

Fake Marriage 1241

Chapter 1241: Who Is the Evil One (8)

Sen Tai was stunned for a moment before saying, "That's right. Why are there so many people?"

Mu Huan looked at the crowd not far away and lightly tapped her other hand.

"Gu Solna, go and ask what's going on." Sen Tai asked his subordinate to see what was going on.

Soon after Gu Solna left, he brought the person-in-charge over.

"Didn't many people evacuate previously? Why are there so many people today?" Sen Tai asked.

"Two of the people who had been unknowingly tested had passed away this afternoon. Their families felt that they had died early because of the test. Hence, they were very angry and pulled their relatives and friends back!"

Sen Tai: "..."

.

Why did the two of them die at this time?

This matter was about to be resolved, but now... it might not be good...

"What? Two have passed away?" Ling Wei looked shocked. Then, she looked at Mu Huan and said, "Mrs. Bo, did you know that those drugs have such side effects?"

"From what I know, those drugs won't cause such serious consequences." Mu Huan knew very well about those illegal drugs. The drugs produced by NST were all fine after many experiments on animals. That was why they entered the human experiment stage.

The risk of such a drug was very small. It was impossible for such a situation to have happened.

"Then how did the two of them die?" Ling Wei asked.

"I don't know. We'll have to wait until we see their bodies and they're autopsied to confirm how they died and why," Mu Huan said seriously.

She pretended not to understand what Ling Wei really meant and replied so seriously that Ling Wei could not continue on this topic.

It was true that one needed to see a corpse to determine how and why a person died.

...

Under the lead of the person-in-charge, Mu Huan, Bo Junyan, and Sen Tai went to the center of the protest crowd.

"Everyone, quieten down for a moment. Let me introduce everyone. This is the current person-in-charge of Rui Hui Pharmaceuticals, CEO Mu! She has a very sincere heart to solve the problem for everyone. If

anyone has any questions or wants anything, you can just say it directly. CEO Mu will do her best to satisfy everyone's needs!" Sen Tai introduced Mu Huan to everyone.

"Satisfy all our needs? How can she satisfy them?! Can she make my son better? Look at him! Can he recover?! Do you know that those drugs ruined his life?! How is she going to compensate for it in this lifetime?!" a woman shouted as she raised the child in her hand.

Many people could not look straight at that child!

Such a child hit everyone's heart, making them even angrier.

As soon as the woman finished speaking, the family member of a person who had died immediately shouted, "We don't want anything! We only want our family's health, as long as they can still live well!"

"We don't want anything from you. We only want the health of our family, as long as they can still live well!"

"Let her return our health! Return it to our family!"

Sen Tai: "..."

This person was already dead. How was she going to return his life? This was something even a god could not do. They were making such a request!

What were they thinking?

Just as he was about to say something...

Suddenly, someone rushed forward excitedly and threw something at Mu Huan!

"You evil person! Why don't you die?!"

Chapter 1242: Moral Abduction (1)

Mu Huan instinctively dodged the thing that was thrown at her. When the other party saw this, he bent down and picked up another thing to throw at Mu Huan. But when he met Mu Huan's gaze, he did not dare to throw the thing in his hand.

At this moment, under his signal, Sen Tai's men stood in front of Mu Huan to protect her from the public.

Ling Wei was a little displeased when she saw this, but she did not say anything. She knew that Sen Tai needed Mu Huan and that he wanted to get the medicine from her.

As the highest-ranking person in charge of the pharmaceutical and health department, even if it wasn't for Mu Huan's medicine, he still had to stand up and speak up in this situation, not to mention that he really needed it. Hence, he walked forward and looked at the people. "I know that everyone is very angry and I can understand your anger and pain, but everyone knows that there are some things that can't be reversed. Most especially, a dead person can't be revived. This is something that even God can't do. Hence, the people who are alive can only be strong and look forward!"

What he meant was that everyone should be interested in the money.

Although money could not buy back lives and health, what had already happened had already happened. It was impossible for them to want to recover!

