

Fake Marriage 1381

Chapter 1381: The Last Battle (16)

After a moment of silence, Sen Da said, "Alright."

It was indeed as she had said. Now was an opportunity.

Although Mu Huan was a talent and he didn't want to destroy her, it was better to get rid of the roots to prevent future troubles.

Country Y...

"Dad, is the sudden outbreak of illness caused by that super virus?"

"Yes." The Liu father and son had been vaccinated beforehand. They were fine.

"Isn't it because Mu Huan and Bo Junyan aren't around that we didn't have to release it? Why did this happen?" Liu Changfeng asked in confusion.

"Why? Do you still need to ask?" Mr. Liu asked upon looking up.

As it was impossible to hide the fact that they would need to use a vaccine and medicine in the future, he did not hide it from Liu Changfeng and told him directly. Besides, didn't he already know about it?

Liu Changfeng: "..."

That's right, was there a need to ask?

No need!

He already knew...

Releasing such a virus would cause a certain degree of spread. Then, they would use vaccines and medicine to earn a sum from the disaster.

How could he be so naive as to think that such a thing would not have happened without him doing anything? Even if Bo Junyan and Mu Huan were not here, that virus must have been used for such a thing, right?

"Don't think too much. This isn't the first time such a thing has happened," Mr. Liu said.

Liu Changfeng: "..."

"If you can't be a completely good person, then let go of your conscience completely. This is because no matter how much pain you're in now, it's useless. I don't want to persuade you anymore. I still have a lot of things to do. If you don't have anything else to do, go back to your room and rest!" Mr. Liu didn't want to say too much.

He was already an adult, so he should know everything. There was no point in saying too much.

Liu Changfeng left without a word.

When he returned to his room and saw the increasing number of patients on television, he smashed the television in frustration.

It was easy to tell someone to put aside one's conscience, but doing it was too difficult. The reason why humans could stand above all living beings was that humans had a conscience. If one didn't have a conscience, how could they still be considered human?

The virus this time was too ferocious. Furthermore, the current mode of transportation was advanced. Even if you were in this country this morning, you could be in another country in the afternoon. Hence, even if there was such a disease reported only in Country Y, after confirming that it was an infectious disease, all the countries started to implement the relevant preventive measures. However, because it was also contagious during the incubation period, very quickly, other countries started to have such illnesses. The serious trend of rapid development made this sudden infectious disease become the highest-level infectious disease in just a week. Every country implemented the highest level of prevention.

But they still could not control the number of people contracting it every day.

This illness made people panic.

This also made the experts in the medical world very worried. This was because autumn and winter were already the seasons of outbreaks of respiratory diseases. If they could not effectively control the source of the infection in time, the number of infected people would increase even faster.

Li Meng and Wu Xingye were also infected by this epidemic. As they were staying in a hospital under Rui Hui, the two of them were in the same ward.

"Wu Xingye, do you think the two of us will die?" Having had a high fever for three days, Li Meng felt that her body was getting weaker and weaker. If this was an ordinary high fever, she would not be afraid. However, this was caused by a new virus variant. The mortality rate was very high, and there had already been deaths.

She was so afraid that they would die too.

Chapter 1382: The Last Battle (17)

"We won't die. Since Xiao Huan is around, she definitely won't let us die!" Wu Xingye believed in Mu Huan and believed that she would definitely be able to do it!

"Bo Junyan doesn't seem to be doing well. Xiao Huan hasn't been sleeping for a few days..." Li Meng's heart ached when she thought about their call.

It hadn't been easy for her Xiao Huan and God Bo to have no more barriers between them and just be happy together, but such a thing had happened! Seriously...

Accidents were always unpredictable...

"Didn't Xiao Huan say that although the medicine hasn't been developed yet, there's already a prescription that can temporarily suppress the development of the illness? The medicine we're drinking is a new prescription. I believe our illness will be controlled soon," Wu Xingye comforted.

