

Domination 141

Chapter 141 : Decapitate the Evil Typha Tree (1)

The heaven and earth became pale and the sun and moon lost their brilliance. Under this one move, countless existences were lying helplessly on the ground! A loud “crack” resonated, and the Emperor’s ring shattered, leaving behind only enough emperor’s power for Dao Child Shengtian and Heavenly Prince Qingxuan.

“Xshhhh— Xshhh”

Losing the protection of the emperor’s power, the other cultivators were suddenly attacked by the evil roots.

“Go”

Heavenly Prince Qingxuan had no time to attend to them. It took so much effort and killing to reach this point; he didn’t want to die in vain. He roared and held the broken ring in his palm and escaped the trap along with Dao Child Shengtian.

At this moment, he didn’t dare to hesitate. He dragged Dao Child Shengtian along and crossed the sky all the way to the entrance. In the instant when he rushed out of the stone door, he didn’t even look back and completely escaped from the Evil Infested Ridge.

With the Emperor’s ring not having that much power left, he didn’t want to use his life-protecting secret methods to save other people. Thus, he fled immediately.

“Ah—”

Having lost the emperor’s protection, expert after expert screamed and fell to the ground. Next was an Enlightened Being that followed Heavenly Prince Qingxuan. After the evil root’s massacre, barely any experts were left alive.

In this moment of life and death, Grandpa Guan crazily shouted and broke down his own seal. Suddenly, the aura of an Ancient Saint expanded to cover ten thousand miles. He was a powerful Ancient Saint and immediately maneuvered to slash the evil roots that were attacking him.

“Boom!”

But when the old man wanted to escape from the net, there was a bolt of lightning that struck down from the sky, carrying the force of the rolling thunders.

“Bang!”

The lightning came down upon his Ancient Saint body. He immediately froze and spurted out blood. His body fell and he was dead on the spot.

“Like I said, be careful of the Emperor’s punishment.”

Seeing this scene, Li Qiye slowly spoke:

“Did you truly think that the warning of Immortal Emperor Min Ren was just empty words? If the emperor’s suppression was simply empty words, then Immortal Emperors wouldn’t be so invincible.”

The Evil Infested Ridge — only martial artists below Ancient Saint could enter. This was not an ordinary warning! Someone who suppressed their own power to enter, when revealed, would be punished by the emperor’s power.

“Ah—”

At this moment, the last cultivator standing finally perished to the evil roots. From start to finish, only Heavenly Prince Qingxuan and Dao Child Shengtian managed to escape, the rest of the people who tried to rob the treasure suffered horrific deaths.

“Sigh, didn’t trust my words. I said whoever blocks my path be killed without mercy, ah.”

Li Qiye calmly said.

As for Li Shuangyan and Niu Fen, both of them were dead silent. They have seen the terrifying ways of Li Qiye before, and Chen Baojiao along with her old servant felt their blood run cold.

From the start to finish, Li Qiye basically did nothing, but in a short time, several tens of thousands of cultivators were killed. The most frightening part was that there were Royal Nobles and Enlightened Beings, and even a master Ancient Saint!

“The Evil Typha Tree is staring at us!”

Li Shuangyan whispered to Li Qiye.

At this time, the Evil Typha Tree was bigger than ever before, being — at the very least — double its previous size. As the trunk grew bigger, there were many more small roots and ancient roots with greater sizes materializing.

When it opened its dark eyes to look at Li Qiye’s group, countless tree roots started to fly towards them. Meanwhile, it was like a pillar of bones, sucking the evil energy nearby. It was making it even more powerful.

The Evil Typha Tree carried a appearance that reeks of death. It was covered by countless large roots, akin to a devil from the depths of hell. Anyone who saw its appearance would be shivering with uncontrollable shock.

When it looked at Li Qiye like a poisonous serpent stalking its prey in the darkness, it caused the others’ hair to stand on end.

“If you pledge allegiance to me now, you will have a path towards survival. Otherwise, you will become ashes and dust.”

Everyone was afraid of the Evil Typha Tree’s gaze, only Li Qiye remained calm. He slowly spoke to the tree with a smile.

At this time, not mentioning Chen Baojiao, even Niu Fen’s group was afraid. One has to know that this existence in front of them could even kill Ancient Saints, let alone them.

“Xshhhhh—Xshhh”

The Evil Typha Tree used the most direct method to answer Li Qiye. A plethora of roots rapidly speared forward, like arrows, with power frightening enough to be able to tear through the void, doubling its speed from before.

“It sucked a lot of blood. The more blood it consumes, the more powerful it becomes!”

Seeing the action of the Evil Typha Tree, Niu Fen said with a surprised expression.

“Zhenning—”

But in the blink of an eye, an imprisonment iron chain appeared and all of the tree roots of the Evil Typha Tree were chained by a universal law. This law turned into numerous chains around the tree, not allowing it to move. It was impossible to break these godly chains!

All of the tree roots attacking Li Qiye were frozen as well. This left the Evil Typha Tree aghast. At this moment, it felt a terrifying pressure as well as the most instinctive of fear emanating from its soul.

“Clankkk-Clankkk”

Wave after wave of sound came out from the chains, shooting out endless lights. One magical rune flew out into the sky, turning into mysterious incantations that slowly morphed into a huge black hole. At this moment, this black hole could devour anything in its surroundings.

Being locked by the universal laws in the form of chains, as well as being surrounded by the black hole made from interwoven runes, these two things pulled the main root of the Evil Typha Tree inside. Once inside the black hole, it would instantly be crushed!

“What is that thing?”

Seeing the roots of the tree being suppressed, Chen Baojiao emotionally asked.

“The refined evil blood was not evil blood, but universal laws.”

Niu Fen saw the signs in this matter, and he movingly spoke:

“This entire dao platform was meant to catch it.”

Li Qiye, seeing the chains pulling the tree into the black hole, smilingly said:

“Did you really think this place had some ancestral blood to power your body? Unfortunately, you are not smart enough.”

“Bang—Bang—”

At this moment, all of the roots of the tree crazily struggled in order to escape from the universal laws, but it was all in vain.

This was the preparation left behind by Immortal Emperor Xue Xi, and was strengthened by Immortal Emperor Min Ren later on. Once trapped inside, there was only death for the Evil Typha Tree.

When they killed the tree that year, Li Qiye — as the Dark Crow — knew very well that even with a few roots left, the tree would be able to revive. Thus, Xue Xi prepared the evil blood in order to slay it in the future.

They fused the blood together with universal laws. From then on, inside the dao platform was the most tempting thing for the Evil Typha Tree. It craved the ancestral evil blood the most.

So even after millions of years, it couldn't fight its desire for the ancestral blood. It went closer and devoured the evil blood to strengthen itself, not knowing that it would be swallowed in the process.

The truth was, in the last hundred thousand years, many small roots were able to revive, but they weren't able to suppress the desire for the evil blood. Eventually, this main root was formed with some consciousness and was able to fight its instinctual desire.

However, when Li Qiye unleashed all of the evil blood, this Evil Typha Tree was no longer able to suppress its temptation. It was no different from a fish taking the bait!

“Pooof—”

The tree roots were being pushed into the black hole where they will be devoured and crushed inside.

The Evil Typha Tree struggled to escape the universal laws.

“Bang—”

It crazily dived into the ground, wanting to root itself within the earth to stop the force of the black hole, but it was to no avail. Even when the entire ground was overturned, crushing itself, it couldn't resist the sucking power of the black hole.

“It's no use. In the face of the blessings from two Immortal Emperors, unless you are as strong as before, it is meaningless.”

Li Qiye watched the struggle of the Evil Typha Tree and smiled.

“Xshhhhhh—”

The eyes of the Evil Typha Tree turned cold, and a section of the roots suddenly gave up to turn into countless arrows towards Li Qiye. It believed that Li Qiye was controlling the dao platform, so it wanted to kill Li Qiye in order to escape.

“Plufffff—”

However, the black hole morphed into a giant mouth and instantly devoured every single root that was shooting at Li Qiye.

“Trying to kill me?”

Li Qiye burst in laughter, and he uttered:

“You are still too young. Compared to my methods, you are not a match.”

Chapter 142 : Decapitate the Evil Typha Tree (2)

“Boom!”

A loud explosion filled the air. The Evil Typha Tree saw itself being slowly devoured, and its struggling became weaker. The main root tore into the ground, wanting to reach the deepest parts of the earth to stop the sucking power!

“Pfufff”

At this moment, an incomparable power appeared from under the earth and helped the main root.

“Boom!”

After being assisted by this power, the Evil Typha Tree began to stabilize, and then it pulled down the dao platform instead. The dao platform turned bright as it was being dragged by the evil tree.

“Booom—”

In a short time, the whole world shook and the Evil Typha Tree furiously pulled with its roots, wanting to yank out the dao platform.

“What is going on here?”

Seeing the sudden reversal of the situation, Li Shuangyan and Chen Baojiao were frightened and lost their colors. Once the Evil Typha Tree captured the dao platform, they could only die.

“The Evil Typha Tree managed to devour such a rare thing, this growth is not unreasonable.”

Li Qiye was still calm, and he idly said with a smile:

“The underground contains an evil vein with evil spring water. This evil spring water is extremely valuable to the Evil Typha Tree. If the tree could use it to refine its body, then one day, it would become an existence that exists alongside the gods.”

“Boom-”

Suddenly, the black hole doubled in size. The clanking sounds of the iron chains hitting each other as the universal laws restricting the Evil Typha Tree contracted several times more, pulling it into the black hole.

“Bang—”

The earth was overturned. This scene was like a heavenly ox plowing through the world, creating countless holes of dirt and mud.

At this second, even connecting to the evil vein was useless and nothing could stop it from being dragged into the black hole. A section of its roots was devoured into pieces.

“Clank, clank, clank...”

But now, an even more horrifying event occurred. The bony outgrowths of the tree that were sucking in evil energy in the sky rushed to the mountain of bones, and all of the evil energy started to condense there instead.

At this moment, all of the bones connected together. No matter whether they were human bones, Heavenly Beast's bones, or Stone Statues' remnants, everything was assembled together into a huge, giant skeletal tree.

This giant skeletal tree appeared in front of Li Qiye, like a giant monster, and struck down towards the dao platform with its monstrous body.

"Boom!"

The entire platform was shaken from the impact, but the black hole became even larger and more powerful as it continued to drag the Evil Typha Tree.

"Bang— Bang— Bang"

At this point, the giant tree gripped the dao platform, wanting to crush it into pieces.

"Shit, this evil thing became much stronger!"

Inside the protection sphere, the expressions of Niu Fen's group greatly changed from this crazy grotesque scene.

"Bang—"

However, the Evil Typha Tree was far more frightening than that. At this time, a bony outgrowth bursted out from the ground.

This bony outgrowth was ten thousand zhang high — thick and terrifying. It turned into a giant hammer and slammed down with a destructive force on the dao platform.

"Boom—"

Being stuck by this horrifying hammer, the dao platform was shaking nonstop, and even the black hole suffered from the impact, decreasing its power.

"Booom— Boom—"

Both the bony outgrowth along with the giant tree made from bones repeatedly slammed the dao platform, wanting to render it into nothingness. The black hole became weaker from the impact, leaving the Evil Typha Tree room to breathe. In a short time, their attacks became even more rapid.

