

## **Dont mess 451**

### **Chapter: 451**

The trial training of Liu Qianshuang was very successful. He Jin had no idea that Liu Qianshuang was more talented than he thought, although she was more talented. With a little more details, she would understand that the IQ of singing and dancing is not ordinary. high.

At first, He Jin thought that Liu Qianshuang was just a woman for the rest of his life, and he had to find ways to cultivate her.

Unexpectedly, Liu Qianshuang was actually eating by strength.

After a few hours of trial training, He Jin went to the Sihai Group to see Yu Sheng in person, and Yu Sheng also met him in the office.

He Jin was very excited. As soon as he opened his mouth, he said that Liu Qianshuang had no better talent than Zuo Mingyue. He felt that he was the best candidate for the role of Cosmic Girl.

Of course, what he said was a bit of flattery. After all, in his heart, Liu Qianshuang had already been labeled as a woman for the rest of his life.

Then he showed the video to Yu Sheng. After watching the video of Liu Qianshuang's trial training, Yu Sheng nodded and immediately decided to start the recording of Cosmic Girls again.

After He Jin left, Yu Sheng called Xia Jun and told others that he had chosen it, and he started to attract investment during the advertising period again.

This time, Yu Sheng told Xia Jun that the companies that directly interrupted the contract would give up all and not give them the opportunity to participate in the bidding.

Although the top leader Xie Weihao asked them to help the enterprises in the province, these enterprises in the province have disappointed him too much, and he will definitely not help them again. In this bidding, Yu Sheng plans to face the whole country and will no longer exclude enterprises from outside the province.

When this message was released, the businessmen in the province who had previously competed for the ad slot regretted it.

They originally thought that New Goose Media could easily defeat Sihai Group, but they thought that Sihai Group had found a suitable candidate again and had already started recording the Cosmic Girls program, but New Goose Media was still in a mess at this time.

This makes them regret it.

However, Sihai Group has already released its words, this time, it will no longer cooperate with these companies, and they have no way of doing it.

There are a few who have a lot to do in the province. They wanted Xie Weihao to come forward and put pressure on the Sihai Group, but they were rejected by Xie Weihao.

Xie Weihao is blunt, saying that they don't talk about credibility, why should Sihai Group cooperate with them?

This made everyone ashamed.

On the other hand, Fang Qing, who was terminated by the Four Seas Group, learned that New Goose Media had to record a large variety show similar to Cosmic Girls, so he went to New Goose Media. It just so happened that Zuo Mingyue had been abandoned, and New Goose Media was also looking for a suitable candidate.

And this Fang Qing was the right person for them, and the two parties hit it off and signed a long contract.

The new person in charge of New Goose Media is called Situ Jian, Situ Nan's older brother. Situ Jian is thirty years old. Like his younger brother, he also has a handsome face. He is tall, handsome, and looks like an overbearing president.

Situ Jian was very low-key. When he took office, he announced the end of vicious competition with the Sihai Group, and blamed all this on his brother Situ Nan, and threatened to have more cooperation with the Sihai Group and let the two media Both companies have benefited, and at the same time, they can promote the rapid development of the two companies and become benchmarks in the entertainment industry.

Situ Jian's statement indeed caused many people in the Sihai Group to be anesthetized. However, Yu Sheng and Xia Jun knew that this was nothing but Situ Jian's dangling son. The storm must be behind and would soon follow.

"Chairman, I've checked. Yang is the only company in Sihai Group that is not entirely part of Sihai Group. Yang Zihuan is at the helm.

According to our investigation, she has a very close relationship with the chairman of the Sihai Group. Before the Yang family nearly went bankrupt, the chairman of the Sihai Group gave Yang Zihuan 30 million yuan to help the Yang family overcome the difficulties. Then I heard that Yang Zihuan was bullied by the Yang family. It was the chairman of Sihai Group who came forward and bought more than 60% of the shares of the Yang family, becoming the absolute controller of the Yang family, and then let Yang Zihuan take charge of the Yang family."

In Situ Jian's office, the secretary is reporting the investigation report to him.

He acted so low-key that he wanted to paralyze the people of the Sihai Group, and then took the opportunity to find the chairman of the Sihai Group and give him a fatal blow.

## **Chapter: 452**

Situ Jian nodded and motioned for the secretary to continue.

The secretary added: "I think if the chairman starts with Yang Zihuan, he will definitely be able to find out who the director of the Sihai Group is."

The chairman of Cosmopolitan Group has never appeared in public, and there are too few people who know him.

Even many employees of Sihai Group do not know the true identity of Yu Sheng.

This made it difficult for Situ Jian to investigate Yu Sheng's identity.

"Um."

Situ Jian nodded and said, "Proactively contact Yang's enterprises and give them the opportunity to cooperate. Since Sihai Group has no control over Yang's development direction, this is a good thing for us."

He felt that the woman named Yang Zihuan would definitely appreciate her cooperation with them. At the same time, he was also curious about what a woman the chairman of Sihai Group would like to look like.

"Okay." The secretary answered and went to make arrangements.

Then Situ Jian got up and went to the hospital.

He has been in Qiancheng for two days, and it is the first time today to visit his brother Situ Nan.