The two of them were following Mu Huan's treatment plans.

"I hope so... Otherwise, if something were to happen to Bo Junyan, if the two of us were to die and only Xiao Huan was left, what would she do..." Just thinking about that possibility made Li Meng's eyes turn red.

Under such circumstances, they wouldn't feel anything once they died. The ones who were alive were going to be in the most pain.

"Don't be so pessimistic. Have you forgotten what Xiao Huan said? She said that when one is sick, the most important thing is one's emotions. If one is optimistic and positive, one might even be able to survive cancer. If one is pessimistic, even a small cold can take one's life!" Wu Xingye was handling the symptoms better than Li Meng. His mental state was much better than Li Meng's.

Li Meng no longer had the strength to get off the bed. Although he had a high fever, he could still walk around the room and take care of her daily needs.

"I don't want to be pessimistic. I just can't help being afraid..." Li Meng said.

Although she wouldn't feel anything once she was dead, she'd still feel things before she died. For example, she felt very afraid now. Her beautiful life had just started. She didn't want to die like this... She really didn't want to die...

"Don't be afraid, I'm here." Wu Xingye reached out to hold her hand.

The two boiling hot hands clasped tightly together, dispelling a lot of the fear in Li Meng's heart. She could not help but look at Wu Xingye. She looked at him like that the entire time.

Then Wu Xingye was about to say something.

But she was the first to speak. "Xingye, if we don't die this time, let's be together after we're out!"

All these years, although he had never confessed and had returned to being a friend, she would always have his company wherever she went. She knew that he had been waiting for her. Sometimes, the way he looked at her made her heart ache. It was just that she had always pretended not to understand.

Because of her inferiority complex, she had always been avoiding his love for her and her love for him. She was afraid that in the future, what she would give him would not be beautiful happiness but some dirty blood.

It was only in the face of life and death that she suddenly realized how ridiculous the mentality that she used to care about so much and couldn't let go was.

She couldn't let her life down!

Every ordinary day was so precious.

They didn't have as much time as she'd thought. They could not waste it just because they were young.

Even if she felt that he would always wait for her, there could be accidents that would not give them much time. Just like now. If the two of them died like this, there would be nothing left.

The two of them liked each other, but all these years, they had only dared to be friends...

Chapter 1383: The Last Battle (18)

They had never even held hands, nor had they ever kissed or hugged each other. If the two of them died just like that, then...

If she could live on, she would never waste those happy days again!

Life was short. People should live in the present. Just as Xiao Huan had said, things might not go as she thought. She was just feeling inferior and thinking too much.

Children could all be taught. Although some were born with evil intentions, if this person lived in a loving family and lived happily, they might not do anything bad. What would happen to a child would depend on family education!

Besides, there were too few people who were born bad. Just as Xiao Huan had said, she and Xingye were so kind. They wouldn't be so unlucky. Besides, why did she only think about passing on bad things? What if the child inherited the best things from both sides?

Also, even if a child inherited bad genes, their family didn't have such bad genes. Did she have to care so much when it was all in the mind?

The more she thought about it, the more Li Meng felt that she was really crazy in the past. Her head was cramping. She kept thinking that way so much that she couldn't let go. She was wasting time and tormenting the two of them!

Sometimes, people were like this. They had some psychological problems that they couldn't let go of. No matter what their friends said to them, no matter how much they persuaded themselves, they couldn't let go. However, one day, they would seem to have been enlightened. They would suddenly become clear-headed and could let go.

Wu Xingye was stunned for a moment. Then, his eyes lit up! He felt that he had instantly reached the pinnacle of his life! His illness had been cured!

He grabbed Li Meng's hand tightly and said excitedly, "Are you serious?"

"Yes, I'm serious." Li Meng nodded heavily.

"I don't believe you!"

Li Meng: "..."

Freaking hell! She had been so touched that she felt like she had become the female lead of a Korean drama!