"I'm afraid the dao platform won't be able to handle this. We should run away; if this ghastly thing escapes, it would be our end."

Niu Fen lost his colors and glanced at Li Qiye while speaking.

"Still a piece of cake."

Li Qiye was still calm. Looking at the Evil Typha Tree with its evil energy soaring the sky, he smiled:

"I originally did not want to kill to the very end, but since you don't know life from death, I'll help you."

Finished speaking, Li Qiye formed miscellaneous seals with his hands. He stomped his feet on the ground and shouted. Blood energy rushed into the sky, and he chanted true mantras:

“Obey my will, open Emperor Xue Xi’s Dimension. Descend, Slaughtering Evil Formation!”

“Boooooom— Boom—”

At this moment, an unimaginable scene occurred. The entire space of the Evil Infested Ridge was illuminated with a bloody light. In the horizon, a giant door was opening, and it unleashed an endless stream of terrifying emperor aura. When the lights intermixed with each other in the sky, the celestials appeared and the world rotated, giving birth to a huge complex formation.

“Whoosh—”

In a flash, a bloody spear belonging to the gods descended from the sky in order to destroy evil and all existences.

“Bang—”

The blood spear pierced down and destroyed the long bony outgrowth, penetrating countless bones. Under this one spear, whether it was the bony outgrowths or part of the giant skeleton mountain, everything was drilled through — they were unable to resist its power.

Even the Heavenly Beasts and Longevity Spirits were shivering from feeling the presence of the Immortal Emperor. One million year old Heavenly Beasts and Longevity Spirits were all hiding in their caves, not daring to venture out.

“Oh heavens, the sky is a killing formation!”

Even an expert like Niu Fen lost the strength in his knees as he watched the emperor’s gate opening and the appearance of the grand formation that created the bloody spear. He emotionally exclaimed:

“This... This is a grand formation of the Immortal Emperor rank. Anyone... anyone who meets this will surely die.”

Chen Baojiao and the old servant were — needless to say — also speechless from this impossible scene ahead. This bloody spear was indeed capable of killing gods and devils.

After a while, Chen Baojiao regained her wits and, while still pale, asked Li Qiye:

“You... you had this technique since way earlier right?”

This beauty capable of toppling kingdoms — even when pale — was still enough for others to yearn and love.

Chen Baojiao and the old servant finally understood at this point that, since the beginning, Li Qiye already had a victorious method. From the very start, Li Qiye wanted to kill all of the sects and cultivators that came into the Evil Infested Ridge!

This was when they understood that whether it was the Azure Mysterious Ancient Kingdom, the Heavenly God Sect, or even the entire world, everything was within his calculations. He was the one who spread the rumors that Dao Child Shengtian wanted what was called the “treasure of the gods.”

In the end, too many people died here and only a few escaped.

The old servant had experienced many waves and winds, but his palm was still shaking with cold sweat. At this point, he was secretly glad that they weren't the enemies of Li Qiye. Even if he was stronger, they would still be doomed.

Li Qiye simply glanced at Chen Baojiao and said:

"The Evil Infested Ridge is the personal property of the Cleansing Incense Ancient Sect. As the prime disciple, it is nothing strange that I know certain methods."

Of course, this grand formation didn't have anything to do with Immortal Emperor Min Ren. This was prepared by Immortal Emperor Xue Xi. At that time, they prepared this grand formation in the sky as an inescapable net to destroy the Evil Typha Tree.

Unfortunately, before they could do anything, the Six Dao Lotus had already made a move against the Evil Typha Tree so they didn't get a chance to use their preparation.

The killing of the tree was led by the Dark Crow, Li Qiye, but because the formation was not used, Li Qiye left it behind, hoping to make good use of it one day.

Today, Li Qiye clashed his hands together with mysterious seals while chanting profound words to open this emperor gate and summoned the descending bloody spear to destroy the evil existence.

"Zhiiii—"

At this time, the Evil Typha Tree miserably shrieked. The bloody spear had pierced through its body and its roots were slain even more.

"Poof—"

The main root of the Evil Typha Tree was split opened. Inside was an ancient root, around the size of a finger, flying forward. It wanted to escape as far away as possible!

"What is that?"

Seeing the ancient root wanting to escape, Li Shuangyan asked with astonishment.

"Primordial root."

Li Qiye looked at the extreme speed of the primordial root and said:

"The tree is not an adult Evil Typha Tree, so it only had such a tiny primordial root."

"Are you not killing it?"

Niu Fen was also worried. If the primordial root could grow up to become an adult Evil Typha Tree, then once it escaped, the consequences could only be imagined. This would be a great disaster ah...

"It does not understand this world and does not understand this heaven and earth!"

Li Qiye smiled and said.

As they were talking, the finger-sized primordial root wanted to escape far, far away.

As the root was flying out of the eastern region, the Cassia Lotus Tree in the far south made a buzzing sound. Suddenly, a green branch rushed forward like a sword of the gods. It suddenly slashed the horizon, a slash that was capable of ending the karmic cycle and destroying all six dao.

It was only a young branch, but at this moment, even the gods would tremble. This branch that was slashing out was just like a sacred sword.

“Xshhhh—”

The young branch rendered the primordial root into innumerable pieces under its godly power!

Chapter 143 : Alchemist God’s Grand Canon (1)

“I said it does not know this world and does not know that this world would not allow for the Evil Typha Tree to grow. Wanting to escape out of this place was impossible in the first place.”

Seeing this scene, Li Qiye happily smiled.

Chen Baojiao and her old servant didn’t know where this young branch came from, but seeing how it slashed through the entire sky, they were extremely frightened. This young branch was even more horrifying than a godly sword. Under its power, it didn’t matter whether one was an Enlightened Being or Ancient Saint, death was their only fate!

Li Shuangyan and Niu Fen, on the other hand, knew exactly where this branch came from. They took a deep breath; no wonder Li Qiye said that the Cassia Lotus could compare to the gods. This was a frightening existence! Just a young branch was around this terrifying, not to mention the entire Cassia Lotus Tree that was as big as a mountain.

The Cassia Lotus Tree was born from the Six Dao Lotus. After the battle with the Evil Typha Tree that year, the Six Dao Lotus Tree lost its Primordial Foundation and was on the brink of death. Afterward, Li Qiye and Immortal Emperor Xue Xi moved it into the Moon Cassia Tree, and they used a heavenly method to keep it alive, but it was no longer the Six Dao Lotus from then on!

The Six Dao Lotus and the Evil Typha Tree were mortal enemies. Once the Evil Typha Tree’s root entered its territory, the root would be slain by the Cassia Lotus Tree.

“Boooom—”

At this point, the bony outgrowth — along with the mountain of corpses — had fallen down under the might of the bloody spear.

Finally, all of the evil roots were dragged into the black hole and were devoured. The main root also suffered the same fate. It bellowed as it died a terrible death.

As Chen Baojiao’s group was in a daze, the dao platform withdrew its black hole along with all of the evil blood. The supreme immortal door in the sky closed and the grand formation dissipated. In a flash, the sky was bright again; it was as if nothing had happened.

Then, the dao platform sunk into the ground once more, waiting for the next time when the evil roots would appear again.

Li Qiye jumped to the ground and got on top of Niu Fen's back. He patted his shell and smiled:

"Finally finished everything. This trip was very smooth and successful, and my task has been completed."

Li Shuangyan was used to the mysteriousness of Li Qiye. No matter what heaven-frightening thing he did, she wouldn't be shocked anymore. As for Chen Baojiao and the old servant, they were silent. This matter was just like a dream to them.

Several ten thousand experts, including Royal Nobles, Enlightened Beings, and even an Ancient Saint, were annihilated. All of the geniuses of the Azure Mysterious Ancient Kingdom and the Heavenly God Sect did not escape death.

Everyone would lose their colors since no one could oppose the Evil Typha Tree. However, it was merely an item in Li Qiye's hands, a part of his calculations. No matter how powerful it was, it was not enough to reach the apex; it was simple enough for him to crush it.

The old servant — who had experienced many things — had to look at this fifteen year old boy with a different eye. Even if someone beat him to death later, he still wouldn't want to oppose this boy. He was too scary and chaotically nefarious!

Chen Baojiao was also contemplating for a long time. At this moment, she understood why Li Shuangyan was willing to follow this fifteen year old boy.

Li Shuangyan was one of the most promising geniuses in the Grand Middle Territory. She not only had the qualifications that others couldn't compare to, but also a peerless beauty and alluring charm. Countless people courted her and many proposed marriages, but she chose to follow this youth with a Mortal Physique and Mortal Fate, becoming the sword by his side.

Other people would surely think that she was crazy! In the beginning, Chen Baojiao was also perplexed; this was an unimaginable thing. Why was the unreachable Li Shuangyan, the focus of all the love from the heavens, willing to follow such an ordinary disciple?

Now, Chen Baojiao understood that geniuses and heaven's proud daughters in front of this young man were not enough to reach the apex!

"Good, this grand matter is completed, we can go pick up the treasure now."

Li Qiye finally said.

Li Qiye brought everyone back to the Cassia Lotus Tree. Chen Baojiao and the old servant, seeing this tree, were in amazement. They finally knew what the thing that killed the primordial root of the Evil Lotus Tree was!

"Okay, you guys are free now."

Li Qiye announced to all of the disciples:

"At this moment, everyone is free to pick up spirit plants, but you all shouldn't disturb the Heavenly Beasts and Longevity Spirits. As long as you don't provoke them, they will not attack. Remember, don't be too greedy, this is our private property. Whether it is treasure digging or spirit plant picking, if you see three, leave one behind — don't exhaust the source."

Hearing this, the disciples were ecstatic. Even Elder Gu was glad. He borrowed the power of a Heavenly Mirror to watch the grand battle at the Evil Typha Tree's place, and he was very shocked at that time.

Seeing Li Qiye able to slaughter thousands of experts while smiling, this left them speechless. At this time, the elders agreed that picking Li Qiye as the one to revive the sect was too correct.

After hearing Li Qiye's command, Elder Gu's group led the excited disciples to go mine the treasure metals and pick the spirit plants.

"Qiye, you will not go along with us for the treasure seeking?"

Seeing Li Qiye not wanting to go along, Elder Gu asked.

"I have something to do."

Li Qiye shook his head, then he stared towards the north and said in a serious manner:

"I want to make a trip to the north."

Seeing Li Qiye's expression, Elder Gu didn't ask anything else. Whatever he wanted to do, as the first elder, he fully supported it!

Eventually, Li Qiye left Gu Tieshou's group and brought Li Shuangyan while riding her snail to the north. But at this time, Chen Baojiao also followed along with her old servant.

Seeing her wanting to come, Li Qiye glanced at her, but he didn't reject her. They went north straight to the deepest area.

After the grand battle with the Evil Typha Root, that exerted its dominance, along with the Emperor's gate opening, all existences in the Evil Infested Ridge felt threatened. Li Qiye's group didn't see any fierce beasts; even the one million year ones were hiding inside their nests, not daring to come outside.

