

## **Domination 161**

### **Chapter 161: Dealing with the Dead (1)**

When they entered the burial ground, suddenly, experts like Li Shuangyan and Shi Gandang immediately felt that there were countless glaring eyes from the thickets, caves, and even underground. Staring at them, many dead corpses came out.

Seeing the Earth Corpses' sudden arrival caused the group to be frightened as their legs were shivering.

"Clang... Clang... Clang..." However, at this time, Li Qiye used the copper mallet to strike the small gong to create a mysterious rhythmic sound.

"The heaven lasts for ages, and the earth is vast and obscure. Return to the road, return to the bridge; the Ancient Heavenly Earth Messenger is here... Gods and devils, along with the Earth Corpses, all take three temples back..." At this moment, Li Qiye chanted at the top of his lungs along with the rhythmic ringing of the gong.

The sound of the gong along with the shouting mixed together into a resonating and indescribable song.

Inside the harmonization of the two distinguished sounds, the atmosphere suddenly became terrorizing. It was as if someone in the dark was surreptitiously driving these corpses, causing others' hair to stand on end!

But as the sound of the gong along with the chanting rang out, the Earth Corpses slowly receded like ghosts and hid in the thickets, caves, and underground...

Seeing this scene, the astonished group of Nan Huairen finally realized why Li Qiye valued the ragged clothing so much!

"The heaven lasts for ages, and the earth is vast and obscure. Return to the road, return to the bridge; the Ancient Heavenly Earth Messenger is here... Gods and devils, along with the Earth Corpses, all take three temples back..." Li Qiye continued to knock on the gong and shout while slowly stepping into the burial ground.

The undulating hills, along with the rapidly flowing rivers amongst the scenic mountains and rivers, were the burial ground for countless cultivators. Even grand characters along with invincible existences of generations were buried here.

Penetrating the burial ground left them exposed to the pouring corpse energy from this land. It began to gather around the group of Li Qiye.

Seeing the corpse energy curling to their side, the hearts of Nan Huairen's group turned cold. If the corpse energy permeated into their bodies, this would not be a good matter. If light, then their cultivations would be weakened, if heavy, then they would become Earth Corpses.

At this time, the long box Li Qiye was carrying on his back exerted a faint touch of brilliance and slowly emitted waves of a medicinal and indescribable aroma. This aroma was three parts of a fishy odor and seven parts musk. It lingered in the air and continuously veiled their group.

Speaking of strangeness, when this medicinal smell coiled around their bodies, the corpse energy had no way of approaching.

As they went deeper into the burial ground, the corpse energy became more severe. Places with a high density of Earth Corpses would have even stronger corpse energy. However, it couldn't invade the group of Li Qiye. This medicinal armor protected Li Qiye's group all the way to the front.

They did not go fast nor slow, and they began to climb the mountains and traverse the rivers. Step by step, they went forward and met countless Earth Corpses consisting of human cultivators, demon cultivators, and even Ghost Immortals and Heavenly Devils... Moreover, these Earth Corpses were all powerful cultivators when they were alive.

Even so, with Li Qiye shouting along the way while smashing his gong, many Earth Corpses only stood in the far distance as they came close. They did not attack Li Qiye's group. Instead, they went back to their old places.

They saw many coffins along the way; bronze coffins, wooden coffins, clay coffins, stone coffins, gold coffins, and there were even coffins made out of godly wood... Many coffins were hung over the mysterious cliffs. Some floated on the water, and others sank under the lake while a few were positioned on top of giant trees...

Seeing all of these old and new coffins left Nan Huai ren's group with the creeps. This place named the Ancient Heavenly Corpse Burial Ground was completely fitting for it buried too many cultivators here!

They were also curious as to whether there were corpses in the coffins, but without Li Qiye's permission, they didn't dare to take any rash actions.

In fact, they were wondering why the Earth Corpses were unable to attack them with their oldest brother opening the way with the gong and shouting arcanic chantings.

They went through countless mountains and rivers before stopping at a flat valley. This valley was like an abandoned farming field; it had a very orderly appearance. If this wasn't the Ancient Heavenly Corpse Burial Ground, others would think that there used to be someone farming at this place.

"This will be the first chosen Treasure Lord." Standing in the valley, Li Qiye judged this place and made his decision.

At this moment, there were quite a few wandering Earth Corpses outside with their eyes emitting a faint and underworldly light. They were like the eyes of the dead or evil devils, giving others a dreadful sensation.

Standing inside, they were a bit frightened. The older generation, like Shi Gandang, was doing better, but the younger group assumed that the Treasure Lord was no different from an evil devil lord. Maybe they even had beast horns and were a hundred zhang tall with long green hair.

"One, knock on your residence; two, greeting to the Treasure Lord; three, wondering about a transaction. Ancient Heavenly Earth Messenger, carrying the Ancient Heavenly Medicine, bearing the underworld yin energy, entering the Treasure Mountain, treading on the yin earth, knocking into the gate of hell..." Li Qiye shouted as he walked around the valley while knocking his gong.

Li Qiye turned left three times and moved right three instances before finally stopping. He dripped a drop of flesh blood into the ground and shouted: "One blood to become friends, a thing should not be attempted more than three times, come out of your coffin..." He finally ended his shouting and bowed down on the ground!

Li Qiye's ceremony caused the group of Li Shuangyan to be creeped out. This type of ceremony was nothing like a transaction. It was more like a ghost summoning.

However, the next event was even more terrifying. "Boom, boom, boom". Thunderous noises rang and the earth seemingly opened. Suddenly, the entire ground of the valley brightened up and wave after wave of light poured outward and intertwined into a grand formation. This formation flashed brightly, and the clear sounds of swords occurred continuously with a domineering aura like the tidal waves — torrential and endless!

In the blink of an eye, with a "bang", a coffin slowly floated up from the ground. This coffin was violet colored and carved with dragons and phoenixes. It was apparent to see that this coffin had experienced countless moons.

Seeing this coffin, people couldn't help but become frightened in their hearts. Inside was a dead person, and a terrifying dead person that wanted to live again at that!

"What do you have to trade?" Finally, a decrepit voice came out from the coffin.

Li Qiye hunkered down to the ground and took off the old box on his back. Then, he slowly said: "Ancient Heavenly Corpse Burial Ground, Ancient Heavenly Earth Messenger, trading item. Only one Ancient Heavenly Medicine, basked in underworld yin energy. The box is unopened, Ancient Heavenly Medicine, impossible to obtain. The Ancient Heavenly principle, a thing should not be attempted more than three times, everything has a beginning and an end."

"Zha—zhaa-zhaa" Finally, the violet coffin slowly opened, and the person inside took a step out.

At this time, everyone clearly saw the old daoist devotee stepping out from the coffin. This old daoist was incomparably old. He wore a violet golden crown while holding a phoenix horsetail whisk. He wore Immortal Cloud Treasure Boots and there was a dao crest embroidered on his chest.

Even though the old daoist had his eyes closed and there was no power in his body, there was an endless and majestic aura that caused others to shiver. This daoist was absolutely powerful when he was alive!

"The Violet Cloud Sect's Sect Master..." Seeing the crest in front of the old daoist's chest, Nan Huairen couldn't help but exclaim.

As Nan Huairen opened his mouth, the old daoist suddenly opened his eyes and revealed two bloody rays. These two bloody rays, like the arrows of the gods, shot towards Nan Huairen.

"Not good." Niu Fen's expression greatly changed and immediately swung his small shell on his back horizontally. A "boom" noise exploded. The two bloody rays shot on the small shell of Niu Fen and exploded like the thunder of heaven while Niu Fen was jarred flying away. Nan Huairen was also knocked away by the remnants of the explosion, and he crazily sprayed out a mouthful of blood.

He was so powerful that it instilled chills down everyone's spines. Niu Fen was an enigmatic existence within their ranks. Only Li Qiye clearly knew how powerful he was. But at this moment, Niu Fen was knocked away by the two glares; one could only imagine how powerful this old daoist in front of them must be.

"Clang..." When the old daoist opened his eyes for a second time, Li Qiye heavily tapped on the gong. The sound of the gong, like the big waves and strong winds, flew towards the old daoist!

"Boom!" When the sound wave struck his body, the old daoist's body shook and had to take a few steps back!

"Young Junior is foolish and offended you with his mouth. There will not be a second time." Li Qiye solemnly said as he gazed at the old daoist: "If you still want to trade, you and I will sit down. If not, I will turn around and leave. Inside the Ancient Heavenly Corpse Burial Ground, I'm sure there are many who are willing to trade with me."

Eventually, the old monk sat down with his eyes still closed. It was as if he was fast asleep.

At this time, Nan Huairan crawled up but didn't dare to say half a word. Even if he wanted to thank Niu Fen, he still didn't dare to speak. The other young ones held their mouths tightly shut. They were even careful with their breathing.

"Medicine out..." After sitting down, the old daoist finally said two words.

Li Qiye then unlocked the seal of the box. The seal was very strange, and it was not opened with merit law incantations nor violent force. Instead, it was opened with a very strange palm symbol on top of the box. Then, the box slowly opened.

Li Shuangyan and Chen Baojiao, who were relatively near Li Qiye at this time, clearly saw everything. The treasure box had nine items, and all of them were different. Moreover, they didn't know the names or what any of those nine items were.

Li Qiye carefully looked at the items inside his treasure box. He finally took an item as small as an almond seed and gently placed it on the ground, and he carefully said:

"One Ancient Heavenly Corpse Core, the core creator is a Secret Dragon. Thus, it undulated through the Ancient Heavenly times for eighty thousand years, and it would be able to raise you Ten Heavenly lifespans!"

## **Chapter 162 : Dealing with the Dead (2)**

The group of Li Shuangyan didn't know what a Corpse Core was, but Niu Fen knew a little bit. Legends has it that there were a few invincible existences that wanted to reach the deepest part of the Ancient Heavenly Corpse Burial Ground. However, their dao was destroyed and they lost their lives. Some, however, maintained their unharmed bodies and their blood essence. These things spent a countless number of years in the deepest part of the burial ground and finally turned into a thing called a Corpse Core. It was a very beneficial item to Earth Corpses, Treasure Lords, and even Earth Immortals!

The old daoist sat cross-legged on the ground as a bloody light flashed in his eyes, then he closed them again. After a long silence, the old daoist finally took out an item and slowly placed it on the ground.

At this time, it was clear to everyone that it was a treasure cauldron, but it was not a Heavenly Cauldron of the alchemists, it was just a treasure cauldron casted from iron. Even though this cauldron was already returning to its origin, it still emitted strands of green smoke. This was not medicinal fog; rather, they were powerful strands of steel, resembling a godly sword, that were seemingly able to pierce through the sky!

“Violet Diamond Cauldron, one smoke one sword containing many facets of offense and defense.” The old daoist slowly introduced.

Hearing the name “Violet Diamond Cauldron”, Shi Gandang’s heart suddenly jumped. He had heard of this name before. It was a cauldron refined by a supreme sect master of the Violet Cloud Sect, and it was called the Violet Cloud Sect’s second defining treasure. But today, it appeared in this place.

“Deal.” Li Qiye didn’t say much and accept the Violet Diamond Cauldron at once. Then, he casually threw it to Zhang Yu and said: “This cauldron is suitable for you, figure it out well!”

Zhang Yu accepted the Violet Diamond Cauldron and was excited. He wanted to open his mouth, but he immediately closed it. Even though there were ten thousand words of appreciation that he could be saying to his oldest brother, this was not the time to talk.

The young ones were also envious, but they all knew that as long as they followed their oldest brother, he would not go and mistreat them.

The old daoist put away the Heavenly Ancient Corpse Core and slowly took out a sword. It was a sword made out of stone — stone sheath and stone handle.

“Clang”. Li Qiye unsheathed the sword and a dragon roar immediately resounded as the sword left its sheath. It was just like a True Dragon soaring to the sky. The sword was engraved with tiny layers of dragon scales. The moment it was drawn, the sword scales seemed to have a life of its own and wanted to fly away from the sword.

“Good sword. Using the Dao Bones of a 2,300,000 year old Godly Frost Dragon to craft, it has the power of the Frost Dragon as it was refined by an ancient method. It is engraved with a murderous power yet not imprinted with a merit law, this means that it still has the potential to be recasted.” Li Qiye stroked the sword and said.

“The Frost Dragon Sword — I crafted this during my prime. The owner will obtain the murderous power of frost and will be able to refine any merit law into it!” The old daoist eventually said slowly.

Hearing this, everyone’s expression couldn’t help but change. A 2,300,000 year old Godly Frost Dragon ah, even Godly Kings would lose their colors. Such a powerful Heavenly Beast turned into a Life Treasure, how great was this matter.

Li Qiye opened his treasure box once again to check, and he eventually took out an item like a rock. This item looked like a rock but was actually a fruit. However, it had a cold and stony appearance and was completely black without runes — just like a rock.