Amid such a beautiful and romantic scene, she had wanted to cry.

She had such a feeling, but he actually said that he didn't believe her!

“Unless you become my girlfriend now! I’ll only believe you if you become my girlfriend now!” What if she was only touched for a moment and her mind went blank? She must be a little muddle-headed from the fever. If it was only because her feelings had surpassed her rationality that she said such things, what if she turned hostile and refused to acknowledge them after they recovered?

He had to make sure now that she couldn’t go back on her words!

“Right now, we don’t even know if we can survive!” What if they died?

“It’s precisely because we don’t know that we have to do it now! If we become a couple now and then die, it can be said that the two of us have dated before we died. We won’t have any regrets. Otherwise, think about it. If we die and we never even dated, how awkward and embarrassing would that be?! We’re already so old, yet we haven’t dated! Haven’t you heard that male and female ghosts are so regretful that they can’t reincarnate?”

Li Meng: “...”

She knew that what he’d said was twisted logic, but she actually felt that what he said made sense! If they couldn’t be saved and they didn’t fall in love before they died, it would be too regretful for them!

“But...”

“But what? This way, even if we die, we won’t have any regrets. And if we live, you won’t lose out! You said that if we live, we’ll live together! We can clearly die without regrets, and we won’t lose anything in life.. Why do we have to die with regrets?” Wu Xingye’s face was full of happiness. Why did they have to have regrets?

Chapter 1384: The Last Battle (19)

Li Meng thought so too. She clearly didn’t have to have such regrets. Why did she have to take the risk of dying? Besides, she had already decided to let go of that mentality and be with him. Why was she still conflicted about whether she should be with him now or in the future?

The more she thought about it, the more she felt that she had no reason to oppose him!

“Alright! From now on, we’re a couple! But let’s make it clear that you were the one who wooed me! From now on, don’t say that I was the one who wooed you!” With him like this, it was very likely that he would use this situation to make things difficult for her in the future. He would say that she felt that she was about to die and begged to be his girlfriend. Hmph!

“I was the one who chased you! I was the one who cried and begged while kneeling down to chase you!” Wu Xingye said as he pounced on her.

He was too excited! He had to hug and kiss her!

“What... what are you doing...” Li Meng widened her eyes in shock.

What was he trying to do?! This was a ward! And she was infected!

“I’m infectious!” Wasn’t she sick?! Was it appropriate for him to be like this?

“You make it sound like I’m also not infected!”

Li Meng: “...”

Freaking hell! That seemed to be the case!

There was no young girl who did not yearn for love, and Li Meng was also a young girl who did. This was especially so for her, who loved reading romance novels and watching Korean dramas. She especially liked the romantic atmosphere. She had thought of many romantic scenes of her first kiss, but she had never thought that her first kiss would be like this. In this ward, the two of them did not know if they could be saved or if they could live.

However, just as he had said, even if she died now, she... would have no regrets...

The nurse, who was wearing three layers of protective clothing, came to inject them, but when she saw this scene, she...

Suddenly, she didn’t know if she should be envious that the two of them were sick. They didn’t have to be afraid of infecting each other. They could even fall in love and kiss each other. They weren’t like them, who had to be cautious at work every day, especially when they enter such a ward. They had to wear such thick protective suits...

Once an epidemic broke out, the nurses and doctors would become warriors who stood at the front line and risked their lives to work every day.

Country F...

“Haven’t you found Bo Junyan yet?” Ling Wei frowned.

A week had passed since they discussed taking the opportunity to take Bo Junyan’s life last time. Bo Junyan could only be in Country F, but they could not find a person who was about to die of illness there! This was unbelievable!

“Yes.” Sen Da also felt that this was unbelievable. Country F was not big, and Bo Junyan had even collapsed after being infected. With such an infectious disease, it was impossible for him to have moved to another place, but they could not find him no matter what!