Along the way to the north, they picked up quite a few spirit plants, and the harvest was amazing. Chen Baojiao was quite ecstatic.

They then stopped at the deepest area of the north. Even if they didn't want to stop, they had no other way to go, their path was blocked.

Before them were flying magical runes, blinding the sky with immortal rune rays that encompassed the heaven and earth. The countless magical runes were similar to a waterfall coming down from the heavens, like the volcanos gushing from the bottom of the earth.

The magical runes covering the sky were hovering without order as if this was just as a storm. There was no pattern or order.

Even so, they exuded a frightening presence. Any existence in this place would be shivering in fear, or even bowing down in worship.

"Oh my mother, these are emperor's runes! This place has the suppression of an Immortal Emperor!"

Within the group, Niu Fen knew what was going on. Seeing the magical runes, he lost his colors and muttered:

“This is an area personally suppressed by an Immortal Emperor. He sealed the heaven and earth. What is this thing that is being suppressed here!?”

At this point, Li Qiye’s gaze became cold as he stared at the scene ahead. He had guessed it earlier, but after personally witnessing the suppression, he still coldly scowled.

As Li Qiye observed the place, the hearts of Niu Fen’s group sunk down. They felt the wrath of Li Qiye. Even someone as powerful as Niu Fen was shivering in fear under this rage. They felt a chill in their hearts; it was as if everything would be slaughtered within millions of miles.

At this time, Li Qiye took out his ancient zither while staring at the magical runes that blocked the sky, and he started to pull the strings.

“Zheng, zheng, zheng...”

The musical sounds of the zither resonated, creating an emperor aura that encompassed the heaven and earth. When Li Qiye plucked the strings, the aura swept through the world and drowned the entire Evil Infested Ridge.

Such an aura caused everyone inside the ridge to be palely frightened with anxiety. Gu Tieshou looked towards the north. He knew that it was Li Qiye’s doing since he brought along the Patriarch’s ancient zither.

Gu Tieshou lost his colors because he knew that it would absolutely be a powerful enemy to force Li Qiye to utilize the emperor aura and immortal will.

“Zheng——”

Finally, the aura that encompassed the heaven and earth solidified into an immortal sword made out of blood that was capable of slaying immortals and annihilating gods. One sword across the world puts the stars to shame, and the Yin Yang Dao became silent!

“Kill!”

At this second, Li Qiye roared and his fingers — like the storm — played the most violent of tunes!

“Zheng zheng——”

This one sword slashed all things in this world, carrying an invincible emperor aura with the utmost brutality. My aura is invincible and will cut down all enemies.

This one sword instantly exuded a bright brilliance, illuminating the entire Evil Infested Ridge. The frightening emperor aura swept through the four directions and reigned over the heaven and earth.

At this moment, all of the magical runes inside the light ahead were woven into an emperor tome, floating in the sky and turning into the word “Amnesty”. This word amnesty pardoned all sins; even the gods had to retreat!

“Boom!”

An explosion shook the entire ridge. Under this one blow, not mentioning the group of Gu Tieshou, but all existences inside the Evil Infested Ridge fell to the ground.

The immortal will of an Immortal Emperor within the magical runes, along with the grand suppressing formation, collided with the emperor's zither, destroying the horizon. The Yin and Yang turned into chaos. If this strike was not directly struck on the formation, then the entire Evil Infested Ridge would have been shattered.

Chapter 144 : Alchemist God's Grand Canon (2)

One invincible sword versus one eternal "Amnesty." This impact overshadowed everything. Even though this sword slashed off the word "Amnesty", the endless magical runes were still moving without stopping; lights pierced the sky like a volcano spewing molten ash.

Without a doubt, this sword was not able to cut into the grand formation! The ancient zither in Li Qiye's embrace became fainter. This strike was a huge loss to its immortal will. If he continued, then the ancient zither would shatter like the Invisible Dual Blades, becoming a mortal item!

"Impact of two Emperors!"

Finally, Niu Fen struggled to stand up and murmured.

Needless to mention Chen Baojiao, even the old servant next to her was deathly pale. Not everyone could oppose the emperor's power. Death was a sure thing under the emperor's suppression.

They were also frightened because Li Qiye was also carrying an Emperor's Possession on him. Unless one also had an Emperor's Possession of Emperor Treasures or a Virtuous Paragon with them, no one would dare to provoke someone with an Emperor's Possession,.

The group of Niu Fen stared at the repressive wall where the runes were still rampant and lights were still spewing. Even though the runes no longer emitted the oppressive emperor's power, it was still very frightening. The simple runes from an Immortal Emperor would have been enough to kill them.

What was this powerful thing that made an Immortal Emperor personally suppress? Thinking about this gave the group of Niu Fen the creeps.

"So mighty~"

At this moment, Li Qiye's gaze became cold as he slowly spoke:

"Think about it really well; otherwise, the next time I come here, I will destroy your Emperor's lineage."

Li Qiye's words frightened Chen Baojiao and the old servant. Even though he was only whispering, they knew he was talking to the oppressive grand formation. This was a threat to the Immortal Emperor who left behind the formation here, this was a threat to the Immortal Emperor's will! How arrogant and overbearing!

Threatening the Immortal Emperor's will — not too many people were this domineering. In the eyes of others, Li Qiye would appear to be an arrogant brat, but at this moment, both Chen Baojiao and the old servant did not think that Li Qiye was being foolish.

What frightened them was that they had never seen someone who threatened the Immortal Emperor's will like this before.

Finally, Li Qiye didn't stay here for long. He jumped on the snail and left the endless runes behind.

On the road, Li Qiye didn't speak, but Li Shuangyan — as his personal maid — asked:

“Not opening the Emperor's gate?”

More so than outsiders, Li Shuangyan understood Li Qiye. She knew that his methods were not limited to just that. Li Qiye left without obtaining anything — this was not his character, so she asked him.

Li Qiye looked back at the deepest part, then he gently shook his head and said:

“I didn't come here to kill this time. If I opened the Emperor's gate and released all of its murderous rampage, then everything in the north would cease to exist.”

Hearing this left Li Shuangyan in contemplation. The truth was that she wanted to ask what the thing being suppressed in the north was, or what type of person it could be, but since Li Qiye didn't say it, Li Shuangyan didn't pry further.

Chen Baojiao and her old servant were also in a daze. What on earth was the north suppressing? Which Immortal Emperor did it? It was clear that it was not Immortal Emperor Min Ren which meant that there was a second Immortal Emperor who came here! This caused them to think about many different conjectures. A place that two Immortal Emperors came to must have an unusual significance!

Chen Baojiao understood then that the Evil Infested Ridge was not as simple as it appeared. It couldn't just be a training ground for the Cleansing Incense Ancient Sect that year. The south had the great tree, the north had the great suppression, and east had the evil existence... If Li Qiye didn't bring her along, she wouldn't have known about all of the heaven-frightening secrets behind the Evil Infested Ridge.

When Li Qiye and others returned safely, Gu Tieshou finally breathed a sigh of relief. Li Qiye having to use the Emperor's Possession made Gu Tieshou quite afraid. He thought that Li Qiye had met a powerful enemy.

In the end, the disciples of the Cleansing Incense Ancient Sect picked many spirit medicines and a lot of life metals. There was even one disciple who managed to dig out a True Fate Godly Ore; the sect had a great harvest this trip.

Seeing as how the sealing time of the Evil Infested Ridge was near, Li Qiye commanded and had all of the disciples leave the Evil Infested Ridge.

Everyone became relieved after stepping outside, especially Chen Baojiao and the old servant; they were glad to finally see the true sunlight again. Thinking about this trip, the old servant was quite shaken. All of the sects and countries were almost completely annihilated. Outside of him and his young miss, only the Violet Cloud Sect and the experts from the Flying Dragon Lake made it out. As for the Azure Mysterious Ancient Kingdom, the Heavenly God Sect, the Jiang Zuo Clan, and the Heavenly Southern Kingdom, they were completely wiped out. Even an Ancient Saint perished.

Thinking of this, the old servant secretly rejoiced. If they didn't go together with Li Qiye, they would have suffered and shared the same end inside.

“Little Girl, think about it, I am saving a place for you by my side. However, don't think for too long, my patience is wearing thin!”

At the time of parting, Li Qiye looked at Chen Baojiao in the eyes and said slowly.

Being called a little girl by a younger man made Chen Baojiao more than slightly annoyed. She glared at Li Qiye — such a country toppling beauty, every frown and every smile aroused people's souls. She was truly the definition of a femme fatale.

Many other disciples of the Cleansing Incense Ancient Sect were also amazed and envious. Only their Oldest Brother would have such audacity! Goddess Li was already by his side, yet he still wanted to have the princess of the Jade Valley Country as well! What was even bolder was that Goddess Li was standing next to him, yet he still spoke so nonchalantly. Truly domineering! He was the hero in their hearts.

One breath to capture two great beauties — how despotic was this? Many disciples couldn't stop admiring.

After Chen Baojiao left with her old servant, Li Qiye went back to the Cleansing Incense Ancient Sect with the disciples.

When they returned, the atmosphere was very jubilant. This trip had a great harvest along with very few losses for the disciples. Checking their current inventory, all of the elders and protectors who didn't come along were surprised and ecstatic.

The sect originally didn't have the qualifications to enter the Evil Infested Ridge, but now? Not only did they enter, but they also had great success, how could the upper echelon not be excited?

Gu Tieshou administered a meeting after the trip, so he also invited Su Yonghuang to show his respect to the sect master.

Even though she was already the sect master before, she was always in the border area and never participated in the important meetings. This meeting also officialized her status within the sect.

Gu Tieshou also wanted to invite Li Qiye, but Li Qiye wasn't interested in these types of meetings.

During the meeting, Gu Tieshou disclosed the entire account of the trip to the Evil Infested Ridge. After hearing all of the stories, each and every one of the elders and protectors were shocked in disbelief. Some were even stunned into a daze.

This time, they glanced at each other, and they marveled at how wise the choice of picking Li Qiye as the person to revitalize the sect was.

Even Su Yonghuang was surprised. Coming from the Su Clan, she knew the situation of the Cleansing Incense Ancient Sect, but having heard Gu Tieshou's story, she took a deep breath and muttered:

"I can't believe the Evil Infested Ridge had such a big secret!"

As for Li Qiye, the first thing he did after returning to the sect was finding a buddhist temple block. He placed the frog on the table, then murmured:

"I finally found it again. I should let it see the sun once more."

With that, Li Qiye slowly tapped the temple block. "Duuu, duuu, duuu...." The sound of the rhythmic tapping continued in a slow manner like a melody and an indescribable dao pattern!!

“Duuu, duuu, duuu...”

As the temple block's sounds were ringing, the frog began to shake in the same rhythm as the temple block.

“Ommmm...”

A while later, a small sound emerged, and the back of the frog lit up, revealing magical runes. These magical runes were basked in countless moons as if it had gone through countless ages!

“Finally back!”

Seeing the magical runes, Li Qiye became happy. His Fate Palace opened and his True Fate sucked in all of the magical runes into his head and into his sea of memories, turning into texts.

When the runes were branded in Li Qiye's sea of memories, his erased memories began to surface once again.