"Brother, you must take revenge for me. The Sihai Group is too hateful. I will not only make the Sihai Group go bankrupt, but also make their high-level group kneel down and beg me!" Situ Nan said viciously while looking at his own big brother.

Situ Jian patted Situ Nan on the shoulder, and comforted: "You can heal your wounds with peace of mind, and these eldest brothers you said will help you achieve it. No one hits my Situ family, and they can sit back and relax without any problems. The eldest brother will definitely let them pay. A painful price!"

As he said, there was a fierce flash in his eyes!

...

Zhu Qingshan opened the medical hall in Qiancheng, and invited many of his friends, as well as some big men in Qiancheng to cut the ribbon. Of course, the rest of his life will be one of the distinguished guests. Yu Sheng also promised that he would take some time to teach Zhu Xiaoshu the full version of Sanyang Acupuncture, which made both grandpa and grandson Zhu Qingshan very excited.

I wish Qingshan a generation of genius doctors to come to Qiancheng to open a medical clinic. This is what the rest of his life requires of him and the requirement of his granddaughter's Sanyang Acupuncture Method.

The Sanyang acupuncture method is the silver needle method passed down by the Zhu family, but the lower part of the Zhu family's needle method has long been lost, which makes them use this needle method to treat patients at a discount.

So Zhu Qingshan thinks this is a very good deal.

After Zhu Qingshan toasted Yu Sheng's wine, even Zhu Xiaoshu, who didn't like to drink, also toasted Yu Sheng's glass.

"Doctor Yu, why don't you say to accept Xiaoshu as a disciple." Zhu Qingshan said suddenly.

Zhu Xiaoshu even saluted Yu Sheng directly: "Master is here, please be respected by the disciples."

She said that she got up and performed a teacher apprenticeship to Yu Sheng.

I wish Xiaoshu to Yu Sheng, from the insatiable at first, to the surprise of the gods and admiration at the back, and then at this moment, I want to worship Yu Sheng as a teacher, learn magical medicine from the rest of my life, and respect him as heaven in my heart. People can be said to have undergone earth-shaking changes.

For the rest of his life, he knew Zhu Xiaoshu's accomplishments in Chinese medicine, and he was indeed exceptionally talented. He also deliberately passed on to Zhu Xiaoshu the scholarship he learned in the Nine Profound Heaven Classics.

But he always had a consideration. He was not very familiar with Zhu Qingshan's ancestors and grandchildren, and did not know them very well. He was afraid that after Zhu Xiaoshu learned his own skills, not only would not save people, but would use them to harm people, so he has always There is no intention to accept Zhu Xiaoshu as a disciple.

"Master Yu, Sister Xiaoshu is brilliant and talented in Chinese medicine is amazing. If you accept her as a disciple, she will definitely become a goddess doctor and will definitely not ruin your reputation." Bai Yulan also said for Zhu Xiaoshu.

She didn't admire Zhu Xiaoshu's medical skills very much, and Magnolia really wanted to be friends with Zhu Xiaoshu.

Anyone is willing to be friends with someone who has real abilities, especially a genius doctor like Zhu Xiaoshu who can save your life at a critical moment.

Seeing Zhu Xiaoshu who was still kneeling in front of him, Yu Sheng finally nodded and said, "Okay, then I will officially accept you as a disciple today and teach you medical skills."

I wish Xiaoshu a happy heart, kowtow hurriedly, "Thank you, Master!"

Yu Sheng said again: "However, to be my disciple, I have requirements. First, I am not allowed to use the

technology in my hands to do evil things. Second, I am not allowed to violate my words.

Can you do it?"

"I can do it, Master, rest assured, Xiaoshu has lost his parents since he was a child. Master is all elders like Xiaoshu's father. Xiaoshu will never violate Master's words!" Zhu Xiaoshu nodded and said hurriedly.

### **Chapter: 453**

Yu Sheng nodded, helped Zhu Xiaoshu up, and officially accepted him as a disciple.

But during this period he didn't have any time to pass on Zhu Xiaoshu's medical skills, and he had to wait a while before he officially passed on Zhu Xiaoshu's medical skills.

"I don't have time to teach you medical skills during this period. I think you have also learned martial arts. If you like martial arts, I can let my elders teach you one or two. He is the first person under the master." Yu Sheng said to Zhu Xiaoshu.

If Zhu Xiaoshu is willing, he will let her follow Yu Zhong to learn martial arts.

After Yu Zhong took the Qiangsheng Pill to restore the Qi Hai before, he not only returned to the peak in a short time, but also made his cultivation speed much faster due to the efficacy of the Qiangsheng Pill.

At this time, he was already the first person under the master, a standard half-step master.

Moreover, he has some medical skills, and the deeper the inner strength, the more effective it can be exerted.

Therefore, he still prefers to let Zhu Xiaoshu follow Yu Zhong to learn martial arts first.

"Really, that's great, thank you Master, I will go to martial arts first!" Zhu Xiaoshu said excitedly.

Learning martial arts is actually her greatest interest, and medical skills are just a manifestation of her perverted talent.

But they wish the family martial arts is ordinary, even her grandfather, the strength is also very poor, if you have been learning with her grandfather, it is estimated that in this lifetime, you will never want to become a master.

