

Dont mess 1701

Chapter: 1701

"Xiao Ningyu, are you uncomfortable in any way? Does it hurt you too? What is needed to relieve your current situation, just tell me that." Yu Sheng asked with a look of concern.

He didn't know why Xiao Ningyu was crying, but he thought it hurt because of a serious injury?

Xiao Ningyu hugged Yu Sheng with an arm, without saying anything, so she buried her small body on Yu Sheng's body.

But there was a strange expression on Yu Sheng's face. He miraculously felt the changes in Xiao Ningyu's body, and there were two slight protrusions on his chest?

After feeling this change, Yu Sheng looked surprised and pulled Xiao Ningyu away from her body and began to look at her body. As expected, the piece of clothing on her chest was slightly supported. Before she knew it, Xiao Ning Yu's body has grown a little bit.

Now she doesn't look like a child, but like a teenager, Oh! No, it's a girl? !

Although Xiao Ningyu had a trace of emotion, it was not after all that people didn't understand what shyness was, so she let Yu Sheng stare at her chest, while she tilted her head slightly and looked at Yu Sheng intently, as if in her heart Thinking about what happened to the master?

After Yu Sheng had confirmed that Xiao Ningyu had the intention of becoming a girl, he quickly retracted his gaze, and concealed his embarrassment with a light cough.

"By the way, are these few beads your tears? What's the use?" Yu Sheng deliberately found a topic for Xiao Ningyu. It was really the expression in his naked eyes that was just too inappropriate.

He didn't have any lust for Xiao Ningyu, he was just curiosity, but curiosity returned to curiosity, and there was something wrong just now.

"Well, I don't know, after all, I got it for the first time! But I can see that this thing shouldn't be a bad thing, right? You can use it yourself!" Xiao Ningyu scratched his head and looked at it. The few beads in Yu Sheng's hand were also very puzzled.

What surprised Yu Sheng was that Xiao Ningyu had recovered a lot since she became a girl, and she was very confident in speaking as if she had taken a panacea, not as weak as before.

As for why it would be fine, Yu Sheng couldn't figure it out, but it was a good thing after all. Since Xiao Ningyu had recovered some of her life, Yu Sheng couldn't help but ask a few questions.

"By the way, Xiao Ningyu, after merging with you, my cultivation speed is three times that of ordinary people. Can I share this ability with others?"

He had imagined this kind of thinking before Yu Sheng asked it. If it really had such an effect, he would establish a sect, even in a place with aura like the secular world, it would enable the children of the sect to quickly improve their strength. , Will not be worse than those in the hidden Sejong gate.

Xiao Ningyu nodded, and said: "This is naturally possible, and I am also an ancient magical artifact, so why not know how powerful the top magical artifacts are?"

When he got here, Xiao Ningyu's words changed, and a frustrated expression appeared on his face: "But master, I have no way to help you in this situation, and I have to work hard in that kind of thing. I don't know how long I will have to recover. Can help you.

One year, two years or five years is really uncertain! The most important reason is that I still don't grow up to that point, and I can only help you alone. "

Yu Sheng looked a little disappointed when he heard this result.

There is no way to plan and stipulate Xiao Ningyu's growth. This is entirely due to an opportunity. For

example, the opportunity this time is very inexplicable.

Yu Sheng also had trouble with this matter, and hard thinking and meditation could not expect a good result. If there is no help from Xiao Ningyu, people in the secular world can cultivate on their own.

With better talents, for example, someone like Jia Ming who originally came from a film and television sect, and who has made progress in just a week is hard to find in the secular world!

“Master has another method. Actually, I don’t recommend you to use this method. I blended into your body and naturally blended into your limbs and your blood. If you give your blood to others, then it will have a certain effect.”

Xiao Ningyu didn’t intend to say this idea at first, but seeing Yu Sheng’s distressed look, Xiao Ningyu really couldn’t bear to say it in the end.

Chapter: 1702

After learning the method, Yu Sheng showed a touch of joy on his face. Xiao Ningyu felt sorry for him. Yu Sheng was understandable, but it was just a matter of paying some blood. Yu Sheng felt nothing.

The sect was under steady construction. One month passed in a flash. A sect that covers an area of thousands of miles rose from the ground. The total construction cost was more than 800 million yuan. Du Fei paid two out of his pocket. Hundred million.

How could Du Fei, the lowly king of Qiancheng, still lack money in his hands? It’s just that you can’t compare with Yu Sheng, this negative outrageous guy.