“An Ancient Stone Fruit — grown in the deepest part of the Ancient Heavenly Corpse Lake. It can increase your lifespan from fifteen to twenty days. Deal or not?” Li Qiye placed the stony fruit onto the ground.

Nan Huairen's group, and even Shi Gandang and Tu Buyu, were surprised. They all knew that Li Qiye had only obtained these items, but Li Qiye's smooth explanation made it sound as if these were his own treasures. This was too incredible.

More than very few people knew about the deep locations in the Ancient Heavenly Corpse Burial Ground, but Li Qiye spoke of it clearly like it was his own backyard, and he knew everything with clarity. How was this possible!?

As for Li Shuangyan, she had a similar numbing sensation just like in the past. At this time, no matter what type of miracles Li Qiye could concoct, she no longer found it strange. What could be more valuable or more unfathomable than the Physique Scripture in this world? This ancient item from the immemorial age was never known to have an owner, yet it was in his possession. Thus, Li Shuangyan was completely used to Li Qiye's scary existence.

Only Niu Fen silently sighed in his heart. From the past till now, it would be difficult to find someone who could be more knowledgeable than Young Master. Him knowing the Ancient Heavenly Corpse Burial Ground like the palm of his hand was not enough for him to be astonished.

"Deal." The old daoist took the Ancient Stone Fruit without a hint of hesitation and waited for the next round of deals.

"A godly sword refined with murderous intention... It is most suiting for you." Li Qiye nonchalantly threw the Frost Dragon Sword to Tu Buyu, and Tu Buyu quickly bowed to Li Qiye in return after catching the sword.

Next, Li Qiye immediately took out a small cup inside the treasure box. This small cup was sparkingly clear and was sealed. There was only half a cup of liquid inside; it seemed like a blue ice. With the gentle rocking of the small cup, the blue ice liquid exuded a very bewitching charm.

"Half a cup of Demonic Blue Spring. You being a Treasure Lord, I don't need to explain the meaning of the Demonic Blue Spring in the deepest part of the burial ground." Li Qiye slowly added: "If you have any important treasure, show it to me right now. This is the last chance!"

Hearing the words "Demonic Blue Spring", with bloody lights, the old daoist's eyes flashed opened for a moment. His body trembled once before he closed his eyes again. He remained silent for a long time in his seated position.

At this moment, the group all held their breath. Even though they didn't know the reason why this was the last transaction, but seeing Li Qiye's serious demeanor, they couldn't help but to stare again at the old daoist ahead. They wanted to see what item he would take out for this trade.

"Deal or not?" After a long time, Li Qiye rushed this old daoist.

Eventually, the old daoist austere took out an item and slowly placed it on the ground. The moment this item was taken out, a golden brilliance — casted by wisps of golden strands like silk — appeared.

The most awe-inspiring matter was that this thing resonated very faint immortal vibrations. It was as if they were quiet whispers of immortals.

This was an ancient scroll made out of unknown materials. It resembled golden silk and ancient strands. Even though this ancient scroll had suffered countless moons, its golden light was still glittering!

“A scroll posted from outside the gate of Immortal Dao City!”

Seeing this item, Li Qiye slightly changed his expression as his eyes became serious. He then stared at the old daoist in front of him and said: “You saw Immortal Dao City?”

This question jolted the old daoist’s body. His eyes twitched open and then closed. After a while, he spoke: “In my old age, it was just a little glance, so I wrote down a scroll!”

“Can you say what technique it is?” Li Qiye stared at the old man and finally asked in a calm manner.

“A scroll of the Jagged Sword Striking Immortal Technique.” The old daoist answered carefully. After speaking, he closed his eyes and gently sighed with a hint of remembrance along with regret.

“You had great yet unfortunate luck. If you were at your peak and saw Immortal Dao City once, then you would have reached a higher level of attainment.” Li Qiye slightly nodded. He finally took the “Jagged Sword Striking Immortal Technique” and threw it over at Xu Pei.

“Make a copy for self-practice, return the original to the sect! Without permission, do not pass it to a second person!” Li Qiye commanded.

Xu Pei —with matchless excitement — received the scroll and hastily turned towards Li Qiye and bowed. She was ecstatic beyond imagination. At the Evil Infested Ridge, Li Qiye rewarded her with the one million year old Life Ring and now bestowed her with a very precious technique. Since Oldest Brother treated her so well, she would even endure traversing into the fiery flames just for Oldest Brother!

The old daoist gathered the Demonic Blue Spring and immediately turned around to step inside the ancient coffin. After a loud roaring sound, the coffin sunk into the ground and the grand formation also disappeared.

After the old coffin sank into the earth, Nan Huai ren quickly seized this opportunity and anxiously asked: “Oldest Brother, why only three transactions?”

“A thing should not be attempted more than three times. One Treasure Lord should only be traded with three times and one should take turns to show the treasure. If one side does not agree, then the transaction will stop and each will go their separate ways! There are only nine Heavenly Ancient Corpse Treasures inside the Heavenly Ancient Corpse Box. At max, I can only deal with three Treasure Lords, and each of them three times!” Li Qiye said.

“Heavenly Ancient Corpse Treasures?” The group of Qu Daoli — one after another — couldn’t help but to glance at the box carried by Li Qiye on his back.

“Heavenly Ancient Treasure Box, Heavenly Ancient Earth Messenger Adornment, Frightened Corpse Gong!” Li Qiye patted the clothing worn on his body and raised the gong in his hand, and he said: “Without these three items, one cannot become a Heavenly Ancient Earth Messenger!”

“What is a Heavenly Ancient Earth Messenger?” Chen Baojiao, next to Li Qiye’s side, wondered.

“Clang...” But, at this moment, Li Qiye didn’t answer Chen Baojiao’s question. He was already knocking on his gong and shouted:

“The heavens lasts for ages, and the earth is vast and obscure. Return to the road, return to the bridge; the Ancient Heavenly Earth Messenger is here... Gods and devils, along with the Earth Corpses, all take three temples back...”

Hearing Li Qiye’s chanting, the group of Li Shuangyan didn’t dare to linger and immediately followed right behind Li Qiye’s back in an orderly fashion as they departed from this valley.

They set off once again to find a second Treasure Lord. They continued to climb the mountains and walk through the rivers. Li Qiye went from one Feng Shui Treasure Earth to another.

It was obvious that Li Qiye understood the Feng Shui Treasure Earths inside the Heavenly Ancient Corpse Burial Ground like the palm of his hand. The group of Shi Gandang found this puzzling since Li Qiye knew where these Treasure Earths were located so well, giving them a mysterious sensation, but they couldn’t conveniently ask Li Qiye.

In fact, it was not surprising that Li Qiye knew this burial ground so well. In the past millions of years, he, as the Dark Crow, had entered the Heavenly Ancient Corpse Burial Ground more than anyone else, including even its deepest part where he even brought people in to attack the place! Where the Feng Shui Treasure Earths and dragon veins were located, how could he not be clear?

On the way, Nan Huairen’s group had met a few Treasure Trees and Dan Grass and even a few treasure mines, but they couldn’t dig them because Li Qiye warned them that this trip was only for trading. Outside of trading, they could not take anything else from the Heavenly Ancient Corpse Burial Ground. This was an unchangeable law!

### **Chapter 163 : Middle Continent’s Treasures (1)**

Eventually, Li Qiye chose a deep lake. It had stagnant water where the bottom of it was nowhere in sight. It exuded a cold and suppressive atmosphere. People couldn’t help but to shiver standing next to the lake.

“Hoom..”

After Li Qiye finished his transaction ceremony, the entire deep lake poured out a brilliance as dark as black ink. Waves and waves of black lights resembling demonic swords soared to the heavens, causing others to shiver without the coldness. It was as if a devil was coming into being from underground.

“Xshhh... Xshhh... Xshhh...” When all of the black lights were interwoven into one place, a devious laughter appeared. A shadow stepped out from the black light without a coffin. Moreover, this shadow was entirely shrouded with black fog as thick as ink, rendering its real appearance impossible to discern. Within the black fog, there were the sounds of roars along with transforming mist. It seemed as if there was a prehistoric fierce beast wanting to rush out.

The evil energy of this shadow caused the group of Nan Huairen to cringe. This evil energy directly affected their souls as if a devil had its gaze on them.

“Xshh...” The approaching shadow let out an insidious laughter and devilishly spoke: “Heavenly Ancient Corpse Messenger, even though I have heard of this, this is my first time seeing one. Little Kid, hand over all of the Corpse Treasures, then maybe I will spare you from death!”

This Treasure Lord’s first words after appearing changed the colors of everyone. They didn’t expect this Treasure Lord’s sudden upheaval; it was not like the old daoist that followed the rule of the transaction.

“If it is a transaction, I welcome it. If you want to rob, then scram for me!” Only Li Qiye was as calm as a mountain while facing this Treasure Lord with evil energy piercing the heaven.

“Little Thing, when I was alive, my title alone would be enough to frighten you!” The black shade ominously spoke.

Li Qiye smiled carefreely and responded: “Only a remnant of the Dragon Ming Ancient Dynasty, not enough to reach the apex. Today, if you want to trade, then take out the heritage of your Dragon Ming Ancient Dynasty. If not, then get the hell back to your grave for me.”

“Little Demon, who are you...” The shadow immediately screamed like the thunder and, in this very second, made a move. A ghastly black hand reached out and directly struck towards Li Qiye.

A ghastly hand that could conquer even the heaven and earth and carry the sun and the moon, it was able to catch the Yin and Yang. With just this hand, even Heavenly Kings’ souls would fly away. It didn’t matter that this shadow was a dead person with non-existence life force. At this moment, it was still an unbelievably frightening existence!

“Clang– Clang– Clang” However, with life and death in front of his eyes, Li Qiye — like the storm — banged on the Frightened Corpse Gong. The torrentious sounds of the gong rushed out, grinding on the grand earth and surprised even the heaven above and hell below.

“Ahh—” A pitiful scream sounded, causing the group of Niu Fen to jump. They all thought that Li Qiye was captured by the black shadow, but when everything became clear, they were all frozen.

A hand suddenly penetrated from below the earth. This shriveled hand resembled a bird claw. It was covered with green feathers. The hand rushed out from the ground and grabbed the black shadow in a flash. The extremely sharp nails pierced through the black shadow as it bellowed and shrilled.

Four drops of blood dripped down from the black shadow. They were extremely bright, like four blood diamonds. They were immediately devoured when they hit the ground and emitted a curl of smoke.

“One blood, one year. So what if you were buried for millions of years? In the end, you still had to give it back to the Heavenly Ancient Corpse Burial Ground.” Seeing the four drops of blood disappearing on the ground, Li Qiye nonchalantly smiled and said.

After being kneaded by the green feathered claw, the black shadow was completely annihilated without even ashes or bones left. Under this green feathered claw, even if one was once a fierce character with illustrious titles that swept through the eight directions, it was not enough to reach the apex. They would be strangled like an ant.

“Boom...”

The green feathered claw sunk back into the ground, and the lake of death also collapsed as well. This location eventually became a flat plain.

“One Feng Shui Treasure Earth destroyed, and a new one will be born.” Li Qiye slowly smiled and said: “Dogs cannot change their habit of eating shit. After millions of years, even a remnant still thinks that it is the supreme Ancient Ming! If I didn’t end your existence, it would be a disfavor to myself.”

The group’s legs were frightened weak from fear and they sat straight down on the ground. Shi Gandang and Tu Buyu, hearing Li Qiye’s words, had their hearts in shock. Li Qiye — from the start — didn’t want to trade with the opponent. Rather, he only wanted to kill him — Li Qiye wanted to kill the Treasure Lord in this Feng Shui Treasure Earth!

Shi Gandang used to be a ferocious monster and Tu Buyu traveled across the eight directions and had seen many things. Yet, their spines still ran cold. Plotting against a Treasure Lord — not many people would dare to do this!

The sudden appearance of the green feathered hand also frightened countless shivering Earth Corpses in this area. At this time, even the powerful Earth Corpses all hid in their nests without daring to come out.

“What was that green feathered hand?” The person that was the most calm was still Li Shuangyan. Although she was surprised, she still calmly inquired.

“Rule, punishment, iron law of the Heavenly Ancient Corpse Burial Ground... You can call it however you want.” Li Qiye smiled: “I am an Earth Messenger at this moment to make transactions so whoever violates the deal will be punished.”

“That thing from earlier was an Ancient Ming!” Niu Fen took a cold breath and said: “He actually came from the Dragon Ming Ancient Dynasty in the legends! This, this is the ancient dynasty built by Immortal Emperor Long Ming ah!”

“It was only a dreg of society. Within the Mortal Emperor World, should any Ancient Ming dare to act arrogant, then kill without mercy!” Li Qiye emotionlessly said.

The young ones didn’t dare to interject while the previous generation, like Shi Gandang, was aghast due to these words. They felt that Li Qiye had an unspeakable murderous intent against the Ancient Ming as if they were enemies.