"Well, I'll take you there in a while." Yu Sheng nodded.

"Come on, Doctor Yu, this old cup of respect to you, from now on, as long as you can use it, I hope someone will never refuse!" Zhu Qingshan held up the wine glass and respected the rest of his life.

Seeing Yu Sheng finally accepted his granddaughter, Zhu Qingshan felt very relieved.

For the rest of his life, whether it was martial arts or medical skills, he was a master, and he admired it from the bottom of his heart.

Only by following a genius doctor like Yu Sheng can my granddaughter learn true skills from him and become the pride of Zhu's family.

"Okay." Yu Sheng picked up his glass and met Zhu Qingshan.

I wish Xiaoshu a toast to Yu Sheng and her grandfather.

"Master Yu, congratulations on accepting your beloved disciple. I also toast you a glass." Magnolia held up the glass and respected the rest of her life.

Seeing that Magnolia's face was already a little red, Yu Sheng knew that she was not drinking well, so he smiled and said, "You can take a sip, and you can do it when you feel like it."

Magnolia was a little touched in her heart. She had also drunk with many people. Most men tried to persuade her to drink, fearing that she would not get drunk. But like Yu Sheng, she was the first to be afraid of her getting drunk.

"It's nothing, I'm drinking too much." Magnolia smiled playfully, took the initiative to touch Yu Sheng,

and ate it all.

Yu Sheng smiled and ate it.

“Miss is worthy of being a hero of the female high school, and Master Yu is also a dragon and phoenix among the people. Come, Master Yu, I also congratulate you for accepting your lover.” Zhang Shengquan laughed and raised his cup to offer Yusheng wine.

For the rest of my life, those who come are not rejected, anyway, they are familiar people.

After toasting with Zhang Shengquan, Yu Sheng suddenly thought of something, took out a medicine bottle, handed it to Zhu Xiaoshu, and said, “I don’t have any gifts for you. This bottle of Xiaopei Yuandan is your apprenticeship.”

He only had this bottle of Xiao Pei Yuan Dan in his body. He was originally used to improve his internal strength.

But he has already broken through to the master, Xiao Pei Yuan Dan has no effect for him, but for Zhu Xiaoshu, it is a god pill.

“Thank you Master!”

Zhu Xiaoshu hurriedly took it, opened the medicine bottle, and smelled the fragrance of the medicine from Xiaopei Yuandan. Zhu Xiaoshu was a little intoxicated and couldn’t help but asked excitedly:

“Master, what kind of medicine is this Xiaopei Yuandan?”

Everyone also looked at the bottle of yellow pill in Zhu Xiaoshu’s hand curiously. The fragrance of the medicine was not very strong, but just by smelling it, everyone could feel comfortable all over, and they were even more curious.

#### **Chapter: 454**

Yu Sheng explained and said: “Xiao Pei Yuan Dan is mainly used to consolidate the original and cultivate one’s vitality. With just one, ordinary people can be introduced into the martial arts one way, and in a short period of time, they can cultivate their internal strength and become real martial artists.

At the same time, it has the function of strengthening the body and increasing internal strength.

This bottle is enough for you to raise a realm. ”

“Thank you, Master, you are so kind!” Zhu Xiaoshu looked at Yu Sheng excitedly. If it weren’t for the public, she would almost hold back holding Yu Sheng and kiss him on the cheek.

She has always wanted to be a master of martial arts, and for the rest of her life today, not only did she accept her as a disciple, but she also gave her Xiao Pei Yuan Dan, so why not let her get excited.

Bai Yulan, Zhang Shengquan and others are also envious. Although this small pill of pill is used by warriors, it also has the effect of strengthening the body and they also want to get one.

Zhu Qingshan had a smile on his face, and his heart was extremely excited and relieved.

“By the way, I’m almost looking for medicinal materials. I will refine Longevity Pill and Johnson Pill for your grandpa and uncle in these two days.” Yu Sheng said to Magnolia again.

“Really, thank you so much!” Magnolia said excitedly.

Her uncle had called him in the past two days, and she asked when the genius doctor Yu would refine the pill for them.

She evaded that she was busy for the rest of her life these few days.

In fact, the rest of my life is really busy.

After returning from Shangjing, he embarked on the science and technology park project. With the two major shareholders, Bai Yulan and Zhang Shengquan, busy with the work, he did not have time to make alchemy.

In the past few days, the project plan of Ke Technology has come out, and it has been handed over to Xie Weihao. Now we are waiting for Xie Weihao to grant them the land.

“Master Yu, do you want to refine the pill? Can you give me one too, I will pay for it.” Zhang Shengquan said with some expectation.

He knew that Yu Sheng was not only a master of Fengshui metaphysics, but also a true genius doctor, even more powerful than Zhu Qingshan, a genius doctor who was famous all over the country.

The pill that Yu Sheng refined, Gu said it can cure all diseases, in his opinion, this is a divine pill.

“Money is not needed, you can help me prepare some good medicinal materials.” Yu Sheng said.

He and Zhang Shengquan are also partners now. Zhang Shengquan dares to spend 5 billion to invest in the risky science and technology park. It is the absolute trust in him. Of course, he will not be stingy.