When Yu Sheng really went to visit the built sect, he was completely shocked by the scene in front of him. Good fellow, it was simply a sect that had been smashed out alive.

The construction inside was all built according to Yu Sheng’s drawings, but Du Fei chose the best materials. Even the hot springs that Yu Sheng specially ordered to build were made of white marble. It is not outrageous to say that every inch of land is golden.

The nearly 20-meter-high red door looks like a rainbow from a distance, and all the materials that are stepped on are made of marble. Although the construction inside is not so gorgeous, it gives people a different kind after entering. Feel.

After the rest of his life arrived at the place, he kept nodding his head, and was not satisfied with the building Du Fei was fully responsible for. The manpower needed to build such a sect in a month must be thousands of people.

“If you see, you can rest assured that you see this palace, buddy. I can see the sect that we have built. I don’t believe you have seen a sect better than this.

Even if this is regarded as a tourist place, it will not take more than ten years, and the cost I have invested will be earned back. Believe it or not?”

Du Fei quickly blew this place to the sky, but to be honest, if this place is really regarded as a tourist attraction, there will indeed be a lot of people willing to pay for it.

But it’s not enough to say that you haven’t seen a sect better than this. This is the place that shocked Yu Sheng.

The place where the temples are located is halfway up the mountain and surrounded by flat mountains. It is harder to build a palace in that place than ascending to the sky. For the rest of my life, there is no way to imagine how it was built?

Yu Sheng couldn’t describe how brilliant the temples were, but the sect that Du Fei built was not bad.

“By the way, Lao Yu, don’t you think about it, what’s the name of our sect?” Du Fei patted Yu Sheng on the shoulder and asked.

This question really asked Yu Sheng. In this month, Yu Sheng compiled the nine-day martial arts practice method in one book, and it will be more convenient for the disciples of the sect to learn it by hand. As for Zongmen's name, Yu Sheng had never considered it before, and he didn't have any thoughts in his mind when he made a temporary decision.

Yu Sheng thought for a while and said casually: "Jade Shengzong."

This is the name that came to his mind subconsciously. Although it sounds a little weird, Yu Sheng feels very satisfied, and it is not satisfactory.

But the name didn't look like that in Du Fei's ears. He raised his hand and pushed towards Yu Sheng, and said angrily: "You guy, you are so oblivious!

Obviously it is the sect that I built with you. You still think of your wife's name now. It's not too hard to spread dog food, right? Is it possible that all the disciples of the sect in the future will have to eat dog food? Too much, too much!"

Du Fei's tone of this sentence was almost roaring, only this way could express how dissatisfied he was, the loud ones were about to irritate the rest of his ears.

"Yushengzong won't work anyway, otherwise, Feishengzong!" Du Fei has no real habit of doing anything, but the name of the sect has given Yu Sheng a child's mind.

After hearing this name, the corners of his mouth twitched twice, and the expression on his face was also very weird. Just after laughing twice, Yu Sheng said: "We all take a step back, just go to Xuan Tianzong."

The reason for this idea is not just nonsense by Yu Sheng. The reason for adopting this name is because Yu Sheng wants to teach the understanding of internal strength in the Nine Profound Heaven Scriptures to the disciples of the sect.

As for the person who wrote this book, who is the most important person in the world? The rest of my life is not as good as I think, but for martial arts practitioners like them, it is equivalent to not passing it on.

If the exercises written by others are passed on, the functions established are naturally not able to clean up the people who wrote the exercises. That would be too ungrateful.

When Du Fei heard the name, he thought it was pretty good. Anyway, it sounds much better than Yushengzong, so he agreed.

Chapter: 1703

After thinking about the name of the sect, Du Fei made a phone call and asked people to fix the Xuantianzong plaque and give the instructions. After all this, Du Fei took Yu Sheng to the direction of the hot spring specially requested.

The water used in the hot springs is all mountain spring water, and the construction of Xuan Tianzong is also relying on mountains, so it is not a troublesome thing to use mountain spring water.

Even the place of Xuan Tian Xuan Tianzong was carefully selected by Yu Sheng. Although it was not as good as the temples, it was so superior that it was surrounded by mountains on all sides, and it was a good place to go.

When he saw the hot spring made of white marble, Yu Sheng also nodded with satisfaction, and reached out to the hot spring and touched it, and was surprised to find that the hot spring turned out to be natural.