They naturally felt that it was an impossible matter. The first clan of the Ancient Ming had not appeared in the Human Sovereign World for tens of millions of years. How could a fifteen year old boy be enemies with the Ancient Ming race!

“The heavens lasts for ages, and the earth is vast and obscure. Return to the road, return to the bridge; the Ancient Heavenly Earth Messenger is here... Gods and devils, along with the Earth Corpses, all take three temples back...” While the younger generation — including Li Shuangyan — had many questions, Li Qiye didn’t answer them and continued the journey of finding more Feng Shui Treasure Earths.

After crossing high mountains, Li Qiye finally chose the third Feng Shui Treasure Earth and the second Treasure Lord.

This was an ancient unfathomable cave. After Li Qiye performed the transaction ceremony, waves and waves of rumbling noises arose. After a while, everyone saw four skeletons that carried a giant coffin out of the ancient cave.

This coffin was exceedingly extravagant. It was crafted by the rare and precious Heavy Celestial Heavenly Metal; this was a finest rank metal used to craft amazing weapons.

When the giant coffin came down, the thunderous sound appeared and even the grand earth trembled. An old man with a childish face and gray hair came out. Even though he was wearing a common plain cotton robe, it was untainted by even a speck of dust. It was as if he was an old immortal coming out from a painting. If his eyes weren't closed and this wasn't the Ancient Heavenly Corpse Burial Ground, then others would find it hard to imagine that this immortal old man ahead of them was a dead person.

"A little interesting, even the descendant of the Multitude Immortal Pavilion is no exception and still wants to be reborn." Li Qiye sat on the ground and calmly said.

Hearing the words "Multitude Immortal Pavilion", the little ones were fine while the group of Niu Fen shuddered in bewilderment. The Multitude Immortal Pavilion was an extremely mysterious existence and was famous along with the War God Temple. However, they were a lot more low-key than the War God Temple. The world rarely saw disciples of the Multitude Immortal Pavilion, but, any disciples from the pavilion were all of the heaven defying generations.

This person was a descendant of the Multitude Immortal Pavilion... What kind of powerful and how terrifying was this existence?

"I'm only a mere unfilial disciple that's not worthy of the three words Multitude Immortal Pavilion." Even though he was a dead person buried in this place, the old man spoke in such a nice and friendly manner; it was like a gentle spring breeze brushing by.

Li Qiye smiled and took out a stem root from the Heavenly Ancient Treasure Box. It was not too long and was of a golden color that seemed as if it was made from Godly Ore. This Crimson Gold root seemed to have been eaten by insects; it had many little holes.

"If you came from the Multitude Immortal Pavilion, then I don't need many words about where in the Heavenly Ancient Corpse Burial Ground this strand of Crimson Gold Insect Devour is from." Li Qiye placed this item in front of him and said.

The old man pondered for a moment, and he slowly took out a stone pagoda and placed it in front of him. This stone pagoda was not large and could even be described as being very rough. But then again, it was polished without edges as if it had been polished again and again.

"Mysterious Ancient Pagoda — one pagoda to go through the underworld, a Foreign Dao Mysterious Treasure that's able to lock the grand dao high above and suppress all evils below. It was polished in my hands for 80,000 years!" The old man carefully said.

"Deal." Li Qiye immediately took the Mysterious Ancient Pagoda and casually threw it to Shi Gandang as he spoke: "Since you are already a guest advisor of the Cleansing Incense Ancient Sect, this will be considered as an introductory gift. As long as you are loyal, the Cleansing Incense Ancient Sect will not mistreat you!"

Shi Gandang didn't think that he would have a part with the treasures, so he quickly regained his wits and solemnly bowed towards Li Qiye. This respect came from the heart!

The old man accepted the Crimson Gold Insect Devour root and contemplated for a bit before placing another item in front.

This was a mirror that had an ancient style. Its material was unknown, but the mirror was concave inward like the mouth of a fish. The moment this mirror appeared, a Virtuous Paragon aura rushed out!

“Dragonfish Transformation Mirror — made from Dragonfish Saint Copper with seven runes Grand Dao Treasure Metal. Even though the seven runes did not become words and phrases, this Life Treasure had followed my entire life, a Virtuous Paragon Life Treasure!” The old man said.

This phrase left the hearts of the young ones quivering. A Virtuous Paragon Life Treasure — so terrifying and powerful. From Seven Runes Saint Copper... This Life Treasure was too valuable. They know, in the Cleansing Incense Ancient Sect, the first elder also had one!

### **Chapter 164 : Middle Continent's Treasures (2)**

Li Qiye looked into his treasure box and eventually took out a cicada shell that looked like a piece of silver; it was seemingly alive. Without a careful look, one would think that this was a silver cicada.

“Void Intention Silver Cicada Shell — lived in the depths of the Void Intention Valley, it is able to give you twenty more days of living!” Li Qiye placed the silver cicada in front of him and told the old man.

The old man did not say anything and packed up the Void Intention Silver Cicada Shell. This meant that the transaction was successful. Li Qiye grasped the Dragonfish Transformation Mirror and quietly threw it to Qu Daoli.

Compared to the group of Nan Huairen, Qu Daoli was only a disciple promoted by Li Qiye later on so his relationship with Li Qiye was a bit shallow. He didn't expect to have a part of the treasure sharing. After accepting the mirror, he quickly bowed towards Li Qiye!

A Virtuous Paragon's Life Treasure... How precious was this? To a third generation disciple like Qu Daoli, this was something he didn't dare to think about before.

There was one last transaction so Li Qiye looked at the treasures left in his box. He then took out a small bowl. This small jade bowl was sealed with a little bit of fresh blood inside, but this blood was not particularly bright and vivid.

“Diluted treasure blood, you should know its value.” Li Qiye placed this bowl of blood down and slowly said.

The old man whose eyes were always closed suddenly opened them and revealed a bloody ray, then they were closed again.

After a long silence, the old man took out an ancient flag. This ancient flag was a bit tattered and had a hole on its body. However, this flag — once surfaced — immediately emanated a sky-piercing murderous intent. It was enough to cause others to feel that they have been beheaded and that their lives have been ended.

The moment this flag appeared, the group's expression turned pale. The killing intent of this flag was too strong, causing others' hearts to flutter.

"This was a Murdering God Banner of the old battlefield! I didn't think that you would have obtained it." Seeing this flag was outside of Li Qiye's expectations. He then took the flag and said: "Deal."

The old man put away the blood drop in the bowl and turned around to lie in the coffin. Finally, it was lifted by the skeletons back to the ancient cave.

"Do your best to cultivate. This flag is extremely important, don't disappoint me." Li Qiye threw the Murdering God Banner, with its soaring killing intent, to Nan Huairen.

Holding this flag, Nan Huairen couldn't help but feel incredulous. He quickly kneeled to the ground and bowed his head as he said: "Thank you, Oldest Brother, for considering me."

Even though Li Qiye gave the extremely powerful and heaven-defying Murdering God Banner to Nan Huairen, no one had any objections. Everyone knew that Nan Huairen was the first to swear loyalty to Li Qiye and was set on following his Oldest Brother. To be bestowed such a sacred item was not any bit surprising.

Taking advantage of the gap in transactions, Chen Baojiao had been holding back a question for a long time. She could refrain no longer and asked: "Corpse Treasures that are able to prolong life, are other cultivators unable to use them?"

"No, Corpse Treasures are only useful for the Treasure Lords and Earth Immortals." Li Qiye shook his head and said: "However, Corpse Treasures that are able to move Earth Immortals are not many."

For the last transaction, the group was quite nervous. Li Qiye took them to the boundary of the Dragon Veins. Finally, Li Qiye chose an absolutely towering sky-high giant mountain. Standing on top of the mountain, the whole world was within a single glance!

Standing on top of such a place, the young ones couldn't help but feel astonished. This mountain was truly too majestic and could simply be called the number one mountain!

"Not a Dragon Vein, but no lesser than a Dragon Vein. I will gamble this one time, ah." When Li Qiye chose this Feng Shui Treasure Earth, he movingly said.

Finally, Li Qiye completed the transaction ceremony, and there was a person who immediately rushed out. No one saw how this person appeared.

When they clearly saw this person, the younger generation group of Nan Huairen was stunned. In front of them was a woman a bit over thirty with peerless elegance. It was difficult to describe with the brush and ink. This woman's peerless elegance possessed a mature charm, making people's hearts beat faster!

Li Shuangyan had a supernatural beauty, and Chen Baojiao was country and city toppling, but compared to the woman in front, they were lacking a mature air. Chen Baojiao was a beauty bringing about calamities and floods with a poisonous charm, but she did not have the same maturity and sultry atmosphere like the woman ahead.

If the woman's eyes weren't closed, then Nan Huairen's group wouldn't have believed that this woman before them was a dead person.

“The Middle Continent Ancient Kingdom’s princess, the number one beauty of Immortal Emperor Yan Wu’s era. With the best appearance and extreme talents — all three being at the Saint level, she was enough to shock all the heroes. Although the number one beauty title is a bit too much, it was not far off.” Li Qiye looked at the woman in front and sighed with emotions. [1]

This grand beauty renowned in an era, as the Dark Crow, he had seen her once. Unexpectedly, at this moment, he could meet her again. However, a meeting after millions of years... She was already dead!

The supreme beauty ahead, with her pretty features, opened her eyes and the bloody rays appeared. She then closed her eyes and didn’t say anything.

Li Qiye sat on the floor and the supreme beauty also sat down. Li Qiye opened his treasure box and looked at the last three Corpse Treasures. Eventually, he took out all of the three treasures at once and stared at the supreme beauty ahead as he slowly said:

“My three Corpse Treasures, all to trade for that item of your Middle Continent Ancient Kingdom!” Once Li Qiye’s words came out, the supreme beauty turned around and left without a word.

“I’ll add another condition. Outside of the transaction, I will tell you where Chu Yuntian’s burial is located!” Li Qiye immediately called out.

The supreme beauty’s body became stiff and quickly turned around with her scary gaze, looking at Li Qiye. This bloody ray seemed as if it wanted to crucify him as she was trying to see through Li Qiye.

“Don’t be too emotional. A big fluctuation is not good for you. You have accumulated, little by little and through the countless moons, to save up your origin longevity, do you hope to use it now?” Li Qiye calmly continued: “In the present time, I’m afraid that people who know about Chu Yuntian no longer exist. If I know, I will not be using words to trick you!”

Finally, the supreme beauty closed her eyes and slowly sat down in complete silence.

“I know this item of the Middle Continent Ancient Kingdom is in your possession. That year, when the kingdom met its calamity, that item did not appear. The only explanation is that you took it away! I will let you know the matter of Chu Yuntian, and it will also complete your desire! Cut this thought, then maybe you can come into being with a new rebirth! Think about it carefully.” Li Qiye slowly spoke.

The group of Shi Gandang acted like monks who were scratching their heads in complete confusion. They naturally didn’t know who Chu Yuntian was and were lost about the Middle Continent’s item even more. This secret was only known to Li Qiye alone.

As for why Li Qiye knew so many things, they wouldn’t ask anymore. They were becoming accustomed to Li Qiye knowing all things.

The beautiful woman contemplated for a long time and finally took out a stone box. She gently placed it on the ground, still silent.

Li Qiye slowly placed his hand on the stone box, but he didn’t open it. He simply sensed it and finally sighed: “The Middle Continent’s treasure, ah!”

He placed the three Corpse Treasures in front of the supreme beauty and whispered. Li Qiye’s voice was extremely soft, and only the supreme beauty could hear it.

After listening, the supreme beauty's body was shaken and she suddenly opened her beautiful eyes, revealing a bloody ray like the rainbow.

"Don't be excited, your lifespan doesn't come easily. If you use it now, then it would be a waste of countless moons." Li Qiye gave a warning with a deep tone.

Finally, the supreme beauty closed her eyes and took the three Corpse Treasures. Then, her shadow disappeared without a trace. No one could clearly see her method of departure.

Li Qiye solemnly put the stone box away without saying anything.

Then, he patted Luo Fenghua's shoulder and said: "When there is a chance in the future, I will give you a treasure!"

"Biggest Brother, I am already very satisfied with the Soaring Dragon."

Even though Luo Fenghua didn't get anything in this treasure sharing trip, Luo Fenghua was already very satisfied. The Ancient Intent Fasting gave him a Soaring Dragon because of his oldest brother's face. This was already a great occasion for him. Plus, having come this far, it was all due to his oldest brother's guidance.

As for Li Shuangyan and Chen Baojiao, needless to say, they knew the right amount of propriety.

Niu Fen didn't care too much about treasures. In fact, he had a lot of treasures. To him, Li Qiye teaching him the Eighteen Solutions was more valuable than all of the treasures in this heaven and earth!

Li Qiye decided the location. They descended from the mountain and were ready to leave the Ancient Heavenly Corpse Burial Ground.