But relying on Du Fei and others to find the best medicinal materials was indeed a bit slow. He had asked Du Fei to search for a lot of the best medicinal materials, but now Du Fei has not found them.

Hearing Yu Sheng’s words, Zhu Qingshan’s eyes brightened. He has practiced medicine for decades and dare not say anything else, but he has collected countless top-quality medicinal materials, and he is going to be sent to him from Beijing.

At the end of the banquet, Yu Sheng took Zhu Xiaoshu to the Sakura Club to find Yu Zhong and let her practice martial arts with Yu Zhong.

After Zhang Shengquan returned home, he looked very excited.

His daughter, Zhang Wanqiu, who is Mei Tiaozheng and has a slightly spicy personality, saw her father rub her hands in excitement at this time, she couldn’t help but asked in surprise, “Dad, what are you happy about?”

Zhang Shengquan laughed and said, “There is a great thing!”

Zhang Wanqiu curiously asked, “What’s the great thing?”

“It’s Master Yu...” Zhang Shengquan was a little incoherent with excitement.

“Master Yu?”

Zhang Wanqiu’s heart chuckles, that master Yu, who is the god of the gods?

She hurriedly asked, “What happened to Master Yu?”

Zhang Shengquan said excitedly: “Master Yu is going to refine the god pill, he asked me to help him prepare some top-quality medicinal materials, and then he will give me one after the refinement!”

The pill that Master Yu refines, as long as you can get one, not to mention the priceless, it is a god pill that can survive.

Zhang Shengquan was very excited when he thought about it.

## **Chapter: 455**

Zhang Wanqiu has personally seen Yu Sheng’s powerful, whether it is martial arts or the magical Feng Shui metaphysics, she admires to the extreme in her heart.

She didn’t even think that Master Yu could even refine the god pill, which made her admire Yu Sheng a new height.

Knowing that Yu Sheng has great supernatural powers, she has always admired Yu Sheng in her heart, and is even more ashamed.

Ashamed, naturally I doubted Master Yu’s ability.

However, the more beautiful girls with hot personality, the more they like men who are much stronger than them, because only such men can make them truly convinced.

Therefore, in Zhang Wanqiu’s heart, Yu Sheng has always been regarded as the biggest idol.

Hearing that Yu Sheng was going to make magical medicine, she couldn't help but exclaimed: "I don't think that Master Yu still has this ability to make magical medicine!"

Zhang Shengquan sighed: "How powerful is Master Yu, we have only seen the tip of the iceberg! I heard that a few days ago, even the genius Zhu Qingshan paid homage to Master Yu's medical skills, and today he asked his granddaughter to directly worship Master Yu. As a teacher, you must learn medical skills from Master Yu!"

"Gosh!"

Zhang Wanqiu was completely shocked!

She also likes Chinese medicine very much, and actually knows Chinese medicine very well.

Zhu Qingshan is one of several superb Chinese medicine masters in China. In terms of qualifications, it is really at the level of Patriarch, even some big people, it is difficult to invite him out of the mountain.

Master Yu who is not young!

It can be seen how brilliant Master Yu's medical skills are!

Zhang Wanqiu couldn't help being full of fascination for the rest of his life.

Such a man with great ability is the object of women's most admiration!

It is also the Prince Charming who makes their women fascinated!

Especially a strong woman like her would only worship and surrender to such a powerful man.

Therefore, all of a sudden, she felt like a deer crashing in her heart, not to mention how excited she was.

Zhang Shengquan suddenly saw his daughter's blushing, he was taken aback for a moment, and then he immediately realized that his daughter seemed to be a little girly to Master Yu...

He turned his heart slightly, knowing that this was a good thing, he couldn't help adding fire to his daughter, and smiled slightly: "Late Autumn, there is something else, Dad will tell you today."

Zhang Wanqiu was startled and asked, "Dad, what else is there?"

Zhang Shengquan said: "In the late autumn, Master Yu is actually the chairman of Sihai Group."

Zhang Wanqiu was startled at first, then nodded, saying that it is no wonder, no wonder Master Yu has always regarded money as dung, it turns out that he is the chairman of the Sihai Group!

At this moment, Zhang Wanqiu's yearning for Yu Sheng became stronger again.

"Furthermore, Master Yu is going to build a 100 billion science and technology park. He has invested 50 billion himself. I am also going to invest 5 billion. In the late autumn, Dad is going to let you take over this science and technology park project. Ask Master Yu more, and Master Yu will personally take charge of this project." Zhang Shengquan added.

"Me?" Zhang Wanqiu said in surprise: "Dad, why don't you take responsibility for such a big project?"

Zhang Shengquan smiled and said, "You are a girl, and you are about the same age as Master Yu. You are both young people, so naturally you can talk better."

After that, Zhang Shengquan said again: "Actually, Dad is telling you the truth. Don't look at Master Yu's strength and supernatural powers. In fact, he is a very low-key person. He has been a son-in-law in the Yang family for several years."

Zhang Wanqiu nodded and said, "I know, but I don't understand why Master Yu is so powerful, why should he be a son-in-law? Where's your son-in-law?"

