from a foreign country, but she was also in an even stranger environment. Many of the local people around her spoke Hokkien in their daily communication. Fortunately, these people came to the hospital to see patients who spoke Mandarin.

In order to prevent Lei Zhensheng from finding her, she usually kept a certain distance from the doctors and nurses in the hospital. At the same time, she did not take photos with anyone. She was afraid that someone would accidentally put the photos on the Internet.

Her name was Wang Peiqin. This was the public recognition in the hospital. Everyone called her doctor Wang. In just a month, Doctor Wang Peiqin became famous in the hospital because she had performed several high-difficulty surgeries in just a short month.

The most difficult one was when she met a woman in the hospital half a month ago. The woman was a local and a native of the mountains. Perhaps because she had not received modern education, she insisted on giving birth by herself. She said that a c-section would kill someone. How could she not die after her stomach was cut open?

When she was carried here, her uterus had already been opened. However, the child was not born first but first came from her butt. It was impossible to give birth to her.

In such a situation, the doctors in the hospital immediately made the decision to give her a c-section. However, the pregnant woman and her family refused to give birth by c-section no matter what. They insisted that it was unlucky to give birth to a child from another place.

The hospital had no choice. The doctors in the hospital were all female doctors in their thirties and forties. Everyone was used to performing surgeries whenever there was a slight difficulty in giving birth. Therefore, no one could do anything about this situation. They had never experienced it before.

In the end, Yu Xin was the one who dared to go up. This was because she had been a doctor in the countryside of Jeju Island in South Korea for half a year. That place was also relatively backward. Many rural people still liked to give birth by themselves. They did not like Caesarean sections.

It was with this little bit of experience that she gritted her teeth and closed her mouth. The obstetricians and gynecologists standing around the entire hospital looked at her nervously. Of course, they also treated it as learning. After all, this was a rare learning experience.

Yu Xin relied on her little bit of experience and boldness. She also relied on the hospital's side-incision technique, as well as the technique to push the baby back into the uterus after exposing a little bit of its bottom at the entrance of the uterus. Then, she repositioned the baby in the pregnant woman's stomach... ..

Finally, after a full four hours, when her hands were almost out of strength, finally, with her forehead full of sweat, the baby was successfully delivered. Both mother and child were safe!

This woman who was originally judged to be waiting for death without a c-section was actually pulled back from the brink of death by Yu Xin. The hospital was immediately alerted, and the family members immediately knelt down and kowtowed to Yu Xin. They said that she was a bodhisattva who saved the suffering and saved the suffering.

Yu Xin was so tired that she almost collapsed. She was still a Bodhisattva, but she was just an ordinary person. It was just that she had a little more experience than other obstetricians in delivering babies in the countryside. It was just that she was a little more daring than other doctors.

From then on, Wang Peiqin became famous in this hospital. In less than a month, she became the best obstetrician in this hospital. After many obstetricians knew about her, they asked her to help deliver the babies by name.

Yu Xin did not expect that saving someone once would actually increase her workload. Fortunately, the director of the hospital was kind to her and said that he would try his best not to arrange too much work for her. Therefore, many people would say that they were not free or had no schedule when they made an appointment with her.

Chapter 1578 could consider getting married

Her work was gradually getting on the right track, and she was slowly getting used to life in Tainan, including the taste of the food here. During her holidays, Li Weisheng would usually come over to spend time with her.

Every Saturday morning, Li Weisheng would rush over from Taipei. He would accompany her to tour various attractions in Tainan, accompany her to Zhuxi City, accompany her to the heavenly Harem, and explain Tainan's history to her. He would tell her that during the Ming and Qing dynasties, this place was once the capital of Taiwan.

When Yu Xin first arrived in Tainan, she was indeed filled with fear and trepidation. She almost did not dare to go out because she was worried that Lei Zhensheng might fall from the sky. Or perhaps someone from Lei Zhensheng's family accidentally bumped into her?

However, as time went by, her worries gradually faded away because she felt that there was no need to worry at all. After all, Taiwan was so big, and only a few people from Lei Zhensheng's family had seen her?

Moreover, those people who worked in Lei Zhensheng's family were still working in Lei Zhensheng's family, weren't they? They wouldn't come to Tainan, so how could they see her?

With this thought in mind, her heart was completely relaxed. So, as long as Li Weisheng came to Tainan, she would go out with him to play, climb mountains and swim in the lake. Anyway, Li Weisheng said that he didn't have a partner to play with, and she was a very good playmate.