"Over there..." After leaving the mountain, when they wanted to go around a corner of a valley, Li Shuangyan noticed that there was a strange thing in front of the valley. She hurriedly pulled on Li Qiye's sleeve and whispered to him.

Li Qiye lifted his head to look and the people in the back also followed suit. At this moment, they saw that there was a coffin slowly drifting out of the valley.

In the Ancient Heavenly Corpse Burial Ground, to suddenly witness a flying coffin would instill the creeps into anyone.

This slowly moving coffin was too strange and was completely silent!

At this moment, not mentioning the younger generation, even the group of Shi Gandang was frightened on the inside.

Li Qiye analyzed this coffin and shivered in his heart. His eyes became serious as he stared at the coffin leaving from the valley! He was shocked because he didn't think that he could see such a ghastly scene again! This was not his first time seeing such a scene.

This coffin was very common. It was as if it was made from the most ordinary of wood. Inside this burial ground, there were many better coffins; with copper coffins, bronze coffins, and there was even Godly Wood coffins. This coffin in front made by the most common wood was not worth mentioning.

“Down, down, there are ants beneath!” Xu Pei meticulously found out how the coffin was moving, and she muttered.

Yan Wu = Hate all things

### **Chapter 165 : Ants Moving a Coffin (1)**

Everyone took a second look at the bottom of the coffin, and it was just as Xu Pei had said. The underside of the coffin was densely packed with ants in an orderly fashion. It was as if they were an army as they lifted the coffin out of the valley.

Seeing such a strange scene of ants carrying a coffin, not mentioning the juniors like Nan Huairen, but even the ones who had seen many things in the world — like Niu Fen and Shi Gandang — were surprised.

Although this burial ground produced many strange sights because it was one of the most mysterious and strange places in the world (anyone who came in here had seen many bizarre scenes) but seeing ants carrying a coffin was the strangest thing they had ever seen, and it instilled cold chills upon them.

“Ancient ants moving the coffin...” Looking at the ants carrying the coffin, Li Qiye’s eyes coagulated with a dignified appearance as he murmured.

As the Dark Crow traversing through countless moons, inside the Nine Worlds, no matter whether it was a Burial Ground or Ancient Earth or even the mysterious Ferocious Earth, he had passed through all of them. In the past millions of years, what kind of things had he not seen before?

Ancient ants moving a coffin — he had seen this once before. He didn’t think that he would see it again in this life!

“Is it a corpse in the coffin? Is it a Treasure Lord or an Earth Immortal?” Chen Baojiao, seeing this aberrant scene, asked.

“Perhaps it is a treasure, not a corpse, not a Treasure Lord or Earth Immortal!” The little brat, Nan Huairen, became greedy again as his gaze brightened up towards the coffin.

“Oldest Brother, why don’t we open it and see!” Luo Fenghua was one of the more impulsive one within the younger generation, and hearing Nan Huairen’s words, he added.

“That, that is not okay.” Xu Pei, with her big round eyes staring at the coffin, said with a scared expression: “This thing is so odd, what if it is an ominous matter?”

Nan Huairen did not give up and laughed out loud: “What is there to be afraid of? Oldest Brother is here. Meet god, slay god; meet buddha, slay buddha, let alone a coffin.”

Of course, the older generation like Shi Gandang did not join the commotion.

Li Qiye finally withdrew his gaze from the coffin carried by ants. With one hand, he slapped Nan Huairen’s neck and said: “If you want to die, I will throw you over there! Even if you are invincible, at the Forbidden Burial Grounds and Ancient Earths, there are many things that are taboo existences!”

Being scolded by Li Qiye, Nan Huairen wryly laughed and quickly shrunk down to his neck.

At this point, the ants carrying the coffin headed towards the deepest part of the burial ground. Speaking of strange matters, when these ants were busily carrying the coffin, all of the Earth Corpses nearby immediately retreated. Even the ones hidden underground ran far away from this coffin.

Seeing this scene, everyone took a deep breath from being surprised.

“Even Earth Corpses are avoiding it, what on earth is inside that coffin?” Li Shuangyan murmured. This was not a question for all of them, but more for Li Qiye!

Li Qiye stared at the coffin heading towards the deepest part of the Burial Ground and didn’t say anything, nor did he take any action. Seeing Li Qiye’s countenance, Li Shuangyan knew that this was a serious matter.

Seeing the coffin disappear from everyone’s eyes, the always-silent Tu Buyu quietly whispered: “Should we go take a look?”

“No...” Li Qiye finally shook his head and said: “There are many unprovokable things. Even for an invincible existence, messing with a taboo matter would still end with their death!”

“We’re going. The transaction is finished, we cannot stay here any longer.” In the end, Li Qiye — once again — knocked on his gong and took everyone outside.

The group of Li Qiye arrived fairly early to Ancient Sky City. After they went inside, the city was even more lively, and there were even more cultivators from the grand sects and powerful nations visiting the city. Especially the ones located in the Grand Middle Territory, they were the ones with houses close to the lake to enjoy the light of the moon.

Many older generation cultivators also brought along their juniors to the city so that these young ones could experience the world and open their eyes. In the end, any disciple with potential would eventually face an existence like the twelve Burial Grounds!

Within the young geniuses coming to Ancient Sky City, there were a few that garnered special attention from everyone! For example, Dao Child Shengtian of the Heavenly God Sect was one of them!

The Heavenly God Sect of thirty thousand years ago was only a grand sect that was barely a first level existence. However, when their ancestor led his troops to destroy the Cleansing Incense Ancient Kingdom and defeated the Cleansing Incense Ancient Sect, that was of Immortal Emperor’s lineage, it caused the sect to be in decline ever since.

Because of this, the Heavenly God Sect, within the last thirty thousand years, was in the limelight, especially during the Difficult Dao Era. Existences like the Heavenly God Sect’s ancestor were always dreaded by others. Even the old undyings of Immortal Emperor’s lineages had to be wary of him!

Dao Child Shengtian arrived at Ancient Sky City with many experts from the Heavenly God Sect along with more than ten Royal Nobles from the Heavenly Jewel Kingdom. They were like the celestials worshipping the moon. The aura of the Royal Nobles undulated as they rode the dragon horses next to their chariots and flying pavilions... And Dao Child Shengtian amongst them seemed like a crown prince, protected by his followers.

Such ostentation left many cultivators in Ancient Sky City to change their expressions. One had to know that during the Difficult Dao Era, countless geniuses stopped at the Royal Noble realm. Without passing the Fate Adversity, they would never be able to step inside the Enlightened Being realm!

Even though the Difficult Dao Era was over, for Royal Nobles to surpass their Fate Adversity was easier said than done. So in this era, as long as the undyings who were suppressing their blood force don't come into being, it was an era ruled by Enlightened Beings and dominated by Royal Nobles.

To many sects, in the contemporary era, just having one Royal Noble was not easy. To have an Enlightened Being was like coming across a treasure of the gods! Today, Dao Child Shengtian, a younger generation yet being escorted by so many Royal Nobles... This was indicative of his status and was enough for him to shine dazzlingly!

"The Heavenly Jewel Kingdom is great and is developing continuously. As long as their ancestor is alive, only more Royal Nobles will join the kingdom, not less!" Seeing such a pompous scene, many experts sighed in envy, as well as jealousy.

The rise of the Heavenly God Sect was as clear as day to all of the sects in the Grand Middle Territory. Defeating the Cleansing Incense Ancient Kingdom that had stood strong for millions of years and gained countless treasures — this was a matter that incited greed out of many people, but as long as their ancestor was alive, no one dared to have any strange thoughts about the Heavenly God Sect!

"The Heavenly Jewel Ancient Kingdom is developing nonstop. I'm afraid it will be the strongest of this era, ah. In one generation, there is the Heavenly Jewel Mortal King, one of the two heroes of the Grand Middle Territory. Now, Dao Child Shengtian is a rare genius of the territory. They already have capable descendants, how could they not rise?" One expert of the last generation lamented because of this.

Dao Child Shengtian with his followers, along with the experts of the Heavenly God Sect, powerfully entered the city, attracting much astonishment and jealousy.

"A peerless genius within the contemporary geniuses. I'm afraid not many people could compare with Dao Child Shengtian, ah." Some princesses and saintesses of a few Sacred Grounds and sects lamented, and there were quite a few who were charmed by him.

"Haha, peerless genius?" A Demon Monarch coldly snorted; he didn't like Dao Child Shengtian. He spoke with an unfriendly manner: "Only a dog of a mourning family!"

"Eighth Brother Serpent, what are you saying about this matter?" A friend of his, another Demon Monarch, curiously asked.

This Demon Monarch looked at Dao Child Shengtian being worshiped by the celestials and spat, then he contemptuously replied: "That year at the Evil Infested Ridge, if Heavenly Prince Qingxuan didn't save him, he would have died already."

"Eighth Brother Serpent had followed the old Turtle Monarch of the Flying Dragon Lake to the Evil Infested Ridge, you must have had a great harvest. I heard that there was a heaven-frightening event that happened there, and many sects were completely annihilated. Could Eighth Brother Serpent talk about this a bit more?" A friend was interested and asked.

When the Evil Infested Ridge opened, many sects were completely destroyed, and it brought a great wave across the Grand Middle Territory. But right after, to everyone's surprise, everything suddenly calmed down without a trace.

"Greed makes people perish! That day, after entering the Evil Infested Ridge, there was a legend about the treasure of the gods, and it was found by the Cleansing Incense Ancient Sect's Li Qiye." This Demon Monarch was still astonished as he bought this matter back up.

"Treasure of the gods?" Hearing about such a thing caused the friend's eyes to become reddened.

"The so-called treasure of the gods was only a life-stealing talisman. At that time, many sects like the Heavenly God Sect and the Azure Mysterious Ancient Kingdom all yearned for the treasure, and they forced the Cleansing Incense Ancient Sect's Li Qiye to hand the treasure of the gods over." Even though it was a long time ago, this Demon Monarch's spine still felt the chill as he continued: "When the treasure was opened, it released a devil that annihilated everyone who wanted to steal the treasure. Heh, at that moment, if Heavenly Prince Qingxuan didn't use an Emperor's Possession to escape and also save the little brat, Shengtian, would he be acting like this today?"

When it came to this matter, this Demon Monarch became fearful just thinking about it. If he didn't follow the old Turtle Monarch to quickly escape, then he might have died in the Evil Infested Ridge as well.

"No wonder why this trip to the Evil Infested Ridge had so many experts of sects dying completely. Such a grand matter yet it was kept quiet... So it was someone wanted to hide their own humiliation." An expert murmured after hearing this information.

As the saying goes, good things didn't leave the door while bad things will spread for a thousand miles. The event at the Evil Infested Ridge quickly passed throughout the city.

Dao Child Shengtian, with his boundless fame, immediately turned ugly once he heard this news. This was detrimental to his power and prestige — a true humiliation.

## **Chapter 166 : Ants Moving a Coffin (2)**

"Hmph, little animal, the Cleansing Incense Ancient Sect won't be jumping for many more days! This thing doesn't know life from death; only a declining Cleansing Incense Ancient Sect yet still dares to be enemies with my Heavenly God Sect along with the Azure Mysterious Ancient Kingdom! Sooner or later, the Cleansing Incense Ancient Sect will become a faint speck of dust in history!" In Ancient Sky City at a congregation of young geniuses, when someone brought up that Li Qiye was also here, Dao Child Shengtian coldly snorted and contemptuously said without a care.

Hearing this, many people shivered and glanced at each other!

At this moment, they understood the implication of his words and the warning that the Heavenly God Sect and the Azure Mysterious Ancient Kingdom were now allies! When such a monstrous monster was brought up, any sects and experts would both shudder in fear.

"Without seeking death, it will not die. Why did a declining Cleansing Incense Ancient Sect mess with a monster like the Azure Mysterious Ancient Kingdom?" After listening to Dao Child Shengtian, a young genius lamented.

Dao Child Shengtian's visit to Ancient Sky City left many youngsters envious and jealous. However, even if they were jealous, they couldn't do anything about it. During the current times within the Grand Middle Territory, there weren't that many young people that could compare to Dao Child Shengtian.

However, a different young genius had just arrived, so the light on top of Dao Child Shengtian became slightly fainter.

"Jewel Pillar Saint Child has arrived." This message came from the city. Even though very few people actually saw him, it quickly resonated.

"Jewel Pillar Saint Child is here?" Someone with inside information emotionally murmured: "Jewel Pillar Saint Child is a grand completion Sacred Mountain Physique. His arrival... Does this mean that an ancestor with a grand completion Saint Physique wants to be buried in the Ancient Heavenly Corpse Burial Ground?"

"What? A grand completion Sacred Mountain Physique? The Sacred Mountain Physique is one of the twenty-four King Physiquest!" Hearing this information, one cultivator's mind was shaken while some others had to take deep breaths.

