

Doctor

Chapter 1721

Desperation was like a tidal wave, attacking Lin Ran's mind like crazy. I'm afraid that any person in this situation would lose the idea of fighting back and sit back and wait for death.

Lin Ran was the same, but he had hatred and anger in his heart, for no other reason than the fact that one of the two men in front of him was Chao San.

"Even if I have to die, I'll take one of them with me!"

A cold aura flashed in Lin Ran's eyes, and his heart was even more throbbing with rage.

At this moment, Chao San and the mysterious expert had already arrived in front of him, so when Lin Ran saw that time was not waiting for him, his heart chilled and he instantly mobilised all the remaining true qi in his body.

At the same time, Lin Ran also mobilized a portion of the Chaos Qi within his Chaos Cyclone.

These true qi quickly converged in front of Lin Ran's body and in the blink of an eye, a milky white defensive layer was formed.

This defensive layer was made up of true qi and chaos qi, and its aura was majestic and could not be broken at first glance.

"Hm?"

Seeing this scene, both Chao San and the mysterious expert could not help but have their faces sink.

It was just that at this moment, the arrow was on the string and if they were unable to kill Lin Ran and seize what they wanted in this moment, they would have no chance at all when Elder Li Yuan outside breached the formation and killed him.

Both of them understood the situation in front of them, and with a glance at each other they no longer held back and both used their skills.

"Die!"

There was a fierce light in Chao San's eyes, and his dagger was already thrusting towards Lin Ran's chest.

On the other hand, the mysterious expert's palm formed a claw and blasted towards the milky white defensive layer.

The milky white defensive layer was obviously extraordinary, and he was worried that Chao San would not be able to break through it at all, so the mysterious expert took the initiative to break through the defence, only allowing Chao San to strike at Lin Ran with all his might.

The two of them worked together quite well for a few moments, but would Lin Ran really let them have their way?

Obviously, it was not possible.

As the two made their moves towards him, Lin Ran's entire body moved.

He fiercely turned his body to the side, actually ignoring the mysterious expert and focusing all of his attention on Chao San.

"If you want to kill me, then prepare to die as well!"

A cold aura flashed in Lin Ran's eyes, and instantly another strand of milky white Chaos Qi instantly rushed out from his body, followed by a flash of his Frost Condensation Sword in his hand as he blocked towards Chao San.

"Eh? Seek death!"

Seeing that Lin Ran had actually only side-stepped behind the milky white barrier and actually blocked towards himself, Chao San had greed in his eyes.

At this moment, he even felt as if he had already seen the Vanguard Treasure Pearl, and that he could obtain his own Vanguard Treasure Pearl as long as he killed Lin Ran.

"Dang stall!"

"Bang!"

Two distinctly different sounds rang out almost simultaneously.

At the same time as Lin Ran's Frost Condensation Sword and the dagger in Chao San's hand clashed together, the mysterious expert on one side had slapped his palm on the milky white defensive layer.

"Bang!"

The milky white defensive layer, which was instantly augmented with Chaos Qi, actually slapped that mysterious expert with several cracks, but in the end, it was blocked and did not pop to pieces.

"Hm?"

Seeing this scene, that mysterious expert couldn't help but change his face, he knew very well how strong he was, Elder Li Yuan Li was indeed stronger than him, but he himself had stayed in the Dao Enlightenment realm for an unknown number of years.

Moreover, he was originally from a magical beast, so even a strong person from the Heavenly Mansion realm would have to be killed in one move with this grab, but who knew that this Lin Ran in front of him had actually blocked this strike of his with just the defensive layer condensed into his true qi.

"Pfft!"

As the mysterious expert was shocked in his heart, the voice of Chao San urging him on came from beside him.

"Old Brother Dark Origin, do it quickly! I can't carry it anymore!"

"I fucking know!"

That's right, that mysterious expert was none other than the Dark Origin Musk Eagles, only at this moment he was not even remotely more comfortable than Chao San.

"Dark Origin Musk Eagles?"

Hearing that title, Lin Ran instantly understood who the other party was, who else was there in the surrounding area who called themselves Dark Origin but Dark Origin Musk Eagles, and if they were here with Chao San, then only? The An Yuan Musk Eagles from Wanshou Mountain.

"Knowing it's Laozi and nowadays, today your divine wings Laozi will take it!"

Dark origin musk eagle eyes a cold, raised his hand is another scratch straight to the milky white defense layer.

"The principle is that you are also for the divine wings, so let's see if you have the ability to do so yourself!"

Lin Ran snorted coldly at his words, and then turned his head away from this Dark Origin Musk Eagle.

In his heart, he knew very well that his current strength was no match for the Dark Origin Musk Eagle, so if he wanted to escape from this fellow, he could only rely on Elder Li Yuan who was outside.

However, Chaosan was different. Originally, the difference between Chaosan's strength and Lin Ran's was not that great, but it was only because this guy had the augmentation of a dao that he was able to chase after Lin Ran before.

However, after so much time had passed, Lin Ran had already understood the basic sword moves, so his sword moves had become more powerful, plus it was a life-and-death situation where Lin Ran used the power of the Chaos Cyclone unceremoniously.

As the saying goes, a rabbit bites when it is anxious, not to mention that Lin Ran was a cultivator.

"Clang, clang, clang."

The Frost Condensation Sword in his hand suddenly changed from blocking to slashing, instantly slashing around Chao San's wrist.

"Eh?"

As Chao San didn't react, his wrist was instantly cut by the broken blade of the Frost Condensation Sword, and blood flowed directly down his wrist, and the dagger in his hand even fell out of his hand due to the pain.

Lin Ran was quick and grabbed the dagger from Chao San's hand and held it in his hand with his backhand.

At that moment, the Dark Origin Musk Eagles on the other side had already slapped a claw towards the milky white defence layer.

Lin Ran knew in his heart that the milky white defence layer would not be able to withstand two blows, so he did not hesitate to copy Chao San's dagger with a flip of his wrist and stabbed it straight at Chao San's chest.

The dagger was different from ordinary daggers, it was more like a short sword, because it was half the length of an adult's arm, but the shape was the same as a dagger.

The dagger in his hand went straight for Chao San, who was so frightened that he backed up and dodged.

At the same time, a bang sounded beside him. Lin Ran was shocked and looked sideways to see that his milky white defensive layer had been completely blown away by the Dark Origin Musk Sculpture.

"You're looking for death!"

A fierce aura flashed in the Dark Origin Musk Eagle's eyes as it raised its hand and grabbed towards Lin Ran's chest.

"Bang!"

Suddenly the entire room was struck by another huge tremor, a tremor that frightened the Dark Origin Musk Eagle's body into actually lurching.

Lin Ran's eyes were cold when he saw this, and he turned his head away from him and straightened the dagger in his hand and stabbed it towards the chest of Chao San.

He didn't need to think about it, but he knew that the last tremor was definitely caused by Elder Li Yuan breaking through the formation, and at this moment he had no way to resist the Dark Origin Musk Eagles.

Whether he could live or not all depended on Elder Li Yuan's arrival in time, so instead of waiting for others to judge him, Lin Ran might as well kill one first.

His eyes were icy cold, and the dagger in his hand stabbed towards Chao San without reservation.

Chapter 1722

"Humph! Stupid, you still want to kill me even at this point, do you think you can do it!"

Chao San couldn't help but laugh when he saw that Lin Ran's eyes were bloodshot and bent on killing himself.

Just when the Dark Origin Musk Sculpture had just blasted through the defensive layer, he had taken the opportunity to take two steps back, widening the distance between himself and Lin Ran.

And that dagger was only arm's length, so trying to kill himself from a step or two away was undoubtedly a fool's errand.

"Die!"

Lin Ran was unfazed by this, he didn't know in his heart that he wouldn't be able to hurt Chao San at all with this dagger.

But he had no choice, the Dark Origin Musk Eagles next to him were already coming towards him, and the wind above his head was also gusting, so obviously Li Yuan had also rushed in.

But whether Li Yuan was faster or the Dark Origin Musk Eagle was faster even he didn't know.

Lin Ran only knew that if he didn't want to die in vain, he would have to choose to take one of them with him.

So when he knew that it was impossible for him to kill Chao San at this distance, he still stubbornly did so.

At this moment, this dagger was already his obsession, the only thing he could do in the next moment when his life or death was uncertain.

As for blowing himself up! Lin Ran would not even choose to do so, because what he was carrying was not only his own life, but also Xiao Jiu's glare.

Xiao Jiu was only the same demon stone, and Li was too weak, so he would rather be killed by the Dark Origin Musk Eagles and robbed of his divine wings, than choose to blow himself up.

"Stupid bastard! You come on! You come and kill me! Haha!"

