

## Dont mess 1161

### Chapter: 1161

“go home?”

Xu Qianqian can't figure out what he wants to do for the rest of his life? Yu Yue's illness has not been cured yet, and now taking her home, doesn't Yu Sheng want to treat Yu Yue anymore?

“Yes, go home.”

Yu Sheng held Yu Yue in his arms and walked out of the ward. This hospital cannot be cured. He can only figure out a solution by himself. It is not convenient to be in the hospital, and it is easy for people with improper intentions to sneak in. After all, he I still don't know what the poison is and who did it.

Dr. Wang wanted to follow up and see if Yu Sheng could really cure this little girl. If it could, it would be a miracle in the medical world.

He just came out of the ward, and a young nurse stopped him: “Doctor Wang, there is an operation here that requires you to perform the operation, please go there.”

Dr. Wang still looked reluctantly at Yu Sheng's back, but in the end he couldn't follow him, and followed the young nurse to the operating room.

..... . . .

Yu family villa.

“Yu Sheng, how could such a thing happen? Yu Yue is still so young, how could anyone poison him?” Yu Zhongtian asked inexplicably after understanding the situation.

It's been a day, and Yu Yue still hasn't found the cause of Yu Yue's poisoning for the rest of his life. The poison on the little guy's body is really weird.

If he knew the cause of the poisoning, Yu Sheng would still be able to get rid of the poison. It was because he knew nothing now, plus Yu Yue was just over a year old, and couldn't stand the torture of too many trials.

“I don't know. In this situation, it is necessary to figure out what the poison is. Now it is like a headless fly with nowhere to start.” Yu Sheng sighed.

Seeing Yueyue who was about to fall asleep in his arms again, he felt distressed for the rest of his life. It seems that the previous efforts to help her suppress toxins have failed.

If this continues, Yu Yue's situation will only become more dangerous. If the toxins erode her internal organs, it will cause irreparable damage to her body.

Xu Qianqian, who had been listening to Yu Sheng's words, was incomparably entangled in her heart.

Listening to Yu Sheng's words meant that if he knew the cause of the poisoning, there was a way to prepare the antidote, and Yu Yue would be saved.

But such words undoubtedly exposed her secretly learning the Gu Scriptures, and the rest of her life who needs the life of a child to practice will definitely not spare her if she knows it.

Thinking of this, Xu Qianqian felt a little retreat, and she was already at this point, and the big golden tooth could basically stabilize, and could provide her with more than ten children's internal organs every month.

If this goes on, within two years, she will be able to achieve something in the evil power she has practiced. Xu Qianqian is really obsessed with the satisfaction that power brings to her.

She secretly made a determination in her heart, even if Yu Yue would die because of poisoning, she would never tell the truth.

The big deal is to think of ways to have sex with the rest of her life. If the child is there, she can

regenerate. Anyway, she is still young and has opportunities.

“Xu Qianqian, what are you thinking about, why did Yueyue become like this when she got up?”

Yu Sheng’s voice suddenly came from behind, bringing Xu Qianqian in his thoughts to reality.

“No, I’m just not worried about Yueyue’s safety. She is so young and has to endure this kind of pain. I am a mother who is so uncomfortable. For the rest of my life, you must find a way to save her. She is still so little!” Xu Qianqian said, wiping tears from the corner of his eyes.

Yu Sheng nodded. There was no clue about the family affairs, so I could only go to Zhu Qingshan and ask if he had ever seen a similar situation.

## **Chapter: 1162**

I wish Qingshan looked through the medical book with a sad face, trying not to miss every word, turning to the last page is still nothing but closing the book.

“I have never heard of the poison in Ling’ai, and there is no record of even the medical skills. I am afraid that I can’t help the genius doctor. The old man is really useless.” Zhu Qingshan touched his beard, helpless. Said.

Knowing that there will be this result, but Yu Sheng Qinger heard it still a little uncomfortable. If he could know what poison Yu Yue was poisoned, he would be able to prescribe the right medicine, but now he knew nothing about it.

When in the hospital, Yu Sheng’s mental power was to let go where he felt something was wrong with Xu Qianqian, and even thought that this meal had something to do with her, but the rest of his life said that he knew what poison was poisoned to save Yu Yue, if he still couldn’t find out him. When there was no way, Xu Qianqian still didn’t mean to say anything.

