

Dont mess 1151

Chapter: 1151

Hearing what the man said, Yu Sheng just remembered why he felt that this name was a bit familiar, because it turned out that the man in front of him was his university classmate Xu Qian.

“Xu Qian, you have changed a lot! I don’t even recognize you.”

When Yu Sheng saw his college classmates, he wanted to be polite, after all, he was now working for him in his company.

In college, there was no intersection between the two people, and they weren’t friends, it was just that they knew each other in the same department.

Xu Qian took the takeaway from Yu Sheng, with a look of contempt on his face, and said disdainfully:

“Speaking of big changes, I don’t think you have changed so much! I didn’t expect you to be so miserable now. Went to deliver food.

Didn’t you work as a security guard for Sihai Group before? how? Did someone fire you?”

Seeing that it was his old classmate who delivered the food to himself for the rest of his life, Xu Qian felt a dark refreshment in his heart, and did not expect to meet him in such a coincidental situation.

Although the two people did not have any intersection when they were in school, Yang Zihuan was the goddess in Xu Qian’s heart and had always been in love with him, but at that time Yang Zihuan was with Yu Sheng, and Xu Qian had no chance to pursue the goddess. Looked silently.

As a result, Xu Qian never participated in the classmate meeting after graduating from university. He just didn’t want to see the picture of Yang Zihuan and Yu Sheng together.

Later, Xu Qian also inquired about Yang Zihuan’s message, and heard that they two got married soon after graduating from university, and that they were still in the Zuoyang family for the rest of their lives. Xu Qian thinks he can’t do this kind of feat. It is one thing to like a goddess, but it is equivalent to taking the initiative to put his dignity on the ground and let others trample it.

Over the years Xu Qian has been paying attention to Yang Zihuan from having a child to divorcing Yu Sheng. After learning that they were divorced, Xu Qian specially invited his friends to dinner to celebrate.

It’s not to continue pursuing Yang Zihuan after the divorce, but to feel that the two of them are unhappy and to part with each other. Xu Qian’s friends have also asked him if he wants to continue pursuing Yang Zihuan?

Xu Qian directly said domineeringly: I have been married and gave birth to a child, and even married a trash. I don’t want such a woman to post me upside down.

Yu Sheng still felt that his old classmates were working in his company, so why should he have a good chat? But all his words meant tit for tat, and for the rest of his life he would never put a hot face on his cold ass.

So he asked coldly: “This doesn’t seem to matter to you, right? How can you be sure that I am a takeaway?”

Xu Qian curled his lips in disdain, thinking that the reason why Yu Sheng said this was because he was trying to save face. He snorted contemptuously and said: “The more useless a man is, the more he likes to fill up a fat man with a big swollen face. , What can someone like you do?”

As Xu Qian specially arranged his suits, he said high up, “I’m not like you. I’m in the wind and rain all day, and I’ll ride an electric bike everywhere in summer. I stay in this office and blow. Don’t say it’s more comfortable with an air conditioner.”

The rest of my life came to the Science and Technology Park here to see what progress has been made recently, rather than listening to Xu Qian's bragging about it.

"The treatment in the Science and Technology Park is pretty good, you work hard, I will leave if I have other things!"

After finally catching the opportunity and crushing the rest of his life, how could he let him go like this?

Xu Qian directly stopped in front of Yu Sheng.

"What are you going to do in a hurry? Hurry to send the next order? I will give you the money that was wrong on the face of your old classmates. Who will let me be generous? I will give you a hundred dollars when I meet a beggar on the street. Yes." Xu Qian said with a smile.

But what he meant in his words was to treat the rest of his life as a beggar everywhere on the side of the road.

Chapter: 1152

Seeing Xu Qian blocking her way, Yu Sheng showed a slight anger on his face. He coldly looked at Xu Qian in front of him and asked, "Why, what are you trying to say?"

"Yo-yo-yo, old classmate, I just want to talk to you, why are you still angry?" Xu Qian saw that Yu Sheng was angry, and became even more impressed. He felt that Yu Sheng felt the difference between the two of them. Annoyed into anger.

Xu Qian pulled a chair and sat down. He wrapped his arms around his shoulders. It was completely like a big boss. He said to Yu Sheng: "It must be very hard to deliver food outside in such a hot weather? Actually, you met me too. Fortunately for you, the science and technology park is a big company! The investment is hundreds of billions. Don't think I am just an ordinary clerk, but I am much better than the supervisors of those small companies.

I said so much, just to give you a chance, why don't you stop doing the job of delivering food? As long as you take care of me, I will tell the manager when the time comes, maybe you can still be a security guard here!"

