

**Chapter 831: Tour Continues**

“After one night of wind and showers, how many are the fallen flowers!”

“Red berries grow in the southern land, in spring they overload the trees.”

“The Southern scenery is now not to forget, but I meet you again when flowers part with spring.”

It was already past midnight. Lei Zongze was still looking for these poems on the Internet. When he found them, he used a pen to write them down and then recited them several times. His memory was pretty good. After reading them a few times, he basically memorized them.

When Mother Xiao woke up at night, she looked through the window and noticed that there were lights outside. She was a little puzzled and walked out to take a look. She found that Lei Zongze’s room was still bright.

At first, she thought that Lei Zongze had forgotten to turn off the lights. However, there was a faint blue light coming from the window. This was a flash from the computer screen. Also, she seemed to have heard a sound coming from the room.

Mother Xiao thought about it and decided to go upstairs to take a look. The closer she got, the louder the sound was. She knocked on the door and asked, “Xiao Ze, are you asleep?”

Lei Zongze rubbed his eyes and opened the door. When he saw mother Xiao standing at the door, he called out naturally, “Mom!”

Mother Xiao looked inside, and sure enough, the computer was still on. She said, “Xiao Ze, are you very busy? It’s so late. It’s time to rest. Your health is important. You can finish your work tomorrow.”

Lei Zongze said a little embarrassedly, “Okay, Mom. I’m going to sleep now! You can go back and rest!”

In this place, he felt warm in his heart when he was constantly being cared for by others.

After mother Xiao left, Lei Zongze patted his chest and heaved a sigh of relief. He said, “I should sleep now. I shouldn’t let others worry.” He picked up the notebook and looked at some of the poems recorded in it. He had basically found all of the flower-related poems, but he hadn’t memorized all of them. However, he could wake up early tomorrow and read them a few more times. He should be able to remember them. When they went up the mountain again, he could play this game with Xiao Letong again.

After waking up the next day, Mother Xiao noticed the dark circles under Lei Zongze’s eyelids. She asked with some confusion, “Xiao Ze, didn’t you sleep? You’ve become a giant panda now!”

.....

Lei Zongze’s expression froze for a moment. Then, he touched his eyes and said, “Oh, is that so? I guess it’s because I slept a little late and didn’t get enough sleep!”

When mother Xiao heard this, she reminded him with concern, “It’s better to sleep early in the future. Your health is more important!”

“Okay, I got it, Mom!” Lei Zongze replied very seriously.

When he was eating breakfast, his eyes lit up when he saw how rich it was.

“This breakfast smells so good!” Lei Zongze closed his eyes and smelled it. He enjoyed it very much.

Every day when he ate, he felt that it was the happiest moment for him.

Seeing Xiao Lingyu eating breakfast, he sat down with a bowl of soy milk and a fried dough stick in his hand. He asked, “Sis, are you going to the company after breakfast?”

Xiao Lingyu nodded while drinking the porridge. “Yes, there are many things to do in the company nowadays.”

Lei Zongze said, “If there’s anything I can help with, feel free to ask. I have some experience of managing a company. After all, I’m helping my brother manage a big company.”

Xiao Lingyu nodded and said, “Okay, I won’t be polite then! Speaking of, why do I hear that there are people bullying newbies at your brother’s company?”

Lei Zongze immediately acted as if he did not know who he was talking about. He straightened his neck and said guiltily, “What? Who did that? It’s not me!”

Xiao Lingyu took a sip of the porridge and said, “Yes. Then it must be Ye ‘Er who is lying. Our little brother Ze is so cute. Why would he bully newbies? Don’t you think so?”

Lei Zongze nodded and said, “That’s right. I’m so handsome and such a cute boy. Why would I do something like that, right, sister?”

Xiao Lingyu said with a laugh, “Yes, it seems that I heard it wrong.”

“Sister, I’ll go to your company later,” Lei Zongze said, “I’ve heard about Green Fresh Group a lot. Now that I have the chance, of course, I want to see it.”

Xiao Lingyu nodded and said, “Okay, you can come if you want. My company will open for you at any time!”

“Thank you, Sis!” Lei Zongze said happily. He was very happy. He gained not only new parents but also siblings and cute nephews. Moreover, they were all very nice and kind people.

Xiao Lingyu looked at the time and quickly finished her breakfast. Then, she said, “Xiao Ze, I have to go now. If you want to go to the company, let Tong Tong bring you there.”

Lei Zongze nodded and said, “Okay, sis!”

He looked around and asked, “Sis, where are Tong Tong and Ling Er?”

Xiao Lingyu smiled and said, “They went to breathe fresh air and jog around the village with the elders early in the morning.”

The members of the Xiao family had the habit of sleeping early and waking up early.

Lei Zongze nodded. “Okay. Sis, you should go now. I’ll wait for Tong Tong to bring me there.”

Xiao Lingyu picked up her coat and bag and immediately went home to the office.

Lei Zongze ate breakfast with relish.

Mother Xiao's cooking was amazing. After breakfast, Lei Zongze returned to his room to recite those ancient poems.

By the time Xiao Letong and the elders returned, he had already memorized those ancient poems very skillfully.

"Tong Tong, Grandpa, Grandpa Gong, you're back!" Lei Zongze called out very happily.

"Xiao Ze, have you eaten breakfast?" Grandpa Xiao asked with a smile.

"Yes, I've eaten. It's very delicious!" Lei Zongze said with a smile, "Mom's hands are really skillful. Any food she makes is so delicious!"

"Haha, that's right. Qiuying's cooking is famous in the whole region." Grandpa Gong agreed cheerfully.

While eating breakfast, Lei Zongze said to Xiao Letong, "Tong Tong, I want to go to Sister's company to take a look later. Can you bring me there later?"

Xiao Letong nodded and said, "Yes, okay. After we eat, I'll bring second uncle there! Ling Er, let's eat quickly. After we finish eating, we'll go to Mother's company to play."

"Okay!" Xiao Ling replied very obediently.