If you want money and compensation, we can talk about it. But if you insist on this, they can't give it to you. That person can only leave this place without opening the pharmaceutical factory.

What would they get if they shut down the factory and left Country F?

Not only would they not get a single cent of compensation, but many people would also lose their jobs in the future!

Sometimes, some methods might seem heartless and cold, but this was the best thing for a person. Having money could lead to a good life. It was better than losing your health and vitality, then living on without the means to survive, right?

Besides, this wasn't a life for a life situation where if a person killed someone, they really didn't want any compensation and had to make the other party pay with their life.

Also, this matter wasn't committed by Mu Huan. But she was still willing to pay a huge price to make up for it. She was really sincere!

If they continued to insist on these impossible things, in the end, the ones who would suffer would only be themselves.

"What happened in the past is irreversible, but what about the future? If we let this pharmaceutical factory close, who can guarantee the health of the people in the future?"

"The air pollution from the pharmaceutical factory is so serious. Ever since Rui Hui built the factory here, the surrounding residents' respiratory infections have increased a lot. The incidence of cancer has also increased a lot. We can't just want money, life, and health!"

"Also, the illegal drugs were exposed this time. They apologized and took responsibility. What if they were to try the drugs illegally again in the future? We could only die irreversibly. They could only use money to compensate us for the matter? Are our lives so cheap? Can they buy it with money?"

In this sea of people, apart from those who were protesting, there were also many reporters. Among them were many reporters who were already prepared. Their questions were very sharp.

"Regarding these questions, CEO Mu will give everyone a satisfactory explanation," Sen Tai said as he looked at Mu Huan.

Mu Huan took a step forward and said, "Firstly, I can guarantee that there won't be any illegal drug testing in the future!

"Secondly, regarding the pollution problem of the pharmaceutical factory that everyone is concerned about, I can guarantee that every factory of Rui Hui Pharmaceuticals will use the world's most advanced environmental protection facilities in the future."

Chapter 1243: Moral Abduction (2)

“Also, although resolving air pollution can’t be guaranteed with environmental protection measures, when Rui Hui was building the factory, the location chosen was very remote, and it also made the best arrangements for the few residents around. Now, the Rui Hui Pharmaceuticals factory is at a distance from the residents, so it won’t cause any harm to the residents. In other words, it won’t cause any increase in respiratory infections.

“As for cancer, the probability is even lower. I can take out the relevant environmental test reports for everyone.”

As a world-renowned pharmaceutical factory, Rui Hui had always had the most advanced environmental protection facilities. After Mu Huan took over, the first thing she did was to get someone to check the environmental protection measures of each factory. She had to ensure that they were completely compliant.

Mu Huan herself paid special attention to environmental protection. She would rather have less profits than do anything to destroy the environment.

“Your test report was given by the relevant departments.. The relevant departments are on your side. Can we believe the test report?”

“If you don’t believe me, you can take it to a more well-known institution. As long as it’s an institution that the health department approves of, I’ll bear the responsibility if there’s a problem during the examination!” Mu Huan dared to make such a promise.

Mu Huan responded to the tricky questions of the reporters with ulterior motives.

In the end, they didn’t have anything to pick on.

“CEO Mu, what do you think of the human body test?”

“Nothing much,” Mu Huan said.

“Don’t you think that it’s very risky to use drugs on humans before confirming the effects and side effects? Isn’t that equivalent to treating humans as lab rats?”

“As long as it conforms to the medical ethics and the drug-tester volunteered, this is a matter of mutual consent.” Usually, the drug-tester was hired at a high price. They would inform the drug-tester of the drug’s name, the side effects it might cause, and sign a contract with them to test the drug.

There was definitely a risk. Most things that a person did were two-sided. Whatever you wanted, you might also lose. This was inevitable.

“Those who are willing to be drug-takers are mostly poor people. They are only drug-takers for the sake of money. Because of their poverty, they become guinea pigs, allowing you to use drugs on them at will and harm their health. Don’t you think that’s unfair?”

“Why do you want these poor people to test the medicine that you’ve developed instead of yourselves? Should the poor be controlled by you rich people and easily trampled on?”

