## Chapter 74

Jalen was chased out by Elaina. He stood at the door and looked at the closed door, feeling helpless.

He sighed and turned to leave.

In the living room, Elaina had a sullen face. She kept tapping on the keyboard. Soon, all the information about the Lory family was presented to her.

She looked through the information with a serious expression.

Just as Jalen had said, the Lory family and the Dunston family were not on the same level. It was not easy to

deal with them.

Anyone who dared to make a move against Elaina had to be prepared for revenge.

In the Lory family's villa, Marcus called his father again, "Dad, what is Jalen trying to do?"

"How would I know that the woman has a connection with him?" Marcus muttered, "Besides, I didn't do anything to that woman."

"Fine, fine, fine. Then hurry up and ask him. I will go crazy if I am not allowed to go out."