Lei Zongze noticed that Xiao Ling was rather different. As for how he was different, he couldn't tell. Of course, he didn't suspect anything else.

After the two children quickly finished their breakfast, they brought Lei Zongze to Green Fresh Group.

When Lei Zongze arrived at the company, the corners of his mouth couldn't help but twitch when he saw the company's appearance.

This company was too different from the company he imagined. It was so big that he even suspected whether this was a small farmhouse or a large company.

He originally thought that Green Fresh Group, which had assets of more than ten billion, would definitely be like the companies in big cities. They would all be high-rise buildings with offices.

Previously, he had been wondering where the headquarters of the legendary Green Fresh Group was. He knew it was in Taoyuan Village, but he couldn't see any high-rise buildings.

Only now did he know that there weren't any high-rise buildings. They were just four or five-story buildings.

However, the construction and decoration of these buildings were all in the style of small villas. He was impressed. After all, few companies would use villas as office buildings.

"Building A, Building B, and Building C are the company's office buildings. D, E, F, and G are the staff dormitories. Also, if you walk a few hundred meters, you will reach the factory building!" Xiao Letong dutifully acted as his little tour guide.

Lei Zongze looked at the buildings and asked, "There are so many dormitories. Do many people live in them?"

Xiao Letong nodded and said, "Yes, the employees live here."

"Tong Tong, how many employees are there in the company?" Lei Zongze asked curiously. There were many employees in uniform coming and going.

Xiao Letong thought for a moment and said, "There should be 500 to 600 employees in Taoyuan Village Farm, and then there are the internal employees in the company. There are more than 300 people. In total, it should be close to 1,000."

"So many?" Lei Zongze was a little surprised.

Xiao Letong said matter-of-factly, "It's not that much. Taoyuan Village and Green Fresh have good business."

Lei Zongze thought for a moment and said with a smile, "Oh, that's true."

### **Chapter 832: White Lie**

Lei Zongze walked into the company and saw handsome men and beautiful women coming and going.

Lei Zongze asked in a low voice, "Tong Tong, who are these people?"

Xiao Letong said, "These uncles and aunties are all managers of the company."

"All of them?" Lei Zongze asked.

"Yes, all of them!" Xiao Letong nodded and said.

"Does your mom hire the managers based on looks?" Lei Zongze asked in a low voice. "Look at all of them. They're all so pleasing to the eye." Unlike their company, except for a few secretaries, the rest of the employees looked rather... unique.

Xiao Letong said, "My mother's recruitment is based on their character. If their character isn't good, no matter how capable they are, she won't use them."

At this point, he paused, thought for a moment, and then continued, "Maybe these people have good characters, so they have good looks too!"

Lei Zongze, "... How come I've never heard of that before?"

Lei Zongze said with a laugh, "You really are quite mischievous!"

Xiao Letong said, "Second uncle, let's go. We'll take you around! Don't worry. As long as we don't disturb their work, these uncles and Aunties have a pretty good temper."

Lei Zongze, "... How often do you have to have come here to know that?"

Xiao Letong and Xiao Ling brought Lei Zongze around. Everyone in the company knew these two young masters. When they saw them, they greeted them warmly.

.....

They were cute and beautiful. They were very likable.

Xiao Letong greeted them one by one and said, "Uncle, Auntie, you guys go ahead. I'll bring my second uncle around to take a look!"

Second Uncle?

When they heard this title, many people were slightly puzzled.

They didn't know this man.

They had seen the second uncle of the two young masters before. He was a young lad and not this young man in front of them.

Xiao Letong knew their doubts and introduced them generously. He said, "This is the godson that my grandparents took in. My grandparents took in two godsons. This is my new second uncle."

Hearing Xiao Letong's introduction, everyone came to a sudden realization. Then, they looked at Lei Zongze with a hint of envy. How lucky were they that Tong Tong's grandparents recognized them as godsons?

After working in the company for a long time, they naturally knew how good their boss' mother was at cooking. Although the food in the Taoyuan Village cafeteria was famous for its delicacy, compared to the boss' mother, the food in the cafeteria was simply incomparable. In fact, the boss specially announced a special reward system. The person with the best performance could go to the Xiao Family for a meal.

This reward was much more practical than a monetary reward.

Although money could buy many things, it couldn't buy Mother Xiao's cooking.

Therefore, for this reward, the company's employees worked hard.

In the eyes of the company's employees, their boss was simply a winner in life.

She had a happy family, a husband who loved her very much, and a pair of cute and beautiful sons.

To be able to become the boss' family was also a kind of happiness. So who was this man to be welcomed into the happy family?

Lei Zongze quickly noticed that the gazes that were thrown at him were mixed with surprise and envy. He was a little baffled. However, he was quite simple, and he did not think too deeply about it. He happily followed the two children, and they went to various places to take a look.

Lei Zongze asked curiously, "Tong Tong, where is your mother's office?"

"It's on the fifth floor!" Xiao Letong said, "Let's go, second uncle. I'll bring you there now!"

Soon, Xiao Letong brought Lei Zongze to the fifth floor. However, the secretary said, "Tong Tong, the boss is having a meeting with someone inside."

Hearing that Xiao Lingyu was having a meeting, Xiao Letong said sensibly, "Okay, we'll wait outside for a while. Auntie, please make a cup of coffee for my second uncle."

The secretary smiled and said, "Okay." Then, she took out two boxes of milk from the cabinet and handed them to Xiao Letong and Xiao Ling respectively. The milk was always prepared here for the children to drink.

Xiao Letong took the milk and drank it. Xiao Ling didn't like milk, so Xiao Letong took it and drank it.

After a while, the secretary made a cup of coffee for Lei Zongze and said with a smile, "Sir, here's your coffee. Please drink it slowly!"

"Thank you!" Lei Zongze replied politely.

In the office, Xiao Lingyu and her subordinates were discussing the development projects of various farms.

Phoenix farm was ready. However, the other regions had encountered some investment problems.

"None of these plans will work. Go and write another one." Xiao Lingyu looked at the plans submitted and rejected them all, "When you wrote these plans, did you go to the local area to investigate? Did you learn about the local customs..."