For the rest of his life, he came to the statue of the god turtle at the spring's eye, and put the crystal clear beads that had been brought out of his mind on the tortoise's back, and let the hot spring water

soak the beads.

Although Yu Sheng didn't know the function of these small beads, Xiao Ningyu also said that it was definitely not a bad thing, and Yu Sheng had no use in holding it in his hand, so he simply put this thing here in the hot spring.

The most important place to build the entire sect is probably this hot spring. After putting the beads on the supernatural tortoise, you can leave without being so careless for the rest of your life. If you don't take any precautions, the beads can easily be destroyed. If someone else stole it, it's impossible to stay here for 24 hours for the rest of your life, right?

Using internal force for the rest of his life to directly build an enchantment here, if it is not a realm above the immortal, it is difficult for someone to take out the beads from the enchantment.

Yu Sheng is also a great master. It is not easy to build such a strong barrier in the middle stage of the master. Following the improvement of strength, Yu Sheng will gradually make the barrier stronger.

"Hey, come and take a look for the rest of your life, this water turned green!"

Du Fei's surprised voice came from behind him. Yu Sheng slowly opened his eyes and turned his head to look at the hot spring. As expected, the clear water inside turned pale green.

Yu Sheng walked away quickly. In the past, he soaked his hands in the hot spring and found an aura inexplicably. After contacting this aura, Yu Sheng found that the internal force in his body was running faster than usual.

This phenomenon has further strengthened Yu Sheng and the thoughts in his heart. Those little beads are really not ordinary products, and they are just right when they are placed in the hot spring. Even so, Yu Sheng still felt that it was far from enough. After cutting his sleeves, Yu Sheng stretched out a hand and scratched the arm, and a blood stain appeared quickly.

Du Fei was staring at him behind him. He didn't know what he was doing for the rest of his life? Seeing the blood flowing from the wound on Yu Sheng's arm, more and more Du Fei was worried. He picked up his mobile phone and was about to call the doctor.

At this time, Yu Sheng was born and stopped Du Fei's behavior of calling a doctor: "Don't worry, the reason why I did this naturally has my intentions. Besides, this wound will not have much impact on me. When the doctor called over, maybe my wound had healed."

After listening to Yu Sheng's words, Du Fei put down his hand half-believingly. He knew how terrifying Yu Sheng's strength was. He had seen it before, but the current behavior still made him unable to understand.

With eyes full of distress, Yu Sheng watched the blood dripping into the hot spring, and within a few minutes, the hot spring had been dyed a faint red.

"Lao Yu, stop! If this continues. What's the difference between suicide by cutting your wrists, don't you do anything stupid?" Du Fei couldn't stand it anymore, he was afraid that he would have a man for the rest of his life. Dangerous or something.

Yu Sheng waved his hand at Du Fei, indicating that there was nothing wrong with him until it passed.

After ten minutes, the water in the hot spring turned deep red, and Yu Sheng's lips were pale due to excessive blood loss. He then stopped. hand.

I don't know how much blood was shed in the hot spring this time, but I must know that if I shed it like this, my body would be overwhelmed, so I worked there to stop the blood from flowing outside.

Yu Sheng's squatting body just wanted to stand up, his body shape shook, almost fell to the ground, the scenery in front of him was a bit dazzling.

Made! Accidentally spilled too much blood...

Du Fei hurriedly stepped forward to stabilize Yu Sheng's body shape, and said without hitting, "Lao Yu, are you stupid? The bleeding almost scared me to death, normal people. With so much blood, the fucking blood dries out."

Yu Sheng closed his eyes and felt the spiritual power coming from the hot spring was much stronger than before. After that, Yu Sheng smiled satisfied.

"There is nothing wrong, but I need to make up for it in these two days!"

Chapter: 1704

After a few days of recuperation, Yu Sheng's health was almost better before he dared to go home. If he had a pale face, he would go home without letting Magnolia worry to death.

When she first returned home, Magnolia rushed into his arms and looked at Yu Sheng with a grieved face and said coquettishly: "You don't know how much I miss you these days, I know you are busy. You are building the sect, but you will not come back to see me.

With such a beautiful and beautiful little wife at home, aren't you afraid that I have an outer heart? In case, if I find a little white face outside and give you a green hat, you will be ugly! "

When Yu Sheng heard these words, her face was averted. She clearly knew that Magnolia was joking with him, and she knew she would not do such a thing, but she was still very unhappy!

After all, these things are in the man's heart, but he cares very much.