Xu Qian pretended to cough twice, put the cup on the table, and ordered Yu Sheng: "Pour me a glass of water!"

Yu Sheng just glanced at him faintly, Ru Ru was looking at a clown, and, unreasonably, Xu Qian planned to turn around and leave.

It was still a few steps, and Xu Qian's angry voice came from behind.

"Yu Sheng, what the hell are you pretending to be? Yang Zihuan dumped you directly, and now you are all taken out. You are still so uninterested. You deserve to be good for a lifetime, just a fucking useless." Listening to the scolding behind me for the rest of my life, I only felt bored for a while, and didn't intend to stop arguing with Xu Qian. He really wanted to go to the personnel department to ask how he recruited people? He even recruited such a commodity into the company.

When Xu Qian saw that Yu Sheng still ignored him, he was very angry, but felt that Yu Sheng would not give him face at all, and said that he could not just let him go.

Turning his eyes, Xu Qian thought of an idea, and then shouted to the people in the company: "Come here, catch the thief, this delivery guy actually ran to the company under the flagpole of delivery to steal things. NS!"

Xu Qian's voice attracted the attention of many people in the company, so all the employees looked at Yu Sheng.

The security guard who heard Xu Qian's words directly stopped Zhu Yusheng. After all, stealing things

from the company is absolutely not allowed.

“Why are the current takeaways like this? They really don’t have any moral character, and they can steal things while delivering them. Did they die of poverty in their previous life?”

“You see that he is still wearing a peaked cap. The sneaky look is not a good person! And she doesn’t wear the clothes of a takeaway. Who knows if she came here to steal something?”

“At the age of twenties, can someone with hands and feet earn money? It’s a shame to be caught if you have to steal other people’s things!”

Listening to the comments made by people around Yu Sheng, Xu Qian showed a satisfied smile on his face. This method really worked, and Yu Sheng was so bad that he even dared to ignore him.

Today, he took a look at Yu Sheng, how to defend this time!

It’s best to get him directly into his bureau and let him squat for more than ten days to keep a record.

This is very high, maybe even the takeaway will not be delivered in the future. Think about it, Xu Qian feels that for a while. readily.

Yu Sheng’s eyes slowly became cold, and he didn’t even think that Xu Qian would actually calculate him with this kind of indiscriminate method.

“Xu Qian, for the face of our classmates, I will give you a chance. If you explain this matter honestly, I won’t care about you.” Yu Sheng said coldly.

Chapter: 1153

“Old classmate? Are you the stinky food delivery guy telling me a joke? A stinky food delivery guy is also worthy of my classmate, cut!

He pretended to give me a chance, and when the police arrived, would you see if the police would give you this chance? If you dare to steal things in the science and technology park, you are really bored! “Xu Qian said disdainfully.

The rest of his life was approaching, and I still used this tone to talk to him. It was simply too ignorant.

Today I have to call the police for everything. It is best to let the person in the patrol room shut him down for a year and a half.

“I gave you a chance that you didn’t take it well, so don’t blame me for being impolite!” Yu Sheng’s voice was extremely cold.

He was too kind to Xu Qian, so he arbitrarily framed others for stealing. Doesn’t this amount to directly ruining a person? There is no way to do this kind of behavior!

“How come you take out so many scenes? You dared to steal things in the science and technology park, and now you pretend to know me and make a mistake? You said that I can’t save you.

You’re welcome, I’d like to see how you treat me in an unkind manner? Aren’t you a stinky takeaway?

What else can you give me? “Xu Qian said dismissively.

Although Yu Sheng created the Science Park by himself, he seldom took care of things here, and he also went to give orders to the high-level officials of the Science Park.

The staff on the eighth floor are ordinary staff members who have no chance to be exposed for the rest of their lives.

If he was not the boss of the Science Park for the rest of his life, but just an ordinary food delivery person, he might really be wronged by Xu Qian and sent to the patrol room.

He gave Xu Qian a chance, but he didn’t know how to grasp it, so don’t blame him for being rude.

For the rest of his life, he stopped talking too much nonsense with Xu Qian, and directly took out his mobile phone and dialed a number.

Xu Qian, who has been paying attention to this for the rest of his life, feels funny for a while when he sees that Yu Sheng is actually going to call someone. Yu Sheng is just a messenger takeaway. Is it possible that he knows someone else?

Things that are simply impossible, Xu Qian feels that the rest of his life is just pretending.

"I'm on the eighth floor, and I will give you five minutes to finish the matter at hand, but I am here, otherwise you will stop working in the science and technology park!" After Yu Sheng finished speaking, he switched the phone directly.