Xiao Lingyu was usually amiable. However, she was still the boss. When her people did something wrong, they had to be reprimanded.

"I'll give you five more days to come up with a plan that I'm satisfied with," Xiao Lingyu said seriously, "If I don't see a satisfactory plan in five days, your half-year bonus will be gone!"

Everyone was shocked and said seriously, "President Xiao, we will definitely work on this plan."

Xiao Lingyu glanced at them and continued, "On the contrary, if any of you come up with a plan that I'm satisfied with, then they can eat at my home for a month."

Hearing that they could eat at their boss' house for a month, the eyes of the six team leaders lit up. They said with excitement, "President Xiao, is what you said true?" This reward was extremely rare.

In the past, they would only be rewarded with a meal for a day. They had never gotten the chance to eat Mother Xiao's cooking for a month before. And it would benefit the whole team.

Xiao Lingyu nodded. "Of course it's true. When have I ever gone back on my word?"

The six team leaders immediately said excitedly, "Boss, don't worry. Within five days, we will definitely give you a satisfactory plan!"

The six teams looked at each other, and their eyes revealed a look of provocation. Each was determined to get this reward.

"Alright, you can go now!" Xiao Lingyu waved her hand.

After the six team leaders left, Xiao Letong and Xiao Ling brought Lei Zongze in.

When Xiao Lingyu saw them, she smiled and said, "How long have you been here?"

Xiao Letong said, "Not long. I just drank two boxes of milk."

Xiao Lingyu looked at Lei Zongze and asked with a smile, "Xiao Ze, how is the tour of the company?"

Lei Zongze said with a smile, "At first, I thought that for such a big company, the office building would definitely be a high-rise building. However, unexpectedly, the office building of the company is so simple yet beautiful. From afar, it looks like you are working in villas."

After saying that, he looked at Xiao Lingyu's office. It was simple and generous, but it also suited her strong female temperament.

Lei Zongze said another sentence, "Sis, your company is filled with a lot of beautiful men and women. Sis, I am quite curious. What criteria did you use to hire these people? Could it be based on appearance? Then do you think I can work here with my appearance?"

"Second uncle," Xiao Letong said very seriously, "Do you plan to come here to seduce the souls of the sisters working here?"

"Huh?" Lei Zongze was stunned. Then, he reacted and said happily, "So, Tong Tong, you mean that second uncle is very handsome, right?"

Xiao Letong nodded and said, "Yes, second uncle is very handsome!"

Lei Zongze immediately thought of something and asked, "Tong Tong, do you think second uncle is handsome, or your uncle Ye is more handsome?"

"..." Xiao Letong lied, "Of course, second uncle is more handsome."

Who would have thought that the honest and naive Xiao Ling would suddenly say, "But uncle Ye is obviously more handsome!"

Xiao Letong immediately corrected him sternly, "Ling Er, sometimes we have to say white lies."

Lei Zongze, "..."

"Haha..." Xiao Lingyu could not help but laugh.

### **Chapter 833: Little Light's Approval**

Lei Zongze ignored their harmless mockery and asked curiously, "Sis, I heard that you plan to set up a farm in all seven regions to grow vegetables and fruits. Is that right?"

Xiao Lingyu nodded and said, "Yes!"

Lei Zongze asked curiously, "But I heard that the fruits and vegetables in the Taoyuan village taste special because of the soil. Will it be the same in other places?"

Xiao Lingyu said, "Actually, that is outside speculation. The real secret is a technical one. We have specialized science and technology to grow these fruits and vegetables."

Lei Zongze nodded and said, "Oh, I see!"

"Oh, Sis, I've seen it on the Internet. Your family has a Little Cattle King. Because of the cow king's excrement, the soil is improved. So, the entire land can grow different vegetables," Lei Zongze asked curiously.

“Yes, that’s right. We used the Little Cattle King’s excrement to develop a fertilizer. This is our exclusive fertilizer and exclusive technology. That’s how we grew the different vegetables and fruits!” Xiao Lingyu said with a smile.

When Lei Zongze heard that, he immediately said with great interest, “Sis, where is the Little Cattle King? I want to see him.”

“Second uncle, if you want to see the Little Cattle King, I can take you there!” Xiao Letong said, “Let’s go. I’ll take you to see it now.”

Xiao Lingyu smiled and said, “Okay, Tong Tong, Ling Er, you should take second uncle to see the Little Cattle King. Mommy still has something to do.”

“Okay!” Xiao Letong replied.

The legend of the Little Cattle King gradually spread over the years with the development of Taoyuan Village. Therefore, many people on the internet were curious about Little Cattle King.

However, it was not easy to meet the Little Cattle King. It depended on the Little Cattle King’s mood.

.....

If he was in a good mood, he would walk around the fields and perform for everyone. But if he were in a bad mood, he would rather hide in his nest to sleep and eat.

Today, the Little Cattle King was hiding in the cow shed and did not go out.

“Second uncle, this is where the Little Cattle King stays!” Xiao Letong introduced him.

Lei Zongze looked around and was a little surprised.

Because he never thought that the cow shed was next to the Xiao family’s courtyard.

This cow shed was transformed into a small villa. Who would have thought that there was a cow living here?

Little Light was small four years ago. Now that he was an adult, he was tall and strong. His hair was shiny, and his body was very clean. With one look, one could tell that someone was taking care of him and bathing him every day.

Little Light heard the noise outside and immediately stood up. The cow’s head stretched out. As expected, when it saw his little master, he immediately mooed excitedly.

Xiao Letong and Ling ‘Er ran over and reached out to stroke his head. “Little Light, you’re home today. Why are you in a bad mood?”

Little Light shook his head and mooed twice to show that he wasn’t in a bad mood.

“You’re not in a bad mood.” Xiao Letong nodded and said, “Then why don’t you go out? Don’t you know that there are many tourists outside who want to see you?”

When Little Light heard this, he raised his head proudly and mooed twice. Then, he lowered his head again and mooed a few times, seemingly unhappy.