There were many people in this world who were bar spirits. For example, the person who asked this question knew that before confirming the effects and side effects of the drug, it would be risky to use it on the human body. However, if one didn’t test the drug, how could one determine its effects and side effects?

From the moment they had the medicine, they needed someone to test it. This was something that every country’s law allowed.

This wasn’t something Mu Huan had created, and it wasn’t something she could change at the moment.

“Everyone is equal. No one can trample on anyone and control their life and death. It’s also up to them to choose whether to test the drug or not.” It was wrong to test the drug illegally without the approval of the drug-tester. It was a trampling. If it was voluntary, there was nothing wrong with that.

“They have no choice! Because they’re poor! They don’t have the money to live! They can only do this for the sake of their lives!

“As a capable person, doesn’t CEO Mu think that you should help these poor people and not use their poverty to hurt them?” This reporter’s words were the most classic moral abduction!

Chapter 1244: Moral Abduction (3)

“As a capable person, doesn’t CEO Mu think that you should help these poor people and not use their poverty to hurt them?” This reporter’s words were the most classic moral abduction!

You’re so rich, so why don’t you donate money to those poor people? Buying a bag costs tens of thousands, and eating a meal costs tens of thousands. Won’t your conscience hurt if you waste money like this? Don’t you know that there are many people in this world who can’t eat their fill?

You’re so rich, but instead of helping those who need help, you’re using them to do things for you! You’re utterly heartless!

Let’s not talk about being poor. There are many poor people in this world. Even if Mu Huan were to scatter all her assets and spend her life helping those poor people, there would still be many poor people in this world.

For example, the people who were testing the medicine said that they were poor. Indeed, they were only testing the medicine because they needed money. However, many people were not that short of money such that without this money, they could not live. They were just too lazy to do things. They only felt that money came quickly when it came to testing the medicine. They were willing to use their health and risk their lives in exchange for easy money.

These were things that Mu Huan could not change.

“I’ve always felt that teaching a person to fish is better than giving them fish. If a person can reap benefits without paying a price, then he will only become more and more useless.” If there were endless money falling from the sky, they would only want to eat, drink, and play every day!

Also, no one's money came from nothing. Everyone's money was earned through hard work.

People could earn money easily because they had worked harder in the past.

Besides, this world was unfair to begin with. Even God didn't give fairness, so how could she give it to others?

Ha...

He thought too highly of her.

"This is only your dignified excuse!" the reporter said indignantly.

Mu Huan did not respond to the other party's words. Instead, she looked at the assistant beside her.

The assistant immediately stepped forward. "Mr. Jensen, don't you have..."

She stated the net worth of this reporter clearly.

"Mr. Jensen, you're so rich and compassionate. If you're so kind, why don't you donate all your money to those poor people who need it?"

The reporter: "..."

After a while.

"I didn't ask CEO Mu to donate all her money! I just feel that capable people should help those poor people who don't have the ability. Just like now, I'm fighting for those people's interests and helping them!"

"Then what benefits do you want to fight for them?"

The reporter: "..."

Why did they end up talking about benefits?

The plan had been to stand on the moral high ground and criticize Mu Huan. Then, they would incur public anger and cause everyone to lose control and charge at Mu Huan and the rest. Then, they would take the opportunity to create chaos. Now, how could they continue to incite the public?

He didn't know why he was asked about benefits.

The reporter, who didn't know what else to say, instinctively looked at Lily, wanting to ask her what to do next.

If Mu Huan was really so good as to give out her money, this matter would be settled. The rest of the plan would be ruined.

Mu Huan followed that person's line of sight and saw Lily standing by the side.

Lily had a certain status in Country F. Most people here believed in divination.

She retracted her gaze and looked at Bo Junyan.

Bo Junyan expressed that he had already sent someone to deal with it.

Mu Huan felt that her husband was really awesome. There were many things that he had gotten someone to do before she could say anything.

Ling Wei looked at the situation coldly and knew that they were a bunch of useless things!

