### **Chapter 1231: Imagination Is Always Beautiful (7)**

“If you refuse to admit it, you can just wait to faint,” Long Feiting said nonchalantly.

“You...!!” Gu Chenyi was so angry that he wanted to kill someone!

But he had no strength at all.

“Long Feiting, I really didn’t do anything!” he said, trying to convince Long Feiting.

“I don’t believe you.” Long Feiting’s face was full of mistrust.

Gu Chenyi looked at him. He was really going crazy!

“Gu Chenyi, stop wasting time. You don’t have much time left. Hurry up and say it!” The more he acted this way, the more Long Feiting felt that he had to do something. There was still a high chance for this plan to succeed. Otherwise, Gu Chenyi wouldn’t be so angry that he wanted to kill. He was so anxious that he didn’t want to collapse, but he still insisted on not saying anything and not giving up.

“Say it, my foot! I’m not doing anything!” Gu Chenyi insisted.

“Gu Chenyi, stop being stubborn. Even if you continue to be stubborn like this, you won’t be able to do anything after you faint. What if you hurt Xiao Huan?!” The more stubborn he was, the more Long Feiting felt that the matter was serious. This was because Gu Chenyi didn’t want to give up so badly. This must be a plan with a high success rate.

Suddenly, he thought of something. “Gu Chenyi, are you working with someone else? You’re not stupid enough to be used by someone, are you?!”

Gu Chenyi’s purpose for doing something to Bo Junyan and Mu Huan must be to get Mu Huan. But in this situation, wanting to get Mu Huan meant that he had to deal with her and Bo Junyan. And such a plan was definitely not something he by himself could accomplish.

Because he didn’t have that ability!

Realizing that he might have been used by someone, Long Feiting was a little anxious. “Gu Chenyi, hurry up and tell me. Are you stupid enough to be used by someone?!”

Seeing him like this, Gu Chenyi, who was initially very anxious, calmed down instead. This was because Long Feiting was very worried about whether what he wanted to do would hurt Xiao Huan. If he didn’t get an answer, he wouldn’t let Gu Chenyi fall asleep. Even if he did, Long Feiting would wake him up.

Hence, he became even more stubborn. “I don’t want to do anything. How many times must I tell you before you believe me?!”

“No matter how many times you tell me, I won’t believe you! Gu Chenyi, it’s not that I want to criticize you, but your IQ is really low. If you worked with someone else, what could you possibly have in mind for Xiao Huan? There’s a 99% chance that you’ll be cannon fodder who dies after being used! It’s fine if you die from your own stupidity, but you’ll still end up harming Xiao Huan and Bo Junyan!

“Let’s not talk about the fact that Bo Junyan is your uncle who has doted on you since you were young. Even though he knows that you’re coveting his wife, he has never been ruthless to you. Let’s talk about Xiao Huan. If you really like her and really love her, you shouldn’t put her in any danger!” Long Feiting had always felt that Gu Chenyi’s feelings for Mu Huan were not true love.

He should be paranoid about Xiao Huan’s feelings, and he shouldn’t be able to bear making any more mistakes. But he couldn’t accept that he was so stupid as to be cheated by such people that he lost the girl he liked.

If Mu Huan had disappeared without a trace after they separated, he might have forgotten about her long ago if she wasn’t outstanding. But she was right in front of him, constantly reminding him of the stupid mistake he had made. She was still so bright and brilliant. She was so outstanding that he couldn’t control his fondness for her. This made him even more unable to let go. He became more and more stubborn and insisted on getting her.

Gu Chenyi clenched his fists tightly. “I’ve never wanted her to be in danger!”

He had arranged everything perfectly. She would be fine!

Chapter 1232: Imagination Is Always Beautiful (8)

“With your intelligence, are you really reliable?” Long Feiting really wasn’t looking down on him. He couldn’t think of anything that could separate Bo Junyan and Mu Huan. To be able to capture Mu Huan, the plan must have been thought up by someone else. To be able to come up with such a plan, the people here in Country F must not be ordinary. For them to spend so much effort to deal with Bo Junyan and Mu Huan, the hatred between them must be extraordinary.