Xiao Letong immediately nodded and said, "Oh, so you don't like to be watched by people every day. Alright then, as you like."

Their family was very permissive to Little Light. As long as Little Light didn't cause trouble, it could do whatever it wanted.

Lei Zongze, who was listening from the side, was stunned.

If he did not see it with his own eyes, he would not believe that the conversation just now was actually between a child and a cow. Although this cow was the Little Cattle King, it was still a cow.

However, a cow and a child were actually chatting so happily.

"Little Light, come, let me introduce you to a new member of our family," Xiao Letong pulled Lei Zongze over and introduced him enthusiastically and happily, "His name is Lei Zongze. He is one of the godsons that Grandpa and Grandma recognized. He is Ling Er and my second uncle. We also have an elder uncle. He is second uncle's elder brother, Lei Junshan. He is not here today. I will introduce him to you in the future. Come, say hello to second uncle!"

Little Light raised his head. His big round eyes were bright as he looked at Lei Zongze. Then, he mooed at Lei Zongze twice. He looked very happy.

Xiao Letong said, "Second uncle, Little Light is greeting you!"

Lei Zongze was stunned at first, but then he replied with a confused expression, "Oh, Little Light, hello!"

He could not imagine that a cow would be so intelligent, sensible, and smart.

Then, like a child, Little Light mooed a few more times, looking very happy.

If the master's family accepted this man, then he had to be a good person.

When Lei Zongze came to his senses, he saw Little Light's big round, black eyes. It looked innocent and cute. He reached out his hand and gently stroked its head a few times. He said excitedly and excitedly, "Little Light, you're so cute!"

Little Light was very happy to hear that. He rubbed his head against Lei Zongze's palm to show that he liked him.

"Haha, it's so itchy!" Lei Zongze said with a smile.

But soon, Lei Zongze whispered to Xiao Letong, "Tong Tong, how do you know what Little Light is saying?"

Xiao Letong said with a smile, "Second uncle, it's a tacit understanding. We have always treated Little Light as family. Moreover, Little Light is smart and sensible. After spending some time with him, you will naturally know what he is trying to say."

Lei Zongze asked suspiciously, "Oh, is that so?"

Xiao Letong said with certainty, "Yes, that's it. Second uncle, if you spend a long time with Little Light, you will definitely understand what he wants to express."

...

At 10 pm, Lei Junshan called Lei Zongze. When he heard that his brother was going to sleep, he was so surprised that his jaw almost fell off.

Lei Junshan asked suspiciously, "Ze 'Er, why are you sleeping so early now? I remember when you were at home, you were a night owl. You didn't sleep until two or three o'clock."

Lei Zongze rubbed his eyes and said with a smile, "Brother, I want to develop the habit of sleeping early and waking up early!"

The other party's phone fell to the ground.

### **Chapter 834: Public Criticism**

Lei Junshan never expected that his younger brother would change so much after only staying in the Taoyuan Village for a few days.

Xiao Lingye put down the things in his hands and said helplessly while being stared at by Lei Junshan, "Master, if you have something to say, just say it. Even if you keep staring at me like this, nothing else will happen."

"Ahem," Lei Junshan asked, "Ye 'Er, when do you think we should go back and visit our parents?"

Xiao Lingye looked at the calendar and said speechlessly, "Master, if I remember correctly, we only went back five days ago."

"Okay." Lei Junshan looked at the day and said, "The day after tomorrow is Sunday. Let's go back then." He paused and said a little embarrassedly, "I miss mom's cooking." Xiao Lingye smiled and said, "Okay, Big Brother, I'll go with you!"

When they were together, they could learn and exchange skills whenever they wanted.

Lei Junshan said a little embarrassedly, "Ye 'Er, I want to buy some gifts for the whole family. Can you accompany me to choose some gifts?"

Xiao Lingye nodded and said, "Okay, no problem! I know what they like very well."

Lei Junshan could have ordered his secretary to buy the gifts, but it wouldn't be sincere enough.

When Xiao Lingye returned to school, he bumped into Jiang Shuyu on the way back.

When he saw her, Xiao Lingye subconsciously frowned and walked past her directly. Jiang Shuyu was angry, but she endured it and took a deep breath. Then, she called out, "Student Xiao Lingye, can I have a little bit of your time?"

Xiao Lingye ignored her and walked away.

Some classmates who were watching couldn't help but sneer, "Jiang Shuyu, can you be a little more creative? Every time you see classmate Xiao Lingye, you always say that you need a bit of his time. But can't you see that he doesn't want to talk to you at all? Don't you have any self-awareness?"

.....

“Haha...” A burst of mocking laughter suddenly sounded.

Someone tried to persuade her, “Jiang Shuyu, you’re so outstanding and there are so many boys who like you. Why do you have to focus on this one person?”

“That’s right.”

“Jiang Shuyu, since Xiao Lingye obviously doesn’t like you, why do you have to humiliate yourself? Besides, student Xiao Lingye was only slightly better looking than the other boys. Moreover, he came from the countryside and didn’t have any family background, so he wasn’t worthy of you. Miss Jiang, you should find a boy with a family background that matches you.” The person who said this looked down on Xiao Lingye.

Jiang Shuyu’s face turned green and white as she listened to the discussions of the students around her. However, she took a deep breath and said loudly, “Student Xiao Lingye, if you don’t want to talk to me, you will become the headlines of the school’s media tomorrow. You will even become the headlines of the entire Beijing Media. Do you believe me?” Her words were filled with a strong sense of threat.

The people around them were baffled. They didn’t know what Jiang Shuyu was saying.

However, Xiao Lingye knew what she meant. Then, to everyone’s surprise, he stopped in his tracks.

Jiang Shuyu immediately let out a sigh of relief.

She immediately walked up to Xiao Lingye and said confidently, “Xiao Lingye, will you talk to me now?”

Xiao Lingye frowned and said, “What do you want?”

Jiang Shuyu smiled and said, “It’s very simple. I like you and want you to be my boyfriend!”

