The only person Elaina was worried about was the teenager who was only sixteen years old. She did not know if he could accept such a cruel truth.

Elaina received a call this morning. The police had already asked everything from Jessica and knew what she had planned.

Jessica really hated her stepson. She had wanted him to die more than once, but she had never succeeded before.

So, she planned a car accident yesterday. She did not expect that the child was so lucky that he was fine with a little injury.

This made Jessica dissatisfied, and she did not intend to give up.

Jessica took the opportunity to send her stepson to the hospital and wanted him to die during the operation. In this way, she could make the child disappear and extort a sum of money.