If it’s like this, no matter how scheming Gu Chenyi was, he would not be able to win against the other party!

Just as he had said, he could only be cannon fodder who would die after being used.

The truth was just as Long Feiting had thought.

Gu Chenyi was really cannon fodder who would die after being used. The antidote he had drunk in advance was not real. In the afternoon, among the protesting crowd, he would also be a target of attack. Ling Wei’s plan was to have him die among the protesters.

For someone who wanted to kill, it was all the same whether they killed one person or a group of them.

“What’s wrong with my IQ? My IQ is much higher than yours, alright? Retard!” Gu Chenyi really couldn’t stand such a stupid person like him laughing at his IQ! At the very least, he took action. Long Feiting liked Xiao Huan so much, but what did he do? He didn’t do anything!

All he knew how to do was to stay by Xiao Huan’s side like a clown.

“Gu Chenyi, cut the crap. You’d better speak quickly!”

“Let me tell you, I didn’t...” Before Gu Chenyi could finish speaking, his vision turned dark. He was afraid that Long Feiting would really believe him if he insisted on saying no. Hence, before he fainted, he said, “You’d better not let me faint... Otherwise, Xiao Huan...”

Before he could finish speaking, he fainted.

But he knew that he would wake up soon.

Long Feiting knew what he was thinking. He was so angry that he kicked him hard. This fool!

He did not wake Gu Chenyi up first. Instead, he called Mu Huan first, wanting to tell her about this matter. However, he could not get through to Mu Huan’s phone. He called Bo Junyan next, but he could not get through to him either.

This made him frown, and a bad feeling surged in his heart.

Lowering his head to look at Gu Chenyi, who was lying on the ground, he kicked him angrily again. Then, he got someone to tie him up and inject him with a drug to wake him up.

Gu Chenyi woke up very quickly.

He was furious when he realized that he was tied up.

“Long Feiting, let go of me now or I’ll make you die a horrible death!”

“You better have the ability to make me die a horrible death!”

“Long Feiting...”

Before Gu Chenyi could finish speaking, Long Feiting kicked him.

“Long Feiting, you’re crazy! You actually kicked me!” Gu Chenyi widened his eyes in shock. He did not expect Long Feiting to kick him.

“I kicked you twice just now!” Not only did he dare to kick him, but he also wanted to kick him hard!

“No wonder my waist hurts so much!”

“Gu Chenyi, I can’t get through to Bo Junyan and Xiao Huan’s phones. I got people to ask around at Sen Tai’s residence, but I couldn’t get any information. You’d better tell me what kind of plan you’ve participated in!” Long Feiting said as he grabbed Gu Chenyi’s collar, asking him to tell him quickly.

“I don’t know what you’re talking about... I...”

Before Gu Chenyi could finish speaking, Long Feiting punched him.

“Gu Chenyi! This is Country F, not China! Someone who can cooperate with you and have a chance of success must have an extraordinary status, right? If they lie to you and go back on their words, Xiao Huan and Bo Junyan will be in danger! This isn’t a joke!”

### **Chapter 1233: Imagination Is Always Beautiful (9)**

This wasn’t a fight between them. No matter how much they competed and said vicious words, they wouldn’t do anything ruthless.

But others could!

Gu Chenyi was not a fool. He was also worried about this aspect. He had been worried about this from the start. Hence, for this, he had repeatedly confirmed things and made a double guarantee.

If it weren't for Long Feiting's unexpected appearance, he felt that his plan wouldn't have had any problems.

This wasn't a fight between them. No matter how much they competed and said vicious words, they wouldn't do anything ruthless.

But others could!

But just as Long Feiting had said, he only felt it.

However, he insisted that there was nothing wrong with his arrangement. Now that Long Feiting was being like this, not allowing him to faint, he didn't want to say anything.

"Gu Chenyi, you forced this on me..." Seeing that he was not going to say anything, Long Feiting decided to use extreme means.

In Forest Prefecture...

Sen Tai brought Mu Huan and Bo Junyan underground to look at his wine cellar. There was no signal in this underground wine cellar.

