

# 1 Month To Doomsday But I Awakened Before That

## Chapter 24: First Time Seeing a Giant Werewolf

**Translator:** EndlessFantasy Translation **Editor:** EndlessFantasy Translation

The three teenagers were crouching in a corner while holding their heads.

They were so scared that they did not even notice Su Chen.

It seemed like they wanted to cry, but dare not let out any noise.

“Why are you here?” asked Su Chen while looking at the teenagers.

His voice shocked them so much that they curled up into a ball.

Their bodies were trembling intensely.

“Hey, relax. I won’t hurt you.”

Su Chen said softly.

Upon hearing that, the teenagers finally loosened up a little bit.

The oldest teenager slowly raised up his head.

In front of him was a tall and sturdy young man. He also had a kind face.

Clearly, he was not a monster that would harm them.

In fact, he was more like a savior who had come to rescue them.

The teenager felt way more at ease.

He tapped the other two teenagers who were beside him. They were still scared out of their wits.

“Get up. Look, someone has come to save us.”

The other two teenagers slowly raised their heads and looked at Su Chen.

“What are you guys doing here?”

Su Chen asked again.

“We came here because we were curious. However, things were completely out of our expectations.”

“Not long after we entered, three wolves found and chased us.”

“We could not avoid them no matter what. Since we had no choice, we ran into this building.”

“But what we saw was...”

It seemed like they were going to cry.

One of the teenagers pointed into the basement.

At the same time, an angry roar could be heard coming from that direction.

There was also the sound of a heavy object smashing against the wall.

That made the entire ground tremble.

The three teenagers immediately hugged each other out of fright while sobbing.

‘I’m sure the beast inside is up to no good.’

Su Chen thought to himself.

It was not a good idea to act rashly.

First, he needed a better understanding of the situation before making any decisions.

Su Chen squatted down and wrapped his arms around the teenagers.

He said softly, “Don’t be afraid. I’m here. Tell me, what did you see?”

Su Chen made the three teenagers feel safe.

The oldest teenager came back to his senses.

He looked at Su Chen and said in fear, “I... I saw a huge werewolf inside! It was much bigger than the wolves that chased us in. It was sitting on a high platform while eating some sort of corpse. Moreover, it was surrounded by internal organs. The ground was also covered in blood...”

The oldest teenager was unable to speak any further and ended up vomiting.

Su Chen patted his back and comforted him.

“It’s okay. You don’t have to be afraid. I won’t let it hurt you.”

Upon hearing Su Chen’s words, the teenagers nodded frantically.

“How did you guys get in?”

“We dug a hole beside the gate,” replied one of the teenagers.

Since Su Chen was around, he managed to find the courage to speak.

Su Chen recalled the newly dug pit he saw before entering this place.

It was indeed next to the main gate.

He could not help but smile.

These rascals were courting death.

The teenagers were confused when they saw his smile.

This was a life and death moment.

How could this person still be in the mood to smile?

Su Chen thought to himself, ‘I’ve already killed most of the mutated werewolves outside. However, leaving these teenagers by themselves is not a good idea. They might encounter other fierce beasts. Moreover, it’s already

late. Things will only get more dangerous. It's better for them to stay here first. After I've dealt with the werewolf, we can leave this place together.'

After making up his mind, Su Chen got up and looked around.

He found a corner with a thick wall that was rather well hidden.

Su Chen signaled the teenagers over.

Then, he instructed, "Stay here. Do not come out no matter what. Once I've settled everything, I'll come for you guys. Again, do not come out no matter what, understand?"

"No! Big brother, please don't go. It's too dangerous!"

When the teenagers heard that Su Chen was going to confront the giant werewolf, they got so scared that they almost wet their pants. They cried and begged Su Chen to stay.

Su Chen comforted and patted them.

Then, he got up and left.

He walked into the basement.

The three teenagers watched from behind in terror.

All they could do was huddle together.

Su Chen soon spotted the high platform.

Based on what the teenagers said, this was where they saw the giant werewolf.

However, the place was empty.

