Chapter 171

Without waiting for Elaina to reply, Alisha continued, "Jalen brought me back to have dinner. After all, we are a family in the future, so we naturally have to interact more. Ms. Gainsford, don't *you* agree?"

"Ms. Lory, you are asking the wrong person. I am not interested in whether you are a family." Elaina rolled her eyes at Alisha, then turned and walked into the living room, ignoring the two people behind her.

Elaina did not say a word to Jalen, nor did she look at him. Elaina seemed to treat Jalen as an invisible person.

"Jalen..."

"Can't you just shut up?" Jalen turned his head to look at Alisha, and his voice was extremely cold.

He was in a terrible mood, especially when he saw Elaina's indifferent look. He almost couldn't help but rush up to Elaina and ask.

Alisha felt the coldness from Jalen, which was bone-chilling and made people tremble.
