

Dragon Husband 1782

Chapter 1782 Two bodies with one soul

These unanimous words, like thunder rolling in the sky, blew the ears of the people at the scene to the point of being deaf!

Everyone has been terrified!

How sacred and arrogant is this scene!

Between the heavens and the earth, a big snake looks like a tiger!

It hovered behind Bai Fengxue, as if incarnated as the patron saint of Bai Fengxue!

And it just stares at the people of the Cold Boat Race!

In front of it, the cold boaters are as small as mayfly and dust!

With such an exaggerated size comparison, the people of the Cold Boat Race can't even think of any resistance!

Including those few Supreme Elders!

In my whole life, where have I seen such absurd and terrifying pictures!

And the unanimous words made them even more frightened!

grandchildren...

This big snake!

And this woman!

After a short period of horror, many people suddenly felt blessed, as if they had thought of something!

“The Frost Python...”

Some people murmured in a low voice, and their bodies slowly slumped down.

What does Frost Serpent mean?

It means that their ancestors are alive!

Everyone in the cold boat knows that their ancestor is the Frost Cang Python.

There are also many people who know that the Frost Cang Python is transformed into a moat, guarding the safety of all directions.

I don't know how many years have passed, their ancestors are immortal, and occasionally they will cry out.

But no one could have imagined that one day the Frost Cang Python would be able to reappear in the world!

“Meet the ancestors!” The elders of the Hanzhouzhe also knelt down in unison, daring not to have any second thoughts.

With their identity and strength here, they dare?

Even Su Hongxiu knelt down and shivered.

She thought about it.

She had thought of another terrifying fact earlier than anyone else.

The Frost Cang Python is immortal.

Even more frightening is the unanimous voice just now.

Bai Fengxue and Frost Cang Python made the same sound.

Does it mean that Bai Fengxue is the Frost Cang Python!

That is their ancestors!

Thinking of this, Su Hongxiu's whole body is not well!

This is so special!

So fantastic!

how is this possible!

However, the facts could not be questioned by Su Hongxiu again.

Bai Fengxue sneered, and the Frost Cang Python behind him sneered at the same time.

Bai Fengxue raised his head, and the Frost Cang Python also raised his head at the same time.

As if the Frost Cang Python was the shadow of the wind and snow, what she did, the Frost Cang Python did too.

It's like a man, a snake, and two souls, and their behaviors are exactly the same.

"You call me my ancestor now? I said it was your ancestor just now, why don't you believe it?" Bai Fengxue sneered again.

And these words came out of the Frost Cang Python's mouth.

This time, everyone was dumbfounded.

They finally started to think about one thing.

The connection between Bai Fengxue and Frost Cang Python!

Before thinking about it again, Bai Fengxue really kept saying that she was the ancestor of the cold boaters.

At that time, who could believe it!

Everyone thought that Bai Fengxue was provoking the cold boaters and disrespectful to the cold boaters!

But now!

It could be true

Two souls!

No one else can't believe the relationship between one person and one snake!

Everyone looked at Bai Fengxue behind Wiliam in awe.

For a time, the scene was as quiet as a chicken, and only the sound of the waves crashing could be heard.

Su Yongcun is even worse.

I didn't think about it, I didn't think about it!

This time, the old man Qingfeng brought two disciples here.

Su Yongcun only valued Wiliam. After all, Wiliam was known to him, the so-called great sage.

But the great sage's storm here is also limited.

Not to mention Bai Fengxue, who is only the wife of a great sage.

Although Bai Fengxue also showed a certain strength before, but in front of the elder Taishang, it is still not qualified.

Never thought that the real big boss is not Wiliam!

It turned out to be Snow White!

After Bai Fengxue experienced the miracle of half-white and half-blue, now he has directly transformed himself into the ancestor of the cold boaters!

Now that I think about it, everything makes sense!

Why is Bai Fengxue, as an outsider, able to easily mobilize the spiritual energy in the Jiangshan Prayer Seal...

Why does Bai Fengxue always carry an aura that daunts the cold boaters, making their knees weak and always want to kneel down to her!

Because she is the bloodline of the Cang Python!

More authentic than all!

Although I don't know how Bai Fengxue did it, the fact is in front of everyone!

"Yes, I'm sorry, I'm sorry, we were blind before, but we were wrong..." Su Changsheng's body was on the ground, trembling all over, and he spoke with a strong vibrato.

In front of the ancestors, what did he count?

Recalling what he had done to Bai Fengxue before, Su Changsheng had a strong sense of remorse!

To neglect the ancestors so much, he died 10,000 times is not enough!

He even condoned Su Lanbo and made things difficult for him in every possible way!

If the ancestors were to blame, it would be no exaggeration for Su Changsheng to commit suicide immediately.

And the elders seemed to have thought of this as well.

They all looked at Su Changsheng with anger on their faces.

"Ancestor, please calm down! It's our younger generation who is ignorant and offended you! We'll deal with it immediately!" The elder of the Flying Cloud Realm said stumbingly.

Su Changsheng's face changed greatly, but his body was lower on his back.

Who can be blamed for all this, it can only be one's own fault.

Bai Fengxue burst into laughter, "Oh? What do you want to do with it?"

The elder of Feiyunjing replied without hesitation: "I will immediately end the person who offended you, the ancestor."

"Hohoho, there are many people who have offended me, aren't they, my children and grandchildren?" Bai Fengxue said lightly again.

This time, the expressions of many people in the audience changed.

There are indeed many people who offend the ancestors.

Before, almost many people came to the stage to kill Bai Fengxue.

And it was the five elders who had a direct confrontation with Bai Fengxue.

With this treatment, most of the foundation of the cold boaters has gone directly.

However, the Supreme Elder of the Flying Cloud Realm didn't even consider these things.

On the contrary, he was a little fortunate in his heart.

This shows that the ancestors are willing to give a way to survive!

That Supreme Elder, how many years have he lived, finally broke through to the level of flying clouds today, and he didn't have time to enjoy the treatment of the strong, naturally he didn't want to be affected.

Moreover, the ancestors are already alive, maybe if you handle it properly, you can get a little bit of benefits from the ancestors, which will also benefit you endlessly!

So he naturally spared no expense, as long as he kept his own life, as long as the ancestors could let it go!

However, Bai Fengxue shook his head gently and said, "That's not the case. My husband said two words before, do you remember?"

Everyone's head buzzed.

Those two words...

Genocide!

Bai Fengxue stretched out his hand and snapped his fingers lightly.

"As for extermination, what my husband said never counts."
