

Chapter 21 "New shades new emotions"

Sona's pov

As the ray of first light fell over me, I woke up, my head was painning a little bit and when I opened my eyes the surroundings doesn't seem to be very similar to me.
Yesterday's entire event flashed back in my mind. What is wrong with Mr Shergill does he have some split personality disorders. And then I remembered the cut on my forehead it was hurting really bad.
I tried to get up from the bed but suddenly one of the doors opened. There is no need for me to tell that the devil was in front of me. He was wearing wearing black t-shirt and denim jeans unlike other times. It's very rare when I have not seen him wearing his formals.
But why the hell am I staring and gawking at him. Remember Sona change how much you try to be cool and polite to him he is not going to despise how even for a bit. He is a jerk.
And when our eyes met yesterday's event flashed in my mind.

Aer my head hit the corner of my desk and I fell unconscious when I woke I found myself in my room. And the person who is the reason of all my misery was standing in front of me.

As far as I remember it was the first time I was feeling some emotions in his eyes yesterday. It's not like that he was looking at me with love or something but his eyes were reflecting concern for me.
Without taunting or scolding me he helped me with everything although it's not like I had asked him to do so. I can handle myself on my own.

But then I got to know that mom dad are coming and maybe this is the reason of his changed behaviour.

My head was painning and yeah it's still painning a little bit.
But then I again looked around the surroundings.
I broke the eye contact.

Why the hell is he and me in the same room. I started getting up to go towards my room totally ignoring his presence.
"Where do you think you are going"
"Towards my room. How I came here."

"This is my room and you are going to be here till the time mom dad are going to stay here. And about that I brought you here it was not like I was picking you up for the first time".
"Has mom dad arrived " I asked ignoring his comment.
"He they will reach here in an hour".
"Okay I'll just go and freshen up in my room then I'll come here."

And I started leaving.
"Wait "
And my legs halted abruptly.

"I had asked Mrs rose to take help from one of the helpers and they have shied all your stu here." he said pointing towards the wardrobe.

"But"
"Just be quite and follow what I'm telling you just go inside and freshen up here only."
I nodded

"Till the time mom dad are here we have to put this act."
Can't he just for a few minutes talk like a normal man.
Why he has to say such words at the end. But he is right our marriage is just on papers and an act in front of ur parents.
Its of no use saying anything to this moron.

Without giving him another glance I started going towards the wardrobe to take my stu..
Before I could open it he came behind me. I didn't try to bulge from the place. He flipped me using my arm.
And again it's the same place where he had grabbed so tightly that day that it was still hurting.

This was the reason I wore full clothes so that he could not see the purple mark because of his grip.
I hissed and he loosened his grip and then tou he'd my forehead wear it was having a cut.

My heart started thumping so fast.
"Is it painning."
"A little bit " I said

"Just take your medication properly it will be fine."
He rubbed there slightly.
Again this proximity is gone be death of me. It's feels more alien to me then his scolding or taunts. Because I have been now habitual of it.

"And for the days mom dad are here you need not to come to the oice since they would wanna spend some time with you" he said .
And then I don't know what happened to him he le. And I kept on staring at his retreating figure.

Then I opened the wardrobe it was huge man. Then I noticed his entire room. My room was not even his one fourth. It was painted in shades of blue and white. And everything was placed in a proper neat and clean manner.

Then taking my all stu I went to the washroom.
And again it was approximately the same size as that of my room. I mean for the first time in my entire life I have seen such a big and cosy washroom.
I'm not very fond of big rooms but I like large and cozy bathrooms and his one was not any less than it.
It was the first time I have been here in his room.

I did my daily routine and took the shower and then changed into a black anarkali suit with orange duppatta.

Usually when I was in my room I used to go out and then change. But since I was in this jerk's room I had to change in front of the mirror.

I came out and started drying my hairs standing in bath room. I heard the door opening and there is no need to tell who I was. I totally ignoring him still was drying up my hairs and I can feel a piercing gaze on me.

I was about to go and turn but his arms held me and I don't know what he was doing when I felt his hands moved my hairs from back to right side.

