

## Dont mess 1171

### Chapter: 1171

There are hundreds of people not far away for the rest of their lives. Everyone is wearing their unique clothes, and the overall look is pleasing to the eye.

The reason why Yu Sheng came here was to find someone who understands Gu worms to inquire, and now these people seem to be locals.

Yu Sheng walked to an older, gray-haired old man and asked, "Old gentleman, can I ask you something about Gu worms?"

The old man raised his eyelids and half-squinted at Yu Sheng. After discovering that his clothes did not belong to the people in the competition, he simply ignored him and continued to watch the activities held there.

Only then did Yu Sheng feel that his question was a bit abrupt. Every place has its own secrets. The most mysterious place in this place of the Miao people is Gu worms. How could it be possible to tell others about this secret?

But his daughter's life is worrying and must be clarified, this time no matter how to find a way to relieve Yuyue's body.

Touching his backpack, the one who came out this time was too anxious and didn't bring any precious things, only the 500,000 cash that Xia Jun had prepared before leaving.

Yu Sheng directly took out 100,000 yuan from the backpack and said to the old man: "Old man, I just want to ask something. If you are willing to say it, the money is yours. If you don't want to say it, you will definitely pay it back. Someone will tell me about the money."

Sure enough, when Yu Sheng took out so much cash, the old man's eyes were straight, and there was no one who could refuse the temptation of money.

After considering it, I think that what Yu Sheng said makes sense. If he doesn't say it, some people will say that it is better to come by himself. By then, the money will be his.

"What are you asking?" the old man asked.

Seeing that the old man had compromised Yu Sheng, a smile appeared on his face, and he said, "That's it. My daughter has a poison that has something to do with Gu worms. The situation is very urgent now. Her stomach has been corroded. , Even the blood was filled with that toxin.

After being poisoned, she became comatose without waking up and developed a high fever. The most important thing is that her blood is also a little green. Old gentleman, do you know what's going on? "

Yu Sheng explained Yu Yue's current situation in detail, and then looked at the old man expectantly.

"I have been in contact with Gu worms since I was a child, and I have never heard of such a situation for decades. I don't know, but I know who can know." The old man said.

Yu Sheng was a little frustrated when he heard that he had never seen it before, but he regained his confidence after hearing the old man say who knew, and asked urgently: "Old sir, do you know anyone who can treat this situation?"

The old man didn't directly answer Yu Sheng's questions, but instead focused on the money in Yu Sheng's hands, smiled twice and said, "You can tell you what you want, you have to give me the money!"

For the rest of his life, he didn't hesitate, and directly handed the 100,000 yuan in cash to the old man's hand: "Now can I say it?"

After squeezing it, Qian Laozi with a heavy hand showed a smile on his face, and said, "We people are

only in contact with the most common Gu worms, so our knowledge of this aspect is not much better than that of ordinary people.

But the saint on our side is different. She was melodic since she was a child and grew up in the holy land. The books in the holy land must have a solution to your daughter's poison. "

Saint?

For the rest of my life, I never thought that the Miao people even worshipped the saint, but as long as there is a glimmer of hope, I must go for the rest of my life.

"Young man, it's a coincidence that you came today. Today is a holy meeting held in five years. It is to choose the guards of the holy place to protect the holy place. When you come to the holy place, you can naturally come into contact with the saint." The old man said with a smile.

## **Chapter: 1172**

Yu Sheng glanced at the hundreds of people not far away. These people squeezed their heads and wanted to win that place. They just wanted to save their daughter, and this shattered their five-year waiting opportunity.

Only when I saw the saint asking her something, in fact, there were no guards who wanted to be a holy land.

"Is there any other way to see the saint?" Yu Sheng asked tentatively.

The old man shook his head: "The saint can not be seen by everyone. Even if the guards of the holy land can meet one side, it is already a blessing. I lived more than seventy years old and experienced several saints. I have no one. Have seen it."

For the rest of his life, it was not so troublesome to think about this, but when he thought of his daughter, he felt that what he did was worth it.

"If that's the case, then I don't have any choice." Yu Sheng glanced at the crowd not far away. As a powerful person in the Great Master Realm, such a person was not enough in his eyes.

"You can't wear this dress! Others will know you are from a different place, come with me! My son's body is similar to yours, and my home is not far from here." The old man said.

Half an hour later, when Yu Sheng came to this place, he had already changed into a costume belonging to the Miao ethnic group. Standing in the crowd was basically the same as the people on their side.