Chapter 1245: Moral Abduction (4)

Relying on them would definitely not work!

She made a seemingly careless move.

A heart-wrenching scream suddenly erupted in the quiet scene.

“We said that we don’t want benefits! We don’t want money! We only want health! We want our family’s lives!”

“I only want my son’s health!”

Sen Tai: “...”

What was going on? Shouldn’t they be convinced after talking for so long? Wouldn’t it be better to talk about benefits next? But they didn’t want anything!

“CEO Mu has made it very clear just now that your health wasn’t destroyed by the pharmaceutical factory. As for your relatives’ lives, there’s still a need for an examination...” Stop fooling around and quickly take the money home, alright?

“Did you hear that? The truth is right in front of us. My son is this pitiful in front of everyone, but Lord Sen said that it wasn’t the pharmaceutical factory that destroyed his health! If this isn’t the case, then what did it? If you can say that this isn’t the case, then how are we going to live in the future?!”

“That’s right, how are we going to survive in the future?!”

“A family member was killed and you said that he wasn’t killed.. The child was crippled and you said that he wasn’t. This...” Before the person could finish speaking...

An old man rushed forward with a stick. “Give me back my son’s life! Give me back my son’s life!”

If he were to rush up like this, he would get blocked by the people in charge of protecting Mu Huan. They would definitely stop him. It was impossible for them not to do anything when he tried to hit someone like that. However, after they did that...

That old man died...

He died just like that.

“Someone’s been beaten to death! Someone’s been beaten to death!” someone shouted. Instantly, the entire scene became restless!

“They don’t take our lives seriously. They dare to beat someone to death in front of so many people. We’ll fight it out with them! If we die, we die together!” That excited and indignant voice infected many people.

Especially since the old man who had died was one of the more prestigious people in this group.

This made everyone, who was very angry to begin with, become even angrier, such that they were tempted by some well-intentioned words.

Instantly, all of them picked up their weapons and dashed forward.

“We want them to pay with their lives!”

“Pay with your life!” the group shouted.

Seeing that the situation was about to get out of control and that his men could not resist them, Sen Tai hurriedly said, “Let’s retreat quickly!”

When faced with such a situation, they could only retreat first.

After all, the law did not punish the masses.

They couldn’t kill so many people.

“That’s right, let’s hurry up and retreat!” Ling Wei said as she looked at Mu Huan and Bo Junyan. According to the time the medicine should take effect, the two of them should now be in a dizzy state such that they’d faint during their retreat.

But the two of them looked fine. There was no sign of them fainting.

This situation should be as she had predicted. But Gu Chenyi’s drug use had been seen through by Mu Huan.

Fortunately, Ling Wei was prepared.

It was better to rely on oneself than anyone else!

Right now, they were at the center of protection. Those people could not hurt them. But once they evacuated, there would be many opportunities for the crowd to get close to Mu Huan and kill her by accident.

Just then, Gu Chenyi, who believed that he had managed to sneak out, rushed over.

When he saw that the scene was in chaos and those people were attacking with weapons, he looked around worriedly, afraid that something would happen to Mu Huan.

When he saw that she was standing with Bo Junyan, he heaved a sigh of relief.

According to the time, the two of them should have collapsed by now, but they didn’t.

This...

He didn’t know how to continue with the plan.

He had suddenly let out a sigh of relief when he saw that Mu Huan was fine. Then he thought of something, and he once again wanted something to happen to her.

Chapter 1246: Who Is Stronger (1)

Because only if something happened to her would he have the chance to continue with his plan and have her.

Xiao Huan and Long Feiting both felt that he couldn't do it. It was because their understanding of him was still stuck in the past.

And he was no longer the him from the past.

He really wasn't.

He had the ability, the absolute ability!

He didn't say anything or give up. He was only cooperating with someone because he could really ensure their safety. He really didn't want to harm them.

But now, neither of them had collapsed...

.

Could it be that he could only use that move?

Just as his thoughts were in a mess...

On Mu Huan's side.

"You go first. I'll deal with things here." Bo Junyan looked at Mu Huan.