A natural born King Physique and a grand completion King Physique were two entirely different matters. Natural born King Physique — this meant that one had the chance to cultivate a King Physique to completion! However, without a suitable Physique Law, even a natural born King Physique wouldn't necessarily be able to reach the grand completion of the King Physique!

A grand completion King Physique was a very frightening thing to cultivators. Once a Physique reached grand completion, to a large extent, cultivation no longer mattered. Normally when a grand completion King Physique cultivator came out, no one would care whether he was a Royal Noble or an Enlightened Being. A grand completion King Physique was sufficient as a deterrence to others!

"The Jewel Pillar Sacred School, truly unfathomable. They are worthy of being named the heritage with the most Physique Laws in the Grand Middle Territory." An older cultivator enviously exclaimed.

Fate Merits, Longevity Laws, and Technique Forms all could be created. For example, Enlightened Beings, Ancient Saints, Heavenly Sovereign, and Heavenly Kings could create their own Fate Merit, Longevity Law, and Technique Form.

However, not everyone could create Physique Laws without a prior precedence. If one was not a natural born King Physique, even if they searched for millions of years, they would still not be able to create a King Physique Law. Without the same Physique, one could not understand its Physique Law.

There were countless geniuses who started with a Mortal Physique and tried to create a Xiantian Physique Law or King Physique Law, but very few were actually successful! So, to any sects or heritages, the value of Physique Laws were much higher than Fate Merits and Longevity Laws.

"Jewel Pillar Saint Child is the descendant of the Jewel Pillar Sacred School. He is a very low-key person even though he is a natural born King Physique and, at the moment, is a grand completion King Physique!" A cultivator from the Jade Valley Country knew the situation and said in a low voice.

“A natural born King Physique, and is now a grand completion King Physique. This is a step-by-step prelude to becoming a grand completion Saint Physique ah!” A cultivator breathed in cold air after hearing this news.

A grand completion Saint Physique was frightening and could be said to be invincible! Other sects and heritages wanting a grand completion Saint Physique was absolutely not easy, and it was harder than reaching the heavens! However, the Jewel Pillar Sacred School was different.

Referred to as the school with the most Physique Laws in the Grand Middle Territory, they had created several characters with grand completion Saint Physiques — in the past — who were invincible in the Nine Worlds and ten earths — very intimidating! Even Immortal Emperor’s lineages and Ancient Kingdoms could not produce more grand completion Saint Physiques than the Jewel Pillar Sacred School!

Such a message caused many grand and ancient sects in the Grand Middle Territory to shiver on the inside. If it could produce another grand completion Saint Physique in this generation, then this was a chance for them to reach for the invincible Immortal Physique or shoulder the Heaven’s Will and become a generation of an Immortal Emperor!

The appearance of the Underworld River along with the Underworld Boat signaled a sky-shattering event, causing all of the sects inside the Grand Middle Territory and even the ones in the Eastern Hundred Cities, the Southern Crimson Earth, the Western Desolate Wasteland, and the Great North Sea to depart towards the Grand Middle Territory.

To many sects and nations in the Eastern Hundred Cities and Southern Crimson Earth, traveling across a territory was an extremely difficult thing and required a large amount of Refined Jades to open the dao gateway. Ordinary sects could not afford such an expense, which was why any sects that could go to Ancient Sky City were extraordinary existences with absolutely powerful strength!

In the last few days, cultivators from the Eastern Hundred Cities and Southern Crimson Earth began to appear in Ancient Sky City. There was even the Immortal Ghost race along with the Blood race — that were usually hard to find in the Mortal Emperor World — appearing in the city.

However, even with the grand sects and powerful nations from these external forces present, the Grand Middle Territory’s cultivators still had the hometown advantage. For now, the powers within the Grand Middle Territory still controlled the whole situation.

At this moment, countless grand sects and powerful nations and even Immortal Emperor’s lineages were calculating the Underworld Boat’s arrival time; especially the ones that had predecessors who wished to be buried inside the boat, they were especially meticulous.

Meanwhile, inside the Ancient Heavenly Corpse Burial Ground, Li Qiye’s group climbed the mountains and traversed the rivers under Li Qiye’s accurate directions to finally leave the Ancient Heavenly Corpse Burial Ground.

Outside of the burial ground, Li Qiye immediately took off the ragged clothing on his body, including the Frightened Corpse Gong, and placed them inside the Heavenly Ancient Treasure Chest. Then, he garnered all of his strength and threw the treasure chest into the burial ground. The treasure chest was like a shooting star across the sky and it disappeared into thin air.

Li Qiye's actions stunned everyone, including Li Shuangyan's group.

"Big Brother, it's, it's, it's a treasure ah! With this thing, aren't we free to move in and out of the Heavenly Ancient Corpse Burial Ground? Why throw it away?" Nan Huai ren was flabbergasted and couldn't help but to shout. If there weren't Earth Corpses walking around, he would have rushed in to find it.

"Heavenly Ancient Earth Messenger, Heavenly Ancient Corpse Treasure, Heavenly Ancient Frightened Corpse Gong... Only when you are the Earth Messenger would you have their effects." Li Qiye looked at him once and freely said: "This group of treasures coming from the Heavenly Ancient Corpse Burial Ground... With this sealed treasure chest, as long as you understand the rules and the ceremony of the transaction, even if you aren't an Earth Corpse, you would still be able to become a Heavenly Ancient Earth Messenger!"

"Heavenly Ancient Earth Messenger is assumed by Earth Corpses? Not cultivators?" Hearing this, the group of Qu Daoli got the creeps, especially Xu Pei. As a young girl, she also got the shivers.

"Of course not." Li Qiye said: "To the Earth Corpses, if they had the opportunity to become free again and escape the Heavenly Ancient Corpse Burial Ground, at that time, they would either become a Treasure Lord or an Earth Immortal, or they would truly rest in peace at this place, no longer being an Earth Corpse! Every generation, the Ancient Heavenly Corpse Burial Ground will release some kits for Heavenly Ancient Earth Messengers! Earth Corpses with fortune would obtain them and have the chance to trade for their freedom. Whether they could trade for their freedom in the end, this depends on their transactions!"

"The transaction is very simple, either find a Treasure Lord or an Earth Immortal. However, whether it is a Treasure Lord or Earth Immortal, once the transaction begins, only three trades are permitted at most for each person. During the transaction process, whenever it is unsuccessful, both sides will immediately stop. Even if both are still only in the first round of transactions, they still must stop immediately! Therefore, both sides taking out their Corpse Treasures or regular treasures require some wisdom!" At this point, Li Qiye pointed at his head.

Then he smilingly continued: "If you are a capable gambler, then go to an Earth Immortal. Maybe with just one transaction, it will be heavenly frightening! However, many Earth Immortals don't care for Corpse Treasures. This means that you have a great chance for the transaction to fail, and this would completely waste the Heavenly Ancient Earth Messenger's kit!"

"Earth Immortal's treasures from the transactions can allow for freedom?" Li Shuangyan asked in surprise.

Li Qiye shook his head and said: "Not necessarily, it depends on what items you traded for. As long as it is heaven-shaking enough, then it really has the potential to trade for freedom."

"Oldest Brother, from the past till now, were there Earth Corpses that traded successfully?" Qu Daoli couldn't help but ask.

This question left Li Qiye's eyes in a deep ponder. In the end, he didn't answer this matter.

“Haha, Big Brother, even though we were finished with the trades, but, this Heavenly Ancient Earth Messenger’s kit... Good or bad, it is still a treasure. How could you throw it away?” Nan Huairen was still greedy and asked while laughing.

Li Qiye glared at him and lightly said: “These items do not belong to the outside world. If the kit was still sealed, then it would be easy to deal with. Heh, but if it was opened, whether you are finished with the transaction or not, or if there are still Corpse Treasures leftover, if you take it out of the Heavenly Ancient Corpse Burial Ground, then be careful of an ominous event taking place.”

“How ominous?” Even the quiet Zhang Yu asked.

“Possessed by ghost! Speaking of no good, you will become crazy and rush into the Heavenly Ancient Corpse Burial Ground. These items do not belong to the outside world. Once opened, this is equivalent to accepting the laws of the Burial Ground! If you want to take it outside, then that would be provoking the ominous.” Li Qiye answered with a smile.

“Possessed by ghost...” Hearing this, the younger generation couldn’t help but to change their expressions. Even Niu Fen took a look around. These words of Li Qiye didn’t seem to be a joke.

“So, even if there were cultivators who had picked up the Heavenly Ancient Earth Messenger’s kits before, how could they know how to use them? Why do you know the rules and the ceremony of the transaction?” Seeing the Li Qiye who was even younger than her in front, Chen Baojiao couldn’t help but to ask this question.

“Calculated with my fingers.” Li Qiye replied with a smile.

Chen Baojiao naturally was not satisfied with such an answer, but she could only grumpily glare at Li Qiye once.

### **Chapter 167 : Jewel Pillar Saint Child (1)**

Leaving the Heavenly Ancient Corpse Burial Ground, the younger generation took a deep breath of relief. At this moment, they felt like birds flying freely in the sky. They then went home to Ancient Sky City. However, as they were leaving, they met a person wandering under the mountains. This person, who was hovering outside of the Burial Ground, had the impulse to go in. However, he then thought about it again carefully and wandered outside instead, not daring to go in.

This person’s eyes became serious after seeing the group of Li Qiye coming out of the mountain. Especially after seeing Chen Baojiao, his expression sank. He took a step forward and suddenly blocked the path of Li Qiye’s party.

This person blocking the front felt as if Mt. Tai was towering right before them. With a majestic height, it rendered others unable to climb past and caused others to look upward, making breathing difficult!

At this point, the group clearly saw the appearance of this person blocking the way. It was a young man older than twenty years of age. With a tiger-like forehead and cold eyes, he had a firm and resolute presence. Even though his stature was not especially big, it gave others a feeling of admiration like observing a tall mountain. It was as if he was particularly huge, causing others to uncontrollably look up at him.

The young man ahead was dressed in black with normal energy and an invisible godly aura, but he still resembled a godly mountain across the sky, separating the heaven from the earth. Regardless of where he stood, he would still be an untouchable giant mountain. Even when his unimposing presence remained, it was suffocating to others!

Firm and resolute, this young man ahead of them in black clothing seemed like an incarnation of an immovable godly mountain.

“Oldest brother...” Seeing this young man before them, Li Qiye didn’t say anything. However, Chen Baojiao who was next to his side focused her eyes and darkened her expression. She stared at this young man ahead and coldly said: “Oldest Brother is here to hunt me for the sect?”

“This is not the case.” The resolute young man with an aura that dominated everyone shook his head and said: “Little Sister, you are taking the wrong step, and this is a mistake for life! The school did not mistreat you, and His Highness even viewed you as his own daughter. Even though I am not here to capture you, but as the descendant of the Jewel Pillar Sacred School, I still wanted to advise you with a sentence: turn back and you will see the shore! There will be opportunities to make up everything.”

“Saint Child said too much. My Young Miss is a disciple of the Chen Clan. At the Chen Clan, she had destroyed her dao foundation and gave everything back to the Chen Clan before she left. At this moment, she especially does not have any connections with the Jewel Pillar Sacred School and the Jade Valley Country.” Shi Gandang stood in front of Chen Baojiao and said with a deep voice. At this time, his Enlightened Being aura shot towards the sky and had the inclination to fight a battle.

Even though Shi Gandang was an Enlightened Being of a generation, he did not dare to underestimate the young man in front of him.

Jewel Pillar Saint Child! Hearing this title, Nan Huai ren’s group knew the background of this youth. Especially Nan Huai ren, who was always outside, his heart couldn’t help but shake. In the legends, Jewel Pillar Saint Child was a grand completion King Physique.

“Grandpa Shi, I have no intention of making life difficult for you. However, I hope that you will dissuade Little Sister Chen with some words!” Jewel Pillar Saint Child said with a deep tone.

“I am not a disciple of the Chen Clan and definitely not a disciple of the Jewel Pillar Sacred School and the Jade Valley Country. Because we used to be in the same sect once, I still called you Oldest Brother. If Oldest Brother is here to convince me, you should just go back!”

At this point, the younger generation couldn’t chime in. They could only wait to see the situation develop and wait for Li Qiye’s command.

“Little Sister, you are corrupting yourself and hurting the school’s reputation.” Jewel Pillar Saint Child swept across the group of Li Qiye once and didn’t put them into his eyes. Then, he said: “Today, the Cleansing Incense Ancient Sect is but a third rate small sect; it is not enough to protect you...”

“Less pesky words—” At this moment, Li Qiye became impatient and waved his hand. It was as if he was chasing away a fly, and he said: “A good dog does not block the road. This master is in a hurry to return home and embrace beautiful women, okay? Quickly scam to the side for me!”

Li Qiye's words left Jewel Pillar Saint Child with a sunken expression. He overlooked Li Qiye with eyes that resembled godly lanterns and a voice as heavy as iron: "You are Li Qiye, right?! Daring to bluster... I want to see whether you have some capabilities!" After the words came out, his big hand descended down from the sky.