At this moment, the eighty-year-old mother-in-law, who was standing on the high platform and wearing a black and red robe, said to everyone: "The people present are all passionate men of my Miao nationality, and they all want to dedicate their strength to the Holy Land.

It's just that there is only one guard in the Holy Land every five years. Of course, this person must be the bravest and strongest warrior of our Miao nationality. The first person who can cross the back mountainside before sunset on the third day is the warrior we need. .

Anyone who is a stockade should know the danger level of the back mountain, right? I won't say much about this. If you are afraid of life-threatening, you can quit now. "

As soon as the old woman's voice fell, a lot of people walked under the high platform and slowly dispersed. They were all people in this stockade. They naturally knew the danger level of the mountain behind. There were some bears out there, that kind of cruel creatures. It's more than enough to deal with ten of them, and it's hard for people who see human bears to survive.

Although they have gone a lot, there are still a lot of people left, there are about a hundred people, so many people are only fighting for the position of guarding a holy place, and the competitiveness is also very high.

But now that I have joined the rest of my life, it has basically become a suspenseful thing.

When the old woman said that the challenge had started, the people from Bailai ran towards the back mountain one after another, and the speed of the rest of their lives was much faster than them, and in just one breath, the rest of their lives had already left them tens of meters away.

If he advances at this speed, he will not need three days at all for the rest of his life, and he will be able to cross this mountain in about a few hours.

During the rest of their lives, they also encountered wild animals in this mountain, such as wolves and wild boars, because they were too fast for the rest of their lives.

Just when the rest of my life thought this challenge was very simple, an accident happened suddenly. After a few hours, Yu Sheng felt that he should have walked out of the back mountain long ago at his own speed, but he was still spinning in the jungle, carefully observing, and then realized that he seemed to have turned back.

he's lost!

This time for the rest of his life, he deliberately slowed down, and he kept it all the way to remember, and if he walked in a straight line, he would definitely not get lost again.

But it was still a wish, and after more than ten minutes, the rest of his life came to the place where he made the mark at the beginning.

Not discouraged, Yu Sheng tried many methods in a row, but they all ended in failure. This time Yu Sheng was completely confused, and even the north, south, east and west were completely confused. Yu Sheng never thought that he would be stumped by the problem of getting lost, no matter what, he was also a great master.

But now it seems that the great master's strength is also powerless under the extraordinary craftsmanship of nature.

Is it really going to be trapped in this forest? The rest of his life was a little unwilling, but there was no other way.

### **Chapter: 1173**

wait.

Apart from waiting for other challengers to come to this place, there is really no other way to follow them out of this path for the rest of your life.

Previously, because he was too fast, he left those people a long way away. I don't know when those people will reach this place, and it will be a while if they can meet him!

The waiting period is always long. Yu Sheng sat on a big rock and concentrated on cultivating. Not far from Yu Sheng, a group of wild wolves bared their fangs and looked at Yu Sheng, but they were afraid of what Yu Sheng was emitting. The momentum has not dared to attack for a long time, and can only watch the rest of his life with the wolf's head stretched out.

Yu Sheng, whose mental power was released, naturally noticed their existence, as long as they didn't take the initiative to attack themselves, Yu Sheng would not make a move.

Unknowingly, nearly two hours later, the wolves waiting for the opportunity to suddenly reversed their direction, took away from Yu Sheng's body, and looked in a direction not far away.

Not far away, a young guy in his early twenties knocked depressedly on the tree with a small wooden stick in his hand. He almost couldn't lift his legs when he was staggering and tired.

After walking for a short while, the guy couldn't walk anymore, and sat down on the ground, complaining: "This broken place, I knew I would not come anymore, why did I lose it?"

He took out a bottle of water from his backpack and opened the cap. The young man groaned and drank. After wiping the corner of his mouth, he took out a breath of fresh air.

At this moment, he didn't realize that he was actually in danger. A pair of dark eyes were staring at him in the dark corner, as if waiting for something.

The young man is from the Miao nationality named Ran Na. This is also the first time he has come into this forest. Because he walked too slowly, he lost his way with the big troops, and he was alone here and lost his way.

When I was about to close my eyes and take a good rest before rushing on the road, I heard the sound of Xi Xi Suo Suo behind him, turned his head to see that Ran Na was startled, and a little face turned pale from fright.

More than ten meters away from him, five or six wild wolves were staring at him. The big wolf's mouth was half open with sharp fangs, and its saliva was drooping on its mouth, which looked terrifying.