"No, Hubby, let's go together!"

"If no one deals with it here, they'll destroy the factory as soon as we leave," Bo Junyan said.

"But they're so violent, and you can't be ruthless. It's very dangerous for you to stay here. If the factory is destroyed, so be it." Mu Huan looked unwilling to part with him.

"There's medicine inside waiting to be delivered. Don't worry, I'll be fine." Bo Junyan caressed her head.

"Hubby..."

Ling Wei looked at the two of them, who were being so lovey-dovey that they were unwilling to separate. Bo Junyan was actually even waiting for the medicine to be produced by Mu Huan's pharmaceutical factory. For such a small benefit, he was willing to be left behind and face danger. It made her feel even more jealous.

Unwilling to part ways? Then die together today!

"Be good and leave first. Their main target is you. After you leave, they won't be so agitated and it'll be easy to deal with them," Bo Junyan said.

“Alright.” Mu Huan nodded reluctantly after being convinced by him.

“Mr. Bo, let’s go together. There are so many people and they’re so agitated. It’ll be dangerous for you to stay here.” Seeing that Mu Huan was about to leave, Ling Wei advised Bo Junyan to follow her.

If the two of them were to separate, she would have to split her men into two groups to deal with them. This way, the chances of success would be relatively low. Furthermore, once only one of them was killed, the other would definitely immediately counterattack. At that time, the one who would die would be her. She had to wipe them out in one fell swoop!

Ling Wei’s words made Mu Huan and Bo Junyan certain that she was the mastermind this time. She wanted the two of them to work together so that they could catch them in one fell swoop!

Mu Huan received a call from Long Feiting. After confirming who Gu Chenyi was working with and what he wanted to do to them, she thought that the person working with Gu Chenyi might be Ling Wei. Because with Ling Wei’s current status, her scheming methods, and the grudges between them, she was the most likely person!

Furthermore, Gu Chenyi had not drugged them during the past few days that they had been in Country F. It was definitely not a coincidence that he had drugged them before they went to Sen Tai’s residence today.

During the meal, Ling Wei kept leading the topic to make Mu Huan meet the protesters. It made Mu Huan realize that what they wanted to do might be to incite the protesters. Once there, it was an easy matter to bribe people.

The mother who had given birth to a deformed child, the families of the people who had suddenly died... she had sent someone to investigate before she came. Not long after she arrived, the results of the investigation were out. The account of the mother who had given birth to a deformed child suddenly had a huge sum of money. As for the two families who had lost someone, their family members had died in a hurry and in very suspicious circumstances.

This made Mu Huan feel that the sudden death of those two people was premeditated, along with the other things that happened.

Chapter 1247: Who Is Stronger (2)

Sen Tai’s men had only pushed that old man a little. Because the other party was an old man, they hadn’t dared to use much strength, yet the other party fell to the ground and died.

It looked like a sudden heart attack.

In order to cause a commotion, the other party had killed three people in succession. This level of viciousness made Mu Huan feel that the other party might not only want to cause trouble but also wanted to take the opportunity to get them killed here!

Hence, she had discussed with Bo Junyan at the last minute. The two of them pretended to want to split up and evacuate in two directions to confirm that the other party’s target was either one of them or the two of them.

If the other party's target was just one of them, the two of them separating and retreating would be exactly what the other party wanted. The other party would definitely not say anything. If her target was the two of them, and if Ling Wei was who they had guessed her to be, which was the person working with Gu Chenyi, they could see whether she was the mastermind or whether someone was above her. If she had to wait for orders before acting, she would definitely seek the mastermind's opinion. If she was the mastermind, she would definitely say something to advise them.

Hence, now that Ling Wei had persuaded the two of them to leave together, they had confirmed her identity as the mastermind.

This made Mu Huan look at Bo Junyan.

Your ex-fiancee, whom you grew up with, is quite ruthless! It's fine if she wants her love rival's life, but she even wants yours!