Xu Qian curled his lips in disdain, and said with a cold snort: "Yu Sheng, Yang Zihuan followed you because of your bragging ability. You, the stinky food delivery guy, can't call anyone today. Waiting to be sent to the patrol room!"

There is a reason why he targeted Yu Sheng in this way. After Yu Sheng and Yang Zihuan divorced, Xu Qian wanted Yang Zihuan in his heart, so he went to her specially.

At that time, he said that he didn't mind Yang Zihuan's divorce and he was willing to treat her well, but at that time Yang Zihuan was still depressed about the rest of his life as the chairman of Sihai Group, so he directly sent his anger on Xu Qian. Said that he couldn't even match a hair for the rest of his life.

The goddess whom he had been in love with secretly said that it was not as a trash, Xu Qian's hatred for Yu Sheng almost drowned him, so this time it was so true to Yu Sheng.

.....

"This meeting ends here!"

After saying this, General Manager Li hurriedly planned to leave the meeting room, because he was too anxious and almost fell at the door.

The person who just called him, but the chairman! If he does not arrive within five minutes, then the chairman may open him.

The tone of the chairman on the phone is very bad. It must be something the company has encountered that makes him unhappy, and I don't know which thing with long eyes is. I dare to offend this great god. It's impatient to live. .

General Manager Li didn't even have time to wait for the elevator, so he simply ran down the stairs to the eighth floor. In the summer, he was sweating and he didn't dare to stop and rest.

In three minutes, General Manager Li finally reached the eighth floor.

Chapter: 1154

"Look at it, the general manager is here!"

No one in the crowd yelled. Everyone looked in the same direction, and Xu Qian didn't even think that this incident would have shocked the general manager.

The general manager of the Science and Technology Park is here. This is the most authoritative person besides the mysterious chairman! It seems that there is no good fruit to eat for the rest of my life.

When the time comes, he is no longer a rogue. Yu Sheng said that he was a hostile company who came to steal secrets. Maybe the general manager would directly take the doctor to court. It might be possible to close it for a few years!

Thinking of this, Xu Qian felt even more excited, pushing away from the crowd and ran towards the direction of the general manager.

"General manager, a deliveryman sneaked into our company to steal secrets. I caught him when he was about to succeed. He is there now, what should the general manager do?" Xu Qian told Mr. Li The manager said respectfully.

Li Huai didn't want to take care of these things at this time. He just wanted to quickly find the chairman. The chairman said he had already arrived on the eighth floor. Why didn't he see others?

"Li Huai!"

At this moment, a voice came from the crowd. Hearing this voice, Li Huai looked at the direction from which the voice came as if he was initiating.

When Li Huai looked at Yu Sheng, he ran over without hesitation in the image.

Xu Qian looked surprised and wondered what was going on. Could it be that the general manager just couldn't wait to clean up the rest of his life?

But there was a scene in front of him that almost made him fall off his glasses. The most authoritative general manager in this company looked at Yu Sheng with a flattering expression, and his posture was particularly low.

"Dong Yu, why didn't you tell me! Standing for so long, you must be very tired? Mr. Yu, sit down." Li Huai pushed over and placed a chair behind Yu Sheng.

Yu Sheng didn't even sit down with him politely, and said indifferently: "The employees in this company said I was stealing things. As the general manager of this science and technology park, what do you plan to do with me?"

Steal something?

Hearing this vocabulary, Li Huai subconsciously turned his head and looked at Xu Qian, who had asked him for credit before. Could it be that the person he was talking about was Chairman Yu.

Turning his head, Li Huai noticed that there were two security guards standing behind Yu Sheng, who seemed to have directly arrested the chairman!

Thinking of Li Huai's back there was already a cold sweat, he didn't expect such a thing to happen.

At this moment, Xu Qian came over and asked Li with a puzzled look: "General manager, why are you so respectful to a food delivery guy?"

This is the person who pretends to be a takeaway to steal the secrets of our company. The general manager, I have called the person in the patrol room just now. They will be able to come in after a while, and then they can be arrested directly. !"

What Xu Qian didn't notice was that Li Huai's face sank when she heard these words.

"Did you see him stealing things from the company alone? Or is there someone else who discovered this?" Li Huai asked in a deep voice.

Xu Qian thought that the general manager asked this to reward him, and maybe he would be promoted to a salary or something, so he said anxiously: "I caught the general manager, other things. Colleagues hadn't noticed it. If I hadn't caught him in time, maybe he would have gone out with our company's secrets!"

Listening to this silently, Xu Qian also admired Xu Qian. He didn't even think that he would buckle such a shit bowl for himself.

