

Dont mess 771

Chapter: 771

"Yu Sheng, you rubbish, let me loose my hand!" Lei Chao angrily waited for Yu Sheng, but he never thought that he would stop him from teaching Lei Yang.

After struggling hard for two times, he still didn't get rid of Yu Sheng's hand. Lei Chao suddenly got his temper. This ignorant Yu Sheng even dared to find trouble in his Lei's house is simply tired of living!

"Come here! Drag this waste out for me to have a fight." Lei Chao said to the group of Lei family.

Zhu Qingshan stopped in front of Yu Sheng without saying a word, glaring at those people and said: "I want to see today, but who dares to be disrespectful to Doctor Yu!"

Yu Sheng used his hand to throw Lei Chao a few meters away and hit the chair before he stopped.

Looking at the old man Lei, Yu Sheng asked coldly: "Old man Lei, this is your Lei family's hospitality? If that's the case, the Lei family doesn't save it!"

Hearing this, Mr. Lei suddenly panicked, and Zuo Wenyu, who was lying in the hospital bed, was also very frightened.

"Bastard!" When the old man came to Lei Chao's side, he slapped Lei Chao's face with a slap. With such a powerful force, everyone in the hall heard a bright applause.

"You are not useful by yourself, Lei Yang finally invited the genius doctor Zhu over. What are you doing? Someone drags Lei Chao down and fights!" Old Lei ordered a group of people from the Lei family.

Lei Chao didn't even think that this guy Yu Sheng didn't have anything to do, but instead he was slapped by his father and was going to be taken aback.

Seeing what Lei Chao wanted to say, Elder Lei directly ordered his servants to plug his mouth.

After solving Lei Chao's problem, the old man Lei respectfully came to Zhu Qingshan and said with a smile: "Wish the genius doctor, please hurry in and treat Zuo Shao!"

Zhu Qingshan didn't move, but looked at Yu Sheng, and said to Grandpa Lei: "I can't cure Zuo Wenyu's illness, but God Doctor Yu can cure it."

When this sentence came out, everyone was surprised.

They were all from Qiancheng, who didn't know that Yu Sheng was a well-known son-in-law who ate soft food, and was just a waste of money.

I don't believe that such a person can cure a disease like Zhu Qingshan's body that can't be cured.

But Zhu Qingshan said so. Although they didn't believe it in their hearts, they didn't dare to say it. After all, Lei Chao, who is only the old man of Lei, was slapped for the rest of his life because he offended him.

He is still outside by the servants of the Lei family Punch and kick.

They don't have the identity of Lei Chao. If they offend the rest of their lives, they will end up worse than Lei Chao.

Zuo Wenyu, who was lying on the hospital bed, had a weird face. There were many unpleasant grievances between him and Yu Sheng.

And the reason for his abolition below is very likely to be caused by the kick kicked by the rest of his life at the Vina Hotel.

No one dared to say it, but that doesn't mean that Zuo Wenyu didn't dare to say it. After all, it was to cure his disease.

Zuo Wenyu pointed at Yu Sheng with an incredulous expression on his face, and asked, "You will really cure my disease?"

Yu Sheng raised his eyebrows and said lightly: "Why, since I don't believe me so much, then I don't need

to take action, just watch your underside festering.”

Upon hearing this, Zuo Wenyu’s face changed drastically, and he quickly pulled out the needle and knelt down to Yu Sheng, and said, “My best wishes, Doctor Yu, Doctor Yu, the previous thing was that I was so young and ignorant that I offended you, and now I know I was wrong. , I beg you adults to save me regardless of the magnanimity of the villain, right?”

Seeing that Zuo Wenyu’s attitude was pretty good, Yu Sheng’s mouth raised, revealing a weird smile. If this is the case, treat him well!

Chapter: 772

Lei Chao, who was slapped in the face, was dragged out by the Lei family’s subordinates to beat him again, but his identity was special, and the subordinates felt that way and didn’t really dare to hit him. Lei Chao staggered into the hall and heard Zuo Wenyu let Yu Sheng show him the fester below. In Lei Chao’s eyes, the rest of his life was nothing more than a big liar who tricked others to show that Feng Shui had deceived Qiancheng’s big families.

How could such a person cure the fester under Zuo Wenyu.

“Father, this man is just a liar, how could he be able to heal?”

Zuo Wenyu was very angry when he heard this. He knelt on the ground and kowtow to Zhu Qingshan and Yu Sheng. Someone even dared to stand up and make trouble.

If his roots are really rotten, even if the entire Lei family goes to the funeral, it will not help.