Although Bo Junyan had not wanted to tell Mu Huan about the unhappy things regarding Ling Wei back at Sen Tai's house, he had heard Mu Huan say that only by knowing yourself and your enemy can you win a hundred battles. If she did not even know the personality and background of her enemy, she would definitely die.

He'd roughly told her about Ling Wei.

Bo Junyan: "..."

He knew that Ling Wei had been ruthless since she was young, but he didn't expect her to become like this. She didn't even take human lives seriously. However, he wasn't surprised when he thought about it. This was because once a person started killing, it wouldn't be a big deal for them to take another person's life.

Ever since she killed that university teacher, her life had been completely ruined. She would never return to it.

Mu Huan and Bo Junyan did not really want to separate and retreat. Now that Ling Wei had said this, Mu Huan took the opportunity to say, "Mrs. Sen is right. Hubby, it's dangerous for you to stay here. Let's leave together!"

Bo Junyan was silent for a while before saying, "Alright."

When Ling Wei heard this, a sinister look flashed across her eyes.

Apart from these protestors, Sen Tai had also ordered Ling Wei's men to protect Mu Huan.

Just now, Mu Huan and the other two were standing together with Sen Tai. In the center of the protective circle, it wasn't good if these people went easy on them because of him. Once they retreated, Sen Tai and Ling Wei would have to walk in front. When the protesting crowd rushed up, they would instinctively protect Sen Tai. This way, they would go easy on him and no one would notice anything.

Everything was as Ling Wei had planned. She walked in front with Sen Tai while Mu Huan and Bo Junyan walked behind.

They had only taken a few steps down the stairs when...

Her ambushers encouraged the protesters to rush toward them.

There were really too many people! Furthermore, they were all ordinary citizens. This made those people, even if they weren't Ling Wei, not dare to make a move. In the face of the protests of ordinary citizens, if they were to be ruthless and cause something to happen to these people who were protesting, then the matter would become even bigger!

They couldn't be ruthless. Those people who were provoked and angered were attacking them crazily! They made them retreat in defeat.

Right at this moment, a strange fragrance suddenly filled the air. It spread very fast, and when Mu Huan smelled it, she hurriedly covered her nose. By the time Bo Junyan did the same, it was already too late.

Chapter 1248: Who Is Stronger (3)

"What drug is it?" Bo Junyan looked at Mu Huan. Although he didn't know much about drugs, this strange fragrance and the change in his body, as well as the grave expression on Mu Huan's face, let him know that this one wasn't ordinary.

"It's the fragrance of a butterfly. It's fine for ordinary people to smell it, but those who have eaten mackerel will feel weak all over." And they had just eaten mackerel at noon.

Bo Junyan frowned, his gaze turning frighteningly dark.

Mu Huan covered her mouth and nose with one hand and rummaged in her pocket with the other to find a medicine that could temporarily relieve her pain...

This Ling Wei was ruthless, and her moves were so vicious that it was impossible to guard against her. There was no problem with the mackerel at noon. Furthermore, Ling Wei and Sen Tai had eaten it, so this did not occur to her.

However, butterfly fragrance had been lost for a long time. She had seen the description of this drug and its smell in an ancient book. That was why she'd thought of this drug when she smelled it. It was related to the mackerel.

Where did Ling Wei get the drug? And since she had such a powerful drug, why did she ask Gu Chenyi to drug them?

Was it to make them realize her scheme and feel that they had control over the entire situation? She wanted to use this to confuse them and lower their guard so that they wouldn't think that she would drug them? Or was it a double preparation?

She looked up at Ling Wei, who was walking in front.

At this moment, Ling Wei turned around and met Mu Huan's gaze. The corners of her lips curved up slightly. It was the arrogant and vicious smile of the strong.

Mu Huan narrowed her eyes.

Was she trying to make them weak all over so they would then die in this conflict as an accident?

A drug like the butterfly fragrance could not be detected through an autopsy after the incident. When the time came, they would meet a protesting crowd and be accidentally killed. The murderer would be a group of ordinary people and could not be blamed. Even if they found a few leaders, they would not be able to find Ling Wei.

She could continue to live a carefree life.