Then there is only one possibility. Xu Qianqian may really have anything to do with the poison in Yu Yue. After all, as Yu Yue’s mother, how could she just watch her daughter die without saying anything? Yu Sheng understood that Xu Qianqian wanted to tie him with her daughter, so it was even more impossible for Yu Yue to die like this.

The reason why I understood these truths for the rest of my life was to get rid of Xu Qianqian’s suspicion.

Suddenly Yu Sheng thought of a possibility, Yu Sheng muttered to himself: “Is this poison caused by an evil technique? It feels like an evil attack on the body.”

Speaking of this, Yu Sheng only felt that there was an electric current in his mind, as if he suddenly wanted to understand something.

In the past, after defeating Qi Lao in Jiangcheng, I found a book called Gu Dian. Because it was an evil technique, Yu Sheng didn’t even read it and threw that book in the study room. Now I check it out and maybe I can find it for Yu. Yue’s method of detoxification.

“Old Zhu, I’m leaving now!” Yu Sheng left these words, and disappeared into Zhu’s Medical Clinic.

Seeing this scene, Zhu Qingshan sincerely admired: “The strength of Yu Shenyi has improved again! He has reached his current cultivation base at his age, and this talent is simply beyond the reach.

I’m a little bit looking forward to what kind of character he will become in the future, and I don’t know if the old man will live until then.”

Her granddaughter can have such a master, and her future will be limitless. It is a relief to think of wishing Qingshan here.

Yu Sheng’s sudden departure also illustrates this matter, that is, he has found the cause of his daughter’s poisoning, and sure enough, there is no disease that can make Yu the genius doctor.

.....

Seeing Yu Sheng's return, Xu Qianqian got up from the sofa and quickly walked up and asked: "Yu Sheng, why are you back? Did you find a way to treat your daughter?"

"Um!"

For the rest of his life, he just responded, without too much explanation, so he went directly to the classroom building, found the key in the study and opened the door of the study, and then started looking for the Gu book previously placed in the study.

If there is no memory error, he obviously put it on the desk, but now there is nothing on the desk, and I can't find anything after going through the study.

Sure enough, this deepened the thoughts in Yu Sheng's heart. Yu Yue's poison is inseparable from Gu Code. Who can sneak into Yu's house so quietly and steal the loss, and then put the poison on Yu Yue's body.

When Xu Qianqian saw Yu Sheng flipping through the books in the study, he knew that he was looking for the Gu scripture that he had taken away, and his heart was agitated. Did Yu Sheng think of the cause of Yu Yue's poisoning?

Just as Xu Qianqian was thinking about this, Yu Sheng's question came from her ear: "Did you take the book in my study?"

### **Chapter: 1163**

Suddenly being asked this question, Xu Qianqian raised her heart. Is there a surveillance camera in the study that she was photographed?

"What book are you talking about? Your study is usually locked. Even if I want to come in and read your book, I can't get in! Now our daughter's illness is still not cured. Are you looking for a doctor??"

Xu Qianqian was afraid of any flaws in herself, and deliberately led the topic to Yu Yue.

"Nothing, I'm going to the Miao nationality during this time. Take care of your daughter. If there is any accident in the middle, then go to my father." Yu Sheng said, closing the door of the study.

The most urgent thing is to go to the Miao nationality. After all, the people in that place are very thorough in the research on Gu worms. Maybe someone can solve Yu Yue's poison.

The toxins in Yu Yue's body are still spreading, and now every minute and every second must be grasped, no longer delay for the rest of his life, let Xia Jun prepare a private plane to go to the Miao nationality.

.....

After a few hours' flight, and a long car ride for the rest of my life, I came to this more famous village of the Miao nationality.

What makes Yu Sheng more curious is that everyone here wears masks, and very few people go out.

After walking for a long time, only five or six people are seen. They all entered the house and closed the door directly when Yu Sheng just wanted to go up and ask questions. .

