

## Dont mess 1331

### Chapter: 1331

“Are you sure you want to help me?”

In the hotel, Su Hui is sitting on the sofa like a queen, holding a burning lady’s cigarette in her hand. At this time, the temperament she exudes is different from when Gen Yusheng was together.

The person sitting opposite her was the man who wanted to curry favor with Ogawa Ichiro. With a faint smile on his face, he said confidently: “This is natural. I think you and Mr. Yu are a natural match!”

You are so beautiful. You need a figure, a face and a face. You are much more beautiful than the big stars on TV, and Mr. Yu is a dragon and phoenix. Only this kind of man with assets of more than 100 billion can be able to do so. Worthy of you! ”

Hearing these words Su Hui showed a satisfied smile on her face, and she also felt that she was born beautiful, just to marry the top rich second generation. The reason why Yu Sheng rejected her was because he still didn’t realize that he was good.

Talking about the middle-aged man here, he paused, then changed his tone and sighed and said: “But Ms. Su, although you are a perfect match for Mr. Yu, Mr. Yu seems to have feelings for Miss Xia. It’s not that you look better than Miss Xia. I think Miss Xia and Mr. Yu have known each other for so long, but you have only met a few times. If you want to make Mr. Yu fall in love with you, Miss Xia is the key.”

Su Hui thought about it, and felt that what the middle-aged man said was very reasonable. Yu Sheng was so indifferent to him, perhaps because of Xia Feixue.

Ming Xia Feixue has been pursued by Ichiro Ogawa, who is a giant in the Japanese catering industry. Such a man’s family is good enough, so he should give it to himself for the rest of his life.

Thinking of this, Su Hui pressed the cigarette butt in the ashtray, and her expression became very serious.

“I understand all these things you said, so what do you want to do when you ask me specifically? Just tell me what you want me to do!” Su Hui looked at the middle-aged man and asked.

As soon as the middle-aged man heard Su Hui’s words, he knew that the matter was done. In this case, he didn’t need to be anxious. He stretched out his hand and said, “Miss Su, let me introduce myself first! My name is Ma Gang, and your name is Ma Gang. My pony will do it.”

Su Hui just glanced at the man’s hand, and she didn’t stretch out to shake hands with him, and faintly hummed, “Just say something! I don’t like wasting time.”

Ma Gang stroked his chin and said with a smirk: “It is natural to find Miss Su to get what you need. As you know, my boss is Mr. Ichiro Ogawa, and he has a soft spot for Miss Xia...”

Ma Gang said that Su Hui directly interrupted him, and said with a cold snort, “You want me to use means to get Xia Feixue and Ichiro Ogawa together, right?”

Ma Gang showed a wretched smile on his face and nodded: “As long as you can help us get Miss Xia and Ichiro Ogawa together, then Dragon and Phoenix will naturally be your son-in-law in a person like Mr. Yu.”

He said that Ma Gang just walked to Su Hui’s side and patted her on the shoulder. The soft and smooth touch on his hand made him a little bit fond of it.

Su Hui is really a big beauty, but these women are not something he can dream of. For the present, he can help Mr. Xiaochuan get Xia Feixue.

As long as Mr. Ogawa’s favor is given, he will surely be able to survive in the market in the future. What

kind of woman does he want by then? Not to mention Su Huile in front of him, even a beautiful woman like Xia Feixue might embrace him.

Dispelling the distracting thoughts about Su Hui's beauty in his mind, Ma Gang said profoundly to Su Hui: "At that time, you will be Mrs. Yu, the wife of the chairman of the Four Seas Group, with hundreds of billions of assets. What kind of scenery is unnecessary. Let me talk more? A smart person like Miss Su must have his own ideas."

Su Hui's mind is still imagining the scene at that time, and she feels at the top of the right, and she no longer has any hesitation. Su Hui directly said: "I promise you! Just say what I need to do!"

Ma Gang took out an invitation letter from the pocket of his suit and said, "This is the first restaurant opened by Mr. Ogawa in Huaxia. It will officially open tomorrow. At that time, you only need to bring Miss Xia."

Ma Gang's words were light and fluttering, but how could Su Hui not understand that there must be some twists and turns in this.

When others wanted to design against Xia Feixue, Su Hui would definitely be the first to stand up and protect her, but friendship was too small compared to power.

Su Huizhen had any hesitation, and directly accepted the business card: "Don't worry! Just teach me this thing, but don't forget what you promised me."

"That's natural!"

### **Chapter: 1332**

"Master, why didn't I understand what you were talking about just now?"

Seeing Su Hui walking far away, a coquettish beauty in a bunny girl costume came out, entwining Ma Gang like a water snake, and asked charmingly.