There were only some scattered organs and blood on the floor.

Su Chen walked deeper into the basement.

The foul smell of blood in the air became stronger. It was almost unbearable.

Meanwhile, the walls were covered with streaks of red or purple marks.

Su Chen could feel some sticky liquid under his feet.

From time to time, he would see some indistinguishable waste scattered all over the ground. They could be either human or animal remains.

Su Chen tried his best to not step on them.

Simultaneously, the numbers on the screen of the nuclear radiation detector in his hand kept increasing.

It went from double digits to triple digits.

The place where the giant werewolf was staying was probably the location of the nuclear leak.

It must have mutated after absorbing the nuclear radiation energy, which was also the source of its power.

The werewolf most likely had immense strength.

However, this was not a problem for Su Chen.

About twenty minutes passed.

...

In the depths of the basement, a loud howl could be heard.

“Awoo!”

It was the giant werewolf.

“Crack. Crack.”

There were also the sounds of a machine crushing bones.

The giant werewolf had not eaten any fresh meat today, thus, becoming extremely irritable.

It grabbed a cow's leg that had just been torn from the body and threw it.

The leg hit a machine and the impact smashed it into pieces.

However, the werewolf was still not satisfied.

It grabbed the leg again.

Using its giant claw, the werewolf began squeezing it.

Blood instantly gushed out.

The giant werewolf stretched out its long, barbed tongue and began licking its claw greedily.

As for the machines and equipment around this place, they were all smashed into pieces.

Everything had been torn apart.

Even the thick steel walls had holes in them as if something had blasted through.

There were also deep scratch marks.

This was all done by the werewolf.

Su Chen was only one wall away from the giant werewolf.

He was preparing himself to face the beast.

Even on the other side of the wall, he could hear the giant werewolf's loud breathing.

There was also the sound of it licking its mouth.

At first, Su Chen stayed quiet.

He just took a quick peek to observe the space and environment.

This place was relatively empty.

There were only machine parts scattered on the ground along with some animal carcasses.

However, there was a huge gate behind the werewolf.

That gate should be the entrance to the number three reactor.

Once he was ready, Su Chen appeared in front of the giant werewolf..

## Chapter 25: Killing the Giant Werewolf

**Translator:** EndlessFantasy Translation **Editor:** EndlessFantasy Translation

As expected, the giant werewolf in front of Su Chen was the upgraded version of the mutated wolves.

It was twice their size and dark gray in color.

The werewolf had a brown mane on its head and its body was covered in steel fur.

Moreover, its blood-red eyes were particularly prominent.

The tips on its huge claws were more than four inches long.

Each of them was extremely sharp. They were like daggers and emitted bursts of cold light.

The sight of Su Chen stunned the werewolf.

Then, it raised its head and roared into the skies.

It looked like the werewolf was laughing maniacally.

Finally, a human dared to face it.

The giant werewolf was exceptionally excited.

It raised its arms and shook them in the air as if it was cheering.

Indeed, it was celebrating its new prey's arrival.

The werewolf casually threw away the cow's leg that it was holding in its claws.

After that, it stood up and straightened its body.

Its fur was covered with blood and flesh. It bared its mouth, revealing its sharp teeth.

Lastly, its blood-red eyes emitted a menacing atmosphere.

Su Chen did not want to spend too much time dealing with the werewolf.

He wanted to get rid of it as soon as possible.

So, he took out his poison pistol right away.

Su Chen did not give the giant werewolf a chance to react.

Without any hesitation, he shot it.

Although the werewolf was huge, it was also extremely agile and promptly dodged to the left.

The poison bullet hit the werewolf's left arm.

In an instant, the front half of the werewolf's arm emitted purple smoke.

It appeared to be corroded.

However, due to the werewolf's large size, the poison bullet did not affect its whole body.

The werewolf raised its left forearm and looked.

Almost immediately, it was angered.

“Roar!”

The werewolf let out a loud roar and landed on all fours. It wanted to tear Su Chen apart.

It dashed toward Su Chen, but he dodged.

