

## Dont mess 1091

### Chapter: 1091

Hu Hua, who was silent in the sudden happiness, didn't even notice that someone was coming. He was still talking and laughing with Yu Sheng, treating Yu Sheng as a rich man.

The projects mentioned earlier were all made up by him. The purpose is to deceive Yu Sheng into investing and run away. When Yu Sheng fails to catch him, he will blame all the responsibilities on the Zhang family. This is also the case. You can avenge the Zhang family for beating the two of them.

Their previous purpose felt that deceiving one hundred million would be heavenly, and it was a surprise to think that the rest of his life had a lot of stupid money, and he had to invest five hundred million.

"It turns out that you are here, Hu Hua, and you made me find it so bitter!" Brother Tiger said faintly, with no emotions or sorrows on his expression.

When Hu Hua heard this familiar voice, when he looked back at Brother Tiger, he kept blinking at him, beckoning him not to reveal what the two of them knew.

Brother Hu came to Hu Hua's side without saying a word, and slapped him fiercely in the face, before he stopped after slamming his anger three times.

He was slapped twice by Du Fei before! It's all caused by this Huhua, so I must fight back!

Hu Hua's teeth were knocked out a lot, and his face was red and swollen. He didn't know why. The man in front of him was his former friend. Even if he couldn't see him, he would often contact him on the phone. Why? Don't recognize people just like that?

Even so Hu Hua didn't dare to question Brother Tiger face to face, after all, he just told Yu Sheng that he didn't know Brother Tiger.

"Big...Big brother, what are you doing? I didn't offend you again, why did you hit me?" Hu Hua asked, looking at Brother Tiger with a dazed expression, his eyes full of puzzlement.

"Pretend you didn't know me? I was offended by playing Lao Tzu before. Brother Fei almost lost his life. I killed you today!" Brother Tiger said and kicked Hu Hua's stomach again.

"If you have any personal grievances between you, it's a good deal to change a place. This is the place where Sihai Group is not your troublemaker!" Yu Sheng said indifferently.

"Okay Dong Dong, this will definitely not affect your company." Brother Hu nodded and bowed to Yu Sheng, then pulled Hu Hua to leave.

Hu Hua immediately panicked when he was dragged away by Brother Tiger. They were talking about business! And Yu Sheng plans to invest 5 billion in him. What if he leaves Yu Sheng and regrets it?

"Yu Dong, how did you give me the five billion dollars before?" Hu Hua was not aware of his own crisis, and asked Yu Sheng for money brazenly.

Yu Sheng turned his head and curled his lips and smiled, and said, "Don't worry, if the five billion is given to you, it will definitely be given to you."

The big boss of a company promised this, and Hu Hua had no reason to disbelieve it, and then he was dragged out by Brother Tiger's subordinates.

"Brother Tiger, what's the matter with you? What did you say about Du Fei before? And why did you beat me? Still struck so hard, almost killed by you." Hu Hua clutched his face, and said with some complaints. .

Hu Hua just came to Qiancheng and didn't know Du Fei's status in Qiancheng.

"One is the big boss of the Four Seas Group. The other brother is Du Fei, the king of underground forces. Didn't you ask me to fight for the rest of my life just to kill me? I will kill you first today!" Brother Tiger

gave himself that fifty or sixty. Brother Brother gave a look.

A group of people punched and kicked Hu Hua surrounded by them and didn't intend to keep their hands. As they watched, Hu Zhiwen shivered and did not dare to go up and stop him.

"Boss, Boss, I'm so angry!" One of Brother Tiger's men whispered to Brother Tiger.

Brother Hu coldly glanced at the corpse lying on the ground, quenched his mouth and spit, waved to the brothers and then the group left.

Hu Zhiwen dared to go over only when he saw people leaving. When he found out that Hu Hua was dead, he was shocked, like a child who had lost his backbone.

Over the years, he has been raised by Hu Hua as a giant baby, and still cannot live by himself at the age of twenty-eight.

Hu Zhiwen was crying and crying on Hu Hua's body.

And all this has been witnessed by the rest of his life standing in front of the French windows of the Sihai Group. The wicked have their own wicked, and there are some things that do not need him to solve.

"Xia Jun, buy the five billion yuan banknotes of Tiandi Bank and burn it!"

Xia Jun didn't know why Yu Sheng ordered himself to do such a strange thing, but he still obediently did it.

The office door was closed, Yu Sheng took out the cigarette case from his pocket, took out a cigarette, and started smoking. Looking at the smoke spit out in front of him, Yu Sheng sighed silently.

It's time to go to Beijing to rescue my father from the prison!

## **Chapter: 1092**

I did not bring Xiaoshui for the rest of my trip this time. After all, this time it was not a trip to Beijing, and the risk of saving people was very high, so I did not intend to put Xiaoshui in any danger.