Chao San couldn't help but laugh when he saw that Lin Ran was actually bent on killing himself at the end of his rope.

"Ai!"

Lin Ran's eyes were bloodshot, but in his heart he sighed helplessly, in fact, he already knew that it was impossible for him to kill Chao San with this dagger.

But he just wasn't willing to do it, even if he gave himself another year? Perhaps the outcome would have been completely different.

It was just that because of the sin of harbouring, the Dark Origin Musk Eagles were afraid that they would not give him time at all.

At this moment, Lin Ran was even a little speechless, did he end up dying an unexpectedly horizontal death just because he possessed such a pair of divine wings?

There was resignation in his heart, but Lin Ran had already helplessly closed his eyes and prepared to wait for death to come.

His hand didn't stop, still stabbing towards Chao San in front of him, perhaps this was his last holdout.

"Weng!"

Suddenly, just as Lin Ran's eyes had closed in despair, he suddenly felt as if he had stabbed something with the dagger in his hand.

It was soft and elastic, as if the dagger was stabbing on cotton, but the cotton was unusually tough and was actually stopping his dagger from stabbing forward.

It felt as if Lin Ran was stabbing this dagger against the current in the water at the moment, trying to block his dagger back.

"At this point in time, God you still want to fight against me?"

Lin Ran let out a bitter laugh helplessly in his heart, followed by his full of resentment and anger all bursting out at this moment.

He transferred all the chaos power within his body and gathered it on his palm, and instantly a terrifying force stabbed directly towards the front.

“If I can’t even break this resistance, then I deserve to die!”

Lin Ran let out a cry of anger in his heart, and the next moment his palm instantly stabbed out towards the front.

“Bang!”

A crisp sound rang out, and at that moment it was as if Lin Ran had actually pierced something, that feeling of resistance instantly disappeared, and Lin Ran’s arm had finally pierced this dagger out.

“Death!”

The moment the dagger was thrust out, the sound of the Dark Origin Musk Eagles’ violent rage was heard to the side of his ear.

Lin Ran opened his eyes to look away, ready to wait for the end of his life.

But at that moment, a white mane above the sky instantly shot down and actually blocked himself.

“Get lost!”

The Dark Origin Musk Eagles roared in anger at this without stopping in the slightest, still grabbing one towards the white mane.

“Bang!”

The white mango shattered almost instantly, and the Dark Origin Musk Eagle’s palm followed and grabbed directly towards Lin Ran’s chest.

But it was this momentary pause that allowed Lin Ran to catch a glimpse of life.

“Don’t go yet!”

Li Yuan’s furious roar came from the sky.

Lin Ran instantly came to his senses, and his entire body met the Dark Origin Musk Eagles with a palm towards them, instantly feeling a huge force blast against his palm.

With the reaction force of the Dark Origin Musk Eagle’s grip, Lin Ran’s entire body flew backwards directly towards the back and smashed heavily against a cupboard on the side.

The whole scene was in a mess.

Elder Li Yuan had already rushed down from the sky, heading straight for the Dark Origin Musk Eagle.

“Bastard!”

When the Dark Origin Musk Eagle saw that the momentum was gone, his heart was both angry and unwilling, he turned his head to look at Chao San next to him, followed by a grit of his teeth and with a flash of black light around his body he actually revealed his original body, a huge Musk Eagle.

The musk eagle stirred its wings and headed straight for Lin Ran's direction, this was his last strike before he left, if he still could not kill Lin Ran and get the divine wings, then he had no choice but to give up.

At this moment, Lin Ran had just climbed out of the ruins, and when he saw a huge fierce bird heading straight for him, it was clear in his heart that this was none other than the Dark Origin Musk Eagles' original body.

"Want to kill me! Then you try!"

When he saw that the Dark Origin Musk Eagle was still undeterred, he immediately picked up the short sword and dagger that had fallen to the side and transferred his chaos power to the Dark Origin Musk Eagle and stabbed it with a dagger.

Lin Ran didn't know exactly what he had pierced with that dagger, but the feeling was very comforting to him, as if some shackles had been pierced.

"Give me death!"

The Dark Origin Musk Eagles roared, and a huge claw came straight at Lin Tian as if it were a steel blade.

"Come on!"

Lin Ran's clothes were ragged, with countless holes and blood coming out of some places, as he stabbed towards the Dark Origin Musk Eagle with his dagger clutched in his palm.

However, with this dagger thrust, Lin Ran felt completely different.

He had trained in the basic stances of the Sword Dao, and stabbing was only one of them, but for some reason this stab felt completely different from the stab he had worked so hard for a month to train before.

"Poof!"

Suddenly, just as Lin Ran's heart was all a bit puzzled, the Dark Origin Musk Eagle that was still two meters away from him suddenly cracked a gash in its claws, and blood instantly flowed down.

"Bastard! You wait for me!"

Seeing this, the Dark Origin Musk Eagles were busy putting away their claws, and with a swirl of their wings, they directly rushed out of the room and flew out into the distant night sky.

Elder Li Yuan also rushed over at this moment, but he didn't chase after him, instead, he came to Lin Ran's side and looked at him with a somewhat strange gaze.

"Why aren't you chasing, Elder?"

Lin Ran was also puzzled in his heart and was busy asking.

“The Dark Origin Musk Eagle is a magical beast, I am not as good as him in the speed department, so I can’t catch up!”

Li Yuan did not hide and said directly, and then he pointed behind himself and asked.

“On the contrary, you, what was the situation with that stab just now? How did you kill Chao San?”

“Huh? Chao San is dead?”

Lin Ran froze at his words, when had he killed Chao San? How come he didn’t even know about it!

Chapter 1723

Lin Ran turned sideways and saw that Chao San was sitting on the ground, leaning against the wall, not breathing.

As he ran forward to check, Lin Ran immediately saw that there was a wound on Chao San’s chest, which was obviously made with a sharp weapon, and as it was located right in front of his heart, it was obviously the fatal wound that had killed him.

But who was Chao San? He was a cultivator, and his strength was still at the Realm of Enlightenment, although he was also at the Realm of Enlightenment he was not as strong as Elder Li Yuan and the Dark Origin Musk Eagles.

But after all, it is still the enlightenment realm, ah, the real strong people fight almost no one can directly pierce the other person’s heart, that is after all a person’s lifeblood, if there is really an opponent can directly threaten your heart,? I’m afraid this person would not even let the other side kill themselves so crisply even if they blew themselves up!

But the Chao San in front of him did die on this again, which is a bit unbelievable.

“Could it have been that stab of his own just now?”

Lin Ran was at a loss in his mind, for he had closed his eyes when he first stabbed out, and even he didn’t know what he had stabbed, but based on the circumstances, it definitely couldn’t have been Chao San!

“What? You don’t know yourself?”

When Li Yuan saw Lin Ran’s fierce expression, frowning at times in apparent contemplation, he couldn’t help but busily ask.

“Elder Li, honestly I really don’t know what’s going on!”

Lin Ran got up and spread his hands, now he himself was also confused.

“Hmm!”

Li Yuan sniffed and pondered for a moment, just at that moment Chen Shan had run over next to him.

“Elder, the Dark Origin Musk Eagles have escaped!”

Chen Shan said in a deep voice.

“Hm! Reinforce the vigilance!”

Li Yuan had obviously known this would happen, so he didn't say anything more.

Although the Dark Origin Musk Eagles were not as strong as him, if he was determined to escape he really couldn't do anything about it, after all, the other party was a magical beast and cultivated a speed-related dao, once he used his speed to the extreme, even he could only look at him.

Chen Shan immediately left, but his appearance was what made Li Yuan think of something, he turned his head to look at Lin Ran and asked.

“Lin Ran, just now the Dark Origin Musk Eagles seemed to want to strike at you before they left, but why did they eventually give up?”

This question had just occurred to him as well, the Dark Origin Musk Eagle did end up striking out at Lin Ran, but for some reason the claws had simply given up when they were still some time away!

“This!”

Lin Ran heard this and it immediately rang a bell, at that time, he was prepared to use that short sword dagger of Chao San to fend it off, but after the dagger was thrust out, the Dark Origin Musk Eagle's claw was somehow injured, at that time, Lin Ran was also surprised.

At this moment, hearing Li Yuan mention this, Lin Ran couldn't help but feel a shock in his heart.

“Could it be because of that stab?”

“Which stab?”

Li Yuan could not help but frown slightly at his words as well, his eyes looking deadly at Lin Ran.

“Elder Li Yuan there are some things I need to make sure of first!”

Lin Ran said busily, Li Yuan nodded at his words and stopped speaking, just looking at him quietly.

Picking up the short sword dagger that Chao San had left behind, Lin Ran whirled over to the wall.

He faced the wall and unfolded the dagger all the way to a distance of one or two metres from the wall.