Supreme Alchemy God's Grand Canon! This was a supreme alchemy scripture written by the alchemist progenitor! In reality, this scripture was not written by the Alchemist God alone, Li Qiye also expended numerous effort for its completion in the lost, past era.

Chapter 145 : Silence in all Directions (1)

During the Desolate Era, as the Dark Crow, Li Qiye was the guide for the Alchemist God. They experienced mortal dangers, traversed the nine heavens and ten earths, walked throughout the Nine Worlds, invaded the Forbidden Burial Grounds, and penetrated the Ancient Earth. Along the way, they tasted all type of grass and refined countless pills. In the end, they established the rules for the human race's Alchemy Dao and specified the methods to refine pills as well as the standards...

Since the ages till now, there was a saying: “If the Alchemy God didn't exist, then there wouldn't be an Alchemy Dao for the human race, and there would also be no standards for alchemists for all the races!”

One could say that the Alchemy God not only created the Alchemy Dao's foundation for the human race, but also the foundation for all existences.

Of course, the world only knew about the Alchemy God and the Alchemy God's Grand Canon, no one knew about Li Qiye or the Dark Crow behind him!

Later on, regarding the pill refining dao of the Alchemy God or his inheritance, only Li Qiye knew. The essence of the Alchemy God's skill was not passed down; the world only had the Alchemy God's Grand Canon. This was only a guideline for pill refinement and a complete system for alchemists. Of course, these things would serve as a guideline for alchemists later on.

The reality was that the true essence of the Alchemist God was lost, and Li Qiye knew that this brat did it on purpose. What was even more frustrating was that there was a problem when he erased his memories so, later on, he couldn't find the memories regarding the Alchemy God's Grand Canon.

However, Li Qiye knew that there was still some hope, and it was this frog. This was the Myriad Heavenly Cauldron they raised that year! The Alchemy God's Grand Canon was sealed inside this frog.

At that time, this lunatic Alchemy God once made a joke that this frog was his essence. No one would expect that this frog would be his only handed-down teachings and his dao orthodoxy! However, this frog unexpectedly escaped, so this joke was no longer true later on.

After a while, Li Qiye was always trying to find this Myriad Heavenly Cauldron to recover the Alchemy God's Grand Canon, but unfortunately, he couldn't find it. However, in this life where he regained his body, Li Qiye finally found the cauldron as well as the Alchemy God's Grand Canon.

Seeing this frog-shaped cauldron, Li Qiye smiled and said:

“Crazy alchemy brat, I'm afraid in this life, I will have to outshine your brilliance.”

Having said this, he bursted out in laughter. But after a while, behind his smile was a sense of disconsolation and sadness.

It was a memorable past during his millions of years of ups and downs amidst the blood and killing. Since the Desolate Era till now, he had been chased and even his root was cut, but he managed to reserve this situation and plotted against the world. It was either his enemies dying, or him dying. During the Ancient Ming Era, there was even more blood in the sky. When he massacred the gods and annihilated the immortals, to him, this was an extremely difficult era, and it continued all the way to the Emperors Era. This was the era when he counterattacked against the Immortal Demon Grotto, an era with many great changes. He developed many wise sages, and even Immortal Emperors. When he ran out of effort and ran out of preparations, that would be the day when he broke through the Immortal Demon Grotto!

No matter how difficult the road was, whether it was slaughtering and vanquishing gods and devils or his plan to counterattack against the Immortal Demon Grotto, along with numerous foul winds and bloody reigns during countless military campaigns, his memories regarding the era of the Alchemy God was the most pure. It was an era of learning, an era of pill refinement and herb testing. At that time, it was a search for the dan refinement path to form a foundation for the human race, as well as the Nine Worlds.

Finally, Li Qiye gently sighed and calmed his thoughts. He picked up the frog and shouted:

“Open!”

As the frog was falling down, it turned into a huge cauldron in the shape of a squatting frog. It opened its mouth and spewed out the heaven's energy.

Feeling the bashing of the heat in front of him, it caused Li Qiye to close his eyes. He smelled the medicinal fragrances of the drugs inside the Heavenly Cauldron and said:

“Myriad Heavenly Cauldron — truly worthy of being the best cauldron since the start of time, worthy of my time spent to chase you in all of the Nine Worlds, and worthy of all the consumptions of great treasures of the world. With this cauldron in my hands, any heaven rebelling or fate changing pills would be too simple.”

The world had never heard of this Myriad Heavenly Cauldron. In contemporary times, only Li Qiye knew all of the mysteries of this Heavenly Cauldron.

This cauldron went beyond simple alchemy refinement. It was fused with the Alchemy God's Grand Canon, so it had heaven-frightening power; it was able to rebel against the heaven and change fates!

The Myriad Heavenly Cauldron, in Li Qiye's eyes, was the supreme furnace throughout the ages! It was different from other Heavenly Cauldrons. Other cauldrons were born from nature and essentially couldn't move. It could only stay in one place to swallow the world's essence to cultivate its fire.

However, this Myriad Heavenly Cauldron... It could move by itself like a frog, capable of traversing this entire world. It could even find different flames to eat, along with spirit pills and alchemy grass. The longer it lived, the more valuable things it would have eaten. Normal flames and ordinary spirit pills were not worthy in its eyes!

This was why its medicinal treasure along with its flames were peerless! It was also extremely fast. No one was able to catch it before. Even if they saw it, they didn't pay any attention since it was only an ordinary frog.

Finally, Li Qiye withdrew the frog and slumped down to the ground as he started to cultivate.

Many sects finally got the news of the Cleansing Incense Ancient Sect's triumphant return. In a short amount of time, there were howlings and commotions everywhere between these great sects and secret schools. Losing everything in this trip to the Evil Infested Ridge, to many of these great powers, was an extreme disgrace.

Inside the Azure Mysterious Ancient Kingdom, within an ancient temple, Heavenly Prince Qingxuan — surrounded by his azure aura — was reporting the events regarding the trip to an expert. And this expert sitting up high was a Heavenly King, renowned in all Eight Desolaces. His royal aura chilled the souls of others; even an Ancient Saint would lose his colors from fear.

"The Cleansing Incense Ancient Sect—"

The expert sitting up high with his voice carrying tension and godliness began to speak:

"An insect dying for a hundred years yet still not completely vanquished! Immortal Emperor Min Ren is worthy of being the founder to the Emperors Era! They have declined for such a long time yet they still have some abilities."

Heavenly Prince Qingxuan, below, didn't say anything, he only listened quietly.

"Don't worry, there is no need to rush getting even with the Cleansing Incense Ancient Sect!"

The royal expert up high finally said:

"We should wait. Let other people ignite the first fire, we just need to watch. Even though you didn't get the godly treasure, it is not a big deal; our Ancient Kingdom does not lack treasures! Remain calm and go cultivate. In this era, if you carry the Heaven's Will, our Ancient Kingdom will have our third Immortal Emperor."

Heavenly Prince Qingxuan sounded in agreement, and he eventually left.

“My son, Hao—”

Inside the Southern Heavenly Kingdom, an old man bellowed and almost fainted after receiving the news, even when he was a master.

In the end, this old man was ready to blow up, and he bitterly said:

“If we don’t obtain our vengeance, then our Nantian Clan will cease to be humans!”

This old man went into the royal city of the Southern Heavenly Kingdom to find the royal experts and beseech them to maneuver the troops to take revenge for his son, Nantian Hao, and to destroy the Cleansing Incense Ancient Sect.

To his request, the high above royal expert replied:

“The Cleansing Incense Ancient Sect is within the border of the Heavenly Jewel Sect, and they do not like us moving troops into their borders! Plus, the ancestor of the Heavenly God Sect is still alive, we cannot easily offend the Heavenly God Sect. I will send messengers to contact the Heavenly God Sect. As for the killer of Little Hao, I will not let it go. Wait until my royal son comes out from his cultivation, I will then tell him to go and take revenge for Little Hao.”

Even though the old man was not satisfied with the royal expert’s ruling, he could only accept it.

Meanwhile, inside the Heavenly Jewel Kingdom. The Mortal King heard the report from Dao Child Shengtian as he was sitting high in his dragon throne. At this moment, his expression sank before he finally spoke:

“Emperor’s Possession! Emperor’s Possession again!”

That year, when the Cleansing Incense Ancient Sect used the Emperor’s will to suppress him, it was an unbearably humble moment to a royal expert such as him. But he couldn’t do anything. Unless there was no other choice, even someone as powerful as him wouldn’t deal with an Emperor’s Possession.

“The ancestor still has not come into being, we will just have to subdue our anger for a little longer!”

In the end, the Mortal King finally said:

“This trip was fruitful. To be able to go together with Heavenly Prince Qingxuan, it is a good thing. You don’t have to worry about the Cleansing Incense Ancient Sect for now, I will send ambassadors to the Azure Mysterious Ancient Kingdom to see if we can form an alliance with them! If the alliance is successful, then with them as our backing, we will have nothing to be afraid of in the Grand Middle Territory! Hmph, even if the Nine Saint Demon Gate want to protect the Cleansing Incense Ancient Sect, they would only be seeking death!”

As his words came out, the killing intent in his eyes soared.

“My son...”

In the Jiang Zuo Clan, a person miserably shrieked. After hearing the news, the Jiang Zuo Clan was shrouded by sadness.

The Jiang Zuo Clan not only lost Marquis of the Eastern River, but also the ferocious Jiang Zuo Tiewi along with one thousand elites. To the clan, this loss was too heavy, especially when their younger generation was destroyed; they would have a hard time recovering.

“The Cleansing Incense Ancient Sect... One day, our Jiang Zuo Clan will slaughter you!”

Finally, the clan master of the Jiang Zuo Clan bitterly exclaimed.

To the Jiang Zuo Clan, this was not only animosity, but also a generational feud! Back in those days, their Virtuous Monarch Jiang Zuo suffered a crushing defeat to the hands of Immortal Emperor Min Ren and was not entitled to host the Heaven’s Will.

Chapter 146 : Silence in all Directions (2)

When their descendant, Marquis of the Eastern River, died in the hands of the Cleansing Incense Ancient Sect’s disciple, they could only grit their teeth and wish to immediately destroy the Cleansing Incense Ancient Sect!

Inside the Cleansing Incense Ancient Sect, Li Qiye was sitting in his room and had opened his Fate Palace. His two Fate Palaces were floating on top of his head — one large and one small. The large one was his Master Fate Palace and the small one was his Vice Fate Palace.

The small Fate Palace was his second Fate Palace. It was opened when he reached the grand completion stage of the Provisional Palace realm.

At this time, inside his Master Palace, his True Fate closed its eyes and was absorbing the world’s essence while his Kun Peng was refining this energy nonstop to create a new dao foundation.

At this moment, his Life Wheel began to move and his blood energy was like the rivers running into the ocean. Round after round of blood became Longevity Blood and was stored in his Life Wheel.

Meanwhile, his Revolving Crescent Sun Merit Law was sustaining his Yin Yang Sea of Blood with an endless circulation and cycle. The Yin Yang blood flowed towards the Life Wheel, giving it energy to increase its rotation. This in turn made the whole process of refinement even faster.