This was especially so bizarre since he had sent someone to assassinate Bo Junyan that same night. He was not at his original residence at that time. This was too...

“That Mu Huan is really capable!” Ling Wei knew that Mu Huan had thought that they would take the opportunity to do something to Bo Junyan, so she hid him.

It was just that she was too capable. She could actually hide someone in Country F, and Sen Tai and Sen Da’s forces could not find her even if they joined forces!

“It’s impossible for her to have such capabilities. It might be because she’s working with the leader.” Sen Da’s eyes darkened.

“Leader? Isn’t the leader sick?” Ling Wei frowned.

They had also made a move on the leader that day.. The leader now had a high fever and was unconscious. How could he have joined forces with Mu Huan?

Chapter 1385: The Last Battle (20)

“Right now, everything is being handled by the leader’s eldest son. It must be him and Mu Huan working together.” Though something had happened to the leader, there was his son.

Speaking of which, the leader’s eldest son was the same. Previously, they couldn’t find him no matter what. The leader had just fallen sick when his son came back. The protective measures had still not been in place. But even now, he was still fine!

After a moment of silence, Ling Wei said, “This situation makes me feel that something is amiss. I think we have to tamper with the leader and Sen Tai’s medicine and make them die quickly! Otherwise, we might end up with nothing!”

“Yes.” Sen Da also felt that it was best to have them die first.

“Also, we have to kill this eldest son. If we keep him around, he’ll be a huge scourge!” If something happened to the leader, the eldest son would be the most legitimate successor. If they didn’t get rid of the roots, they would die if the other side counterattacked. Also, if they killed all these important people, Sen Da’s chances of safety in the future would be highest.

“I’ve already gotten someone to do it.” Sen Da had long thought of this. Hence, he had already sent someone to assassinate this nephew. However, this nephew of his had more bodyguards than before. Those few assassination attempts had failed.

“It looks like he came back because he was prepared.” Ling Wei was smart. She knew that he had already sent someone to do it. It meant that it had been carried out. He had already sent someone to assassinate the leader’s eldest son. But this eldest son was still fine. In other words, the assassination plan had failed.

“This really makes me feel bad!” The leader’s eldest son wouldn’t die, which meant that he was very strong. If Mu Huan joined forces with him, it would be very difficult for Sen Da to become the biggest person here. If he didn’t have a chance, then she... would be in a dangerous situation!

Ling Wei instantly became frustrated. Her request was very simple. She wanted Bo Junyan and Mu Huan to die quickly! She only wanted them to die! But now...!

Under such circumstances, if she couldn’t get them to die, once they survived this virus, she would definitely die! And it would be a very thorough death!

She, Ling Wei, was treading on thin ice. She had carefully changed her face and endured so much humiliation to live until now. If they were to kill her in the end, all her hard work and humiliation would be wasted. And she had endured disgust for so long!

She...!

She couldn’t think about it. The more she thought about it, the more Ling Wei wanted to explode!

"I want the two of them to die! No matter what price I have to pay, no matter what! I want them to die! Even if I have to perish with them! I want them to die! I definitely can't let them live!"

Ling Wei could not accept that Mu Huan and Bo Junyan might escape this disaster again! They had to die!

"Calm down," Sen Da said.

"I can't calm down! If they don't die, we'll be the ones to die! Believe me, I know them too well!" For no reason, Ling Wei knew that this was her last life-and-death battle with Mu Huan and Bo Junyan. Once she lost this time, she would have no chance!

Hence, this was the best and last opportunity to kill Bo Junyan and Mu Huan! Once Bo Junyan and Mu Huan passed this hurdle, they would immediately counterattack!

The two of them were ruthless. They were becoming stronger, and she...

This was the last step.

This was her last step. If she was ruined and there was no way out, she would hate it!

She hated Bo Junyan and Mu Huan so much for making her go this far!