“That’s impossible!” Xiao Lingye refused without thinking.

“Then the news will be released.” Jiang Shuyu said confidently. “That is my only condition.”

Xiao Lingye frowned. His sharp gaze landed on her fair and beautiful face as if he was a little angry. Then he said, “Do what you want. It won’t affect me at all!”

“You...” Jiang Shuyu’s pupils constricted. She did not expect Xiao Lingye to give her such an answer.

Xiao Lingye immediately turned around and left.

The classmates who were watching the show were a little puzzled. They did not know what kind of riddle the two of them were playing.

Jiang Shuyu looked at Xiao Lingye leave without any hesitation. Her hands clenched into fists again, and the tip of her thumb was deeply embedded in the flesh of her palm.

‘Xiao Lingye is such a bastard. He is impervious to all of my tactics. I’ve tried both persuasion and threats. He remains indifferent. Isn’t he afraid that I’ll really expose his identity?’

Of course, Jiang Shuyu wouldn’t be so stupid as to use Xiao Lingye’s background as a real threat.

Once Xiao Lingye's background was exposed, the one who would be in trouble wouldn't be Xiao Lingye but her. She would attract more love rivals, and those love rivals wouldn't be ordinary love rivals. They would be girls from powerful families.

After Xiao Lingye left, someone asked curiously, "Student Jiang, what secret is Xiao Lingye hiding? Why would it go on headlines?"

Someone said excitedly, "Student Jiang, he clearly doesn't respond to it. Since that's the case, we should expose him."

"Hey, what's the matter with you guys? What has Student Jiang done to you that you are sparing no effort to defame you?" A female student couldn't stand it and said, "Oh, I know. You guys must be jealous of him. You're jealous that he's more handsome than you guys, more capable than you guys, and now he's richer than you guys, right?"

"That's right. Just because Xiao Lingye just doesn't like Jiang Shuyu doesn't mean that he is despicable. Why would you guys target him like that?"

Soon, someone turned the target on Jiang Shuyu. "Jiang Shuyu, Xiao Lingye doesn't like you. Because of that, you want to defame him. How heartless can you be?"

"Jiang Shuyu, don't tell me because you can't get him, so you'll have to destroy him?"

"If you really have such thoughts, you need to see a psychiatrist!"

"That's right. You are bold in expressing your feelings to Xiao Lingye. That is admirable. However, just because you don't get the response you want, you can't be so selfish and ruin him, right?"

One by one, the students began to criticize Jiang Shuyu. They even said that her heart was twisted. Jiang Shuyu was so angry that her sharp eyes swept over them one by one. Then, she shouted fiercely, "Shut up! What do you know?"

With that, she left directly.

### **Chapter 835: Changing Fields**

Jiang Shuyu would not be so foolish as to announce Xiao Lingye's background to the public. Otherwise, Xiao Lingye's status would instantly increase, and her love rival would increase. She was not liked by Xiao Lingye to begin with, so she wouldn't sabotage herself.

Jiang Shuyu didn't say anything, so the rest had to guess. However, most of them guessed that Xiao Lingye had done something extraordinary. Some people secretly followed and investigated Xiao Lingye until one day, a person accidentally followed Xiao Lingye to Xun Teng building. Then, many people knew that Xiao Lingye actually worked in the Xun Teng Corporation.

As for Lei Junshan's other relationship with Xiao Lingye, no one knew about it at the moment.

"How about this silk scarf for Grandma?" Lei Junshan saw a red silk scarf in the shopping mall, and the first thing he thought of was to give it to Grandma Xiao.

Xiao Lingye shook his head and said, "Grandma is very plain and doesn't like to dress up."

Lei Junshan understood immediately that this silk scarf was not suitable for grandma Xiao.

“However, since eldest aunt likes to wear red, you can buy it and give it to her!” Xiao Lingye said.

Lei Junshan’s eyes immediately lit up, and he happily bought the most expensive red silk scarf in the mall.

Then, Xiao Lingye accompanied Lei Junshan to buy all kinds of gifts. The two men went to the mall to go shopping, which naturally attracted the attention of many women. Especially a handsome and sunny boy like Xiao Lingye, he was very popular among girls at first sight.

However...

“These two men came to buy gifts. Could they be a couple?” The two girls said in a low voice.

“They look alike to me. One of them has stubbles, but he’s tall and strong. His eyes are as sharp as an eagle’s. The other is bright and handsome, but he’s so tiny.”

“Are they uke and seme?”

.....

Hearing these discussions, Lei Junshan and Xiao Lingye had a bad premonition.

Then, Lei Junshan asked, “Ye ‘Er, what are uke and seme?”

Xiao Lingye, a straight man who devoted himself to his studies and career, obviously did not know what this meant.

Xiao Lingye shook his head, but he was very smart. He had an idea based on the context. Then he deliberately said loudly, “Big Brother, I think our mom will like this dress.”

Although Lei Junshan did not understand, he cooperated very well, “Since our mom likes it, then Big Brother will give this dress to mom. Come, let’s choose the gift for dad.”

“Yes, okay!”

When the girls heard the conversation, disappointment appeared on their faces. “I thought they were a couple. So they are brothers. But their looks are too different. They don’t look alike at all.”

“This one has a full beard. Perhaps they do look alike.”

“That’s true.” Her companion nodded.

“They are brothers! Then it’s not strange to shop together. I thought they were a couple.”

Then, Xiao Lingye secretly heaved a sigh of relief.

These women were too scary.

When two men were shopping together, did they have to be a couple?

Then, the two of them seriously began to pick out gifts.

Some of the women went forward to strike up a conversation.

Lei Junshan and Xiao Lingye were two straight men who had no interest in any romantic relationship. So all the women failed.

...

When Lei Junshan saw his brother again, he did not expect that his brother had changed so much.

Usually, he looked very flashy in red, but now he was wearing a simple blue shirt. His hair, which used to be meticulously fixed with hair gel, was now short-cropped. He looked much more handsome than before.