Jewel Pillar Saint Child's move did not have any mysterious merit laws nor murderous techniques; it was a simple hand descending down like a mountain from the heaven, capable of suppressing gods and devils.

A grand completion King Physique, the Sacred Mountain Physique — one hand with the power of one million jin. To him, his Physique was powerful enough for him to not activate any merit laws and borrow Life Treasures' power to slay the enemy.

Shi Gandang's expression darkened after seeing the sudden move from Jewel Pillar Saint Child. He wanted to take action, but Li Qiye coldly sneered and reached out with one hand. He held it like an axe and directly chopped down ahead.

Li Qiye's move also didn't have any technique nor merit laws. He directly used his flesh — plain and simple.

Li Qiye's action changed Shi Gandang's expression. Jewel Pillar Saint Child was a grand completion King Physique, and Li Qiye was competing with him in Physiques? This was seeking death, right?

As for Jewel Pillar Saint Child, seeing Li Qiye's incoming hand, he coldly sneered. He had complete confidence in his Physique. In his perspective, Li Qiye was seeking his own death. As long as his big hand was rolling forward, not only would it be able to break Li Qiye's hand, but it would also easily grind him into meat paste!

"Bang—" A loud boom exploded and both of them were shaken from the hit. Jewel Pillar Saint Child's expression greatly changed. A "Boom" sounded as he took one step back on the earth, and the earth beneath his foot immediately shattered.

Under this strike, Li Qiye's body was also shaking. His foot treaded heavily on the earth and a loud "boom" resounded as the earth was destroyed, causing the group of Li Shuangyan to lose their colors and immediately retreat to the back. In the blink of an eye, "Bang—bang—bang—" resonated as the mountain behind them actually ruptured.

Li Qiye destroying the mountain with one foot and Jewel Pillar Saint Child breaking the earth with one step shocked everyone! This was a battle of Physiques, it had nothing to do with merit laws and cultivation!

Still, the biggest storm in one's heart belonged to Jewel Pillar Saint Child. He had absolute confidence in his Sacred Mountain Physique. Looking across the world, to be able to compete with his grand completion King Physique... There were not many! However, this Little Demon's Mortal Physique was able to compete with him — this was hard to imagine! He couldn't understand how a Mortal Physique was able to compete with his grand completion King Physique.

Jewel Pillar Saint Child, at such a young age, was a grand completion King Physique. This was a great matter however, he was underestimating Li Qiye too much. Even though Li Qiye was a Mortal Physique,

he cultivated the supreme Hell Suppressing Godly Physique. His Physique Law was also the number one Physique Law out of all the Physique Laws. Even an Immortal Emperor creating an Immortal Physique Law would still be eclipsed!

Today, Li Qiye had some accomplishments with his Hell Suppressing Godly Physique. It was not surprising to fight against a grand completion King Physique. If this wasn't the case, then the Physique Scripture would not be worthy of being one of the Nine Grand Heavenly Scriptures!

"Only a grand completion King Physique, there is nothing great about it." Li Qiye looked at Jewel Pillar Saint Child and calmly said: "Wait until the day when you are a grand completion Saint Physique. Then you can come before me with a little posturing!"

Jewel Pillar Saint Child's eyes became serious and they shined like godly lanterns. He stared at Li Qiye and was moved with amazement. Finally, he slowly spoke: "I didn't know that the Cleansing Incense Ancient Sect still had hidden dragons and crouching tigers. Today, I was mistaken. The mountains do not move yet the rivers continue to flow. There is still time; we will meet again one day!" Finished speaking, he turned around and left.

Even though Jewel Pillar Saint Child was arrogant, he was also a clever man and was not proudly blind enough to consider himself to be invincible in this world. Under this one strike, he noticed that even a grand completion King Physique didn't have any advantage, so he was determined to leave and not become entangled.

This was also the intelligence of Jewel Pillar Saint Child. Regarding natural talents and cultivation, he was absolutely not weaker than geniuses like Dao Child Shengtian, but his fame was a lot smaller than Dao Child Shengtian because he had always kept a low profile; he knew when to advance and when to retreat!

"Actually a little bit smart!" Li Qiye was calm and carefree when he looked at the shadow of Jewel Pillar Saint Child leaving. He opened a smile and said: "But I do not know whether he can swallow this anger!"

As they were taught the supreme Immortal Physique Laws by Li Qiye, Li Shuangyan and Chen Baojiao were calm without any surprise regarding this matter. Li Qiye being able to teach them supreme Immortal Physique Laws... The level of Physique he was practicing was obvious!

However, the group of Shi Gandang and Tu Buyu was extremely shocked, especially Shi Gandang. He came from the Chen Clan, and he understood the meaning of a grand completion King Physique. Yet, today, Li Qiye's Mortal Physique competed against Jewel Pillar Saint Child — how heaven-defying was this!

"Haha, when Oldest Brother mobilizes, he is invincible in this world. What is the big deal about a grand completion King Physique? Was it not suppressed by Oldest Brother's Mortal Physique? Oldest Brother's Mortal Physique is number one in the Nine Worlds!" Nan Huairen flattered with a smile.

Even though Nan Huairen looked a bit exaggerated, this did not affect the younger generation's admiration towards Li Qiye. At this moment, the eyes of the young group of Luo Fenghua were bright with worship as they stared at Li Qiye. In their minds, Oldest Brother was unbeatable. A grand completion King Physique was essentially nothing. Their worship towards Li Qiye was approaching the point of blindness.

“Less patting the horse’s ass here.” Li Qiye smilingly scolded and slapped the laughing Nan Huairen’s back of the neck.

When they returned to Ancient Sky City, it was even more packed and bustling compared to when they left. Even a few cultivations from the Eastern Hundred Cities and the Southern Chained Earth could be seen.

Returning to the Nine Saint Demon Gate’s courtyard, the group of Nan Huairen loudly cheered while the group of Tu Buyu took a sigh of relief. Going into the Heavenly Ancient Corpse Burial Ground was like taking a trip through the gates of hell. Even with Li Qiye’s strategy, they were still scared and on edge.

After they returned, there were no big characters arriving at the Nine Saint Demon Gate. The group of Tu Buyu was completely busy, especially Tu Buyu and Shi Gandang with their treasures. They were busy with figuring them out.

Chen Baojiao was now serving Li Qiye as he was settling down. Chen Baojiao, once the proud daughter of the heavens and a stunning beauty that affected all living beings was now a maid by Li Qiye’s side with peace of mind.

## **Chapter 168 : Jewel Pillar Saint Child (2)**

After Li Qiye was comfortable after being settled, Li Shuangyan — from outside — brought back a message to Li Qiye: “The Gate sent news. They have prepared the items you need, and the elders will bring them here in two days.”

“Good, I am planning to go to the Heavenly Ancient Corpse Burial Ground one more time.” Li Qiye nodded and slowly said.

“We’re going into the Burial Ground again?” Chen Baojiao, who was tidying up items for Li Qiye, suddenly became moved after hearing this.

“Go! Why wouldn’t we go?” Li Qiye was all smiles as he said: “Burying the dead for the War God Temple — this is simply just a business. The good items in the Heavenly Ancient Corpse Burial Ground aren’t things that you guys can imagine. Since it is hard to deal with Earth Immortals, we should trick a few good things from them.”

Hearing Li Qiye’s words, the two great beauties, Li Shuangyan and Chen Baojiao, couldn’t help but to glance at each other. Tricking treasures from Earth Immortals? Only very few people could do this ah.

“How is it at the War God Temple?” Li Qiye casually asked.

Li Shuangyan shook her head and said: “I don’t know the exact details. Master sent a message that he was together with the War God Temple’s elders. However, I heard that the War God Temple will not preemptively move their ancestor, and they will wait a few days before the Underworld Boat actually appears before coming here.”

“It seems like the old man of the War God Temple is really about to go under. With pathetically low amount of remaining life force, he cannot easily move the Era Blood Stone.” Li Qiye understood the meaning behind the actions of the War God Temple this time.

The powerful heaven-defying generation that were not willing to die would use a large amount of Longevity Medicine to prolong their lifespan. The moment when these drugs lose their effects, they would suppress their blood force and halt their life. However, this was not an easy matter, and it required a large amount of Era Blood Stones to cover them. The longer the time, the more Era Blood Stones were required, as well as more precious Era Blood Stones! Thus, to suppress the blood force and halt one's life, not everyone could afford to do this.

"There is still some time before the appearance of the Underworld Boat. We will take a little break first before entering the Heavenly Ancient Corpse Burial Ground again. And after this matter is finished, we will bury the old man from the War God Temple." Finally, Li Qiye nonchalantly declared.

Even though Li Qiye said to take a break for a bit, in actuality, he was not free for even a second. While staying in the courtyard, he continued on with his harsh cultivation.

Li Qiye sat in the room and moved his Life Wheel while his Fate Palace opened with his True Fate emerged. At this time, the True Fate inside Li Qiye's Fate Palace was surrounded with chains of universal laws that were as thin as silk. Even though they were fine as silk, each of these universal law silks were rattling like iron chains.

At this point, the Kun Peng of the Kun Peng's Six Variants was suspended above the True Fate. The world's essence poured down like a waterfall and cleansed Li Qiye's True Fate. When the world's essence was refined by the True Fate, it turned into the universal laws that hovered outside his body and they intertwined into one place.

At this time, Li Qiye was in the Heaven's Mandate realm, and within this amount of time, he borrowed the godly power of the Revolving Crescent Sun Merit Law along with the Kun Peng's Six Variants to break through two levels in one breath.

At the Heaven's Mandate realm, there were four levels. From low to high, they are: One Offering True Fate, Two True Understanding Searching, Three Turning Mysterious Truths, Four Transforming Dao Law.

For cultivators, the Heaven's Mandate realm meant a time where the True Fate was crazily refined. This was done in order to create a foundation for the future when the True Fate would be refined into the Primordial Soul.

Li Qiye was currently absorbing the world's essence with his endlessly rotating Life Wheel as the Yin Yang Sea of Blood washed the Life Wheel with the undulating Yin Moon and Yang Sun. Drop after drop of Longevity Blood fell down into the Life Wheel and were refined, allowing the True Fate to become stronger and bigger!

"Boom—" Some time later, the Kun Peng poured down an endless amount of world's essence. At this moment, the True Fate quaked and, in the blink of an eye, the True Fate spewed out a blindingly bright magical light. Suddenly, the Kun Peng disappeared and turned into one magical rune after another, and the True Fate activated these magical runes while clanking sounds rang about. All of the universal laws interwove into a dao paper, and the magical runes stemming from the Kun Peng's Six Variants below the True Fate engraved a seal on top of the dao paper.

"Clang..." just like the sound of a great bell. The moment when the last magical rune fell down onto the dao paper, in a flash, a complete Kun Peng's Six Variants was formed along with a True Fate's Seal. The

formation of a True Fate's Seal signified that all of the profound truths were refined inside the True Fate. At this second, universal laws were no longer universal laws; they became a part of the True Fate!

Then, the True Fate's Seal flew out and disappeared from inside the True Fate like being buried in quicksand. In this moment, the True Fate exuded a rolling magical light. Momentarily, the True Fate was lifted up and it absorbed all of the spirit energy in one breath. Suddenly, the Spring of Life, the Tree of Life, the Cauldron of Life... All of the Energy of Life, the Fire of Life, and the Water of Life continuously flew without pause into the True Fate, the tyrant of the entire Fate Palace. In addition, the fire inside the Cauldron of Life was burning all the way to the sky while the Spring of Life was flowing endlessly...

At this time, Li Qiye's body shook and suddenly regained his wits. He was happy since he finally broke through to the Heaven's Mandate third level — Turning Mysterious Truths and stepped into the Transforming Dao Law level! As long as his Transforming Dao Law reached grand perfection, it would be the first step into the Warrior Canopy realm!

In reality, Li Qiye was not the only one practicing hard. Even the younger generation like Nan Huairen and Qu Daoli didn't go out. They stayed behind in the courtyard for a harsh cultivation session.

The one practicing the craziest and most diligently was Chen Baojiao. She courageously and stubbornly pushed forward with an unmatched momentum. Regarding Chen Baojiao's will to cultivate, anyone would click their tongues in amazement and tingle in cold chill in admiration for her craziness.

No one would have thought that a country toppling beauty like Chen Baojiao would cultivate in such a dangerous manner! However, Chen Baojiao's efforts were rewarded. Even though she destroyed her dao foundation to start over from scratch, her cultivation speed was faster compared to anyone else, and she could easily break the record of any genius!

Li Qiye originally wanted to reach the Warrior Canopy realm, but because of Elder Yun's arrival, he had to stop his cultivation.

"Elder Yun is here, and he brought along all of the items you needed." Li Shuangyan immediately brought the message of Elder Yun's arrival to Li Qiye.

Hearing the message, Li Qiye immediately stopped cultivating and went to meet Elder Yun.