When I left, Yu Sheng also felt that Xiao Shui didn't like Xu Qianqian very much. Although Xu Qianqian's temperament changed greatly after he came back, Xiao Shui was very good, but the rest of his life was still uneasy, so Du Fei was asked to take care of Xiao Shui.

For the rest of his life, he tested his current strength, and with the help of Zhu Jidan, he has indeed successfully reached the level of the Grand Master, but it is only the primary level of the Grand Master. Because the strength is not improved step by step by one's own cultivation, but piled up with pills, so Yu Sheng still lacks the ability to control himself.

But Yu Sheng was not an ordinary person, and the internal power he cultivated was beyond the reach of ordinary people, so he dared to try.

Taking the private plane arranged by Xia Jun in advance, Yu Fei arrived on the island where the Doomsday Prison in the center of Bohai Sea was located. As soon as he landed for the rest of his life, he felt that this tunnel was unusual.

"I want to see Yu Zhongtian!" Yu Sheng said to the manager of the jail.

When Yu Sheng saw his name, Yu Zhongtian, his heart was complicated. His father had been imprisoned in this hell-like place for so many years. Before, because his own strength was too weak, he finally has enough strength to challenge this. Place.

The manager of the prison took a look and asked, "Yu Zhongtian on the eighteenth floor?"

"Well, I want to see him, I want to see him now!" Yu Sheng said word by word, suppressing the urgency and excitement in his heart.

"He belongs to a particularly dangerous person. If you encounter threats during the interview, there will be life-threatening danger if our sky prison personnel do not arrive." The sky prison manager reminded

him.

Yu Zhongtian still ranks among the top dangers in this terrifying place of the doomsday jail. I remember that a woman spent money to see Yu Zhongtian a few years ago. If it weren't for the jailer's staff, even if it were to be torn to pieces, NS.

"I'm going to see him, take me there now!" Yu Sheng increased his tone and said it again. He now desperately wanted to see his father instead of listening to the nonsense of the manager of the prison. "Yu Zhongtian is a more dangerous existence in the jail, if you want to see him, you need to spend 50 million yuan." The manager of the jail said.

For the rest of his life, he took out a card directly from his pocket and handed it to the manager of Tianlao. The manager of the computer took the bank card and confirmed that the amount in it was 50 million yuan. The rest of his life went inside.

The two got on the elevator, and the elevator was going down, only to stop when they reached the eighteenth floor.

As soon as he opened the elevator door for the rest of his life, he felt that the air here was very thin and breathing was a little difficult. He is a great master, even if he stays in an oxygen-free environment for a long time, he can still move normally for the rest of his life.

When entering the cell, Yu Sheng's eyes fell on a man sitting on the ground with his eyes closed. His hair was very long and messy and looked like licorice, scattered around his waist and hanging on the ground. It looked like a savage. No difference.

Even if the unkempt hair makes Yu Sheng unable to see the real appearance of the middle-aged man, Yu Sheng can still be sure that the person in front of him is his father Yu Zhongtian!

All emotions were released in the heart, Yu Sheng stepped forward and knelt down, a line of tears slipped from his cheeks.

It is said that the man has tears and does not flick it, but he has not yet reached the point of sadness. He rarely shed tears for the rest of his life.

"Dad, the unfilial son is here to save you!" Yu Sheng looked at Yu Zhongtian in the prison with red eyes, his voice was choked, but it was more of unquenchable excitement and excitement, and a trace of distress. .

Hearing this voice, Yu Zhongtian sitting cross-legged on the ground, like a statue, suddenly opened his eyes. He had heard this familiar voice countless times in his dreams, but this time it was so real.

"For the rest of your life, you...you are here!"

### **Chapter: 1093**

When Yu Zhongtian moved, the thick iron chain made a rumbling sound. Yu Zhongtian walked quickly to Yu Sheng's side. Yu Zhongtian, dragging the heavy chain, came with ease as if there were no restraints on his body. Arrived in front of Yu Sheng.

He stretched out his bone-like hand to touch Yu Sheng's face. When he felt the touch of the skin on his hand, Yu Zhongtian's face showed a smile.

Ever since Li Hong had come to the prison and said that he would kill the rest of his life, Yu Zhongtian had been worrying about his son every day. After all, the strength of the Li family was too strong to be shaken by the rest of his life.

Now seeing his son alive to see him, Yu Zhongtian is very pleased, fortunately...fortunately, there is nothing wrong.

"Yu Sheng, did your aunt do anything to you? I am trapped in this place and cannot go out. You must be

careful to avoid her, and Li Zhan can reach the Grandmaster Realm. You must be careful!” Zhongtian grabbed Yu Sheng’s hand and reminded with concern.

“Dad, my aunt is dead. As for Li Zhan being killed by me, this time I came to the Doomsday Prison to rescue you from this place.” Yu Sheng grasped Yu Zhongtian’s hand tightly and said very seriously .