Walking quickly in front of Lei Chao, Zuo Wenyu kicked Lei Chao’s crotch relentlessly. This foot was where Zuo Wenyu deliberately found.

“You fucking dare to come in and make trouble, do you want me to really have roots? Believe it or not, I will let you be like me!”

Zuo Wenyu looked at his bodyguards and said, “Drag this person out for me to fight, just keep your breath!”

The bodyguard responded and dragged out Lei Chao who was kicked and fell on the ground.

Elder Lei on the side looked at him and felt distressed for a while! No matter how ignorant Lei Chao is, he is still his most beloved son.

Now that I see my son being beaten like this, I can’t do anything except distress.

Lei Yang watched all this indifferently throughout the whole process, but he looked at Yu Sheng with sincere respect in his eyes.

For the same young young man, as long as he appears for the rest of his life, everyone will give him face and respect him. This is what Lei Yang yearns for.

Therefore, Lei Yang regarded Yu Sheng as his idol and his benefactor.

After Zuo Wenyu finished solving Lei Chao’s problem, he came to Zhu Qingshan and Yu Sheng, and said in a good voice: “Doctor Yu, Doctor Zhu, how are you going to treat me? I feel almost uncomfortable now. NS.

As if there are countless ants gnawing, and I can’t grab with my fingers, I’m going crazy! ”

Yu Sheng said coldly, “If Lei Yang hadn’t come to beg me this time, I would never have come, so you must remember that Lei Yang’s all the credit for this kind of Lei family.”

Hearing this, Mr. Lei quickly patted Lei Yang on the shoulder and exclaimed: “Lei Yang, you did a very good job this time. I will remember the credit you made to the Lei family.”

Lei Yang was very excited. He cured Zuo Wenyu’s fester this time, which meant that he would be the chairman of Lei’s Pharmaceuticals in the future.

But he didn't know that Elder Lei actually had his own thoughts in his heart.

"Dad, these are what I should do. I am also a member of the Lei family. The Lei family is in crisis. I naturally want to do my best to help the Lei family." Lei Yang said excitedly.

Elder Lei didn't listen carefully to what Lei Yang said at all, but he curled his lips in disdain when he was in a corner where no one could see him.

Perfunctorily: "Well, it is a blessing for the Lei family to have a child like you in the Lei family. Go and rest."

The meaning of what Elder Lei said was that he didn't want Lei Yang to be an eye-catcher by his side. His most beloved son was still being beaten outside. He didn't have any intentions to take care of this illegitimate child.

Chapter: 773

In the eyes of Mr. Lei, Lei Yang is a wild species born from a village girl in Changbai Mountain who was toyed with by him. Because his mother was born humble, Mr. Lei also looked down upon Lei Yang a hundred.

He originally said that he and his eldest son Lei Chao, whoever can solve the family crisis, can be the chairman. In fact, the main purpose is to stimulate Lei Chao and make him actively think of ways. For a big breakthrough, Zhu Qingshan and Yu Sheng were invited over.

If you really do what you said, after Yu Sheng takes the initiative to cure Zuo Wenyu, he will have to let Lei Yang be the chairman of the board.

But how is it possible?

He is a rubbish that shouldn't exist at all!

At the beginning, I just happened to be in Changbai Mountain and found a beautiful girl in the family of the medicine farmer I cooperated with. So, with the purpose of having fun, I captured her with rhetoric, and then had a few addictions.

But it really didn't happen that the girl was pregnant!

What was even more unimaginable was that I had definitely refused her marriage request, and then left the village at the foot of Changbai Mountain, and never visited again, but this woman just gritted her teeth and gave birth to the child alone.

When he learned that Lei Yang existed, Mr. Lei's wife, the wife of the old man, had a lot of fun with him for a long time, and made Lei's chickens and dogs restless. At that moment, he had never seen Lei Yang, and he was already full of disgust for Lei Yang. .

Elder Lei himself is an extremely selfish person. He has several illegitimate children outside, but he doesn't want to take them back.

Because in his opinion, those illegitimate children are born because their mothers have no self-knowledge, and even less credibility!

Everyone is just playing on the spot. If you are pregnant, you should get rid of it. What the hell is it when you are born?

So, this is also the fundamental reason why he always hates Lei Yang.

If it hadn't been for my father to hear that there was a grandson who was living out and forced him to take it back, he would never want to see the wild species born by this rural woman for the rest of his life!

Now, even if Lei Yang made great contributions, he would not be able to hand the Lei family's business into his hands. Is he a shit?

