### **Chapter 801: Snake in the Grass**

After spending a day with their child, Xiao Lingyu and Gong Tianhao went back to work the next day.

Gong Tianhao flew back to the capital while Xiao Lingyu was still preparing to open a branch.

...

At this moment, Xiao Lingye found himself in trouble.

In a small forest on the campus of Imperial University, a man and a woman seemed to be discussing something.

“No, I can’t do that!” A man’s voice sounded, “This company is built on his technology. Without him, there wouldn’t be the company we have now.”

The woman’s voice was soft and seductive as she asked in a low voice, “Susu, do you like me?”

Susu’s face immediately turned red. Before he could answer, the woman said confidently, “You must like me, right? Because I’ve noticed that every time I appear in front of you, your eyes light up. I know that it’s a look of admiration.”

Susu, “...” His thoughts were exposed. His eyes were filled with shame and a hint of anticipation.

The woman looked at Susu and said seductively, “I promise you. As long as you chase Xiao Lingye out of your company, I’ll be your girlfriend, okay?”

Susu’s eyes immediately lit up but then dimmed again. He shook his head vigorously and refused, “No, I can’t do that. If I do that, I’ll become a traitor and be scolded by others.”

However, as soon as he finished speaking, his lips touched a layer of softness.

The woman kissed him directly.

.....

It was this softness that made him feel like he had eaten a poppy. He was intoxicated and deeply immersed in it.

A moment later, the woman let go of his lips and asked with a bewitching smile, “Susu, do you believe me this time? Don’t worry. As long as this matter succeeds, we can do more than kissing.”

At this moment, the man could no longer resist the temptation. He softly replied, “Alright!”

..

An emergency meeting was being held within Teng Fei Tech Company.

The shareholders and higher-ups attended the meeting, including Xiao Lingye and his five initial partners.

At this moment, everyone’s expressions were a little serious.

Someone immediately questioned sharply, "Xiao Lingye, you've always been in charge of technology development. Why is it that our latest technology is now being patented by our competition, Li Fei Tech? Aren't you going to give us an explanation?"

With that, he tossed the information in front of Xiao Lingye.

Xiao Lingye flipped through the information. It was all about the content of the new technology that he had recently developed, but Li Fei technology company had registered it first and published the relevant information to the public. Xiao Lingye pursed his lips tightly and frowned. Then, a ruthless light flashed in his eyes.

Before he could speak, another partner sharply questioned, "Xiao Lingye, have you betrayed us? Did you sell all the new technology to our competitor for the money?"

"That has to be it." Someone added, "After all, you can claim all the money for yourself if you do this. Instead of having to share it with the rest of us."

"Xiao Lingye, we know that you came from the countryside and value money very much. But you can't do such a treacherous thing, right?"

"Xiao Lingye, when the company was founded, you didn't pay a single cent, but you became a major shareholder. But now, as a major shareholder, you betrayed the company for such a small benefit. Is your conscience gone?"

### **Chapter 802: Xiao Lingye's Counterattack**

Faced with the criticism of his partners, Xiao Lingye flipped through the information in his hands. His face became darker and darker. Then, he slammed the information together and said calmly and loudly, "I didn't sell the technology."

"How is this possible?" The five partners said in disbelief, "You're the only one who has access to them. If you didn't sell them, then who did? Who else has the ability to obtain these technologies from your hands?"

Qiao Ruoyang harshly rebuked, "Xiao Lingye, you are in charge of the company's technology. So, regardless of whether this new technology was sold by you or not, you have a responsibility that can not be shirked. Moreover, you are the only person who knows how to handle these new technologies. So who can the traitor be but you?"

"Xiao Lingye, what else do you have to say?" Pang Dayue shouted and questioned.

Su Yang advised with some good intentions, "Lingye, tell us, do you have any difficulties? If you need some emergency funds, you can tell us. There's no need to do this."

Xiao Lingye looked at each of them coldly. They did not even investigate but instead, put these groundless accusations on him. What good partners they were.

Xiao Lingye closed these documents and revealed a cold smile. He said, "It sounds like you've already convicted me of this crime in your mind."

He looked at his partners with an ambiguous smile.

Seeing his expression, the five partners were slightly shocked.

Then, Su Yang immediately shook his head and said, “Lingye, that’s not what we mean. However, it’s true that only you can access these new technologies. Other than you, who can the traitor be?”

Xiao Lingye glanced at him, then shook his head with a smile and said, “Then tell me, what do you all want now? Do you want me to pay for it? Or do you want me to be out of the company?” His last sentence seemed to have another meaning in his tone.

When Su Yang and the others heard this, their hearts pounded. Their eyes seemed to drift with guilt. They did not dare to look directly into Xiao Lingye’s eyes as if they would be seen through by him.

The five partners looked at each other and did not say anything. But the meaning was very clear. They wanted to chase Xiao Lingye out of the company.

Xiao Lingye used his mind to take up 20 percent of the shares when the company started. The other five had invested, and they had 16 percent each. When the company was founded, everyone knew that technology was the most important. Xiao Lingye alone took up a fifth of the shares. No one had any objections.

As the company grew bigger and bigger, the issue of distribution slowly made these partners feel indignant.

Why was Xiao Lingye able to take up 20% of the company’s shares without giving them anything?

Even though Xiao Lingye had contributed a lot to the development of the new technologies for the company, so what?

If Xiao Lingye didn’t have them to invest in the company, he would still be a poor country bumpkin.

Now that the company was big enough, they could do without Xiao Lingye. They could hire another technician to take his place. After all, they didn’t need a shareholder who would take the money but didn’t invest any.

Xiao Lingye glanced at them and nodded with a cold smile. “I understand now. You want to chase me out of the company, right? That’s why you came up with this whole project.”

The five partners were shocked and looked at Xiao Lingye in disbelief.

Xiao Lingye ignored their expressions and said with a cold smile, “It’s not that easy to chase me out, but I don’t want to stay in this rotten company anymore. I will sell my shares directly. Any of you can buy my shares as long as you offer a price that I’m satisfied, but I will only sell my shares to two people. If none of you want to buy them from me, I’ll sell them to the highest bidder outside. Consider this wisely!”

With that, Xiao Lingye left!

### **Chapter 803: Scheming!**

After Xiao Lingye left, the faces of the five partners who were left behind were abnormally ugly and embarrassed.

The five of them looked at each other and immediately looked away, a guilty look flashing in their eyes.

Then, Qiao Ruoyang snorted with disdain in his eyes, "He thinks he's so great. But he's just a farmer. Without the support of my funds, what can he do?"

"That's right!" Dai Yimin agreed, "When he asked us to partner with him, he said that he only cared about the work. But now, he's refusing to let go of his shares. He's greedy."