Ma Gang lighted a cigarette and took a sigh, then hugged the woman's waist, and said with a smile:

"What I just said is a good opportunity for me to get promoted and get rich!

When the time comes, I'll be stunned, and naturally I will have your share."

Looking at the woman with her arms around, the smile on Ma Gang's face slowly disappeared. Although the woman in her arms is considered a big beauty, but after seeing Su Hui's beauty and looking at the person in front of her, she feels it is a rouge vulgarity. The powder is tasteless.

A woman like Su Hui seems to be quite smart, but in the final analysis, she is still dazzled by benefits. As long as she helps Mr. Xiaochuan do this thing well, Su Hui is not what he wants by then.

"Master, you have to say what you say, don't forget me." The woman said with her arms around Ma Gang's neck.

Ma Gang was teased by a woman. They came to this place to do business, but they were delayed by the rest of their lives.

With his arms around the little fairy in front of him, Ma Gang went straight back to the room and closed the door.

.....

After Yu Sheng left the hotel, he went home to the company. The more he thought about it, the more he felt that Su Hui had a problem with her brain. He had seen a woman who took the initiative to embrace him. It was the first time he saw Su Hui like this. He went straight to the hotel. I want to take myself down.

I thought that Xia Feixue's friends should behave similarly to Xia Feixue, otherwise it would be difficult to play together, let alone two people or best friends?

At the door back to the Sihai Group, Yu Sheng stopped and didn't get in, and turned to go elsewhere. This time he didn't plan to drive, and he just drove a car.

Along the way, the driver's eldest brother was very enthusiastic and chatted with Yu Sheng about all the daily routines, and Yu Sheng was pretending to have only one sentence in his heart.

"My little brother, where are you going? I've been driving aimlessly for ten minutes. When the time comes, don't you say that I am a black car driver who scams you?" The driver said jokingly. .

Looking at the scenery outside the window, Yu Sheng felt confused. He always felt that something bad was about to happen, but he didn't know what was going on. His heart was particularly uneasy, and there was no way to calm it down.

After thinking about it for a long time, I still didn't think about where I was going. In the end, I could only sigh helplessly. Perhaps I was thinking too much!

"Forget it! Master, you should take me back to where I was before!" Yu Sheng said.

The driver's eldest brother felt a bit inexplicable. It was the first time he encountered this situation as a driver for so many years. He didn't know where to go when he took a taxi. After running for so long, he let him go back.

Although I think Yu Sheng is a bit weird, as long as he gives the money, it will be fine.

"That's OK, I'll turn my head and go back." The driver's eldest brother said, then turned the front of the car and sent the rest of his life back to the entrance of the Sihai Group Building.

.....

Surrounded by mountains on the outskirts of Qiancheng, Du Fei and his brothers were walking through the jungle. They walked, watching the surroundings vigilantly, for fear of something coming out of the invisible bushes.

"Brother Fei, we must have been walking for two days and two nights. There is not much food and water left. I don't know if we can go out from this place. We knew this would happen. We Why not come!" A little brother behind Du Fei complained.

Du Fei's face sank as he heard these words, but he looked at the man coldly and said nothing. The kind of hostility on his body scared the little brother who had spoken before.

Du Fei's personally Li Feng kicked the person who had spoken before, and kicked the person directly to the ground.

"If you dare to complain, believe it or not, I will kill you now. Anyway, we don't have enough food, so we can just use you as a ration." Li Feng said angrily.

The man who listened to this was scared and pale. He had been with Du Fei for a while. He naturally knew what Li Feng was like. He was cruel and cruel. If someone else said this, he might not let go. In my heart, I think this is joking with him, but this is what Li Feng said, so it would be 100% in good shape.

Du Fei held Li Feng's shoulder, looked not far away and said, "This is not the time of civil strife. Look over there if there is a small village."

### **Chapter: 1333**

All of them looked in the direction Du Fei was pointing. Not to mention that there was a small village not far away. Although the village was not all big, it looked like it was inhabited.

If there were people, they would be able to walk out of this ghost place. They had been lost in this place for two days and two nights. They thought they would be trapped to death in this place, but they did not expect to be able to wait until the village.

At that time, I went to the village to recuperate for two days. I had a good meal and a good night's rest.

When I left, I brought some dry food. Then I asked the people here about the specific way. There was no problem when I went out. .

Du Fei's tense heart slowly relaxed when he saw the small village, opened the zipper of the schoolbag on his back, and took out a yellowing herb from the inside.

The medicinal herbs just took out from the backpack, and a strong medicinal fragrance filled the surroundings. I was tired before watching a few people suddenly become full of strength after smelling the medicinal fragrance.