“Brother!” Seeing his brother arrive, Lei Zongze was still very happy.

Lei Junshan asked with a stunned expression, “Ze ‘Er, why did you become like this?”

Lei Zongze frowned slightly and asked with some doubt, “Brother, is this not good?”

Lei Junshan immediately reacted and nodded with a smile, “This is good. Now you look like a very energetic and bright young man!”

Lei Zongze’s eyes lit up, and he immediately asked happily, “Really, brother?”

“Yes!” Lei Junshan smiled and patted his younger brother’s shoulder. He thought to himself, ‘Sending him here is indeed a good decision!’

“Junshan, we all like the gift you gave us. You’re really thoughtful!” Grandma Xiao said with a smile.

Lei Junshan did not take all the credit for himself. Instead, he said, “Ye ‘Er picked out all the gifts.”

“Yes, you’re so thoughtful!” Grandma Xiao said with a smile.

The family was happily eating and drinking again.

At night, the Lei brothers shared the same room.

Lei Junshan noticed some books on the table. He raised his eyebrows and asked, “Ze ‘Er, you’re reading some books on planting now. Are you planning to move into this field?”

Lei Zongze nodded seriously and said, “Big Brother, I want to be an agricultural technician!”

Lei Junshan was stunned. Then, he asked seriously, “Ze ‘Er, are you serious?”

“Big Brother, I’m very serious!” Lei Zongze said seriously, “When I came here, I found that I seemed to be very interested in planting. So, I borrowed a few books from my sister to read. But as I read these books, I found myself getting more and more interested. Brother, do you know? When I read these books, I didn’t feel like sleeping. In fact, I have a lot of enthusiasm.”

Lei Junshan listened in silence.

Lei Zongze looked carefully at Lei Junshan and asked seriously and persistently, “Brother, if I change my field, will you support me?” When he asked his brother, he showed some nervousness and uneasiness.

After all, network technology and agricultural technology were worlds apart. To cross over, there must be a certain degree of difficulty.

In fact, for Lei Zongze, the difficulty was nothing. He was not worried at all. He only cared about his brother's opinion.

Lei Junshan saw his brother's uneasiness and gently sighed. Then, he gently patted his shoulder and said very seriously, "Ze 'Er, do whatever you want to do. Your Brother will support you!"

Lei Zongze smiled happily when he heard this. He said happily, "Thank you, Big Brother."

Then, the two of them started to talk about the Xiao family. Lei Zongze said, "Big Brother, I really like the Xiao family. They are really nice. They are very considerate and concerned about me. I feel at home here. They are my parents, grandparents, and siblings. Each of them treats me sincerely and sincerely."

Lei Junshan nodded and said, "Yes, the Xiao family is our home now."

### **Chapter 836: Back to School**

"Lingyu, Ze 'Er said that he likes agriculture now. In the future, I'll have to trouble you to teach him more." Before he left, Lei Junshan looked for Xiao Lingyu.

Xiao Lingyu smiled and said, "Big Brother, Ze 'Er is my younger brother now. Of course, I'll support his likes and interests. Don't worry. I'll hire a teacher to teach him in the future!"

Over the years, she had gotten to know many famous masters and experts in the industry. Finding a good teacher for Lei Zongze shouldn't be a problem.

Lei Junshan nodded and said with a smile, "No matter what, I still have to thank you!"

Xiao Lingyu said with a laugh, "Big Brother, we're family now, so there's no need for thanks."

Lei Junshan thought for a moment and suddenly laughed, "That's true!"

Since he treated the Xiao family as a family, he couldn't be too polite. Otherwise, he would have alienated them.

"Okay, we are indeed a family," Lei Junshan said with a smile.

...

Regarding the fact that Lei Zongze suddenly liked agriculture, the Xiao family didn't give too much advice or interfere. After all, this was the child's own choice and interest.

"Ze 'Er, since you like it, you should follow the villagers and learn from them," grandma Xiao said with a smile. "Our village plants a large number of trees every spring."

Lei Zongze said humbly, "Yes, Grandma!"

"You can reach the top in every field." Grandpa Xiao said, "Previously when we were planting those fruit trees on the mountain, Yu 'Er invited many experts over. Those experts are amazing people. In the future, Ze 'Er will shine like them too."

.....

Agriculture was a very common thing for rural people. At the beginning of spring, if they wanted to plant any trees, they could just go to the town to buy seedlings and plant them directly. As for whether the seeds would live or not, they didn't care much. If they could live, they would live. If they couldn't live, they would plant new seedlings next year.

However, there was a scientific way now.

For example, growing rice was a very common thing for farmers. However, there was a scientific way to improve the process. Otherwise, there wouldn't have been any agricultural colleges.

"Ze 'Er, we will all support you." Father Xiao said earnestly, "I just want to give you a piece of advice. As long as you make a choice, you have to persevere no matter how hard or tiring you are or how many difficulties and setbacks you encounter in the future. Do you understand? Because only by persevering can you win!"

Lei Zongze's heart stirred. Then, he nodded seriously and said, "Yes, Dad, I understand. Since I've chosen this line of work, I will definitely persevere."

He did not ask for too much. At the very least, he wanted to be able to help Xiao Lingyu and the Xiao family.

"In this case, does that mean you'll have to return to university?" At this moment, third uncle Xiao suddenly said, "I heard from Shuo 'Er that there are agricultural colleges that specialize in this field."

"Do you have to sit for an exam to be admitted?" Mother Xiao looked at Xiao Lingyu with some doubt.

Xiao Lingyu nodded. "Yes. If Ze 'Er wants a certificate of degree, he needs to finish a university course. Ze 'Er, what do you think?"

Lei Zongze thought for a moment and said, "Then I'll attend an Agricultural College!" Sometimes, what one learned in school could not be underestimated.

Xiao Lingyu nodded and said, "Okay, I'll arrange it for you!"

### **Chapter 837: Return to the Capital**

Sometimes, it takes a combination of theory and practice to do things more perfectly.

Lei Zongze wanted to get back to an agricultural university. So they might as well use some connections to directly arrange for Lei Zongze to go to the best agricultural college in the country.