I can feel his breath on the crook of my neck.
And then he put something around my neck and I saw it was my nuptial chain. I touched it and closed my eyes .

"What how he got this I thought and before I could ask him Mrs rose has handover the box to me thinking it might be something important and might get misplaced." He said.

Then I turned and again he took my le hand in his and put my engagement ring in my hand.

He was smiling a genuine smile at me. seriously.
And I was looking at him without blinking.

Now my doubt is really getting cleared.
My husband do has some split personality disorder.
How can someone be rude a total jerk at one moment and another second a genuine one.

"Keep on wearing these as mom dad will be here."
Not again. Sometimes I wanna punch him so hard.
" Mom dad are here so let's go downstairs"
I nodded and then followed his steps.
.....

It was dinner time and I and mom had prepared dinner and right now we are sitting on the dinning table.

"Sona so how is everything going on my daughter I mean I hope my stupid son is a good husband "
And I widened my eyes listening to mom.
"Yes ma he is " I said.

"I know my daughter is so naive and innocent that he will never complain about you Ani but if me and your father ever find any stupidity of yours, you will deal with the consequences. "
And I was dancing in my mind with the good amount of scolding that mom and dad were giving him since the time they have arrived here.

And he was glaring me like a wolf ready to pound on his prey.
And he read his mind that he is staring me.
"Son you are very lucky our daughter makes such a delicious food "
"dad said
" Yes dad "he said looking at me in between.

" Indeed she is good at many things " he said
What does he mean was it a taunt or a compliment.

"But Sona why have you become so lean are you not taking proper care of yourself " dad asked
"Why are you asking her you should ask him na that he is not taking care of her wife."

"Mom dad its not like that I'm fine. And I do take my meals properly and he takes good care of me " I said defending him otherwise I know for this scolding also he is gonna give me tough times.
I had to lie to them regarding this entire scenario.

"But your words don't match with your condition daughter" dad said.
"Dad she is saying na she is fine. You both are getting worried without unnecessarily" he said

Thankgod I have hidden my cut on forehead with my hairs.
I think he is gonna erupt like a volcano on me once they leave from here.

In the entire time he was looking at me like he is going to eat me instead of the food served on the table.
God save me.

Aer dinner I was sitting with mom in the hall for sometime and we were kept on talking sharing the mother daughter bond.

"Sona me and your dad thought to meet both of you since it's been a long time we met you and we were missing you both. "
"Yes ma I was missing u both too"
"I know daughter. You used to call us every weekend. And see our son he never has time for his parents"

"Ma it's not like he is a bit busy with his work. But he misses you too."
"I'm so happy that you both have adjusted with each other in your married life and I have seen changes in my son since you have married."

I wish she knew the truth and at the same time I don't want her to know the truth. See the irony.

"Yes ma"
"I know beta but now he should also try to change a little bit of his workholic behaviour. ,right. He should know that he is a married man. He should start taking time for you now."

"Don't worry ma I don't have any problem with his work"
"I know daughter you are not gonna say anything but we are now your parents too. It's our responsibility to see if Ani is taking care of our daughter or not."
"But Ma we both are fine"

"I'll talk to Anirudh's dad regarding this. And one more thing beta we are going to attend a wedding of my friends son this weekend. They are very close to us so you both will also be coming with us. "
"Ok ma"

Aer this I told her about my job that I work in a company and all but didn't told her that I'm working with her son only who is making me work like shit.

Mr shergill had gone for a walk with dad.
Mom decided to go to sleep since she was so much tired.
Aer bidding her goodnight I went to my room. I mean practically his room.

I took my medication as my head was still painning.
Aer that I decided to take a shower. It has become a habit of mine to take a bath at night otherwise I'm not able to sleep at night since the time I have arrived here.

I took the shower and then remembered holy shit I'm in his room not mine and haven't brought in my clothes.
But then I remembered he is not here and I have locked the door also. So I wrapped my towel around my body and went out. I then went towards the closet and started taking out a t-shirt and trousers and as I was about to close the wardrobe the door opened.

Shit I wish this earth good swallow me deep inside at this moment only.

I tried hiding myself behind the door of wardrobe but was failing miserably and then looked at the door.
His gaze was not anywhere but at me only.
It was so much awkward man.