As the underground king of Qiancheng City, Du Fei was supposed to spend time in the cherry blossom party and enjoy it. Ever since I overheard Zhu Xiaoshu saying that there is a herbal medicine on the Taihang Mountains, it is very magical.

Du Fei is not interested in any research on herbal medicine, but what Yusheng needs for alchemy is some precious herbs, maybe this Linghui grass can be used for the rest of his life.

Thinking of this possibility, Du Fei came up on a whim and planned to surprise Yu Sheng and get this thing called Linghuicao. He thought he was looking for herbs on the mountain.

At that time, Du Fei thought about bringing more people. It would be more convenient to find more people, so Du Fei brought more than 20 brothers when he went there.

The journey at the beginning was very smooth. More than 20 people came to the Taihang Mountain. At night, things took a turn for the better. Even if they were armed with guns, they were attacked by wild animals and killed several brothers at night. .

Of the casualties that died along the way, there were only five of the more than twenty brothers left. The casualties were too great, but these were beyond Du Fei's control.

Fortunately, the emperor paid off, Du Fei accidentally fell into a cave and found the yellow grass from the cave.

After finding what he was looking for, coupled with the danger of this, Du Fei didn't dare to have the slightest greed and wanted to take his only brother back, but after walking for a while, they realized that they were lost.

I have been trapped in this place for two days and two nights, until now in a small village not far away, this is a glimmer of hope.

"I'm almost resting, right? Let's hurry! As long as we walk into that small village, we will be able to eat meat and drink without having to suffer in this bump." Du Fei said loudly.

As soon as several people heard this, they instantly gained strength. Sleeping on a warm bed didn't have to be bitten by mosquitoes and fear of beasts and the like.

Fortunately, the village is not far away from them, but the mountain road is a little difficult to walk. It took them two hours to get to the place, and by the time it was dark.

The village was lit up with bright lights, and everyone who saw this scene showed gratified smiles. If there are lights, it means that there are people in this village.

A group of people came to the door of a house, Du Fei's men wanted to kick the door open with one foot, but the look in Du Fei's eyes was not easy to take presumptuously.

Du Fei didn't use violent means, and knocked on the door politely. After a while, they heard footsteps, and then the door was opened.

#### **Chapter: 1334**

The one who came to open the door for Du Fei and them was a young man in his twenties who looked strong and had clean clothes.

When he saw this man, Du Fei's eyebrows wrinkled subconsciously, and he was also wary of the young man in front of him.

People living in this mountain should be simple and honest. Even if Du Fei thinks his thoughts are a little too objective, most of the people in the mountain should have dark skin and have calluses on their hands. It is even more impossible to think so clean.

The young man opened the door and saw a few men still very surprised. He looked at them with a vigilant face and asked: "Who are you? How come you are here?"

Du Fei's subordinates are already tired and have no strength. As long as they enter the house to eat a special meal, and then sleep beautifully, they will be lazy to talk nonsense with the young man in front of them.

The man who had previously complained to Du Fei took out a small amount of money from his pocket, and directly hit the young man's body and ordered: "The money is for you so that we can borrow here for one night. Hurry up and prepare something to eat. Point! I'm almost starving to death."

Du Fei originally wanted to say something, but seeing that the other two people looked like this, he also understood that they were exhausted and wanted to take a good rest.

Although he was a little wary in his heart, Du Fei was also very tired at this time.

The young man took the stray banknotes and ignored these people and went to the kitchen to prepare to eat.

Du Fei entered the house and found that the decoration inside is still very good. What kind of comfortable soft sofas and large beds, mahjong tables and other things are very modern.

Du Fei feels that if this place can be connected to the Internet, there will even be computers and mobile phones, or smart homes and the like.

Not only Du Fei felt that something was wrong with this place, but his three subordinates also felt that this place was a bit ridiculously good.

"The mountains in the movie are very simple! Thinking of the small villages in the mountains in reality is still very good!"

"It's really good. There are poker cards here. We were able to fight the landlords in two rounds while the kid was about to eat."

The three of them finally relaxed, and Du Fei didn't plan to care about that much. After all, these brothers came here to help them find herbs, and it was not easy for them to be born to death.

Li Feng didn't join them, and came to Du Fei's side, and whispered: "Brother Fei, I always feel something is wrong with this place, and that young man is a bit weird. I shouldn't leave this place for a long time and leave me early tomorrow morning, right?"

"I think so too. The mountain is the time when the beasts are out at night. Stay here for one night. We will leave tomorrow. As long as we are alert, he won't have a chance to start." Du Fei said faintly, looking through the window looked towards the young man preparing food in the kitchen.

Several people were having fun playing cards. Du Fei and Li Feng were carefully observing the room. In about an hour, the young people had prepared a lot of food.