However, Elder Lei didn't show the slander and uncomfortableness in his heart. He just wanted to quickly send the plague god Zuo Wenyu away!

So Grandpa Lei respectfully said to Yu Sheng: "Doctor Yu, please help Zuo Wenyu."

At this time, Lei Yang, who was full of joy, didn't know what Elder Lei was thinking, and only hoped that the rest of his life could cure Zuo Wenyu.

"Doctor Yu, Dad Yu, Grandpa Yu, please help me take a look, I feel like I'm almost ulcerated below me."

Zuo Wenyu also looked at Yu Sheng expectantly. The reason why he was so humble was thinking that Yu Sheng could cure the ulcer below him.

Otherwise, with his temper, when he saw Yu Sheng, the big enemy, he would have greeted people to beat him, so would he still have to endure it until now?

Yu Sheng touched Zuo Wenyu's head with satisfaction and smiled: "Your business is really getting more and more proficient, keep it up!"

Zuo Wenyu was full of resentment, but still with a compensating smile on his face, flatteringly said:

"Grandpa Yu, since you are satisfied with my performance, please help me take a look!"

Yu Sheng smiled slightly and said: "Put out your hand, I will help you get a good pulse."

Zuo Wenyu didn't dare to neglect, he rolled up his sleeves and stretched out his hand in front of Yu Sheng with a look of expectation.

Yu Sheng pretended to take the pulse in Zuo Wenyu's hand, took it back in a moment, and said with a playful smile: "You are sick..."

Chapter: 774

Zuo Wenyu didn't say half of what Yu Sheng had said. He was very nervous, got up from the chair, looked at Yu Sheng with horror, and asked eagerly: "Doctor Yu, can I still keep it?"

Yu Sheng pretended to frown his eyebrows, and said, "The reason why you have a problem here is because the meridians are not cleared, and then you take more potent medicine indiscriminately. This leads to the current ulceration, so simple disinfection can not solve the problem. of."

Hearing what Yu Sheng said the head was right, Zuo Wenyu asked: "Doctor Yu, there is still a cure for this? You must have a way, right?"

"There is a way, there is a way, but..." He said that for the rest of his life, he was still trying to say something, with a look of embarrassment.

When Zuo Wenyu saw Yu Sheng like this, he immediately became anxious and asked eagerly: "Master Yu, but what?"

"There is a way, but I'm afraid you will give up halfway." Yu Sheng said.

"Doctor Yu, don't worry, as long as you have a way to cure the ulcer below me, then I will definitely not give up halfway." Zuo Wenyu said firmly.

The festering thing below is almost killing him, is there anything he can't accept more than this? As long as there is a front line, I hope to keep him underneath, and insist on what Zuo Wenyu said.

"In this case, bring paper and pen." Yu Sheng said.

The Lei family's servant quickly took it over and placed the pen in front of Yu Sheng.

Yu Sheng picked up a pen and wrote more than 20 kinds of Chinese medicine on the paper, which didn't do much to Zuo Wenyu's fester.

The more than 20 Chinese medicines have a common feature, that is, one is more bitter than one. It is difficult for ordinary people to accept simple and blind Chinese medicine. What's more, there are 20 different kinds of suffering, which is simply a torture that doubles.

After writing the list, Yu Sheng handed the prescription to Mr. Lei and said: "Your family runs a pharmaceutical company, so you should prepare these herbs."

Elder Lei hurriedly took a look at the list, and saw that the more than 20 herbs on the top were all common in the market. It was not difficult to gather these more than 20 herbs.

Holding the list, Elder Lei said excitedly: "Doctor Yu, all of these are available! I'll let people prepare!"

Speaking of that, the old man Lei called the servants of Lei's family over and asked him to prepare according to the medicinal materials on the single prescription above.

Twenty-five kilograms of herbal medicines, put ten liters of water until only one liter is left to boil, just put it out for use.

At this time, Lei Chao, who was beaten by the Zuo family's bodyguard, was out of shape. The Zuo family's bodyguard was not like the Lei family's subordinates who would show mercy to him.

Today's Lei Chao's face is blue and purple, and his entire head is almost swollen into a pig's head. Now there is basically no way to walk, and it is the hall that was crossed by two people.

Originally, Lei Chao could go to the doctor for the first time to deal with the injuries on his body, but he said he didn't want to go.

I just want to stay here and see what method Yu Sheng uses to cure Zuo Wenyu. If Zuo Wenyu can't be cured, he must be the first to stand up and kill Yu Sheng!

All the people present did not have any reason to come in Lei Chao, and put all their hopes on the prescription that was given just for the rest of their lives.