Zhang Shengquan sighed: "This is where Master Yu is unpredictable! If you say that it is really because of love, it is understandable, but I have heard people say that he is not at all compatible with the Yang family, his mother-in-law. I often tell people outside that Master Yu is at home, and he is the servant of their family!"

“Ah?!” Zhang Wanqiu was stunned: “Let Master Yu do what the next person does... The Yang family is too much...”

#### **Chapter: 456**

Zhang Shengquan said: “They don’t understand how great Master Yu is! I think it may be one of the ways of Master Yu’s practice. Many people in the world like to practice asceticism.

“so it is.”

Zhang Wanqiu nodded and said admiringly: “Master Yu is really amazing. There are simply not a few people who can do what he does for the sake of self-cultivation!”

Zhang Shengquan nodded and said earnestly, “Daughter, it won’t take a long time for Master Yu to spread the wings and soar into the sky. At that time, the whole city of Qian, and even the big families across the country will be desperate to curry favor with him. Big families across the country will send their most beautiful daughter into his arms. You have to seize this opportunity to deliver medicine to Master Yu!”

“what.....”

Zhang Wanqiu blushed all of a sudden: “Dad, what are you talking about...I don’t understand...what chance...”

“Still pretending to be stupid with me?” Zhang Shengquan said sternly: “Dad can see that you have admiration for Master Yu, right?”

Zhang Wanqiu squeezed ashamed for a while before finally nodding.

Zhang Shengquan said: “I have a hunch that under the leadership of Master Yu, the real dragon, the Science and Technology Park will surely soar into the sky. Our Zhang family will closely follow Master Yu’s footsteps, and will surely become famous throughout the country in the future.

And Master Yu stays in the little snake den of the Yang family for too long. He will definitely leave the Yang family one day. Therefore, you must act first and build a good relationship with Master Yu earlier, even the foundation of the relationship!”

Speaking of this, Zhang Shengquan looked forward with emotion: “If our Zhang family can recruit a son-in-law like Master Yu, this will definitely influence the fortune of our family for the next hundred years! At that time, we will realize the aspirations of our ancestors and let The Zhang family has become one of the top families on the land of China! In that case, the ancestor’s grave will be smoked! The ancestors will be very pleased under the Jiuquan!”

When Zhang Wanqiu heard this, his heart shuddered, and he immediately put away his original shame. Dad was right. This is not a simple matter of love for children.

This is the key to whether a family can break through the shackles of fate and meet the weathered dragon!

Encountering the weathered dragon is a rare opportunity for a family to wait for a century!

How many families have once flourished and disappeared in less than a hundred years, but there are also many families that can survive a hundred years, but they have never been able to go further.

Zhang family is the latter!

If the Zhang family can seize the opportunity of the rest of their lives, it is likely to fly into the sky!

This is really an excellent opportunity that may not be encountered in a century!

Now, this opportunity seems to be in my own hands. If I can really recruit a real dragon like Master Yu into the Zhang family, then the Zhang family will be able to save at least a hundred years of detours!

Oh my god!

The strong sense of family mission has urged her heart to quickly move closer to the rest of her life. So, she immediately said to Zhang Shengquan: "Dad, go and prepare medicinal materials! I will send it to Master Yu tomorrow morning!"

Zhang Shengquan nodded with satisfaction, and exhorted: "It must be dressed more beautifully and shiny. My daughter dare not say that she is all over the country, but here in Jinling, she is definitely a beautiful woman. If you dress well, Now, it's absolutely gorgeous!"

Zhang Wanqiu's face was blushing, but he nodded very seriously and said, "Don't worry, Dad, I will definitely pay attention!"

Zhang Shengquan said: "Tomorrow you will see Master Yu, remember to tell Master Yu that the Zhang family respects him very much, and I hope that in the future we can always serve him, stand for him, and also tell Master Yu what kind of good he needs in the future. Medicinal materials, just ask, my Zhang family dare not find them all for him!"

"After you have said this, please ask Master Yu again and ask him if he can give you a private pill. If Master Yu gives you another one alone, it means that Master Yu also has you in his heart. Then you and Master Yu There is a show!"

"Well, I know." Zhang Wanqiu nodded, his thoughts have flown to Yu Sheng.

#### **Chapter: 457**

Life is so regular for the rest of my life.

Once the next day, I first sent my son to school, and then went directly to the Sakura Club.

The science and technology park project still has to wait for Xie Weihao and other bigwigs to approve it. Du Fei told him that he almost got all the medicinal materials he wanted, and he was going to make a pill today.

However, in the car, he still called Xia Jun to ask about the recording of the Cosmic Girls program, mainly to know how Liu Qianshuang's performance was.

From Xia Jun's excited words, he probably also knew that Liu Qianshuang should have disappointed him. When I arrived at the Sakura Club, Yu Sheng wanted to call Du Fei to help him dispense medicine, but didn't expect Du Fei to be in the pharmacy.

To his surprise, Ye Qianxia was there.

At the beginning, because Ye Qianxia was a person on Longhu Mountain, and Ye Qianxia prevented him from killing Qin Daoran, Yu Sheng was angry and abolished Ye Qianxia's martial arts.