There is everything you need for big fish and meat. Looking at the dazzling array of delicacies from the mountains and seas on the table, the saliva of the hungry people is almost flowing into a river, but they don't dare to eat without Du Fei's order!

The young people seemed to see why they didn't dare to move the chopsticks, so they took the initiative to pick up the chopsticks on the table, took a bite of each one, wiped the oil from their mouths and said, "I've tasted every dish now, you guys. You should rest assured, right?"

When the young man was trying dishes, Du Fei had been watching carefully and found that she didn't have any tricks, and then he gave her subordinates a look.

With Du Fei's answer, everyone didn't have any scruples. They opened their belly and ate a lot. Du Fei and Li Feng also ate.

After everyone was eating, the young man slipped out of the house silently...

### **Chapter: 1335**

Du Fei and Li Feng discovered that something was wrong when they were all eating and almost forgetting themselves. Although the young man didn't poison the food, there is no sign of it now. Du Fei yelled several times without seeing the young man coming out, and the uneasy feeling in his heart became stronger and stronger.

Putting down the chicken legs in his hand, Du Fei yelled to everyone: "Don't eat, let's go, there is danger here!"

Although everyone didn't know why Du Fei said this, and he didn't find out where it was dangerous, Du Fei's subordinates were still very obedient to his orders.

As soon as the crowd got up from their seats, a noisy sound came from the door, and then the door was pushed open, and a group of strong people rushed in from the door and surrounded them.

When Du Fei saw this, he took out a gun from his body and pointed it at the head of the head. It was not just him who threw the enjoyment and robbed him? Everyone who broke in suddenly had a gun in his hand.

Everyone has a gun, and looking at their situation, it seems to be stronger than the Sakura Club. This is not something that people in the mountains should have, and why are such a powerful group of people willing to stay here?

Li Feng was immediately angry when he saw someone else's gun pointed at Du Fei's head, and immediately thought of killing those people.

It was Du Fei who pressed Li Feng's hand when he wanted to take a shot, which made Li Feng not be beaten into a beehive.

"Brother, is there any misunderstanding between us? I asked my group of people to come to this mountain to find herbs. The journey was bumpy, so they went to the small town to recuperate. Besides, those of us who are recuperating here have also given this young man 50,000 yuan, which is not a bad treatment to him. If we have anything wrong, we can say, why do we have to face each other with swords?" Du Fei asked with a smile.

Everyone thinks that his words have reached this point, and these people will give him a bit of shame no matter what, but he also didn't think that the group of people not only listened to him, but was the leader. The man fired a shot directly at Du Fei's leg.

boom!

With this bright gunshot in the silent night, with a special ear, blood was splashed on Du Fei's legs for a moment, and then a blood hole appeared.

The strength of a single leg could not support his body. Due to the intense pain, Du Fei fell to the ground. He shook the gun in his hand fiercely, and his teeth were about to be crushed.

He also has the right to shoot at everyone, but even if he hits someone, it is just a shot. Can he cure the disease? It's still a problem, but he is bound to die with so many people on the other side.

When Li Feng saw that others had actually acted on Du Fei, his entire face became gloomy, like a Shura in a furious situation.

Du Fei is his elder brother, and he has saved his life many times. Even if this kind of kindness takes his life in, Du Fei can't bear this kind of humiliation.

Don't look at Du Fei and the five of them each holding a gun in their hands, but they actually experienced a pack of wild animals when they came, and their bullets were running out. There was only one bullet left in Li Feng's gun. , And Du Fei only had two bullets. The other people's guns had no bullets to prove it was an ornament.

"He is the king of the underground forces in Qiancheng, today I want to see who dares to move him! I want to move him unless I step on Li Feng's corpse!" Li Feng said angrily to everyone.

Those people didn't even think that someone would come out and take the initiative to find death, or that the person who was hit in the leg before was actually the underground king of Qiancheng.

They don't care about these things at all, as long as they come to this place, then they are the bosses, and what others say is of no use.

Du Fei was a little anxious when listening to Li Feng's words. He understood Li Feng's intentions, but in this way, didn't he want to die for himself?

Sure enough, the attention of the group of people moved away from Du Fei's body and began to target the man in front of him who was like a block of ice.

### **Chapter: 1336**

"Give him a shot too, look at him so hard, and aim it at his shoulder. I will see if he can harden his mouth by then." The leading man ordered his opponent.

Hearing the boss's instructions, one of the men aimed at Li Feng's shoulder and fired a shot. Du Fei raised his heart when she saw this situation, but when she wanted to remind her, the bullet of the gun had been shot out. .

Although Li Feng has a cold personality and a bit cruel, but his strength is really strong, not comparable to Du Fei's general subordinates, he was prepared for the situation just now and dodged his body.