Ran Na is just an ordinary person of the Miao nationality, it is very difficult to deal with a wolf, let alone deal with five or six wolves at the same time?

Faced with this situation, he was frightened and stupefied, his legs were weak, and there was no way to get up from the ground, let alone escape.

Picking up the gravel on the ground and smashing it towards the wolves, there was no hit, even if it was hit, it was just doing useless work.

When the wolves didn't come over, Ranner quickly opened the zipper of the backpack, wanting to see if there were any tools for self-defense inside.

The wolf with dark brown wolf fur on its chest seemed to have seen Ranner's thoughts, raised his neck and howled, and the wolves around it rushed towards Ranner.

The situation became more and more dangerous. Ranner took the backpack in his hand and threw it towards the wolves, but it was empty, and it didn't have any effect.

In the blink of an eye, the pack of wolves ran to his side, and several wolves leaped across the air and bit at Ranna.

At this time, Ran Na was so frightened that he had lost his soul. Faced with this situation, he didn't even have the ability to protect himself. This time he was absolutely dead.

Now he is a little regretful, so he should listen to his parents' advice and stay at home honestly. Why do he have to be the guard of the Holy Land and come here to die!

As a result, the holy woman I dreamed of was not seen, and she lost her life here, maybe even her bones would be eaten by these wolves.

Today, Ran Na has a sense of resistance in her heart, and she has closed her eyes in confession, and can spread the pain of generations throughout her body.

There was only a sound behind him, and the sound of a heavy object landing. After waiting for a while, there was no pain, and then Ran Na slowly opened his eyes.

I saw a young man who was a little older than him standing in front of him. The man was very handsome, and behind him lay five or six wolves moaning weakly.

#### **Chapter: 1174**

"Are you in trouble?" Yu Sheng asked, reaching out a hand, trying to lift the man on the ground.

At this time, Ran Na was still undecided. He thought he was dead this time, but he didn't expect the young man in front of him to be able to kill these five or six wolves at the same time. This kind of ability is amazing!

“Thanks...Thank you!” Ran Na said shiveringly, looking at the corpses of wild wolf on the ground, he still had some lingering fears in his heart.

Yu Sheng did not intend to give the young man in front of him nonsense, but simply asked: “You are also the one who participated in this challenge! Do you know how to get out of this forest?”

Ranner scratched his head in embarrassment, and said embarrassingly: “I’m also lost. Are you too slow like me and thrown off by the big army?”

Yu Sheng didn’t think that the young man in front of him didn’t know how to take this road. As for the question he asked, Yu Sheng just smiled and didn’t even pick him up.

“Then do you have a map or something? If you can’t get out, this challenge will fail. I can’t wait for another five years,” Yu Sheng asked.

“Map?” Ranner said confused, and then thought that his parents had helped him organize his backpack today, maybe there was a map in it.

After trotting, picking up the backpack from the ground and unzipping it, Ran Na saw that there was a map in the backpack. He didn’t even think about it before, but Yu Sheng only knew it after such a little help.

With the map, the formation of the two people speeded up, and there was no need to circle around this place, but after all, Ranner was an ordinary person who was relatively slow in speed. In order to be able to rush to the rest of his life as soon as possible, he directly memorized it. Let him experience what it is like a swift speed.

Ranner was able to blink for the rest of his life, and he knew that he was not an ordinary person when he dealt with the six wolves. Now that he saw his speed, he was even more admirable for Yu Sheng and directly regarded him as his idol.

Lost in the forest during the day and wasted a lot of time, and it was dark after a long time. Fortunately, they also caught up with the big army.

The preparations made by those people were very complete, some even brought tents, and others made barbecues outside.

Ranner also wants to blend in with them, but everyone here is in a competitive relationship. Who will meet whom?

“Don’t you see this place is full of people? Billow, stay in another place.” Ran Yan said impatiently to Yu Sheng and Ran Na.

It is now the most dangerous time in the back mountain. At night, it is time for the big ferocious beasts to hunt. If one or two people are alone, it is easy to be targeted by those beasts.

At that time, it is inevitable to fight with those beasts, even if they survive, they will suffer a lot of injuries, even if they are lucky, they will consume a lot of body.

The reason why Ran Yan didn’t want Yu Sheng two people to stay with them was because he wanted to exclude them intentionally. If two people were missing, then two competitors would be missing.