"Xu Qian, is it really interesting for you to slander people like this? Don't you be afraid of harming others?" Yu Sheng said lightly.

Xu Qian sneered disdainfully. The monitoring on the eighth floor broke down. This is not what he said or what he said. For the rest of his life, he was afraid that he was ruined by what he said.

"General manager, hurry up and deal with this thief!" Xu Qian was a little scared and wanted to see the rest of his life unlucky, so he urged.

Chapter: 1155

As soon as Xu Qian's words fell, he received a resounding slap on his face. This slap slapped him on the head, and he didn't slow down for a long time. What happened?

Holding his fiery and painful face, Xu Qian looked at Li Huai with a grieved expression, and asked in amazement, "General Manager, what are you doing?"

Although I falsely accused Yu Sheng of stealing things, no one else knew about it! On the bright side, he helped the company catch a thief who wanted to steal secrets. The general manager didn't reward him but slapped him. Is it possible that the general manager didn't understand what was going on?

Even if Xu Qian racked his brains, he didn't have to think about being a big man for the rest of his life.

Li Huai looked at Xu Qian's eyes, wishing to tear him to pieces directly. This idiot had no brains at all, and now he can't react to it. How outrageous he is.

"Xu Qian, who did you say steal company secrets?" Li Huai questioned again.

Xu Qian did not hesitate to stretch out his finger and point at Yu Sheng Yizheng and said, "General Manager, I caught the person who stole the company's stuff!"

Snapped!

When Xu Qian had just finished speaking, Li Huai slapped his face fiercely again, and the force this time was heavier than the last time, and his face was swollen from the hit.

Li Huai snorted and said angrily at Xu Qian: "Do you know who he is? You dare to say that he steals the company's secrets. The entire company belongs to him. Does he need to steal it?"

The whole company is for the rest of his life?

Xu Qian's head was blank, and he didn't know whether he was stunned by Li Huai or he didn't want to believe this fact. He stood there blankly and stared at Yu Sheng with shocked expression.

Even though there were hundreds of disbelief in his heart, Li Huai had said so, it must be wrong. What stupid thing he did to slander the secrets of the chairman's investment company is simply ridiculous.

For the rest of his life, he was just a son-in-law of the Yang family, and now he is divorced from Yang Zihuan. How could he have such great abilities? It turned out to be the chairman of a billion-dollar company like the Science Park.

What makes Xu Qian most puzzled is that he has such a big identity, why should he deliver food to himself? What is going on in the middle?

The rest of my life sitting by the side saw the doubt on Xu Qian's face, and said with a chuckle: "Xu Qian, I have never said that I am a food delivery company, even if I am a food delivery company, you just Can you slander me like this?"

Xu Qian's back is already soaked with sweat. What he did today is simply unforgivable. Although he looks down on Yu Sheng, Yu Sheng is the chairman of the Science and Technology Park. He offended such a big man. What is the difference between this and death?

The face is not worth mentioning compared with the future. Xu Qian didn't hesitate and knelt down directly to Yu Sheng, begging: "Sorry, I don't know that you are the chairman, I really am. I did this kind of thing for a while, and I hope you will let me go because we are old classmates!"

"Old classmate? But I heard you say that you don't have a classmate like me who delivers food." Yu Sheng said jokingly.

"This this....."

That regret in Xu Qian's heart? He raised his hand and slapped his mouth a few times, and then said:

"Chairman, my stinky mouth is too stinky. I dare to say anything. I will slap it now. Chairman, please let me go because we are old classmates, right?"

For the rest of his life, Xu Qian quietly watched Xu Qian slap himself, and Guang didn't speak, let alone

forgive him just because he slapped himself a few times.

At this moment, a few uniformed patrol room personnel came and looked at the crowd and asked, "Someone reported that a thief was caught stealing secrets. Where is the thief?"

As if they had negotiated, everyone pointed their fingers at Xu Qian.

Xu Qian was stunned that he didn't think that his former partner could slander him in this way, and quickly wanted to explain to the person in the patrol room, but he suffocated when he thought of something.

If this can calm the rest of his anger, he would rather be caught in the patrol room than it would be better to be held hostage by such a big man.

"Yes...Yes! I stole the company's secrets..." Xu Qian said reluctantly.

As soon as his words fell in a few patrol rooms, they caught him directly into the police car and drove away.

After solving the problem, everyone on the eighth floor of Xu Qian was terrified. After all, when Xu Qian slandered Yu Sheng before, almost everyone of them ridiculed Yu Sheng.

When I thought that the chairman would also teach them a lesson, who thought that the general manager and the chairman left the eighth floor directly by elevator, and didn't intend to care about them in general.