The person who fired the shot saw that this shot was not hit, and then shot a second shot at Li Feng's shoulder. This time the speed was too fast. Li Feng didn't have any chance to dodge at all, so he simply didn't dodge. Yes, the same gun was taken out and aimed at the man's head, and the two shot at the same time!

boom!

The two gunshots sounded almost at the same moment, with only one sound. Li Feng's shoulder was directly pierced by the tremendous power of the gun bullet. The blood splattered even the white wall behind him was stained red.

And the young man who shot Li Feng had no such good luck. Li Feng aimed his eyebrows and killed him with a single shot.

When the leader saw this situation, he was immediately angry! His subordinates were actually killed in front of his own face, which is simply as if he didn't exist.

"Kill! Beat this person into a hornet's nest!" The leader threw the cigarette on the ground fiercely, and ordered to his men.

Du Fei's pupils shrank violently when he saw this situation, and he planned to drag his injured leg to fight alongside Li Feng. Li Feng was just because of him, and this caused the opponent's anger, even if he was about to die. , They have to die together!

Just taking a step forward, Du Fei's other three subordinates glanced at each other, and they came directly at the back of Du Fei's neck, and Du Fei turned his head in surprise.

“you?”

Before he finished speaking, his eyes fainted.

In this case, even if Du Fei and Li Feng fought side by side, they would not be their opponents. Instead, they would all die. Du Fei would be their boss no matter what, so he couldn't just watch him die.

Li Feng heaved a sigh of relief after seeing Du Fei fainting here, and smiled at the three of them, looking like they were silently thanking them one by one.

Brother Fei, you picked me out from that place. If it weren't for you, how could you have the current Li Feng? You not only rescued me from that place, but you also regarded me as a cronie by your side and gave it to me. I have the right to come forward every time I encounter distress.

You are not my real brother, but I have more affection for you than those parents who have not met.

People are mortal, and it is my greatest honor to die for you.

If there is an afterlife, I am still willing to be your brother. I will be the first to be born into death. I will follow wherever you go, whether it is up to the sword or down to the sea of fire. I, Li Feng, can't help but never blink my eyes as long as it's where you Du Fei goes.

In this life, our brotherhood will end today, Brother Fei, you must live well.

Li Feng reluctantly glanced at Du Fei, the gunshots around him were everywhere, and every shot was so close to him, and some of them passed directly through his ear.

It is impossible for him to survive now, and it is also very difficult to fight back, after all, the gun in his hand has no bullets.

Bang bang bang...

Just as Li Feng was racking his brains to think about what to do, the gunfire sounded again. This time he was not as lucky as before. He was shot in his left arm, and he could hardly feel the arm when it hurt. Existed.

There was really no way to do it. If this goes on, there will only be a dead end. Li Feng squeezed the gun in his hand, pointed it at the head of the man and smashed it.

This behavior of Li Feng undoubtedly became a living target for everyone by exposing his body to everyone's eyes.

As soon as he emerged, several blood holes appeared in many places on his body. With one shot after another, Li Feng no longer had the energy to dodge before, and he was directly beaten into a blood man with about thirty in his body. The multiple blood holes are shocking to see!

And the gun he threw out desperately in the end also hit the head of the leader without error.

Surprisingly, the gun plunged directly into the man's head.

This situation is simply unheard of. Putting a gun into your head is incredible. The hardest part of the human body is the skull, so how powerful is Li Feng!

### **Chapter: 1337**

“Boss, boss!”

The group of people yelled at the man lying on the ground with a gun in his head, but the man just lay on the ground without any response. Obviously, he should be dead.

The boss is dead and some are happy and some are worried. A man named Xiong Gang walked out and said to all of them: “Now that the boss is dead, I will take this position first. Let me lock up these three people first. I will contact the above to ask how to deal with this matter.”

This man named Xiong Gang, except for the dead boss, was the most useful person to talk in this place, so he should have commanded everyone.

After seeing all his men left, Xiong Gang didn't even call him, and looked at the corpse on the ground with the gun stuck in his head with a joking expression.

Stepping forward, Xiong Gang raised his foot in leather shoes and stomped on the face of the man's corpse, and then smashed it hard.

"Before you always wanted to push me down. I don't have your background and can only be your subordinate. With my strength, I should have taken over this place again.

Don't you just have a relationship with the above? Now people don't have anything when they die, tusk tusk tusk! Look at how terrible you died!

You don't have a chance to wait until those treasures in the back mountain mature, and then I will be able to get the above reusable progress!"

Xiong Gang said, Yang Tian laughed today, his smile was very comfortable, and he seemed to release all the depressed things in his heart.

.....

