Chapter 116

On the balcony, Saul was drinking red wine. He did not socialize like the others. He disdained these things. If he wanted to develop the Judson family, he had plenty of ways.

A figure stepped onto the balcony. Saul looked up, but when he saw the person, he frowned and looked unhappy.

“Saul, are you interested in discussing cooperation with me?” Alisha smiled. Although she was not as beautiful as Elaina, Alisha was also charming.

In New York, not only Elaina was popular. If not for the fact that everyone knew that Alisha liked Jalen, there would have been a lot of people pursuing her.

Saul finished the glass of wine in one gulp and then asked with an insincere smile,

“Cooperation? What is there to cooperate with you about?”

“Of course, there is something we can cooperate about,” Alisha said.

She walked up to Saul, and the fragrance of her body drilled into Saul’s nose, making him feel very uncomfortable.