Seeing this, everyone breathed a sigh of relief, and secretly praised that the chairman was really righteous, and there were a lot of adults who didn't care about them.

Chapter: 1156

"Chairman, I was wrong!" When he came to the chairman's office, Li Huai lowered his head and said very regretfully.

Yu Sheng sat on a chair, flipping through the information and looking at Li Huan like this, just raised his eyelids: "In the future, when the company recruits people, just pay attention. This matter has nothing to do with you. Tell me about the company's recent progress. Bar!"

Seeing that the chairman didn't mean to blame him, Li Huai let out a sigh of relief, and the big rock that was pressing against him in his heart also let go.

"Dong Yu, Sister Yu just called me before you came and said that there has been a lot of progress in the chip. I am afraid that Sister Yu will be back soon." When it comes to work, Li Huaipian The expression on the face is also a lot easier.

At this moment, the door of the office was suddenly opened, and a beautiful and sexy figure suddenly broke in and said with joy: "Li Huai, the chip we studied has succeeded for the first time!"

Suddenly, Yu Li saw that Yu Sheng was also in the office, and the smile on her face deepened: "Yu Dong, you are here, I missed you so long after seeing me."

Hearing this, Wu Yusheng coughed in embarrassment twice, always feeling something weird, like what is between the two of them.

When Li Huai on the side heard Yu Li say this, his eyes rolled as if he understood something, and he took the initiative to leave with the excuse: "The chairman of the board will let Sister Li explain to you other things. I have something to work on, so I left first. !"

After speaking, Li Huai gave Yu Li a wink, then smeared the soles of his feet and slipped out of the office. The meaning in his eyes seemed to be saying, Sister Yu, come on and try to get the chairman down.

Li Huai still knows a lot about the unrecognizable things that happened between the chairman and Xiaomi, not to mention that Yu Lichang is so beautiful and sexy, and is so trusted by the chairman to

take charge of the science and technology park. Li Huai would never believe anything in between. The door of the office was closed, and there were two people with Yu Li for the rest of his life. There were no outsiders, Yu Li, who acted unscrupulously.

He walked in the direction where Yu Sheng was sitting, hugged Yu Sheng's neck from behind, and said softly: "Yu Dong, it's been a long time since I came to the Science and Technology Park, I thought you forgot me! You don't know how much people miss you!"

Yu Li was lying on his ears to speak, the slight breathing sound could be heard for the rest of her life, and her ears were so numb and uncomfortable.

Turning his head for the rest of his life, I wanted to push Yu Li away, wanting her to pay attention to her behavior in the company, but he just turned his head and saw the white and deep career line in front of him. react to.

"Yu Dong, do you like it?" Yu Li asked with a smile on her mouth when she saw that Yu Sheng had been stunned.

After hearing Yu Li's voice for the rest of his life, he reacted, his gaffe quickly turned his gaze to the side, and coughed twice to cover up the embarrassment on his face.

"By the way, Li Huai said before that the research on the chip was successful, is it true?" Yu Sheng could only talk about the work, and let the weird atmosphere in this office disappear.

Yu Li curled her lips in dissatisfaction, and then sorted out her neckline. Then she said in a hurry, "Yes, the chip developed by the Science and Technology Park today has been successful, and it has already begun to be tried on mobile phones. It can be marketed soon after use.

This is our most advanced chip in China, and we will spend a lot of money to buy it from the United States in the future. Our science and technology park is the first person to eat crabs, and the wealth it brings is beyond calculation with numbers.

Yu Dong, you are really a genius, a godlike figure in my heart! "

Speaking of Yu Li kissed Yu Sheng on the face, Yu Sheng was still happy about the success of the chip research, and didn't even notice that she would come here suddenly.

However, the soft touch on his face just now was very good, and for the rest of his life it was no surprise that Yu Li did such a thing.

"You did a good job. You really didn't disappoint me. You have a lot of credit for the success of the chip research." Yu Sheng exclaimed from the bottom of his heart.

Chapter: 1157

The joy of the Science and Technology Park made Yu Sheng's identity, Yu Yue, out of the office, and found Li Huai still waiting in the direction of the door.

"Yu Dong, do you have any more orders?" Li Huaiwei bent over and said respectfully.

"Follow me to see the successfully researched chip!" Yu Sheng said lightly.

Li Huai said yes, then raised his head when he saw Yu Sheng's face, he couldn't help but deepen his previous thoughts.

The chairman also has big red lips on his cheeks. You know that it was Yu Li who went up in person. The lipstick number is a color. Sure enough, he wants to be a sexy beauty like Yu Li. As a man, the chairman must be no There is a way to refuse.