The basement was dirty, messy, and damp, and there were rats and bugs. Four people were thrown into this dark and narrow place.

I don't know how long it took, Du Fei woke up leisurely, and the pain in his neck reminded him of what happened before he fell into a coma.

"Li Feng!" Du Fei couldn't see the people around him clearly. He only knew that there were people around him, but didn't know who it was, so he could only call out.

After waiting for a while and no response to him, Du Fei's feeling of anxiety became stronger and stronger. Anxiously, he grabbed the people around him and asked, "Li Feng? Why is he here?"

Du Fei's subordinate Shen Shi stammered and said: "Brother Fei, don't worry, Brother Feng has upset those people, so he doesn't have to be locked up with us."

Hearing these words, Du Fei let out a deep sigh of relief, and removed the big rock in his heart, released the hand that grabbed the man, and said to himself: "Nothing is fine, no Everything is fine."

Knowing that this matter is not that simple, Du Fei still chose to believe what Shen Shi said. Li Feng is his right-hand man. If he really died for himself, he might not be able to accept this reality.

Now I can only forget about Li Feng, and if I want to go out to save him, I can only go out of this place first.

But here it's black and black. You can't see anything. Since you can't see Du Fei, you can only touch around and make sure that there are no exits around. The only exit can only be on the top.

Du Fei pushed hard on his body, but couldn't push it away. Not only did he use something to hold it down, he also locked it with a lock. There was no possibility of escape.

The only way out was blocked, and they could only take the opportunity to escape when someone outside brought them food.

It was unlucky enough to get lost from the mountain road before, and finally came across a small village to have a good rest. I didn't expect this place to be a wolf's den.

Du Fei was very helpless. Perhaps his choice to come to this place was wrong. He found the herb, but he had no life to live and give this good thing to the rest of his life.

This is the consequence of impulsiveness and recklessness!

Days passed, and several stayed in this dark dungeon for two full days. During this period, no one came over to deliver a sip of water and a bite of food.

People are iron rice and steel. They are hungry if they don't eat a meal. What's more, Du Fei is so hungry that he is too hungry, lying on the ground weakly and too lazy to move.

The rats and insects in the dungeon were all eaten by them, and if they continued like this, they would starve to death here alive.

Just as they were desperately waiting for death to come, there was movement above their heads, the sound of keys being inserted into the locks and iron chains.

### **Chapter: 1338**

“Those people are going to bring us food, and we won’t starve to death.” Shen Shi said excitedly, remembering that he was going to go for a gourmet meal, and licked his chapped lips a little greedily. Du Fei was not as excited as the three of Shen Shi, but watching quietly, instinctively made him think that this matter was absolutely not that simple.

Those people threw them in this dark place, and they had never even given a bite to them. Now there is absolutely no good intention to open the lock.

The door of the dungeon opened, and the dazzling sunlight came in. The four people instinctively closed their eyes, and then they slowly adjusted to it.

The person who opened the door was Xiong Gang, as well as his group of men. When Xiong Gang opened the dungeon door, he was quite surprised when he discovered that the people inside were still alive.

“Yeah! The four of you are still alive, but I will send you on the road right away.” Xiong Gang said with a smirk, as if killing people in his eyes is a very random thing, and life is not in his eyes. value.

When Du Fei was in Qiancheng, others would be timid to hear of Du Fei’s name. The existence of an underground king was almost like an emperor. This was the first person who dared to speak to him like this.

If you put everything in place, people like Xiong Gang would be chopped into mashed meat and fed to dogs, but now Huluo Pingyang is being bullied by dogs, even if Du Fei’s hand is well out of reach, they still have guns.

The only way now is to endure, but there is no way to calm Du Fei’s mood when he thinks that Li Feng is still alive and dead.

Du Fei glared at Xiong Gang and asked, “Where is Li Feng now and what did you do to him?”

At first, Xiong didn’t know which Li Feng mentioned in Du Fei’s mouth was who, but when he thought that they were five people, that one died, presumably that was Li Feng.

“You are talking about the man who inserted a gun into my old head! He was beaten into a hornet’s nest and threw it to the back mountain to feed the wolves. Now I must have eaten by the wild wolves and there is no bones left.” Xiong Gang sneered. Said.

Du Fei’s face slowly cooled down, his eyes turned to Shen Shi, and he asked coldly: “I was lying to me before, and Li Feng died in the first place.”

Shen Shi huddled in the corner without daring to say a word, and could only silently endure Du Fei’s anger.

The Xiong on the side just looked at the scene in front of him and found it very interesting. He smiled and urged Shen Shi to say: “You are really useless. You are still afraid of him when her mother’s death is approaching. If you go up and fan him at night Two slaps, I will let you be my little brother, rebellious against a dog’s life.”