As for the actual learning, that was on him. His family couldn't help him study.

After sending Lei Zongze away, the Xiao Family felt quite empty. The main reason was Lei Zongze was quite a happy presence around the house.

Mother Xiao said, "He was not in the rebellious period. He just lacked care, so he made all kinds of eye-catching actions, just like a four-or three-year-old child who wants to attract his mother's attention. When he gets angry, he will roll on the floor like a child."

Later on, when he became a part of the Xiao Family, he became bright and cheerful. He was very likable.

“Mommy, when will second Uncle come back?” Xiao Letong was the person who missed Lei Zongze the most.

The main reason was that when Lei Zongze was around, he would play with him. He was not like the other adults who had endless things to do every day.

“I miss second Uncle too!” Xiao Ling echoed.

When second uncle was around, he would bring them along to play. They had a lot of fun. Now that second uncle was not around, they began to miss him.

Xiao Lingyu said in amusement, “Second uncle needs to study now. How can he have the time to play with you guys all the time? When second uncle has the time, I’m sure he’ll come back.”

“Then when will second uncle have time?” Xiao Letong asked.

“Maybe during the holidays!” Xiao Lingyu said uncertainly. Lei Zongze was more interested in his study than expected. He was already old, so he had to study harder than the others. Otherwise, he would be left far behind by others.

.....

“The holidays?!” Xiao Letong looked a little disappointed.

Then, he asked, “Mom, second uncle is studying in the capital, right?”

“Yes, that’s right!” Xiao Lingyu nodded and then asked, “What is it?”

“Then can we go to the capital to play with second uncle?” Xiao Letong’s eyes lit up. “Oh, no, now all three uncles are in the capital. If we go to the capital, we can play with all three uncles.”

Xiao Lingyu, “...”

Xiao Letong thought for a moment and said, “Mommy, I heard that first uncle is a very powerful person. He founded a big company. Can we go and play with first uncle?”

Xiao Ling nodded to the side and said, “Yes, I want to go too!”

Xiao Lingyu, “...” Do they only think about play?

“Also, we haven’t been to Daddy’s company yet. We want to go to the capital to see what Daddy’s company is like,” Xiao Letong added.

Xiao Lingyu, “...” They just want to go to play.

However, it was true that the two kids had been trapped at home for quite some time already.

Xiao Lingyu thought for a moment and said, “Alright, when Mommy has cleared up her schedule for the next two days, I’ll bring you guys to the capital to play. Is that okay?”

Xiao Letong immediately jumped up in joy and said loudly, “Oh yeah! That’s great! We can go to the capital to have some fun!”

When the family heard that the two children were going to the capital for a period of time, they were very reluctant. However, they knew they couldn't keep the kids in the village forever.

The capital was, after all, the place where they were going to live in the future. It would be good to see more of it.

Although Old Master Gong could not bear to part with his days in Taoyuan Village, he still felt that he should follow his great-grandsons back to the capital.

After all, with him in the capital, no one would bully his great-grandsons and his granddaughter-in-law.

### **Chapter 838: Prodigy**

Xiao Lingyu brought the two children to the capital. Naturally, they stayed with the Gong Family.

Gong Tianhao looked at the two children running around in the garden and said helplessly, "The two of them have gone crazy. Haven't they run enough around Taoyuan Village every day?"

Xiao Lingyu also said helplessly, "The two of them just want to go outside and play!"

After running for a while, Xiao Letong ran over and said, "Mommy, when are we going to look for first uncle and second uncle?"

Xiao Lingyu patted their little heads and said with a smile, "When mommy goes to the supermarket to take a look, I'll bring you to look for your uncles. Okay?"

Xiao Letong nodded and said sensibly, "Okay, okay! Mommy and Daddy, you can go and do your work now!"

...

Lei Junshan went to the studio from his office and said to Xiao Lingye, who was busy studying, "Ye 'Er, Tianhao just called me and said that Yu 'Er has brought the two children to Beijing."

When Xiao Lingye heard this, his eyes lit up, and he said happily, "Is it true? Sister and the two children have also come to Beijing?!"

Lei Junshan smiled and said, "Tianhao wouldn't lie to me, would he?" Even if he would, he wouldn't lie about the kids.

Xiao Lingye smiled and said, "Then, after work, we'll go find them!"

Usually, they didn't have much time to go home, so they hadn't had time to see the kids. Now that the children were in the capital, they definitely wanted to go and have a gathering with the children.

Lei Junshan nodded and said, "Okay, I'll send a message to Ze 'Er right now and tell him about this. After he finishes school, he can go straight to the Gong family's house!"

.....

In the afternoon, when Lei Junshan, Xiao Lingye, and Lei Zongze came to the Gong family's house, they bought a lot of toys. They were all limited-edition toys.

Xiao Letong and Xiao Ling had never lacked toys since they were young.

However, children, especially boys, no matter how many toys they had, would never complain about having too many. Just like women, they would never complain about having too many clothes in their closets.

“This plane is flying so high!” After Xiao Letong took these toys, he began to play with them. When Xiao Ling saw the remote-controlled plane flying in the air, he was excited.

Xiao Ling asked in puzzlement, “Brother, there is no one in this plane, and it can’t hold anyone. How did it fly so high?”

Xiao Letong said, “This is actually a real model of the plane. It’s based on the power of the battery and radio signal. The remote control sends out a signal, and the receiver on the plane receives the signal. The receiver transmits the signal as electrical energy to the propeller. The propeller turns, and the plane will fly.”

In fact, Xiao Letong planned that when the time was right, he wanted to bring a plane back to the world of cultivation. Flying on a plane would be more comfortable and enjoyable than riding a sword.

Xiao Ling nodded and said, “Wow, Big Brother, you really know a lot!”

Lei Junshan, who was listening at the side, raised his eyebrows and said in surprise, “Tong Tong, you’re so young, but you know these things?”

Xiao Letong said, “I know them from watching military science and Technology Programs.”