"Well, chairman, do you want to wipe your face?" Li Huai asked cautiously.

Yu Sheng only remembered when he heard this. Yu Li kissed herself secretly before, and after looking at the smirk that Li Huai's face could not hide, Yu Sheng could almost imagine the appearance of red lips on

her face.

Without thinking about it, Yu Sheng went to the bathroom and wiped off the lipstick on his face. This time the misunderstanding was even deeper. Yu Sheng felt that even if he explained what he had with Yu Lizheng, no one would believe it, but he is the chairman of the science and technology park, so misunderstand him!

.....

Yu family villa.

“Ms. Xu, come and take a look, Yueyue seems to have a fever.” The nanny came to the living room holding Yueyue, and said to Xu Qianqian who was reading a book with anxious expression.

Yu Yue, who was in her arms, closed her eyes and was still sleeping, but her little blush looked abnormal, and her little brows were also frowning, as if she was suffering from some pain.

Xu Qianqian heard what the babysitter said, and did not have the first time to check Yu Yue’s safety, and a little impatiently put down the book in his hand, raised his hand and pinched the baby’s arm forcefully. The babysitter originally hugged Yu Yue, and Xu Qianqian’s pinch was so heavy that he almost fell the child without a firm hold.

“I spend so much money to let you take care of Yu Yue. What is going on with her now that she has a fever? I can’t do this thing well. What use do I want you to do? It’s better to go if you are so useless. Forget it!” Xu Qianqian cursed at the nanny unceremoniously.

The nanny was aggrieved, but she didn’t dare to talk back to Xu Qianqian. When she was tired of scolding, she dared to say: “Miss Xu, I take care of Yueyue’s daily life very carefully. I can basically guarantee that she doesn’t kick the quilt at night. .

I wonder if Ms. Xu, what have you eaten recently? I feel that the milk that I feed Yueyue every day is a little green. ”

When Xu Qianqian heard this, a weird expression flashed across her face. These days, she had been working hard on the Gu classic and took more medicines written in the book.

Even if this incident happened because of her, Xu Qianqian did not intend to tell the truth, but blamed the nanny on the responsibility.

With a cold snort, Xu Qianqian raised his hand and pinched on the babysitter again, and said, “What do you mean by this? If you don’t do well by yourself, you still push the responsibility on me. This is what you should do as a babysitter. Something?”

Yueyue is sick, what’s the point of telling me? Why are you still here? Hurry up and take her to the hospital! If I really have three long and two shortcomings, it is absolutely impossible for me to let you go. ”

The nanny could only swallow all the grievances and let the driver go to the hospital with Yueyue in his arms. After leaving, Xu Qianqian put down the book in his hand and took out his mobile phone to call the doctor.

“Yu Sheng, where are you? Yueyue is sick, I can’t take care of it alone, can you come to the hospital!” Xu Qianqian pretended to sobbing.

At this time, Yu Sheng was still inspecting the successfully researched chip in the Science Park. After learning that Yu Yue was ill, he immediately put aside everything in his hands and rushed to the hospital.

Chapter: 1158

“This child is just over one year old. What did you give her? She has a severely damaged stomach, and there is a special poison in her body. Even I can’t cure it.”

The person who spoke was Dr. Wang, the skilled doctor in the largest hospital in Qiancheng. Although Xu Qianqian didn't like Yu Yue, after all, this was her biological daughter. If she died, there would be no way to keep her for the rest of her life.

Thinking of this, her beautiful eyebrows frowned, and she ordered Dr. Wang: "Aren't you quite famous? If you don't cure my daughter, I will take you to court!"

According to what Dr. Wang said, he is also the most famous doctor in this hospital. In the past, he was admired. There were countless people who gave him red envelopes but they were rejected by him. I did not expect to be threatened by a patient's family today. , No matter how good his medical ethics is, he can't stand this qi.

Doctor Wang's face sank, and he said with a cold snort, "If you want to sue, then just sue! Your daughter's illness can't be saved even if a god descends to the earth. His entire stomach has been destroyed by the toxin in the body. And the toxin has spread all over your body, I advise you to prepare for funerals!"

Xu Qianqian felt a pain when she heard this, and could not help taking a step back and almost fell to the ground. Fortunately, the babysitter from the rest of her family helped her in time.

"Miss Xu, since you Yueyue has a natural state, there will never be anything wrong, so don't be too sad."

The nanny comforted Xu Qianqian in his arms.

Although she was just a nanny that the Yu family paid to come over, she has been taking care of Yu Yue during this period of time. She has treated Yu Yue as her own child and treated her normally. Now that Yu Yue is ill, she is also worried. Vaguely covered with a layer of mist.