Seeing that the people of the Lei family had already started to cook medicine, Zuo Wenyu felt a lot more at ease, but he still asked Yu Sheng with some uncertainty: "As long as I take this medicine, it can really cure the ulceration of my underlying roots.?"

Yu Sheng shook his head and said faintly: "That naturally won't work, because it's still the same medicine!"

Everyone looked at Yu Sheng with a puzzled face, not knowing what he said that the drug cited was missing.

Seeing that Yu Sheng was still selling the lawsuit, Zuo Wenyu was anxious, and asked, "Doctor Yu, what kind of medicine do I need?"

"This medicine is shit!" Yu Sheng replied without changing his face.

Chapter: 775

"Shit?" Zuo Wenyu repeated it in disbelief. He just wanted to cure the ulcer underneath. Why did he still get the shit?

Yu Sheng nodded solemnly, and said solemnly: "If you want to cure the ulcer below you, you must use shit as a medicine."

Upon hearing this, Zuo Wenyu's complexion became very ugly. For the rest of his life, he wanted him to eat shit!

He hasn't heard of any medicine that is feces. Zuo Wenyu's face is gloomy, and the feces and the fester under him are simply irrelevant, okay!

Before, he believed in Yu Sheng so much. Looking back now, Zuo Wenyu seriously suspected that Yu Sheng was playing him.

Zuo Wenyu said in a bad tone: "I've never heard of shit that can be used as a drug, but you tell me, what kind of animal shit is it?"

Yu Shengqiang resisted the urge to laugh, and said solemnly: "Of course this is using human feces. The

feces of other animals are not useful to your current situation.”

Upon hearing this, Zuo Wenyu was basically certain that Yu Sheng was playing tricks on him. Zuo Wenyu patted the table and stood up, pointed at Yu Sheng’s nose and cursed: “Yu Sheng, are you playing tricks on me? It’s so big that I’ve never heard of someone’s shit that can cure the disease.”

“Since you don’t believe me, then I don’t have to stay here to treat you. I don’t need to use people, but I don’t need to use people.” He said Yu Sheng, he was about to get up and leave.

Elder Lei has been running a pharmaceutical company for decades, and he has never heard of it that shit can cure root ulcers.

But Yu Sheng was their Lei family’s last hope, and Father Lei hurriedly pressed Yu Sheng, who had stood up to leave, onto the chair again.

Immediately, he came to Zuo Wenyu’s side and comforted him: “Left young man! Anyone who can be hired by the famous doctors in Qiancheng has been invited. How could the genius doctor Yu but the people admired by the genius doctor lie to you?

Besides, even if you really don’t allow Yu Shen to treat you, where can you hire someone who can treat your ulcer in a short time? ”

The furious Zuo Wenyu heard that Grandpa Lei felt that it made sense, but he would think that it was all the Lei family who caused him to become like this now, so he was so angry that he stared at Grandpa Lei severely.

Zuo Wenyu calmed down, and then apologized to Yu Sheng: “I’m sorry, Grandpa Yu, doctor Yu, don’t be angry with me, I really haven’t heard that shit can cure a disease!”

Yu Sheng snorted coldly, and said coldly: “So you are an ordinary person. It was said in ancient books that everything in the world has their uses. Although shit is not a medicine, it can be used to cure you. Medicine cited!”

Zuo Wenyu curled his lips indifferently, feeling that the rest of his life was talking nonsense in front of him, the purpose is to play with himself.

Seeing Zuo Wenyu’s expression, Yu Sheng frowned and asked, “You still don’t believe me?”

Zuo Wenyu didn’t speak, but the expression on his face had already answered Yu Sheng, I really didn’t believe you.

Yu Sheng stood up, as if his medical skills had been insulted, and said, “Everyone present can be a testimony.

For the rest of my life, I swear by my life that if Zuo Wenyu treats it according to the method I gave, and it does not get well within ten minutes, then I will be beaten by thunder and thunder for the rest of my life, and will pay Zuo Wenyu 500 million in mental damage. ”

As soon as he said this for the rest of his life, everyone present was in an uproar.

Chapter: 776

Zuo Wenyu didn’t even think that the rest of his life would suddenly swear an oath, and if he couldn’t heal himself, he would lose five hundred million.

Now Zuo Wenyu still doesn’t doubt that Yu Sheng has 500 million in his possession. After all, at the Chinese Medicine Expo, Yu Sheng was able to spend 100 million to buy a dragon beard worth only 30 million, which shows that he is still rich.

