

## Falling 160

### Chapter 160

Elaina came out of the police station and then called Andrew. "Andrew, help me look for someone's information."

Then, she messaged Lucian's name to Andrew. Although Elaina knew that she couldn't possibly find any evidence, she still wanted to know why Lucian would work for Alisha. Then Elaina put away her phone and took a taxi to the hospital.

There had been too many things going on recently, so Elaina took a few days off from the hospital.

Now that the matters were almost settled, it was time for Elaina to go back to work.

Regarding Alisha, Elaina believed that Theodore and Saul would settle everything and deal with Alisha. Elaina believed the Lory family would soon go bankrupt.

Things turned out just as Elaina expected. After what Marcus did to Elaina, Theodore and Saul became even more ruthless towards the Lory family, not giving them any chance to take a break.

For a time, everyone in New York noticed the crisis of the Lory family. Some people even began to fear and cancel their cooperation with the Lory family.

Many followed suit, and soon more and more business opportunities for the Lory family were gone. The Lory family was already exhausted from dealing with Theodore and Saul. Now that they were faced with many clients canceling their cooperation, they wore themselves out, lost several projects in a row, and had a great deficit of over 160 million dollars.

In the Lory's house, Ernesto was having a headache as their company's stock price kept falling.

– "Dad, is the situation really that bad?" Alisha was not stupid. Although she was upset with Ernesto's

partiality to Marcus, Alisha did not want the Lory family to go bankrupt.

After all, she wanted to take charge of the Lory family at its glorious time, not when it had
