Chapter 66

The conversation between the three people was heard by Elaina. She quickly understood some things.

Someone had spent money to kidnap her. They didn't want to kill her, but to do something filthy to her. Elaina, who woke up, analyzed calmly.

There were only three people in the van. Elaina guessed she could beat them up.

She thought of the dizzy feeling when she was kidnapped and felt weak all over, realizing that she had been

drugged.

When she went out today, she only had dinner with Jenica in the restaurant. She was kidnapped as soon as she left the restaurant. This meant that she was drugged while she was at the restaurant.

The reason why she was still in the mood to think about this was that she did not take the three people seriously. What she had to do was to find the person who had hired them.

The car stopped. Just as someone reached out to hug Elaina, she pretended to wake up.

"Who are you? What do you want to do?" Elaina pretended to be frightened. Because her eyes were covered,

the three of them could not see the coldness in her eyes.

Seeing her like this, the three of them relaxed their vigilance and said with a smile, "Beauty, don't be afraid. We don't want to kill you. We will make you comfortable."