Just when he was a little depressed, a middle-aged man wearing a mask passed by in front of Yu Sheng. For fear that this person was running away, Yu Sheng hurried to the person and grabbed his shoulder. Yu Sheng's movements were very fast, and the man Ken was caught by Yu Sheng when he hadn't had the rush to run, which shocked the middle-aged man.

"I'm sorry to disturb you. I want to ask you something." Yu Sheng said apologetically.

The middle-aged man originally wanted to run away, but when he saw Yu Sheng was so polite, he didn't run away, and he moved a certain distance away from Yu Sheng, and he took out a small bottle from his

pocket and sprayed it at Yu Sheng.

Smelling the pungent smell of alcohol in the air, I wrinkled my nose for the rest of my life.

After spraying more than ten times, the middle-aged man put the small bottle back in his pocket and said to Yu Sheng, "Are you from a foreign city? You dare to go out without wearing a mask. It's too fatal!"

"Did something happen here? Why doesn't everyone go out? And they wear masks?" Yu Sheng asked in surprise.

Speaking of this question, the middle-aged man sighed and said: "The influenza in this stockade is very bad recently, and many people have died. In order not to be infected, everyone is afraid to go out. If there is nothing particularly important Stay at home."

Speaking, the middle-aged man took out a mask from his pocket, handed it to Yu Sheng and said, "For your own safety, you should bring the mask first! Otherwise, I would not dare to continue talking to you."

As a great master, the immunity of the rest of his life is much stronger than that of ordinary people. The so-called flu is not only mentioned in the face of the rest of his life.

Even if I went to this place, I followed the rules of this place. For the rest of my life, I refused to take the mask and brought it there.

"I remember that there will be influenza and flu every year, but there are no such exaggerations as dead people!" Yu Sheng asked.

"This year is different! It's in our stockade, but it's not in other places. I heard that someone has offended the gods in the stockade. The protector is not willing to have us anymore, so the punishment for illness is given. Us." The middle-aged man explained.

Fetish? Guardian?

For the rest of my life, I didn't believe these magical things at all, and what they said was just like a fairy tale, which was simply unrealistic.

At this moment, the door of the stockade, which was still closed to every household, opened at the same time, and many households walked out of their houses.

Yu Sheng was shocked by the scene in front of him. The middle-aged man said before, if there is no special emergency, no one will go out?

What is going on now?

## **Chapter: 1164**

At the time of the rest of his life, the middle-aged man beside him also walked in the direction of the crowd.

These people seem to have a common purpose, they are all moving in the same direction, which makes the rest of my life more curious.

"Where are you going?" Yu Sheng stopped the middle-aged man and asked.

The middle-aged man stopped and explained to Yu Sheng: "Forgot to tell you. Every Friday, Master Ling Atom will disperse medicines on the square. These medicines can cure this flu.

Master Ling Atom is a fairy-like character, and the pills sold are all miraculous medicines. It must be very useful for this flu. You can't buy it if you are late."

If there is a cure, wouldn't the flu in this place be cured a long time ago if the panacea for this flu is such that everyone is in danger?

For the rest of my life, I have to see whether this master of spirit atom is a really capable master or a

liar.

At this time, standing on the high platform of the square was a middle-aged man about 50 or 60 years old, dressed as a Taoist priest, who looked like a Taoist master.

And under the high platform stood four or five little Taoist priests wearing Taoist uniforms. There was a small table in front of each of them, and there were many small bottles on the table.

“Everyone, be quiet, be quiet!”

Master Lingtou lightly shook the whisk in his hand, and the people who had just come down from the stage closed their mouths and stopped talking, and the square was silent for a moment.

Master Lingqi cleared his throat and said, “Pan Dao knows that the village is now undergoing the ordeal of the protection god. As a master of Taoism, I spent seven days and seven nights in my cultivation and made a divine pill to help everyone heal. Good flu this time.

The following is the pill that I have made in the past seven days. Each of them is my hard work. I know that everyone is ordinary people and they don’t have any savings, but these pills of mine are made of precious herbs. Each one is very valuable.

In order to be able to accumulate some good destiny and poor ways, only some manufacturing costs are charged to everyone, each only costs 5,000 yuan, only this 1,000, and there is no need to buy it! ”

Master Ling Atom seemed to be like the Purdue of all living beings, and everyone in the audience admired him for a while.