Pang Dayue said, "It's good that he's leaving. Now that the company has money, we can hire a new technical director."

Su Yang, on the other hand, seemed to be a little embarrassed as he asked, "How did he find out we were behind this?"

This show was designed by the five of them. The purpose was obviously to drive Xiao Lingye out of the company so that they could get their hands on his shares.

As soon as Su Yang's words fell, the other four people immediately fell silent.

Indeed, how did Xiao Lingye tell? They thought that their plan was flawless.

Chu Xiangbei thought for a while and said, "No matter how he saw through it, as long as he can't produce any evidence, he can't do anything to us. But, at least, he is self-aware. He knows that we don't welcome him, so he's leaving voluntarily!"

"Right, if we can make him quit voluntarily, we don't need to waste our efforts to deal with him," Dai Yiming said. "He is a real coward."

"But he said that he'd only sell his shares to two people," Su Yang said.

This was the main point. Xiao Lingye would only sell his shares to two of them. Obviously, he wanted the five of them to fight for it.

Back then, when the five of them had schemed against Xiao Lingye, they had agreed that Xiao Lingye's shares would be divided equally. But they couldn't have that now.

Everyone wanted the shares. Whoever bought Xiao Lingye's shares would be the company's largest shareholder and have the greatest power in the company. So, who would back out?

Everyone had their own selfishness and greed.

This was especially so when one had the taste of money.

"Back then, we agreed that we would split Xiao Lingye's shares equally," Pang Dayue said first. "How about this? I'll buy his shares first. Then I'll sell them to you guys."

"No way!" The other four rejected him.

"In that case, you should let me buy them, and then I'll share them with the rest of you!"

Then, they argued until their faces turned red.

At this moment, Su Yang suddenly said, "Actually, we don't need to spend money to buy them."

When the four heard this, they were momentarily stunned.

Su Yang's lips curled up, and he said with a faint smile, "Don't forget, what Xiao Lingye sold was not only new technology but also trade secrets? Once we report him leaking trade secrets, he'll have to give us his shares even if he doesn't want to. Otherwise, what awaits him will be the destruction of his reputation."

When Su Yang said this, the four of them were stunned again, and then they reacted.

Then they laughed out loud.

"Haha, the calmest water is the most dangerous. Su Yang, I thought you were the kindest one, but you were actually a wolf in disguise!"

"Aren't you supposed to be Xiao Lingye's good brother? You didn't even hesitate to stab him in the back. Haha..."

### **Chapter 804: Xiao Lingye's Dilemma**

Xiao Lingye did not know that his partners were planning to scheme against him after he left. But he could guess as much.

Over the years, he could feel the changes in the mindset of his partners, the drive of their interests, and the expansion of their ambitions.

However, he thought the years of friendship would stop them. Reality proved that friendship was nothing before benefits.

"Sigh!" Sitting on the flower bed, Xiao Lingye's face was full of disappointment, but at the same time, he let out a sigh of relief.

In the future, he would no longer be trapped in this rotten friendship.

These people had schemed against him because they saw that the company was getting bigger and bigger in his hands. In terms of the distribution of interests, they wanted more.

However, what disappointed him was that these partners could have talked to him if they felt the distribution of shares was unreasonable. For the sake of friendship, he was willing to give up the shares in his hands. Xiao Lingye didn't lack money at all. Therefore, he did not care about the shares he had. He just wanted to accumulate experience.

But these people...

Xiao Lingye sighed again and shook his head lightly, "Forget it. If they want it, then so be it."

Since they plotted against him for the sake of profits. It was meaningless for him to stay in this company.

However, Teng Fei Tech grew up in his hands. It was like his child. He really could not bear to part with it.

Xiao Lingye was a little conflicted.

In the midst of his indecision, he gave Gong Tianhao a call.

.....

“Brother-in-law!” Xiao Lingye called out in a low voice.

Gong Tianhao, who was reading through the documents, could tell that there was something wrong with Xiao Lingye’s tone.

He put down the pen in his hand, took the phone, and walked to the window. He asked in confusion, “Ye ‘Er, what’s wrong? Is it a love problem? Did you fall out of love? Don’t worry. I’ll introduce a better girl to you. Ye ‘Er is so outstanding. You’re only worthy of the best girl.”

“...” Xiao Lingye was speechless. “Brother-in-law, I don’t even have a girlfriend, so how am I supposed to fall out of love?”

Gong Tianhao said in surprise, “How is it that you don’t have a girlfriend yet? You’re so outstanding.”

“...” Xiao Lingye said, “Brother-in-law, I plan to set up a business before starting a family. I won’t date before I have a career.”

Gong Tianhao said in amusement, “Dating won’t delay your career. Look at your sister. Didn’t her career only get better after she got married and had children?”

Xiao Lingye thought for a moment. His brother-in-law was not wrong.

“Wait.” Xiao Lingye was distracted and forgot about the main matter. “Brother-in-law, I’ve encountered a problem. I don’t know how to make a decision, so I want to consult you.”

Then, Xiao Lingye told Gong Tianhao about the current situation and the conflict in his heart. Then, Xiao Lingye asked, “Brother-in-law, what should I do now?”

Gong Tianhao was silent for a moment, then asked seriously, “Ye ‘Er, are you really willing to let go of the company?”

Xiao Lingye was silent for a moment, then replied seriously, “I’m not willing. The company is my child. Which parent would be willing to let their child go?”

Gong Tianhao nodded and said, “This is it. Why should you give your child to others?”

Xiao Lingye’s eyes immediately lit up. He nodded and said, “Yes. Thank you, brother-in-law.”

“You’re welcome!” The corners of Gong Tianhao’s lips curled up. “If you need help, let me know. I’m your brother-in-law and your family. Your matters are my matters, understand?”

“I understand.”

## **Chapter 805: Gossip!**

“Shuyu, do you think this is okay?” In the small forest, Su Yang asked earnestly, “This will fully crush Xiao Lingye!”

Jiang Shuyu’s eyes lit up, and she said excitedly and happily, “It’s wonderful! You have to step on a proud person like Xiao Lingye to completely defeat him.” Jiang Shuyu lifted her feet and kissed Su Yang’s cheek. She said sincerely, “Su Su, I really didn’t misjudge you. The only person who can defeat Xiao Lingye is you.”

After being praised by his goddess, Su Yang immediately became proud, like a proud rooster. He raised his head, and a confident light flashed in his eyes as he said, "That's right. Xiao Lingye can't be compared to me at all!"

Little did he know that when he said this, a sarcastic and contemptuous look flashed in Jiang Shuyu's eyes. However, she echoed, "That's right. That Xiao Lingye is only slightly better looking. He can't be compared to you. Why should he be the largest shareholder in your company? That's simply unfair. Now that your company has grown stronger and is rich, you can totally pay a little money to hire professional technicians. That'll be cheaper!"