Last time in Yirenju, Yu Sheng proposed to exchange her light footwork with Qiangshengdan. At that time, Ye Qianxia refused, saying that she did not believe in Yu Sheng.

No thought that she would come here today, indicating that Du Fei must have convinced her.

Seeing the arrival of the rest of her life, Ye Qianxia was slightly cramped.

Du Fei explained: "She is willing to exchange the Qiangshengdan for you with the light exercise technique, so I called her."

"Um."

Yu Sheng nodded and looked at Ye Qianxia.

She who has lost martial arts, or she who has tasted the various forms of life during this period of time, seems to have disappeared from her face, and she is no longer as sharp and cold as before.

In other words, she has no confidence in herself as before.

Seeing that Yu Sheng didn't mean to embarrass herself, Ye Qianxia was also relieved.

After all, she ruthlessly rejected Yu Sheng last time, and she felt that Yu Sheng should bear grudges.

Du Fei bought a lot of medicinal materials. Yu Sheng first sorted out the auxiliary medicines needed for Longevity Pill, then took the main medicine Thousand-Year Wild Ginseng to prepare for refining, and then asked Ye Qianxia to follow Du Fei to sort out the other medicinal materials.

At this moment, his phone rang, and it was Zhang Wanqiu's call.

"Master Yu, are you at home?" As soon as the phone was connected, Zhang Wanqiu's voice was heard. Yu Sheng was taken aback, but he didn't think too much, and said, "I'm at the Sakura Club, did you send me the medicine?"

He remembered asking Zhang Shengquan to get him some top-quality medicinal materials yesterday.

"Well, my dad asked me to send you some medicinal materials. I don't know if it is convenient or inconvenient for you now. If it is convenient, I will send it to you now." Zhang Wanqiu said.

"Come on, Sakura Club, I will let someone pick you up at the gate." Yu Sheng said.

"Okay, Master Yu, I'll be there." Zhang Wanqiu replied.

After hanging up the phone, Yu Sheng said to Du Fei: "When Zhang Shengquan's daughter will bring me medicinal materials, you will have someone pick it up at the gate."

Du Fei made an "ok" gesture, then put down the medicinal materials in his hand and went out to make arrangements.

For the rest of his life, he sat aside and started dispensing medicine.

Ye Qianxia sorted the medicinal materials into categories, watched Yu Sheng dispensing the medicine curiously, looked at Yu Sheng's serious and focused expression, and unknowingly felt less resentment towards Yu Sheng in her heart.

If Yu Sheng could really refine the Qiangsheng Pill to restore Qi Hai, she would still be grateful to Yu Sheng.

In fact, after working as a waiter in Yirenju for so long and seeing all kinds of people, she feels that there are really not many people like Yu Sheng.

At least when she was being bullied, Yu Sheng and Du Fei would help her out without remembering the previous suspicions, while others would just watch with cold eyes.

Yu Sheng accidentally discovered that Ye Qianxia was peeking at him, and couldn't help but turn her head to make fun of him: "Why, do you think this master is so handsome and handsome? I can't look away for a while."

Ye Qianxia was embarrassed, her pretty face flushed with her neck.

This feeling of peeping at others is as embarrassing as it can be.

At the moment when Ye Qianxia was embarrassed, Du Fei returned and Zhang Wanqiu came in.

## **Chapter: 458**

Zhang Wanqiu wore a black shawl and long hair, and wore a beige dress. His face was delicate and beautiful, giving a person a very feminine look.

At this moment, she dragged a big mouthful of the box, looking at Yu Sheng's shy face.

"Hello, Master Yu, I'm Zhang Wanqiu, I don't know if you remember me." Zhang Wanqiu said nervously. Since her father Zhang Shengquan talked to her for the rest of her life last night, she has been tossing and turning all night and can't sleep all night.

In my mind, all I think about is the rest of my life.

She is also the age of a young girl Huaichun.

Which girl doesn't want to find a handsome, rich and capable three-good man to be her husband?

And when she looked at it, there were no men in the world who could compete with the rest of her life!

This is the right candidate for a truly peerless husband!

Not to mention that her father Zhang Shengquan hopes to make progress with Yu Sheng, even if Zhang Shengquan doesn't say it, she is fascinated by Yu Sheng in her heart.

Yu Sheng didn't know why Qin Aoxue was so nervous. The last time I saw her, she was still very cold, like a stranger shouldn't be near.

Why see you today, it's like a different person?

Seeing Zhang Wanqiu's strange appearance, Yu Sheng asked curiously: "What happened to you today? It seems a little different from before?"

Zhang Wanqiu was embarrassed, Master Yu did it on purpose, he must have made fun of himself on purpose.

Du Fei and Ye Qianxia next to them were a bit speechless.

Anyone with a discerning eye can see that Zhang Wanqiu obviously likes Yu Sheng, and even the enthusiasm when she looked at Yu Sheng in her eyes can be seen by the blind.

And he was still playing stupid there.

"Master Yu, Wan Qiu used to be a little ignorant, and a bit rude in front of the master." Zhang Wanqiu said embarrassedly.

In fact, she didn't think she had done anything rude in front of the rest of her life.

If there is any, it is that when Qin Daoran went to help her home, she doubted Yu Sheng in her heart.