He only saw him hold the dagger in one hand, brewing for a moment followed by a flash of white light on the dagger only, and immediately Lin Ran thrust it out.

The dagger was extremely fast, and in the blink of an eye it had been stabbed out at full force by Lin Ran, but previously Lin Ran had measured the distance, and even if the dagger was all the way out there was at least a meter or two away from the wall.

So it was impossible for the dagger to reach the wall in any case.

This was something Li Yuan understood in his heart.

However, when Lin Ran's dagger was really thrust out, Li Yuan's whole body was dumbfounded.

The next moment, a small gap really appeared in the wall in front of Lin Ran.

The gap was so deep that it looked as if the tip of a dagger had been inserted directly into it.

Li Yuan was busy walking over to take a closer look and couldn't help but suck in a breath of cold air, only to see that the gap had been completely pierced.

Although the loft was made of wood, it was built to such a high height that every single load-bearing timber had been specially treated and was extremely strong.

On a normal day, not to mention piercing it directly, a dagger that could chip off a piece of it was not something ordinary people could do.

But Lin Ran's stab had actually pierced the wall in front of him without touching it!

"This!"

Lin Ran looked dumbfounded as well, how had the power of his own stab suddenly become so strong.

He looked at the dagger in his hand and then looked at Chao San, at this moment he finally understood how this Chao San had died, he was afraid that the dagger he had just used with his eyes closed had directly pierced through his heart, causing him to die without even reacting himself.

"Congratulations, little friend Lin Ran!"

Li Yuan had finally seen everything by this point, and said with an arch of his hand and a smile at Lin Ran.

"What are you, Elder?"

Lin Ran asked in confusion, although Chao San's death had surprised him a little, but what did he have to congratulate himself for?

"What? Little friend Lin Ran still doesn't understand?"

Seeing this, Li Yuan could not help but smile as he stroked his beard.

"Please also explain senior!"

Lin Ran said with a busy arch of his hand.

Seeing this, Li Yuan could not help but chuckle and said.

"You are also considered a strange person, but since you really don't know, then I would be willing to talk to you!"

With that Li Yuan turned his side and walked away.

Lin Ran did not have a joy, and immediately followed.

At this moment, many people in the camp were awakened, but under Chen Shan's arrangement the people did not know what had actually happened.

The only people who heard the fight on the roof of the building were Han Qiqi, who lived in a loft with Lin Ran, but in the end they only saw Lin Ran leave with Li Yuan, and although they had many questions in their minds, no one had any answers for them.

Lin Ran followed Li Yuan to the top of the pavilion where he was, and then the two of them sat down on their knees and actually talked in the middle of the night.

Li Yuan was in no hurry and poured a cup of tea for each of them before he smiled and asked.

“Little friend Lin Ran, before explaining your doubts, I have to ask a question first! Do you and the Dark Origin Musk Eagles have a grudge?”

“No!”

Lin Ran laughed, he knew that Li Yuan would definitely ask this, so he immediately did not hide it and explained.

“It’s with Chao San! I came from Beast Hunting City and offended the Wan Family there, and the Wan Family has a great relationship with the Dynasty Beast Mountain, so that’s why I’m in the situation I’m in today!”

“Ao!”

Li Yuan was suddenly dumbfounded at his words.

Naturally, Lin Ran did not want to talk about his possession of the divine wings, the truth of harboring a sin could be said to be something he knew more profoundly than anyone else now, and the fewer people knew about this secret, the better.

When Li Yuan saw that Lin Ran had no intention of continuing to explain, he no longer asked more questions and laughed.

“Since that’s the case, then I’ll talk about that stab you just made!”

“Please also enlighten me, senior!”

Lin Ran saw this and was busy righting himself, his gaze burning as he looked at Li Yuan.

Li Yuan didn’t say anything, and took a sip of his tea and smiled.

“This stab of yours is a basic stance of the Sword Dao and contains the Sword Dao, if I am correct! This move of yours can already be considered a self-invented sword move!”

Chapter 1724

“Self-created sword moves?”

Lin Ran was stunned to hear this and busily said.

“Elder Li, you should be mistaken, to be honest I am just starting out in the sword dao, otherwise how else would I know the basic sword moves that only initiates like cultivators learn!”

Lin Ran knew better than anyone that creating his own sword moves was almost impossible.

Li Yuan, however, shook his head repeatedly at his words.

“No, no, no!”

“I can see very clearly that this move of yours is a self-invented sword move, at least in all my years of living I have never seen anyone use such a sword move that can instantly cross space!”

“Of course, if anything, there are indeed some, but none of those people are people of unparalleled strength!”

Li Yuan said as he fetched a dagger from the side and placed it in front of Lin Ran, saying.

“Take this dagger for example, to make it appear instantly in front of the enemy, how many ways do you think there are to do that?”

“This!”

Lin Ran fell into contemplation at his words, and after a moment said.

“There should be many, for example, if you are fast enough, you can send the dagger there in an instant, and there are certainly three thousand great powers in the Immortal Realm that practice the time and space path, they might be able to achieve this by changing time and space as well!”

“That’s right!”

Li Yuan smiled and nodded, before saying.

“But I can tell you very clearly that even a magical beast like the Dark Origin Musk Eagles, who are extremely good at speed, can’t even make a dagger instantly cross a distance of a meter or two to hurt someone!”

“You must be wondering why!”

“Please also explain senior!”

Lin Ran busily said respectfully.

Li Yuan smiled at his words,? said.

“That’s because, he’s not fast enough!”

It turned out that although the speed of the Dark Origin Musk Eagles was fast, that was only compared to what Li Yuan wanted to do, if he came across a more powerful raptor magical beast, his speed wouldn’t necessarily be as powerful as it could be.

Even if it wasn’t a raptor, if Lin Ran put his divine wings into play, its speed would definitely be comparable to that of the Dark Origin Musk Eagle, knowing that Lin Ran was only at the Heavenly Mansion realm right now and didn’t even have the Dao.

What if his strength increased in the future? Then, coupled with the speed of the divine wings, crushing the Dark Origin Musk Eagles would not even be a problem.

And returning to say the dagger, to instantly cross a distance of one or two metres, unless the Dark Origin Musk Eagles’ attainments in the art of speed reached great perfection, there was absolutely no way they could do so.

Even for those great powers who cultivate the spatial and temporal paths? Wanting to instantly span the dagger across space and time would require a very high level of strength from their word itself.

“Now you understand why I call this a self-invented sword move of yours!”

Li Yuan stroked his beard and laughed.

“Because I have never seen a sword move like yours before, but you did manage to wound the enemy in an instant across the air, so what else could this sword move of yours be if not a self-invented sword move!”

Lin Ran was stunned to hear this and stayed for a moment before asking.

“Senior, then aren’t there many such self-invented sword moves in the sword dao?”

“What are you thinking?”

Li Yuan smiled at his words.

“I can tell that you are just starting out in the sword dao, but you can become my guest of Baki Mountain, your own strength should be very clear to yourself!”

“What I can tell you is that the sword dao is a great dao, and as the saying goes, it is also difficult to cultivate the great dao, especially the more you reach the end, the harder it is to improve the sword dao!”

“And creating one’s own sword moves is almost always something that a strong sword daoist will only consider when they reach the late stages in order to break through their sword dao strength!”

“You, on the other hand, have now taken this step in the Sword Dao! Although your sword dao has not yet been initiated, your talent in the sword dao has already been displayed!”

Lin Ran couldn’t help but be stunned as he listened, was he also talented in the sword dao?

However, he quickly dismissed this idea, according to Li Yuan’s words, there were many reasons why he was able to create his own sword move, the root of which was because he was originally strong enough.

In Lin Ran’s own opinion, this was only one of the reasons. He had possessed the Dao of Healing Dao pearl in the past, plus the fact that he was on the verge of life and death and could die at any time.

It was only through this kind of coincidence that he came to realize this self-created sword move.

Although it sounded somewhat fortuitous, there was inevitably an inevitability underneath the chance, so Lin Ran did not get excited just because he had realized this self-invented sword move, after all, Li Yuan had also said that he still had a long way to go in the sword dao.

“Lin Ran, I see that you have only just started in the sword dao, although I don’t know why you have to train the sword dao from scratch, but you do have talent in the sword dao, if you have the opportunity to join some sword training sects in the future, you can improve your attainment in the sword dao!”

Li Yuan said.

“Thank you, senior!”

Lin Ran smiled and said with an arch of his hand, then he asked a doubt in his mind.

“Senior, to be honest I really don’t know anything about the sword dao, I would like to ask, so should my future cultivation of the sword dao be based on my own self-created sword moves, or other sword moves?”

Not having a master was just so hard to bear, and Lin Ran could only bring his kind of question to Li Yuan.

