### Chapter 186 65: Penetrating Lanza! [R18]

Lanza arched her back, which caused her to push against his chest. She felt his thick tip press her clit down, almost squished flat. The tingling pleasure that filled her caused her to shudder and loosen her legs as warm honey dribbled down her ass and onto the bed. While her muted gasps and lewd cunt continued to squelch and make a loud noise in the room.

"Haah....! Why... Are you..... Mmmmn! Making me cum.... Nnnph~ So much..... From.... Foreplay! Nnnph~ It's sensitive! Wait... Hah~ Oooh!"

He ignored her plea, picking at her nipples with his fingers and gyrating his hips. This erotic girl masturbated so often that her clit was more developed than most of his other women. Her body would spasm before she climaxed, spurting out her honey from the tight hole. She recovered quickly and could cum moments again later. 'Ah, Lanza, you are so amusing! Let's make you die from cumming!'

"Nho~ Don't.... Mmmmph! So cruel.....! But..... I love it! Haah~ Ahh!"

She felt pleasure burning all over her body. Lucifer's gentle kiss and fangs sinking into her neck drove her insane. The way his fingers would caress her tits with a soft touch. Then, when her orgasm started, he would pull on them, twist her nipples and sink his fangs inside.

Which caused her to squirt and make loud spurting noises, which embarrassed her at first. Now she could feel Lucifer's cock throbbing each time she made a dirty noise. So now felt happiness as his hot flesh rod oozed his thick pre cum over her slippery slit, gaping for his cock.

'I want you inside me so much! Please, Lucifer, make me feel your deep love!'

Lanza looked into his eyes, her body trembling from the afterglow of her orgasm with tight abs and a dazed look. Her lips could not form the words as she begged him with her heart and eyes.

Lucifer smiled at her, a warm smile she rarely saw, as he placed both hands on either side of her face and leaned down. His soft lips gently touched her forehead, cheeks, and finally, her lips with a slow, affectionate kiss. While he aligned his cock with both hands, rubbing along her puckering little hole that sucked on the tip of his cock, like its erotic owner. He spoke his following words out loud.

"Lanza."

"Mmmmn~ yeah?"

"We angels don't have the human concept of marriage normally."

She could feel his thick tip pressing slowly inside her, expanding her cunt with a slightly painful sensation. That quickly became a pleasure. He rolled his hips, the tip and glans teasing her entrance, which gave her a light pleasure but not the intense mind-shaking orgasm she desired. Her ears finally registered his words, and she looked up at him with widened eyes.

"However, I am now a vampire, not an angel...."

"Aaah~ you're stretching my little pussy.... Mmmh! So...?"

His hips pushed slightly deeper. His glands forced Lanza's tight little hole open with the thickest part of his cock. Her honey gushed from the sensation of his glans, pulling out her insides, then thrusting back inside with his shallow and teasing movements.

"If I penetrate you now, I want you to know something."

'Is he going to ask me to become his concubine or second wife? I know he loved Sylvia so much.... It's okay...'

She felt his glans pulling her insides as her gasps grew louder, both her hands now clawed at his muscular lower back. Lanza wanted his massive meat club to thrust inside to destroy her womb. Like monsters, an angel's body could easily take his giant cock inside. A woman created them, after all!

"Mmmn~ you're teasing my entrance.... It's feeling good! Nnnnph! Aaah~ I accept. Whatever you say, just fuck me!"

'I don't care anymore. Fuck me! Make me your cock sleeve... Slut, whore, slave..... I just want to be yours!'

"Haha!"

'That's my Lanza!'

His hips pressed forward, and with a loud squelch, all the honey and warm nectar his glans blocked inside poured out like she urinated, dribbling down her hole. Angels were not born with a sense of desire, yet once they awakened, they were the horniest lustful creatures to exist.

"The moment I break your purity, your name, soul and existence will be mixed with mine forever."

"Lanza, I want you to be my first wife. Here, I pledge an oath to love you until the end of time, no matter how many times we reincarnate!"

However, Lanza felt a burst of delight before she could reply, as if this man didn't give her a choice. The evil cock pried her pussy effortlessly, her honey giving it the lubrication needed. She felt his huge, pulsating cock plunge deep into her and slam against her cervix. The slight pain vanished, as he didn't allow her to sense it. Lucifer bit into her neck and drank her blood for real the moment he reached her deepest spot. The loud spurting of her cunt echoed as it forced out the trapped air and nectar with dirty noises.

'You are mine and can never escape.'

'Ah~ I don't want to escape, fuck me! Maim me, bully me... just love me! Lanza will do anything for you, even destroy this planet!'

He enjoyed the hot, sticky flesh folds, which slurped around his shaft and caressed him like a loving hand. Lanza could only shudder and convulse with her mind in chaos. Her thoughts filled with pleasure and delight, caused by her emotional bliss and intense bliss from his vampiric bite.

