

Dragon Husband 1736 Part 1

Chapter 1736 Curse

"Oh? What do you say?" Wiliam was suddenly interested, but he had never heard of this.

Su Qingshan said helplessly: "When it comes to the Sifang Seal, we have to start with the starting fetish of our Cold Boat Clan, and also start with my ancestors."

"After my ancestors settled in the Cang Mang Scorpion, because they could move freely in the Scorpion, fishing and other things went smoothly, and they lived a life of worry-free food and clothing."

"Then one day, my ancestor had another dream. I dreamed that a magical seal was floating in front of him. It is strange that the seal could speak by itself."

"The seal said to my ancestors, are you satisfied with your current life? Do you just want to be anonymous all your life? Don't you want to live a better life? Don't you want to become a high-ranking person and be admired by all generations?"

"My ancestor thought it was a dream, so of course he thought it. Don't people look forward to fame and profit in their entire life? Even ordinary people have a dream that soars into the sky."

"Then, the seal said, I can give my ancestors a kind of divine power, but there is a price. My ancestors asked what the price was, and the answer I got was that I could only live within twenty miles of the moat, and I would not leave for generations. If you leave, Shouyuan will not live to be forty years old."

"My ancestor also thought it was a dream, and he agreed casually out of greed. When he woke up, everything was different."

"After the ancestor woke up, he found that the seal in his dream was floating in front of him. On the seal, there were five words "Jiangshan Prayer Seal."

"My ancestor felt at the time that the dream came true, and he completely forgot the price he promised to pay."

"So my ancestors tried to use this seal and found that the so-called divine power can really be obtained. This divine power can be used on people to cure all diseases."

"With this seal, my ancestor quickly became famous and became a famous doctor at that time."

“However, the premise of becoming a genius doctor is that he travels in all directions, and the range has already exceeded the 20 kilometers of the blue python.”

“Under the success of my ancestors, the cold boaters quickly spread their branches and began to take shape. This situation has lasted for more than ten years.”

“Then, when it came to my ancestor’s fortieth birthday, the Hanzhou people held a birthday banquet, congratulations from all over the world, and it was a sensation.”

“Then something weird happened. After midnight, my ancestors bleed from the seven orifices on the spot, and there was no sign.”

“When death came, my ancestor knew that he was afraid. He also recalled the price of getting the Jiangshan Prayer Seal more than ten years ago. Forty years old is really a hurdle that he can’t get over.”

“When he was about to die, the ancestors felt remorse and remorse, and wrote a few big words with tears, and those in the cold boat must not leave the shore of the sky for 20 kilometers! Otherwise, the scourge will come!”

“Fortunately, the ancestors also told this so-called price as a joke to the younger generation. Combined with the sudden death of the ancestor, the cold boater immediately knew what was going on after the association.”

“This is the curse of the Jiangshan Prayer Seal!”

“Afterwards, a few more clansmen who died at the age of forty appeared. These people were all people who had traveled far. The curse of the Jiangshan Prayer Seal was confirmed again.”

Dragon Husband 1736 Part 2

“Thus, the Hanzhouzhe ethnic group has since followed the ancestor’s teaching, and has not dared to leave the 20-kilometer shore of the moat from generation to generation.”

“I see, this is the cage you’re talking about without freedom.” Only now did Wiliam fully understand.

The cold boaters are also a very strange group.

Being blessed by God, and subject to God.

It boils down to the greed of their ancestors.

How can there be unprovoked love in this world?

If there are some, it is estimated that it is petite and soft.

And Wiliam immediately thought of why Su Qingshan didn't want to say it just now.

This can be regarded as the biggest secret of the cold boaters, or the biggest weakness.

If it is known to outsiders, outsiders can easily rely on this weakness to fight guerrilla warfare with the people of the Hanzhouzhe ethnic group, and drag the Hanzhouzhe to death.

Su Qingshan naturally did not dare to tell the secret of the rise and fall of the family.

It's a pity that Su Qingshan, like his ancestors, was blinded by greed.

Jiangshan prayer seal, interesting.

Who is it, who secretly set up this situation, and let the Hanzhou people be the people who have lost all kindness and righteousness from generation to generation?

The three emperors of the human race, or the descendants of the three emperors?

But Wiliam immediately thought of another thing, and he asked: "But, you are also a member of the Hanzhouzhe, and you are also the direct descendant of the Hanzhouzhe, why can you leave the Hanzhouzhe? You are not afraid of the curse of the Jiangshan Prayer Seal.?"

Speaking of this, Wiliam immediately saw Su Qingshan's face full of bitterness.

"Do you think I think so? I was forced to leave the Cold Boat. I'm thirty-five this year..."

The implication is that he only has five years to live.

"I don't want to die in vain, I just want to be able to enjoy all the wealth and honor in the world in the rest of the time, so I can't lose the spiritual power in the Sifang Seal." Su Qingshan's words can be regarded as a side explanation. the reason for his greed.

There is a bit of unwillingness and helplessness in the greed.

"Can't this curse be broken?" Wiliam asked again.

Su Qingshan shook his head, "No. At least until now, no one from the Cold Boat has been able to crack it. For thousands of years, there have been countless people in the Cold Boat, but they want to get rid of the curse and then There are also people who died under the curse. In the next few generations, almost no one dares to try again. We are in a corner, and we have no worries about food and clothing, which is actually quite good."

"Furthermore, we have also learned to live in peace with the Jiangshan Prayer Seal after past attempts. As long as we don't leave the shore, the Jiangshan Prayer Seal will overflow with spiritual energy every few years, and we will use the Sifang Seal to carry it out. So we Hanzhou people have also become the sea god doctors or witch doctors in the rivers and lakes."

"However, the experience and lessons left by our ancestors gradually let us know that there is a way we may try. That is to become the master of the prayer seal of Jiangshan, maybe this curse will disappear."

"Because in previous generations, we had a genius patriarch who tried to communicate with the Jiangshan Prayer Seal and found that there was actually a sleeping Yinling in the Jiangshan Prayer Seal. But unfortunately, the patriarch only awakened the Yinling for a short time, and he could not get it. Yin Ling's admission. But even if he was awakened briefly, he got great benefits and lived to be more than two hundred years old."

After Su Qingshan finished speaking, her expression was still sighing, and she was a little envious.

Wiliam ignored this for the time being, and still asked a question, "I just want to know, why did you just say that you had to leave the Cold Boat Race?"

When Su Qingshan heard this, she gnashed her teeth!

"It's not that my crazy sister knocked me out and brought me out!"

"I can't go back!"
