

Falling 119

Chapter 119

After the oxygen uptake in Zayden's body increased, his condition obviously improved.

Elaina breathed a sigh of relief. Zayden should be able to hold on until the ambulance arrived.

At this moment, she was completely focused on Zayden and did not notice that the way people looked at her had changed.

Ten minutes later, the ambulance arrived. Elaina was about to get into the car with the medical staff, but Jalen asked her at that moment, "You are going too?"

"I'm the only one in the hospital who can do this operation." Her voice was faint, and there was no extra emotion in it.

Without saying anything else, Elaina got in the ambulance and disappeared from everyone's sight.

After they left, someone whispered, "Who exactly is this Elaina? She is not only Jalen's ex-wife but also Mr. Dorthea's last disciple. Now, she is actually the most famous neurosurgeon at Northwestern Memorial Hospital. She is awesome.

Ordinary people could have one of the identities, but she had multiple identities.