Li Yuan was stunned at his words, not expecting Lin Ran to ask himself this question, but then he laughed.

“You brat, such questions have only been asked of masters by disciples since ancient times, but your temperament is quite to my liking, so I will tell you!”

“Although I am not proficient in the sword dao, but looking at the great sword daoists in the ancient and modern immortal worlds, there is no doubt that those who can really go all the way are not creating their own sword moves, so I suggest that you mainly create your own sword moves!”

“The reason is simple, you only need to remember one thing! The sword moves that already exist are created by others, the most suitable is the creator’s own sword dao, you can learn to use them, but when it comes to the real return to the sword dao, you can only create your own sword moves, because your own sword moves are the ones that are most suitable for you!”

“Someone else’s stuff will always be the most appropriate for someone else to use, only your own stuff will always be yours!”

“Only my own things are always my own?”

Hearing these words from Li Yuan, Lin Ran felt a deep sense of emotion in his heart.

Yes, other people’s things were always the most suitable for others, even his own Xuan Yang Pill Canon was created by his ancestor, while his own Dao of Medicine that was something he had figured out on his own little by little after combining his ancestor’s inheritance, his own Dao of Medicine was the one that was most suitable for him.

Therefore, if Lin Ran wanted to cultivate the sword dao, creating his own sword moves would always be the path he had to take in the end, he could learn it in the early stages, but in the end, he still had to come out with his own dao.

“Take your own sword path! Take your own sword path!”

At this moment Lin Ran’s mind was enlightened, as if there was a path of prosperity right in front of him.

All the confusion and uncertainty he had felt about the sword path before seemed to have vanished at this moment.

“All right! It’s getting late go back and rest early! The Dark Origin Musk Eagles have suffered a loss this time, so they shouldn’t act rashly! I will put extra men on guard!”

Li Yuan said with a smile.

“Thank you, senior!”

Lin Ran got up and arched his hand.

Chapter 1725

“By the way, one last reminder! Don’t look at this place as a Yaki Mountain camp, but Wanshou Mountain and Yaki Mountain are always hostile, and there are open stakes and hidden sentries in the camps of both sides, so you have to be a bit careful yourself some times!”

Before leaving, Li Yuan spoke up and reminded.

“Many thanks, senior!”

Lin Ran said with an arch of his hand, before he turned around and left the pavilion.

Chen Shan had arranged another room for Lin Ran and had sent heavy guards around the area, as a guest of Baki Mountain, if he was assassinated inside his own camp, then their face would be completely swept away.

Lin Ran didn’t think much about it, he was very tired after coming out of the mine and had spent most of the night tossing and turning, so he was already exhausted and fell asleep when he arrived at his room.

As for the future of the sword dao, Lin Ran did not want to think about it now, after all, he was in the middle of the mine and had no other sword recipes on his body except for the basic sword moves.

So for the moment, the main focus was on his own self-made sword moves.

The next morning, Lin Ran was ready to continue his retreat into the pit.

The sword dao had begun to take off, but the thunder dao had not made any progress at all, but because he had to go into seclusion, Li had gained a lot of weight recently.

Lin Ran was really afraid that before he could find Song Nuan and the others, this Li would become a ball of food.

How would he explain to Zhen Yan when he returned to the Beast King Domain?

Did he say that he was a professional pig farmer? He had raised your Li to be fat and white, and his strength had not improved much, but he had grown fat instead?

I’m afraid that Zhen Yan would be so angry that he would slap himself to death.

When he arrived at the entrance of the mine, Lin Ran saw Han Seven Years and Tianhu from a distance, but he was stunned at this glance.

He was surprised to see Tianhu nodding around Han Qiqi’s side like a little brother.

“It’s only been a month, right? Little Fatty has actually changed so much!”

Looking at Han Qiuxian’s idle appearance, Lin Ran couldn’t help but laugh.

“Looks like he really did the right thing by making him the leader of this squad!”

Lin Ran thought in his mind, and was just about to go over and greet the two when suddenly a sharp whistle sounded in the distance.

The whistle was so sudden that everyone turned their heads to look and found a huge Earth Demon Beast rushing down from the sky, and there were many people standing on the back of the Earth Demon Beast.

Lin Ran only took a glance and couldn't help but freeze, only to see who was standing at the front of the crowd, if not Li Yi!

"Brother Lin Ran!"

Li Yi also saw Lin Ran below, and immediately jumped straight down in excitement.

When he saw Li Yi, Lin Ran couldn't help but remember why he had come to this pit, only that a month had already passed, this guy had initially said that he would go to Baji Mountain in three to five days, but it turned out that the delay was a month, which was really a bit unreliable.

"Brother Lin Ran!"

Li Yi was so excited that he directly jumped into Lin Ran's arms as soon as he came forward.

"Holy shit! Brother Li Yi don't do that, I'm a bit uncomfortable being a big man!"

Lin Ran was busy pushing Li Yi away, very embarrassed.

"Haha! I was too excited too I'm relieved to see that you're alright!"

Li Yi was busy laughing, while patting Lin Ran's shoulder.

There was so much commotion over here that it drew the attention of the people around them for a while, especially Han Seven Years and Tianhu, who were both stunned to see Lin Ran.

Following this, Han Qi Qi ran over.

"Brother! Are you alright!"

Han Qiuxian was very worried about Lin Ran, and after looking up and down and back and forth at Lin Ran and seeing that he was really fine, he let out a long breath.

"I'm fine!"

Lin Ran said helplessly.

"Brother, you don't even know that I was worried sick about you last night, I didn't sleep a wink!"

Han seventh year was busy saying, he was really worried about Lin Ran, after so many years in Baji Mountain really said that friends were afraid that Lin Ran was the only one.

"It's really alright don't worry!"

Lin Ran smiled and patted Han Qi Qi's shoulder, not wanting to bring up the matter again, if Li Yi found out he was afraid he would blame himself again for a long time.

“By the way brother Li Yi, why did you even find this in person?”

Lin Ran smiled and changed the subject.

“Ao! It’s not because you ran here, I was delayed by something at home, and I only found out last night that you were framed and ran to the mine pit, I’ve already caught that bastard!”

Li Yi said, and then turned around and waved his hand, immediately there were armored generals escorting Wang En over.

At this moment, Wang En’s face was white and he was practically crying as he looked at Lin Ran.

“Brother Lin Ran, it’s a misunderstanding, brother Lin Ran, it’s really all a misunderstanding!”

Seeing Lin Ran, Wang En was busy speaking.

“Misunderstanding? I’ve fucking checked it out, and you’re still telling me it’s a misunderstanding!”

Li Yi was so angry at his words that he gave Wang En a direct kick, and then explained.

“Brother Lin Ran, I have found out everything about what happened, it was this bastard who found Meng Li and signed you up for the mine pit!”

“I know!”

Lin Ran nodded at his words.

“Then why aren’t you looking for Elder Li Yuan to go back?”

Li Yi sniffed and said in confusion.

There was Elder Li Yuan sitting in this mining camp, so if he knew that Lin Ran had been framed, he would definitely send him back.

“It was me who asked to stay, I found something here in the mine pit that I could use, so I wanted to stay and cultivate!”

Lin Ran didn’t hide it and said directly.

“Huh?”

Li Yi was taken aback at his words, and Wang En, who was on the side, was even more busy laughing at the situation.

“Brother Lin Ran, it’s me it’s me! I knew this pit was of interest to you, that’s why I asked you to come, so you can appreciate it! Give me a break, I really didn’t mean to screw you!”

“Get lost!”

Lin Ran glared at Wang En at his words, it was his good fortune that he found his chance here, if there was danger in this mine, wouldn’t he have been finished long ago.

This Wang En’s shameless nature was truly unbeatable.

“Brother Lin Ran, tell me what to do with this man, it’s a matter of your words!”

Li Yi kicked Wang En to the side again and spoke.

“You see what you can do with it!”

Lin Ran laughed helplessly, this Wang En was annoying to him though, he could not want to waste his time over this person, so he did not really want to deal with him.

“Brother no!”

Lin Ran has not said anything, a side of Han seven years is not dry, he turned his head to look at Li Yi spoke oh.

“Brother Li Yi I know you, I am Han Seventh Year you may have only heard of my name and never seen me, but I have something to say!”

“You say!”

Li Yi saw the situation and asked, Han seven years the name of eight Qi Mountain really no one does not know, just he usually befriended are some elite disciples, really and this Han seven years is not familiar with.

However, he could see that Han Qiqi seemed to have a good relationship with Lin Ran, so he wanted to hear what this Han Qiqi had to say at this time.

Han Seventh Year was also not polite and immediately spoke.

“Brother Li Yi is like this, it’s me who thinks that this Wang En must be punished severely, although my brother found his chance in this mine, but that was his own fate plus a good person!”