“Big Brother Yan, if we two sleep alone, we will definitely be spotted at night. If we meet that, won’t we be dead?”

You can do it well, we will stay here for one night, the big deal is that I can give up this challenge myself?

“Jana said pleadingly.

While being a guard in a holy place to see a saint is something that every man is ignorant of, but the most important thing is that his life is important! If there are no small lives, all this is imaginary.

Ran Yan was still very satisfied with Ran Na’s answer, and then looked at Yu Sheng and asked: “You? Are you going to live here with us or live alone?”

## Chapter: 1175

"No need for this. I don't think the place you are in is safe." Yu Sheng said with a faint smile on the corner of his mouth.

Seeing that Yu Sheng didn't live with them, Ran Na had no desire. After all, he knew that Yu Sheng was not an ordinary person, so he passed the map in his backpack to Yu Sheng.

"Brother Yu, give you this map! Presumably I don't need it anymore, I hope you can get what you want." Ran Na said.

Yu Sheng didn't take the map in Ran Na's hands, but took his hand and pulled him from Ran Yan's side to behind him.

"How can your little head, Guazi don't think about something? Isn't it safer to be by my side than by these people?" Yu Sheng knocked Ranna's head and said.

This time, Ran Na woke up, and suddenly realized that the strength of Big Brother Yu in front of him was unfathomable, and naturally there would be no danger in following him.

"Brother Yu, if you don't tell me, I really can't react, indeed! It's safer to follow you."

It's better to get along with those people than to get along with Brother Yu. Ran Na's mood has improved a lot, and he doesn't have to give up the challenge easily.

Even if you can't succeed as a guard, it's a very glorious thing to be able to overcome the challenge, and giving up halfway is a symbol of timidity.

The movement here quickly attracted the attention of the large group of people, and they walked in this direction without getting angry.

"Isn't this the coward Ranner? You rubbish, you still can walk out of the forest, it doesn't seem to be there, it's so useless as I imagined!" The man laughed loudly as he said.

This person is the child of Uncle Ranner's family, and he likes to laugh at him to show off his patience.

"Cut, two wastes stay together, I bet a thousand dollars, they will be eaten by the beast tonight."

"A little white face, a trash, two people together is not enough for wolves to stuff their teeth between their teeth, if you meet that guy, there will be no bones left."

"Since the two of you are not willing to give up this challenge, get out of here! As far as you want, you just spend the night near us, and even if something happens to you, we won't help."

Everyone was really mocking Yu Sheng and Ranner that you were you, and what they said was not at all affectionate, and it was completely unlucky for them to want to see them.

"How can you be so excessive? Anyway, we are also people from a stockade? Doesn't it need to be so ugly?" Ran Na said unconvinced. If his strength allows, he can't wait to fight with these people.

Ran Yan curled his lips disdainfully and said, "Is it wrong that I said you two are trash? A stockade is true, but you can't change the fact that you are trash! Hurry up and don't try to delay time here. "

Ranner's face was very ugly. Although he lived very sullenly for twenty years, he still wanted to be a man in front of his idol.

At this moment, Yu Sheng patted Ranna on the shoulder, and said, "Let's go! This place is not good for a long time, you can breathe out after you rest assured."

Although he didn't understand the meaning of Yu Sheng's words, his savior had already spoken. Ranner stopped arguing with those people, but followed Yu Sheng.

The more I thought about it, the more angry I was when I walked on the road. In the end, Ran Na felt angry and didn't want to look at the road. She just sat down on the stone and became sulking.

When you are in your twenties, you will be able to understand it for the rest of your life.

Not everyone is the same as him, who has trained his composure and forbearance in the Yang family for

so many years.

Patting Ranna on the shoulder, Yu Sheng smiled and said, "Don't worry, those people won't be proud of it for long, they will suffer in a while!"

### **Chapter: 1176**

Ran Na didn't understand why Yu Sheng would say this. Will there be other people who will help him teach Ran Yan's group of people if there is no such thing on the back mountain?

This time the challenge is divided into two groups, one group is the people from the big army, and the other group is him and Yu Sheng. How could there be other people?

Ran Na's eyes lit up suddenly, and then slowly dimmed, and said with a bit of frustration: "Brother Yu and the others are so many, even if they are here, there is no need to be afraid. I don't know how many beasts I will meet!"

"Don't you see that they are staying in the bear's den?" Yu Sheng said with a wicked smile on his face, looking at Ranna.