"It seems that the change is quite big, haha, you can put the medicine there."

Yu Sheng smiled. In fact, how could he not see the enthusiasm and obsession in Zhang Wanqiu's eyes. But of course he can only treat it as invisible.

Mo said that he is a person with a family, even if he is single and can't give the other person a name, he doesn't want to delay the other person's youth.

Xiao Zixin and Yu Qin didn't talk about it. He recently discovered that Magnolia's eyes were a little abnormal when she looked at her.

It's not that he is narcissistic. As a man, he still has this confidence.

All three of them can only choose to act stupidly, not to mention this Zhang Wanqiu.

"Master Yu, you are making alchemy." Zhang Wanqiu put down the box and said.

"Yeah." Yu Sheng nodded and started to blast the furnace.

"Me, can I see you refining alchemy?" Zhang Wanqiu suddenly looked at Yu Sheng with a look of expectation.

Yu Sheng looked up at her and said with a smile: "You really have nothing to do. Just follow them and arrange medicinal materials for me."

"Okay, thank you, Master Yu." Zhang Wanqiu was delighted. Her intention was not to really watch Yu Sheng's alchemy, but to stay with Yu Sheng for a while to get more familiarity.

Then Zhang Wanqiu asked Du Fei how to organize the medicinal materials.

Du Fei was amused, but he was very serious about telling Zhang Wanqiu how to organize things.

After Zhang Wanqiu understood, he opened the box she brought up, and it was full of the top-quality medicinal materials her father had obtained through his personal connections yesterday.

Du Fei took a look, and was a little surprised: "Does your family run a medicinal material store? There are many top-quality medicinal materials."

Zhang Wanqiu said with a smile: "No, these medicinal materials were obtained by my dad's trust relationship. In recent years, my dad has also known some people in the medicinal material business. They have a lot of collections. This time my dad asked them, they They are all sold to my dad."

Yu Sheng nodded and said, "Zhang's contacts are good. I know he knows a lot of medicinal materials business owners, so I asked him to get me some medicinal materials."

"Um."

Zhang Wanqiu nodded and said, "Actually, my grandpa's home is the largest medicinal material supplier. Almost all the top-quality medicinal materials here are brought from my grandpa's home."

"Which is your grandpa?" Yu Sheng asked curiously.

#### **Chapter: 459**

"My grandfather's family name is Min, the largest medicinal material dealer in Qiancheng. Their family has been in the medicinal material business for many years. I heard from my mother that they have been in the medicinal material business since the Qing Dynasty. At that time, they had their own caravan. Then they were transported to the north, Shangjing and other places to sell them to the kings and nobles at high prices, and then to the rich places such as Jiangnan to sell to the wealthy. Moreover, they also collected a lot of top-quality medicinal materials." Zhang Wanqiu said.

"I'll go, it seems that your grandfather, old man Min, is a bit unkind. I have looked for him many times and gave him double the price. He actually only gave me some common medicinal materials." Du Fei smiled.

Zhang Wanqiu was a little embarrassed and hurriedly said: "By the way, Master Yu, my dad asked me to tell you that if you have any demand for medicinal materials in the future, please tell us directly. The Zhang family will do everything possible to satisfy Master Ye. need!"

"Okay, I won't lose you Zhang Family." Yu Sheng nodded, adjusted the temperature, and walked over. Seeing Yu Sheng squatted down to examine the medicinal materials she sent, Zhang Wanqiu was a little nervous.

Yu Sheng picked up a five-hundred-year-old Polygonum multiflorum plant and was a little surprised. This birthright was interesting enough.

He asked Du Fei to buy him a lot of medicinal materials, most of them were just ordinary medicinal materials.

Most of them are from ten to twenty to thirty years.

That kind of common medicinal materials, not even auxiliary medicines.

He inspected them one by one, and there were actually two 500-year-old medicinal materials, one was Tianshan Saussurea, and the other was Du Zhuang root. They were both superb and good medicines.

Both Xuelian and Du Zhuanggen are good medicines for refining Da Pei Yuan Dan.

Yu Sheng examined them one by one, and among the hundreds of medicinal materials, they were all good products over a hundred years. If these medicinal materials were sold at market value, they would be worth at least 100 million yuan.

"Yes, yes, your father is interested. Ask your dad how much does he cost for these medicinal materials?"

Yu Sheng nodded repeatedly and said to Zhang Wanqiu.

These medicinal materials are a bit expensive, and he doesn't want to take Zhang's for nothing.

What he wanted was the supply channel of the Zhang family's medicinal materials, not the Zhang family's medicinal materials.

"Master Yu, my father said that these medicinal materials are given to the master, and no matter how many medicinal materials the master wants, we will do our best to satisfy the master." Zhang Wanqiu hurriedly shook his head and said.

Yu Sheng thought for a while and asked: "You just said that these medicinal materials were mainly

obtained from your grandfather's house, right? Did your grandfather's house collect any money?"

Zhang Wanqiu said in embarrassment, "Symbolically collected tens of millions."

Yu Sheng nodded and said, "Then, let me practice the pill, and I will take you more, and you will also send you to your grandpa's house. This way, next time you ask them to get the medicine, it will be easier to speak."