“You don’t know that just last night, the Dark Origin Musk Eagles from Wanshou Mountain came and sneaked up on my brother, my brother almost”

Chapter 1726

Han seven years said here and his eyes got red, this couldn’t help but look at Lin Ran’s heart, this guy really doesn’t care about himself in general!

“Come on, I’m doing fine!”

When he saw how sincere Han was, Lin Ran couldn’t help but feel warm in his heart and patted him on the shoulder.

On the side, Li Yi heard clearly that the Dark Origin Musk Eagles had come to sneak up on Lin Ran, that was one of the three great experts of Wanshou Mountain, and his strength was probably just a little lower than that elder Li Yuan.

And for Lin Ran to survive in his hands was enough to see how powerful Lin Ran’s methods were.

“Brother Lin Ran, I am convinced!”

Li Yi arched his hand at Lin Ran, before saying.

“But Han Seven Years is right, if it wasn’t for this bastard Wang En, you wouldn’t have come here, let alone been subjected to such dangerous things!”

Said Li Yi, waving his hand, and Wang En next to him was immediately escorted over again.

“Brother Lin Ran, what to do with this Wang En today, one word from you! Even if you take his life, I won’t even hesitate! To treat Mount Baki as if it were your own home and wantonly victimize your fellow disciples, this kind of person will never be sheltered by Mount Baki!”

Li Yi spoke up and said solemnly.

Lin Ran, however, was busy waving his hand and said.

“Forget it, I’m not fine here, but you’re also right that people like him do need to be punished in some way!”

Lin Ran said and thought about it, and then said.

“Or else this way, let him stay in this mine too, when I’m ready to go back, I’ll take him back with me then, and let him dig here in the meantime!”

“Digging? Wouldn’t that be too light?”

Li Yi asked busily.

“Yes, brother! It’s too cheap for this kid!”

Han Seventh Year, who was at the side, was also upset and said.

“Of course it’s not just as simple as just mining!”

Lin Ran laughed, and then looked at Wang En who was on the side and said.

“Not only do we have to dig, but his daily task must be twice as much as yours, and at the same time, all the ore he digs himself cannot be taken away, it will be shared equally with you!”

“Huh?”

Han Seven Years couldn’t help but be stunned at his words, but Tian Hu at the side was instantly laughing.

“Brother Lin Ran, this is a good idea!”

“Good, my ass!”

As soon as Tian Hu’s voice fell, Han Seventh Year glared at him and said.

“Brother, since you’ve decided to leave him behind to dig, then leave the rest to me, I’ll definitely help you get rid of this bad breath!”

“That’s fine!”

Lin Ran smiled at that, he really wasn’t interested in how to deal with Wang En, right now he was still thinking about those flash eels in the depths of the mine.

Seeing Lin Ran's agreement, Han Seventh Year instantly laughed, and as soon as he greeted the nearby Tianhu, he said.

"Go! Take him and go work in the mine pit now!"

"Yes!"

Tianhu busily replied, and immediately stepped forward and pulled Wang En towards the mine pit.

"Brother Lin Ran, let's go drink!"

Seeing this, Li Yi didn't bother to pay any attention to this Wang En and greeted him.

"Good!"

Li Yi had come here for once, so Lin Ran could not refuse, and had to follow Li Yi towards the pavilion on the side.

On the other hand, this side of Han Seven Years, led Wang En straight to the mine pit.

Wang En's strength was not weak, but it was a pity that he had been sealed by Li Yi, and now he was not even as strong as Han Qiqi.

However, he was also used to the kind of high-mindedness and arrogance that he used to have, and at this moment, being escorted by Han Qiuxia could not help but make him feel a little humiliated.

"Hey, hey! Brother, let's untie the rope first!"

Wang En laughed.

"Are we at the place yet?"

Han Qiuxia glared at him and said nonchalantly.

This made Wang En's heart very unhappy, and his face couldn't help but look a bit harder as he said.

"Seventh year Han, don't give a damn, who is my master should know very well! You really fucking dare to offend Laozi?"

Wang En said angrily.

"Snap!"

As soon as his words fell, Tianhu, who was at the side, raised his hand and slapped Wang En directly on the face.

"Who the fuck are you talking to? If you talk to my Seventh Brother like that, I'll beat you up so much that you won't even know your own mother!"

"You!"

Wang En had never suffered this kind of aggression, and was so angry that his eyes turned red.

"Tianhu! This isn't the time when you used to follow my ass and flaunt your authority, is it? How dare you hit me! Believe it or not"

“No believe!”

Wang En didn't finish his sentence, and was instantly topped off by Tian Hu.

Tian Hu looked at Wang En and said with a face full of disdain.

“Wang En I'm telling you, this isn't Yaki Mountain, it's a mining pit! Besides you'd better look at your current status, if you can still live after offending Lin Ran, you'll be lucky to survive! Still pretending with me, do you believe I'll kill you!”

“Kill me? Who the hell are you?”

Wang En spat angrily.

“I used to think you were a good dog, so I kept you, but I never thought you'd go back to your old life and become the little brother of this trash, Han Seven Years.

“Fuck you!”

Tian Hu raised his hand and slapped Wang En directly on the face.

“That's enough!”

Seeing this, Han Seventh Year spoke up and scolded.

“Seventh Brother, this kid scolded you!”

Tianhu was busy saying.

Han Seventh Year's face didn't change much when he heard this, he gave Wang En a bland look before saying.

“My brother once said that having a temper is not a skill, being able to control it is the skill, I think my brother is right!”

Saying that, Han Seventh Year waved his hand at Qiu Mo and the others in front of him, while speaking.

“Take him in, today I'll make him understand his status! After offending my brother, bringing here and still wanting to be a lord, do you really think I, Han Seven Years, am still the Han Seven Years from a month ago?”

Han Seventh Year's eyes were ice-cold as he looked at Wang En, that ice-cold look actually made Wang En really feel a bit dazed for a while.

How long had it been? It had only been a month since Lin Ran came to this mine, and it had also been a month since this seventh year of Han's life, but what had this guy gone through in this month.

How could the soft-hearted man who used to be able to bully anyone now have such cold eyes.

Wang En was puzzled, but he had a vague feeling that he was really going to fall into the hands of this boy whom he had despised before.

Soon the crowd reached the depths of the pit, Han seven years waved his hand to block the entrance of the pit directly, and then looked at the crowd and spoke.

“Who all has a grudge against this guy?”

“Me!”

Tianhu smiled and directly raised his hand, he hadn't suffered much in the past following Wang En.

“I ... I have one too!”

Qiu Mo also raised her hand and said, she hadn't been harassed by Wang En a lot before because she was pretty.

“And me!”

“And me!”

Seeing that Tianhu and Qiu Mo had both spoken up, the others weren't holding back at once, one by one, they all raised their hands and told what they had been bullied by Wang En.

Han Seven Years looked satisfied and nodded his head, before saying.

“Fine, then let's do it! There are no outsiders here, those who have grudges will repay them and those who have grievances will repay them, let's make him understand today what his status is in this mine!”

After saying that, Han Seventh Year immediately rushed towards Wang En and was the first to make his move.

This guy had framed Lin Ran, causing him to be attacked and almost killed last night, Han Qiqi had taken this to heart, and he was much darker in his actions at this time.

Chapter 1727

While Han was lecturing Wang En, Lin Ran had already arrived at the distant pavilion under the guidance of Li Yi.

At that moment, Elder Li Yuan had been waiting for a long time.

The three of them took their seats, and immediately Li Yi brought out the Drunken Immortal House wine that he had specially prepared.

As the people drank and chatted, Li Yi soon found out what happened last night and was even more furious after hearing about it.

“Brother Lin Ran don't worry, these beasts of the Wanshou Mountain, one day sooner or later we, the Baji Mountain, will wipe them out!”

Li Yi said angrily.

In fact, the Li family already knew about his sneak attack by the blood bats, but it was just that the matter was so involved that even if Baki Mountain wanted to retaliate, it would definitely have to go through detailed arrangements.

Moreover, there was also the need to beware of Mount Wanshou's furious counterattack.

Lin Ran had already guessed this point in his mind.

According to his understanding, Wanshou Mountain was the oldest power around this Baki City.

And for an old-fashioned power to have a part of the mines forcibly taken away by a new rising power, this alone was enough to show the gap between the two.

But Yaki Mountain must have had its own considerations in not taking action to destroy Wanshou Mountain.

In such a situation, if Yaki Mountain were to kill them all, the net would be broken.

In such a situation, even Yaki Mountain would lose a lot of money, so this is one of the reasons why Yaki Mountain has delayed in completely destroying Wanshou Mountain.

Of course, as for the other reasons, whether or not Yaki Mountain had other plans, it was not something Lin Ran could consider.