When she saw Yu Sheng's face pulled down, Magnolia chuckled, and stretched out Qianqianyu's hand to pull Yu Sheng's face: "Okay, okay, don't be angry, I'm joking with you, I just want to Let you stay with me more!"

For the rest of her life, the beauty is acting like a baby, but she has no defensive ability and she immediately falls into the tender country. In the past few days, Yusheng has made up all the blood she shed before. When she sees the white magnolia, there is another burst of blood. .

After a long period of time, it was discovered that the temperament of the white magnolia had changed a lot from the previous one. The previous white magnolia was beautiful and inextricably beautiful, just like the fairy above the nine heavens, generally not staining the mortal things in the world.

But under the nourishment of these days for the rest of her life, Magnolia's body has a little more of the beauty of being a wife, and a little more flattering than before.

Magnolia lying on the bed gently stroked her flat lower abdomen, as if she was thinking about something, her mouth unconsciously showed a smile.

After a while, Magnolia turned her head to look at Yu Sheng, still stroking her flat belly with her hand, and asked: "When will I be pregnant with your baby in my stomach?"

When Yu Sheng heard this question about Magnolia, he couldn't help but chuckle, gently stroked her hair and comforted: "We are still young, and we have time. If we are pregnant now, I am still a little bit reluctant! "

How could Magnolia not understand the illocutionary meaning? After a shyness on his face, he picked up the powder fist and hammered twice in his chest, and for the rest of his life he did not dodge and let her vent.

In fact, the reason why Magnolia is so anxious that she wants to survive the rest of her life is because she sees Xiaoshui and Yueyue all day, and she wants something that belongs to her and the rest of her life.

To be honest, Magnolia was a little jealous of Xu Qianqian in her heart, why did he win the prize once? And I have been so many times, and there is no movement in my stomach, which makes Magnolia feel a

little anxious in her heart, is she thinking about what is wrong with her body?

But she can only hold these words in her heart, thinking about asking Yu Sheng, she can only hope that she can be pregnant sooner.

“Wife, or follow me to practice martial arts!”

Yu Sheng suddenly said something, which shocked Magnolia. She seemed to think that her ears had been misheard. She was only a female classmate. Is it really okay to practice martial arts?

As the eldest lady from a big family, Magnolia has been cultivated into something deep-rooted in her heart, that is, women want to marry each other, have a clear mind about business matters, and manage the whole family well.

But now that the girl suddenly mentioned asking him to practice martial arts, Magnolia had never thought about it.

Recalling the contempt of others for the rest of her life at the conference today, it was simply amazing, and Magnolia couldn't imagine that she could learn that kind of thing.

“Forget it for the rest of my life, right? I don't think I can learn it!” Magnolia refused with embarrassment.

Let her be a female classmate to learn martial arts. To Magnolia, she was just an ordinary mortal, with average ability to spy on gods.

“You haven't tried it yet, how do you know that you can't? Actually, I let you practice martial arts selfishly. I don't want you to leave me like that in a hundred years. Your life span will also increase according to economic growth. , I just want you to accompany me more.

I don't want to become very strong in a hundred years. And there is a person who can be trusted behind him, wife, can you just take it for me?” Yu Sheng dragged Magnolia's face and said earnestly.

Magnolia hesitated for a while and finally agreed. When listening to Yu Sheng's words, he couldn't help but fantasize about that kind of scene, feeling really reluctant to give up.

To be able to stay with Yu Sheng forever is also Bai Yulan's dream. If possible, she is willing to try.

Chapter: 1706

“I actually stayed in that hot spring for seven days and seven nights? Are you kidding me? How can a normal person not eat for seven days and nights?” Magnolia was puzzled.

Seven days and seven nights really subverted all her previous cognitions, and always felt that all this happened was incredible, and the tremendous changes that occurred in her body after she got out of the hot spring.

Yu Sheng smiled, and didn't explain too much to Magnolia. He couldn't tell Magnolia that the hot spring she soaked was red because of his own blood.

“Soaking in the hot springs has improved your physique, and in the future, you will be a hundred times better than before in martial arts practice. If you like it, I will build one for you.” Yu Sheng explained.

Without asking too much, Bai Yulan understood that this hot spring did not belong to him alone, but was used by the disciples in the sect in the future.

“Okay, okay! This hot spring is really comfortable, but I don't like the color of the hot spring, if it is pink or purple, it would be fine.” Magnolia said with excitement.