Yu Sheng was still very confident in the pill he refined.

Like that kind of Dapei Yuandan, if he really wants to sell it, he can definitely sell more than 10 million.

There are also Johnson's Pill, and tens of millions are definitely bought.

Especially those who are strong in martial arts, have a strong life pill, it is definitely a means of life-saving.

There are other healing elixirs, millions of which also have a huge market.

"Thank you, Master Yu, thank you so much!" Zhang Wanqiu saluted Yu Sheng with excitement.

She just wanted to ask Yu Sheng for a pill alone, but thinking that she still hadn't even said anything, Yu Sheng took the initiative to give them a little more, and even considered her grandfather's house.

Master Yu is a man of great benevolence and righteousness, a man of true temperament!

"You are welcome, for the face of your little beauty, I will also give you more pills."

When Yu Sheng saw Zhang Wanqiu too nervous and excited, he joked casually.

It can be said that the speaker had no intention, and the listener had the heart. His words immediately made Zhang Wanqiu feel a little confused.

## **Chapter: 460**

After Yu Sheng inspected the medicinal materials sent to him by Zhang Wanqiu, he asked Zhang Wanqiu to sort them and place them on the designated medicine rack, and then went back to see the pill furnace.

At this time, the initial temperature of the pill furnace was in place, and he put the main medicine Thousand-Year Wild Ginseng into the pill furnace first.

The medicine of Longevity Pill is Thousand-Year Wild Ginseng. It needs to be heated to above Baidu before it can be mixed with adjuvants, and then it can be fused and refined at high temperature.

"Master, I'm here to send you medicinal materials."

At this moment, Zhu Xiaoshu's cheerful voice came from outside.

Yu Sheng looked up and saw Zhu Xiaoye coming with a small box.

I wish Xiaoshu dressed up in a blue student outfit, looking youthful and beautiful, just like a cheerful oriole.

"What medicinal material?" Yu Sheng asked in a daze.

He remembered that he did not ask Zhu Qingshan to prepare medicinal materials for him.

"My grandfather heard that you need medicinal materials for alchemy, so he asked someone to bring them from Shangjing. You can see if you want them." Zhu Xiaoshu smiled and opened the box and handed it to Yu Sheng.

There were only three medicinal plants in Shuangzi, but Yu Sheng just glanced at it, and his eyes were surprised.

These three medicinal plants are all superb.

Thousand-year ingredients of lotus seed heart, thousand-year ingredients of yam, and thousand-year ingredients of Guangbai!

These are all superb miraculous medicines, and any one plant that goes for auction is a sky-high price of

hundreds of millions of dollars!

This Zhu Qingshan is really interested.

“Master, how are these medicinal materials in my grandfather’s collection okay, hehe.” Zhu Xiaoshu said with some pride.

“Yes, not bad, put it there first, and when I have time, I will make some good pills for your grandfather and grandson.” Yu Sheng patted Zhu Xiaoshu on the shoulder and said.

“Well, thank you Master, Master, you are the best.” Zhu Xiaoshu nodded happily, then took the medicine box and placed it at the designated location for Yu Sheng.

“Master, what pill are you making?” Zhu Xiaoshu asked when he walked over.

“Longevity Pill.” Yu Sheng said.

“Is it for the old man Bai?” Zhu Xiaoshu asked.

“Yeah.” Yu Sheng nodded.

“Master, I also want to learn alchemy.” Zhu Xiaoshu looked at Yu Sheng expectantly.

“First, I’ll learn all the pharmacology and drug properties by heart, and then I will teach you.” Yu Sheng said.

Since she has been accepted as a disciple, of course she will be taught to practice alchemy.

Alchemy also needs to be based on steps. First of all, the most basic and difficult thing is pharmacological properties. It is estimated that it is difficult for most people to learn well after several years of insights and experiments.

But Zhu Xiaoshu’s talent is very good, Yu Sheng feels that as long as she uses a snack, she will be able to understand it in half a year.

“Okay, okay, I’ll recite it when I go back.” Zhu Xiaoshu smiled happily.

“It’s not just memorization, but the most important thing is to understand what kind of reactions will occur after the fusion of different medicinal materials, and what kind of new pharmacology will emerge. If you clarify these, you will be qualified.” Yu Sheng emphasized.

“Well, the master I know.” Zhu Xiaoshu nodded and said.

Seeing Zhu Xiaoshu and Yu Sheng talking and laughing, Zhang Wanqiu on one side was really envious, but it was a pity that she didn’t dare to disturb Yu Sheng in the past.

While carefully controlling the temperature, Yu Sheng explained to Zhu Xiaoshu the preparation of some relevant pill formulas, why these medicinal materials are combined, and there is a magical effect, and so on.

What he said, even if Zhu Qingshan’s Naxie is a leading Chinese medical practitioner, he doesn’t know much, or even a lot of them. Zhu Xiaoshu listened very carefully, as if suddenly found a magical door, so that she suddenly opened up. a feeling of.

This is the medical knowledge that her grandfather never taught her.

Do not.

This is alchemy knowledge, which is beyond ordinary Chinese medicine!

Zhu Xiaoshu thought excitedly, admiring his master even more in his heart.