This move was really impressive! Ling Wei was obviously capable. Indeed, she was very formidable!

However, such a formidable person was forced to undergo plastic surgery to live. She used to be quite formidable!

Mu Huan was still in the mood to be narcissistic at a time like this.

But when it came to plastic surgery, for Ling Wei to be able to do it so successfully and so naturally, the person who did it was definitely an expert among experts. And as long as it was an expert in the pharmaceutical industry, there were very few people she didn't know. However, she didn't find out who did it.

It was said that she had taken the initiative to jump off the cliff after disappearing for a few days. She must have been setting up the place when she went missing. Before she jumped off the cliff, she must have contacted the doctor. It looked like this doctor was not ordinary!

Ling Wei could get such a drug from that doctor.

Mu Huan had guessed correctly.

Although Ling Wei felt that Gu Chenyi was different from before and was a little stronger, Bo Junyan and Mu Huan were stronger. They could easily sense that there was something wrong with a person. Just relying on him to drug them had too low of a success rate. She'd had to make double preparations.

This plate of incense was the double insurance she had prepared.

It wasn't easy to successfully drug Mu Huan, a drug expert. Even if her biological mother had drugged her, she would be seen through, let alone be drugged.

She thought about it and realized that there was only one way to successfully drug her. That was, to do it twice. The first attempt was to be absolutely harmless. This way, Mu Huan wouldn't suspect anything.

Chapter 1249: Who Is Stronger (4)

The second step was to successfully drug Mu Huan without even approaching her.

After she told that person about these two points, he provided her with this butterfly fragrance. He told her that if she used the butterfly fragrance alone, it would be a special fragrance that would not have any poisonous side effects on people. However, people who had eaten mackerel would feel weak when they smelled the fragrance.

Butterfly fragrance was a drug that spread in the air. It was very fast. By the time you smelled it, you'd have already been drugged. This was something that no one could guard against. The mackerel was

harmless, but the butterfly fragrance was impossible to guard against. The success rate of the drug was 100%!

The man had assured her that the success rate was indeed 100%!

That person even said that there was no antidote to the butterfly fragrance.

No matter how capable Mu Huan was, no matter how much medicine she had on her, she would at most be able to find a drug similar to epinephrine to strengthen their stamina for a short period of time. She would not be able to find an antidote. Furthermore, she had people release that fragrant drug from all directions.

The two of them could not hold on for long.

As for Mu Huan's bodyguards, she had added mackerel in their lunch.

Now...

Ling Wei looked over. Many people had already collapsed.

No matter how much Mu Huan and Bo Junyan could hold on, they wouldn't be able to hold on for more than a few minutes. And in this situation, it was very difficult to break through the human wall and retreat.

Once the two of them collapsed, her men would produce a few hidden knives. A group of angry people would rush over and trample the two of them to death!

She wanted the two of them to die a horrible death!

Just as she was smiling viciously, she saw Gu Chenyi squeezing toward her from the corner of her eye.

She immediately looked at the people she had arranged and asked them to finish him off while Gu Chenyi was not on guard.

Just like what Bo Junyan had said, once a person started killing, she wouldn't mind killing a few more people.

From the start, no matter if Gu Chenyi succeeded or not, even if he was just an accessory, she would not let him leave Country F alive.

The more troublesome thing was that Sen Nalin's people wanted Bo Junyan to live. Those people who were originally waiting were now rushing up to protect him.

Mu Huan had asked Long Feiting to follow Gu Chenyi secretly. Hence, Long Feiting did not dare to get too close to Gu Chenyi, afraid that he would be discovered.

Hence, when he arrived at the pharmaceutical factory, he saw that the scene was already in a mess. He looked around a few times but could not find Gu Chenyi.

It was easy to find Bo Junyan and Mu Huan, but the two of them were surrounded by a crowd and it wasn't easy to squeeze in.

However, even though he was very far away, Long Feiting still realized that something was amiss with Mu Huan and Bo Junyan.

This made him bring his men and squeeze toward Mu Huan with all their might.