There are so many people in Lei’s family here, and the rest of his life shouldn’t go wrong. If eating shit can’t cure his disease, as long as he bites his teeth, it is still not a problem to eat the world’s richest man. Thinking of this, Zuo Wenyu’s suspicion about Yu Sheng playing with him has decreased a lot.

So he asked: "Doctor Yu, I believe you, but I want to ask, can I eat my own?"

Yu Sheng glanced at Zuo Wenyu and said disdainfully: "If eating yourself is useful, it should be cured long ago when the shit is in your stomach!"

Hearing this, Zuo Wenyu's expression turned very weird, and he felt disgusting just thinking about it.

If usually, if there is a papa in front of him, even touching it would be a great torture for him, and now he even let him eat it.

Zuo Wenyu was naturally unwilling with 11 million in his heart, so he asked Yu Sheng with a look of embarrassment: "Can you replace it with something else?"

"Of course it won't work. Other things will not have a great effect if there is shit. Without this medicine, I can't be sure to cure you." Yu Sheng replied undoubtedly.

Can't be replaced by something else, don't you have to eat shit today?

Zuo Wenyu's face was tangled, and he didn't know what to do for a while, but when he thought that his roots were about to fester, he gritted his teeth and agreed.

"That's OK, as long as the doctor Yu can cure my illness, I can eat anything."

Yu Sheng showed a satisfied smile on his face, and said: "Then we only need to find the right person who can provide this drug introduction."

The right person, Zuo Wenyu glanced at the people present, if he was asked to eat the shit of a super beautiful beauty, he would still be able to accept it reluctantly.

But Zuo Wenyu glanced at everyone around him, and there were a dozen strong bodyguards under him, and Zhu Qingshan.

The three Lei family and his son, as well as the Lei family who are still in charge, are all middle-aged men.

There was no one he could accept at all, and Zuo Wenyu who ate anyone felt nauseous and nauseous.

At this time the rest of his life spoke up.

"Not everyone's shit can be used for this medicine. It must be made by an adult male who has slept with a woman. The more the better.

Only when there are many women who have slept, the body's physique will change, so the shit can be useful. "

As soon as the words of the rest of my life came out, the people present you look at me and I look at you. In the end, everyone's eyes fell on the old man Lei.

No one at the scene knew that when Elder Lei was young, he was very romantic, and he didn't know how many romantic debts he caused outside.

Lei Yang was just one of his many illegitimate children, and there were no more than a dozen illegitimate children.

The prescription for aphrodisiac that I studied by myself was eaten desperately, otherwise, how could it be possible to walk on crutches at the age of sixty, and look like he is about to die.

Seeing everyone looking at him, Mr. Lei showed a triumphant smile on his face and said, "It is true that the genius doctor said that when I was young, I was very charming and suave, and I was very fond of women. In general, there are more than 500. Bar."

Chapter: 777

More than five hundred!

Everyone knows that when Elder Lei was young, he was so romantic, and he didn't even think that he could be so romantic, and even slept with 500 women.

Really worthy of the title of other people's meat pile driver!

Yu Sheng nodded, and pointed his finger at the old man Lei and said, "That's it. Let the servant prepare some food, but get some laxatives, and wait until the excrement is enough for a catty."

A pound!

When Zuo Wenyu heard this, he almost sat down and fell to the ground. It was already his limit to let him eat shit. For the rest of his life, he let him eat the shit of a bad old man in his sixties.

I thought it would be done by just taking two bites, but in the end I still had to eat a catty! Thinking of this, Zuo Wenyu felt his stomach was rolling.

Zuo Wenyu was about to cry, his appearance was even more sad than his dead parents, and said, "Doctor Yu, can you eat less? Is one catty too much?"

"If you eat less, it won't have much effect. By that time, your underside is half rotten, do you want to ruin my money?" Yu Sheng said angrily.

Zuo Wenyu turned to think about what Yu Sheng had said. Since he is going to eat this bad old man's food, if he eats less and is useless, and if he suffers from the crime, he will lose all his efforts.

He gritted his teeth and said, "Let's do it! Just follow what the genius doctor said, but don't make any mistakes!"

Lei Chao, who had been standing on the edge of the corner and watching, the more he listened, the more sure he would be talking nonsense for the rest of his life, how could he be cured by this method.

At that time, if Zuo Wenyu is not cured, he will definitely kill the rest of his life.

Even though there is no pain in one part of his body being beaten by Zuo Wenyu's bodyguard, Lei Chao is still there, and he wants to wait for the rest of his life to be worse than him.

