

Ex-husband Goes Money Comes by Yvone Zabielski Chapter 132

my bodyguards.”

Richard knew that Viola deliberately provoked him, but he couldn't refute her.

Richard was originally counting on the dividends from the Caffrey Group's shares every month. A while ago, the Caffrey Group had been ruined by Jaylin and Whitney. It was unknown how long it would take for the Caffrey Group to regain its former position. One thing led to another, and Richard didn't get any dividends.

Therefore, Richard had been living a very hard life.

Richard darkened his face and said in a cold tone, “Are you so rude in other people's houses? Don't you know how to knock on the door? What was that loud noise just now? What did you do?”

“Oh my goodness! My door! You guys have gone too far!”

Lexie quickly reacted and hurriedly ran out to check, feeling pain.

Viola tilted her head and sneered, “Your door has been out of repair for a long time. When my bodyguard Toby knocked on the door, he only used a little bit of force and it was scrapped. There's nothing I can do. I'm helping you clean up the trash.”

Richard was furious.

How could he knock down such a thick iron door with his hands? It was obvious that he kicked it open!

However, Richard had seen the talent show last night with Ariella. He knew that Viola was not only the behind-the-scenes boss of Angle Group but also the current president and the largest shareholder of the Caffrey Group. Russell and Jason were the big shots behind her.

If he fought head-on, Richard had no chance of winning.

Thus, Richard turned to Orlando.

“Orlando, look at her. Although she is already your ex-wife, she was the one who listened to you the most in the past. Are you going to let her bully us?”

Hearing this, Orlando felt heartbroken.

It turned out that everyone knew that she loved him very much before. Only he did not know and even ignored all of her efforts.

Orlando suppressed the surging emotions in his heart, stared at Richard coldly, and said in a cold tone.

“Richard, you secretly gave my mother a bad idea and gave her two bags of drugs. It almost led to a big disaster. How do you explain this?”