Chapter 1386: The Last Battle (21)

Her beautiful life had become like this!

If it weren't for them, how good would her life have been?!

She wanted them dead! She wanted them dead!

"I know that too, but we can't find him right now. We can't do anything about it," Sen Da said helplessly. He knew that if he let Mu Huan and Bo Junyan live, they would definitely spoil his big plans. But what could he do if he couldn't find him?

Ling Wei wanted to say, "You're really useless!" However, she forced herself not to say it. "Let's increase our efforts to find him. Also, we can investigate from the medical aspect. Bo Junyan is sick. They'd have to use medicine to treat him."

"Yes." Sen Da did not need her to say anything. He had already investigated in this direction, but he did not find anything.

However, he was afraid that she would lose control and lose her composure, so he did not tell her the truth.

Suddenly, Ling Wei thought of something. "By the way, don't you have a team to mobilize? And you have heavy weapons in your hands!"

"Yes."

"Get them to attack Mu Huan's laboratory directly!" Since they couldn't find Bo Junyan and couldn't find a chance to secretly kill Mu Huan, they would directly attack and destroy Mu Huan and the laboratory!

“That’s impossible!” Sen Da said without thinking. He wouldn’t do such a thing just because she wanted Mu Huan to die.

“Why? You clearly know that if Mu Huan was still alive, she...” Ling Wei didn’t understand why he wouldn’t make a move. If he kept Mu Huan alive, she would definitely kill him instead and make him waste his efforts!

“The team in my hands is much worse than the one in the hands of the leader’s eldest son! Furthermore, everyone knows that Mu Huan and the top experts from various countries are in that laboratory researching how to deal with this virus. If I send people to attack, what will happen?”

What he wanted was to be the leader, not to become a street rat that everyone wanted to beat up and the public enemy of various countries!

“But if Mu Huan doesn’t die...”

“No buts. Don’t think too much. You can just go back and focus on your work. I’ll handle the other matters!” Sen Da interrupted her.

Ling Wei suppressed her anger and said, “I think Mu Huan is very capable. If you wait for her to develop the drug, forget about using this opportunity to get a good reputation and become the leader. You’ll completely lose everything!”

“It’s impossible for Mu Huan to have such capabilities!” No matter how capable she was, it was impossible for her to develop a drug to treat this virus in such a short time!

“Believe me, she can do it!” Although Ling Wei hated Mu Huan, she could not deny her talent in pharmaceutical studies. Hence, she was especially afraid that Mu Huan would successfully survive this crisis.

That was why she was so anxious just now and could not control herself from losing her rationality.

She couldn’t lose this round no matter what!

Ling Wei was very smart. A smart person would usually be able to think of how they could end up earlier. Because she thought too clearly, she had lost her usual calm. Bo Junyan and Mu Huan just had to die! Just as she had said, she was even willing to die with them!

“Absolutely impossible! This virus is the newest around! No matter how talented a person is, it’s impossible for them to develop an effective drug to suppress it in a short period of time!” Sen Da also felt that Mu Huan was very formidable and talented in pharmaceutical studies, but he felt that she couldn’t be so formidable.

“You’re too afraid and anxious!” He felt that Ling Wei wanted Bo Junyan and Mu Huan to die too much.

Chapter 1387: The Last Battle (22)

She was so obsessed that she had lost her rationality.

“It’s not that I’m afraid or anxious. It’s just that I have this premonition. If we don’t take action now, everything will be over soon!” Ling Wei had this premonition, and her premonition was rarely wrong.

“Although theoretically speaking, it’s a little impossible to do it in a short period of time, you have to know that Bo Junyan and Mu Huan’s friends are on the verge of death. She had to withstand such a crisis, so it will boost Mu Huan’s potential even more. These past few days, she must have been researching desperately. Furthermore, she’s immune to this virus. She’s the best experimental subject. She really might be able to develop a cure in the near future!