“Master Lingatom is really an eminent monk! It is not easy to do it for us people!”

“That’s right! The medicines bought by Master Ling Atom are made of precious herbs. It’s not too much to buy one piece for 10,000 yuan, and 5,000 yuan for a Ping An is too worth it!”

“I bought two of the medicine of Master Ling Atom before for my wife and children. They really don’t have the flu. This medicine is an absolute magic medicine, and it melts in the mouth and has a sweetness.”

Listening to the discussion of the people in the audience, a joking smile appeared on the corner of Master Lingto’s mouth. It seems that the price of five thousand yuan for oneself is still too small! You should buy these idiots for 10,000 yuan!

“I have added Longxu grass to this medicine. Longxu grass is a superior medicinal material. Each plant is quite rare and precious, but for the safety of everyone’s lives, it is worthwhile to pay more for the poor.”  
Ling Atom The master said awe-inspiringly.

As soon as his voice fell, the people in the audience praised Master Ling Atom for a while, directly comparing him to a living god and a living bodhisattva.

Watching all this for the rest of his life, I feel that these people seem to have been brainwashed by this master of spiritual atom, or is he really capable of that much?

I just heard him say that this medicine contains Longxue grass, which is no stranger to this medicine for the rest of his life. Before, he spent 100 million to shoot a plant!

How many Dragon’s mulch need to be cultivated for these thousand pills? Could it be said that such an extremely precious medicinal material can be grown artificially by Master Ling Atom?

## **Chapter: 1165**

Just listening to the name Longxuecao, those ordinary people felt that this was a miraculous medicine, and two of them were clamoring to buy the medicine.

“Master, I want three!”

“Master Lingatom, I want five. My parents and children still have children. Can you give me a cheaper

price?”

Hearing that there were still people bargaining, Master Ling Atom still didn't say anything. The people around the young man who wanted to bargain began to attack him.

“Do you like to buy or not? You still have the face to negotiate the price with Master Lingzi. The master has made so many medicines for us. The medicines sold to us are all cost-price. Is it possible that you still want to make Master Lingzi lose money? ?”

“That's right! Besides, it's worth buying Ping An for five thousand dollars. If you are too expensive, don't buy it. I want to buy six pills for Master Lingqi.”

The young man who wanted to bargain was squeezed out by the crowd. Five pills of 25,000 yuan were basically his savings for half a year. The money was not a small sum.

Many of the people present almost took out all of their homes, just to buy a few pills for the family members to eat to keep them safe, for fear that the protection god would put the disease on them and take their lives.

When everyone was queuing to buy the pill, suddenly a young man ran over, holding a rotten vegetable leaf in his hand and smashing it at the Master Ling Qi who was standing on the stage.

He yelled and cursed: “You liar Taoist are cheating money. The pills you sell have no effect at all!

I bought three elixirs from you last week and gave my father no use at all. He still has the flu, and now he's dying in bed. It's all caused by you. You are a liar!”

The sudden situation shocked everyone, and they all looked at the young man who appeared suddenly.

This person said that the pill sold by Master Ling Atom had no use, and he used rotten vegetables to smash Master Ling Atom.

All the people present here regarded Master Lingatom as a fairy-like figure, but watching this young man crying heartbroken didn't seem to be a fake, and for a while, he became suspicious of Master Lingatom.

Even if they think it is not expensive to buy a pill for five thousand yuan, the premise is that the pill master is effective. If you really want the pill as the young man said, there is nothing wrong with the pill, and blindly believe that it is not good to catch the flu. NS.

Master Lingqi saw that since this man had come out to make trouble, no one else would spend money on medicine, which had a big impact on his business.

Coupled with the fact that the man threw rotten leaves at him just now, there was a stinky smell on his robe, which made him angry.

Master Lingqi snorted angrily at the young man: “Who sent you this kid? You dare to slander me so much. My medicine is a magical medicine. How could it be useful?

I'm afraid that you are obsessed with your heart, and you have come to me to make trouble after receiving other people's money! Could it be that you really want everyone in this stockade to catch the flu?”

Unexpectedly, the young man didn't even think that Grandmaster Lingatom would deny it, and his face flushed with anger for a while.