Su Yang nodded and said, "That's right. That's our plan."

Jiang Shuyu nodded and said, "Alright then. We'll just wait for Xiao Lingye to be kicked out of your company. His dignity will be trampled on, and he'll look like a beaten dog."

"Yuyu, don't worry. You'll see that in two days!" Su Yang said confidently.

Just as Jiang Shuyu was about to say something, her phone rang. When she saw the caller ID, a guilty look flashed across her eyes. Then, she immediately picked up the call. Without waiting for the other party to speak, she quickly said, "Wait for me. I'll be there soon!"

Then, she hung up the phone. Jiang Shuyu immediately showed an apologetic expression to Su Yang and said, "I'm sorry, Su Su. I have an appointment with my best friend to go shopping. I..."

When Su Yang heard that, although he was a little unhappy, he still said generously, "Go, go. We can reschedule. But we won't be disturbed on our next date, right?"

"Of course!" Jiang Shuyu smiled and said, "We'll definitely have a good date next time!" She kissed Su Yang and left immediately.

After she left the campus in a hurry, she went to the coffee shop nearby.

"Shuyu!" Qiao Ruoyang smiled and pulled out a stool for her in a gentlemanly manner.

.....

Jiang Shuyu said with a smile, "Ruoyang, you've been waiting for a long time, right? Sorry, I was delayed by something on the way just now."

Qiao Ruoyang sat opposite her and said very gently, "No matter how long it takes, I'm willing to wait!"

Jiang Shuyu smiled and said, "Ruoyang, you are so sweet. Does that mean you're willing to wait for anyone?"

Qiao Ruoyang was slightly stunned, then he shook his head and said, "Haha, the only woman that I'm willing to wait for right now is my Goddess!"

...

Xiao Lingye waited for two days, but his five partners talked to him about buying shares. Instead, he heard all sorts of rumors and slanders directed at him in the school.

“No, that’s impossible. How could senior Xiao Lingye be such a traitor?”

“I don’t believe it either. But his friends told everyone. Senior Xiao Lingye sold the company’s secrets, and there’s even evidence!”

### **Chapter 806: Power and Influence**

Xiao Lingye directly ignored the rumors and slanders directed at him on campus.

The corners of his mouth curled up. It was obvious that this was set up by his good partners.

“Ye, what exactly is going on?” His roommate, Hu Dongjun, asked Xiao Lingye in puzzlement.

Xiao Lingye raised his eyebrows and asked with a smile, “Do you believe those rumors too?”

Hu Dongjun immediately said, “You already said that those are all rumors. Besides, the three of us have been in the same dorm as you for three to four years. We know what kind of person you are.”

His roommates An Ran and Ning Junpeng nodded in unison and said, “We only believe in you.” Then, the three of them asked in unison, “Tell us. What’s going on?”

Xiao Lingye spread his hands and shrugged his shoulders. He said indifferently, “What can it be? It’s just a small scheme designed by them to kick me out of the company.”

The three of them were shocked and immediately understood.

“So, your partners are trying to get rid of you, right?” An Ran immediately asked.

Xiao Lingye nodded and said, “Yes, you can say that!” Then he said, “Two days ago, I agreed to quit the company and just sell them my shares. I didn’t expect that they would come up with this plan instead. It seems that they want to tarnish my reputation. They want to get the shares from me without paying a single cent.”

“They’ve gone too far. They’re simply dreaming!” Ning Junpeng said indignantly.

“Ye, what are you going to do now?” An Ran asked worriedly, “The rumors on campus are ridiculous. Even if we want to clarify it, it’s hard without real evidence.”

The four of them did not come from good families. They came from the countryside, but their grades were good. Xiao Lingye was better than them in terms of looks, eloquence, and ability. Otherwise, he would not have been called the model student.

.....

In the face of these rumors, they were helpless. On campus, not everything was based on results. Sometimes, the influence was very important.

The few people who co-founded the company with Xiao Lingye had a certain amount of family influence in Beijing.

Hu Dongjun also asked worriedly, “Ye, have you thought of a solution?”

Seeing that his three roommates were really worried about him, Xiao Lingye laughed heartily and said, "You've known me for so long. Do you think I'll be defeated by these rumors?"

After saying this, he gave each of them a pat on the shoulder and said, "Don't worry, we'll deal with whatever comes our way. I have a way to resolve this matter."

He had already found the real evidence. Even if he couldn't solve this, he still had his sister and brother-in-law behind him.

If they wanted to turn this into a competition of background, he really wanted to see who could be his match.

Of course, unless it was absolutely necessary, he definitely didn't want to expose his relationship with Gong Tianhao.

When the three roommates heard this, they smiled with some relief and said, "Since you're so confident, then we can put down our worries. Ye, we believe in you and will definitely be able to handle it."

"Good brothers, thank you." Xiao Lingye said with a smile.

#### **Chapter 807: Where Did his Confidence Come From?**

Xiao Lingye did not take any action for the time being. He was still indifferent to the rumors and slanders on campus. He did what he was supposed to do. He started to get used to people talking behind his back.

"I can't believe that the talented senior Xiao is such a treacherous person."

"You can't judge a book by its cover."

"But, I don't really believe that Xiao Lingye is such a shameless person." Someone defended, "There must be some misunderstanding."

"What misunderstanding could there be?" Someone sneered, "Do you do think his five partners joined hands to frame him? If only one or two of them said this, it might be a frame job, but five of them said the same thing. How can it be false?"

"But... that doesn't sound right." Some people still firmly believed that Xiao Lingye was innocent. These students had not yet stepped out of society and had not participated in the workplace, and their evaluations were all based on their own subjective perceptions.

In comparison, Xiao Lingye, Qiao Ruoyang, and Su Yang started their company in their sophomore year. The other students were merely tools to be used. Of course, these naive students naturally did not know.

As Xiao Lingye was rushing out of the cafeteria to eat, Jiang Shuyu suddenly jumped out and blocked his way.

She said to Xiao Lingye with a face full of disappointment, "Mr. Xiao, I didn't expect you to be such a person. It's really disappointing. You have such good looks and a righteous appearance, but in the end,

you're a villain! To think that I've always admired you!" She used this chance to drive up her popularity too.

When Xiao Lingye saw Jiang Shuyu appear, he frowned. She was there to add insult to injury. Instead of being angry, he laughed, "Miss Jiang, other than being from the same school, we are not related. What kind of person I am has nothing to do with you at all. Therefore, I don't care if you are disappointed in me." With that, his expression changed, and he said in an unfriendly tone, "Please move aside. I'm in a hurry to eat."

Jiang Shuyu was stunned, but her eyes revealed a look of disbelief. She thought that Xiao Lingye would be defeated by the rumors. But that was clearly not the case.