Hearing this, Yu Sheng's mouth twitched twice. The color is immutable, and Yu Sheng still has no way to make his blood become beautiful.

“I'm afraid if it disappoints you, the hot spring is only red, and there is no way for my husband!” Yu Sheng said helplessly, spreading his hands.

“This thing is so magical, will it be troublesome? If it’s too troublesome, then don’t use it. I don’t want to see you work too hard.”

Magnolia turned her head and glanced at the red hot spring again, as if the tip of her nose could smell a bit of bloody smell, she was completely indulged by the overwhelming comfort when she was soaking, and she didn’t want to explore it carefully.

Now the whole person is in the white magnolia and found out that the hot spring is special. It not only shows a bright red color, but also has a faint bloody smell. Is it soaked with fresh blood?

The more Magnolia thought about it, the more she felt that this possibility was very great. When she thought that she had soaked in the blood donation for seven days, it made her stomach surge, and she felt like she wanted to vomit.

Bai Yulan raised her head again to look at Yu Sheng with a weird look in her eyes. She didn’t want to believe that Yu Sheng was a murderer who made human blood into a blood spring, but all these signs indicated that the red hot spring water was human blood.

It must have used a lot of blood to dye the hot springs into such a dazzling red. Could it be that the rest of my life really brutally killed a lot of people? Did you drain all their blood?

Even if Yu Sheng really did such a thing, perhaps Magnolia would still love this man, but there was no fear in her heart.

These things were very uncomfortable in her heart, but Bai Yulan did not dare to ask Yu Sheng, gritted her teeth, he still wanted to pretend that she didn’t know.

“Forget it, I don’t like the color of this hot spring, don’t let it go!” Bai Yulan refused Yu Sheng and helped herself build another hot spring.

Yu Sheng didn’t know why Magnolia suddenly seemed to be a different person. She was also very happy because of the changes in her body. Why did she look sad now?

Is it possible that this hot spring has any side effects? The rest of my life felt scared when I thought about it here. After all, Magnolia was the first person to try the hot spring. It would be bad if there was any side effect.

“Is it uncomfortable in your body? Or are there any side effects from the hot spring?”

Magnolia slowly raised her head to look at Yu Sheng, her mouth opened, and finally she said,

“No...nothing...”

Nothing?

For the rest of his life, he will not foolishly believe that there is really nothing wrong. The more Magnolia is like this, the more worried he becomes. He grabbed Magnolia’s shoulder and asked with concern:

“Don’t hide from me, hurry up and tell me what’s going on!”

Magnolia bit her lip, and finally expressed her doubts: “Yu Sheng, tell me, did you kill a lot of people to build this hot spring?”

“kill?”

Chapter: 1707

“What the hell are you thinking about in your little head? Could it be that you thought that the blood spring I let you soak was the one that killed people and put blood in it?” Yu Sheng squeezed Magnolia’s little face. Said with a smile.

Now Bai Magnolia was stunned, wondering why she remained indifferent for the rest of her life. Does she really treat other people’s lives as a thing?

I don’t understand the reason for this. Magnolia simply didn’t want to ask Yu Sheng directly: “Don’t

think that you can really fool me by pretending to be unconcerned.

I'm not a fool who can tell the color of this hot spring, and the strong smell of blood. You can smell it. Don't tell me what animal blood it is. I will never believe it!"

It seems that Magnolia has such a good flicker! Putting blood in the hot springs in my own eyes is just a small matter. It took a few days to get over. But telling Magnolia is different. This little woman will definitely worry about herself. .

"Just worry about this! What kind of person is your husband? Don't you know? You can kill innocent people indiscriminately and put people's blood here. What is the difference between me and the Murderer?"

Besides, it's disgusting to put the blood of a dead person in the hot spring, why would I let you soak?

This is just a traditional Chinese medicine that I have prepared. Huaxia's medical skills are profound and profound. You can learn more about things you don't understand. I will adjust it to you next time. Then seeing is believing. Do you have any reason not to believe it? "Yu Sheng said with a straightforward and serious face.

Magnolia, who was still worried about this incident, saw her confidence for the rest of her life, and she couldn't doubt him anymore.

Yes, she still doesn't understand who is Yu Sheng? If he is really a big devil who kills innocent people, would he still love it too much? The reason why he cares so much about the man in front of him, the most important thing is that he has some flesh and blood on his body, and the responsibility of emphasizing love and righteousness.

"At home, I am your husband. I am your sovereign outside! I will reward you when you successfully develop your internal strength. Come on!" Yu Sheng smiled and patted Magnolia's shoulder to cheer for her. .