As the Yin Yang blood flew into the wheel, it became brighter and his Life Ring increased one by one. This scene meant that his lifespan was increasing year by year. Unless it was an external death, his lifespan would be much longer than an ordinary mortal.

Li Qiye had reached the Inner Longevity realm at this time. In reality, he already reached this level back in the Evil Infested Ridge, and he was closer to the second level of the Inner Longevity realm.

The Inner Longevity realm had three levels. From lowest to highest, they are in the following order: First Treasure Tempering, Second Essence Polymerization, Third Flowing Life Wheel.

Treasure Tempering was changing one’s blood energy into a Longevity Treasure. All cultivators at this level, no matter their origin, required their own Longevity Treasure whether they be inherited or using

Life Rings to take form. Without the help of a Longevity Treasure, the refinement of Longevity Blood would be a lot slower than others.

Thus, cultivators in the small sects without any other alternative would use their cheapest Life Ring to create a Longevity Treasure. Then, one day, when they are stronger, they would change it. At the very least, the price to pay for changing the Longevity Treasure was much cheaper than changing a True Fate Treasure.

Li Qiye had a Longevity Treasure from long ago; it was the Yin Yang Sea of Blood. The truth was that he already had it way before the Treasure Tempering level, and he had already refined it many times as well. With all of this, Li Qiye easily crossed this level.

The Essence Polymerization level was about absorbing the essence of the heaven and earth to empower the original blood energy then refine it into Longevity Blood! To cultivators, blood energy and the world's essence were not the ultimate existences; Longevity Blood was the ultimate existence. It not only contained the essence and life of a person, but also the tempered world's essence.

There was a phrase amongst cultivators: if one expended their last drop of Longevity Blood, then their death was near!

The Revolving Crescent Sun Merit Law was very powerful regarding the refinement of Longevity Blood. With the help of the Yin Yang Sea of Blood, Li Qiye had an easy time creating his Longevity Blood. After tempering time and time again, his Longevity Blood was full and hidden inside his Life Wheel.

Flowing Life Wheel was the process of using the Longevity Treasure to strengthen the body and the Life Wheel.

Cultivators at this level would be able to increase their life essence as well as their lifespan. This was when cultivators would escape the confinement of mortality. The Longevity Treasure would lengthen one's lifespan, and the Life Wheel would give birth to additional Life Ring layers. One layer of a Life Ring was equivalent to one year.

When the Life Wheel has one thousand layers, that meant the Flowing Life Wheel stage reached grand completion, as well as the Inner Longevity realm, and the cultivator would be ready for the next realm — Heaven's Mandate.

Grand completion of the Inner Longevity realm meant that one had a one thousand year lifespan. In principle, even if one's cultivation remained the same in the future, they would still be able to live for one thousand years. Of course, if they died an accidental death or were killed, this would be a different matter! The truth was that cultivators at the grand completion of this realm rarely ever lived to one thousand years of age. One day, an enemy would find them, or they would travel into a dangerous ground.

The Life Ring continued to spin, and this meant that Li Qiye's lifespan was increasing.

Some time later, Li Qiye stopped pouring his Yin Yang Sea of Blood into the Life Wheel. He then opened his second new Fate Palace.

Inside this second Fate Palace, the Spring of Life was flourishly flowing, the Tree of Life was shining, and the Cauldron of Life was burning with rage...

However, there was no True Fate inside the second Fate Palace. This was the biggest difference between the Master Palace and a Vice Palace. The place where the True Fate should be located had a Dao Bone instead!

This Dao Bone belonged to Little Silly. Li Qiye brought it back with him from the Evil Infested Ridge. When Li Qiye was channeling the Spring of Life, activating the Tree of Life, and borrowing the Spring of Life, he used these life energies to refine this Dao Bone one more time. It became shinier, and after countless refinements, it faintly contained universal truths of string-like thinness as if it was cocooning a new life.

The Cauldron of Life inside the Fate Palace, along with the Spring of Life, Tree of Life, and Pillar of Life, could offer their power to strengthen life essence. However, many former sages did not believe that the true mysteries of the Spring and Cauldron of Life were limited to just life essence strengthening.

As for the genuine profoundness of these these two, there were very few people who were clear regarding their true properties since the ancient ages.

For cultivators with a Master Palace and Vice Palaces, the True Fate would be inside the Master Palace along with the True Fate Treasure. This was to protect the True Fate as well as having some offensive usage!

As for the treasure inside the Vice Palace, this was the difference between a True Fate Treasure and a Fate Treasure! However, a Life Treasure was also different. For example, Life Treasures that were not refined, or Life Treasures that were not groomed. This meant that the Life Treasure was inherited from a predecessor, or a cultivator might have refined it but would not feed it in the future.

This Life Treasure would not increase in rank any further. Cultivators could still use it, but it would remain at the same level.

As for how many Life Treasures could be stored within the Fate Palace, however many one had was the amount that could be stored. In fact, the Fate Palace's space was gigantic. As long as one was powerful enough, even the heaven and earth could be stored inside.

However, a groomed Life Treasure or a Cultivating Life Treasure was different. One Fate Palace could only cultivate one Life Treasure. At this time, the Cauldron of Life and the Spring of Life would only refine and pour energy into this single Life Treasure. This meant that during this process, one Fate Palace could only grow one Life Treasure.

This Cultivating Life Treasure would increase in realms along with the cultivator, and its power would be very mysterious. It would change along with the refinement method.

To cultivators, to use the Cauldron of Life inside the Fate Palace and one's life energy to refine a Life Treasure would only require two materials. One was Grand Dao Treasure Metals, and the other was the Dao Bones of Heavenly Beasts.

There was a big difference between Grand Dao Treasure Metals and Heavenly Beast's Dao Bones. There was a ranking limit for a Grand Dao Treasure Metal. Any of them could be refined into an Immortal Emperor's Life Treasure as long as the refiner was powerful enough.

However, it was different for Heavenly Beast's Dao Bones. When one obtained the Dao Bone, whatever rank the Heavenly Beast it belonged to was then the rank of the refined Life Treasure, it would never surpass this rank.

Even though this was the case, many cultivators still liked to use Dao Bones to create their Life Treasure. The reason was very simple — the Life Treasures made from Dao Bones would have the power and image of the Heavenly Beast.

For example, if one used the Dao Bone of a Heavenly Wild Lion King to create a Life Treasure, then this treasure would not only have the power of the cultivator's refinement technique, but also the godly power of the Heavenly Wild Lion King.

Using a Grand Dao Life Metal to create a Life Treasure had no limitation, but its true potential was much weaker than a Dao Bone Life Treasure, which always had powerful strength to begin with.

Li Qiye used the spring water to pour life energy into the Dao Bone of Little Silly. To Li Qiye, this was not a simple refinement of a Life Treasure using a Dao Bone. To him, Little Silly had great significance.

Little Silly was innately special and could even be considered supremely peerless. However, when it was young, its life essence was very weak and needed to transform over and over again.

Because of this, Li Qiye, after capturing it from the Ancient Earth, had entrusted it to Immortal Emperor Min Ren to take care of it in the west of the Evil Infested Ridge. That was a forbidden ground, and it was the most suitable home for Little Silly.

As long as there was an ample amount of time, one day, Little Silly would become an existence that even the gods would fear! In reality, several ten thousand years ago, Little Silly was already frighteningly powerful enough.

However, during his slumber, Little Silly was unexpectedly killed. To Li Qiye, this was a clear provocation to his authority. He would sooner or later find the one who committed the deed to settle the score.

After Li Qiye poured the Spring of Life's water and life energy inside the Dao Bone for an unknown amount of time, there was finally a distinct presence from the Dao Bone. Li Qiye was relieved; it seems that there was still hope.

In Li Qiye's eyes, as long as there was a faint presence, it simply meant that one day, there would inevitably be an invincible general reappearing in this heaven and earth!

Chapter 147 : Six Dao Sword (1)

After a while, Li Qiye stood up and outside the door stood Su Yonghuang and Li Shuangyan. They were completely different. Su Yonghuang had an elegant and noble beauty with a matchless imperial lineage.

Seeing Li Qiye finishing his cultivation, Li Shuangyan silently retreated while Su Yonghuang finally stepped inside.

"Disciple, you should know that there is a code of respect between masters and disciples."

Sitting down, Su Yonghuang looked at Li Qiye and said:

“As a disciple, you cannot summon your master, understand? I won’t scold you right now, though.”

Su Yonghuang came from the Su Clan, which had the blood of Immortal Emperor Min Ren. She was a natural elegant noble, and this elegance was not something that could be taught. Instead, it came innately from her virtuous blood!

“Don’t forget, we are not a real master and disciple.”

Li Qiye calmly smiled and said:

“As a master, you have not taught me the dao or inheritances, how could you even be called a master?”

“Little Demon, a master for one day is a father for a lifetime.”[1. This is an idiom expressing how much historical Chinese valued the relationship between teacher/master and student/disciple – even higher than one’s father]

Su Yonghuang gritted her teeth and glared at Li Qiye. A natural royal descendant like her revealing an angry expression like a young girl was quite a spectacle to behold.

“A father for a lifetime?”

Li Qiye laughed and leisurely said:

“A father for a lifetime, but you need to be a man first!”

Hearing this, Su Yonghuang’s face was flushed red as she glared at Li Qiye with seven parts nobility and three parts beauty — it truly fascinated others.

“Do you still remember the vow of the Su Clan?”

Li Qiye stopped smiling and formally looked over at Su Yonghuang.

Li Qiye’s words left Su Yonghuang in distraught. She also became solemn. With a serious gaze, she then said:

“Of course, why do you ask?!”

The vow of the Su Clan had to do with the Supreme Immortal Physique Law. Only the descendant of each generation knew about it, so she was shocked hearing Li Qiye’s question.

“I want you to make an even stricter vow than the Su Clan’s vow. Use your True Fate to swear!”

At this moment, Li Qiye raised his tone.

“On what grounds?”

Su Yonghuang’s expression also greatly changed. A True Fate promise, to any cultivator, was the most serious of matters! Once one swore with one’s True Fate, it would follow them for the rest of their lives!

“The Extreme Yang Immortal Physique Supreme Law!”

Li Qiye slowly spoke; each of his words were powerful. Hearing the words “Extreme Yang Immortal Physique Supreme Law”, Su Yonghuang thought about many things to not be carried away by a sudden impulse.

Su Yonghuang was a genius of the Su Clan and was a natural born Complete Yang Saint Physique. After careful deliberation, he decided to pass the Supreme Immortal Physique Law to her. Otherwise, it would be a waste of her talents.

“Impossible, impossible!”

At that moment, she intensely stared at Li Qiye. Even her noble grace lost their colors. She suddenly stood up in disbelief and said:

“This is an Immortal Physique Law, it’s supreme beyond comparison! How can you have it?”

Su Yonghuang cultivated the Solar Immortal Physique Supreme Law, a renown physique law, so she naturally understood how heaven defying it was! Their ancestors used to say that within the Solar Immortal Physique Laws, no one could have a better one than themselves! One could say that the Su Clan’s Physique Law was number one!

Li Qiye’s bringing up the supreme Extreme Yang Immortal Physique Supreme Law shook Su Yonghuang. She had cultivated the Solar Immortal Physique so she knew how invincible it was!