Snapped!

The nanny didn't even think that Xu Qianqian would slap her directly, clutching her face in pain and asking aggrievedly: "Miss Xu, what are you doing?"

"If I want to beat you, what else is there for? I will pay you to take care of my daughter and see how you take care of it. You still have the face to cry. If my daughter dies, I will let you bury her. !" Xu Qianqian said angrily in her throat.

The nanny's surname is Huang, an honest and authentic person. She has been a nanny for 20 or 30 years, and it is the first time that she has met a child eating the wrong food under her supervision. Moreover, Xu Qianqian didn't listen to her explanation at all, and put all the responsibilities on her, and asked herself to bury his daughter, which was simply too arrogant and unreasonable.

Even if Aunt Huang has thousands of dissatisfaction in her heart, she can only swallow the dissatisfaction in her heart. After all, she needs this job to earn money to support her pair of children to go to school.

"Ms. Xu, I really didn't give Yueyue the wrong thing! What you usually feed her is some snacks you bought, and the breast milk you put in the refrigerator, nothing else!"

Aunt Huang wanted to explain something, but Xu Qianqian didn't listen at all. He raised his hand and slapped Aunt Huang's face again.

"Is it the responsibility to blame me for saying that? It's the first time I have seen a babysitter like you who don't take good care of a child and put the blame on the owner. I have to teach you today!"

Xu Qianqian was still angry about Yueyue's poisoning in her heart, so she simply vented all her anger on Aunt Huang's body.

Doctor Wang, who was watching all this, sighed and shook his head. He was speechless to the extreme for a mother like Xu Qianqian. He even thought that the little girl lying in the ward was not hers.

But these were other people's family affairs after all, and he didn't bother to take care of them, so he turned and left.

At this moment, a lightning-like figure in the corridor of the hospital ran over quickly and grabbed Dr. Wang who was leaving with his eyes straight.

Chapter: 1159

“Who are you! Hurry up or let me ask the security guard to blast you out of the hospital!” Dr. Wang was jumped by the man in front of him, and his voice was a little frightened.

The man in front of him seemed to appear in front of him out of thin air. When a normal person encounters such a thing, who is not afraid?

The visitor was for the rest of his life, who was long overdue. After leaving the science and technology park, he drove the car because he was in a hurry. Yu Yue’s comfort.

“Are you my daughter’s attending doctor? How is she now? Is there any risk of life?” Yu Sheng asked anxiously.

For the rest of his life because of his anxiety, he had forgotten that he could also practice medical skills, and the entire Huaxia was rarely better than his medical skills.

Still waiting for Doctor Wang to say something, Yu Sheng directly let go of his hand and rushed into the ward.

Doctor Wang on the side was so blinded that he didn’t know who this person was, his style of work was so strange, and he went in by himself without listening to his illness.

Hearing that the little girl inside is his daughter, and seeing that this person is the little girl’s father, he must care about his daughter very much when he looks so nervous.

Thinking of this, Dr. Wang moved a little bit of compassion, but eventually he softened his heart and went into the ward to talk to the man about the little girl’s condition.

At this time, Yu Sheng in the ward placed his hands gently on Yu Yue’s stomach, using his inner strength to feel the changes in her body.

“Master, the whole stomach of this little girl has been corroded by that mysterious toxin, and that toxin has been incorporated into her blood. There is no way to completely remove this toxin from her body. It might be difficult to save her,” Xiao Ningyu said.

After speaking, Xiao Ningyu looked at Yu Sheng with some worry, not knowing how to comfort him.

Yu Sheng slowly opened his eyes and looked sad. The toxins in Yu Yue’s body were the kind he had never touched before, and there were no records in the Nine Profound Heavenly Sutras.

She is just a little over a year old, how could she be exposed to such a powerful poison? Could it be the hands and feet of the people at the hidden gate?

Recently, Yu Sheng quickly dispelled this idea, no matter how Song Wanwan was at the pinnacle of the Grandmaster Realm, she would definitely not be unable to find out if other masters came.

When Yu Sheng was in deep thought, Xu Qianqian’s voice came from behind.

“For the rest of my life, our daughter was poisoned. This useful quack said that he couldn’t save him and asked me to prepare for my daughter’s funeral.” Xu Qianqian pointed to Doctor Wang and said angrily.

When Dr. Wang heard this, he only felt that he was kind enough to be rewarded. He was even said to be a quack doctor, and Xu Qianqian laughed angrily for a while.