"Aaah~ Mmmn! Ooh, goddess..... What is.... Nnnph~ Luc... Lucifer!!!"

Lucifer's long cock violated her innocent cunt. His lips curved into a smile as he watched her quiver, blood dripping from his lips. He slammed his hips forward and enjoyed her warm, smooth pussy wrapping around him with loud squelches and splutters when he pulled out. Her body convulsed from the intense pleasure of his cock crushing her womb. She enjoyed how breathing became hard when his huge meat rod wedged deep inside her and almost pried open her cervix.

"Nnnph! Oho~ Mmmm! Hmm.... Hmmm..... Oooh! Fuck! It's inside.... Ahh~ Lucifer! I can't stop.... Don't... I'm going... To pee..... Nuho~ Mnnn!"

Lanza was at his mercy, like a ship at sea. Her body shook from his powerful hips, slamming into her soft body. He leaned over hers and sucked on her breasts. His teeth and tongue slurped on them, which sent amazing tingles of pleasure that added to the burst of delight from her lower body. She couldn't tell how often she felt a light climax or was on the cusp of a tremendous orgasm. He ignored her feelings, just driving the intense pleasure of sex with a vampire into her body.

Only Lanza's gasps and noises from her wet pussy filled the room.

"Haah~ Mmmnh! Oooh! I feel so good.... Hmmm.... Hmm.... Nnnn!"

'I love him... I love his face.... Love his kindness.... Love his pride... Love his arrogance.... Ahh~ I love his enormous cock that's pounding in my womb! Fuck, being a cuckold could never compare to actually being railed! Mmmm~ I love you, Lucifer.... Always.... Always... Always..... Mine.... Mine.....'

Her mind became jumbled because of the intense feelings his bite caused. She tightened her pussy around his cock and squeezed him inside her. The foamy honey bubbled from her cunt as she bit into his neck and clawed his back. Her hot breath exhaled from the loud pants she tried to muffle.

Lucifer couldn't be cheeky anymore. His cock felt so good as her insides sucked on him like a full-blown deepthroat, with skilled tongue usage. Her flesh folds rubbed against his veins and glans, slurping at him to drink his seed. He swivelled his hips and added new movements to his thrusts. Then lifted his hips when he entered and rubbed against her well-developed sensitive spots.

"Ahh!? Mmmm! Don't tease there..... Haa..... Hmmm, I'll cum too fast! Nnnph~ Hah..... Ahhn!"

"I don't care. We have an eternity. If this time ends fast. Let's fuck until the world burns!"

Lanza wrapped her tired legs around his ass and pulled him inside her. The sloppy entrance was now flooded with their shared fluids. With dazed eyes, she kissed his lips, cheeks and face to show her love for him. She narrowed the Inside of her pussy, so she could feel his cock throbbing and knew his balls were ready to shoot his white seed into her womb. Then tried to tighten her cunt around him to make it narrow, before loosening it filling the area with warm, sticky honey to simulate suction and a blowjob like action to make him cum faster.

"Hueh? Ahn~ Really!? Mmmm! Aaaah.... I've loved you for so long... This isn't a dream, right.... Nnnn!"

He could feel a burning pleasure building in his loins. This girl suddenly used her pussy like her throat and slurped and sucked with her wet flesh folds. His cock throbbed while his white goo travelled to the tip, and his body shuddered out of his control.

"No dream. I will fill your insides with my hot sperm; try to savour the feeling of your first real creampie!"

Lanza wrapped her legs around him tight like a predator with her prey. She wanted this creampie to fill her entire pussy! Lanza's body screamed out in delight as pleasure exploded through her body. Her lips parted with a loud moan. No longer holding it back, her body began to spasm, her tight little cunt grasped around his cock tight as if to stop him from growing bigger as he throbbed.

"Ahh~ Don't speak dirty.... I'll get addicted!"

"Fuck! You're so cute!"

Lucifer kissed her forehead as his cock erupted. His burning hot semen shot into her virgin pussy. Her body shuddered from the orgasm as the sticky white cream filled her insides. He dyed her flesh folds white as it mixed with her sticky honey and smeared around her insides, thanks to his cock still thrusting with each pump of sperm. She pierced his flesh with her nails as the climax overtook her mind. Unlike his other woman, Lanza could control her power and didn't crush him into meat paste.

She clenched her arms and legs around his back during climax with a blissful face. The hot fluids burst into her womb and filled her up as she relished her pleasure.

'Ah~ Lanza will get pregnant for sure!'

'I love you so much, Lucifer..... Always, I will always support you and remain beside you. This is my oath to you alone. No matter how many times we die or reincarnate. This Lanza Von Sanguinis will become your beloved spouse!'

'Now you can never escape me, hehehehehehehe!'