'It shouldn't be like this.'

Jiang Shuyu clenched her fists in anger. The sharp nails on her thumb were almost embedded in her flesh.

.....

'No, it shouldn't be like this.'

She looked at Xiao Lingye as he left, revealing a resentful gaze.

Who would have thought that Xiao Lingye would suddenly turn around and say indifferently, "Oh, right, Miss Jiang, please tell my partners that if they don't come out and buy the shares in my hands, then I'm very sorry. I'm going to sell those shares to someone else. I'll give them at most two hours to consider. After two hours, if I don't see them, then I'll directly sell my shares."

Without waiting for Jiang Shuyu and the surrounding students to react, he left!

Holy shit!

Even now, Xiao Lingye was being so arrogant!

Where did his confidence come from?

### **Chapter 808: The Real Winner**

At night, Xiao Lingyu sat in front of her makeup table. She was about to remove her makeup and get ready for bed.

"So, Ye 'Er's trouble this time is all because of a silly woman?" Xiao Lingyu was speechless.

Gong Tianhao stood behind Xiao Lingyu and bent down to hug her waist. He leaned his head on her shoulder and nodded with a smile, "That's right. This is what had happened."

Xiao Lingyu rolled her eyes and laughed, "What nonsense."

She thought that their fate had been changed and her brother wouldn't be betrayed by his partners again. After all, she was there to guide him this time. And he had completely different partners. However, the incident still repeated itself. But this time, it was all because of a woman.

In her previous life, although she did not know why Xiao Lingye was betrayed, she believed the betrayal was due to money and benefits.

With her brother's ability and all the shares he owned, he would definitely make those people jealous.

Xiao Lingyu asked, "What's the background of that woman? She has a great ability to convince those men to betray Ye 'Er. They probably didn't even know that they'd been tricked by this woman."

Gong Tianhao curled his lips and said, "They are too foolish." He paused for a moment and continued, "That woman is from a side branch of the Jiang family."

"The Jiang Family?" Xiao Lingyu said with some doubt, "Jiang Tao's family?"

"Which other family can it be?" Gong Tianhao said with some displeasure, "I wonder what enmity the Jiang family has had with us in our past lives. It seems that the Jiang family is involved in all our troubles. This time, it has even involved Ye 'Er."

Xiao Lingyu was silent for a moment.

The first time, their car accident was caused by the Qin family's Qin Yan. However, that was because of Young Master Jiang.

.....

The second time, Green Fresh was caught in the rumors. They were framed. The main culprit was Jiang Tao's fiancée.

Now, Xiao Lingye was framed by someone from the Jiang family too.

Perhaps they did have an enmity with the Jiang Family in their previous life.

Xiao Lingyu thought for a moment and said, "Is Ye 'Er alright now? He didn't even tell his sister about such a big matter." As she said this, she couldn't help but show some worry.

Gong Tianhao leaned on her shoulder and looked at the handsome man and beautiful woman in the mirror. He smiled and comforted her, "You don't have to worry. Ye 'Er is a grown-up now. He will handle it himself. Don't worry. Little Brother is very smart. He won't be so easily set up. We'll just wait and see. Besides, if it gets worse, we'll help from behind. Trust me. No one can bully little brother."

Xiao Lingyu nodded and said, "That might be true, but you don't know how ruthless a woman can be when she's crazy."

Qin Yan was just like that. No one would have thought that such a high-profile socialite in the capital would be capable of causing a car accident and killing someone.

Gong Tianhao thought of this as well. He said, "Don't worry, I've already sent people to keep an eye on that woman from the Jiang Family. We'll just wait and see how little brother deals with this on his own first."

As he said this, his thin and sexy lips directly touched the tip of Xiao Lingyu's ear. In a gentle and sexy hoarse voice, he said, "Yu 'Er, it's very late. We should rest!"

...

The school beauty goddess, Jiang Shuyu, intercepted Xiao Lingye to express her dissatisfaction and disappointment. Instead, she was embarrassed by Xiao Lingye.

“Damn. What does senior Xiao mean by that?” A classmate said in surprise, “Why would he need the Goddess to be his messenger?”

Someone seemed to have seen through the truth. However, in order not to offend anyone, he did not expose the truth.

“Senior Xiao will sell his shares in two hours,” a classmate said in disbelief, “I heard that the market value of Teng Fei technology company is now 20 million. And senior Xiao has 20 percent of the company shares. In other words, senior Xiao can get at least four million for his shares. He’s a millionaire!”

“This is quite disheartening. We are still asking for school fees and living expenses, but senior Xiao’s net worth is already over a million.”

“I heard that when senior Xiao started the company with a few other people, he didn’t contribute a single cent.” The person said this with a sour note. “He sure is lucky.”

Someone immediately retorted, “Someone sure is sour. Senior Xiao has both luck and ability. Let’s see you do the same. A loser won’t understand.”

“Who are you calling a poor loser?” He asked angrily.

“The loser is the one who answers.” The person sneered.

“You...” he was angry and didn’t know how to refute.

“But, what exactly does senior Xiao mean by those words?” Someone asked doubtfully.

“Who cares what he means. Let’s just wait two hours and see the result.”

“Obviously, it’s one against five now.” Someone sighed and said, “I don’t know if senior Xiao can win. After all, those rumors and slanders put him at a disadvantage.”

...

Just as everyone was speculating, Qiao Ruoyang, Su Yang, and the other three were gathered in the conference room, looking anxious.

They had received Xiao Lingye’s message, not via Jiang Shuyu but through their other friends.

The five of them were originally from Beijing. Their family owned a company and had some money, so there were a lot of people who wanted to befriend them.

“What does Xiao Lingye mean by those words?” Dai Yimin said with a very angry expression, “He was clearly the one who sold the company’s business secrets. We’re being kind for not pursuing responsibility, but he’s threatening us!”

The other four people were silent for a moment.

“Xiao Lingye said that he will sell the shares in his hands in two hours,” Qiao Ruoyang said seriously, “If we don’t buy these shares, who will he sell them to? Could it be that he has been contacting the bosses of the other companies these past few days?”

“That’s impossible,” Pang Dayue said suspiciously. “I heard that Xiao Lingye has been staying on campus for the past two days. Who did he contact?”

“No matter how rich the bosses are, they won’t buy millions of shares over a phone call. They have to at least meet him in person.

“However, Xiao Lingye has been staying on campus and has never left.”

“Then, this is strange!” Chu Xiangbei lowered his head and looked at the time. “No matter what, the question now is, what should we do now?”

Regardless, he wouldn’t let someone else buy Xiao Lingye’s shares and take the position of the major shareholder.

Therefore, the shares in Xiao Lingye’s hands could only be bought by the five of them.