Shen Shi, who was still curled up, immediately became energetic when he heard these words, right!

What Xiong Gang said was wrong, and now they are dying, why are they afraid of Du Fei.

Even if he is the underground king of Qiancheng City, he is trapped here now, it is nothing. Since he can

survive by slapping him twice, why not do it?

Shen Shi swallowed, still a little scared in his heart, after all, the man in front of him is also a figure in Qiancheng.

“Shen Shi, do you have to do something against Fei to survive? You are still not a person?” Du Fei’s hand stopped in front of Du Fei and asked Shen Shi.

“You are jealous of me. If you can survive, you must be more anxious than me. Besides, we were all brothers before. As long as you are slapped by me, I can survive. You should stand there and be beaten honestly!”

Shen Shi walked over as he spoke, but the two stopped in front of Du Fei and said nothing to go away. Shen Shi was a little angry. These two guys just didn’t want to live to be jealous of him!

After eating for a few days, standing up and walking, legs were floating, and it was difficult for Shen Shi to push these two people aside.

Xiong just winked at his men on the side, and the two men immediately walked over and threw the person blocking Du Fei aside.

There was already no one who could stop him in front of him. Shen Shi slowly raised his hand and was about to slap Du Fei’s face.

Du Fei didn’t even stretch out his hand to block it, and let the slap on his face. If he could survive, it wouldn’t matter if he was a little wronged.

After all, he was ashamed of these people in this matter, because he died so many brothers that he was trapped in this place.

With one slap and two slaps, Shen Shi didn’t even think that Du Fei didn’t resist at all after finishing the slap. He looked back at Xiong Gang and Shenshi asked: “Boss, I have finished slapping twice. Can you let me go.”

Xiong Gang sneered, took out a gun from his waist and pressed the trigger on Shen Shi’s head. With a “bang”, Shen Shi fell to the ground.

### **Chapter: 1339**

“It’s just a traitor who is afraid of death. When you come to this place, you really think you can get out alive. It’s a foolish dream.” Xiong Gang said disdainfully.

Du Fei, who watched this scene, closed his eyes, feeling a little sorry for Shen Shi. This group of people were cruel and it was absolutely impossible to let them out.

Du Fei was able to do it now because he looked down on life and death, and relied on the drive to not fear death. He was not afraid of dying in this place, but felt a pity, and he didn’t have to give Linghuicao to the rest of his life.

“You said you got 50,000 yuan from them. If you lie to me, I will chop off all your arms and legs.” Xiong Gang threatened a young man.

This young man was the same young man who opened the door for Du Fei and the others to eat before, but Shen Shi did give him 50,000 yuan.

The reason Xiong Gang came here this time was that he was jealous when he found the 50,000 yuan in the young man’s room, so he falsely accused him of stealing his own money and wanted to take it for himself.

The young man had no way but to explain to Xiong Gang that it was Du Fei’s group who gave it to him. Xiong, who saw the money opened his eyes, found it as soon as he heard this.

“They gave it to me. They gave me 50,000 yuan to prepare food for them. Maybe they have more good

things on them!” said the young man.

A sly color flashed in Xiong Gang’s eyes when he heard this, and he then set his gaze on Du Fei’s backpack.

Du Fei subconsciously covered it with his backpack, which contained the Linghui grass he had specially sought for the rest of his life. It would be a pity if they were robbed by these people.

“You want money, don’t you? I give you all of our money. For the sake of the money, can you let us have a way out?” Du Fei said with Xiong Gang in a negotiating tone.

Xiong Gang spit in disdain, “You kid dare to negotiate terms with me, do you know that your life is mine now?”

The brothers found out all the money they had on me, especially the kid’s backpack, also snatched it from me! ”

When Xiong Gang’s men heard the boss’s order, they rushed up one by one. Du Fei, who faced these people if they were in a normal state, would naturally not put them in his eyes, but now he is already When I was hungry, I already had strength in my body, and I couldn’t resist.

The backpack fell into Xiong Gang’s hands, and he eagerly unzipped the zipper, which contained some daily necessities and a yellow grass, which looked like a treasure.

“What is this?” Xiong Gang asked.

“Give it back to me!” Du Fei said angrily.

Xiong Gang still didn’t speak, his subordinates stepped forward and kicked Du Fei’s body, cursing, “How can I talk to my boss! No matter how hard it is, I will kill you!”

Du Fei gritted his teeth and endured all the grievances he had suffered in the past few days, but the Linghui grass was his bottom line. For this herb, even his right-hand man Li Feng sacrificed himself. Du Fei would not forgive himself if he could not keep it. of.

