

Dragon Husband 1838

Chapter 1838 Conquering!

Lin Jiang knew better than Wiliam about how to control the world.

Because he himself is a man who controls the world!

The two of them thought of the answer instantly, and were very excited about it.

Lin Jiang Zhanyan smiled and said, "Grandpa Lin broke the secret in one sentence! That's right, it's the imperial rule!"

The world controls people, the power is in the world, and the gods control people!

Yu Shi, refers to Yu Shi's ability to control people's beasts.

In their hands, no matter how ferocious or terrifying it is, birds and beasts can become their beasts of control.

To put it in a simple and straightforward way, everything can be controlled!

However, this is only one of their abilities, not the strongest.

Their strongest point is to control others!

Well, literally, make people!

At first glance, this is no different from the creation of man.

But there is still a big difference.

Yu Shizhi people they make are rootless spirits.

Low-level rootless spirits are actually puppets with human appearances.

But the most advanced rootless spirits are no different from humans, possessing the joys, sorrows and joys of human beings.

This kind of sky-defying ability could have allowed Yu Shizhi to leave the other eight sects far away.

However, the more against the sky, the greater the limit.

Wiliam doesn't know what the restrictions are for the time being, but he knows one of them.

Controlling people, especially creating the most powerful rootless people, is itself against ethics.

will be condemned by many people in society.

Probably Yu Shizhi people also know this, so in recent years, their whereabouts have been extremely low-key, and they basically do not use restraint as a gimmick to promote themselves.

Even in the nine qualifying matches, they never showed the magic of overpowering.

Usually, even if they control people, they just make some superficial rootless spirits and use them as robots.

And Wiliam vaguely knew the magic of the most advanced rootless spirit before, and now Lin Jiang explained it more deeply.

There are countless wonderful uses for the rootless spirit, but to sum up, there are two big ones.

One is to be used as a real human being.

Whether it is a servant or a bodyguard, they are all very strong.

The second is that rootless people can act as artifact spirits, or provide resources for artifact spirits.

This is very welcome.

Especially welcomed by those forging sects.

As we all know, in this world, there are three types of weapons.

One is an ordinary magic weapon, the other is a magic weapon, and the last is an immortal martial art.

Among the nine sects, the most popular is the magic weapon. If there is a magic weapon, a sect will have so many pieces.

Xianwu has not even seen Wiliam before.

And a magic weapon, if you want to continue to advance to the immortal martial arts, the first prerequisite is to have an artifact.

The life of the spirit is extremely mysterious.

Most of the artifact spirits are slowly cultivated through the same qi with their masters.

This method is the most common and works best, but the time is the slowest.

Ghosts know that it takes decades or hundreds of years to cultivate, and there will never be a clear day.

The second method is to rely on the materials used to forge divine weapons. After thousands of years of precipitation, some materials already have ignorant souls.

This category is extremely rare. After all, once this material has a soul consciousness, it will know how to hide itself better.

And the third way is to infuse the spirit!

To put it bluntly, it is to inject the most advanced rootless spirit into the divine weapon, so that the rootless spirit becomes a divine weapon spirit.

This method, according to Lin Jiang, was created by Yu Shizhi people.

For this alone, the status of ruling the world is a unique existence among the nine sects, six laws and three top heavens.

Of course, Lin Jiang also explained that after this method is used, it will not affect the rootless spirit. After the combination of the rootless spirit and the magic weapon, the magic weapon can usually be hidden in the body, and can be used as a rootless spirit in peacetime. The appearance of a person exists outside the body.

After an explanation, Wiliam naturally understood what to do with Yu Shizhi.

There is a rootless spirit beside him, that is Xiao Wangqing.

But Wiliam didn't want Xiao Wangqing to become his safflower spirit.

One of the reasons is that Wiliam always has a lump in his heart.

In his heart, Xiao Wangqing is Xiao Wangqing, a living person.

Even Wiliam took her as his daughter.

Now to materialize it, Wiliam felt uneasy.

The second reason is that Wiliam is still not sure about one thing.

Long live the safflower itself has a spirit, the naked child.

If Xiao Wangqing becomes an artifact, does it mean that the child who can cry and laugh will disappear forever.

Wiliam couldn't bear it.

So what Wiliam thought of was to find Yu Shizhi people to see if they have other unformed rootless spirits, or even some materials, to see if they can bring them into strong spirits.

Yu Shizhi is so mysterious, there must be reserves in this area.

William told his grandfather and Liu Lang Lin Jiang truthfully what he thought.

The idea was agreed with them.

After all, they are all kind-hearted people, and they don't have the heart to do such seemingly unethical things.

"By the way, is Miss Su in the sect?" William asked Lin Jiang.

Miss Su is a very magical existence to William.

When he was in the Cang Mang Continent, William felt that this woman with the appearance of a young girl but an old woman was a detached existence.

Never thought that after arriving in the land of the common people, William still felt that way!

Even if the world's experts are like clouds, it seems that in Miss Su's eyes, it is nothing.

She is still wandering in this world, Xianyun Yehe is a strange person.

This woman can easily create Xiao Wangqing, and her ability is not ordinary.

If you want to control the world, this Miss Su is definitely the focus of attention.

After all, Miss Su seems to be also interested in William, and the two of them are quite friendly.

However, Lin Jiang shook his head and said bitterly: "I don't know either, I was in retreat for a long time this time, and then I went out early again, and came to your side as soon as I left. The internal affairs of the sect, I don't know yet. But according to my inference, Miss Su is most likely not in the sect. She will not appear in the sect for more than ten days in a year."

Hearing this, William sighed regretfully.

"Then do you know what kind of existence Miss Su is?" William asked again, unwilling.

I still know very little about Miss Su.

Lin Jiang looked confused and said: "To be honest, even if I belong to the same sect with her, I know very little about her, and even the whole sect doesn't know much about her, she is like a fan of our sect. ."

After he finished speaking, he added, "But I know one thing. Miss Su, she is a relative of our suzerain. As for whether the elder sister is the younger sister, I don't know."

"Miss Su, I have a way to contact her, I will try to contact her immediately."