However, he didn't bother to get involved in the feud between Yaki Mountain and Wanshou Mountain, even though the Dark Origin Musk Eagles had attacked him, but in the end, it was because he possessed divine wings.

Naturally, Lin Ran didn't want to say much about such matters, if he was inferior in strength if he had to rely on Baji Mountain to back him up all the time, then Lin Ran wouldn't have to go to Song Nuan and the others, and that wasn't his style of being a man.

"Brother Lin Ran, are you really not coming back to Baji Mountain with me?"

After having enough wine and food, Li Yi spoke about the topic again.

"For the time being, I'm not prepared to go back!"

Lin Ran said.

There were lightning eels that he needed inside the Baki Mountain Pit, and in order to have the best possible chance of inheriting the Thunder Dao Pearl, he would have to build something in the lightning path, so he really couldn't leave this Baki Mountain Pit for the time being.

"All right! I won't force you since you've decided, brother Lin Ran, but you must come back as soon as possible, and I'll be entertaining you when you return!"

Li Yi said with a smile.

"Sure!"

Lin Ran smiled and nodded his head, this Li Yi had a bright personality and was a friend to make.

Li Yi still had things to do, and after having a drink with Elder Lin Ran Li Yuan, he left in a whirl.

Lin Ran then also said goodbye to Elder Li Yuan and walked straight towards his pit.

As he passed by the pit where Han Seven Years and the others were, Lin Ran saw that the entrance to their pit was sealed up, and there were faint screams of Wang En coming from inside, so it was obvious that this guy Zi'a was not having a good time inside.

“This group of people really!”

Lin Ran shook his head helplessly, then he thought no more about it and went straight into his own pit.

Waving his hand to set up a formation at the mouth of his pit, Lin Ran began to continue digging, which had already become his habit.

It had already been a month since he had arrived here, and the fact that there had been no progress with the shining eels was really making him a little anxious.

He couldn't keep wasting his time here, so it was important to find the king as soon as possible.

While continuing to channel his true qi into the rock wall, Lin Ran began to cultivate his sword dao again.

After last night's incident, Lin Ran had also gained a whole new understanding of his sword dao.

Originally, he had learned all of his basic sword moves, but after last night's incident he felt that he had not learnt nearly enough.

“As the saying goes, the simpler it is, the harder it is, the simpler the basic sword moves are, but isn't that the essence of the sword dao?”

Lin Ran thought to himself, he had thought he was being a bit short-sighted when he hadn't picked out the advanced sword moves.

After all, there were no more sword strokes he could learn after learning the basics of sword strokes.

But at this moment he felt that he was also lucky, there was no such thing as learning the basic sword stances, they were just the basics of the sword dao, anyone who looked at them would know them, but how many of them could really cultivate the basic sword stances to the point of perfection?

“I'll let you be fancy, a piece of sheathing is the way of the sword!”

Lin Ran waved the longsword in his hand, a faint smile on the corner of his mouth.

You even your supreme sword skill, I'll go with my basic sword dao!

This was Lin Ran's current attitude towards the sword dao, and he had even made up his mind that he would not rush to learn more advanced sword moves, and that he would not start to cultivate more powerful sword moves until after even he himself believed that his basic sword moves had reached an unimprovable level of improvement.

This is like building a house and laying the foundation, some people are eager to get it done, while others are not nervous about it brick by brick, not asking how high the building will be, but only asking for a stable enough foundation.

Time passed day by day.

Lin Ran had already been able to stay in the pit for half a month without needing to go out.

In the blink of an eye another month had passed and Lin Ran had only gone out once during that time.

This time he lasted for sixteen days, but after a month of perseverance, apart from a slight improvement in his sword dao, the shining eel still had no clue.

In this month, Lin Ran had drawn out a total of twenty lightning eels, but there was still not a single red-backed lightning eel.

As for the king of the eels, it was even worse, there was almost no clue at all.

“Hey! I don’t know how much longer we have to hold out!”

Lin Ran sighed helplessly and got up to leave, he looked at the rock wall in front of him with a feeling of resignation, he always felt that the red-backed lightning eels were playing with him, it had been two months, but those red-backed lightning eels had become elves and none of them had come out!

Thinking of this, Lin Ran walked towards the rock wall, lying on the wall and looking inside the small hole with his eyes.

The hole was only a small thumb wide, and it was so dark inside that Lin Ran could only see less than two metres inside, and nothing beyond that.

Reluctantly, he let out a ray of divine sense into the small hole, which soon extended out for dozens of metres.

Suddenly, just around a corner in front of the small hole, a red light suddenly appeared, Lin Ran was shocked and fixed his eyes on it, and then he realised that the red light was actually a red-backed shining eel!

“Holy shit! There really is a red-backed eel!”

Lin Ran was instantly excited, but his excitement had alerted the red-backed eel.

The red-backed lightning eel was frightened and went straight in towards the small hole on one side.

Seeing this, Lin Ran refused to give up, and his divine sense immediately chased after it. However, he chased after it for ten minutes until Lin Ran felt that his divine sense had been stretched to its limit, but he did not catch up.

“Bang!”

Suddenly, ? Just as Lin Ran’s heart was reluctantly considering whether to chase after him again, a huge explosion instantly obliterated his divine sense, and for an instant Lin Ran’s entire head was blank.

Chapter 1728

A few moments later when he recovered, he realized that he didn’t know what had happened in the mine, but the pit he was in at the moment had actually trembled violently.

Above his head there was even a piece of ore falling down by itself.

“Something’s wrong!”

Seeing this, Lin Ran knew that something had happened in the mine, so he endured the severe pain in his head and directly turned around and collected Little Nine and Li, waved his hand to remove the formation and rushed out.

After coming out of the mine, Lin Ran saw that there was already chaos outside, with many people running in fear towards the outside of where the mine was located, as if something terrifying had appeared in the confines of the mine.

However, Lin Ran soon noticed that Chen Shan was running quickly with a large group of armoured generals, and their direction seemed to be his own.

Surprised, Lin Ran turned his head to look around, and at this glance his whole body froze in place.

He saw that the entrance to a mine next to him had completely collapsed.

The entrance to the mine was no longer visible, except behind the ruins, where he could barely tell that it had been a mine.

Other people might not be clear about this place, but Lin Ran was very clear about it, because this pit belonged to no one else, it was the pit where Han Seven Years and the others were.

“Little Fatty!”

Lin Ran’s eyes turned red when he saw this, and with an arrow step, he rushed straight to the collapsed pit.

But at this moment, the entrance to the pit was in a mess, not to mention the location of the entrance, and he didn’t even know where the people were at this moment.

“Brother Lin Ran!”

Chen Shan also brought his men here at this moment.

“Hurry up and save the people!”

Lin Ran didn’t bother with nonsense and opened his mouth to shout.

“Hm!”

Chen Shan had originally come to save the people, so when he saw that Lin Ran was in a hurry, he didn’t say much and immediately started to greet the people to clear the ruins.

As Lin Ran was worried about the safety of Han Qiqi and the others, he forced himself to calm down, and then judged the location of the pit where Han Qiqi and the others were based on the general outline of the pit he was in.

In just a few moments, Lin Ran was able to locate the location of these people. He immediately went to the spot in the ruins that should be the entrance to the pit, and without saying a word, he took out a long sword and slashed at the ore in front of him.

As the ore was scattered all around him, he was afraid that it would explode if it hit his true qi, so he didn't dare to use his true qi and could only use his own strength to keep chopping the ore in front of him.

He had no other choice but to save the lives of the people, but if he caused a second explosion, it would probably cause the people who were not injured to be hurt again.

While constantly comforting himself, Lin Ran kept splitting the ore in front of him.

Finally, with his disdainful efforts and the help of Chen Shan and the others, after ten minutes, the entrance to the mine was finally cleared out.

Lin Ran blasted the last few rocks with a single punch and followed, leading the way directly into the pit passage.

Mining ore here, no matter whether it was Yaki Mountain or Wanshou Mountain, was very careful.

The reason is that if the structure of the pit is not good and collapses, not only will the lives of the people inside be in danger, but the subsequent exploitation of the pit will also be a problem.

As soon as Lin Ran entered the tunnel of the mine pit, he saw that the top of the tunnel was still sturdy, only a lot of cracks had appeared, and it had not collapsed.

"Han seven years!"

Lin Ran shouted as soon as he entered the pit, while rushing in towards the front.

"Brother!"

The mine pit wasn't deep, and soon Han Seventh Year's voice came from inside.

Seeing that Han Qiuxian could still speak, Lin Ran couldn't help but breathe a sigh of relief and hurriedly ran over.

The closer the pit was to the depths, the denser the dust became, which should have been the dust that had just washed in from the collapse of the passage outside.