Yu Xin had once thought that she would quietly stay in Tainan for a year, because she would need four months to save up the fees for the documents, and it would take a few months to get the documents, and she also had to save up a sum of money to return to Seoul.

After returning, she definitely could not stay in Seoul. She had to think of a way to go somewhere else, and she had yet to figure out where else to go. The only thing she could think of now was to first escape from the city of Taiwan.

So, one day, she told Li Weisheng about this plan, and the time difference made Li Weisheng laugh until he was angry. He sat on a big rock He smiled and said to her, “are you stupid? It’s not safe for you to escape anywhere. As long as he finds you, he will capture you back. Don’t you still owe him a large sum of money?”

“Yes,” Yu Xin was a little dejected and said weakly, “I owe him hundreds of thousands of dollars and I even have an lou. The most despicable thing is that he thinks that I drove his wife away and wants me to accompany a wife to her.”

Li Weisheng couldn’t help but laugh when he heard Yu Xin’s narration. He sighed and said, “you’re the most miserable doctor that I know. I’ve never heard that a doctor could encounter such an unexpected calamity like you.”

It was indeed an unexpected calamity. She had only helped Cai Shaofen out of kindness and in the end, she had helped herself. No other doctor would want her to be so unlucky, right?

Doctors were most afraid of getting into a medical accident. Therefore, many doctors would usually not stand up for themselves when it was too difficult for them to protect themselves. Moreover, many patients who could still be saved had to retreat because of the doctors’ knowledge of difficulties, and in the end, they could not be saved.

“You can consider getting married.” Li Weisheng gave her an idea. “think about it. If you’re already married and become another man’s wife, no matter how powerful Lei Zhensheng is, he can’t go and snatch another man’s wife, right At most, he’ll just ask you to return the hundreds of thousands of dollars to him.”

Yu Xin was stunned when she heard this, then she nodded and said, “good idea, but the key is who am I going to marry? Besides, even if I really find someone to marry, who in an ordinary family would be able to fork out a hundred thousand dollars to help me pay off my debts?”

Chapter 1579 did not count as a proposal

Li Weisheng looked at her with a smile just like that After a long while, he said faintly, “there’s a man of marriageable age right in front of you. Although he’s not rich, he can still help you pay off the debt of a mere hundred thousand US dollars. If you’re willing, he can marry you.”

“There’s a man in front of you?” Yu Xin did not react in time. Her gaze scanned the surroundings before finally landing on Li Weisheng. She asked doubtfully, “are you talking about you?”

“Then who do you think it is?” Li Weisheng smiled and said, “Yu Xin, I’m 33 years old and you’re 30 years old. Our ages are very similar. Moreover, the two of us can be considered to be a good match when we walk together. We’ve known each other for half a year and our personalities can be considered to be compatible. I think the two of us are suitable for marriage.”

“suitable for marriage?” Yu Xin was stunned again and looked at Li Weisheng in a daze. She really didn’t think that he would tell her that he wanted to marry her.

“Yes.” Li Weisheng naturally took over Yu Xin’s words. He looked at her and said very sincerely, “Yu Xin, we’re already over 30 years old. It’s impossible for us to still have many dreams of love. At our age, the first thing to consider when getting married is whether it’s suitable and not love, don’t you think so?”

Yu Xin was silent for a moment before she nodded and said, “that’s true, but, Weisheng, I want to tell you the truth. I’ve followed Lei Zhensheng before, and this time, it’s not as simple as simply staying in his house. Between me and him...”

“I know,” Li Weisheng indifferently took over her words and said indifferently, “in today’s society, people say that there are very few 18-year-old virgins, let alone a 30-year-old?”

Li Weisheng paused for a moment. Then, he smiled bitterly and said, “moreover, before this, I once had a girlfriend who lived together with me. Later, because of the opposition from both families, we eventually broke up. So, I was originally not pure. Before I lived with my girlfriend, I also had other girlfriends and had intimate relations with them.”

When Yu Xin heard what he said, she did not speak anymore. It seemed that she was too traditional. She always felt that it was already very dirty for her to be with a man. Little did she know that the Taiwanese people did not take this seriously at all.

“Yu Xin, let’s get married.” Li Weisheng moved closer to her and finally plucked up the courage to pull her into his embrace. He hugged her tightly with his arms and said in a low voice, “let me help you escape from the Sea of bitterness. In the future, let me take care of you.”