Elder Lei on the other side was also uncomfortable. In order to be able to pull out a pound of shit, there was a table of dishes in front of him and a bottle of laxative beside him.

In about two hours, more than 20 kilograms of Chinese medicine and ten liters of water have been boiled into a bowl, and the Chinese medicine is dark and thick.

Put the spoon in, it will be difficult to stir, the most bitter Chinese medicine of more than 20 kilograms, boiled into one medicine, the power of that bowl of medicine can be imagined.

As soon as the servant brought the medicine in, a pungent and bitter smell filled the hall. Even Yu Sheng didn't expect the medicine to return so fiercely, wondering if he had said too much.

Then a servant of Lei's family walked into the hall with an iron basin, and the two unpleasant smells mixed together.

Yu Sheng covered his nose and quickly backed away a few steps, but Zuo Wenyu couldn't think that Yu Sheng did, these medicines were for him to drink.

One is a dark, sticky, bitter medicine in a big bowl. If you drink this medicine, your tongue will lose your taste for at least three months.

And in the iron basin next to it, there is unsightly, thick and rare shit...

Humans instinctively have a strong aversion to these three things. When the pound of shit came to Zuo Wenyu, the decision made by gritted teeth at the beginning was not so firm.

"Doctor Yu, can I take that bowl of medicine first, and then my tongue will have no taste, can I eat that pot of shit?"

Yu Sheng pretended to be angry and said, "This is naturally no good. Drug primer, drug primer. Of course, if you use shit to attract medicine, wouldn't it become a medicine to attract shit if you turn it upside down?"

It seems that this is the truth, Zuo Wenyu suddenly realized that his illness is to use a pound of shit to

attract this bowl of medicine.

Rather than using a bowl of medicine to attract this pound of shit, shit is of no use to his disease.

Chapter: 778

After figuring out the truth, Zuo Wenyu looked at the pot of shit again, and it was still difficult to spit out. There was a smell of urine in the pungent smell of the tip of his nose.

“Old Lei dog, did you pee in it!” Zuo Wenyu pointed at Old Lei angrily and cursed.

Elder Lei was already in poor health. He just took so many laxatives and he was almost dehydrated.

It would be better to take the diarrhea treatment, but his face was pale, and it looked like he was dying.

Hearing Zuo Wenyu’s questioning, Mr. Lei didn’t dare to lie, and quickly said apologetically: “I’m sorry Young Master Zuo, I really didn’t notice this.”

What does this mean is that there is still urine in this pot of shit? Zuo Wenyu was even more unacceptable now, he now has the desire to die.

But he still asked Yu Sheng, “Doctor Yu, can this medicine be used with urine mixed in the primer?”

Yu Sheng glanced at Mr. Lei, and seeing him like that, Yu Sheng felt that if he let Mr. Lei take another pound, he would have died of death.

Anyway, these things he said would not have any effect on Zuo Wenyu’s underside. Even if Zuo Wenyu didn’t eat these things, he only needed to scrape a little bit of medicinal foam on the pill that he had refined for the rest of his life.

The reason for saying that, Yu Sheng wanted to take this opportunity to teach Zuo Wenyu and Old Lei. They couldn’t be more suitable for the next thing. If Elder Lei really died, then the following things would not be fun.

“It’s nothing, it’s not a big problem if you mix in a little bit of other things, grandson, don’t waste your time, otherwise you will be rotten underneath, and then I won’t be able to save you.” Yu Sheng reminded.

Zuo Wenyu also knew that time was pressing, and the sympathy from below was undoubtedly telling him that his roots were still festering.

Looking at the pound of shit in the iron basin, Zuo Wenyu didn’t know how to eat it for a while, did he ask someone to get a chopstick? There are still rare ones in there.

If you take a spoon, it is a lot more convenient, but if you take one spoon by one, it is equivalent to taking a blunt knife and wiping your neck to commit suicide, which is simply torture.

Zuo Wenyu closed his eyes and directly picked up the old man’s feces on the table and poured it into his mouth. He wanted to end it quickly.

But there are still chunks of that thing. If you swallow it directly, you will definitely get stuck in your throat. Zuo Wenyu is about to cry. He doesn’t know whether he wants to chew for a while, but it’s already in his mouth...

Everyone who saw this scene was so badly able to bear it and vomited it out. It was the first time they saw this scene of people eating shit.

Yu Sheng also didn’t have the eye to see, he didn’t want to make himself appetite because of Zuo Wenyu, so he simply turned his head a little.