Lin Ran kept waving his hand to disperse the dust and soon arrived at the bottom of the pit.

When he arrived at this point, he saw that Han Seven Years and the others were all fine, and only then did Lin Ran breathe a sigh of relief.

"Is everything alright?"

Lin Ran asked busily.

"Yes brother, it's all because of that bastard Wang En! It almost got us killed!"

Han said in the seventh year atmosphere.

Lin Ran turned his head to look and realised that Wang En was caught in the middle of the crowd, his face full of panic obviously the previous explosion had scared him too.

"What's going on?"

Lin Ran frowned, could it be that Wang En had caused the explosion this time?

Seeing Lin Ran look at himself, Wang En couldn't help but shrink his neck, it seemed that he hadn't been mistreated much this January, making him not even have the courage to look at Lin Ran at this point.

"I I was digging when I saw a red thing poking out of the rock wall, and they said there were magical beasts in the rock wall!"

"So I I was so nervous and just"

"Stupid!"

Before Wang En could finish his words, Lin Ran couldn't help but curse out.

This was within a mine cave, and Wang En was lucky that he hadn't caused more serious consequences by blasting his hand directly onto the rock wall full of ores.

"Let's go out first! We'll deal with his business later!"

Lin Ran greeted, this pit wasn't safe and could collapse at any moment.

"Good!"

Han Seven Years nodded, but they had just turned around and prepared to follow Lin Ran out.

But just then, Lin Ran suddenly stopped in his tracks.

"Brother? What's wrong?"

Han Qiqi asked in confusion at this, and the others around them also looked at Lin Ran, not understanding why he had stopped.

Lin Ran turned his head to look at the crowd, sweeping his gaze over everyone from the first Han Seventh Year, followed by a change in his face.

"What's wrong with brother?"

Han Seventh Year looked stunned and couldn't help but tense up, at this moment Lin Ran's face was unusually gloomy, obviously he had found something wrong.

Lin Ran looked at the crowd as his gaze swept back and forth seemingly confirming something.

After just a moment, Lin Ran opened his mouth and asked in a cold voice.

"Where's Qiu Mo!"

"Qiu Mo?"

The crowd was stunned at the words, and they were busy turning their heads to look at the crowd, and everyone's faces changed under this look.

Yes! Where is Qiu Mo? Where did Qiu Mo go?

"Get out of the way!"

Lin Ran pushed the crowd away and immediately saw a large pile of rubble and debris piled up on the ground in front of the rock wall at the bottom of the pit in front of him, and among them was a strand of clothing with a corner exposed.

“Qiu Mo!”

Lin Ran saw this and his fists unconsciously clenched as he turned his head to look at Wang En and said in an angry voice.

“If anything happens to Qiu Mo, you’ll go and take her life!”

After saying this, Lin Ran rushed straight towards the rock wall in front of him, quickly moving the rocks out of the way and soon revealing Qiu Mo’s figure.

At this moment, her entire body had already passed out, and there were bloodstains all over her body, so she was obviously badly injured.

Lin Ran took Qiu Mo in his arms as soon as he could, turned around before heading out.

“Why are you still standing there! Hurry up and go!”

Seeing that the crowd was still frozen in place, Lin Ran immediately scolded angrily.

“Go! Go!”

Only then did the crowd react, and one by one, the group of people left the pit and soon reached the outside.

“Leave the inside to you, she must be treated quickly for her injuries!”

As soon as they left the pit, Lin Ran said to Chen Shan who was guarding the outside, and then ran towards the attic with Qiu Mo in his arms.

Chapter 1729

When he first came to the mine, Chen Shan had put Lin Ran in charge of the safety of these people, only later on Lin Ran had no time to manage these matters due to his special status and the fact that he himself had to cultivate.

That’s why he made Han Seven Years the squad leader.

But everyone was from the same group of people who came to the mine, so Lin Ran naturally wanted to bring all these people back safely, even if it was Qiu Mo who had a grudge against him in the past.

Although there was some unpleasantness between the two of them, they were all fellow members of Baki Mountain, and there was no blood feud, so this was not worth mentioning in front of life.

As for Wang En, he was taken into custody by Chen Shan, and neither Lin Ran nor Chen Shan could care about him until the matter was completely resolved.

Lin Ran carried Qiu Mo all the way back to the pavilion, found a random room and put Qiu Mo up there.

At this moment, Qiu Mo was still in a coma, so Lin Ran did not dare to delay and arranged for Han Qiqi and the others to get some herbs from the camp's storehouse.

He then treated the herbs and had some female disciples put medicine on Qiu Mo.

The external wounds were easy to treat, but the internal wounds were not easy to heal.

After treating the external injuries, Lin Ran then took Qiu Mo's pulse and observed the condition of her body.

After taking a look, Lin Ran was relieved to see that Qiu Mo's internal injuries were not serious, only a broken tendon in her leg, but the rest was fine.

A broken tendon might not have been easy for Lin Ran to treat in the past, but now it was much easier for Qiu Mo.

Qiu Mo was a cultivator and had his own true qi in his body, and in order to heal this tendon and bone, Lin Ran only needed to guide the true qi in Qiu Mo's body to repair itself, and this was the easiest way to heal.

"All of you should go out first, I want to heal her leg!"

Lin Ran turned his head to look at Han Seven Years and the others and said.

"Yes brother!"

Han Seventh Year naturally wouldn't refute Lin Ran, and immediately led the way out of the place.

Because it was a broken tendon in his body, Lin Ran had to ensure that his surroundings were quiet when he was healing, otherwise it would probably leave a hidden malady for Qiu Mo, and as a doctor, Lin Ran would definitely not let that happen.

He quickly ripped the clothes off Qiu Mo's leg and followed it to see his injured calf.

It had to be said that the physiques of cultivators and ordinary people were really different, even in the case of beautiful women, but if they were ordinary people there were bound to be impurities on their bodies.

The impurity deposits on the leg will also be obvious, but for cultivators, especially female cultivators, as long as they are not too ugly body skin that is very white.

Because the initial realm of cultivation is to quench the body, and then as the strength increases the body will gradually become more pure, the less impurities in the body, the better the skin will be.

The Qiu Mo in front of Lin Ran at this moment belonged to this category of having good skin and also being beautiful looking.

If they were put together, Lin Ran would have looked at them twice, but after experiencing so much here, his heart was already as calm as water, so he would not have been half as flustered.

Lin Ran quickly rubbed his palms together to warm them up, and then gently placed them on the spot where Qiu Mo's calf had been injured.

Perhaps the wound was serious, just as Lin Ran's palm was placed on his calf, immediately Qiu Mo woke up in pain.

"You What are you doing!"

Seeing that Lin Ran was placing his palm on his calf, Qiu Mo couldn't help but blush, a blush surfacing in a beautiful way.

"The tendons in your leg are broken, bear with me for a while and I'll help you put them back together!"

Lin Ran said without even raising his head.

"Ao Ao!"

Qiu Mo was stunned and nodded somewhat embarrassed.

Growing up so big,? It was the first time she had been touched by a man other than her father, even though it was only her own calf, but for the sake of healing and saving others.

But that feeling was what caused the blush on her face to fade late.

Reacting, Qiu Mo then remembered what she had experienced earlier, she was startled and busy touching her face, seeing that her face was not injured which made her sigh with relief.

Even for cultivators, as long as a woman cares about her looks, it's a woman's nature for everyone.

Lin Ran naturally did not notice what Qiu Mo was doing, because at this moment he was frowning, a strand of true qi had already invaded within Qiu Mo's calf.

"I'll need to draw on the true qi inside you later, don't resist!"

Lin Ran reminded.

"Mhmm!"

Qiu Mo gritted her teeth and nodded, the injury to her tendons and bones would be painful just thinking about it, and naturally she was very scared for a girl.

True Qi quickly rushed towards the tendons inside her calf and soon reached the injured area, Lin Ran didn't say anything and directly induced the true Qi in Qiu Mo's body to quickly surge towards the location of her calf.

To repair the tendons and bones within the body, in fact, ordinary practitioners could do it themselves, but because they were only practitioners, they had no knowledge of the level of medical arts at all.

The higher the strength, the more perfect the repair of one's own tendons and bones, but for those with low strength, the repair would be very rough, and it was very easy to leave after-effects.

"By the way, are you a physician?"

Qiu Mo suddenly asked, she could actually repair it herself, seeing that Lin Ran was so serious felt curious so she asked.

"Pretty much, I'm a doctor!"

Lin Ran said.

“A doctor? What’s that?”

Qiu Mo didn’t understand, in the Immortal World there were only physicians, there was no such title as doctor.

“Pretty much the same as a physician!”

Lin Ran replied casually.