In addition, people around him slowly started to point to her saying that he had collected money to slander Master Ling Atom, and the young man even breathed quickly.

“That's not the case. This man is a fake Taoist priest. He is not a Taoist priest with superb magic power.

He is a liar to cheat you out of money. My dad is about to die when he has the flu. The medicine he bought is really good. There is no use at all.” The young man explained hoarsely with his throat.

When everyone saw the young man's words so serious, they were a little shaken for a while.

At this moment, Master Ling Atom's face sank, and a black flame burned on the body of the young man with a wave of the floating dust on his hand.

The sudden situation shocked all the people present, and those who were closer to the young man stepped back for fear that it would catch fire.

### **Chapter: 1166**

"Look at it, the reason why this person is burning with black flames is that he will do things to the devil again. The reason why he said that before is to make you all get the flu. Don't believe him!" Master Ling Atom pointed to the young man with black flame burning on his body and said.

The middle-aged person who was still suspicious of Master Ling Atom, seeing this situation, believes in Master Ling Atom even more. He feels that this is a superb magical god who can conjure flames out of thin air, and can also see that this young man is bewitched by the devil.

At this time, the young man was burning with black flames and let out a stern wailing, he kept rolling on the ground, but the flames didn't mean to extinguish.

For the rest of his life, watching all this with cold eyes, he can burn people by waving the dust in the master of the atom, and it can basically be concluded that he is the strength of the mid-master realm. I didn't even think that there are such powerful masters in this small village. This kind of masters can have a high status by joining a big family in the secular world. Is he actually cheated here for the money? The strength of the middle stage of the Grand Master Realm is still good. The flames it releases are not something ordinary people can withstand. If this continues, maybe this young man will be burned alive. "Master Ling Atom, how can this black fire be extinguished? Will it burn people to death?" someone suddenly asked.

Master Lingatom touched his beard and said: "His soul was bewitched by the devil and the black fire burned the darkness in his heart. When the devil in his body was completely burned to death by the black fire, he would have nothing to do."

When Master Lingatom said this, everyone nodded, and praised the master for a while, complimenting him on his power.

For the rest of his life, he couldn't stand it anymore. If he kept burning like this, this young man would definitely survive.

When he came to the young man's side, Yu Sheng mobilized the internal force in his body and slapped a palm directly. The palm wind extinguished the black fire on the young man's body.

Everyone who was planning to buy medicine at the scene watched Yu Sheng seriously when they saw this scene. Before, they heard Master Ling Atom say that there is no way to extinguish the black soul fire, but the young man actually extinguished the fire when he shot it. Do you directly hit the face of Master Ling Atom?

Although the fire on the young man's body was extinguished, his current situation is not optimistic, lying on the ground dying, the whole person is burning black, and even his breathing is very weak.

Yu Sheng took out a pill from his pocket and gave it to the young man to take it, then no longer cared about him, but instead focused on Master Lingqi.

"Even if he questioned you, there is no need to burn him to death! Isn't this too cruel?" Yu Sheng asked coldly.

Now he can basically be sure that these medicines sold by Master Ling Atom are definitely not panacea, but are used to deceive people.

Grand Master Ling Atom didn't directly anger Yu Sheng, after all, the young man in front of him

extinguished his fire casually, presumably it was not a simple character.

“Why does this fellow Daoist say this? The reason why I made my move was because he was blinded by the devil, and I didn’t intend to kill him.” Master Ling Atom said in a high-sounding voice.

The people present also felt that Yu Sheng was also here to make trouble, and they began to speak their responsibilities to Yu Sheng.

“Master Lingatom doesn’t want to care about you in general. Could you please hurry up? If the master also shoots at you, you will be finished.”

“Hurry up! Don’t stop us from buying the medicine. We just want to avoid getting the flu and stop making trouble, or I’ll be rude to you!”

“If you don’t leave again, we will do it to you!”

### **Chapter: 1167**

Seeing these people standing on his side, Master Ling Atom showed a triumphant smile on his face. The kid who came to make trouble simply didn’t know that the sky was huge. Even if I didn’t make a move, I would be able to drown you with saliva.