"Young Noble Li, His Highness made me bring all of the items you needed here for you" Seeing Li Qiye, Elder Yun could be said to be very courteous, and he told Li Qiye.

Elder Yun was the Nine Saint Demon Gate's First Elder. That year, when Li Qiye went to the Nine Saint Demon Gate, he was the one who was kicked flying away by the stone statue.

Elder Yun, as the Nine Saint Demon Gate's First Elder, was a Seven Celestial Enlightened Being, and he could even push the limit to become an Eight Celestial Enlightened Being. He had a very high ranking regardless of whether he was in the Nine Saint Demon Gate or Old Ox Country; he was a prominent character.

But today, this Elder Yun of the Seven Celestial Enlightened Being level was very respectful and polite towards Li Qiye.

Elder Yun handed a Universal Pouch to Li Qiye. After opening it and finding that all of the items wanted by him were there and nothing was short, Li Qiye couldn't help but praise: "The Nine Saint Demon Gate's strength is indeed not ordinary; you are even able to find such rare medicinal herbs."

Elder Yun busily smiled. The truth was that in order to obtain these medicinal herbs, the Nine Saint Demon Gate had to expend an abnormal sum.

"Hmph, you're only a little brat. What outstanding virtues does he have to be worshiped like this by the Nine Saint Demon Gate!" At this time, a very raspy voice sounded along with the footsteps of one man followed by a young man.

Li Qiye looked up and saw that it was an old man who wore treasure-like clothing that had a mysterious crown along with a blood energy that resembled a rainbow. One step forward was accompanied by continuous thunders like the moving of mountains. He — step-by-step — moved forward and the grand earth gave way, giving the feeling that each of his steps was traversing an entire world. This old man's entire body was exerting and devouring refined energy, and faintly, there were eight stars floating up and down around him.

The young man behind the old man was Leng Chengfeng. At this moment, Leng Chengfeng seemed deferential.

Seeing the old man coming in, Elder Yun changed his expression and even Li Shuangyan, standing next to Li Qiye, sank her expression.

"Uncle Lei, you came as well?" Elder Yun quickly went forward to greet. He didn't think that a Supreme Elder of the Sect would also come as well. At the same time, he could smell a whiff of unfortunate information.

Lei She was one of the few Supreme Elders of the Nine Saint Demon Gate, a very heaven-defying Ancient Saint. To the current world that had experienced the Difficult Dao Era, an Ancient Saint was very unfathomable. They were able to create clouds with one swing of the hand and start the rain with one turn of the palm!

"This is related to the rise and fall of my Nine Saint Demon Gate, how could I not come here personally? Hmph, if such a grand matter was lost in the hands of a little child, where will my Nine Saint Demon Gate's face be placed at!?" The old man coldly spoke. From beginning to end, he didn't glance at Li Qiye once. In his eyes, Li Qiye... A junior of this level was not enough to reach the apex. When seeing him, Li Qiye must be respectful.

Elder Yun did not know what to say. As the first elder of the Nine Saint Demon Gate, he naturally knew one of the reasons clearly. Lei She was not only a Supreme Elder, but also the grandmaster of Leng Chengfeng.

Demon King Lun Ri was fond of Li Qiye, and he even left Li Shuangyan to stay by Li Qiye's side. This was opposed by a few elders of the Nine Saint Demon Gate, especially the first branch of Supreme Elder Lei She.

Lei She had wanted for Leng Chengfeng to marry Li Shuangyan, and he even proposed this marriage to Demon King Lun Ri! In Lei She's view, Leng Chengfeng was the oldest brother of the Nine Saint Demon

Gate, and he was also the favorite successor of his. And Li Shuangyan was a genius disciple and the future successor of the Nine Saint Demon Gate. The two of them becoming dao companions — nothing could be better.

However, Lei She's marriage proposal was refused on the spot by Demon King Lun Ri, and Li Shuangyan herself did not agree to this marriage.

Later, Demon King Lun Ri then wanted to leave Li Shuangyan at the Cleansing Incense Ancient Sect. How could Lei She not be strongly opposed to this matter? It was even more needless to say that he did not view Li Qiye favorably.

Lei She was identified as a Supreme Elder and an Ancient Saint. It could be said that he considered himself to be high, high above, and he essentially didn't place a junior like Li Qiye in his eyes. He didn't glimpse at Li Qiye at all from start to finish.

However, Li Qiye was even more unbridled and didn't even lift up his eyelids at all. He was too lazy to even give Lei She a glance!

### **Chapter 169 : Ancient Street (1)**

Seeing Li Qiye sitting calmly on the chair, Lei She's expression couldn't help but become cold. While looking down on Li Qiye, he chillingly said: "His Majesty is becoming more careless. Such a great matter, yet he left it to a junior not knowing the immensity of the heaven and earth in charge! Only a declining Cleansing Incense Ancient Sect, what kind of power would a junior have to change the tides..."

At this moment, Li Qiye finally batted his eyelids and slowly said: "Who do you think you are, anyway? Running up in front of me and pointing your finger. If you are not convinced, then go talk to the old men of the War God Temple and accept this deal. I, your uncle, will not grab this deal from you. If you don't have the ability to accept the deal, then don't be clowning around in front of your uncle! If you don't have this ability, then quickly scam for your uncle!" [1. Not quite your uncle here, but it fits. The term is more of a self-referent of an arrogant master to show disdain towards whoever the person is speaking to]

"Ignorant junior..." Li Qiye's words immediately made Lei She's expression to be extremely difficult to look at; he had angry eyes and was overflowing with Saint power. His eyes shot out a cold flash with a devouring momentum that aimed for people.

This truly frightened Elder Yun, and he quickly tried to mediate. He pulled back Lei She, who wanted to explode, and said: "Uncle, you are a benevolent great character. Young Noble Li is a red-blooded young man, and he speaks rashly..."

"Elder Yun, what is a red-blooded young man, hmph! Only a small character from the Cleansing Incense Ancient Sect, yet he still dares to open his mouth and shame a Supreme Elder of our Nine Saint Demon Gate. This is not holding our Nine Saint Demon Gate in his eyes..." Leng Chengfeng coldly said while standing to the side.

He was instigating a conflict. With his grandmaster as his backing, Leng Chengfeng had more confidence while speaking to Elder Yun.

“What the hell are you!” Li Qiye interrupted Leng Chengfeng and coldly glared at him as he said: “If you are not satisfied, then go talk to Demon King Lun Ri. Don’t be farting in front of me! Right now, your Nine Saint Demon Gate is asking me a for a favor, it is not I, your grandfather, wanting to suck up to your stinky feet! Someone without the qualifications to speak, get the hell out to the side for me!”

“This little child doesn’t know life from death!” Lei She, with fierce eyes, took a step forward and a murderous intention suddenly flew out. Then, he coldly said: “Daring to speak arrogant words... Today, I will teach you a good lesson in place of the Cleansing Incense Ancient Sect!”

Li Qiye sat in his place and slowly replied: “Teach me? Only with you? Are you capable of this?”

“Little Demon...” These words enraged the shivering Lei She as his outrage reached the heavens. Finished speaking, his hand immediately reached for Li Qiye. With five fingers like mountains, they suddenly entrapped Li Qiye inside.

“Little Brother Lei...” At this time, a thunderous voice rang and a person took a step forward with his True Dragon-like arm sweeping horizontally to suddenly grab Lei She’s hand.

“Little Brother Lei, this matter ends here. This person is a guest!” The old man whom had just arrived said in a deep tone while holding Lei She’s hand.

This newly arrived old man had a tall and strong body that was surging with Saint power. Without a doubt, this was an Ancient Saint! His hair was crimson like fire and he had two dragon horns on his head.

Seeing this red-haired old man, Elder Yun became happy and immediately said the word, master.

“So Older Brother Chi Yun also left your isolation.” Seeing the red-haired old man, Lei She withdrew his hand and coldly snorted.

It turned out that this old man in front of them was also one of the four Supreme Elders of the Nine Saint Demon Gate. The master of Elder Yun — Chi Yun! He was a draconic serpent that succeeded in the dao and had lived past many long moons.

“The matter here is too important and His Majesty is meeting the elders of the War God Temple. Thus, I can only personally come here myself. I didn’t think Little Brother Lei would also come. I heard recently that Little Brother Lei was leisurely traveling, but you also came to Ancient Sky City.” Supreme Elder Chi Yun slowly said.

There was some smell of gunpowder between the two brothers. Lei She only coldly snorted and didn’t say anything else.

“I don’t have any business here, you two can take your time to catch up.” Li Qiye didn’t have any interest in the brothers’ quarrel, so he carefully put away his Universe Pouch and turned around to leave.

“Young Noble Li, our hosting is insufficient, please forgive us.” Elder Chi Yun, on the contrary, was trying to win over Li Qiye.

As for Lei She, he didn’t like Li Qiye and hated that he couldn’t make a move to teach this brat a lesson about the immensity of the heaven and earth! However, due to the presence of Chi Yun, it was inconvenient to make a move.

“Shuangyan, you are the descendant of the Nine Saint Demon Gate, a genius of the Nine Saint Demon Gate, and also trained by the Nine Saint Demon Gate. Instead of putting effort in cultivation, you are wasting the days in a third-rate sect — this is you destroying your future.” Lei She’s heart was boiling with anger, and he couldn’t help but to coldly scold Li Shuangyan who was his junior.

Li Shuangyan originally was leaving with Li Qiye, but hearing this, she did not become angry. She only quietly said: “A grand matter like this was from the ancestral teaching, and it was especially decided by Elder Jian. If Elder Lei has any questions about this matter, you can bring it up with Elder Jian. Shuangyan is only a junior, Elder Lei has no need to speak with me.” Li Shuangyan replied in an appropriate manner towards Supreme Elder Lei She.

Li Shuangyan’s retort left Lei She’s expression to be uglier, and he heavily grunted. The unbearable anger in his heart ignited even more, but he could only hold it inside.

The Elder Jian mentioned by Li Shuangyan was another Supreme Elder of the Nine Saint Demon Gate — Jian Chen. Even though Jian Chen was one of the four Supreme Elders, his status was far above the other three Supreme Elders, and his cultivation was even more unfathomable!

Eventually, Lei She suppressed his burning anger and watched Li Qiye strutting away.

After returning to their place, Li Shuangyan reminded Li Qiye: “Be careful of Elder Lei, he is your biggest opposition in the Nine Saint Demon Gate. His Lei She’s first branch isn’t going to easily live with this!”

“He’s only an Ancient Saint. If he is not convinced, he can come and bite me ah.” Li Qiye nonchalantly said.

Li Shuangyan softly sighed and still continued to persuade with earnest and well-meaning advice: “It is easy to dodge the spear in the open, but hard to avoid an arrow in the dark. I heard that recently, Elder Lei She’s first branch had been very close with the Azure Mysterious Ancient Kingdom. My master over there sent news that, not long ago, Older Brother Leng took a trip to the Azure Mysterious Ancient Kingdom and Elder Lei even had the intention of letting him join the Ancient Kingdom.”

“I didn’t think that your Nine Saint Demon Gate’s disciples could also join another sect.” Li Qiye couldn’t help but to take another glance at Li Shuangyan.

Li Shuangyan replied: “This type of matter is dependent on the situation. If the two countries were in an alliance, experts in my sect could become an ambassador and accept the title bestowment from the Royal Expert of the other country to become a Royal Noble. This sort of thing happened throughout the history of the Nine Saint Demon Gate. If the circumstances permits it, then the Cleansing Incense Ancient Sect disciples can also join other sects.”

“Looking for more powerful allies.” Li Qiye smiled and understood the policy of the Nine Saint Demon Gate.

“Sometimes, this is a matter with no other choice.” Here, Li Shuangyan looked at Li Qiye and continued: “After the Cleansing Incense Ancient Sect’s decline, as the most staunch ally of the sect, our Nine Saint Demon Gate also suffered a great impact. Without powerful allies, our Nine Saint Demon Gate would have found it difficult to stand. This was why, should the situation permit and both sides have an agreement, the geniuses of our sect can also join a different sect.”

“Such as the War God Temple!” Li Qiye slightly nodded while understanding the interests hidden within. The Nine Saint Demon Gate was indeed powerful, but, like the Azure Mysterious Ancient Kingdom and certain Immortal Emperor’s lineages, they were stronger than the Nine Saint Demon Gate.

Li Shuangyan nodded her head in agreement: “My Nine Saint Demon Gate did have some of our most outstanding geniuses join the War God Temple in the end. This is also one of the reasons why the War God Temple strongly supports our Nine Saint Demon Gate.”

Li Qiye did not find this matter strange. In many grand sects and powerful nations, ancient factions and sacred schools, even Immortal Emperor’s lineages all exchanged their disciples or brought their best disciples with the highest aptitudes to a more powerful sect. Such things belonged to the exchange of interests amongst allies!

Li Qiye only smiled regarding this matter. This was an internal affair of the Nine Saint Demon Gate, and he did not bother to ask more.