"Mr Shergill can you please come in a er a moment".
And opposite to my sentence his steps were approaching towards me.

And with his pacing steps towards me I was becoming hell nervous .
And why I shouldn't be I was just in a towel in front of him.
I started shivering.

But then I convinced myself and said
"I forgot to take my clothes to the washroom. Please can you go out for a moment so I can go to the washroom."

I was more shrinking towards the wardrobe like it would engulf me anytime.
And now he was totally in front of me and I don't know how to hide myself.

He was looking me from head to toe like a pervert.
He took my le hand from my wrist in his and pulled me towards him and put his face between my neck and shoulder blade.
Holy shit .
I clutched my towel tightly with the right hand and was trying to maintain my balance.
Till now I must would have fallen if he wouldn't have supported me on my wrist.
"Mr Shergill let me go please."

"You make it so difficult for me Sona that everytime you are near me you make me to forget everything of the past.
"What are you saying . What past "
" Like you don't know " He said and he brought his face near my le hand and kissed there where he had placed the ring in the morning.
And then looked into my eyes deeply.

Damn those eyes.
Then he brought his face near to my face and I stepped backward and he kept his another hand around my waist.
And he bent till my height but then his eyes fell on my elbow.
And he frowned.

"I'm sorry for these."
He said and touched there where his marks of fingers were.
He raised my hand and kissed there.

What the hell and I closed my eyes with the sensations I was feeling. [♫]
I couldn't utter a single word.
He then raised his face and brought it closer to mine and did something I couldn't have imagined.

He kissed me
He kissed me on my forehead.
And my body was having goosebumps all around.

But then he le me and detached himself from me.
Until there was a smirk on his face and I wasn't able to understand until he said
" Just go and change but before that". He panted

I raised my face to look at him and he said
" Give me back my towel that you are wearing"
And his face had a big smirk.

And I frowned at him.
Is he mad or what.
"Are you mad "
I shouted at him for the first time since our marriage and before he could recover from that I took the advantage and picked my clothes and ran towards the room.

Anirudh's pov
Her face was all red due to anger and embarrassment. She was looking all flushed.

She literally shouted at me right now. Although I liked this fiery self of her.
She was looking so damn hot and sexy and her back was facing me when I entered the room using keys.

She was in a towel and it was a view that I could have for my entire life.
Her long hairs were all open and on her side shoulder her white bikini back was visible. Shut Up Ani maybe she wants to seduce you don't fall in her trap.

Even if its a trap it's worth it to fall for it my another self said.
Why she has to be so fucking attractive innocent sexy hot at the same time.
.....

When she slept yesterday I took her to my room. She has really lost a lot of weight in comparison to last time when I had picked her up. It was when I asked Mrs Rose to shi her all belongings here in my room. It is when she gave me her box which she had kept carefully. I was curious what would be inside it. I opened it and saw the nuptial chain and engagement ring inside it.

Then I remembered she never used to wear it er I literally lashed on her the first day we arrived here and told that she isn't my wife but now I wanted her to wear it.
She wants it or not she is married to me.

And I had a good reason to ask her to wear it since mom dad are coming and she wouldn't deny it.

In the morning also she was wearing her black suit and was looking like an angel. Her long hairs were dripping water and she was drying them when she felt my presence.
I made her wear the chain and ring.
She looks extraordinary beautiful when she comes a er the bath and that thing I have noticed today.

And then I felt my eyes on her lips. I just deviated my eyes from there and kissed her on her ring finger to deviate my mind.
How can I get peace and distress with the same person.

I couldn't take o my eyes the entire time she was talking to mom dad. She looks so free talking to others either it is my parents or her colleagues unlike me.

And my mom dad looks like they are less of mine and more of hers.
Pointing out my mistakes in each and everything.
My parents and she both were so happy to see other. I was looking the odd one here.
.....

I went near her like I was those iron fillings and she is my magnet.
I was gawking at her like an idiot man.

And the best thing about her being in towel was that she was still wearing that nuptial chain and ring on I made her wear in the morning.