For the rest of my life, I didn’t even think that these people would be so disgusted with them. It would be impossible to be very hard-working, so I can only change the method.

“I’m not questioning the master’s ability, but the master Ling-atom said that there is dragon beard in the medicine. I am more curious and more.

I got another plant of this fragrant grass at auction, and the price of this plant is as high as 100 million.

“Yu Sheng said lightly.

As soon as his words fell, everyone present was full of uproar.

How precious is a plant and a plant, it can be sold for 100 million yuan, this is simply jaw-dropping!

Master Lingtou said that precious herbs were used in the pills, but he didn’t think it was so precious that it was worth 100 million yuan. The master would be very kind to them by selling them for five thousand dollars.

At this time, Master Lingqi coughed and said, “I didn’t want to tell you the price of this precious herb. These are just good deeds.”

Master Ling Atom said that the people present were very guilty, and I didn’t think that the master did this in order to help them.

“Master, you are our second parent! Our family will be grateful to you in the future.”

“Yes! Master, it is our second parent, we will be obliged to say anything you say in the future.”

Many people have died from the flu this time, and everyone is in danger in their hearts. The appearance of Master Ling Atom is like a savior for people like them.

Yu Sheng did not expect that because of his own sentence, the situation turned out to be like this. These people have reached a level of brain damage to the blind worship of the spiritual atom master. Wouldn’t they think that a dragon beard would cost 100 million yuan? How much Longxucao does it take to make a thousand pills?

This kind of large sum of money and the consumption of funds, even the Taoist priests with some high-strength cultivation skills can not have so much money.

“Since you, Master Ling Atom, if it is really made from Longxue grass, it is really a magical medicine! I still have some research on Longxue grass. Can I buy a medicine for a look?” Yu Sheng said with a smile, but his eyes were sharp and staring at Master Ling Atom.

Master Ling Atom was a little hairy with Yu Sheng’s eyes, swallowed and vomited dryly and smiled twice:

“Little brother, I think you are also a person who cultivates internal power. These flus are not harmful to you. It is better to leave these elixirs to those in need.”

What he said was very tactful, and he couldn't find any flaws at all. This old way is very shrewd! The rest of my life thought.

“Although I have practiced martial arts, my family also needs it! Is it possible that a master can sell it to others? Can't you just sell it to me? Or is there something shameful in your medicine, I'm afraid I know?” Yu Sheng looked at Master Ling Atom with a faint smile on his face.

Seeing Yusheng's hard work, Master Lingtou, if he refuses, he might still make those idiots doubt that he can only sell it to Yusheng.

Long beard is such a rare thing, even he had only seen it accidentally in ancient books. He didn't believe that the young man in front of him had actually seen long beard, but it was like blowing him up.

Thinking of this, the expression on Master Lingatom's face was a lot easier, and said to the disciple below: “Sell it to this little brother, too!”

### **Chapter: 1168**

After receiving the medicine pill handed by the little Taoist priest, Yu Sheng showed a sneer at the corner of his mouth. It was exactly the same as what he had guessed. A precious thing like Longxucao was priceless at all, and he himself was only at the Chinese Medicine Expo. Only one plant was photographed.

Looking at the black pill Yu Sheng in his hand, he could tell the ingredients inside with just a glance today, except that the flour was mixed with some honey and food coloring.

It is this thing that looks the size of a thumb carapace to sell for five thousand yuan, the total cost of this thing is not worth a few cents, right?

Under the banner of a living god, I slandered and deceived here. For the rest of my life, the same martial artist would feel a little shameful for the master of the atom.

“This is what you call the miracle pill?” Yu Sheng's stern gaze stared directly at Master Ling Atom.

Master Ling Atom felt the aura from Yu Sheng's body, and this strong sense of oppression was absolutely crushing his existence in terms of cultivation.

Is it possible that the young man in front of him has reached the realm of a great master at a young age? Thinking of this, Master Ling Atom has a guilty conscience.

Therefore, the master Lingqi's secret method gave Yu Sheng a voice: “Little brother, I know that you are a capable person and a cultivator. Please give me face, I am willing to give you two-tenths of the money this time, you What do you think?”

