

## Chapter 77

Xena looked at William in disbelief.

She could not believe that William agreed to it!

He was aware that the Bai family currently would never be able to handle this project.

"William, you..." Xena was anxious for a moment. "Are you kidding? You clearly understand what's going on with the Bai family. No. No, you can't agree to it!"

All of a sudden, William burst into laughter. "Xena, are you a Bai or an employee of the Genuine Care Medical Center? Why does it sound like you're on the same team with us instead of the Bais?"

Xena's face blushed again. She couldn't bring herself to raise her head.

A while ago, it seemed that she had considered herself as part of the Genuine Care Medical Center.

No, she was concerned about William. She didn't want her brother-in-law to suffer a loss because of this.

"Well, of course, I have considered this matter thoroughly. Don't worry and go back home to report it," William reassured her.

Looking at William's gentle smile, Xena felt like

giving him a tight hug. She was so embarrassed about having this urge.

However, as soon as this thought came across her mind, she found that her hands and feet had already acted on their own and went towards William.

She plunged into William's arms directly, and her tears rolled down her cheeks. "William, thank you. Although I don't know your intention, I know you won't harm Felicity and me. Besides, William, you're indeed a real man and a hero!"

William was startled by her sudden embrace, but immediately, he put on a gentle smile. He pulled her out of his arms and wiped her tears. "Alright, alright. It's getting dark. You should head back home."

Xena nodded and responded, "Well, I'll go back and report first, then I'll come and look for you again."

"Why would you come back to look for me?" William was taken aback.

However, Xena's lips curled into a sly smile. "Haha, I won't tell you."

After she finished talking, she trudged out of the room. All of a sudden, something seemed to come to William's mind and he immediately stopped her.

He turned around to open his drawer and took out

a small box before he handed it to Xena. "Here you go. It's the Claire's Spring Bracelet that I've promised you."

Xena took the box and her face blushed again. It was as if she had received a gift from her lover.

At this moment in the Bai mansion, all the Bais' expressions looked especially livid.

Steven had already told them about how they were being bullied by the Genuine Care Medical Center a while ago in an exaggerated manner.

What he said made Yasmine exceedingly furious.

"This is ridiculous! Do they actually regard themselves as the best in the entire world? Do they expect us to follow their wishes and do as they please in Qena City? Steven, you have done a good job! Go and contact all the pharmaceutical companies. Hmph, how dare the Genuine Care Medical Center think of bossing us around? They are way too young to go against us! We will destroy them together!"

Steven immediately followed Yasmine's instruction and went to make phone calls instantaneously.

Steven told them on the phone that the Bai family was keen to represent all the pharmaceutical companies if they joined hands with the Bais. They could come out with a plan to vanquish the Genuine Care Medical Center.

The remaining twenty companies immediately expressed their willingness to be in alliance with the Bai family.

After the call, Steven proudly told Yasmine, "Grandma, everything is ready. All the companies are on the same boat as us now. We'll secure and sign the contract together. Whichever company that dares to collaborate with the Genuine Care Medical Center without us will be our enemy!"

Yasmine nodded with a sinister look on her face. "Well done! I'd like to see who dares to go after this contract after all of us join forces!"

Felicity, who was standing aside, shook her head secretly.

The Bai family did not have sufficient strength to bring up this riot.

It was of the utmost importance for one to stay humble and not to offend others when it came to doing business. However, the Bai family had been provoking others.

It was a shame.

At this moment, Xena had come back from the Genuine Care Medical Center.

When Yasmine saw her, she immediately shouted, "Xena, you came back at the right time. Under my guide, all the pharmaceutical companies in the city have formed an alliance. We swear to go through thick and thin together. Now the contract

with the Genuine Care Medical Center is no longer a gold mine to us, but a time bomb. Don't act rashly..."

Hearing this, a bomb went off in Xena's head right away.

"But, I-I-I already signed it..."

A heavy silence hung in the air.

The room was so silent for a minute that even a pin drop could be heard.

Yasmine rushed to Xena and questioned eagerly, "What did you say just now?"

"I said I have already signed the contract. Why do you say that it is a time bomb? Do I have to tell them that I will give up the contract?" Xena mumbled with a gloomy face.

She thought, "These incompetent Bais can never do anything well!"

The Bai family was in a complete shock.

Xena had signed the contract?

How did Xena get this highly sought-after deal?

How could she get it so easily?

Steven could not believe his ears!

"How did you do it?" he asked.

Xena had already thought of an excuse. "The Genuine Care Medical Center was just testing our sincerity. Since I was the only one who stayed, of

course, they found me the most sincere..."

The Bai family was dumbfounded again.

Was it that simple?

Perhaps, it was indeed true that fortune would always favor those who were schemaless.

Xena was delighted seeing the Bai family was being put in this difficult position.

They were the ones who always pushed around William, her brother-in-law!

However, William did not seek revenge on them, instead, he remained kind and forgiving towards the Bai family. He even gave this deal to them.

Besides being ungrateful and unappreciative, they always mistreated and knocked around William!

Xena had decided to put on a show in front of the Bais.

She pondered for a while and pretended to take out her cell phone. "I will tell the Genuine Care Medical Center that we'd better give up the contract then."

"Wait!" Yasmine held Xena down, feeling emotionally overwhelmed.

It should be something exciting to be able to get this deal!

However, they had just joined forces with the other pharmaceutical companies in Qena City to establish an alliance!

Now that the Bai family had gotten the deal, what would the others think of them?

They would think that the Bai family was making a fool of themselves and that the Bais were trying to pocket all the profits.

The Bai family would end up offending all the pharmaceutical companies in the city!

However, giving up this deal would be ridiculous!

It was the best stepping stone for the Bai family to regain its long lost glory!

Darn it! What a d\*mned coincidence!

Was god playing a game with the Bai family?

Yasmine's lips were tightly pressed together for a long time. Finally, she gnashed her teeth and roared, "Even if we have to offend everyone in the whole city, we can't give up this contract! Let's do this together!"

Everyone was in the opinion that the Bai family, under Yasmine's repressive leadership, had slowly inched towards the edge of a cliff.

The day they fell off the cliff and perish seemed to be not far away from them...

Felicity asked Xena in a low voice, "Have you met the owner of the Genuine Care Medical Center?"

Looking at Felicity's innocent and envious face, a wave of melancholy enveloped Xena instantly.

Oh, Felicity!

"Why do you look at me with that envious face of yours?"

Xena thought, "The clinic owner is the man whom you see and sleep with every day!"

What was there to be jealous about?

"Yes," Xena replied nonchalantly.

"Then tell me quickly, what does that person look like? Word has it that no one has ever met the owner of the Genuine Care Medical Center until now," Felicity continued with a hint of envy in her voice.

Suddenly, an idea flashed across Xena's mind. She looked at Felicity and smiled cunningly, "Well, he's very handsome! He's so handsome that I have fallen for him!"

Felicity pulled a long face and said bitterly, "How dare you talk nonsense with me? Isn't William the one you love the most? Why do you change your target so quickly? You're such a jerk!"

Xena was confused by Felicity's unexpected rebuke. She couldn't help but wonder since when Felicity had become so smart and how Felicity knew her feelings for William...

Xena knew she was playing with fire. But it felt fantastic.

She retorted, "Humph! What's wrong with liking the

05:36 

clinic owner? I'll call him now and invite him to the bar tonight."

Thereafter, she took out her cell phone and called William!