“Sir, take care of your own daughter-in-law. If she does this anymore, don’t worry about me letting your family get out of the hospital. Don’t tell your daughter that I can’t cure it. I dare say that there is no such thing in this world. Someone can cure it!” Doctor Wang said to Yu Sheng angrily.

Yu Sheng sighed, and reached out to touch the unconscious Yu Yue. Her forehead was very hot, and she must be suffering a lot!

Thinking of this for the rest of his life, he felt distressed for a while. He would rather the person lying in the hospital bed be himself than let his daughter, who is a little over one year old, suffer such pain.

“The stomach is completely corroded, and the toxins diffuse into the blood. This situation is not absolutely impossible to save.” Yu Sheng said lightly, with a bit of firmness in his tone, saying nothing could make Yu Yue die like this.

When Dr. Wang heard what Yu Sheng said, he looked at Yu Sheng with surprise, his eyes seemed to look at a group of monsters.

If he remembers correctly, this man arrived later, how could he know the cause of this little girl?

There is only one possibility, that is, they have been to other hospitals.

save?

Doctor Wang, but want to see how this man is going to save this girl? What can he do if he can be treated by an ordinary family member of a patient that he can't do?

Yu Sheng looked at Aunt Huang and asked, “What did Yueyue eat? When did you find that something was wrong with Yueyue?”

Aunt Huang did not dare to conceal a trace, and said: “The food for Yueyue is the same as usual. Ms. Xu is a small snack bought in some supermarkets. This is absolutely not problematic, and it is stored in the refrigerator. Breast milk...”

“For the rest of my life, this kind of thing happened because this useful nanny didn't take good care of our daughter. If Yueyue had any shortcomings, I would never forgive her!” Xu Qianqian said quickly.

The reason Xu Qianqian was so anxious was because she was afraid that Aunt Huang would tell Yu Sheng that she had discovered some greenish breast milk before.

In this case, Yu Sheng would definitely be suspicious of him. If he was to die before he found out that he was secretly studying the evil technique of Gu Sect, this family would have no way to stay any longer.

Now Xu Qianqian is basically certain that the reason why Yueyue has such a problem this time is because of the relationship between some medicines and poisonous insects she bought from the Miao nationality.

However, there is no saying in the Gu script that you cannot practice this evil skill during the breastfeeding period!

When Xu Qianqian thought of this, she realized how stupid her problem was, but at this point, she had no way out, so she could only pin all her hopes on Yu Sheng.

“For the rest of my life, you must heal our daughter! Otherwise, it would be meaningless for me to live in this world.” Xu Qianqian cried in a low voice, as if it really seemed like someone worried about the safety of her child. Mother.

Listening to Xu Qianqian's cry for the rest of my life, I only felt that my head was big for a while. If the person who encountered this incident was Magnolia, maybe she didn't cry uselessly here, right?

“Don't worry, I will never let Yueyue have any problems.”

For the rest of my life, I won't say much, directly operating the internal force in the body, hoping to use the pure internal force to repair Yueyue's corroded stomach, even if it only has a little effect.

About a quarter of an hour longer, Yueyue, who was lying unconscious on the bed before, slowly opened her eyes, and cried “Wow” when she saw Yu Sheng.

“Dad, Daddy, it hurts, it hurts!” Yueyue's milky voice said, and she stretched out the chubby hand and shook her in front of Yu Sheng, wanting to let Yu Sheng hug her.

Yu Sheng held Yueyue's little hand, put it to his mouth and kissed, and said in a gentle voice: "Yueyue doesn't hurt, and my father will heal you."

Just using his great master's internal strength to suppress the toxins in Yueyue's body, although it could not completely cure Yueyue's disease, it also made her suffer less.

Doctor Wang, who was standing on the side, looked silly. He still didn't understand what the rest of his life used to wake up the little girl?

Logically speaking, the little girl's stomach was completely corroded, and there was no possibility of waking up after the toxins spread all over the body. This simply broke the medical routine he recognized.

Does this seemingly ordinary young man who knows medical skills, can see the little girl's current situation without medical equipment, and can heal her, how great is this?

Now Dr. Wang's heart is a little shaken, is it possible that the young man in front of him can really cure the little girl's illness?

If it can be cured, it would be a miracle in the medical world!

"This gentleman, do you know medical skills? Are you really sure that you can cure your daughter's disease?"

When Dr. Wang asked, he realized how wrong his question was. Now that he has said everything, there is no room to take it back. He wants to see what Yu Sheng will say?

"Noji!"

Yu Sheng only faintly said two words, picked up Yu Yue on the hospital bed, and said to the nanny and Xu Qianqian: "Go, let's go home!"