Two-tenths, it's only a few hundred thousand, these little money is not worth mentioning in Yu Sheng's eyes, and it is even more impossible to help Lingzi to conceal this matter for the sake of this money.

Yu Sheng jumped and jumped directly to a place not far from Master Ling Atom on the stage, holding up the pill in his hand and saying to the people in the audience: “This so-called panacea is nothing more than flour, honey and food coloring. For this flu, there is no effect at all.

From beginning to end, this spirit atom tried his best to defraud you of money. ”

Master Ling Atom didn't think that for the rest of his life, he would not leave him a trace of face, and he chose to dismantle his stage in this way.

Even in this way, he didn't have a way to take the rest of his life. After all, his strength was not as good as him. It was just a begging.

I can only pretend to be calm, and think of a way to sell these thousand.

“This little brother, why do you say that? If the medicine I sell doesn’t work, then why is the flu in this small village slowly getting better? Is it possible that you did it?” Master Lingtou pressed his heart. Said angrily.

After hearing the words of Master Lingzi, everyone thought about it and felt very reasonable. After Master Lingzi came, Xiaozhaizi’s illness was not as serious as before, and fewer and fewer people were sick.

“Hey! If you dare to slander Master Ling Atom, we’ll be rude to you!”

“Get out of our stockade, you are not welcome here! Get out!”

Seeing that everyone reacted like this, Master Ling Atom showed a smirk on his face. Even if this young man is stronger than him, what can he do if he exposes him? Now these people have unconditionally trusted him and said nothing is useful.

Yu Sheng cast a cold look at Master Ling Atom, he didn’t blame these people for not believing him, after all, Master Ling Atom had been here for a long time and instilled a lot of thoughts into these people, and it was indeed difficult for them to listen to their own words.

Even so, Yu Sheng had to resolve this matter, and would not let this fellow martial artist, Master Ling Atom, slander and discredit their martial artist.

“The reason why the flu in the stockade is so serious is because your preventive measures are good enough. Wear masks and disinfect them frequently. This prevents the flu viruses from spreading, so they slowly get better, instead of using this. The effect of the blending of flour and honey.” Yu Sheng said word by word.

Immediately, with a strong hand, the black pill in his hand was squeezed into powder.

### **Chapter: 1169**

After listening to the words Yu Sheng said, everyone still didn’t know how to judge, and they whispered about.

Seeing these people still hesitating, Yu Sheng took out the World Bank black card from his pocket and held it up and said, “I’m the chairman of Qiancheng Sihai Group. With a faint golden color, even if it is made into a pill, it is golden yellow instead of being pitch black.

Do you think that as the chairman of a large company like Sihai Group, it is necessary to come here to lie to you?”

There were people working in a bank in the crowd. When they saw the card in Yu Sheng’s hand, their eyes lit up and said excitedly.

“I work in a bank and I am the director of the bank. I know this card. This is the black card of the World Bank. There are only one hundred cards in the world, because the person who owns the card is either rich or expensive. assets.

It is absolutely true that he said that he is the chairman of the Four Seas Group. There is no reason for such a big man to lie to us! Is Master Ling Atom really a liar?”

Ten billion in assets is an astronomical figure for the people in their small stockade, and they don’t even dare to think about it.

One of them, a small business owner, saw that the bank card in his hand had only more than 300,000 deposits and felt that it was not good for a moment.

Seeing that the situation is not right, Master Lingatom, they won’t believe what they are saying, after all, the identity of Yu Sheng is there!

So they winked at the four disciples in the audience, and then the four disciples didn’t care about the

pills on the table, and they wanted to go off the hook. After all, the cost of these things was not enough for dozens of dollars and they were lost. What's the loss.

Yu Sheng has been observing Master Ling Atom, grabbing his clothes when they were about to slip away, and said in a cold voice, "Master, where are you going to go?"

Master Lingatom didn't think that he had just moved, and the idea of trying to escape was caught by Yu Sheng. He smiled awkwardly and said: "Little brother, I know you are very strong, so there is no need to take me. Do you want to die? Besides, these medicine pills I sell won't kill people."

Yu Sheng gave a cold snort, and tapped directly on the back of Master Ling Atom's head: "Can you deceive people like this if you can't eat people? The young man was almost burned to death by you before. Don't you feel guilty at all?"