“I advise you not to do things too extreme. If something happens here, my brother will definitely come and save me. With his ability, he will be able to frustrate you!” Du Fei gritted his teeth and said word by word. .

Xiong just laughed when he heard this, and stomped two feet on Du Fei’s body, as if he was stepping on a dead dog.

“You kid haven’t figured out the current situation? Even if the king of heaven comes to this mountain, don’t even think about going out, okay?” Xiong Gang said confidently.

Their armaments here, coupled with their geographical advantages, are basically equivalent to invincible existence, which is why they do those things here.

“Boss, this person is so hard-headed, otherwise he will get that kind of stuff, and then he will become addicted, let him experience the feeling of not being able to die, isn’t it better than just killing them?”

One by one was relatively short, a man who seemed to be very savvy said in Xiong Gang’s ear.

As soon as he heard this, Xiong became interested in an instant, patted the short man on the shoulder and praised: “Good idea, your kid’s head is really good! Go get ready!”

## **Chapter: 1340**

Originally, these three people were going to be killed. Xiong Gang felt very uncomfortable when Du Fei’s mouth was so stiff. It was really not addictive to kill them directly. Before they died, it would be interesting to have fun and toss. .

Du Fei didn’t know what these people wanted to do, but these people were well-trained and had a huge amount of ammunition. They must have a terrifying conspiracy for doing evil on this mountain.

In a short while, the short man who had left before brought over a table of delicacies from the mountains and seas, and the three people of Du Fei, whose scent of food was overflowing, were about to drip onto the ground.

They hadn't eaten for two days, and now they saw the food at this big table, and there was no resistance at all, so they rushed over with the other two men, regardless of whether they would act on them or not. , Anyway, starving to death is also death, and being killed by them is also death.

He grabbed the whole chicken and stuffed it in his mouth. The other person took a big elbow and ate it, his mouth and face were full of oil.

Du Fei's belly was still grunting. He knew that these people were so kind and would let them say such good things. There was definitely some conspiracy.

But with so much food in front of people who are about to starve to death, who can endure this fatal temptation?

As soon as Xiong looked at Du Fei, who closed his eyes and endured it, he had a bad taste in his heart.

He picked up a chicken leg from the table and walked towards Du Fei.

Deliberately putting the chicken leg in front of Du Fei's nose, Xiong Gang said lightly: "This chicken leg is really fragrant! If I were you, I would be starving to death, and both sides would die. Why don't you choose to be full!"

Du Fei clenched his fist tightly, making him feel uncomfortable, even if he was starving to death, he would not be able to eat the food they gave him.

As soon as Xiong saw that Du Fei couldn't move, he was furious, and ordered to his men: "Come here, break his mouth open for me, and put these things in his mouth."

"you dare!"

Du Fei yelled angrily, the king's aura was full, and even Xiong Gang had no idea that this hungry half-dead person could have such a great deterrent.

But the more it looks like this, Xiong Gangjue wants to know whether a strong person can resist the temptation of that kind of thing.

"If you can't feed these foods into his mouth, then you don't want that baby this week." Xiong Gang said coldly to his men.

As soon as he heard this, his subordinates were very energetic. If there were no such treasures this week, they would definitely not be able to survive, so they would work harder on Du Fei.

Several people confined Du Fei's arms and legs, one held his head, another pinched his nose and opened his mouth, and then stuffed the food into his mouth.

Du Fei wanted to struggle but to no avail, it was really a shame for his dignified underground king to end up like this.

Maybe that day, he should fight side by side with Li Feng, kill more freely, and die, so why bother to suffer this kind of grievance now.

Qiancheng.

Four Seas Group Building.

Office of the Chairman.

The phone rang for a long time and there was no one to answer. Yu Sheng sighed helplessly and put down the phone in his hand.

Where did Du Fei go? I haven't seen him for a long time, and I didn't answer the phone. Could something happen?

Thinking of Yu Sheng here, his heart began to feel a little uneasy. In the past few days, he always felt that something bad had happened. Could it be that something happened to Du Fei.

Thinking of this possibility, Yu Sheng didn't hesitate to get up and drove out of the Sihai Group to the Sakura Club.

"Where did Du Fei go?" Yu Sheng asked when he came to the place and directly caught Du Fei's younger brother.

"Brother Fei said to help you find a herb called Linghuicao, so he went to Taihang Mountain. I have been there for a while now, and he also brought more than 20 brothers." The younger brother did not dare to have it. With a trace of concealment, he told Yu Sheng everything when he knew it.

Yu Sheng's face changed drastically when he heard this. It is very likely that Du Fei had something wrong before, this guy didn't even tell him!

For the rest of his life, Xia Jun immediately asked Xia Jun to prepare the plane, and he would go there again, regardless of whether Du Fei was alive or dead.