The werewolf did not manage to cause any harm.

However, its tail hit Su Chen’s hand when he was about to raise his pistol.

Su Chen’s grip loosened.

The poison pistol fell and slid to the corner of the wall.

Upon seeing that Su Chen had lost his weapon, the werewolf lowered its guard.

This was like a cat and mouse game.

The werewolf did not want to directly kill and eat Su Chen.

Instead, it felt like playing with him for a while.

Unexpectedly, Su Chen took out the max-grade pistol.

“Bang! Bang!”

He fired two shots at the giant werewolf.

Two bloody holes appeared on the werewolf’s body.

Purple blood oozed out.

The giant werewolf merely shook it off.

It did not seem to mind it much.

Then, the werewolf changed into an attacking posture.

It looked at Su Chen fiercely while breathing heavily.

‘This is bad.’

Su Chen narrowed his eyes and thought to himself.

He appeared to have no way of dealing with this giant werewolf.

The best solution was probably to cut it into pieces.

‘Decapitation would surely affirm its death.’

Upon thinking that, Su Chen took out the Thunder Blade.

The muscles on his arms tensed up.

The giant werewolf pounced on him, but he successfully dodged.

Su Chen swung his blade but he accidentally tripped on an animal’s corpse.

He missed the fatal blow and only managed to cut off the werewolf’s tail.

Purple liquid instantly gushed out from the remaining half of the werewolf’s tail.

Due to the loss of blood, the werewolf became sluggish.

It crashed into the wall behind Su Chen.

“Bam!”

A crack appeared on the wall.

The ground shook!

Now, the werewolf was completely enraged!

It let out a thunderous roar.

Then, it pounced at Su Chen, wanting to bite him.

Su Chen swung his blade again and cut the werewolf in half.

The upper and lower halves of the werewolf were split!

Although the werewolf was left without legs, it dashed forward using its front claws.

It aimed to bite Su Chen again.

Su Chen took a step back and picked up an eight-inch-long steel pipe from the ground.

It was as thick as his wrist.

He threw it at the werewolf.

The steel pipe landed between the upper and lower jaw of the werewolf's bloody mouth.

With that, the werewolf was unable to close its mouth.

Su Chen quickly picked up the poison pistol from the corner of the wall.

Then, he aimed at the werewolf's mouth and pulled the trigger.

The werewolf's head began to corrode from inside out.

Before long, it turned into a puddle of blood.

“You think you can beat me?!”

Su Chen had a ferocious expression on his face and he looked ruthless.

“Ptui!”

He spat at the werewolf's corpse.

Its blood smelled really bad!

Su Chen stepped on the werewolf's corpse and headed to the front door.

The numbers on the nuclear radiation detector were off the charts.

Su Chen used all his strength to open the door.

Just as he took a step in, he heard the system's notification sound.

“Ding dong! You have successfully checked in at a nuclear power plant and obtained an air bomb!”

“System, your rewards really come in a timely manner, don't they?”

Su Chen smiled faintly.

“How do I use this air bomb?”

“Host, as long as you imagine it in your mind, you can compress the surrounding air. Then, aim for whichever target you want to attack. The air bomb will disperse and cause paralysis in a large area.”

Meanwhile, the three teenagers who were hiding had heard the loud roar of the werewolf.

They had also felt the ground tremble.

After that, everything fell silent.

This caused them to panic.

“Why don't we run? The big brother who went in earlier is probably dead,” said one of them weakly.

“If the monster comes out and sees us, we'll definitely die!”

“But there are still wolves outside. It's dark now. If we go out, we'll still be eaten.”

The three teenagers were in a dilemma.

Suddenly, they heard a voice.

“Hey, let’s go.”

The teenagers looked up.

It was Su Chen. He was completely unscathed.

They were instantly overjoyed and jumped up in delight.

All of them left the nuclear power plant safely.

Subsequently, Su Chen drove back to the hotel.

“Ring ring!”

Su Chen’s phone rang.

It was from an unfamiliar number.

He frowned slightly and answered the call..