Originally, they had planned to make Xiao Lingye lose all his reputation. Then, they would force Xiao Lingye to give up his shares for free.

But what they did not expect was that no matter how fierce the rumors outside were, Xiao Lingye’s attitude was steady and firm. Xiao Lingye was unfazed.

“Xiao Lingye said that we only have two hours.” Qiao Ruoyang thought for a moment and said, “If we don’t do anything, he’ll sell his shares to someone else.”

“What can we do?” Pang Dayue said with some ridicule, “What kind of scheme can we come up with in just two hours anyway?”

“Our goal is to drive him out of the company directly,” Dai Yimin said. “I think we shouldn’t play any tricks and just buy the shares in his hands directly!” The problem he was worried about was they would lose more if they played any more tricks.

“Buy the shares directly?” Pang Dayue said with a cold snort, “But who among us will buy them? No matter who, no one will be convinced. I had already offered to buy the shares and then split them among us. However, none of you agreed. So what should we do now?”

The four nodded, but each carried their own thoughts.

### **Chapter 809: Intense Quarrels and Confrontation!**

Qiao Ruoyang and the other three knew that Xiao Lingye was a man of his word.

If he gave them two hours, they would have two hours.

In these two hours, if they had not made a choice, then he might sell his shares to someone else.

Although they didn’t believe a country bumpkin could get another buyer other than them, they couldn’t underestimate him.

The five of them discussed this issue, but they could not come to a conclusion in a short amount of time. The five of them were angry and anxious.

Other than the five of them, there was another person who was angry and anxious.

It was Jiang Shuyu. She thought that Xiao Lingye's reputation would have been ruined by now. Anyone with even a little self-respect would have been defeated. They might not even be able to recover.

However, Xiao Lingye rose above the rumors and slanders. Looking at Xiao Lingye's nonchalant expression, she was filled with hatred and anger. She wished that she could skin Xiao Lingye alive. She wanted to see how he could be so confident.

'No, I cannot allow Xiao Lingye to sell his shares. He can only give them away and not sell them. If he sells them, he'll get at least four million. He will not suffer any loss at all.'

However, she was in public. She couldn't contact her people, let alone discuss countermeasures with them. Moreover, the five of them were together. If she contacted one of them, she would be exposed. So what should she do?

Jiang Shuyu was so anxious that she stomped her feet.

"Shuyu, who do you think will buy the shares in Xiao Lingye's hands?" A girl next to Jiang Shuyu raised her head slightly and asked curiously, "There are a lot of rich and powerful students on our campus, but their money is still controlled by their families. They have to rely on their families if they want to buy his shares."

Jiang Shuyu suddenly stopped and looked at the female student. "Ran Ran, what did you say just now?"

.....

Ran Ran was slightly stunned, then she said, "I said, who would buy the shares in Xiao Lingye's hands?"

"No, that's not it."

"There are a lot of rich and powerful students on our campus, but their money is still controlled by their families. They have to rely on their families if they want to buy his shares."

This female student repeated what she had just said and said with sparkling eyes, "Teng Fei technology company is a very promising company. In just two years, it has become a medium-sized company with more than 20,000 RMB in assets. If I had the money, I would definitely be willing to buy it."

Jiang Shuyu's eyes suddenly lit up.

'That's right. Anyone can buy Xiao Lingye's shares.'

Teng Fei technology company was indeed a company with a very bright future. If it continued to develop like how it did in the past two years, it would probably be a large company with assets of hundreds of millions in a few years.

Thus, why couldn't she just buy the company?

She didn't have the money to buy it, but her family had money.

She believed that her family also had high hopes for the company.

Xiao Lingye had the most shares among the six of them, and he was also the company's largest shareholder. He had the greatest say.

If she bought it, she would be the company's largest shareholder. In the future, she would slowly absorb the shares from the others. Then, the entire company would be hers.

When Teng Fei Tech grew bigger, she would be able to make the people of the Jiang family look at her differently. In the future, her status in the Jiang family would be higher and higher.

The more Jiang Shuyu thought about it, the more satisfied she was.

The female classmate beside her kept chattering, but Jiang Shuyu directly interrupted her and said, "Ran Ran, I have something to do, so I'll leave first."

Then, without waiting for Ran Ran to react, she left.

She ran to a secluded corner and secretly called home.

When the family heard Jiang Shuyu's analysis, they immediately felt that her idea was not bad. Her father felt that he could buy this company and give it to her daughter. What if she could really make something of it? Then, their branch might occupy a certain position in the main family.

"Shuyu, don't worry. It's only four million. I'll definitely buy it and give it to you!" Father Jiang said straightforwardly.

Jiang Shuyu said happily, "Thank you, Papa!"

Father Jiang said again, "Contact that Xiao Lingye as soon as possible. I'll be there soon!"

Jiang Shuyu replied with a smile, "Okay, Papa!"

After hanging up, Jiang Shuyu immediately sent a message to Xiao Lingye. After she sent the message, she couldn't hide her excitement.

If she really bought the shares in Xiao Lingye's hands, she would be a person with a company in the future. If she walked out, she would be envied by others.

She anxiously waited for the other party's reply.

However, time passed bit by bit. Fifteen minutes had passed, but there was still no reply. She slowly understood what was happening.

Jiang Shuyu gritted her teeth and growled, "Xiao Lingye, just you wait!"

Since there was no reply, she called Xiao Lingye directly. As the call was connected, it was disconnected again. The other party hung up the phone.

Jiang Shuyu was mad. She tried again but was hung up again.

She tried five or six times in a row. After being hung up five or six times, she was so angry that she almost threw the phone in her hand out.

“Xiao Lingye!” Jiang Shuyu gritted her teeth. Then, she took a deep breath to calm herself down. Since he didn’t return her messages and didn’t answer her calls, she could only go to him personally. Although it was a little insulting to her dignity, it was nothing compared to the company.

...

Xiao Lingye was eating in the cafeteria when he saw his phone ringing. He took it out to take a look and realized that it was an unfamiliar number. It said that it wanted to buy his shares.

He only curled the corners of his lips and ignored it.

Regarding the shares, he had his own arrangements.

He did not expect that when he did not reply to the message, the person would call.

Xiao Lingye did not even think about it and directly hung up.

If Jiang Shuyu knew that her calls went unanswered because her number was not registered on Xiao Lingye’s phone, she would be so pissed.

Xiao Lingye looked at the time. It had been half an hour. He was very curious about what his former good friends would do.

Would they buy his shares or...

There was a new message.

Xiao Lingye opened his phone to take a look, and the corners of his mouth immediately curled up.

His roommate asked curiously, “Ye, is there any update?”

Xiao Lingye did not hide anything and said directly, “Nothing. Someone just sent a message saying that they want to buy the shares in my hands.”