At this time, Mr. Lei, who was next to Yu Sheng, asked Yu Sheng with a look of doubt: “Doctor Yu, can Zuo Wenyu really cure his underside?”

Yu Sheng nodded, and said solemnly: “That’s natural. If it can’t be cured, I will pay 500 million out of my pocket.”

In fact, Yu Sheng had long been taking advantage of people not paying attention, and had put the crumbs of the pill that had been hidden in the nails into the bowl of dark and viscous Chinese medicine, which of course could cure Zuo Wenyu's illness.

Finally, Zuo Wenyu still resisted the nausea in his heart and chewed...

After eating the iron basin of shit, Zuo Wenyu almost vomited it out, but fortunately he covered his mouth in time.

Seeing the only bowl of bitter and unpleasant Chinese medicine left on the table, Zuo Wenyu picked it up and drank it.

His mouth is filled with an overwhelming bitterness, which is more than twenty times more bitter than the usual bitter gourd.

And that kind of medicine is not only bitter, but also has a spicy voice. It is even more uncomfortable to drink to the stomach than to drink sulfuric acid, but it is uncomfortable.

After drinking this medicine, Zuo Wenyu felt refreshed in his lower abdomen, and the pain underneath was also relieved a lot.

Excited in his heart, Zuo Wenyu stopped hesitating and drank the bowl of medicine.

Chapter: 779

After drinking the medicine, Zuo Wenyu felt that there was no pain underneath him at all, and no matter how many people were in the hall, he took off his pants directly.

really! After drinking the medicine prescribed for Yusheng, the roots that were about to fester before, the bottom is recovering at a speed visible to the naked eye.

Zuo Wenyu cried out of excitement, and finally saved his life after suffering so much.

As long as he keeps it, Zuo Wenyu doesn't want him to regain his glory as before, just want him to stay on his body honestly.

Wiping away the tears on his face, Zuo Wenyu thought about coming to Yu Sheng, and said excitedly: "Doctor Yu, thank you for helping me save my life."

Yu Sheng stepped back two steps with a look of disgust, Zuo Wenyu just ate a pound of shit, he felt sick just thinking about it, and it was impossible for Zuo Wenyu to get too close to himself.

"This time the incident is not my credit, it was all Leiyang's invitation to me, and I came, otherwise I would never be able to help you."

Zuo Wenyu glanced at Lei Yang, and didn't say anything. This time the incident was caused by the Lei family, and they should have invited a doctor to treat themselves.

Of course he couldn't thank the illegitimate son of Lei's family.

Elder Lei's face was pale, but he still forced a smile and said: "That's natural. This time the Lei family was able to survive the crisis all thanks to Lei Yang."

In my heart, I was thinking that this method is really easy to use, and if he encounters someone who has problems in this area, he can also heal others.

When he thought that Lei's family had obtained this prescription for nothing, Old Man Lei was happy. Lei Chao, who was waiting to see Yu Sheng's failure, was shocked, and he didn't expect that the liar, Yu Sheng, would really cure Zuo Wenyu's illness.

Very unwilling in my heart! But there is no way, I can only bear it back.

The Lei family was also shocked by Yu Sheng's superb medical skills. After all, all the famous doctors in Qiancheng came to see the problem with Zuo Wenyu, and they all said it could not be cured.

As a result, as soon as the doctor Yu came, he cured Zuo Wenyu's problem without saying a word.

Yu Sheng said to Zuo Wenyu: "Fortunately, you didn't photograph that Longxue grass at the Chinese Medicine Expo. The medicinal effect is much better than purple ginseng. Maybe you can't wait for me to come, you are all rotten."

"Thank you very much, Doctor Yu." Zuo Wenyu also had a thin layer of cold sweat on his forehead, and he was even a little grateful that he had finally saved the roots below.

After eating that pound of shit, his stomach was bulging, and Zuo Wenyu felt very sick when he thought that his stomach was full of shit.

Saying goodbye to the crowd, he now just wants to go to the hospital, do a good gastric lavage, and wash out the feces eaten in his stomach.

Anyway, he is already all underneath, even if he washes out the feces in his stomach, it won't be too much of a problem.

Afterwards, Zuo Wenyu had his bodyguards out of Lei's house mightily and went to the Sihai Hospital. When he reached the place, Zuo Wenyu said directly to the doctor: "Doctor, please help me with gastric lavage, it is best to wash it cleanly!"

He opened his mouth with a strange stench. The doctor slapped his nose and asked suspiciously, "What did you eat? Why do you have to lavage the stomach?"