“It is impossible for other people!”

Li Qiye calmly continued:

“But, I am Li Qiye!”

These ordinary words carried an unparalleled confidence!

Su Yonghuang furrowed her brows, then she looked at Li Qiye. His confident words shook her heart. In this moment, she was short of breath as her milky breasts were shaking up and down.

“Will you swear or not?”

Li Qiye nonchalantly said:

“The decision is in your hands.”

Eventually, Su Yonghuang calmed her heart, took a deep breath, and looked at Li Qiye for a long time. Finally, she said with a serious tone:

“I swear!”

A True Fate vow was not a joke, but she knew the meaning behind the Extreme Yang Immortal Physique!

After she made the True Fate vow, Li Qiye smiled and said:

“Listen carefully, as the descendant of the Su Clan, if you need me to repeat myself, that would be very disappointing, you know, Master—”

He teasingly stretched the word “master” for a long time. Li Qiye made her face become hot. She glared at him again with a charming demeanor!

Li Qiye passed on the profound truths behind the word “Yang” to Su Yonghuang. This word “Yang” could be derived into two Supreme Immortal Physique Laws — the Extreme Yang Immortal Physique and the Solar Immortal Physique!

Su Yonghuang cultivated the Solar Immortal Physique, but now she also accepted the Extreme Yang Immortal Physique. She was astonished for a short time and was in complete disbelief.

At this moment, she knew that Li Qiye’s Supreme Immortal Physique Law came from the same source as her own. They even synergized with each other, like two flowers on the same branch, to become two different fruits.

She finally understood why Li Qiye said that there would be no conflict between her two Immortal Physique Laws! Since these two were two branches from the same root, how could they conflict with each other?

Su Yonghuang was completely stirred. At this moment, she knew where the origin of these Supreme Immortal Physique Law was. These were the number one Immortal Physique Laws in the world with no equals!

“You... How did you obtain this Immortal Physique Law?”

Even at this second, Su Yonghuang still couldn’t believe how this young man, no, this disciple in front of her possessed this Physique Law.

Li Qiye leisurely smiled and said:

“Don’t forget the Immortal Emperor in my dreams that passed on the dao to me.”

Having said this, he bursted out in laughter.

These words made Su Yonghuang angrily glare at Li Qiye once again. This was essentially an impossible matter. Even though the group of Gu Tieshou believed in this dream dao instruction, Su Yonghuang didn’t believe this excuse. However, if it wasn’t due to the dao instruction in one’s dream, there seemed to be no better explanation.

Having obtained Li Qiye’s dao instruction, Su Yonghuang rose up and left. She had to go back to ponder this Supreme Immortal Physique. Like Li Qiye had said before, she was a natural born Complete Yang Saint Physique, so cultivating the Extreme Yang Immortal Physique was the most appropriate choice! She will have the biggest breakthrough using this cultivation method!

“Disciple—”

After arriving at the door, Su Yonghuang turned back and looked around Li Qiye with three parts teasing, one part charm, and six parts calmness, and she smiled:

“Even though you taught me the Supreme Immortal Physique Law, it cannot change the fact that you are my disciple. Disciple, in the future, you better be pious to me. Whatever method and invincible treasures you obtain, you need to respectfully give them to me, you know?”

Finished speaking, she turned around and left.

Her smile was as crisp and clear as the bell that resonated from outside the door. It was particularly pleasing for others to listen to.

Li Qiye smiled and called Li Shuangyan in. He took out the wooden sword from the Evil Infested Ridge and gave it to Li Shuangyan as he smilingly said:

“Since I said that you are my sword maid, if you don’t wield a sword, how could you be a sword maid? Find a good scabbard and carry it with you. It is not only my sword, but also your sword.”

Li Shuangyan gave him an angry glance and carefully looked at the sword in her hand. Then, she asked:

“What is the sword’s name?”

“This sword was formed by the Primordial Foundation of the Six Dao Lotus and the Primordial Foundation of the Evil Typha Tree and refined by the heaven and earth. You can call it an evil sword, immortal evil sword, or black and white sword... Just pick one.”

Li Qiye smiled and said.

“Black and white sword sounds horrible.”

Li Shuangyan angrily said:

“Then let it be called the Six Dao Sword!”

She didn’t realize that she let go of her cold demeanor in front of Li Qiye. She was acting more like a little girl.

“Give its mysticism a try.”

Regarding the name of the sword, Li Qiye didn’t provide his opinion.

With the Six Dao Sword in her hand, she activated her blood energy. “Ommm”, the black and white rays appeared and intertwined with each other like the Yin and Yang taiji, interlacing and rotating without stop!

When the small “ommmm” sound appeared, Li Shuangyan’s body spewed out an extremely holy light. The white rays of the Six Dao Sword were like the fish in the water. They immediately blended together with Li Shuangyan’s brilliance.

However, the black rays were very wary of Li Shuangyan’s Immortal Physique. Her light dissipated the black rays, and it caused Li Shuangyan’s entire body to shake. At this moment, she felt that her Void Imperfection Physique was maximized to the extreme — impenetrable by all daos. When the Immortal Physique absorbed the black light, she immediately took control of yin and yang, reigning over the universe with an extreme power.

“Very good, this sword is very appropriate for you.”

Li Qiye smiled and said:

“With this sword next to you, it can greatly grow your Physique and strengthen your blood energy. It truly is advantageous for you! It will make your cultivation very easy.”

“But half of this sword is the Primordial Foundation of the Evil Typha Tree, it has evil energy. Would it haunt my Void Imperfection Physique?”

Li Shuangyan worriedly said. The Six Dao Lotus and her Void Imperfection Physique were harmonious, but the Evil Typha Tree was conflicting with her Physique.

“You underestimate the Physique Law I passed onto you.”

Li Qiye shook his head and smiled:

“Compared to your Physique Law, the Evil Typha Tree is nothing. Do you remember the words?”

Chapter 148 : Six Dao Sword (2)

“When the universe was still in its infancy stage, the primordial chaos arrived. From the primordial chaos, the grand beginning spawned. The grand beginning gave birth to the Nine Words, the Nine Words created the Nine Treasures, and from the Nine Treasures came the Nine Scriptures.”

Li Shuangyan memorized these verses.

To the people on his side, Li Qiye trusted Li Shuangyan the most. She had successfully passed through his test of loyalty so she would surely hide the secret of the Physiques. She would definitely never tell a second person.

“My Nine Scriptures stand alongside the heaven and earth; they are eternal since the beginning of time. How could the Evil Typha Tree compare to this Physique Law? It is nothing.”

Li Qiye shook his head and smiled towards Li Shuangyan:

“You should have confidence in your Void Imperfection Physique, it will absolutely be able to suppress it. On the contrary, the evil property of the Evil Typha Tree will be refined by your Physique, and your cultivation will increase.”

Hearing Li Qiye’s words, Li Shuangyan finally breathed a sigh of relief. At the moment, she was cultivating a Supreme Immortal Physique Law and the power she could exert from it was gradually increasing.

“This sword is not just a simple sword.”

Li Qiye looked at Li Shuangyan and said:

“It was formed from the Primordial Foundations of the Six Dao Lotus and the Evil Typha Tree from the ancient ages. It contained the grand dao along with the profound truths of the world. Then, the heaven and earth refined them into a sword, and it had transcended the grand dao boundaries of the Six Dao Lotus along with the Evil Typha Tree. It even contained the mysteries of the heavens, and from this sword, you could peek and see into the heavenly dao! Take your time to be enlightened because, one day, you might be able to create your own heavenly dao!”

Hearing this, Li Shuangyan was shocked. The heavenly dao! This was the highest existence in her knowledge. Once the heavenly dao reached grand completion, this meant that in the future, she would be able to become an Immortal Emperor and shoulder the Heaven’s Will!

“What about you?”

Li Shuangyan calmed down. She understood the priceless and peerless value of the Six Dao Sword, and its worth was no less than an Immortal Emperor’s Life Treasure! It was not only a weapon, but it also contained the heaven and earth’s grand dao.

“I have grasped it for some time now. Everyone has different opportunities and our understandings are also different. You go ahead and ponder it. When I need it, I will ask you for it.”

Li Qiye said. When he grasped the Six Dao Sword, he was able to extract its profound mysteriousness for an enlightenment.

Although he was only of Mortal Fate, he had experience on the road of cultivation and ordinary cultivators couldn’t compare to him! Thus, when he was researching the sword, he learned a new sword technique!

After Li Shuangyan left, Li Qiye took out the Myriad Heavenly Cauldron and shouted:

“Open—”

The frog left his hand and turned into a Heavenly Cauldron on the ground.

The cauldron opened its mouth wide and Li Qiye, along with the cauldron, followed the supreme dao of the Alchemy God Grand Canon to fuel the furnace.

“Huuu— Huuu— Huu—”

After fueling the furnace, the flame that traveled inside became the medicinal pot, but Li Qiye did not stop there and continued the technique.

One after another, medicinal pots were formed in succession. This creation continued throughout the process, and medicinal pot was formed one after another...

The creation of these medicinal pots was unbelievable. In general, the origin flame would only form one medicinal pot. Only a few extremely valuable Heavenly Cauldrons or the Alchemy God’s Heavenly Cauldron would be able to create two or more medicinal pots.

However, at this point, there were medicinal pots forming one after another inside the Myriad Heavenly Cauldron and it showed no signs of stopping. Any Alchemy Master would be stunned by this scene.

This was an impossible matter, but it was appearing in the hands of Li Qiye. This was a supreme treasure that would absolutely incite the greed in others and start a new murderous competition for it.

As time passed, Li Qiye was immersed in the Heavenly Cauldron. His medicinal pots became higher and higher, forming more than five hundred medicinal pots. At this moment, he began to realize that his cultivation was not enough; his blood energy along with the world’s energy was not enough to support the cauldron’s flame.

If anyone saw Li Qiye creating more than five hundred fiery cauldrons in just one breath, they would be astonished from this scene. It was likely that no one had ever done this before.

Of course, this was the heaven defying peerlessness of the Myriad Heavenly Cauldron. It had lived for so long and swallowed countless flame sparks. What was more frightening was that, when Li Qiye — along with the Alchemy God — were grooming it, they collected countless flame sparks and spirit medicines along with immortal grass to grow it from the entire Nine Worlds.

It would not be an exaggeration to say that during that era, there was no treasure in the world that had not been tasted by the Myriad Heavenly Cauldron.

If anyone knew the luxurious feeding the Myriad Heavenly Cauldron enjoyed, they would be scared silly and thought that only a madman would do such a thing.

In fact, the Alchemy God was considered half crazy at the time which was why the Dark Crow, Li Qiye, called him the alchemy lunatic!

Meanwhile, Li Qiye was reaching his limit. Thus, he changed his goal and no longer tried to complete the cauldron and instead went to practice the art of controlling the flames.

Inside the cauldron and under Li Qiye's continuous refinement was many lively flames. Sometimes they turned into stallions, sometimes into flying eagles and swimming fish, and other times into the flowing water...

To Alchemy Masters, regardless of whether they were boiling Physique Pastes, Longevity Medicines, or Fate Pills, the control of the flame was just as important as their dan creation techniques. The Fate Palace directly affected the mastery of the Heavenly Cauldron's flames.