His roommate nodded and asked again, “Then, do you really want to sell the shares in your hands?”

Xiao Lingye smiled and said, “If I don’t sell them, I have to continue to work with them unless I can buy the shares in their hands or change the shareholders.”

When his roommate heard that, he immediately shook his head and said, “That’s unlikely.”

Xiao Lingye did have a little money, but this amount of money was not enough to buy all of their shares.

Besides, a discerning person could tell that Teng Fei technology company had a bright future. In the future, they might even have hundreds of millions of assets.

Therefore, who would be so foolish as to sell their shares?

Xiao Lingye listened to his roommate and only smiled faintly.

The reason why Teng Fei technology company had become what it was that day was because of his technology and management.

Without him, the company...

He was not in a rush.

As soon as Xiao Lingye returned to his dorm, he was told that the counselor was looking for him.

"Ye, I don't know why the counselor is looking for you at this time," his roommate said worriedly. "You should be careful!"

This counselor was a snob. In his eyes, Xiao Lingye was a country bumpkin from the countryside. Therefore, his attitude towards him was arrogant and superior.

Xiao Lingye didn't take this counselor seriously.

Xiao Lingye went to the office to look for the counselor. There were other people in the office. One was the dean, and the other was the vice principal.

Xiao Lingye frowned slightly. It seemed that there was some trouble.

"Principal Liu, director Guo," Xiao Lingye greeted them one by one, "Counselor."

The counselor asked in a sharp voice with an ugly expression, "Xiao Lingye, do you know why we are looking for you?"

Xiao Lingye shook his head and asked in confusion, "I don't know! Counselor, why are you looking for me?"

Looking at Xiao Lingye's expression, the counselor was furious. He pointed at Xiao Lingye and said sharply, "How dare you pretend? You are indeed a sanctimonious animal..."

"Counselor!" Before the counselor finished his words, Xiao Lingye's expression darkened, and he said seriously, "What did I do wrong that you need to scold me like this? Is that what an educator should do?"

Xiao Lingye could not tolerate the counselor anymore. He was basically scolding his parents by calling him an animal.

"Principal Liu, director Guo, are you going to let an exemplary counselor insult a student?" Xiao Lingye turned around and questioned the two of them, "Even if I did something wrong, it should be handled by the police and not this person."

The counselor was stunned, then pointed at Xiao Lingye with a livid expression, "You..."

Xiao Lingye's gaze was very sharp as he said, "Counselor Zhang, don't blame me for not respecting you. It was you who did not act like a counselor first!"

The counselor said angrily, "Xiao Lingye, you are not worthy to be a student of our imperial capital university. You are a treacherous and sanctimonious villain!"

Xiao Lingye immediately questioned in a stern voice, "Counselor, you can't say whatever you want! What evidence do you have to say that I am a perfidious villain? If not, then I will sue you for slander!"

Xiao Lingye usually tolerated this counselor as much as he could. But now that this counselor had crossed his bottom line, he did not need to endure anymore.

Seeing Xiao Lingye being so aggressive, director Guo spoke up, "Student Xiao Lingye, someone has reported you for secretly selling your company's new technology and leaking trade secrets! Even though this is a matter of your company, you are still a student, after all, and it involves a moral issue. Imperial university cannot tolerate a student with bad conduct!"

Xiao Lingye smiled and asked, "Oh, then may I ask, director Guo, do you have evidence to prove that I sold the company's new technology and leaked the company's business secrets?"

"You're still trying to quibble!" The counselor said angrily, "The rumors of this have spread even to the other campuses. You still don't know how to repent. To think that you're our model student!"

Xiao Lingye said very seriously, "Rumors and slander don't mean that there's real evidence! Counselor Zhang, I'm just asking for evidence. How can it be a quibble? Counselor Zhang, do you have evidence to prove it?"

"Evidence?" Counselor Zhang suddenly said with confidence, "Your partners are the evidence."

Xiao Lingye curled his lips and thought to himself, 'Ah ha.'

Instead of being angry, he laughed and said, "Oh, they are the evidence. Alright then, call them over, and we'll have a confrontation with them. What do you think?"

Instructor Zhang was stunned.

Even principal Liu and director Guo couldn't help but be confused as they looked at the composed Xiao Lingye.

'This Xiao Lingye is too steady and calm.'

Counselor Zhang reacted and said, "Alright, just you wait. I'll call them over!" Then, he went out to make a call.

Not long after he returned to his room, Qiao Ruoyang and the others came over.

Seeing them enter, Counselor Zhang's attitude changed drastically.

With a smile on his face, he said with a fawning expression, "Classmate Qiao, classmate Chu, you're here!"

Then, he said with a fierce tone, "Xiao Lingye, didn't you say that you want to confront them? Well, since they are here, let's see what tricks you can come up with!"

Xiao Lingye's sharp gaze swept over them, and he nodded. Then, he said with a smile, "Alright. We'll get this started. If I don't have this confrontation, I might be trampled under the feet of some people."

Qiao Ruoyang and the others lowered their heads slightly, feeling a little guilty. But in their hearts, they thought to themselves, 'Why is it that even now, Xiao Lingye is still so confident?'

They had bad feelings in their hearts.

Director Guo looked at the five students who came in and asked very seriously, “Five students, you reported that Xiao Lingye sold your company’s new technology secretly and leaked the company’s secrets. This involves a student’s character. Please explain it properly. What evidence do you have to prove that Xiao Lingye did that?”

Actually, director Guo had some doubts in his heart.

He had heard that Xiao Lingye had the most shares in the company and was the company’s largest shareholder. Moreover, the company was flourishing. There was no need for him to make such a stupid move, right?

Furthermore, as a dean of Imperial capital university, he got to know Xiao Lingye’s character over the past few years.

However, the rumors were spreading too much. Even if director Guo and president Liu did not believe it, the matter had already been reported to the school. They had no choice but to step in.

Xiao Lingye raised his lips and asked with a smile, “Qiao Ruoyang, Su Yang, Counselor Zhang said that you have evidence to prove that I sold the company’s new technology and leaked the company’s secrets?”

At this point, he paused for a moment, and then his expression changed. He said in a serious tone, “If you don’t show me real evidence, I will never let this go. The rumorson campus these past two days are cutting. But I was not affected because I’m innocent!”

When he said that he had no guilt, his tone was powerful and righteous!

The faces of Qiao Ruoyang and Su Yang changed slightly.

Qiao Ruoyang looked at Xiao Lingye with his sharp eyes and said with conviction, “Xiao Lingye, those new technologies are only in your hands. Other than you, none of us know about them.”

“So, this is the evidence you are talking about?” Xiao Lingye found it funny and asked, “Your subjective perception is the evidence? That’s funny. I don’t think that will hold up in court.”

The five of them instantly fell silent.