"This is an 85-year-old wine. Please try it." Sen Tai got someone to bring the wine to Bo Junyan and Mu Huan.

Then, he looked at Ling Wei beside him. "Baby, do you want a cup?"

"Of course. It's rare for you to open such good wine," Ling Wei said with a smile.

When Sen Tai heard this, he personally poured her a glass of wine.

After Bo Junyan took the wine, he glanced at Ling Wei lightly. When he saw that she was drinking red wine, his eyes darkened.

"Let's go ahead and take a look. I have a lot of collections." Sen Tai hugged Ling Wei and walked forward.

The two of them turned around.

Mu Huan looked at Bo Junyan and said in a voice that only the two of them could hear, "Why, did you recognize who it was?"

"Yes."

"Who?"

"A person who used to be someone else." He got someone to investigate Yu Ling's identity and realized that there were many differences between her and the past Yu Ling. If the current Yu Ling was changed

by plastic surgery and was not the real Yu Ling, then this fake Yu Ling, with her figure and the familiarity she gave him, could only be Ling Wei.

This especially became apparent when she was drinking just now. Her movements were similar to Ling Wei's.

Mu Huan: "..."

A person who used to be someone else... this answer... was no different from not answering.

"Who was she in the past?"

Bo Junyan was silent for a while before saying, "A friend."

Mu Huan was in a good state right now. He wanted her to recall everything about the past slowly, so he didn't want to tell her about Ling Wei.

"Why would a friend want to harm us?"

Bo Junyan: "..."

"Could it be that she likes you?" Mu Huan asked further.

Bo Junyan: "..."

Women's intuition in this aspect was always especially accurate.

"It seems so." Although he did not answer, Mu Huan was sure of her guess.

"Then it's no wonder she wants to harm me." Who else would she deal with other than her love rival?

Bo Junyan did not speak. He only looked at Ling Wei with an increasingly dark gaze.

Back then, when the news of her jumping off the cliff and dying spread, he'd felt that there was a problem, but he'd had no time to investigate her.

Hence, he did not investigate further.

Now that she had changed her appearance and married someone, her current status was what she had always wanted. Hence, she could be considered a newbie.

If it's like this, she would not cherish her new life.

### **Chapter 1234: Who Is the Evil One (1)**

She would not cherish her new life.

She was still thinking of ways to find trouble...

She was really becoming less and less smart.

He could not associate her with the past her. She was clearly such a smart person in the past.

After all, they had grown up together. Bo Junyan was somewhat amazed that Ling Wei had become like this.

“What was her original name? Was she good-looking? Why did she have plastic surgery to look like someone else?” Mu Huan asked curiously.

She had been so altered that Bo Junyan could not recognize her. He only felt that she was familiar. It meant that her entire face had changed. Furthermore, her name and family background had changed. She had become a completely different person. That was even more problematic.

Before Bo Junyan could say anything, a name suddenly appeared in her mind.

“Ling Wei? Is her name Ling Wei?”

“Yes.”

“Eisen is almost fully recovered now. When we get back, I’ll get him to remove the hypnotic command for me.” This feeling of her mind being blank was really not good. She had to remember everything! Whether it was good or bad!

“Okay.” It was still the same as before. Although Bo Junyan didn’t want her to remember those unhappy things, as long as she wanted to, he would respect her choice.

After visiting the wine cellar, it was time for dinner. At the table, Mu Huan diverted the topic to the pharmaceutical factory’s revival.

“Since the leader has agreed to the reopening, I have no objections. I’ll say the same thing again. As long as you can stop those protesters from protesting, the factory can be revamped immediately.” Sen Tai did not want to make things difficult for Mu Huan in the first place. He had invited them to his house as guests because he wanted their relationship to be deeper. This way, if she had any good medicine, she could think about him first.

This person was old, and though he didn’t want to admit that his body wasn’t in good shape, he had to face it.

At such a time, a good doctor and a good drug could prolong life.

“Two-thirds of the protesters have already left. The rest will leave this evening at the latest. The workers at the pharmaceutical factory have also prepared themselves mentally. They can start work at any time.” She couldn’t come here for nothing, and she couldn’t let her husband ruin his face for two days for nothing. She had to rush out those medicines.