The mastery of the flames correlated directly with the Alchemy Master's capabilities.

There was no one in this world that could exceed the realm of the Alchemy God and the Dark Crow, Li Qiye, in the past. Because Li Qiye helped write half of the Alchemy God's Grand Canon, Li Qiye was simply walking on an old, familiar road at this moment. His mastery of the flame controlling arts had quickly reached a perfection beyond imagination.

If people accidentally saw Li Qiye's amazing improvement at flame mastery, they would be convinced by his peerless and supreme talents and would consider him to be a natural born alchemist!

Of course, they wouldn't know that Li Qiye's seemingly easy achievement was all due to the sacrifices he paid in the past millions of years.

With a firm grasp on the mastery of flame control, Li Qiye began to refine pills. He began to refine only one cauldron, and he chose Longevity Medicine.

There was a phrase amongst alchemists: boil Physique Paste, process Longevity Medicine, and refine Fate Pills! Within the three arts, Physique Paste was the easiest to create, Longevity Medicine second, and Fate Pills were the hardest.

Li Qiye began with Longevity Medicine as a warm up for his first time with the Heavenly Cauldron. Fate Pills were his true aim...

Li Qiye was immersed in the dan refinement for several months and no one in the sect rashly disturbed him. One day, there was a sudden guest of the Cleansing Incense Ancient Sect and specifically asked to meet with Li Qiye.

The carriage drove up to the top of the mountain. In addition to the driver, there were three other people. There was a peerless beauty capable of toppling kingdoms and cities while the other two were adorned in completely black outfits and their face was hidden by a black hat. They helped the beauty to come inside.

This kingdom-toppling beauty was the Jade Valley Country's Chen Baojiao. At this moment, she was held by the two black-clothed people. With a pale face, she was unable to walk straight.

Nevertheless, this did not affect her supreme beauty. Her pale face made others lovingly sympathize with her even more.

"I accept your proposal—"

Once she saw Li Qiye, Chen Baojiao weakly said.

Even though this was a bit unexpected, especially Chen Baojiao's state, as she sat down, Li Qiye observed for a moment and exclaimed:

"You destroyed your dao foundation!"

At this point, Chen Baojiao forced a charming and incomparable smile that held an untold bitterness. She was like a withered flower with a dejected mournful bleakness.

"Will you take in a useless person like me!"

Chen Baojiao smiled bitterly, but she was still acting strong and sat up straight. She did not feel self-pity as she said such words.

"Take!"

Li Qiye said:

"It is only a destroyed dao foundation. To me, it is not a big deal. However, for you to decide to join me so fast... This was a bit unexpected."

"I left the Chen Clan, left the Jade Valley Country, and left the Jewel Pillar Sacred School!"

Chen Baojiao said with untold sorrow, and she continued:

"I returned everything to the clan — to the school. All of the treasures, the mysterious items, and even my dao foundation along with the merit laws; I returned everything."

Hearing Chen Baojiao's words, Li Shuangyan was moved. Chen Baojiao spent a countless amount of effort in order to reach the Named Hero realm, but she destroyed everything along with her dao foundation. To cultivators, this was a fate worse than death — a true fatal blow.

Chapter 149 : Tyrannical Valley Immortal Spring Physique (1)

To a young cultivator, losing their dao foundation would be a fatal blow. However, Chen Baojiao was able to do it in such a resolute and staunch manner.

Such determination impressed the cold-as-ice Li Shuangyan and also earned her admiration. This matter required a huge amount of perseverance.

“What happened? Dao Child Shengtian wanted to marry you?”

This was within Li Qiye’s expectations. He understood the Tyrannical Valley Immortal Spring Physique more than anyone else; the people with this Physique were always forthright and unyielding. This was the same with the ancestral grandmother of the Chen Clan; when she was young, she was a very brash princess. Even after she became a mother, she was still soft on the outside but tough on the inside as she assisted her husband and educated their children.

“I wouldn’t marry him even if I have to die!”

Chen Baojiao coldly said with an absolute tone.

Originally, the Heavenly God Sect had ordered for the Jade Valley Country to marry Chen Baojiao to Dao Child Shengtian. They were already engaged from before, so it was a natural progression. Plus, the Jewel Pillar Sacred School along with the Jade Valley Country were both happy to become allies with the Heavenly God Sect so the marriage date was set.

However, Chen Baojiao adamantly refused! In the past, she was already against this marriage, but this time, Chen Baojiao would rather die than accept this marriage! Either she would not marry, or her corpse would be the thing that gets sent.

Dao Child Shengtian did not try to save her at the Evil Infested Ridge, he chose to be cold blooded for his own benefits instead. This made Chen Baojiao even more resolute and without any room for negotiations when she canceled this marriage.

Even though the Jewel Pillar Sacred School forced her to marry, since Chen Baojiao would rather die instead, what were they going to do? Marry the corpse away? This caused the two factions to turn against each other.

In the end, Chen Baojiao destroyed her dao foundation and gave everything back to the school. The reality was that this was with the protection of the Chen Clan. Otherwise, she would have not been able to leave.

“Good, I shall accept you.”

Li Qiye nodded his head and said:

“But, I won’t take in people of unknown origins.”

After speaking, he stared at the two people dressed in black next to Chen Baojiao.

At this time, the two that were dressed in black took off their hats. It was one man and one woman who had features resembling Chen Baojiao.

These two were her parents, and this was a painful decision for them. She was such a good daughter, yet she ended up with this result.

“Father, Mother, you guys don’t have to worry about me, I will be fine.”

Chen Baojiao stood up to hug her parents who were unwilling to separate from her. At this time, she was still strong. However, she did not notice the tears glimmering in her eyes.

Even with thousands of words spoken, separation was still an inevitable end. This scene caused a melancholic atmosphere, yet Chen Baojiao still tried to hold back her tears.

“This old servant will stay back to take care of Young Miss. This old servant is not a disciple of the Chen Clan!”

Near the time of departure, the old servant said:

“That year, this old servant owed Brother Chen my life and agreed to take care of his descendants and so, I stayed behind. I can no longer listen to and follow your words anymore in the future, Master and Lady...”

He then bowed down to the Chen Clan’s husband and wife.

“Uncle Shi said too much. When my father was still alive, he told this nephew to treat Uncle Shi like a senior. With Uncle Shi taking care of Baojiao, I can be without worries.”

The Chen Clan’s couple quickly lifted him up.

Finally, they bowed down to Li Qiye and said:

“Our daughter will be relying on Young Noble Li. I hope that you will take good care of her.”

To the Chen couple, bringing their daughter here to be a maid for someone was a hard decision. It was difficult for Chen Baojiao to convince her parents.

After sending away the couple, Li Qiye stared at Chen Baojiao and said:

“From now on, you will live with Shuangyan. As for what to do, Shuangyan will teach you. As for Grandpa Shi... How about this, you can be the guest advisor of the Cleansing Incense Ancient Sect. As long as you swear loyalty to the sect, I will not mistreat you.”

“Thank you for your guidance, I will keep it in my mind.”

The old servant said as he bowed his head. He didn’t dare to underestimate this young man. He had seen Li Qiye’s methods — smiling while killing ten thousand experts. Even the Ancient Saint and the Azure Mysterious Ancient Kingdom were all trapped in his calculations. He was extremely optimistic about the abilities of this sixteen year old boy.

Chen Baojiao left with Li Shuangyan, and Li Qiye told Gu Tieshou to arrange a place for her and the old servant.

“The Chen Clan’s Shi Gandang!”

Gu Tieshou was shocked when he heard this news. He quickly and respectfully gestured before the old man in front.

“Brother Gu is too kind. That year, Shi Gandang had died. At this moment, this old man is simply just a nameless grandpa.”

Grandpa Shi quickly returned the gesture.

The Chen Clan's Shi Gandang being a guest advisor for the Cleansing Incense Ancient Sect made Gu Tieshou fired up. At that year, Shi Gandang was a renowned fierce monster within the Grand Middle Territory.

He came from a lowly background, yet during the Difficult Dao Era, he was able to become an Enlightened Being. One could only imagine how much perseverance and amazing talents he had. However, because of this, he also made countless enemies!

Rumors has it that enemies were pursuing him one thousand years ago. He was cornered with his last breath but he was saved by the master of the Chen Clan. From then on, he never left the Chen Clan, and outsiders never heard the name Shi Gandang again.

"From now on, you are a person of the Cleansing Incense Ancient Sect."

Li Qiye leisurely said:

"As long as you contribute, there will be a great life-changing fortune for you in the future."

Even though Shi Gandang was a fierce monster, but in front of Li Qiye, he didn't dare to be disrespectful. Even though others called him a fierce monster, Li Qiye alone killed more than him at the Evil Infested Ridge; there was even an Ancient Saint included. If he was a ferocious monster, then Li Qiye would be the King of ferocious monsters!

Thus, after hearing Li Qiye's words, Shi Gandang displayed a respectful attitude.

When Chen Baojiao joined Li Qiye's side, she also brought along new information and told him:

"I'm afraid that the Heavenly God Sect is climbing up to the Azure Mysterious Ancient Kingdom. Rumors has it that Dao Child Shengtian — Long Xiangtian, already went on a diplomatic mission to the Ancient Kingdom. The reason why the Heavenly God Sect was rushing the marriage with the Jewel Pillar Sacred School was because they wanted to showcase their most impressive power to the Azure Mysterious Ancient Kingdom to get maximum leverage."

Here, Chen Baojiao worriedly added:

"If the Heavenly God Sect was able to have a relationship with the Ancient Kingdom, then I'm afraid this is very bad for you and the Cleansing Incense Ancient Sect. With the Ancient Kingdom as their backing, the Heavenly God Sect's power became even more formidable."

"It's only one Azure Mysterious Ancient Kingdom — not enough to reach the apex."

Regarding this news, Li Qiye was not one bit surprised, and he calmly spoke:

"If they are smart, then they can keep on being overlords. However, if they are not and block my path, then even an Ancient Kingdom will be annihilated!"

It's only one Azure Mysterious Ancient Kingdom! These words came out so easily and was without any hesitation, it immediately silenced Chen Baojiao. Opening one's mouth and saying that they would destroy an Ancient Kingdom... This was not an ordinary arrogance. However, she was gradually used to Li Qiye's arrogance, and such despotic words uttered from Li Qiye was no longer boasting in her eyes.

After coming to the Cleansing Incense Ancient Sect for a few days and getting accustomed to her living situation, Li Qiye called for her and said:

“I have many rules, and Shuangyan has already told you about them. Today, you will start over once again and make many vows. From now on, you will be my follower. It is not too late to turn back now lest your whole life will be chained by the vow. At that point, any disobedience would result in a punishment by fate.”

“I have no regrets!”

Chen Baojiao continued:

“I will use my True Fate for the vow! I will absolutely be without regrets!”

Li Qiye nodded his head approvingly as Chen Baojiao performed a True Fate vow. He then continued:

“You will start with with Physique refinement, the Supreme Immortal Physique Law!”

“A Houtian Physique can also have an Immortal Physique Law?”

After hearing Li Qiye, Chen Baojiao was shocked.