“Besides, she has even teamed up with so many well-known experts! Three lousy craftsmen are comparable to a master, let alone those who are very talented! With everyone’s strength, even the most impossible feat can become possible!” With so many formidable people gathered together, what was impossible?

Furthermore, at the end of the day, this virus was only a virus that could cause a person to have pneumonia and eventually respiratory failure. It was not an incurable disease like cancer or AZ. Its cure was definitely not something that could not be developed in a short period of time.

“And Mu Huan is good at Chinese medicine, and Chinese medicine is very profound. Last time, when a global epidemic broke out, Chinese medicine had been very useful. Your virus this time must have been extracted and mutated from that virus, right?”

Sen Da: “...”

It was true.

This virus was a mutation from the last one. He had made it stronger.

“So, believe me, it’s really possible!”

“Even if I believe you that she might really be able to develop an effective drug in such a short period of time, what can we do? No matter what, Bo Junyan can’t be found right now, and Mu Huan can’t be killed by force like that.” Although Sen Da didn’t want to say such things, he was indeed at his wit’s end now.

Bo Junyan could not be found.

The security at Mu Huan’s laboratory was tight. He had no chance to do anything.

Besides, he wasn’t sure if Mu Huan could develop an effective drug. Right now, they were just scaring themselves...

“Are we not going to do anything right now and just wait?” Wait for Mu Huan to develop an effective drug to save Bo Junyan and then come over to kill them?

“I’m not doing nothing. I’ve already sent many people to look for Bo Junyan,” Sen Da said.

“Mu Huan must die. You could use such a team to attack her, but you won’t. I’m telling you, after Mu Huan has developed that drug, she will kill you!” Because Ling Wei was angry and anxious, she was no longer polite to Sen Da.

Sen Da frowned. “I said that’s not possible.”

Ling Wei knew that no matter what she said, he would not change his mind. This made her eyes turn cold. "One day, you'll regret not listening to me today!"

If he were to attack now, even if everyone would want to beat him up, he would still have a chance to win. Once Mu Huan and Bo Junyan were fine and joined forces with the leader's son and Lin Tai to attack him, he would definitely die.

Her words made Sen Da's expression darken in unhappiness. "You're the one who wants Mu Huan to die so much that you don't care about the consequences!"

"Ha..." Ling Wei sneered.

"I'll get someone to send you back."

"No need. I'll go back by myself," Ling Wei said as she stood up and left. When she reached the door, she suddenly turned to look at Sen Da. "I can already see the outcome of your failure."

Chapter 1388: The Last Battle (23)

He didn't know how to be flexible. He kept thinking that she was merely obsessed with killing Bo Junyan and Mu Huan. He forgot that the two of them were already on the same boat. If he died, she would only be worse off than him.

Her words made Sen Da's expression turn even darker. However, he was about to say something when Ling Wei left.

This made his expression turn even darker and uglier. If it weren't for the fact that she still had some use for him, he would have long killed her!

Ling Wei left Sen Da's place and went straight to the hospital. When she arrived, Sen Tai had just woken up.

When he saw her, he grabbed her gloves tightly.

Then, he looked at her with endless love and reluctance.

Sen Tai was really good to her.

He was someone who treated her better than her father.

However, she didn't like how good he was. Even if he liked her, it wasn't because she was Ling Wei.

It was this face.

It was because of this face that he treated her so well. That was why he was so infatuated and in love with her.

At the thought of this, Ling Wei laughed at herself.

She, Ling Wei, was real.

She really never thought that one day, she would end up like this.

She, Ling Wei, was such a high and mighty existence. She was the center of attention wherever she went.

But now...

Which wrong step did she take in her life?

It was Mu Huan!

It started when Mu Huan appeared. If it weren't for her, she would never have ended up like this! If it weren't for her...

She was indignant!

If she couldn't make Mu Huan die, she wouldn't be willing to die!