The fellow practitioners used this despicable method to make money, and I will teach you today. "

Master Ling Atom rubbed the back of his head, and said with a grieved expression: "Can't I pay for the medical expenses of the man before the little brother? Please let me go!"

If Master Ling Atom's pill can really eat the dead, Yu Sheng will never let him go. Seeing that he admits his mistakes so sincerely, Yu Sheng does not intend to severely punish him.

"To take out the money you lied to the people in the stockade, do you want me to help you, or do you take it out obediently?" Yu Sheng said with a smile.

Master Lingqi couldn't help swallowing when he saw Yu Sheng's appearance. The young man in front of him smiled so cautiously, feeling that he had seen everything through.

Master Ling Atom covered his pocket and didn't know how to make a choice. In terms of strength, he would definitely not be able to beat the rest of his life, but he had earned all the money with his hard work.

Yu Sheng stretched out his hand with a faint smile at the corner of his mouth and looked at Master Ling Atom, and said, "Are you really going to let me do it? I'm not serious when I do it, and it won't be good to hurt you by then."

As soon as Master Lingtou heard this, he didn't hesitate anymore, and quickly took out the card in his pocket: "This is all my money..."

Yu Sheng directly grabbed the card in Master Ling Atom's hand, then looked at everyone and said, "These people are everyone's, and they will be given to you."

## **Chapter: 1170**

Master Ling Atom watched those people divide all his money, and he felt distressed for a while, because he was afraid of the strength of the rest of his life and he could only watch.

"Little brother, can you let me go now?" Master Ling Atom said with a bitter face.

For the rest of his life, he did not release the hand that grasped the Master Ling Atom, and took out an elixir from the bottle, and said: "Ling Atom, you said that you practiced this pill and it is not harmful to the human body. How can I? Do you know?"

"There is really no problem, as you said before, only flour and honey have pigments." Master Ling Atom explained depressedly.

Yu Sheng shook his head: "I don't believe it. If the pill you practiced can eat people to death, I just let it go like this and it feels a bit wrong."

Master Lingqi felt that Yu Sheng was just being unreasonable, so he took the pill in Yu Sheng's hand and swallowed it.

"See it! I dared to eat it myself, there is really no problem, can you let me go now?" Master Ling Atom

opened his mouth like a mouth, indicating that he had swallowed the pill into his stomach. This pill was made by him himself, and it could be eaten as a candy pill. It was impossible to harm the body at all.

Seeing Master Ling Atom really had eaten the pill, Yu Sheng raised his mouth and raised his eyebrows and asked, "Is it really harmful to the human body?"

Seeing the expression on Yu Sheng's face, Master Lingqi knew that he had just been hit by his conspiracy and that the pill was tampered with by Yu Sheng.

When he wanted to spit out the pill again, but the pill had been absorbed and melted in his stomach, and there was no way to spit it out.

"You...what did you do in this pill?" Master Ling Atom asked angrily for the rest of his life.

If his strength permits, he wants to give the young man in front of him a violent beating. It is simply too bad and he can't guard against it at all.

"What is it, it's just to let you pull your stomach for a month. I think this month will let you understand the mistakes you made before." Yu Sheng said lightly, then turned and left.

The rest of his life had just left when his feet were gone, Master Ling Atom clutched his stomach and screamed, followed by bursts of gas noise.

"Oh, oh, my stomach can't stand it anymore, who knows where there is a toilet?" Master Ling Atom ran around in my stomach, trying to find a toilet.

In the end, he couldn't find the toilet, so he pulled up his pants, not to mention how embarrassed he was.

Although he divided up all the money he scammed, many people still spit on him and threw rotten leaves.

Ling Qi wanted to fight back, but his stomach hurts for a while, and he didn't have time to fight against those people.

The power of this laxative, even in the middle of the Grandmaster realm, has suffered, and Master Lingyuan couldn't help cursing his mother, after all, he still has to pull it like this for a month.

It's the guy from Yu Sheng, and he has to be the master that everyone admires. You wait for me. If one day falls in my hands, I will make you look good, and the spirit atom thinks viciously. .