The suspicion of Magnolia just now was just a small episode. The most important thing was that he got enough benefits from the hot spring, which made Yu Sheng even more determined that he was the right choice to build this hot spring.

Of course, the area built by this hot spring is not that big, and it is impossible for all of Xuantianzong's disciples to soak in this hot spring in the future.

Only after the rest of his life has been selected and selected the best, most loyal, and most gifted young people, the rest of his life will give them this opportunity.

Thinking of this, Yu Sheng is more confident in the future development of Xuan Tianzong.

The mountain spring water will be replaced by itself, so the water quality will always remain in a very clean state, but this piece of aura wrapped in the hot spring does not change.

Because of the existence of a few crystal clear beads on the back of the divine turtle, the aura here is blocked, even for the rest of his life, the aura of heaven and earth contained in the first etiquette is also blocked here for everyone to absorb.

At this moment, Yu Sheng's cell phone rang unexpectedly, and when he picked it up, he discovered that it was the call from Jia Ming, his apprentice in name.

Of course, the reason why Yu Sheng accepted Jia Ming as his apprentice was because he begged to come over with a deadly temper. If there were no persistent stalkers like Jia Ming, Yu Sheng would say that he would not accept a dude as an apprentice. .

Thinking of this, Yu Sheng suddenly thought that besides Jia Ming, there is another apprentice Zhu Xiaoshu. The rest of his life has been busy with his own affairs and has forgotten about her, and should really take the time to check it out when he has time.

But now the most urgent matter is to see what Jia Ming calls, what is going on?

“Master, you finally answered the phone. It’s almost two months since the end of the Qintian Conference. You didn’t even call me a single call. You really don’t treat me as your apprentice!” And you didn’t tell me about the matter of establishing the sect, or Du Fei kindly reminded me, I just knew it, otherwise, when will you keep it from me?

Now that the master has established the sect, then as an apprentice, I must be the first to join. Master, wait for me in two days and I will find you!”

As soon as the phone was connected, Jia Ming’s crackling voice came from the phone. During the rest of his life, he couldn’t put a word in, and could only listen to him there.

It wasn’t until the phone was hung up that Yu Sheng’s ears became clean.

Chapter: 1708

It was a bit of surprise for Yu Sheng that Jia Ming wanted to join Xuan Tianzong. After all, the Jia family was also a family of the Sejong Sect before, and they had a sect that belonged to them. It sounds really interesting that the people of the Sejong Sect joined the secular world.

This situation has never happened before, and it is the first time now! After all, those people in the Sejong Sect were so arrogant that they didn’t treat people in the secular world as the same thing, but the rest of their lives was completely an exception.

How long has it been since Jia Ming’s phone was hung up here, Yu Sheng’s cell phone rang again, and when he picked it up, it turned out that Song Hun Hun was calling.

With the previous call from Jia Ming, for the rest of his life, no family knew what it was for. Du Fei’s efficiency in doing things was too fast, and he has been notified now.

“Master, I heard that you have established a sect, is it true?”

Song Hou Hou’s heart-warming voice came over from the phone, and heard Yu Sheng’s ears are crisp, this guy was so far away, he still didn’t forget to tease himself on the phone, he was really not honest at all!

“Well, yes, the name Xuantianzong has already been thought of. Don’t say that you, a person in charge of the hidden door, also want to join my newly established small sect, so I can’t afford it!” Yu Shengtiao Said with a smile.

In fact, it goes without saying that Yu Sheng also knows that the reason why Song Huihou made this call may only be a matter of whether he established a sect. With his current status and status in the hidden gate, it is impossible for him to make such a hasty behavior.

Sure enough, Song Houhou’s voice soon came over the phone: “It’s really gratifying that the master can establish his own sect.

If there is anything I can help, please mention it, I will do it wholeheartedly if I can do it!”

“Okay, I accept your intentions. I don’t know much about this knowledge, so I will ask you for advice at that time!” Yu Sheng smiled and exchanged greetings with Song Hun Hun. During the conversation, I was completely talking to friends. Tone of voice.

But during this process, Yu Sheng’s cell phone has been turned on and amplified, and Magnolia, who is not far from Yu Sheng, can hear them clearly.

Although there was no ambiguous conversation between the two, the charming voice of the woman over there was so kind!

It wasn’t until the chat between the two was over and the phone was hung up that Magnolia pouted and said with dissatisfaction: “There are so many women around you, one after another is almost

annoying!