“Anything out of my hand would be an Immortal Physique Law.”

Li Qiye said:

“You don’t need to sell yourself short. Your Tyrannical Valley Immortal Spring Physique at grand completion will not be weaker than any grand completion Immortal Physique! Your ancestral grandmother, with her Tyrannical Valley Immortal Spring Physique, even looked down upon the entire world!”

Chen Baojiao was astonished not because of her physique, but because of Li Qiye’s last words! A grand completion Immortal Physique. She came from the Jewel Pillar Sacred School so she knew the meaning of these words.

At the school, there were ancestors with grand completion Saint Physiques. In their eras, grand completion Saint Physiques were nearly invincible. They won every fight and were unstoppable, so they were able to establish the school.

As for grand completion Immortal Physiques, it was unthinkable. From ages till now, people who had grand completion Immortal Physiques could be counted on one’s fingers. Some said that not more than five people, since the immemorial, had reached grand completion Immortal Physiques. Others said that it would not exceed ten people.

If her Tyrannical Valley Immortal Spring Physique could reach grand completion and was comparable to a grand completion Immortal Physique, how frightening would that be?

“How do you know my ancestral grandmother was a grand completion Tyrannical Valley Immortal Spring Physique?”

Chen Baojiao couldn’t help but ask. This was not written down by the Chen Clan as opposed to everyone knowing that the Chen Clan had grand completion Saint Physiques. This was a well-known thing.

“One day, if you have children, would your children know that you were a natural born Tyrannical Valley Immortal Spring Physique? Would they know that you made a True Fate vow?”

Li Qiye said with a carefree manner.

These words shocked the young heart of Li Shuangyan. Her charming eyes became wide open as she stared at Li Qiye. She made a True Fate vow, but did this mean that the Chen Clan’s ancestral mother also made a similar vow?

“Could it be that my ancestral grandmother was taught by a great master? You, you are the great master’s descendant!”

Chen Baojiao movingly said. Thinking about how Li Qiye knew that she was a Tyrannical Valley Immortal Spring Physique while no one else knew about it, and thinking about how Li Qiye knew the secret hand seals of the Chen Clan, Chen Baojiao finally understood something at this moment.

Chapter 150 : Tyrannical Valley Immortal Spring Physique (2)

Li Qiye smiled and said:

“I am not. This matter isn’t important. After you practice your Physique Law, practice a merit law next. Cultivate the Jade Spiral Merit Law of the Cleansing Incense Ancient Sect.”

“The Jade Spiral Merit Law?”

Chen Baojiao was in a daze, and she couldn’t help but ask:

“The beginner’s merit law of the Cleansing Incense Ancient Sect?”

“Don’t look down upon this merit law. If you could grasp the profoundness of this merit law, it would be enough for you to prosper for a lifetime.”

Li Qiye continued:

“Your Physique is different from ordinary people. You will dual cultivate the Tyrannical Valley Immortal Spring Physique as the foundation. The Jade Spiral Merit Law is a correct path of the grand dao. In the future, it will be compatible with all of your arts. As long as you have the Tyrannical Valley Immortal Spring Physique to rely on, the Jade Spiral Merit Law is the most compatible merit law, understand?”

Hearing the seriousness of Li Qiye, Chen Baojiao did not question his authority! At this moment when Li Qiye was passing on the Physique Law to her, she was completely focused. She was afraid of missing even a single word.

After learning the Physique Law from Li Qiye, she emotionally understood why Li Qiye was so confident. Coming from the Jewel Pillar Sacred School, she had seen many Physique Laws, but after being taught by Li Qiye, she finally understood that this was the real Supreme Immortal Physique Law.

The Physique Scripture could be said to be the source of all Physique Laws! It didn’t just have the twelve Immortal Physique Laws, it was the root of all Physique Laws. Of course, this was only after Li Qiye spent countless moons and millions of years before understanding all of the mysteries of the Physique Scripture!

The twelve Immortal Physique Laws were only a part of the Physique Scripture, and they were only six extremely simple words.

For Chen Baojiao, who practiced the Tyrannical Valley Immortal Spring Physique, this was another profound aspect of the Physique Scripture. On top of this, her Physique was not part of the twelve Immortal Physiques.

If one divided the Physiques into ten parts, then the twelve Immortal Physiques were at the limit! For example, the Extreme Yang Immortal Physique was the strongest of Yang. It was a Yang Physique in all ten parts.

Chen Baojiao's Tyrannical Valley Immortal Spring Physique was extremely rare. In the ten parts, Yin and Yang each had one part; Pure and Taint also had one each; Hardness took four parts while Softness had two parts!

One Physique containing all six profound words was an extremely rare Physique!

After being taught the Physique Law by Li Qiye, Chen Baojiao was very emotional! She felt like a fish in the water that had an indescribable sense of ease. Her blood energy rapidly flowed for the first time. Her entire body was floating about like a satisfied immortal, creating thunderous noises as she was being baptized under this Supreme Immortal Physique.

At this moment, Chen Baojiao understood that she did not wrongly choose regarding the most important choice of her life!

Prior to this, the Tyrannical Valley Immortal Spring Physique had always plagued her with difficulties. The truth was that Chen Baojiao's talent was not bad in itself. Although it was not as great as Li Shuangyan, she was still amongst the best. Due to the trap of her Physique, she had to put in countless amounts of effort just to have the same results as others! Nonetheless, Chen Baojiao kept on cultivating, and she was even more diligent than anyone else! With blood and sweat, she finally reached the Named Hero realm.

Now, starting from the beginning once again with an appropriate Physique Law, Chen Baojiao was still a hard worker and her cultivation speed improved by leaps and bounds.

Her hard work and effort amazed others. Li Shuangyan movingly said:

"It seems like I have to double my effort. Otherwise, I will feel the pressure."

A genius like Li Shuangyan was always hard working, but she felt inferior to Chen Baojiao's resolution.

After Chen Baojiao achieved a few things with her Physique, Li Qiye finally taught her the Jade Spiral Merit Law. She was shocked about the fact that, in the teachings of Li Qiye, even an ordinary merit law became extraordinary. She finally understood why Li Qiye chose the Jade Spiral Merit Law for her.

After the process, Chen Baojiao's young heart couldn't remain calm. She astonishingly stared at Li Qiye, this sixteen year old boy, and exclaimed:

"Are you really just a normal disciple of the Cleansing Incense Ancient Sect?"

"Wrong, I am the prime disciple."

Li Qiye said.

Chen Baojiao gave him a stern look and added:

“How is a prime disciple any different from an ordinary disciple! If it was an Ancient Kingdom, then a prime disciple would be worth something. The prime disciple of the Cleansing Incense Ancient Sect does not have many advantages compared to ordinary disciples.”

“This Little Girl doesn’t know anything!”

Li Qiye knocked her head and said:

“Also, do not belittle your own master. Watch out or I will punish you, you know?”

This flushed Chen Baojiao’s face completely red. She couldn’t help but angrily stare at Li Qiye. She was clearly older than him, yet he kept calling her “little girl” — this truly exasperated her.

She was such an alluring beauty. With her charming presence that swayed others, it would cause their hearts to beat faster, but Li Qiye only smiled and left.

After his departure, Chen Baojiao rubbed the area Li Qiye knocked on and was in a daze. She could be considered a golden jade with peerless beauty. No matter where she was, she would be the moon surrounded by countless geniuses. She was high up above, but today, she was only Li Qiye’s maid.

However, she did not completely hate this feeling nor this status. It was as if by being next to Li Qiye as his maid, she was able to be free and be without worries. At this moment, she understood why a heaven’s proud daughter like Li Shuangyan was also willing to be a sword maid.

After Li Qiye’s cultivation at the Cleansing Incense Ancient Sect and the end of the Evil Infested Ridge, more than one year had passed. Suddenly, there was a monumental event happening in the Grand Middle Territory.

Within the Grand Middle Territory, there was suddenly an evil energy that pierced the sky with bright lights. Inside the lights were countless ancient coffins that sung sad, sorrowful tunes! In the far horizon, many coffins were flying by as immortal citizens were worshipping, and there were mourning wise sages amongst this extremely majestic scene. It was as if an Immortal Monarch had just passed away, or a Godly King had his final burial...

Anyone that saw this scene for the first time would be stunned, but for people who had seen this before, they were not too surprised.

This sudden change garnered the attention from many, and many old monsters even came into being.

At this moment, in the Azure Mysterious Ancient Kingdom, an archaic character opened his eyes. He was extremely excited.

Inside the War God Temple, an old man that was buried in dust finally moved and emotionally opened his eyes. He couldn’t help but to stand up and alert numerous disciples along with Royal Nobles and Heavenly Kings.

Even as far as the Desolate Wasteland, in the Divine Sword Sacred Ground, a man with boundless killing intent, who was sleeping inside the coffin, suddenly sat up. His eyes pierced the sky and emotionally whispered:

“In this life, someone is reincarnating?”

At this very second, in the Eastern Hundred Cities at the Heavenly Dao Academy and the Southern Barren Earth’s Strange Bamboo Mountain, many old monsters that stood up from their coffins. Some were sighing, some were excited, and some were indifferent and cold... These were the old monsters in the legends, and they were immortals that were buried underground for countless years. Unless it was a sect-destroying matter, these immortal monsters would not appear. However, because of the sudden change today, they were all alerted!

An old, undying man looked at the strange variation in the sky, and he couldn’t help but murmur:

“In this life, could there be a miracle? Someone will actually be able to be reborn?”

Another old immortal with covetousness in their eyes muttered:

“Or, this could be immortality!”

“The Underworld Boat will soon appear!”

The next day, a message swept across the entire Grand Middle Territory like a storm. Then, it spread across the entire northern Grand Sea, southern Barren Earth, eastern Hundred Cities, and western Desolate Wasteland!

After a long time, the entire world knew of this news.

Inside the grand sects and powerful nations of the Grand Middle Territory, even the sect masters and lords of the Immortal Emperor lineages were all stimulated.

The old monsters near death especially couldn’t sit still. They suddenly stood up and rousingly said:

“The Underworld Boat is coming, we need to hurry and leave!”

The Underworld Boat was coming into being — this news exploded in the Grand Middle Territory to all the corners. In a short month, every cultivators were talking about the Underworld Boat.

There was a saying in the Mortal Emperor World: The coming of the Underworld Boat signals a rebirth. The path to the heavenly road will appear, and the godly stones will open!

The Underworld Boat was an extremely mysterious existence. In the Mortal Emperor World, all of the cultivators were curious about it and had no choice but to talk about the Ancient Heavenly Corpse Burial Ground as well.

As a cultivator in the Mortal Emperor World, some of them will never get to see the Underworld Boat, but they only had one opportunity to enter the Ancient Heavenly Corpse Burial Ground.

The Ancient Heavenly Corpse Burial Ground, in the old legends, was one of the twelve burial grounds in this world! In the Mortal Emperor World, the Ancient Heavenly Corpse Burial Ground had a different meaning.

The twelve burial grounds buried only the intents of death! Countless people and cultivators in this world hoped to be buried inside the Ancient Heavenly Corpse Burial Ground when they died. Dying cultivators who had exhausted their lifespans all wished to be taken under this ideal burial ground!