The more she thought about it, the more indignant she became, and the more she couldn't just sit there and wait for death. Ling Wei leaned toward Sen Tai and whispered into his ear, "Where's your seal?"

With his seal, she could mobilize his men to attack Mu Huan's laboratory!

Sen Da was so afraid, but she wasn't!

As long as Mu Huan could die, she would do anything!

"It's..." Sen Tai obediently told her where the seal was.

At this moment, in Country F's highest-level laboratory.

"Professor Mu, take a rest." Mu Huan's assistant asked her to take a rest. She had not rested for three days in a row. If this continued, her body would not be able to take it.

"I'm fine." Mu Huan waved her hand, telling the assistant not to waste their time.

"But..."

The assistant wanted to say something else.

An excited voice rang out from the group.

Mu Huan hurriedly went over, and the assistant followed.

"How is it?" Mu Huan asked impatiently.

"This... After this X-containing drug was dripped, a third of the virus died instantly..." Professor Sam said excitedly.

Mu Huan clenched her fists in excitement. "That's great!"

"Although the effects of this drug to the human body would not be as direct as in the laboratory, using it can also greatly suppress the deterioration of the patient's condition. Once I do a set of experiments, I can immediately get a patient to use this drug!" Professor Sam said.

It could effectively suppress the progress of the illness. In other words, with such a drug, most people who were sick could temporarily have their condition stabilized and would not be in danger.

This made Mu Huan heave a sigh of relief. She felt dizzy for a moment, but she only swayed for a bit before quickly stabilizing herself.

“Mu Huan, go and rest. You haven’t had much rest for the past week. The last time you rested was three days ago, right?”

Mu Huan had hurriedly brought in many NST experts. Everyone was familiar with each other.

Chapter 1389: The Last Battle (24)

“When your experiment is done and confirmed, I’ll go and rest.” Mu Huan knew that if she were to collapse, it would only delay the progress of the experiment. When it was time to rest, she had to rest.

“Yes.” Professor Sam did not say anything else. He knew that she knew her limits.

Professor Sam’s last set of experimental data showed that the drug was indeed effective and had very small side effects.

At this point, Mu Huan was also done with her work. She got another group of experts to rest and wake up before continuing with the rest of the work.

Then, she called Professor Yan and asked him to change Bo Junyan’s treatment plan.

When she was video-calling Professor Yan, Bo Junyan happened to be awake. After Professor Yan finished speaking, he took out his phone and asked the two of them to video-call.

Bo Junyan, who had been having a high fever for a week, was very weak at this moment. Mu Huan’s eyes turned red as she looked at him. “Hubby, you’ll use a new treatment plan. Your condition will stabilize soon. Believe me, I’ll make you completely recover soon!”

“I believe you. You know my current situation is pretty good... Rest well... Don’t be too anxious...” Bo Junyan didn’t expect that he would be killed by a virus. Now, he couldn’t even get out of bed, and his wife had to work so hard to think of a way to save him and protect him.

Although Bo Junyan had been having a high fever these past few days, he knew about the changes in the surroundings.

His mind was clear when he was awake.

He knew that Mu Huan was afraid that Ling Wei and Sen Da would attack him while he was sick. She had spent a lot of effort to have him recuperate in such a safe place.

“Okay, I’ll go to sleep now. We’ll meet again soon!” Although Mu Huan couldn’t bear to say goodbye to Bo Junyan, time was her life now. She had to quickly rest and continue working.

“Hurry up and go...” Seeing her tired state, Bo Junyan knew that she must have not rested for a few days.

She was not only busy with research, but she was also busy with many other things.

“Love you, Hubby!” With that, Mu Huan hung up the video call.

Bo Junyan could only say to the darkened screen, “I love you, Wifey.”

“CEO Bo, have a good rest.” Professor Yan put down his phone and was about to leave.