First, I went out alone with your little secretary for eight days for so long, and then you found Yang Zihuan again in the early stage, and now I'm on the phone with other women. As your wife, I really don't have a sense of security at all. ! ”

I talked a lot about business, and for the rest of my life I forgot that my jealous wife was still by my side! Taking Magnolia into his arms, Yu Sheng smiled and said: “I don't want to do these things, but I swear to my wife here that I will never treat any woman except you. thought.

Do you still know what kind of person your husband is? Go home and practice martial arts, and when you can successfully cultivate your internal strength, I will be rewarded! ”

Magnolia stared at Yu Sheng with bright eyes: “You don't want to stop my appetite, let's talk about it, what's the reward?”

Yu Sheng stretched out an index finger and shook it. Even if Magnolia acted like a baby, it didn't have any effect. He still looked serious and had no room for negotiation.

“When you can cultivate your internal strength, you will know it naturally, be good, hurry up and go home, I still have a lot of things to deal with, after all, now that the sect has just been established, there are still many places I need to manage.”

Although sometimes Magnolia likes to play a little temper by Yu Sheng's side, which is what normal men and women would do in love, but when Yu Sheng is doing business, Magnolia will not be sloppy, and he will not disturb Yu Sheng.

After nodding, Bai Yulan told her for the rest of her life, don't be too tired and take a rest, and then drove home.

Chapter: 1709

For the rest of his life he asked Du Fei to find a few loyal hands from under his hands to join Xuan Tianzong. Whoever wanted to Du Fei suddenly brought in the number five or six hundred.

When he saw the crowd of people standing in front of him, Yu Sheng only felt that a line of crows flew past his head. He really didn't know what to say now.

In fact, Yu Sheng is not incapable of understanding Du Fei's feelings. It is indeed a rare opportunity to make his subordinates very powerful. Naturally, I can recommend as many as I can recommend, but there are too many five or six hundred people. Some...

Yu Sheng patted Luffy on the shoulder and called him to the side. After seeing the people around him, Yu Sheng slapped Du Fei on the head: “What do you kid do? Let me teach so many people, right? Want to exhaust me?

Besides, our Xuantian Sect is just established, we need to recruit people, but we don't need to recruit so many people. The most important thing is the right people! ”

Du Fei smiled and didn't take the rest of his life seriously. Anyway, he said confidently: “Lao Yu, don't worry, these people are all under my hands, one with a special heartfelt heart. , I let them go up to the sword and down to the sea of flames, they are all willing.

Besides, our sect has just been established. Look at this big sect, if it only recruits a few dozen people, it will be swayed in space, right?

I just called five or six hundred people. Our sect is so big and there are only a few people. I don't think there are too few people! ”

Yu Sheng rolled his eyes and didn't say anything. If he were to be driven away in the future, Du Fei would lose face and prevent his brother from coming to Taiwan. Yu Sheng would never do anything.

If these people can really pass their own tests, it wouldn't be a bad thing to add them all to Xuan Tianzong for the rest of their lives.

When he took Du Fei back again, Yu Sheng looked at everyone with serious faces, cleared his throat and said: "You guys should all know what the reason is for all the brothers here!

Of course, what I'm talking about next is the rules that need to be followed to join Xuantianzong. After all, what I'm talking about is that the sect is not a gang, and there is a big difference. "

Du Fei brought five or six hundred people from the secular world. They didn't understand the rules of the sect. They only knew that the gang talked about loyalty.

The reason why they followed Du Fei this time, they thought that Du Fei was their most respected boss. Following him, there was absolutely nothing wrong with them. They had never considered what preparations were needed to join the sect and what they would face. ?

So when listening to Yu Sheng's narration, I listened very carefully.

No one interrupted at this time, Yu Sheng was very satisfied with the situation, and continued: "I don't understand the rules of other sects, but the rules of our Xuantian Sect are set by me.

Specially able to let ordinary people like you come into contact with things at another level. Of course, if you want to learn these things, you have to pay a price. After joining the Xuantian Sect, you can't quit the sect for the rest of your life. People who withdraw have only a dead end. "

When everyone heard what Yu Sheng said, they looked at each other face to face. Du Fei's subordinates like them are just eating a lot of food. They feel very proud. If one day is tired, they want to live a normal life. Just quit and live a good life.