Yu Zhongtian was very pleased to hear his son say this, but he knew what the doomsday prison was. None of the people caught in this place have ever left alive, but in the Doomsday Prison there are three middle-term caretakers guarding this place.

Even Yu Zhongtian, a strong man in the middle of the great master, dare not forget to leave this place, not to mention that the doctor is only in his twenties, and even if it is Li Zhanna who has internal strength to kill the grandmaster, it will not help at all.

Patting Yu Sheng’s hand, Yu Zhongtian pulled a bitter smile on his face: “I’m afraid I can’t get out of this place. You said you killed Li Zhan? Is it difficult for you to reach the Grandmaster Realm?”

At the age of more than 20 years old, I have already reached the realm of masters. Perhaps I am waiting for you for 20 to 30 years, waiting for you to cultivate to the realm of great masters, maybe we father and son can leave this place together! ”

Yu Zhongtian himself reached the realm of great master when he was in his forties. Even so, he is also a talented person of the same age. Therefore, Yu Zhongtian believes that Yu Zhongtian can reach the realm of great master at the age of 40 or 50. It’s already pretty good.

Great masters don’t mean that every cultivator can reach the realm through painstaking cultivation. It is already rare for ten of 10,000 masters in the realm of grandmasters to be able to cultivate to the realm of great masters.

“Dad, I have the strength of a great master now. I don’t need to wait for decades. Son, I will save you. I will never let you suffer in this place again.” Yu Sheng said.

“What, you are already a great master?” Even Yu Zhongtian, a well-known powerhouse, was shocked by Yu Sheng’s words with such a large tolerance in his heart.

The rest of his life is only in his twenties. Even if he reaches a great master in his twenties, it is impossible to have such a geek in that place, right?

In Yu Zhongtian’s impression, Yu Sheng lived a life of ordinary people and had no exposure to martial arts, which means that Yu Sheng had cultivated his internal strength in just a few years to reach the realm of a great master.

“Good! Good! Good!” Yu Zhongtian patted Yu Sheng’s shoulder heavily, the joy in his heart has been expressed in words, but he said three good words in a row.

The father and son will no longer be wasting time. After all, the time to visit the prison is still limited. When the time comes, it will be difficult to handle the prison manager.

Taking advantage of the crowdedness, Yu Sheng slammed open the iron gate with the thickness of his wrist, walked into the cell and began to study the iron chain weighing a thousand catties in Yu Zhongtian’s hand.

“This is the mysterious iron outside the sky. All the dangerous prisoners in the doomsday jail use this binding bracelet. I have used many methods and there is no way to open it, and the other side of it is connected to the electric switch of the sky jail. The attack will power up immediately.

More than 20,000 sheets of electricity are enough to turn an ordinary person into ashes. “

**Chapter: 1094**

To save his father away, he had to break the chains made of Tianwai Xuan iron bound to his legs and feet.

But how can the chain be broken without letting it be attacked? This problem has become the most difficult thing now.

Yu Zhongtian looked at Yu Sheng frowned and thought, but still didn't have a clue, he said: "I have been in this place for so many years. I have thought of many ways but none of them are useful. Go!

This iron chain is not the most rare thing. There are three supervisors in the jail. They have all reached the realm of the middle stage of the great master. We can compete with it. In fact, I know that you are safe and sound, and you are so good. Already very contented."

"No, since I have come to this place, I won't leave unless you are saved!" Yu Sheng said categorically. Seeing his son look so serious, Yu Zhongtian knew that he would save himself even if he died. Since nothing more would be useful, he and his son should work together to solve the immediate difficulties. The term "Tianwai Xuan Tie" is not unfamiliar for the rest of your life. The Nine Profound Heaven Scriptures are all-encompassing. It is naturally recorded. It is one of the hardest iron in the world. It is usually used to make weapons and other things. Of course, it is made of Xuan Tie. Weapons can be called magic weapons.

This kind of iron was originally a rare thing, but the people in the doomsday prison used a thousand catties of outer mysterious iron to imprison the prisoner. This kind of large-scale work was shocking even for the rest of his life.

As time passed by, for the rest of his life, he could hear the manager of the jail for tens of meters, standing up from his chair and coming in this direction.

"Dad, I have a solution now, but there is no guarantee of absolute success. You must hold on!" Yu Sheng bit his lower lip and felt extremely nervous, as the sweat on his forehead kept falling.

If he fails, it would be an electric shock of 20,000 magnitude. If he had to bear the motor himself, he might not be as nervous as he is now for the rest of his life.

Yu Zhongtian patted his shoulder and smiled calmly, and said, "You can try it. I'm used to the electric shocks here. Even a few shots can't kill me."

Yu Sheng nodded and didn't hesitate, brewing the internal forces in his body, condensing all the internal forces in his palm, and then Yu Sheng moved towards the iron chain, suddenly a huge golden shadow appeared out of thin air and also moved towards the mysterious iron chain outside the sky. Chopped over.