When Yu Xin heard this, she felt extremely uncomfortable. She knew that Li Weisheng was good to her, but she was a thirty-year-old woman. She could tell that this kind of good was not good between a couple, but only between friends.

However, she did not know why Li Weisheng proposed to marry her. Moreover, the way he proposed was basically not considered as a proposal. He only said that he would help her escape from the Sea of bitterness and take care of her in the future, but he did not say that he wanted to give her happiness.

Perhaps, to give someone happiness was too heavy a promise. Li Weisheng might think that he could not give it to her, or perhaps he did not have the ability to give it to her, so he did not say that.

Yu Xin did not agree immediately. Although she also knew that it was just a joke that this society was still looking for love, in the end, she still had some hope for a marriage without love.

“Let me think,” she finally opened her mouth and crawled out from Li Weisheng’s arms. Then, she said softly, “marriage is a major event in life after all. I can’t get married without thinking about anything. Moreover, this place is a foreign country to me.”

Chapter 1580: Who Helped Lin Yuxin escape

On the plane, Lei Zhensheng was still thinking of giving Lin Yuxin a grand proposal ceremony. He wanted to hold a grand engagement ceremony with her and then give her a beautiful wedding.

This was what he could give her. Of course, what he couldn’t give her was his first time. What he couldn’t give her was his first love. What he couldn’t give her was a pure love.

After all, he was eighteen years older than her. When he became an adult, she had just been born. Those eighteen years were enough for him to do a lot of things. Moreover, they had missed more than eighteen years?

It was 30 years. From the time she was born to the time she was 30 years old, he had only met her because of his wife's divorce. In these 30 years, he had already changed from an ignorant 18-year-old youth to a mature, steady, cunning, and cunning man A businessman who lacked sincerity.

In these 30 years, he had also experienced a lot of women, so he could not say that he was pure. Whether it was his body or his heart, they had long been tainted, and there was no way to wash them clean.

He could only use the years to make up for these debts to her. After all, she was a clean and innocent woman, and in front of this cleanliness and innocence, he looked extremely filthy.

Lei Zhensheng thought everything was too perfect. However, when he walked out of the airport and saw his assistant who came to pick him up looking nervous, he felt strange and couldn't help but ask, "what's wrong? I didn't scold you. Why do you look so guilty?"

"Miss Lin... Your Villa's housekeeper called and said," the assistant looked at Lei Zhensheng and said carefully, "Miss Lin is missing."

"missing?" Lei Zhensheng was so shocked that the luggage in his hands fell to the ground. He couldn't help but ask, "WHY is she missing? How long has she been missing? Half a day, one day?"

"She hasn't come back for five days." The assistant lowered his head He carefully reported what he knew, "the housekeeper said that she went to work as usual that day and did not see anything wrong. She did not bring anything at home, not even an extra piece of clothing, but she did not come back that night... "."

Lin Yuxin had gone missing, and she did not take any of his things. He quickly went to the hospital to check on Lin Yuxin's last day of work, and everything was normal.

The only thing that was abnormal was that Lin Yuxin had left work an hour earlier in the hospital, but she had called his house to tell him that she had to work overtime at night. Otherwise, he could not find any clues.

Lin Yuxin walked out of the door and took a taxi, but the taxi actually drove to a blind spot and then dropped her off. After she got off, she walked to a remote location and disappeared.

Did Lin Yuxin escape alone, or did someone help her escape Lei Zhensheng first thought of Cai Lingfei, so he found Cai Lingfei as soon as possible.

Cai Lingfei was also shocked when he heard that Lin Yuxin was missing. He said that he didn't know anything about her because he hadn't seen Lin Yuxin since he found out about the relationship between Lei Zhensheng and Lin Yuxin. Moreover, the night that Lin Yuxin left.. He was working overtime at the company. There was a surveillance video to check.

If Cai Lingfei didn't help Lin Yuxin escape, then who helped her escape Could it be that Liar Li Qinghe again?

Lei Zhensheng found Li Qinghe almost as fast as he could. However, Li Qinghe also said that he didn't have any relationship with Lin Yuxin anymore. Moreover, she had lied to Lin Yuxin, so she was embarrassed to appear in front of Yu Xin.

If it wasn't Cai Lingfei or Li Qinghe, then who helped Lin Yuxin escape?