Sen Tai understood what she meant. “Alright, I’ll send down the document in a while. Once everyone has left, you can resume operations.”

Mu Huan felt that Sen Tai was a good person. Although he was a noble, he was able to see the importance of benefits and mutual respect, which was rare.

Just as Sen Tai was about to invite Mu Huan and the rest to eat...

“I heard that among the remaining protesters, one was a pregnant woman who had been tested on with drugs, causing the child to be deformed after birth. As for the mother, she had a major hemorrhage due to the difficulty of giving birth and is now unable to bear more children. The parents are both only children. A deformed child destroyed two families in an instant. They hate the pharmaceutical company

to death and will definitely not be moved by money. I wonder how Mrs. Bo plans to make them leave this evening?" Ling Wei looked at Mu Huan.

When Mu Huan heard this, she looked up.

Seeing this, Sen Tai lowered his head and leaned toward Ling Wei, whispering, "Baby, you promised me that you wouldn't worry about this..."

He didn't want her to be bothered about these things...

To Sen Tai, no matter how Mu Huan dealt with those people, it was fine as long as she could deal with them well!

"I'm sorry, I really can't sit back and do nothing. The servant who serves me is related to that family. You don't know how miserable their family is. Their family was destroyed just like that. This..." Ling Wei's eyes turned red as she spoke.

Chapter 1235: Who Is the Evil One (2)

Sen Tai could not bear to say anything bad about her.

His baby was so kind. When she saw that someone was in pain, she could not ignore it and wanted to seek justice for them.

But... how was she going to get justice?

No one could salvage anything that had already happened.

"Mrs. Bo, do you know how much pain and grief those people have suffered after they became test subjects without even knowing it? How do you plan to make them forget the pain and sorrow and stop them from protesting?" Ling Wei asked again, looking at Mu Huan.

"I'm a layman. All I can think of is to make up for it with money," Mu Huan said as she put down the cup in her hand.

"Mrs.. Bo, do you think that everything in this world can be solved and made up for with money?" Ling Wei's words made one subconsciously feel that Mu Huan was rich and didn't care about people's lives. She felt that any matter could be solved with money, even murder and breaking laws.

Although it was said that Sen Tai had invited Mu Huan over as a guest today, there were still many other people present, especially those from the health department. There were also some who were in charge of human rights and environmental protection organizations.

The people from the Health Department were not a big deal, but the people from the Human Rights and Environmental Protection Organization were more righteous. After thinking that Mu Huan was someone who was rich and uncaring of people's lives, they spoke one after another.

"Mrs. Bo, although money can solve many things, it's not all-powerful. It can't solve everything and make up for it. Not to mention that this mother can no longer give birth, with just the fact that she gave

birth to a deformed child, is there any use in giving them money? Can money buy the child's health and normal life?"

"Do you know how much harm a deformed person can cause their family?! Do you know that this can destroy a family's life?! Such pain is irreparable!"

"Let's think about it from another perspective. If I give you enough money, would you be willing to become a cripple or a retard? You definitely wouldn't be willing, right? In this case, why do you feel that money can make up for that kind of damage?"

The most precious thing in this world was health. What was the use of money for a deformed child? Could money give them the normal life they should have? No matter how much money they had, their life would still be ruined!

"Although Mrs. Bo has just taken over Rui Hui Pharmaceutical and it wasn't you who got someone to conduct those illegal drugs, I heard that you've been in NST for three years. During such a long time, did you really not know that Rui Hui was illegally testing drugs?"

It was impossible for her not to have known. Even people who were not in the industry knew that such a thing had happened. As an industry insider and someone who had access to the power center, how could she not have known about this?

"Didn't you feel guilty watching those normal and healthy people who didn't know anything get tested on illegally? What of those poor pregnant women whose babies became deformed because of illegal testing?"

"Also, pharmaceutical factories expel a lot of pollutants. Those pollutants affect the health of humans. As a pharmaceutical worker, you should have been doing pharmaceutical work to save people, but you keep destroying people's health! Can you sleep at night like this?"