With a loud bang, the entire cell trembles a few times, and the dust on the roof falls on this, and there is a danger of almost collapsing.

Yu Zhongtian clearly felt the fluctuation of Yu Sheng's internal strength, and he was even more relieved. As far as his chapter, even Yu Zhongtian, a master of mid-term strength of the Great Master, is not very sure to hit such a palm.

Sure enough, the strength of that palm was not at all effective. The iron chain on Yu Zhongtian's right leg was chopped off, and several other iron chains were damaged accordingly.

He didn't cut off all the iron chains at once. For the rest of his life, he saw an electric dragon attacking Yu Zhongtian from the iron chain. He was frightened by the huge electric current.

The powerful electric current envelops Yu Zhongtian. Even if Yu Zhongtian is a powerful person in the Great Master Realm, it will be extremely painful to bear such an attack, and all of his hair will fall off by the electric shock.

Seeing his father endure such pain, he didn't hesitate for the rest of his life, his internal strength really

hurt the iron chain, and he gathered his strength and slashed towards the iron chain.

With a bang, the iron chain was short, and the current in front of Yu Zhongtian disappeared. However, although Yu Zhongtian had not passed out at this time, he was already quite weak.

Since Li Hongsu left last time, he hasn't let it go. He spent several hundred million yuan to increase the electric shock to Yu Zhongtian by the Tianjiao manager.

"Dad, hold on, I will take you out!" Yu Sheng took out a Johnson Pill and put it in Yu Zhongtian's mouth, then lifted him from the ground.

The manager of the jail who brought the doctor before this time also arrived. The manager of the jail that day saw that the iron chain on Yu Zhongtian's bracelet was broken with a shocked expression on his face.

Shocked and shocked, the prison manager directly pressed the red button, and then took his communication settings and said: "Someone wants to rescue Yu Zhongtian from prison, ask for support!"

### **Chapter: 1095**

As soon as his words fell, a man wearing a black robe and unable to see his face suddenly appeared at the exit of the eighteenth floor.

When the manager of the prison saw the black-robed man, all the worried and fearful expressions on his face could not be displayed.

The black-robed man in front of him is Heisha, the second person in charge of the Doomsday Prison. Of course, his strength is needless to say. A young man and Yu Zhongtian, who has just received a huge electric shock and is in a weak state, can never be in his hands. Escaped.

At this time, the rest of his life had just rushed over, and he stopped when he saw a man in black robe standing at the only elevator entrance leading to the ground.

"Yu Zhongtian is a dangerous caretaker in the Doomsday Prison. You can't take him out. If you put him down now, I will let you get out of this island safely, but you will definitely not step into this place in the future. Hei Sha said in a cold voice.

He didn't have any direct action, but gave Yu Sheng a choice. If he insisted on taking Yu Zhongtian out, then don't blame his subordinates for being merciless.

"Thank you, senior, but I must take my father out today!" Yu Sheng's tone had little room for discussion. Yu Sheng's voice just fell, and now the black evil spirit not far away turned into a phantom, rushing towards Yu Sheng at an extremely fast speed.

Seeing this, for the rest of his life, there was a fear of the same, the person who rushed towards him was just a kick, and the shadow stopped and raised his hand to block it.

Both Yu Sheng and Hei Sha are extremely fast. After several fights, Yu Sheng's strength is obviously weaker than that of Hei Sha, but the gap between the two is not big, and it can barely cope with it, but if you want to solve Hei Sha, it is better. It's difficult.

The only good news is that in the course of the battle, Yu Sheng also had a better control of the inside of his current great master.

"It's really surprising that you have reached the realm of a great master at a young age! It is a genius once in a thousand years. If you give you a few more years, I will definitely not be your opponent, but now you come here by yourself. Don't blame me if you're looking for death!" Hei Sha said coldly, a trace of regret flashed in the eyes of Yu Sheng.

Heisha waved a few silver needles on his sleeve and shot them in the direction of Yu Sheng. The light on

the 18th floor below was dim, and ordinary people would never see the tiny silver needles. When Yu Sheng moved his ears, he confirmed the direction of the silver needle shooting. There were six silver needles in total, five of which shot in his direction, and the other shot towards the center of Yu Zhongtian's eyebrows.

His father suffered a severe electric shock, causing him to temporarily lose his fighting ability, and there was no way to avoid a great master's attack.

Yu Sheng's figure easily dodged the silver needle that hit him in this direction, and raised his hand to grab the silver needle that was about to enter Yu Zhongtian's forehead.

If Yu Sheng was slowing down, the silver needle must have been pierced into Yu Zhongtian's head. The moment just now was extremely thrilling.

Yu Sheng was angry and stared at the black-robed man, without a trace of reservation, Yu Sheng's internal power running the whole body attacked the black-robed man.

The two played against each other again, and the speed and response of the rest of their lives were significantly improved this time, and Hei Sha also struggled to deal with it.