“No matter what, the first branch of Elder Lei She still wants to rise using the Azure Mysterious Ancient Kingdom, especially Older Brother Leng. When he couldn’t become the inheritor of the Nine Saint Demon Gate, he became even closer to the Azure Mysterious Ancient Kingdom. Elder Lei is not a simple Ancient Saint like he seems; he is an Eight Celestial Ancient Saint, and some people even speculated that he has the chance to break through to the Ninth Celestial. You are better off being cautious of him.” Li Shuangyan earnestly reminded Li Qiye.

The Enlightened Being realm goes up to the Seventh Celestial. Each level was One Celestial. A Seven Celestial Enlightened Being was the highest level of the Enlightened Being. A grand completion Seven Celestial Enlightened Being would step into the Ancient Saint realm.

However, there were always cultivators more talented than others. They could exceed the Seventh Celestial limit to form the Eighth Celestial, or even the Ninth Celestial! Eight Celestial Enlightened Beings were heaven-defying existences while Nine Celestial Enlightened Beings reached the true limit and broke through the chains of the dao. They were even more unfathomable because the Ninth Celestial title was eternal! Once one achieves the Nine Celestial Enlightened Being realm, this title would follow one throughout their entire life! From the ancient past till now, not many cultivators achieved the Nine Celestial title.

Regarding Li Shuangyan’s earnest reminder, Li Qiye couldn’t help but laugh. He slowly looked at Li Shuangyan for a little bit and slowly smiled before he said: “Little Shuangyan, you are my maid, not my babysitter. You don’t need to be so attentive like this.”

“You go to hell a...” Li Shuangyan’s face turned red by his words, and she gritted her teeth from anger. No longer caring about the image of a lady, she rudely kicked forward.

“It is only a joke, do you need to be so excited?” Li Qiye slid over and smilingly said.

Li Shuangyan’s soft chest swayed up and down from anger as her face blushed. This youthful girly attitude like a liberating colorful peach plum was movingly beautiful. She angrily glared at Li Qiye, and she was clearly older than Li Qiye by a lot. Yet, she was called “Little Shuangyan” by this little kid in front of her, how could she not tremble with anger?

“Be cautious, anger is bad for your health.” Li Qiye smiled and turned around to leave: “I will be refining a dan cauldron, don’t bother me.”

Li Qiye left, leaving behind the angry Li Shuangyan. After a long while, Li Shuangyan quelled the anger in her heart and thought about Li Qiye’s arrogance. She didn’t know whether to laugh or cry and, ultimately, she had to let out a smile.

In the room, Li Qiye took out the Wan Heavenly Cauldron and fueled the fire. The flames turned into individual medicinal cauldrons and Li Qiye threw the spirit medicines that were well prepared by the Nine Saint Demon Gate — one by one — into the cauldrons.

## **Chapter 170 : Ancient Street (2)**

Each step, Li Qiye held his breath with extreme caution. He was refining a batch of mysterious dan cauldrons; even a minor effort would ruin his entire cauldron of medicinal dan.

Of course, he was refining mysterious dan. Only, he had the dan recipe, and this cauldron of mysterious dan was a preparation to enter the Heavenly Ancient Corpse Burial Ground.

The Alchemy God’s Grand Canon had more written down than just the Dao of Dan, it also had a large amount of precious dan recipes. Outside of the countless dan recipes created by the Dark Crow and the Alchemy God, there were also some ancient dan recipes. They were so old that they were impossible to be tracked back through time, and some dan recipes were even from the Legendary Era!

In order to obtain these peerlessly supreme dan recipes, he — along with the Alchemy God that year — traveled throughout the nine heavens and ten earths and expended countless amounts of effort!

Li Qiye took ten whole days in order to refine this cauldron. Li Shuangyan did not know what medicines he was refining, but she still uncomplainingly kept guard for Li Qiye all the way until his dan was successfully formed.

“Good, the first step is finally done.” Li Qiye withdrew his dan and smilingly said to Li Shuangyan: “Now, I have to calculate which Earth Immortal to begin with in order to trick them!”

Li Shuangyan couldn’t help but to glare at him. She was always as cold as ice so her little girl’s expression truly had a different flavor. In reality, she did not personally agree with him taking such a risk. To fool an Earth Immortal? One could only imagine how dangerous this would be!

“You can calculate everything with your fingers. Rather than fooling Earth Immortals, why not go for a walk at the Ancient Street? Maybe you will be able to pick up something good!” Li Shuangyan said.

“The Ancient Street opened?” Hearing this, Li Qiye felt surprised and asked.

“It has been open for several days now. The group of Nan Huairan all slipped out one day, and even Older Brother Tu went once. However, they came back home empty-handed.” Li Shuangyan said.

“Come, we will go check out the Ancient Street. Call Chen Baojiao as well to see if we can pick up some treasures for you two.” Hearing this news, Li Qiye was excited and told Li Shuangyan.

Chen Baojiao was practicing harshly and was happy to hear the news. Recently, she was only focusing on cultivation. Now was the chance for her to go outside and get some fresh air!

“Buying treasures at the Ancient Street... Do we have enough money?” Chen Baojiao had an idea, but she still couldn’t help but to ask first.

Although Chen Baojiao had some savings, but to buy one treasure, it could be a price as high as the sky! This wasn’t something that she could afford. In reality, Chen Baojiao also knew that Li Qiye was a young master, but he didn’t have much money. To be more frank, this brat was poor with empty hands; it was not even comparable to her savings.

“You can be at ease. Even if I, this Young Noble, doesn’t have any money, your Big Sister Shuangyan has a lot of money. To take a step back and speak, even if Shuangyan doesn’t have enough money, with the Nine Saint Demon Gate paying for us, what are you afraid of?” Li Qiye calmly said.

Li Qiye’s words were actually the truth. Li Shuangyan was the descendant of the Nine Saint Demon Gate. She had a monstrous amount of Refined Jade. Compared to a young master like him, Li Shuangyan was a genuine wealthy woman.

Li Qiye speaking like this left Li Shuangyan angrily glaring at him, and she said: “Spending a woman’s money, how can you say so!”

Li Qiye was unperturbed and slowly replied: “Why can’t I say so? As my maid, even you are mine, let alone your wealth.”

“You...” Li Shuangyan’s cheeks flushed red and became hot while angrily glaring at Li Qiye!

Meanwhile, Chen Baojiao was pursing up her lovable lips. With her elegant and charming eyes along with an alluring style, it was enough for others to become crazy and lose their souls.

In the end, the master and servant group of Li Qiye left for the Ancient Street, and the old servant of Chen Baojiao, Shi Gandang, also appeared out of nowhere and followed them in a silent and transparent manner for protection.

The Ancient Street was located inside Ancient Sky City. Rather than an ancient street, it was more appropriate to call it an ancient pavilion. This was an ancient pavilion with hallways surrounded by water along with scattered stone mountains and lakes with very wide areas.

The Ancient Street had always existed, and no one knew when it was created, or by whom. In short, from the impressions of everyone since the ancient past, the Ancient Street was always there.

And, the Ancient Street at certain intervals would automatically open for some time. This attracted the big characters from the sects to come here to trade. One could say that the ones able to buy treasures at the Ancient Street all had great origins. If they were part of a heaven-defying generation, then they were the tyrants of one direction.

Of course, only the ones with pockets full of money and treasures would dare to come to the Ancient Street to buy items. Otherwise, even if they entered the Ancient Street, they could only watch the treasures while sighing in lamentation.

Even though there were many crooks and little merchants in Ancient Sky City, neither of these types of people were willing to come to a place like the Ancient Street.

They were very clear that everyone who came to the Ancient Street were either from a grand sect or a ruler of one direction. These types of people had eyes as bright as the torches, and the bargain items of the crooks would not enter the eyes of these people. Fooling these types of characters were seeking their own deaths.

Before the group of Li Qiye arrived, the Ancient Street was already very crowded and bustling with people that were busily entering and leaving. There were Royal Nobles, Enlightened Beings, and even Ancient Saints walking about, not to mention the descendants and disciples of the grand sects and countries.

Inside the Ancient Street, countless Saint Childs and Princesses, Princes and members of royalty were entering. These people were of a generation that threw money around like trash. They all wanted to buy their favorite treasures from the Ancient Street.

Meanwhile, there were also a few cultivators of the previous generation that went to the Ancient Street to dig out treasures. They wanted to buy precious and mysterious treasures at a low price. Of course, the ones who dared to come and dig treasures all had some skills.

Amongst the very bustling ancient streets, not to mention the older generations that came to dig treasures and show off their own, but many younger cultivators also came here to participate in the fun as well as to dig treasures along with other purposes...

It could be said that the Ancient Street was full of hidden dragons and crouching tigers, and it was an area where young geniuses were congregating. Countless geniuses wanted to visit this street to make friends amongst the prowling wolves and hissing tigers while vying for special attention.

The Saint Childs and Princesses were even more unique with extravagant showings so that others would become amazed and fearful.

“This is Princess Xiu Se of the Refined Cloud Country, ah. She could be said to be the number one beauty of the Grand Middle Territory — supremely peerless.” At this moment, an imperial phoenix carriage arrived at the Ancient Street, so a cultivator said in astonishment.

One could see a phoenix imperial carriage pulled by a Heavenly Rainbow Swan. When its wings opened, they were large enough to cover the empty sky. The imperial phoenix carriage was made from godly ore. There was an exceptional beauty on top of the carriage. With her body encompassing all the beauty of the southern country like a lustering aqua pearl or the blooming Ling Mountain flowers, her stature was enveloped by the essence of the heaven and earth and encompassed the majestic beauty of the mountains and rivers.

There was another young man surrounded by three to five Royal Nobles. It was like all the stars cupping themselves around the moon. They were traveling with a treasure boat instead of walking. Their rolling presence captured cultivators’ attention and fingers: “Isn’t that the Saint Child from the Strange Mountain Sacred Ground? I heard that he became sworn brothers with Dao Child Shengtian.”

There were also geniuses of the younger generation walking alone as well. However, illustrious individuals would always be illustrious as dragons and phoenixes amongst men. No matter where they went, they would attract attention, like Jewel Pillar Saint Child. When he stepped into the Ancient Street, many cultivators were alarmed.

Jewel Pillar Saint Child's body was like a godly mountain. Even as he was traveling alone, always low-key, his humility was not enough to hide the aura of his grand completion King Physique; he appeared to be a crane amongst a flock of chicken. Some female cultivators were in admiration because of this, and they lively exclaimed: "Even if Saint Child is keeping a low profile, he is still a giant amongst men; he's watched over by everyone no matter where he goes!"

There were some others stepping into the Ancient Street, making others take a step back and retreat. There was a woman stepping into the Ancient Street, around the age of twenty and dressed in black, while carrying a black sword that was filled with murderous intent!

With an elegant and well-rounded body, this woman's figure was peachly tall. Her black robe outlined the tempting and plump curves on her body as she walked solitarily forward in a strong and beautiful manner! However, her embracing the black sword while treading forward had the image of an unsheathed godly sword that was filled with murderous intent. This was not a cold murderous air, but a heartless murderous intent!

"Descendant of the Divine Sword Sacred Ground..." Seeing this woman, no matter who it was, they had to retreat with chilling hearts. No cultivators dared to get close let alone go to have a chat!

The younger generation was taking the lead by visiting the Ancient Street, but at the same time, there were great characters of the previous generations as well. With some existences greater than even Ancient Saints, it caused others to lose their colors after hearing their names!

The bustling Ancient Street had many cultivators here to trade, but there was a difference between this place and the small merchants on the streets of Ancient Sky City. Even though the Ancient Street was very busy, very few sellers were shouting and advertising their own merchandise. In the end, all of the items that could be sold here were all good stuff, and there was no need for the sellers to yell.

Although many young cultivators were selling treasures, there were more older cultivators in the Ancient Street taking out their treasures next to the street without saying anything; they were just sitting there. They sat cross-legged in their places. There were also some with a sign in front of them, mentioning what they wished to sell and buy!

Every seller was different. Some people wanted to trade items for items, and some wanted to trade with Refined Jades. There were also others trading medicinal pills in exchange for mysterious treasures...

Li Qiye stepped into the Ancient Street, and it started many waves. Li Qiye had an ordinary appearance and did not attract attention, but Li Shuangyan and Chen Baojiao — by his side — were different. One was a supreme beauty with a cold-as-ice countenance while the other was a country toppling peerless temptress. With two beauties as companions, no matter where they went, it would always garner the eyes of others.

"Isn't that Goddess Li with Princess Chen?" The two women walking together attracted a lot of astonishment.

Suddenly, countless gazes that were able to kill people were aimed and casted towards Li Qiye. An ordinary and common little brat yet had two supernatural beauties as friends... Plus, they were the heaven's proud daughters renowned throughout the Grand Middle Territory. Such luck with beautiful women, how could other people not be jealous of it!