Director Guo and principal Liu didn’t look too good!

‘What nonsense evidence is this? This is simply a joke.’

Principal Liu said with a very serious expression, “Qiao Ruoyang, if you don’t have evidence to prove Xiao Lingye’s bad character, then your company’s matters will be handled privately. The school will not interfere!”

Su Yang suddenly said, “Principal Liu, I’ve confirmed with Li Fei technology. They said with certainty that the person who sold them the new technology was Xiao Lingye. Is this evidence enough?”

Yup, that would be enough... if it was true.

## **Chapter 810: Sharp Questioning**

After hearing Su Yang, principal Liu, director Guo, and the others were all shocked.

Director Guo asked very seriously, "Student Su Yang, can you guarantee that what you said is the truth?"

Xiao Lingye's gaze swept over Su Yang's face, and his eyes narrowed.

A dog that didn't bark was one that would bite.

Usually, Su Yang was his best friend.

But he didn't expect that at the crucial moment, his brother would stab him in the back instead.

Su Yang ignored Xiao Lingye's gaze and said very seriously, "Director Guo, of course, I can guarantee that what I said is the truth."

Director Guo nodded and said, "In that case, in order to prove that student Xiao Lingye's character is indeed questionable, we can only ask student Su Yang to invite the witness over!"

Su Yang nodded and replied, "Alright, director Guo. I'll call him over now."

After Qiao Ruoyang and the others heard Su Yang's words, their faces were filled with surprise.

They did not expect Su Yang to be so resourceful. He had arranged the plan so perfectly.

As long as someone from Li Fei technology company appeared, the matter of Xiao Lingye selling the company's new technology and leaking the company's secrets would be settled.

After that, Xiao Lingye's reputation would truly be ruined.

Su Yang said, "Director Guo, principal Liu, I'll invite them over now. Please wait a moment."

Principal Liu nodded and said, "No problem!"

Su Yang walked out of the office and went out to make a phone call.

Then, the counselor said proudly, "Xiao Lingye, that sounds like your death toll. When the people from Li Fei technology company come, you'll be dead for sure!"

Xiao Lingye did not care for the man's sarcasm. His expression was still calm and composed, no different from before.

Chu Xiangbei narrowed his eyes and asked in confusion, "Xiao Lingye, aren't you afraid?"

Looking at Xiao Lingye's expression, he felt that something was wrong, but he did not know what.

Xiao Lingye curled his lips and said sarcastically, "Afraid? Why should I be afraid? However, you guys have definitely put a lot of effort into this. But..." Then, he stopped.

He wanted to see how this would end.

'Don't blame me later. You are the ones who were unrighteous first, so don't be calling me heartless later.'

He had given them a chance. As long as they obediently paid for the shares in his hands, he would save their reputation.

But, it was clear that his former partners wanted to ruin him completely. So Xiao Lingye had no reason to hold back anymore.

His sister once told him, “We want to be kind people, but we are not good people with no bottom line! Our kindness is just not taking the initiative to hurt others. If people don’t offend us, we won’t offend them. But if they do, we will definitely return the favor!”

What his sister told him had always been his creed in doing things.

Qiao Ruoyang and the others were happy that Su Yang had made sufficient preparations to destroy Xiao Lingye’s reputation. But seeing how unworried Xiao Lingye was, their hearts suddenly jumped with unease.

Could it be that Xiao Lingye would turn defeat into victory?

How was this possible?

Did he have such great ability?

Just as Su Yang went outside to make a call, Xiao Lingye’s sharp gaze swept over his former partners and asked coldly, “Why are you all so ruthless towards me? Is it because of my mere 20% of shares? Or is there another reason?”

A guilty look flashed across Qiao Ruoyang and the others’ faces.

The look soon disappeared, but it was still caught by the shrewd principal Liu and director Guo.

The two of them narrowed their eyes at the same time and looked at each other.

However, to the two of them, the matter between Xiao Lingye, Qiao Luoyang, and the others were ultimately a matter of the company’s interests. It was an internal conflict and had nothing to do with the school. Therefore, they would not meddle with it if they could.

Qiao Ruoyang pretended to be calm and explained, “What do you mean by that? Xiao Lingye, what nonsense are you talking about? You clearly did something wrong. How can you blame us?”

Xiao Lingye twitched the corner of his lips and said with a half-smile, “Oh, is that so?”

Then, he stopped questioning.

Since the friendship between the six of them was already like this, there was no need for him to sympathize with them.

Xiao Lingye sighed softly in his heart and thought to himself, ‘Money and women will change every man.’

A moment later, Su Yang came in and said, “Principal Liu, director Guo, Manager Zhang said he would be here soon.”

Director Guo and principal Liu nodded.

Xiao Lingye saw Su Yang come in and looked at him with a half-smile. Then, he asked sharply, “Su Yang, I have never done anything to you. How can you be so cruel to do something like this?”

Both the questioning earlier and now showed that Xiao Lingye was disappointed in them.

Being questioned by Xiao Lingye, Su Yang's eyes flashed with guilt. Then, he said righteously, "Ye, what do you mean? You made it sound so scary. From the establishment of the company to the development of the company, it has always been the result of the concerted efforts of the six of us. However, we didn't expect that you would actually sell out the company's benefits for a small amount of money. This has disappointed us too much."

Su Yang was quite a good talker. He deflected the question, but he was very sharp in pointing out Xiao Lingye's mistake.

Xiao Lingye narrowed his eyes when he heard this.

He had really underestimated Su Yang.

This person was not only shrewd but also sharp-tongued.

Why didn't he realize this before?

Su Yang was such a good actor. In the past, as long as he coaxed Xiao Lingye, he would be able to sit at home and get paid. However, now that money and women came into play, his true colors were revealed.

Xiao Lingye sighed softly in his heart again. Then, with a calm expression, he said in a calm tone, "Oh, is that so?"

Then, he stopped talking.

When the counselor saw this situation, he was very excited. He pointed at Xiao Lingye with an excited expression and said loudly, "Xiao Lingye, when that manager Zhang arrives, you will be dead for sure. At that time, let's see how you'll explain yourself." Not long after, Xiao Lingye's reputation would be ruined. And imperial university would not tolerate students with bad conduct, even if this student was outstanding in his studies, strong in his abilities, and overflowing with talent. In the future, he would not have to see this annoying Xiao Lingye anymore.

When Xiao Lingye heard this, he asked in amusement, "Counselor Zhang, I have never offended you. Ever since you became my counselor, I have also treated you with great respect. Why do you hate me so much? What benefits will you get from this? Or did someone ask you to treat me like this?"

Xiao Lingye also felt like he didn't have to give face to this counselor anymore.