Soon Yu Sheng seized an opportunity to hit Hei Sha's chest. With this palm for the rest of his life, he used all his strength to directly blast Hei Sha far away.

The manager of the jail was shocked when he saw Heisha who was vomiting blood from a heavy wound at his feet, he didn't expect a young man to beat Master Heisha.

At this time, Yu Zhongtian, who was sitting cross-legged and closed his eyes, opened his eyes, and the numbness caused by the electric shock to his body after taking the Qiangsheng Pill and his own cultivation base has completely disappeared.

Yu Zhongtian walked in front of Yu Sheng, patted Yu Sheng's shoulder and praised sincerely: "As expected of Yu Zhongtian's son, great!"

It is not a problem for the father and son to join forces to deal with the black evil in the middle of a great master.

At this moment the elevator door suddenly opened, and two middle-aged men walked out of the elevator, one in a white robe and the other in a red robe.

The three adults in the doomsday prison are in the middle stage of the great master, and the three appear to capture Yu Zhongtian at the same time, even if he winged his wings, it will be difficult to escape the doomsday prison!

## **Chapter: 1096**

Although Heisha was seriously injured at this time, it did not mean that he had lost the ability to fight. He stood up from the ground and the three men stood side by side. The three adults of the Doomsday Prison gathered together, and an overwhelming aura spread in an instant.

If ordinary people were here, they would have been scared to the ground by the powerful killing intent on them.

Yu Sheng and Yu Zhongtian and his son both straightened their backs, facing the three adults in the doomsday prison, they had a slight retreat.

At this point, the only way left for the father and son is to rush out, and retreat is a dead end. If you fight to the death, there may be a chance to escape.

"Yu Zhongtian, do you know what you are doing now? The Doomsday Prison has been established for so many years, and there have never been prisoners able to escape from here. You are only asking for your own death by doing this!" Hongpaozhong The young man said coldly to Yu Zhongtian.

The man in the red robe is the strongest person in the doomsday jail, Hong Ling, and the white robe man next to him looks younger and is the third person in charge of the doom jail, Bai Kui. These three are the brothers of a female compatriot. So the cooperation between the three reached a level of horror.

Yu Zhongtian looked up to the sky and laughed, and then looked firmly at the three of them and said: "Then my father and son, I will break one out today. From now on, this doomsday jail will not be the only existence that can't get in!"

There is no way out there, and there is nothing absolute Yu Zhongtian has always refused to accept his life, not to mention his son risked his life here to save himself.

Hong Ling snorted and stopped talking. The three brothers acted at the same time without any language or eye contact, and surrounded the direction where Yu Sheng and Yu Zhongtian were sitting.

It was too late for the rest of his life to disperse, and the father and son stood back to back, guarding against attacks by adults.

Now they still don't understand what strength the other party has, and easy shots will only pull themselves into the abyss and die.

The three adults took turns, and Yu Sheng and Yu Zhongtian could only be forced to defend, but when Hei Sha shot, Yu Sheng felt that the intensity and speed of his attack were relatively slow, and planned to use him as a breakthrough point.

Yu Sheng had just thought of this idea, and the three adults in the Doomsday Prison also had a new countermeasure. Hei Sha attacked with a silver needle from a distance, while Hong Ling and Bai Kui attacked in close combat.

The tacit understanding of the three has reached 100%. Even if the two of them have their backs to Heisha, they know the location of his silver needle firing, so they can deal with Yu Sheng and Yu Zhongtian wholeheartedly.

The rest of his life was originally the strength of the grandmaster's early stage, and it was even more difficult for those who had just arrived in the early stage to be able to support ten moves in the hands of the grandmaster's mid-stage.

But when Yu Sheng played against Heisha before, he was able to easily control his own strength, even if he played against the strongest Hong Ling, Yu Sheng was able to deal with it.

But there was no intention to guard against the silver needle that Heisha struck in his direction.

Shoo!

For the rest of his life, five silver needles didn't hide away, all of them entered his body, thighs, stomach, chest, and even arms.

Even so, Hei Sha's hand movement still didn't stop, Yu Sheng clearly saw that he took out six silver needles, and this time Hei Sha's gaze was locked on by Yu Zhongtian.

With the silver needles in his body, Yu Sheng naturally knew how terrifying they were. Although there was no poison on the silver needles, how could it be so simple to be used as a weapon by a master of the master realm.

The silver needles that pierced Yu Sheng's body were ramming along his veins as if they were alive, and the five silver needles were swimming like fish in the lake if they were scattered.

The silver needle was tugging at the meat, even if the rest of his life was able to bear it, he would be tortured by this kind of pain, and there was no way to resist Hong Ling's offensive.

Hei Sha waved six silver needles and shot it in the direction of Yu Zhongtian, but at this time Yu Zhongtian hadn't noticed that he was still in the fight with Bai Kui.