When Zuo Wenyu saw a stinky doctor daring to dislike him, he grabbed his hand, face to face, and opened his mouth in front of the doctor and said loudly, "I ate a pound of shit, so I should give me a gastric lavage.!"

This time the stench became stronger, and the doctor who smelled it was about to vomit, and the doubts in his heart were even more overcome.

A few days ago, I just gave a rich second-generation gastric lavage, but there were no people walking around to grab shit and eat it. The doctor thought this was the most weird thing in his medical career. I didn't expect to have another one today.

Is it possible that eating shit is a new trick made by the rich?

Chapter: 780

After solving the Lei family's crisis, everyone in the Lei family's faces were lightened, and even the old man Lei, who had collapsed because of the laxative, looked more energetic than usual.

When everyone was silent in joy, Yu Sheng inserted a sentence at this moment: "Since the Lei family's affairs have been resolved, should Elder Lei announce that Lei Yang will take over as the next chairman?"

As soon as this remark came out, the hall that was still noisy became quiet for a short time. Elder Lei did say before that whoever can solve the power of the Lei family can take over as the next chairman.

However, all these years, Mr. Lei has always placed high hopes on Lei Chao, the eldest son, and Lei Yang's identity is so special...

Everyone looked at Mr. Lei for a while, wondering what choice he would make.

Lei Yang also looked at Father Lei expectantly, hoping that he could quickly announce that he would take over as chairman of Lei's Pharmaceuticals.

In order to be able to seize this opportunity, he even took out the Thousand-Year Snow Ginseng that had been passed down from her mother's ancestors.

Lei Chao's face was angry. If he hadn't been immobile by Zuo Wenyu's bodyguard, he would have wanted to step forward and beat the rest of his life severely.

He made it clear that he helped Lei Yang get the position of chairman of Lei's Pharmaceuticals!

“Yu Sheng, what do you mean by this? You are just a doctor. Now that Zuo Shao has been cured, and now Zuo Shao is gone, should you also go back.” Lei Chao’s tone was not good, and he drove people away. the meaning of.

Elder Lei’s complexion is also a bit bad. Although Zuo Wenyu has been cured for the rest of his life, there is nothing wrong with him now. Is it because he wants to intervene in Lei’s company?

Lei’s affairs are all up to him. When did an outsider intervene?

“Doctor Yu, I’m not at the point of dying right now. I don’t have to rush to hand over the position of chairman of Lei’s Pharmaceuticals, so I don’t have to worry about it.” Grandpa Lei said with a smile.

As soon as the words came out, everyone in the room understood what Elder Lei meant, and that was to make a mistake and not plan to hand the company to Lei Yang, a wild species.

But they were members of the Lei family, and they all respected Mr. Lei, so naturally they didn’t dare to have any objections.

Although Lei Chao’s nose was blue and swollen, it didn’t prevent him from looking at Yu Sheng and Lei Yang triumphantly. Although he didn’t speak, he seemed to say no more.

See! Even if you invite Yu Sheng to cure Zuo Wenyu’s illness, what will happen if the Lei family’s crisis is resolved?

My father is not facing me, and you are just a wild species.

Lei Yang was struck by lightning, and the excitement on his face was replaced by loneliness. He didn’t expect that Elder Lei would kill the donkey like this.

Everything is nothing but self-righteousness. Elder Lei has never thought of handing over Lei’s family to him.

Yu Sheng’s expression sank, with a murderous air on him, looked at Mr. Lei, and questioned: “Didn’t you say before that who can solve this crisis of the Lei family is the next chairman of the Lei family?”

When Grandpa Lei heard this, the smile on his face was condensed. He was just a doctor for the rest of his life, so he dared to intervene in his decision like this, and he simply didn’t put the Lei family in his eyes.

But Yu Sheng had a good relationship with Zhu Qingshan, and there might be something to ask for Zhu Qingshan in the future, so I didn’t want to make the relationship too stiff.

So he smiled and said: “Doctor Yu, you have misunderstood this. At that time, I said that if anyone can solve the Lei family’s crisis, then there is hope to take over as the next chairman.

Lei Yang did a good job this time, and I will remember that when he runs for chairman of the board, his chances will be greater. ”

Elder Lei directly changed the appointment of the next chairman to a chance to take over. Although there were only three more words, the meaning was totally different.

For example, Lei Chao and Lei Yang rock-paper-scissors, and Mr. Lei is the referee, no matter how many rounds Lei Yang wins, Mr. Lei will not be able to stand on Lei Chao’s side.

He said who is the chairman, who is the chairman, winning or losing is just a cutscene, and the decision is always in his hands.