Ranna's face turned pale when she heard this, she hurriedly reached out her hand to cover Yu Sheng's mouth, and said with some worry: "Big Brother Yu, we are on the back mountain now. Don't mention those two words. Maybe we will be stared at. It's on. Few people who looked at it survived on that thing."

I listened to Brother Yu saying those two words before, and I forgot what he meant? Now I take a closer look and discover the problem.

Ran Na cautiously asked Yu Sheng: "Brother Yu, are you telling the truth? Are they really in the den of that thing?"

Just saying these words, Ran Na's heart felt a cold sweat, and she felt a chill in her back.

Today, there is no moon or stars, and the recognition is relatively dark. The visible light of memory is the bonfire among them.

Ordinary people may not be able to see what is going on around them, but Yu Sheng is a martial arts expert, and has reached the realm of a great master, and has a clear understanding of the surrounding environment.

The place where they set up the tent is much flatter than the road they walked on during the day, and the empty place is relatively large, which is suitable for overnight rest when there are a large number of people.

However, there is a dense weed not far from that place, and under that weed is a hole dug by a human bear. For the rest of my life, I have used my mind to perceive the momentum and there are two human bears sleeping.

The large group of people talked and laughed there, and there was no small movement. Sooner or later, they would wake up those people, and things would happen if they stayed there, so for the rest of their lives, Ranner would not be allowed to follow them.

At this time, I have felt the anger of the human bear, and it seems that those people have already angered the human bear!

Yu Sheng patted Ranna on the shoulder: "Look carefully over there, you will know what I said in a moment, is it true?"

From this place, it is quite clear that there is a large army. After all, there are a lot of bonfires there. Ranner's eyes looked over, watching those people eating, drinking, having fun, dancing and singing. It didn't look like they were taking part in a challenge. On the contrary, it was as enjoyable as camping.

Ranner was a little jealous in his heart, and even thought about it. Joining them, who wants to be isolated?

When Ranner was watching attentively, his gaze unintentionally caught the weed next to them moving, and then a big guy crawled out of it. He was two meters tall and looked very fluffy. Burly.

After seeing this scene, Ran Na was trembling in shock, and even his breathing was a little abnormal. He trembled and said, "Then...Is that...Human bear?"

Almost all the people in their stockade have heard the older generation say that there are such things as bears on the mountain, but they have never seen it in person. After all, few people who have seen it have survived. of.

The group of people actually stayed next to Renxiong's den. What's the difference between directly seeking death? Ranner was scared for a while, but fortunately he was taken away by Big Brother Yu. He even envied them a little bit earlier, and now I feel fortunate when I think about it.

### **Chapter: 1177**

Ran Yan and the others were so happy that no one noticed that two big guys had quietly approached their place.

Ranner, who had been watching from a distance, couldn't help but sweat for them. Now she shouted out to remind them that they would undoubtedly anger the human bear, but if they were not reminded, they would also be attacked by the human bear. This is simply a dilemma.

Really unable to think of a way, Ranner turned his eyes for help on Yu Sheng's body and asked a little worriedly: "Big Brother Yu and the others have been targeted by people, it is bound to die! Can you find a way to save them?"

"They humiliated you so much before, didn't you still want to retaliate against them? Why have you changed your mind now?" Yu Sheng asked with a smile.

"It's not that I'm angry, I hate that they say I'm useless, and that he scolds you, Brother Yu, too, but no matter how you say we are also people in the game, if I don't save my life, my conscience will be disturbed in my life. of.

Brother Yu, I know you are very skilled, can you help them? Please, if you are not sure about dealing with the bear, then forget it. "Rana said.

At this moment, a person screamed out not far away, looking at a position not far behind him with a look of fear, and said: "Ah! Human bear, there are bears here!"

In this sentence, everyone noticed the existence of human nature. The small camp of dozens of people suddenly exploded, and the people who were hiding in chaos and disorder did not know what to do. This situation has always made the situation more chaotic. After all, there is a human bear in front of them, and the other human bear is missing. It is very likely that they will go straight into the tiger's mouth.

Even Ran Yan, who has the most authority here, has no idea. He thought that as long as they stayed together, the beasts on the back mountain saw that they were crowded, so he didn't dare to attack them. He didn't expect to encounter them directly. Human bear.

"Climb to the tree quickly! Just climb to the tree, and they can't reach it!" Ran Yan shouted at the rioting crowd.

Although his personality is selfish and withdrawn, he has to say that his temperament is much more stable than these people, at least he can be in danger, otherwise how could these people let him be the leader.