Facing Hong Ling's palm for the rest of his life, he didn't dodge, and blocked the six silver needles for

him in front of Yu Zhongtian, and then Hong Ling's palm hit him impartially. The chest for the rest of his life.

There was a silver needle in his body, and the full blow of the mid-term Great Master Realm, even if his physical fitness was as strong as the rest of his life, he could not bear it after all.

### **Chapter: 1097**

"Brother, there is no possibility of surviving this kid with the eleven silver needles of mine. Next, I only need to subdue Yu Zhongtian with all my strength!" Hei Sha said.

After hitting his three silver needles, even the life of a great master cannot be guaranteed, let alone planting eleven in a row, and eleven silver needles entering the body will not only cause unprecedented pain to the human body, they will also return to the human body. The position of the heart goes to destruction.

Even if the strength is strong enough to protect the heart, it will be a waste of all previous achievements. Eleven silver needles are enough to pierce the heart of the injured person.

Naturally, Hong Ling and Bai Kui had great trust in Heisha's words. The two of them ignored the beaten and flew out and vomited blood for the rest of their lives, unconscious. The two brothers joined hands to subdue Yu Zhongtian.

"Yu Zhongtian, you no longer have the possibility of escaping. Your son has died for you. Don't be so obsessed with it. If you don't obediently do it, you will be caught!" Hong Ling said to Yu Zhongtian.

"My son is dead?" Yu Zhongtian stared at Yu Sheng who was lying unconscious in the corner of the wall, clenching his fists tightly, his bones creaked because of his force.

Just now his son blocked six silver needles for him and fell to such a fate. It was these three who killed his son in front of him, and now he is told to catch him with his hands. It is absolutely impossible!

The rest of his life is Yu Zhongtian's hope. Yu died to save him. How could he endure the humiliating life in the doomsday.

Yu Zhongtian yelled to the sky, and the bricks in the cell were shaken by his monstrous aura and might collapse.

"Kill my son, even if I die here, I will drag you to my son's funeral!" Yu Zhongtian roared, his coat shattered.

In a frantic state, Yu Zhongtian's strength indirectly increased to twice the usual existence, and he was restrained by the profound iron outside the sky, and he was even more unscrupulous.

Facing Hong Ling and Bai Kui, who were also in the middle stage of the Grandmaster Realm, Yu Zhongtian had nothing to lose. Every punch he threw was with a whistling wind, and the force of the punch was enough to beat people to death.

Facing Yu Zhongtian like this, Hong Ling and Bai Kui were somewhat unable to deal with them, they could only be forced to dodge, while Hei Sha could not join the battle.

He fired eleven silver needles when he was seriously injured. He had exhausted all the internal energy in his body, and he could only watch from the side. Even if Yu Zhongtian's strength skyrocketed when he was mad, the three brothers did not worry at all.

This situation can't be maintained for long. When the internal strength in Yu Zhongtian's body is exhausted, it will be the time for them to fight back.

The three brothers put their minds on Yu Zhongtian, and Yu Sheng was just a dead person in their eyes, but Yu Sheng, who was unconscious in the corner, had undergone a different change.

The piece of snow-white crystal-transparent jade that Yu Sheng carried on his chest was reddened by

the blood that Yu Sheng vomited out, but the blood on the surface of the jade was miraculously absorbed by the jade.

When Ningyu absorbed the blood on the surface, the jade body was not as white as before, but exuded a faint golden light.

For the rest of his life, who had obtained Ningyu before, didn't know that Ningyu still recognized the master, but was satisfied by the benefits it brings.

Ningyu absorbed the blood, which is to completely treat Yu Sheng as his master. The master is now in danger of life, so it will naturally not sit idly by.

### **Chapter: 1098**

Although the rest of his life in a coma lost his awareness of the outside world, he still couldn't escape the pain caused by the silver needle.

Eleven silver needles wandered in his body, and the tips of the needles pierced each of his organs. Yu Sheng's heart, liver, spleen and lungs were riddled with holes by those silver needles, and the intense pain afflicted him almost all of them. Can't hold on.

If it weren't for the New Year to save Yu Zhongtian and support him, perhaps the rest of his life would have been tortured to death in this endless pain.

Suddenly the figure of a small doll appeared in his mind. He couldn't distinguish between men and women by his looks. His whole body was exuding a faint golden light. He was looking at Yu Sheng with his big eyes open and unblinking.

"Master, do you still know me?" Little Wawa also noticed that Yu Sheng was paying attention to him, so she asked in a milky voice.

For a moment, Yu Sheng didn't know why a little doll appeared in his mental mind and called him the master. Yu Sheng wanted to figure out what was going on? But the silver needle of the body is still rampant and random, and the rest of the painful life has no way to think normally.

Little Wawa also noticed Yu Sheng's pain, and made a magic trick in her hand, and then closed her eyes, and the red dots on his forehead emitted golden light and enveloped Yu Sheng's whole body.

What can be seen from the outside world is that the unconscious rest of his life's chest lit up for a while and nothing more.