But I didn't think that the sect had requested such a strict withdrawal. If you wanted to withdraw, you would die. Wouldn't it be someone else's lifelong subordinate? When everyone heard this, they had already retreated a bit.

In fact, Yu Sheng didn't have to mention this kind of overlord treaty. He also knew that no one would like to be someone else's servant for a lifetime.

But the Xuantianzong he established was not a selfless school, allowing ordinary people to leave to contribute to society after learning the skills. What he wanted was to establish a sect.

The exercise method Yu Sheng used is the Nine Profound Heaven Scriptures. This is absolutely not to be exposed. In case Xuantianzong's disciples quit in the future, Xuantianzong will take Yusheng to teach him the exercises casually, talk about it, and even conduct nonsense. That would be bad.

After considering various reasons, Yu Sheng just made such an overlord treaty. He knew that not many people could accept this overlord treaty, but it was not important.

Chapter: 1710

As soon as this Overlord's Treaty was spoken, the originally quiet crowd suddenly became agitated, and the words between you and me were nothing more than dissatisfaction with the Overlord's Treaty.

Who knows what the Xuantian Sect will look like in the future, if you tortured people, you still have to stay there forever. Normal people who can't withdraw from this kind of risk won't even think about it. But they are a little afraid of Du Fei's rights. After all, that is the king of the underground forces in Qiancheng. If the big brother is unhappy, they will be hard to survive!

The ears of the rest of their lives are so sensitive. Although these people's words are not fully accepted, they have listened to most of them and understand what they are worried about.

For the rest of his life, these people who have a double heart for the Xuantianzong sect will not use it. He did not force these people to stay, but gave them the opportunity of their own choice.

“This is just one of the conditions. Joining Xuan Tianzong is indeed not as good as staying in the secular world, enjoying peace and happiness.

Even all the time is spent painstakingly practicing martial arts, and the difficulties and obstacles experienced in it are not what you can imagine now.

I can't tell you all about the difficulties that will be experienced, but what I can tell you is that it is difficult and difficult, but people who can survive.

Of course, no matter what kind of status and power I and Du Fei are, they will not threaten you to join this is entirely up to your personal wishes. If you don't want to, you will never force it!”

As soon as the words of the rest of his life fell, everyone who was still full of sad faces instantly breathed a sigh of relief. As long as they are not forcibly left behind, who wants to stay in this place?

Many people thought and didn't want to, they directly greeted Du Fei and then turned and left. Instead of staying in this place and suffering, it is better to enjoy life in the secular world.

Seeing the brothers he had called, Du Fei's face was a little uncontrollable. He had previously assured Yu Sheng that these people were absolutely loyal, and he didn't even think that he would be able to endure this bit of suffering.

I secretly scolded these people for being spineless, but I can understand why they left. After all, the request Yu Sheng just said was too serious.

Not to mention that these people can't suffer the pain of practicing martial arts, even Du Fei tried it, but they didn't stick to it.

Seeing Du Fei's lonely expression, Yu Sheng walked over slowly, patted her shoulder gently, comfortingly said: “Ning Que Wulan is not necessarily good if there are too many people. When the sect becomes bigger, you won't need you. Come to find, many people will be willing to join, all this is a matter of time.”

For what Yu Sheng said, Du Fei must have unconditional trust. Believing in Yu Sheng's ability is not a joke, and as a brother, he also unconditionally chose to support Yu Sheng.

After explaining these principles to Du Fei, when Yu Sheng turned his head and looked at everyone, there was not much left.

At first glance, there were only a dozen people, and only a dozen people left for five to six hundred people. For the rest of my life, I don't know what to say, but it's good to be able to remain.

“I have just said that the suffering of staying in Xuantian Sect is something you have never experienced before, and there is even a danger to your life. If you think about it, don't try to be strong for a while.”

Yu Haoxin reminded him again.

Everyone was still hesitating. When Yu Sheng said what he said, a young man in his 20s stood up and said with a serious face: “I decided to join the Xuantian Sect. I have no regrets for my life and death!”

His words appeared exceptionally loud on the empty field, and even stimulated everyone's heart. Those who were still hesitating seemed to have an urge to stand up when they heard his words.

This was an opportunity for them to experience a different life. Is each a great opportunity?

Seeing that there was finally a man with a firm tone and said that he wanted to join Xuan Tianzong for the rest of his life, he was very happy. After all, the young man in front of him was the first person to join Xuan Tianzong besides anyone he knew.

“What's your name?”

“Liu Chong!” the young man said loudly, straightening his waist.