"From what I know, those people won't be touched by money at all, but Mrs. Bo is so sure that they'll be able to disperse in the evening. Is she secretly doing something harsh?" someone said meaningfully.

Chapter 1236: Who Is the Evil One (3)

"What? Mrs. Bo still wants to silence us?" The human rights organization member was shocked.

Mu Huan raised an eyebrow.

Look, she only said one sentence and she was about to become a murderer. If she continued to speak, wouldn't she become a heinous villain?

"Mrs. Bo, I don't know what you're doing elsewhere, but we'll never allow such a thing to happen here!"

"We believe that Mr. Sen Tai will not allow you to do this!" As they spoke, everyone looked at Sen Tai.

Sen Tai: "..."

Initially, he had not planned to invite anyone else to the banquet. However, his wife could not bear to reject these people's requests.. She wanted to give them a chance to get close to Mu Huan so that they could get close to her and get the drug as soon as possible.

But what were they doing now?

She had offered her sincerity and compensated them with money, but they were already calling her a murderer.

This...

He coughed lightly and said, "From what I know, Mrs. Bo has never done anything illegal no matter where she is. She has always been a good person who abides by the law."

"Would a law-abiding person not stop Rui Hui from carrying out such an immoral act?"

Sen Tai: "Uh..."

His wife had said similar things to him before. With Mu Huan's three years in NST, it was indeed impossible for her not to know.

"Who told you that I knew but didn't stop them?" Mu Huan raised an eyebrow.

"Do you dare to say that you really didn't know?"

"I dare say that I really didn't know." Everyone thought that the people in NST should know about this matter, but the professors in the research institute, including her, really didn't know. Although most of the drugs that were tested were from NST, they only received the test data. They never knew that the subjects didn't know.

In NST, the researchers only cared about research and nothing else.

It was only after she found out that she was the heir of Rui Hui that she inadvertently found out about this matter. It was also because of this matter that she dispelled the thought of splitting the shares with the Liu family.

"Who would believe you?"

"It doesn't matter if anyone believes me. What matters is that I'm telling the truth."

"Ha..." A man sneered.

Mu Huan glanced at him silently.

"Mrs. Bo, you haven't answered my question. How are you going to make up for the pain that the family has suffered? How are you going to make them leave this evening?" Ling Wei asked again.

"Mrs. Sen, how do you think I should compensate them for the pain they've suffered?" Mu Huan asked instead of answering. "Just now, I heard you say that you can't sit back and do nothing. What kind of result do you want to get from this matter? You can say it. Everything can be discussed."

Ling Wei was stunned. She did not expect her to say that.

Mu Huan continued, "I know. That kind of damage is for a lifetime. It's something that money can't make up for. Alright, I won't pay. Tell me, how do you want me to compensate them? What kind of justice do you want me to give them?"

Ling Wei: "..."

Everyone who was filled with indignation just now: "..."

Money was not omnipotent. Money could not solve everything. Money could not buy health and could not buy a normal life. But if they did not compensate those people, what could they do?

How was she going to compensate them for the damage that had already been done?

With the compensation, those who were hurt could still live a good life.

Even if she didn't compensate them, Mu Huan had broken no law. Those who had broken the law had already been arrested. Since justice had been given, what else could they do?

Chapter 1237: Who Is the Evil One (4)

Furthermore, most of the protestors were there to demand compensation...

"Mrs. Sen, don't stand on ceremony. What do you think the families of those victims want? Feel free to tell me. Or better yet, if they want something, they can come and talk to me directly. As long as I can do it, I'll do my best!" Mu Huan said.

Ling Wei snapped back to her senses and said, "You have to apologize, sincerely apologize! And give them true dignity, not humiliate them with money."

"Alright, I'll apologize. A sincere apology. I'll give them true dignity and not use money to hurt them." Mu Huan's expression was one of "whatever you say, I'll do whatever you want."

Ling Wei: "..."

.

Since when did Mu Huan become so easygoing? She would do whatever she asked her to do?

But no matter what, this had led her to her original plan.