When the golden light completely wrapped his whole body, Yu Sheng was surprised to find that the eleven silver needles that had rammed in his body before, were turned into stars and disappeared by the golden light.

The golden light that shattered the silver needle did not disappear, and the internal organs pierced by the silver needle before he was treated for the rest of his life.

When I felt this, Yu Sheng was subconsciously happy, and only then took the little baby in front of him as a benefactor.

Thinking of what Yu Sheng asked the little doll with a puzzled look: "Why do you appear in my mind? You just helped me out. By the way, you called my master before. I seem to have never seen you before, right?"

Where is the little doll lying on her face, her fleshy little face is full of entanglements, and she complains: "The master has so many questions, and no one knows which one to answer you first?"

Although he was complaining about Yu Sheng, his body floated on Yu Sheng's shoulders, and put his arms around Yu Sheng and said, "Master, I am Ningyu! I just absorbed your blood, so you will be my master from now on. NS.

The reason why I can appear in your mind, because I am a piece of jade with divine consciousness, coupled with the relationship between our master and servant, of course, can enter your mind. As for why I save you because you are my master Ah!”

Hearing Ningyu’s explanation, Yu Sheng finally understood what was going on. It was indeed a very good thing for Ningyu to recognize the Lord and pulled him back from the ghost gate.

Recalling that he was still in a coma, and his father had to fight against the three powerful masters alone, Yu Sheng was worried that he would not be afraid of any accidents to his father.

“You Yu, you will wake me up quickly, I’m going to save my father, hurry up!!” Yu Sheng yelled at Xiao Ningyu.

Xiao Ningyu was shocked when she saw such anxious anger for the rest of her life, thinking that her master was really terrified.

Complaining and complaining, Xiao Ningyu did not dare to disobey the master’s order, stretched out her fleshy little hand and nodded Yu Sheng’s forehead, instantly golden light shined.

Yu Sheng slowly opened his eyes and looked at Yu Zhongtian, who was about to lose his anger, and filled with worry in his heart.

Without any hesitation, Yu Sheng rushed over and joined the battle...

## **Chapter: 1099**

“You...you...how could it be possible, it’s not absolutely impossible!” Hei Sha stared at the rest of his life running towards the battlefield, as if he was being rushed by 10,000 grass mud horses.

The silver needle he is proud of is that he has been practicing for decades to reach a state of superb quality, and three silver needles can kill a great master in a period of time.

Of course, a strong man who is a great master will have a high agility, and he won’t be so easily caught, otherwise his silver needle would have been invincible, but with Hongling for the rest of his life, he has no chance to hide. He saw a silver needle with his own eyes.

A person can be killed directly by hitting eight silver needles. How could he still be alive for the rest of his life, and the rest of his life now looks like a troubled person.

Hei Sha was shocked by what happened in front of him and stood there blankly. He began to deny his ability, and for a moment he forgot to remind Hong Ling and Bai Kui Yusheng to wake up.

For the rest of his life, he moved quickly, and in the blink of an eye, he came to Hong Ling’s body and patted his head with a palm.

Just as this palm was about to fall on Hong Ling’s head, Hong Ling keenly sensed the internal force contained in the air, and instinctively avoided it.

“Yu Sheng? Aren’t you dead?” Hong Ling was only aware of the dangerous instinct to dodge, and when he saw that the person who attacked him turned out to be Yu Sheng, he was also very surprised.

Yu Sheng didn’t feel discouraged with a palm of his hand. He didn’t expect to be able to easily get rid of Hong Ling as soon as he took the shot. In this way, he would underestimate the masters in the mid-grand master realm.

But it was not useless. The palm of Yu Sheng just interrupted Hong Ling’s offensive against Yu Zhongtian.

Yu Sheng snorted and said, “It’s so easy to want me to die!”

Yu Zhongtian, who was in the middle of the battle, heard this familiar voice, shaking his head and looking towards Yu Sheng in this direction.

When he first saw Yu Sheng was still alive, the ashen-hearted Yu Zhongtian pulled a smile from the corner of his mouth: “I knew it, I knew you kid wouldn’t just die like this.”

After saying this, Yu Zhongtian's aura dissipated extremely quickly, and his internal strength gradually dried up.

It took nearly a quarter of an hour to deal with two masters in the middle stage of the Great Master Realm at the same time, and the consumption of internal strength was very huge, and Yu Zhongtian also had no way to continue fighting.

Yu Zhongtian was not reconciled. His son had just woke up and was facing the offensive of two masters. He still wanted to persist until he was hit by Bai Kui's palm, and he collapsed on the ground and completely lost his fighting ability.

When Yu Sheng saw Bai Kui's hatred of his father's hand, his anger immediately came up. The forbearance that had been studied in the Yang family for so many years all fell apart. Yu Sheng, regardless of the Hong Ling behind him, rushed towards Bai Kui.