There are many people and there are only two bears, because many people climb up the trees when they hear Ran Yan speak.

For the men in this place, climbing trees is a commonplace for them, so their movements are very agile, and soon almost all of them climbed onto the trees.

The person who was hunted by the bear was not so lucky, he was slapped with a paw by the bear, and the bones of the whole person's shoulder were broken, and the bear had the fighting power to allow the bear to bite. This is just a few minutes. In the time, seven or eight people have already encountered human bear's poisonous hands.

The people who had been hiding in the tree saw that their companions below were killed, and they couldn't bear it, but none of them dared to save others. In this case, going down is no different from looking for death.

Even if they hide in the tree, these people are still very scared. After all, the animals that come down are not wolves and wild boars, but also brutal bears.

The one who was less able to bear it in my heart cried out directly: "I won't participate in any challenge anymore, I won't participate, I want to go home and never stay in this ghost place again."

The man's cry caught Ren Xiong's attention. After a small human bear bit the victim to death, he looked at the crying man on the tree.

At this time, the man was even more frightened. He almost fell from the tree without being stabilized.

He cried and looked at Ran Yan for help and said, "Big brother, save me, I don't want to die!"

Ran Yan was anxious. If the conditions allowed him, he really wanted to run him away. Originally, the two men and the bear would probably leave after killing a few people. His cry was very interesting. On them.

"Shut up, if you don't want to die, be honest!" Ran Yan gritted his teeth.

But at this time, the smaller man had already walked towards the tree where the man was. After raising his paw and finding that he could not reach, he started to hug the tree and swayed. The man swears not to give up after getting it down.

### **Chapter: 1178**

This human bear is smaller than the other one. Although it is smaller in size, it is also more than two meters tall. When its burly body stands, the tree that the man is afraid of looks a little weak.

The human bear's IQ was higher than that of the ordinary brown bear. Everyone and the two bears grabbed the tree and started to shake.

The young man on the tree was originally scared, but he was stared at by the bear who had been scared and pissed, holding the swaying branch in a mess in the wind.

"Help, I won't take part in the challenge anymore, I want to go home, I want to go home!"

The man kept crying, and it didn't play a role. On the contrary, it aroused the playfulness of the bear, so that he was not shaking the tree and began to slap with bear paws.

Even if the people on the road have great strength to shake them down, the tree can't withstand the impact from below, maybe it will break in the middle.

In addition, the bigger bear also stared at the person on the tree. The tree he chose was the one that Ran Yan climbed up.

As soon as he saw this, Ran Yan's face paled in fright. He didn't even think that the bear would stare at him so quickly, even if he was as calm as he was, he couldn't calm down.

The two human bears were patting the tree at the same time, and the timid man on the other side was

already shaky. It is very likely that he would fall down early without waiting for the tree to be snapped off by the human bear, while Ran Yan was still there and persisted.

Looking at all this from a distance, Ran Na said with a bit of unbearable heart: "Brother Yu, let's save them quickly! If this doesn't pass, they will be killed by the bear again."

With so many lives, even if Ranner didn't say the rest of his life, he would still help them, so he nodded to Ranner: "Let's go, let's go over and take a look."

As soon as Ranner heard that Yu Sheng had agreed to himself, he knew that Yu Sheng's strength would definitely be able to deal with two human bears.

"Thank you Brother Yu, you are really the bravest person I have ever met, and you will surely be able to be the guardian of the Holy Land." Ran Na praised it sincerely.

For the rest of his life, he didn't speak any more and walked towards the large group.

Ran Yan in the tree naturally saw the two of Yu Sheng, and saw that they were walking towards him.

There were some differences in his heart. There are two bears here. Are they really afraid of death?

Or do they have no idea what is happening here? Ran Yan didn't bother to think so much. The situation is critical now, and he may fall from the tree anytime and anywhere.

Since these two people are walking this way, it is better to let them help attract Ren Xiong's attention.

Thinking of Ran Yan, he said to the Ren Xiong under his tree: "Look at the back, there are two Personally here.

They are hunters in the village. They often come to the village with shotguns to hunt. They... once killed a little human bear, you just don't even look at him in his eyes! "

Ran Yan was struggling for the last time. He can only hope that these people can understand what he said and focus on the two of Yusheng.

As soon as Ran Yan's words fell, those dear friends who were slapping the trees stopped and twisted their necks and rushed towards the back of him to look at the two of Yu Sheng.