However, there were too many people protesting. They formed a thick wall of flesh. Even if everyone didn't have much ability, there was strength in numbers. When there were many people and you couldn't kill them, it really made it difficult to make them move.

As he squeezed toward Mu Huan, he saw Gu Chenyi, whom he had been searching for but could not find.

Just as he was about to grab Gu Chenyi, Gu Chenyi had already squeezed in.

Seeing this, Long Feiting was furious. He didn't care if these were ordinary citizens or not. He got his bodyguards to be ruthless!

If he had to kill all of these people, he would kill his way out.

This was because he felt that Mu Huan's situation was getting worse.

Chapter 1250: Who's the Final Winner (1)

After coming to this foreign country, she had felt that there was something wrong with Sen Tai's wife. Mu Huan had brought many types of drugs with her, and there were many that could be poured out. She did not use them earlier because these people were all ordinary citizens. If she made them all collapse, given that there were already talks regarding ulterior motives and exploitation, and not to mention that this would be reprehensible in the international medical field once this kind of medicine was exposed, it would lead to more serious consequences.

However, given the current situation, she had no choice but to use it. The temporary antidote that she had given Bo Junyan and herself had little effect. If she did not use it, the two of them might really die here!

However, just as she was about to take out the medicine, the sky suddenly shook.

In the beginning, no one knew what was going on until someone shouted, "Earthquake!"

The protesters were all at the entrance of the pharmaceutical factory. The building at the entrance was higher. As the world shook, the building started to shake. "Run!"

With this shout, the people who were surrounding Mu Huan dispersed and looked for an empty space.

Seeing this, Mu Huan put the drug away.

When the crowd had surrounded them earlier, all of Sen Tai's men had gone to protect him. Mu Huan and the rest had almost fallen. Hence, she and Bo Junyan were pushed away by the crowd.

"Hubby, over here!" She raised her increasingly weak hand and shook it, making Bo Junyan come over to her.

When Bo Junyan saw her, he immediately ran toward her. Due to his constitution, his condition was slightly better than Mu Huan's.

Ling Wei knew that Bo Junyan was not sensitive to knockout drugs. The knockout drugs could not make him lose his stamina. Hence, whether it was the drug that Gu Chenyi had drugged him with or the butterfly fragrance, they were not knockout drugs. They were poison. After being poisoned, one would feel weak all over and would find it difficult to breathe and would fall unconscious.

However, because Bo Junyan's constitution was strong, his poisoning situation was lighter than Mu Huan's.

Ling Wei also knew that Mu Huan had that kind of drug that could make people collapse one by one. Hence, her people were all wearing masks. Under such circumstances, her people could have quickly killed their way to Mu Huan and Bo Junyan's side and killed the two of them. Unexpectedly, such an accident happened, causing the crowd to run around! It caused the people she had secretly arranged to be scattered.

However, Mu Huan and Bo Junyan did not have much stamina now.

Although the world soon stopped shaking, because the scene was too chaotic and she could not find the people who were originally hiding, Ling Wei had been following her closely. The people who were in charge of protecting her had gone to assassinate Mu Huan and Bo Junyan. After feeling vexed, she suddenly felt that this situation was better to create an accident.

Thinking about it, even the heavens were helping her!

But...

Heaven's will was unpredictable.

Before her men could reach Mu Huan and Bo Junyan, they heard a series of screams. She instinctively looked up, and what she saw made her expression change drastically!

Rui Hui's pharmaceutical factory was built downstream in terms of geographical location. There was a reservoir upstream, and the strong earthquake caused the reservoir to collapse.

The torrential flood was like a ferocious beast that had broken out of its cage, charging down fiercely.

"Quick, get in the car and run!" Seeing this, Sen Tai pulled Ling Wei into the car and was about to run.

It was just that although the mountains were no longer shaking, the buildings were still collapsing, and the cars were also twisting. Especially with such a fierce mountain torrent, let alone them being unable to make it in time, even if they got into the car, they might not be able to drive it away. Before they could run to the car, the ferocious mountain torrent swept over.