Bai Kui's strength is naturally inferior to Hong Ling, but he feels arrogant in his heart that he is also a master in the middle stage of the Great Master Realm, how could he suffer a loss in the hands of someone who has just entered the early stage.

Because of Bai Kui's carelessness, Yu Sheng's fist slammed directly into Bai Kui's face.

With a bang, Yu Sheng directly shot Bai Kui several tens of meters away.

Bai Kui's head was stupefied by Yu Sheng's punch, he obviously avoided it! How could he still hit him for the rest of his life? Can this kind of strength be produced by an early person? monster!

For the rest of his life, he planted a full palm of Hong Ling and still had eleven silver needles. He was still able to display this kind of strength. What is it that is not a monster?

The most important thing is that the young man in front of me seems to be in his twenties! The great master in his twenties is simply unheard of, monsters, these are not things that a single person can do. Bai Kui got up from the ground, his face was smashed by Yu Sheng, and this time he looked at Yu Sheng without a trace of contempt.

"Brother, this young man is extraordinary, let's not give him any chance when we go together!" Bai Kui shouted at Hong Ling in the distance.

## **Chapter: 1100**

Hong Ling nodded, and then the two attacked towards Yu Sheng. This time, both of them were ruthless and no longer intended to give Yu Sheng any chance. They just wanted to quickly solve him.

"Even if you are a genius once in a thousand years, it would be a dead end if you dare to come to the doomsday jail, die!" Hong Ling looked at Yu Sheng with cold eyes as if looking at a corpse, and then he and Bai Kui were no longer there. There will be a trace of mercy from his subordinates.

Bai Kui relied on the extremely fast speed to get from in front of Yu Sheng, a cold light flashed under the sleeves and slashed at Yu Sheng's neck.

Seeing this, Yu Sheng quickly turned his head away. He didn't need the mercy of these people. His only purpose when he came to this place was to save his father. Nothing else was important, even his life! Seeing the tricks, Yu Sheng didn't fall behind even when he faced Bai Kui in the middle stage of the Grandmaster Realm who was even stronger than his own.

What puzzled Yu Sheng was that this Bai Kui, a great master who was good at agility, was now fighting him head-on, but Hong Ling didn't have any hands, but closed his eyes and didn't know what he was doing.

Just seeing Hong Ling look like this, Yu Sheng felt uneasy for fear that some big killer move was waiting

for him, but now he can barely deal with Bai Kui, and doesn't have more time to figure out what Hong Ling's purpose is?

The eyes of this Hong Ling suddenly opened, and a white light flashed in Yu Sheng's heart.

Although Yu Sheng had been fighting against Bai Kui, he also paid attention to Hong Ling. When he saw the white light rushing towards him, he subconsciously pushed back a few steps to avoid the white light's attack.

However, what made him never imagined was that the white light turned a corner, as if it could be tracked, and hit the center of Yu Sheng's brow.

When he saw this scene, Bai Kui stopped his attack on Yu Sheng, a relaxed smile appeared at the corner of his mouth, and even the expression on the face of Hei Sha, who was limp on the ground, relaxed a lot. The white light just now was their elder brother's Hong Ling's big killer move. Not to mention Yu Sheng is just a master at the early stage of the Great Master, even if the person being attacked is the later stage of the Great Master, it will be a dead end after being hit without defense.

A mental attack is an absolute killer move. There is no way to make up for the damage to the brain and spirit after being hit. Even if a person survives by chance, it is still a mentally retarded, and it is not the slightest threat to them.

"The matter has been resolved, take Yu Zhongtian back to the cell, increase the battery, and arrange two more people to watch over the day and night. This kind of thing must never happen again in the future." Hong Ling said to the manager of the jail. .

The rest of his life this time brought a lot of shock to the three adults. If Hongling hadn't practiced a mental attack, perhaps the kid Yu Sheng could really make an exception to rescue people from the doomsday jail.

Just when everyone felt that the dust had settled, Yu Sheng on the side suddenly opened his eyes.

Although a beam of light hit his spiritual world just now, he was swallowed by Xiao Ningyu in one bite, and Yu Sheng didn't figure it out. What the hell is going on.

Looking at the three of them, they all turned their backs to them. It seemed that they didn't take him seriously. They didn't even have a trace of defense. It was a great opportunity for the rest of his life!

Although I don't know why they are doing this, the rest of my life will not let go of this opportunity, find the right time to use the fatal blow that he can strike, and hit this Hong Ling on the back.

boom!

Hong Ling was blasted out with a palm, until he slammed his body heavily on the wall, smashing a large human-shaped pit, and then stopped.

Just now I was still listening to my eldest brother, but people flew out in the next second. Hei Sha and Bai Kui didn't know what was going on, their faces were filled with surprise.

The two turned their heads at the same time. When they saw that the man standing behind them was about to be shocked, they almost felt that they had become an illusion.

"For the rest of your life, you are still alive!"