Ran Yan thought that human bears are not only smart, but they can understand human words. He couldn't help but feel happy, saying: "It is these two people. They also said that they would kill all the bears on the back mountain. And said that there should not be such ugly animals in this world."

The two of Yu Sheng, who rushed to the back, had no idea that Ran Yan would say this.

Ran Na was about to die of anger. He didn't expect that Ran Yan would come out and come up with this set. Isn't it a kindness and revenge?

"Ran Yan, how can you be so nasty and shameless? I begged Brother Yu to come and rescue you. I didn't expect you to avenge you. I should have looked at you before I knew it!" Ran Na said with irritation.

Ran Yan, who was holding the tree, snorted disdainfully: "If you know there will be bears here? Don't pretend to be big-tailed wolves here. I can deal with the bears on the basis of you two? It's ridiculous. NS."

Ran Na's opening caught Ren Xiong's attention, and after letting go of the tree, he ran in the direction where the two of Yu Sheng were.

## **Chapter: 1179**

"Yu... Brother Yu, Renxiong really runs over here like us, what should I do, Brother Yu?"

Ranner hid behind Yu Sheng in fear, the big guy in front of him, but a giant, if he slapped a paw, his bones would be broken.

Seeing this situation, the corner of Ran Yan's mouth showed a sneer, thinking that these two wretched things were gone, but it was really time to help him relieve his urgent brows.

Taking advantage of Renxiong to deal with the gap between Yusheng and Yusheng, Ran Yan got down from the tree. Rather than waiting to die in this place, he might as well run as far as he could.

The other people staying in the tree didn't have his courage. For fear that he would be stared at by the bear immediately, so he stayed on the tree obediently.

Yu Sheng watched Ran Yan's eyes half-squinted, revealing a dangerous aura. This man was too selfish, and he did not hesitate to let others die for him in order to survive.

Immediately after Yu Chan's thoughts moved, an internal force struck Ran Yan's left leg. Ran Yan who was still running was suddenly hit by something on the leg and instantly lost his intuition and fell to the ground fiercely.

When I wanted to get up from the ground, I realized that my left leg was completely incapable of moving, as if it were not his leg, it was very difficult to move, let alone running.

When this happened, it was completely outside Ran Yan's expectation. In this case, there is only one possibility waiting for him, that is, Ren Xiong will find him after killing the two of Yu Sheng.

"What are you guys doing? Come down and rescue me with two of you! My legs can't move, hurry up!" Ran Yan said to the person on the tree.

"Why don't you speak, what do you mean? Don't save me if you die? I order you to come down and save me!" At the end Ran Yan was a little frustrated.

Even this appearance is still of no use, no one cares about him at all. He wants to leave everyone behind and run away, and there is no way he will go to death in order to save a powerful competitor.

On the other side, the smaller man, who didn't shake the timid man from the tree, was a little frustrated. Then he set the target on Ran Yan who was not far away, and walked on a pair of fat chests and legs. Just ran in his direction.

Seeing this, Ran Yan's body was trembling, and he was kind to the life on the tree: "Help me! Help me! I don't want to die! I don't want to die!"

No one would jump from the tree to save him in this situation, and everyone looked at him with pity.

Ran Yan stepped back helplessly, unconsciously looking at Yu Sheng's side, and saw Yu Sheng hit the bigger bear out with a palm of his hand, and the bear fell to the ground with two grunts. There was no movement.

This scene first rearranged his worldview, it was a human bear! It was unheard of that the person who had been treated as a waste by them was able to solve a ferocious human bear so easily.

The current Ran Yan suddenly believed what Ran Na had said before. The reason why they came back was not to admit their mistakes, but really intend to help them drive away the two human bears.

But what did he do? It turned out to be enraged and revenge for them to attract bears with the price of their lives, only to escape like this for themselves.

Ran Yan regretted and regretted his previous actions, but now Ren Xiong has rushed towards his place, and he has nowhere to escape like fish on a cutting board.

Ran Yan's clothes were torn apart by human bear's big scratches, followed by the sound of bones being smashed, and a stern wailing sound mixed with the bear's barking sound.

boom!

Yu Sheng raised his hand and knocked the man on Ran Yan into the air!

## **Chapter: 1180**

Even if the human bear was hit by Yu Sheng with a palm, Ran Yan was already scarred, but fortunately, his life was saved.