When Counselor Zhang heard this, his expression changed. He shouted loudly as if he wanted to use a loud voice to hide his guilty conscience. "Xiao Lingye, is this how you show respect to your teachers? You have slandered my name! What have I done wrong? I merely want to correct your bad character. Also, don't slander people at will. What benefits have I received? Who have I received benefits from?"

Xiao Lingye curled his lips and said, "Who knows!"

"You..." Counselor Zhang was so angry that his face alternated between green and white. Then he thought of something and revealed a smug smile on his face as he said, "You can show off now. In a while, manager Zhang from Li Fei technology company will come over. Let's see how you'll die then!"

As he said this, his eyes lit up as if he saw Xiao Lingye prostrating on the ground like a dog, begging for forgiveness and begging to stay in school.

When director Guo and principal Liu saw Counselor Zhang's ugly appearance, their eyes narrowed as if they were deep in thought.

There were already many students and teachers gathered outside the office.

They had all received the news and specially came over to watch the confrontation.

Su Yang had specially made two phone calls outside to let everyone know that Teng Fei technology's sworn enemy, Li Fei Tech, would come to testify that it was Xiao Lingye who had sold the new technology to them.

If this matter were confirmed, Xiao Lingye's reputation would be ruined in an instant, and he would be expelled from the school. For students who were expelled from Imperial University, no company or enterprise would want them.

Xiao Lingye's future would be gone. Then, he might have to run back home to the farm. Some would enjoy this very much.

However, many people noticed that Xiao Lingye was calm and composed. They also felt that it was very strange.

The students and teachers outside began to discuss.

"Could it be that the rumor is true? As the general manager of Teng Fei technology company, Xiao Lingye betrayed the company's interests?"

"Looking at the current situation, it's obviously the truth. His nemesis company is even willing to testify. I really can't believe that student Xiao Lingye is such a treacherous person."

"Xiao Lingye is now a businessman. A businessman seeks profits, and their hearts are dark. Haven't you heard of that?"

"But I never thought that Xiao Lingye would turn into such a person," someone said in surprise.

"The matter hasn't concluded yet, so let's not jump to conclusions. Look at Xiao Lingye. Can you see a hint of fear and panic in him? I don't think so. This means that there must be something fishy about this matter. And we all know that student Xiao Lingye has always been courageous and resourceful." Someone countered.

"Come on. I think Xiao Lingye is just too scared to react."

After all, no student was not afraid of their future being destroyed.

"Alright, let's wait and see!"

...

While the students were discussing, manager Zhang of Li Fei technology company, who was called over by Su Yang, hurried over. A very young man came with him.

This young man looked familiar to many students, but they couldn't remember where they had seen him before.

"Manager Zhang, you're here!" Su Yang's expression became very cheerful when he saw Manager Zhang.

Then, Su Yang introduced him to principal Liu and director Guo, "Principal Liu, director Guo, this is manager Zhang from Li Fei technology company." He didn't know the other person, so there was no need to introduce him.

Manager Zhang called out respectfully, "Principal Liu, director Guo!"

Principal Liu and director Guo nodded, but their gazes were fixed on the man behind him.

Principal Liu asked curiously, "This is?"

Manager Zhang immediately introduced, "Principal Liu, this is the president of Xun Teng technology company, Lei Junshan!"

"What?" Not only were principal Liu and director Guo shocked, but even the people inside and outside were shocked.

Xun Teng technology company was the leading leader in the country's Internet technology industry, and the President of the company, Lei Junshan, was a legendary figure in the industry.

"Lei Junshan? Oh my God, am I dreaming? Ah, why did you pinch me?"

"To help you realize that you're not dreaming."

"It's really the president of Xun Teng technology company, Lei Junshan. Oh My God, I've finally seen him in person." A classmate shouted excitedly.

"Oh my God, I wonder if I can ask President Lei for an autograph. I admire him the most."

"I also want an autograph from President Lei!"

"Wow, not only is president Lei young and promising, but he also looks so handsome!" A female classmate said with infatuation.

The arrival of the President of Xun Teng technology company, Lei Junshan, simply made everyone boil.

Even Qiao Ruoyang, Su Yang, and the others were obviously shocked. They never thought that manager Zhang would actually bring Lei Junshan here.

Su Yang's eyes lit up, and he looked very excited. He immediately greeted Lei Junshan warmly, "President Lei, hello!" When he greeted him, he extended his right hand. It was obvious that he wanted to shake hands.

The others also secretly wanted to greet Lei Junshan.

However, to everyone's surprise, Lei Junshan ignored Su Yang. Instead, he looked at Xiao Lingye with a friendly smile on his cold face. He took the initiative to greet Xiao Lingye, "Student Xiao, hello, I am Lei Junshan!"

After he said that, he extended his right hand.

Everyone present, "..."

Holy Shit, CEO Lei actually took the initiative to greet Xiao Lingye without being introduced.

Could it be that he had known Xiao Lingye before?

Could it be that Xiao Lingye's name had spread to Lei Junshan's ears?

Xiao Lingye, "... I don't think I know President Lei. I've always admired him too!

Xiao Lingye calmly reached out his hand and shook hands with Lei Junshan. He smiled and said, "Hello, President Lei!"

Lei Junshan smiled warmly and said, "Student Xiao, you are really an outstanding and excellent network technician. I've heard so much about you!"

Xiao Lingye said humbly, "President Lei, you flatter me! I'm just a student. You are the real god!"

It was hard to tell how envious and jealous the others were.

Especially Su Yang, who was ignored by Lei Junshan. He clenched his hands into fists and said hatefully, 'Again and again. Every time Xiao Lingye is around, I will be ignored. Why is that?'

Su Yang's eyes were filled with hatred, but it was quickly covered up.

Then, Su Yang smiled and asked Lei Junshan, "President Lei, why are you here? We are now dealing with the internal affairs of our company."

Lei Junshan nodded and said indifferently, "Well, you guys can deal with that first. After this matter is settled, I still have to discuss the cooperation with student Xiao Lingye!"

With that, he retreated to the side. It was obvious that he was not interfering in their matters.

Lei Junshan's words were like a bomb. Everyone present was stunned.

Qiao Ruoyang and Su Yang were very surprised. They were both angry and unwilling.

How could Xiao Lingye be so lucky?

'Just wait and see. Xiao Lingye will be ruined. After his reputation is ruined, Lei Junshan will not take him anymore!'

Although Su Yang was jealous, he quickly calmed himself down.

He took a deep breath and asked manager Zhang, "Manager Zhang, tell everyone here, did Xiao Lingye sell the new technology of Teng Fei technology company to you?"

Hearing Su Yang's question, everyone looked at manager Zhang.

Su Yang glanced at Xiao Lingye, full of confidence.

Little did he know that Xiao Lingye was looking at him with pure sarcasm and pity.

However, everyone was waiting for manager Zhang's answer.