“Your tendons are badly injured, if you let yourself repair them you will definitely be left with after-effects, don’t say anything and I will help you get it right!”

Lin Ran said.

“Ao!”

Qiu Mo smiled and didn’t say anything more, at this moment she only felt that the true qi in her body was rapidly surging towards her calf.

Wisps of true qi quickly wrapped up the tendons and bones in the injured area, warming them up very comfortably.

But at this moment this feeling was not the most important thing to Qiu Mo, the most important thing was that the true qi in her entire body was surging under Lin Ran’s traction.

The true qi is the foundation of a cultivator, and Lin Ran’s mobilization of her true qi at this moment would be the reason why she felt her heart beat faster, and her pretty face unconsciously turned even redder.

Qiu Mo’s face was flushed and she looked at Lin Ran with some squirming, but at this moment he was staring at his calf with sharp eyes, obviously serious about healing.

However, that side face was deeply imprinted in her mind.

“He’s actually quite handsome too!”

Looking at Lin Ran’s serious look, Qiu Mo actually felt as if she had some heartfelt feelings.

It was said that serious men were the most handsome, perhaps it was Lin Ran who was talking about this moment.

Qiu Mo had always wanted to find a powerful cultivator to form a daoist couple, and wasn’t the man in front of her at this moment just the kind of person she wanted?

“If I hadn’t been so arrogant back then, maybe now he and I”

Qiu Mo thought in her heart and unconsciously pursed her lips, at this moment she was really feeling her heart fluttering.

“But will he like me?”

Qiu Mo thought in her mind.

“Whatever, it’s so hard to meet one I like, I don’t want to and can’t miss it!”

Qiu Mo suddenly made up her mind, and at this moment, the gaze she looked at Lin Ran had a little more fire in it.

Chapter 1730

This is how it is among cultivators, especially some powerful ones, ? are often the object of affection for many female cultivators.

Although Lin Ran was not considered very strong, he was still at least tall in front of Qiu Mo.

Only for Qiu Mo’s mind, Lin Ran had no idea at all, because at this moment he was single-mindedly repairing the tendons on the former’s calf.

At this moment, in the calf of Qiu Mo’s body, a large mass of true qi was rapidly rotating and converging.

True qi is the spiritual qi between heaven and earth, and it is perfect for repairing injured meridians.

However, to completely eradicate the after-effects left by the tendons and bones, it required a very high level of medical skills from the physician, and these could not be replaced by ordinary people.

“Weng!”

Soon with a tremor, Qiu Mo felt the true qi in his body start to flow slowly, obviously Lin Ran had withdrawn the traction of his own true qi in his own body.

It was only logical that Qiu Mo should have felt happy, after all, this meant that Lin Ran had finished his treatment.

It was just that while the true qi was no longer being tugged, the feeling of heartbeat was also gradually diminishing, leaving Qiu Mo feeling empty and nagging inside.

“It’s done! The tendons have been connected, you should rest for the next two days, it’s best not to move around, I’ll come back to check on you after your tendons have completely grown firm in two days!”

Lin Ran said as he got up, and whirled around, ready to leave.

“Lin Lin Ran!”

Seeing Lin Ran about to leave, Qiu Mo suddenly spoke up.

“Is there anything else?”

Lin Ran asked as he looked at her.

Being stared at by Lin Ran, Qiu Mo couldn’t help but be a little shy, her eyes dodging before she said.

“That I’m not quite sure, since you’re some kind of doctor, can you come and check on me every day?”

She just wanted to see Lin Ran more often.

“Sure!”

Lin Ran didn't think much about it and agreed in a whirl.

Nowadays, with this kind of thing happening in the mine, he didn't have any time to go to the pit himself to close up, and he had heard it really well before, the reason why Wang En was messing around was because he had seen something red poking out of the rock wall.

According to Lin Ran's speculation, that red thing was not a red-backed flash eel, but most likely a king flash eel.

So instead, he was very interested in the pit that Han Qiqi and the others were in at this point.

However, the pit had not been repaired yet, and it would probably take two or three days for it to be repaired, so he could come and check on Qiu Mo's health more often during this period.

If Qiu Mo were to get hurt, Lin Ran would feel guilty.

As the saying goes, medicine is good for people, even if they have any grudges, they can't take their lives as the price.

As she watched Lin Ran leave, there was joy in Qiu Mo's eyes. She also knew that there was a conflict between herself and Lin Ran, so Lin Ran's promise to visit her every day already made her feel that the relationship between them could be eased.

After leaving the pavilion, Lin Ran went straight to the mine.

At this time, Han Seventh Year and the others had joined the repair team, cleaning up the outside of the collapsed pit under the leadership of Chen Shan.

Each pit was mined by Baki Mountain over the years, and the mine in front of them was so big that there was no way they could let it go, even if it had collapsed, it still had to be repaired.

After all, every mine pit was capable of producing bad spirit stones, and even Heavenly Origin Crystals, every day.

When Lin Ran saw that someone had already started to enter the inside of the pit to carry out repairs, he immediately greeted Chen Shan and followed him in.

Soon after arriving at the depths of the pit, he saw that the rubble deep inside the pit had been cleared out, revealing a brand new rock wall.

Looking at the rock wall in front of him, Lin Ran couldn't help but sigh a little helplessly.

He himself had channeled true qi into the rock wall for two months in the next mine, but who knew that in the end, a red lightning eel had actually appeared here.

Although it was still impossible to determine whether it was a red-backed flash eel or a flash eel king, it at least meant that this one mine was afraid that there was a better chance of finding a red-backed flash eel.

Lin Ran made up his mind that after the pit was repaired, he would close up here and let Han Qiqi and the others go next door.

As a result of the accident that had happened in this pit, I was afraid that no one else would dare to enter the pit except Han Qiqi.

As the repair work continued, Lin Ran saw that Chen Shan had arranged the work in an orderly manner, so he did not follow him and went back to his own place.

There was no way to continue with the search for the flash eels, so Lin Ran simply stopped thinking about it and concentrated on his study of the sword dao.

It was soon the next day when Lin Ran came to check on Qiu Mo's injuries as promised.

After a day's rest, Qiu Mo looked much better and her injuries had been alleviated.

It was just that her calf was very badly injured and she still could not get out of bed under Lin Ran's instructions.

"Lin Ran, where are you from?"

Qiu Mo asked with a smile as she lay on the bed looking at Lin Ran, her eyes filled with tenderness.

"Where are you from?"

Lin Ran was examining Qiu Mo's injuries and said after thinking about it.

"Not from here!"

"What kind of answer is that!"

Qiu Mo smiled at that, she hadn't realised that Lin Ran had such a humorous side.

"A very distant first place, you wouldn't know if I told you!"

Lin Ran said helplessly, and he didn't want to mention this place, as soon as he did there was something vaguely disturbing in his heart.

He himself had slept in the Immortal World for a thousand years, and he didn't know what it was like on Earth nowadays, and his grandmother she

Seeing that Lin Ran was not willing to say more, Qiu Mo did not ask more questions as she changed the subject and said.

"Can I get out of bed tomorrow?"

"Better not, but you can try!"

Lin Ran said.

"I feel like I'll be fine now, can I try?"

Qiu Mo asked busily.

"Yes, but be careful! You can't hurt your leg in the process!"

Lin Ran nodded, the physique of cultivators was different from ordinary people, three days was also his approximate estimate, but exactly how long it would take to heal still depended on each person's different physique.

Although Qiu Mo's strength wasn't strong, he was after all also at the Heavenly Mansion realm, so he might recover quickly.

"I will!"

Qiu Mo saw this and could not help but smile, and immediately got out of bed, but for safety's sake she did not dare to use too much strength, and could only hold Lin Ran on the side and barely take a step to try to feel it.

However, I don't know if it was intentional or unintentional, but just as she took one step, Qiu Mo let out a scream and fell to the side.

"Be careful!"

Lin Ran was startled by the situation and raised his hand to pull Qiu Mo back.

Who knew that Qiu Mo would fall into Lin Ran's arms when he was pulled.

The fragrant breeze entered her nose, and immediately Qiu Mo's pretty face turned red.

"No Sorry, I'm still a bit uncomfortable!"

Qiu Mo Qiao red face said, red haze full of haze, pretty face showily at this time she is really beautiful let people can not bear to chastise.

Lin Ran looked at her with a bland expression, his eyes were even without even a ripple.

He helped Qiu Mo sit back on the bed, and then said.

"Rest well!"

With that, he turned around and left the room.

As she watched Lin Ran leave, Qiu Mo couldn't help but feel a burst of joy, her approach had worked, although Lin Ran didn't seem to have any ripples on the surface, she was sure that this guy had definitely had his heart moved just now.

As the saying goes, a man taking the initiative is not scary, but a woman taking the initiative is the most deadly!