Yu Sheng just glanced at the people on the ground and then looked away. After all, his life and death had nothing to do with him, and it didn't matter if he died.

Seeing that the two bears were all beaten to death by Yu Sheng, and they were resolved with just one palm, it was the first time that Ranner saw his admiration for Yu Sheng heavier.

Excitedly coming to Yu Sheng, Ran Na directly knelt on the ground and looked at Yu Sheng expectantly and said, "Brother Yu, can you be my master? I don't want to be treated as a waste by others, I want to be like you."

"Get up! I won't accept apprentices anymore."

Yu Sheng's tone resolutely rejected Ran Na, this time he came to this place to save Yu Yue and other things were out of his consideration.

Although the rejected Ranner was a little bit disappointed, his admiration for Yu Sheng was not diminished at all. Instead, he figured out that it was his blessing to be saved by Brother Yu. How could he be greedy and expect others to accept himself? Be an apprentice and teach yourself martial arts?

The two human bears were all killed, and the people in their hands came down from the tree one after another. They all lowered their heads and did not dare to look at Yu Sheng and Ran Na. They were all a little guilty. After all, they all refused. People sleep in this place.

"Sorry, what we did before was really too selfish, I didn't expect you to come back to save us."

"Janna, and this unnamed warrior, you are the truly brave people. Compared with you, we are not only selfish but also timid. Even if this challenge is successful, we might be lucky enough to be the guards of the Holy Land. There will also be guilt."

"Yes! Only the two of you are truly brave people. We voluntarily gave up this challenge. Thank you for your generosity and saved all of us present."

Thanks to Yu Sheng and Ranna one after another, and everyone's face was full of guilt.

Ranner's face blushed for a while. It was the first time he had experienced this kind of treatment since he was a child. He felt like a respected hero. That feeling was really amazing.

Although he didn't kill the human bear, and everything now was tainted for the rest of his life, Ranner still enjoyed it.

Yu Sheng himself was relatively plain, and he just nodded to deal with the human bear's corpse. The creature like the human bear is also recorded in the Nine Profound Heavenly Sutra.

Although there is a character in its name, it does not actually have the same physical characteristics as people. It is just that the bear is bigger, covered in black hair, and has a higher intelligence and can understand people's words.

This kind of animal has a very strong killing heart, because it reminds the bigger reason that the appetite is also very large, so as long as they see them, all the animals that can prey are killed.

His whole body is full of treasures, such as its black fur, which is the finest fur, used to make winter clothes, even in minus 50 degrees flying weather will feel very warm.

The best thing is its strong flesh, which can bring great benefits to the cultivator to strengthen the body and improve the physical strength. Of course, the benefits that can be brought to the realm of the great master of Yu Sheng are very small, and it is worth a visit. What is mentioned is that its meaty taste is very good.

Yu Sheng's hand was extremely sharp, peeled off the outer skin and cut off two large pieces of meat from the bear's legs, and then handed the piece of meat to Ranna, who was standing there stupidly.

"What are you doing in a daze? Don't you be hungry if you drink some water when you have something to eat? This bear's meat is very delicious even without spices." Yu Sheng said.

Not to mention still feel hungry, Ranner touched his shriveled belly and then felt the hunger pangs in his heart. Yu Chenggong imitated the rest of his life sitting on a rock man and eating barbecue by a campfire.

In a short while, the meat was almost cooked, the rich smell of meat overflowed, and the people on the side were drooling with the smell of meat.

One of the more courageous asked Yu Sheng: "Hero, can I also eat a piece of bear meat?"

Yu Sheng focused on roasting the meat that he had started, and there was no one who spoke, and said casually: "If you want to eat it, roast it yourself, don't ask me, as long as you don't worry about the piece in my hand."

When everyone heard this, their eyes were full of joy, and one after another they took out daggers from their waists to cut the bear meat and roast them.

A group of people surrounded a large bonfire, roasting meat and eating there very comfortably. It looked very harmonious, and it didn't have the feeling of rattling before.

Early the next morning, Yu Sheng set off again, this time he didn't bring Ran Na with him, and he left with a map alone.

Bringing Ranner was too much time, slowing his schedule by more than doubled. After last night, those people regarded Ranner as a hero, so naturally they would not target him again.

Even if Yu Sheng offered to bring Ranna, he would not go with him. Seeing Ranna's appearance, he still didn't enjoy enough time for the stars to hold the moon.

After letting go of his hands and feet for the rest of his life, he quickly reached the designated destination.