"Then we'll go to the protest scene together later. You'll personally apologize to them and beg for their forgiveness."

"Alright."

Mu Huan's "alright" made Ling Wei unable to stand on the moral high ground to criticize her anymore. This had made the people around her angry such that they had attacked her together.

In the end, she could only say gently, "Mrs. Bo truly knows her mistake and is sincerely willing to beg for their forgiveness. That's great."

“This is all thanks to your criticism, Mrs. Sen. You’re really beautiful and kind. You’re like an angel who can’t bear to see those suffering people suffer.” Mu Huan’s face was full of admiration and respect.

Ling Wei: “...”

Why did Mu Huan’s praise sound so ear-piercing? Also, she clearly had such a humble manner, but she seemed to be mocking her.

Mu Huan was clearly about to fall into the pit, but Ling Wei had the feeling that she was the one who was about to fall into the pit.

Although she had already made double preparations, she still had to make more in a while.

Nothing must go wrong!

When Sen Tai heard this, he reached out and hugged Ling Wei. “My wife is indeed beautiful and kind like an angel.”

“Mr. Sen Tai must be an excellent person to be able to get the love of such a beautiful and kind lady like your wife. He made her willing to marry you. The two of you are really compatible. In the words of our country, you two are a match made in heaven.” Mu Huan looked at the two of them with a look of admiration.

“I think so too! My wife and I are a match made in heaven!” Sen Tai said as he hugged Ling Wei even tighter.

Everyone: “...”

This Mrs. Bo really knew how to lie through her teeth. Sen Tai’s wife was young and beautiful, and she was a great beauty. As for Sen Tai, he was over 50 years old. Even if one ignored his age, he was short, fat, and ugly. When he stood with his wife, he looked like a toad who wanted to eat swan meat.

It was precisely because he was ugly that he, the biological brother of the leader, did not get the woman he loved. She had chosen to jump into the river and die than marry him.

But Mu Huan said that they were a match made in heaven...

This... was really a lie.

Ling Wei, who was being hugged tightly by Sen Tai, met Mu Huan’s mocking eyes. She clenched her fists tightly, and her clenched nails were so painful that her palms were about to bleed.

For a proud person like Ling Wei to give herself to an old man, it was already the greatest humiliation. What more now, when she was being mocked by Mu Huan?

Although Mu Huan did not say anything, the expression in her eyes was too clear. Ling Wei, who had always been proud and aloof, could not stand it at all.

Chapter 1238: Who Is the Evil One (5)

This was especially so for her, who used to be high and mighty. She was the clouds in the sky, and Mu Huan was the mud on the ground. But now...

Mu Huan was known by everyone in the world, but Ling Wei had to rely on someone else's face to survive. She couldn't even exist in this world. She could only live in the darkness.

It's all their fault! It's all their fault!

They had ruined Ling Wei's beautiful life!

She wanted them to die a terrible death! A terrible death!

Although Ling Wei hated Mu Huan and Bo Junyan so much that she wanted to hack them into pieces, she still smiled gently and harmlessly.

Mu Huan raised an eyebrow. This Ling Wei was not ordinary.

.

She clearly understood her gaze, but she did not reveal her thoughts at all. If they had not found out anything and saw how gentle and kind she was, they might not have been able to help but think that they had misunderstood her.

Those who could remain so calm were all experts among experts.

Just then, Long Feiting called.

Mu Huan stood up and picked up the call.

"Xiao Huan, are you alright?" Long Feiting asked anxiously.

"What's wrong?"

"I think there's something wrong with Gu Chenyi. He seems to have teamed up with someone to deal with you. Be careful today."

"Yes, I know."

"You know?"

"Gu Chenyi's acting skills are not good at all." Long Feiting had felt that there was something wrong with Gu Chenyi recently. Bo Junyan and Mu Huan could tell even more.

"I told him that he couldn't do it, but he didn't believe me! I told him that if he cooperated with others, he would be cannon fodder who would die after being used. He even thought that he was very awesome!" When Long Feiting heard that Mu Huan had already known about it, he was relieved. Mu Huan and Bo Junyan knew. If they were prepared, someone else would usually die.

