

Dragon Husband Chapter Chapter 1914

Chapter 1914 Three heads!

Those people's faces froze!

I thought victory was in sight, but it turned out to be just the beginning!

How could they believe it!

And, how is this possible!

However, as William's voice fell, all the people at the scene suddenly shuddered.

After shivering, they looked at each other with horror in their eyes!

This chill, as if it was not from the body.

But from the depths of the soul, there was a shudder!

This feeling, not to mention how strange it is.

They suddenly looked at this piece of heaven and earth.

The snow is slowly melting.

But as we all know, the coldest time is not when it snows.

But when the snow melts.

Now, it's time for the snow to melt!

And this kind of cold seems to freeze their consciousness and soul!

The corners of the blue-haired Fengxue's mouth twitched slightly, and she threw a rare wink at William: "You know the goods."

The peach blossom frost branch in her hand waved again.

The rate of melting of ice and snow is accelerating.

The cold, in an overwhelming posture, is rushing towards the entire Emperor Yao Lingxu!

The blue-haired Blizzard moved.

Slowly flying towards those people, the peach blossom frost branch in his hand is also knocking casually on a person's head.

Originally, at this speed, that person could completely avoid the past.

But something weird happened.

The man tried his best to avoid the light and slow knock.

As a result, there was no escape at all.

The head was hit hard like this.

Then, in front of everyone's eyes, this person's body slowly formed a layer of frost.

Above the frost, another peach blossom quickly bloomed.

Peach blossoms seem to be able to suck human blood.

When the peach blossoms were at their brightest, the frost on this person shattered.

Together with that person, they all turned into ice debris.

For a time, in the sky, blood-colored peach blossoms and ice-blue snowflakes fly, which is truly romantic.

This scene deeply stimulated the people on the scene!

what the hell!

So what happened!

The previous elder widened his eyes and shouted in disbelief: "No, it's our speed that keeps slowing down in such an environment!"

William on the side smiled, "I finally noticed it, but unfortunately, it's over."

Not to mention these people present, the speed of the entire Emperor Yao Lingxu will continue to slow down.

This slowing isn't just about their physical aspects.

Staying in the back, together with their consciousness will gradually blur, thinking will gradually slow down.

In the end, even if they don't fight anymore, they will all become idiots.

This is the most terrifying place in the wind and snow.

Boil the frog in warm water in this subtle, and when it is discovered, it is too late.

The blue-haired Fengxue held the peach blossom frost branch and began to knock one by one.

There was a loud roar from the scene.

Not reconciled!

Obviously think you can escape.

But can't escape!

Then, waiting for them, is a romantic death!

Seeing this scene, Ye Donglin's eyes were completely split!
He could never imagine it!

Such an embarrassing thing will happen today!

I thought it was just a small ant who came to the door and pinched it to death with one hand.

Now, the little ants have made him feel tied.

Not to mention, this strange woman, Ye Donglin didn't even look at her before.

Now, this man and woman are creating an unprecedented humiliation for the Emperor Yao Lingxu!

"Listen to all orders! Kill me!" Ye Donglin seemed to be insane, his body suddenly burst into arrogance.

He roared loudly in the sky, and his voice resounded through the entire Emperor Yao Lingxu, as if even the chill around him had been dispelled a bit.

And after the blue-haired wind and snow easily froze all those individuals, his body trembled slightly.

Obviously, she is not as relaxed as she looks.

After all, in this short period of time, it was also a lot of pressure for her to kill more than a dozen cultivators above the Nirvana level.

Bai Fengxue ran out of nowhere, and gently supported the blue-haired Fengxue, "Would you like to come back and rest for a while?"

However, the blue-haired Fengxue laughed softly: "No, I will use these eyes to see what kind of man he is, who can make you give everything regardless of life and death."

Bai Fengxue's pretty face blushed, and she gently squeezed the blue-haired Fengxue's face, "Aiya, these words make a difference, what is yours and mine, our man."

The blue-haired Fengxue was stunned for a moment, and then sneered.

And after Ye Donglin roared, the entire Emperor Yao Ling Xu trembled slightly.

Obviously, everyone heard Ye Donglin's order.

The power of the entire Emperor Yao Lingxu is rapidly gathering here at a terrifying speed.

Ye Donglin himself, however, keeps getting bigger and bigger.

The clothes on his body were also gradually bursting.

William looked at Ye Donglin in surprise and realized something in his heart.

Sure enough, people with bloodlines are awesome.

I just don't know, why would you be incarnate?

Under William's gaze, Ye Donglin gradually turned into a muscular giant with a height of more than two meters.

But what's even more creepy is that his shoulders are slowly bulging.

It was as if something was about to emerge from his shoulders.

"Roar!" Ye Donglin roared in the sky, and his voice gradually became deeper, like an ancient beast!

Those two shoulders gradually bulged a bag the size of a head.

Then, like being reborn from a cocoon, two heads really popped out of his left and right shoulders!

These two heads look exactly the same as Ye Donglin!

It's just that the eyes on these two heads are tightly closed.

Three heads!

William couldn't help being shocked, this scene was rare enough for him.

Is this Nezha?

And William clearly felt that with the appearance of these two heads, Ye Donglin's aura was constantly breaking through!

After a while, it reached a heart-pounding level.

If it was William in a normal state, he would be easily crushed to death by the three-headed Ye Donglin at the moment.

As he completed his incarnation, the people around him also appeared quickly.

In a short while, there were hundreds of people surrounded by William and the others.

These people are all of Emperor Yao Lingxu!

Although their realm is not as good as the previous ten or so high-ranking people, they are worse than many people.

Ants can kill elephants too!

Ye Donglin spoke.

But there are three heads, three mouths open at the same time, and a stench filled the audience instantly.

The voices are also in unison, which is very strange.

"Boy, today is your day of death! I want to see, what are you going to use to fight against the foundation of my emperor, Yao Lingxu, for thousands of years!"