“Professor Yan, why do you think... my wife is fine? Why did I get knocked down by such a virus?” Although Bo Junyan was also a doctor, he could not accept that he would fall ill at such a critical moment.

He didn't want his wife to have to protect him and make her work so hard and become so tired.

Professor Yan: “...”

Where did the wise and brilliant CEO Bo go? He had asked him this question a few times.

“My constitution is so good... I'm so strong...” As far as he could remember, Bo Junyan had really never caught a cold. But now, he had fallen sick on the bed and dropped the ball at such a critical moment!

“CEO Bo, it might be because your body is usually too good that your immune system didn't have the chance to get activated. Hence...” Professor Yan had answered his question a few times before. He couldn't always answer the same question. Hence, this time, he found another possibility.

“My wife... rarely falls sick...” His wife was also very healthy. Other than that cold, she had never caught a fever or the flu.

Bo Junyan didn't want Mu Huan to get sick, but he couldn't accept that he had been knocked down by the virus.

Chapter 1390: The Last Battle (25)

“Perhaps because Professor Mu is in the field of medicine, she usually takes a lot of Chinese medicine, and she's quite good at poison. Although the poison in Chinese medicine is different from the virus in Western medicine, if it changes into a chemical molecule...”

Professor Yan no longer cared about the rigorous science. He tried his best to find a reasonable excuse to convince Bo Junyan.

“Besides, it's still a fact that all humans are different. There are records in human history and up to the present were, no matter what kind of plague or epidemic it is, no matter how many people get infected, there would still be people who won't get infected and would be fine.” Many people were born immune to some viruses.

Bo Junyan wanted to say something else, but he was already exhausted. The darkness in front of him let him know that he was about to fall asleep again. This made him especially dissatisfied with his body!

At such a critical moment, it was so useless!

Country Y...

As Yu Hansheng had been staying at home these past few days to think about what to do, the people he was close to rarely came into contact with outsiders. Hence, he and the people around him were fine.

Initially, he'd felt that this was only a sudden influenza outbreak. This kind of fever was present every year. However, as the situation became dire and Bo Junyan collapsed, this made him realize that the epidemic this time was not ordinary, especially since more and more people in Country Y were suffering from this illness.

He couldn't help but worry about Ouyang Xiaoxiao.

And about that jade-like little person.

Sometimes, this blood relationship was really indescribable. Previously, when he found out that Ouyang Xiaoxiao was pregnant, he couldn't accept her pregnancy and how she'd give birth to the offspring of his enemy. He couldn't tolerate the birth of that child and its existence. But now, after he saw such a small child, even if he didn't know how to face him, he couldn't hate him no matter what. What more if he killed him and made him disappear from this world?

He couldn't help but use Mu Huan's words to persuade himself. Ouyang Xiaoxiao was innocent, and their child was innocent. He shouldn't keep thinking about the spread of his enemy's bloodline. This was a crazy thought.

However, every time he was about to convince himself, the guilt in his heart would surge, saying that he couldn't do this!

That was the daughter of the enemy who had killed his parents and his grandson! If he were to be with them like this and be happy, wouldn't he let his deceased parents down?!

How could he...

This torture had been tormenting him since he fell in love with Ouyang Xiaoxiao.

Like corroding maggots...

Just like now. He was clearly very worried about the mother-and-son pair and wanted to take them and have them live in his safest abode, but...

He had thought about it for three days, but he did not go out and did not take action.

He seemed to have two extreme personalities in his mind. One was very worried and wanted them to be well, and the other wanted both mother and son to die in this plague. This way, everything would be over...

This personality and thinking made him feel scared...

But he could not destroy such thoughts...

On the fourth day, Yu Hansheng finally decided to look for Ouyang Xiaoxiao and her son.

However, when he infiltrated David's castle in the suburbs, he saw a scene that hurt him.

Compared to the panic outside where everyone was afraid, this castle in the suburbs was like a utopia.

It was early autumn, and the weather was refreshing.