As Long Feiting spoke, he looked at Gu Chenyi and said, "Aren't you stupid?! Do you still think you're awesome? Xiao Huan and your uncle have long seen through you!"

Gu Chenyi: "...!!"

“Have you found out what his plan is?” Although Mu Huan did not ask Long Feiting about his current situation, since he knew what Gu Chenyi wanted to do and was still with Gu Chenyi, he must have kidnapped Gu Chenyi and interrogated him.

“No, he refused to say anything. I really want to kill him!”

“Kill him, don’t stand on ceremony,” Mu Huan said.

As Long Feiting was on speaker, Gu Chenyi heard her words.

His face instantly darkened.

“Turn on the speaker. I want to speak to him,” Mu Huan said.

“It’s on.”

“Gu Chenyi, I’ll give you a chance to live now. Tell me the entire plan and I won’t fuss over this matter. If you don’t say anything, you’ll be finished when we return!” Mu Huan and Bo Junyan could tell that there was something wrong with Gu Chenyi. They knew that there was something wrong with him, but they weren’t gods and didn’t know what the entire plan was.

“I didn’t do anything. Long Feiting is crazy,” Gu Chenyi said stubbornly.

“You didn’t do anything? I know what drug you put in that soup!” And you say you didn’t do anything! You won’t give up even after seeing Yellow River, huh!

“I didn’t drug you!” Gu Chenyi insisted. The drug was colorless and odorless. He didn’t feel anything when he drank the soup. It was impossible for her to know what drug he had used. She must be lying!

“Do you think that it’s impossible for me to know what that drug is?”

Gu Chenyi: “...”

Did she really know what it was?

Chapter 1239: Who Is the Evil One (6)

“That medicine is colorless and odorless when placed in the soup, but when you open the bottle, it will emit a unique smell.”

Gu Chenyi: “...”

She must be lying to him! Because he didn’t smell anything when he poured the drug!

“Although I don’t know who gave you this drug, that person definitely doesn’t know that the person who developed this colorless and odorless drug was me. Hence, I’m especially sensitive to the smell of this drug. Normal people can’t smell it and can’t feel that it has a smell, but I know what it is.” If it weren’t for the fact that she was the one who had developed the drug, she would have ignored the subtle smell and wouldn’t have noticed this drug.

Other than researching those medicine that could treat illnesses and save lives, Mu Huan's greatest interest was concocting some random drugs. There were all sorts of effects, such as internal or external ones, and they were all very effective. Some of the drugs would be sold at a high price.

But no one knew that she had developed those drugs.

.

Using that drug on her, the person who had developed it, was really...

Gu Chenyi: "...!!"

How was this possible?! Lily said that this drug had been passed down from her family's ancestors! It was impossible for anyone to know about it!

Back then, when Lily gave him the drug, he was worried that Mu Huan, who was an expert in drugs, would discover it. Lily had told him not to worry and said that it had been passed down from her family's ancestors. No matter how capable Mu Huan was, it was impossible for her to detect this medicine.

Now... Mu Huan was saying that she had developed this drug!

"This drug was originally a drug that could make people unconscious, but the taste has changed a little. It must have been modified by someone to make its effects even more ferocious."

As it was a drug that she had developed herself, the original smell was too familiar. Even if there was a slight difference in the smell, Mu Huan could still smell it.

Although Gu Chenyi was a little convinced that Mu Huan had really developed this drug and that she had seen through everything, he still insisted on not giving up. "I don't know what you're talking about. I really didn't drug you!"

"Ha... Gu Chenyi, do you really think that I won't be ruthless to you just because you're Bo Junyan's nephew?" He refused to admit his mistake even at the brink of death!

"How can I admit to something I didn't do?"

"Alright, it doesn't matter if you don't admit it. In any case, no matter what kind of demon you are, the ones who will die will be you!" Mu Huan didn't want to say anything else when she saw someone walking toward her.

"Xiao Huan, I really didn't want to hurt you and Uncle!" Gu Chenyi said. He didn't want Mu Huan to think that he wanted to harm her.