I was again trying to memorize her moles on above her lips and one on her chin.
She was looking so naive and innocent.
I just wish I wouldn't have heard that call when she was talking.
I wish this would have been so real.
But then when I came near her and I saw her nuptial chain.

At that moment my favourite was to mole on her chin. But now it was the one which was like just above her cleavage where the nuptial chain ended.
Stop being a fucking pervert I told myself.
I held her wrist she was continuously asking me to get out. But I was in no mood to .
For just once I want to get drowned in her and when she was here looking so hot and water was dripping on her shoulder blades and face. Her moles were looking so fucking attractive inviting me to invade.
And now my favourite one was yet to be explored.

But then my eyes fell on her bruised hand. That's why she hissed in pain yesterday when I held her.
Fuck it was because of me.
I was so regret at myself.

I felt regret.
Pain
Hurt.
I kissed her there.

At that moment I felt so protective for her I kissed her on her forehead . Her eyes went wide.
I decided to tease her.
And said that towel thing. And she angrily went inside.

She came out wearing her t-shirt and trousers.
And went on the right side of the bed. I need to calm myself and went to washroom to take a shower. Her fragrance was here for all around.
Then I remembered the talk when I went out with dad for a walk.

"So how is everything going on son ".
" Good dad. "
" I'm talking about your marriage Anirudh"

"Yes dad everything is normal and good between me and Sona. But why are you asking".
"Is living in different rooms normal for nowadays husband wife."
I was shocked to listen to his statement.

"What are you talking dad?". I said and behaved like I don't know anything.
"Don't try to make me a fool Anirudh".
"I know each and everything going on between you too. I haven't told your mom anything yet. But trust me if you don't sort out the things soon you'll be at loss son."

"How do you know dad". I asked him angrily doubting Sona as the culprit.
"Like toh have your own ways I'm also your father son. I have my own informers and don't to you dare to doubt on that innocent soul like previous times. She is such a pure heart hiding all the unjust deeds of her husband."

So on that day when I screamed at her it was not her fault. I thought Shit.
I asked you one fucking thing and that too you were not able to digest in your stomach.punch

Now will you fucking tell me why did you told my parents that I'm not coming home. It's not been a week and you started complaining to them about me.punch

Don't you dare lie to me I know what kind of a girl you are you thought I'm not home so let's first complain to his parents about him and then roam around the city and do parties and come home late.punch

Although our marriage has no meaning but you carry my name and let me clear you for once I have a reputation carry so don't do any such act which will degrade me and my family's reputation and my company's goodwill otherwise you won't like the consequences that you will have to bear and dare you complain about anything from now onwards to my parents.punch

But dad don't have any idea about other thing. But first I need to confront each and everything with her.
Her deeds are more wrong than mine.
"Will you now speak up Anirudh".

"Dad its not like that what you are thinking"
"Shut up you moron. We had enough of you. When you told us about the girl I and you mom agreed to you at once thinking you are in love with her but then you didn't even know her name. Thankgodness that she was Anirudh's friend's daughter. We saw her as a perfect match for you and this was the reason that we got you married. "
"But dad you don't know everything."

"Anirudh whatever it is you have no right to destroy a girl's life who leaves her parents, her home, her everything behind to start a new life with you.
And one more thing you get fitted in this brain of yours is that since the day you were engaged to her our love was equally shared by you too. She is our daughter from that day and now if you will try to harm her either emotionally or physically we will stand in between and you'll have to face the consequences.
Sort out everything and begin a fresh start."

I was deep in my thoughts.
"hope I'm clear Anirudh".
"Yeah dad".

"Let's go inside it's late now".
I turned of the shower.
When I came out the sight in front of me made me smile.
She was sleeping peacefully with her pillow borders in the middle.

I went near she fell asleep so fast.
Her hairs were le open some were on my side and some on her. I tucked back few strands behind her hairs. Watching her moles.
Sona I don't no when I feel so wrong about you then also why my heart keeps on getting attracted towards you.

Everyone likes you alot.
I too have liked if I haven't heard about those words from your mouth. I was silent talking to her as if she could listen to me.
I removed those pillows and soon she was clutching me tightly and snuggling me like a Koala .
I smiled and dri ed to sleep with her next to me.