Lei Junshan was even more surprised. He said, “Tong Tong, how old are you? How can you understand such advanced programs?”

Xiao Letong said very proudly, “First uncle, you don’t know this. I am a well-known child prodigy. I have a photographic memory, so those programs are nothing to me. Haha.”

Lei Junshan, “...”

### **Chapter 839: Supermarket Inspection**

The next day, Lei Junshan brought the two kids to the company to play.

After all, the night before, Lei Junshan found out that the two children were very curious about his company. Since that was the case, he personally brought the two children there to play, so he came to pick them up early in the morning.

After the children were picked up, Xiao Lingyu had the time to go to her supermarket to take a look.

Previously, Xiao Lingyu had planned to open two supermarket chains in the capital, but now that the size of this supermarket had completely exceeded her previous expectations, she did not plan to open a second supermarket.

Green Fresh supermarket was very famous. Even if she opened three more such supermarkets, there was still a market for them. Moreover, these fruits and vegetables were not like gold, silver, and jewelry. Even normal citizens could buy them.

The effects of these fruits and vegetables had long been publicized on the Internet. Many families who had elders with long-term illnesses would come to buy vegetables and fruits. The effects were still debatable, but at least they had hope. Therefore, no matter how expensive these things were, they were willing to buy them. Moreover, no matter how expensive these fruits and vegetables were, they were not more expensive than the cost of treatment in the hospital, right?

Xiao Lingyu came to the supermarket early in the morning to inspect.

Of course, she did not inform any staff. Therefore, other than the supermarket manager, almost no one knew about Xiao Lingyu's identity.

Of course, Xiao Lingyu was now a famous internet celebrity. The supermarket staff would do research about her. Therefore, before Xiao Lingyu stepped into the supermarket, she was discovered by some sharp-eyed staff members.

They were first shocked, then informed their colleagues and adjusted their working attitude.

"President Xiao is here," someone suddenly said in a low voice.

Some colleagues did not react in time. 'Who is president Xiao?'

"Are you stupid? It's our boss, Xiao Lingyu!" The colleague said anxiously.

.....

When the colleague heard that, she reacted with a shocked expression. She widened her eyes and said, "President Xiao is here. Why is she here?"

The colleague rolled her eyes and said with a laugh, "Of course, she's here to inspect the store. Does she need to inform you? Besides, this is her supermarket. She can come whenever she wants."

The colleague immediately said anxiously, "I... I didn't mean it like that. I got nervous."

The colleague waved his hand and said, "I won't chat with you anymore. I still have work to do. Do your best. Don't let CEO Xiao think that our working condition is not good, improper, and not serious."

"Okay, everyone, do your best. We have to impress President Xiao!" Someone shouted.

It was not yet time for the supermarket to open. It was only 7 am, so the place was quite relaxed. However, when they heard that Xiao Lingyu was coming, everyone became excited and nervous.

Someone could not control his emotions and asked, "I admire president Xiao. If I ask President Xiao for an autograph, do you think she will agree?"

Someone laughed and said, "I think she will. But it'll depend on whether you have the guts to ask her or not."

#### **Chapter 840: Supermarket Inspection**

When Xiao Lingyu walked into the supermarket, all she saw were the workers doing their jobs seriously. However, they looked up at her from time to time, their eyes shining.

The corner of Xiao Lingyu's mouth twitched. She instantly understood that they had recognized her identity.

Since they had recognized her, Xiao Lingyu didn't try to hide anymore.

However, she did not call the staff over to give them a lecture. She raised her wrist and looked at the time. It was approaching seven o'clock, and the store was about to open.

Xiao Lingyu walked in front of the various shelves in the supermarket.

The vegetables on the shelves were arranged very neatly. They all looked so lovely and cute.

Seeing that the staff had done their job well, Xiao Lingyu didn't have anything to be picky about.

"Hey..." Xiao Lingyu stopped a staff member, "Where is Manager Chu?"

The staff member was working seriously with his head down. When he was stopped by Xiao Lingyu, his eyes lit up, and his intense emotions were immediately revealed. He said excitedly, "Xiao... President Xiao, are you calling me?"

Xiao Lingyu smiled and said, "Yes. May I know where Manager Chu is?"

The staff said, "Manager... manager Chi is in the general manager's office!" He was so excited that he didn't know where to put his hands.

Xiao Lingyu nodded and then patted his shoulder and said, "Keep on the good work!" Then, she said to everyone, "Do your best too. The company will definitely not mistreat you."

"Yes, President Xiao, we will definitely do our best!" All the staff members shouted excitedly.

Xiao Lingyu nodded, then prepared to go to the general manager's office.

At this time, the staff member who was accosted by Xiao Lingyu mustered up his courage and said to Xiao Lingyu excitedly, "Xiao... President Xiao, I admire you very much. I have always regarded you as my idol. Can... can you give me an autograph?"

Xiao Lingyu smiled and said, "Sure, where can I sign it?"

"Erm... Erm..." the person looked around, trying to find something to sign. In the end, other than the set of clothes he was wearing, there didn't seem to be anything to sign, and this set of clothes was a work uniform.

The man's face turned red.

Xiao Lingyu smiled and said, "Yes, I will come back in a few days. You can still prepare for it!"

The eyes of the staff member lit up, and so did the other staff members. Then, someone asked, "President Xiao, can... can we get your signature too?"

Xiao Lingyu nodded and said, "Of course."

"Yay!" Many people said happily and excitedly.

“Alright, the shop is about to open. Do your work well. I’ll go and look for your Manager Chu!” Xiao Lingyu said.

After Xiao Lingyu left, the staff members immediately started discussing.

“President Xiao is a very nice person!” Someone said proudly.

“You don’t say!” Someone rolled his eyes and said with amusement, “President Xiao is very nice.”

“Sigh, I really envy someone like President Xiao. She’s so beautiful and has such a big career. She married such a handsome husband and even gave birth to such a cute and smart son. Almost everything that a woman wants to pursue has been achieved by her.”

“Yeah, I really envy President Xiao.”