"You really don't want to harm us? Gu Chenyi, don't you feel guilty saying this? Do you dare to say that you're very sure that you won't have hurt us by doing this?"

"You definitely wouldn't dare! You can't! You know that working with others to drug us is very risky, but you still did it!"

"Won't your conscience hurt if you do this? Do you not think you've let your uncle down? He treats you so well! He dotes on you so much!" Mu Huan didn't think much of it when Gu Chenyi drugged her. She felt sorry for her husband and felt the injustice for him. Her husband treated her nephew so well.

Not only did his nephew resort to unscrupulous means to steal his wife, but he even colluded with others to drug him...

“And you said that you really didn’t want to hurt us. You don’t know how disgusting your words are! This is what you call a b\*tch wanting to maintain her chastity!” Mu Huan said disgustedly.

### **Chapter 1240: Who Is the Evil One (7)**

Gu Chenyi clenched his fists tightly.

“That’s right! Xiao Huan is right! This is what you call a b\*tch wanting to maintain her chastity!” He had clearly done such a bad thing, yet he still wanted others to think that he was a good person. That he didn’t want to harm them!

He didn’t even think about it after he was done in!

Gu Chenyi tightened his grip. He really did not want to harm them. He had already done his best to protect them!

Gu Chenyi had never felt that he was wrong because he felt that Mu Huan should be his. He treated himself as the protagonist of this movie. No matter what mistakes the protagonist made, he would always end up with the female protagonist. Mu Huan had liked him. In the beginning, he could still clearly remember the sweetness of the two of them being together. Every night, he was immersed in such a beautiful state and was unwilling to wake up.

If he could return to the past, he was willing to pay any price!

However, he could not return to her. He could only use other methods to do whatever it took to have her again.

She was his to begin with, and he wasn’t going to fight with anyone for her.

Seeing that they were already very close, Mu Huan said, “I have something on. I’ll hang up first.”

“Okay, be careful,” Long Feiting said.

After Mu Huan hung up, she sent Long Feiting a text message. “Release Gu Chenyi and be careful as you follow him.”

Since he did not say anything, she would let him go first and follow him secretly.

Besides, Gu Chenyi was part of this plan. If he did not appear, the other party would definitely sense something. If they felt that something was amiss and canceled the plan, she could not follow the vine to catch the other party.

Long Feiting quickly replied, “Understood.”

Mu Huan put away her phone and returned to her seat.

Bo Junyan turned to look at her. Although the two of them did not say anything, they tacitly conveyed a lot of information.

After dinner...

“Look at the sumptuous food we’ve prepared today. Many of them haven’t been touched, and there are even more in the kitchen. Those pitiful people who were protesting around the pharmaceutical factory are still hungry even after they’ve eaten. Let’s get someone to pack up all the untouched food and bring them over for them to eat, alright?”

Ling Wei’s words not only showed her kindness, but it also reminded everyone that Mu Huan had said that she would personally go to the scene to apologize to the victims.

“Alright.” Sen Tai had always doted on Ling Wei and was happy to support her kindness.

Without needing Ling Wei to say anything, the person-in-charge of the human rights organization said, “Mrs. Bo, you seemed to have said that you were going to apologize to those pitiful people at the scene.”

“Yes,” Mu Huan said as she stood up. She had a look on her face that said, “I didn’t say I’m not going, so what’s the hurry?”

Seeing that Mu Huan would definitely go, Ling Wei lowered her eyes and restrained her uncontrollable emotions.

Due to environmental protection, the pharmaceutical factory was located at the foot of a remote mountain.

Usually, apart from the workers at the pharmaceutical factory, there were no outsiders here. It was a very quiet place, but recently, it was very noisy.

Perhaps it was because the employees of the pharmaceutical factory had leaked the information, but everyone knew that the pharmaceutical factory had a batch of very important goods that had to be manufactured as soon as possible. Hence, they surrounded the pharmaceutical factory to protest and forbid the workers from working.

The place was completely surrounded.

Before they reached the pharmaceutical factory, they saw a group of people in front.

“Didn’t you say that two-thirds of the people had been evacuated? Why are there so many people protesting?” Ling Wei asked.
