Chapter 921: Danger

When the truth of the case came to light, it caused netizens all over the country to get angry. Then, the voices called for Peter's death and for Royal Forest to leave China.

Peter had committed such a heinous crime, and he was the president of the Royal Forest company in China. Naturally, the headquarters of the Royal Forest Group in country F could not get away with it.

Xiao Lingyu used the name of the Green Fresh Group to bring Royal Forest to court. She also hired a well-known lawyer and asked for a huge amount of compensation from the headquarters of Royal Forest Group.

In order to prevent the Royal Forest group from suffering even greater losses, they could only grit their teeth and agree to give China a huge amount of compensation. They also apologized to the Green Fresh Group, the families of the victims, and the people of China.

“Bang!”

In the office of the President of Huanglin Group's headquarters, Macon was furious. He smashed everything in the office into pieces.

“Peter, that bastard!” Macon did not expect that sending Peter to be the president of the branch company in China would actually cause him such a huge disaster.

Not only did they pay huge compensation to China, but the Royal Forest group was directly driven out of the market by China.

In the future, China would no longer have Royal Forest. This caused the headquarters of Royal Forest Group to suffer a huge loss. Tens of billions of dollars were lost every year just like that.

It would be strange if Macon did not get angry.

His subordinate stood in front of him in fear and trepidation. He lowered his head and refused to say a word as he hid in a corner. He was also constantly complaining in his heart. ‘Peter had caused such a huge disaster for the headquarters. He is worse than Bruce.’

After Macon lost his temper, he asked, “What's the name of the company that Peter framed?”

His subordinate quickly replied, “Green Fresh Group!”

.....

“Green Fresh Group?” Macon frowned and asked with some doubt, “Why is this name so familiar?”

His subordinate answered truthfully, “President, just three months ago, Mr. Bruce reported to you that the market of Royal Forest in China was basically taken over by Green Fresh Group, which was why its performance was not good. However, you didn't even listen to his explanation and thought that he wasn't capable enough. Then, you directly dismissed him from his position as the president of the China branch and appointed Peter as the President.”

If he knew that Peter was so good at causing trouble, he might as well have let Bruce continue to be the president. It wouldn't have caused the Royal forest group to suffer such a huge loss.

When Macon heard his subordinate's report, his face immediately darkened.

He really did not expect that the Green Fresh group that he had always ignored would actually give them such a huge blow.

However, what he was even angrier about was that Peter was such an idiot. He had brought a coward like Walter to his side and even let him participate in so many things.

If Walter had not suddenly surrendered, Peter would not have been caught, and the Royal Fresh group would not have been driven out of China and suffered such a huge loss.

Macon thought for a moment and said, "Go, I want all the detailed information about the Green Fresh group!"

The Green Fresh group had given them such a heavy blow, so of course, he had to retaliate.

The subordinate asked hesitantly. "President, Green Fresh group is now the number one brand in China. If we want to make a move against it, I'm afraid..." After all, the Royal Forest group had withdrawn from China. They had no base in China.

Macon sneered and said, "Since Green Fresh is so well-known in China, it's only a matter of time until it develops the global market. When they do that, we'll attack immediately."

Royal Forest might not be able to do anything in China, but outside of China...

The subordinate immediately said, "I understand. I will immediately do it!"

Chapter 922: Invitation

After the Green Fresh Group's innocence was restored, the supermarkets all over the country were reopened.

However, the poisoning incident had more or less affected the mood of the customers.

Just as Xiao Lingyu said, even if she wasn't the culprit, many people died because of her. Therefore, no matter what, the reason why those people were poisoned and killed was that they ate the food from Green Fresh Supermarket. That was why they were targeted.

Of course, this matter had the greatest impact on ordinary people. It didn't have any impact on the rich and powerful. The targets of this case were all from poor families. None of the rich families were targeted.

Therefore, the business of the supermarket was not affected much.

Xiao Lingyu was helpless about this situation and could pray that time would fade the situation away.

After Royal Forest withdrew from China, Green Fresh Group became the leading brand in the agricultural products industry in China.

There was no longer a need to publicize its popularity in China. However, if it wanted to enter foreign markets, it had to establish its popularity in foreign markets.

When it was developing in foreign markets, it encountered all kinds of obstacles.

Royal Forest group had withdrawn from the market in China, but it did not withdraw from other foreign markets. Naturally, it was also the leader in those markets.

In those foreign markets, Royal Forest Group's position in the industry was superior, monopolizing the business.

Therefore, in order to fight with Royal Forest, Green Fresh needed to find some ways first.

Due to the incident in China, Royal Forest's reputation in the global market was more or less affected. After all, they had basically murdered a lot of people to suppress their business opponent. What if they decided to kill their customers for the same reason?

.....

Of course, the chances of that happening were very small.

After all, Royal Forest was powerful in comparison to the other companies. However, it was still service to its customer base, which consisted of the rich and noble.

This was also an opening for Green Fresh. They needed to form connections with powerful and rich people from all over the world.

For ordinary people, this was impossible. However, for Xiao Lingyu, who had a deep background, it wasn't difficult at all.

Gong Tianhao and Xiao Lingyu planned to organize an event for Green Fresh to shock the whole world in one go. They were going to hold a gathering of the upper class.

Gong Tianhao used his identity to send invitations to the top elites of the world. The excuse was that he wanted to discuss the direction of the world economy. He invited them to the Castle Manor of country F for a gathering.

Gong Tianhao had a huge influence on the business and financial world. Those who received an invitation were naturally willing to give him face and agree to participate.

However, they all knew that Mr. Gong of China had always been known for keeping a low profile. Why did he suddenly hold a gathering?

With this curiosity, many people came to attend this gathering.

Chapter 923: Invitation

Gong Tianhao's invitations quickly became the front page of international news.

Mr. Gong was a world-class financier, entrepreneur, and business celebrity. His company was one of the top five international corporations in the world.

Therefore, his invitation naturally received a lot of attention.

However, what puzzled many media outlets was that Mr. Gong had always been very low-key in the past. Even when he held a banquet, he kept a low profile and did not let the outside world know about it.

Why did he change his previous low profile personality to such a high profile and let people know about this gathering?

With curiosity and puzzlement, everyone waited for the day to come.

At this time, Xiao Lingyu, Gong Tianhao, and the others were still in Taoyuan Village, discussing this gathering.

After Bruce heard about it, he gave a thumbs up to Gong Tianhao and Xiao Lingyu and said excitedly, "Brilliant, this move is really brilliant! I'm really impressed!"

They had gathered all the world's famous and influential people in one place and were treating them to the special fruits and vegetables of Taoyuan village. It was estimated that the focus of this meeting would soon change from discussing the economy to discussing the food.

This was because everyone who had eaten the fruits and vegetables from Taoyuan village knew that they were worth discussing.

Those world-class dignitaries and dignitaries were all big shots. Furthermore, Gong Tianhao was also quite famous in the business and financial world.

His hosting style was definitely top-notch. Naturally, he used the best food and enjoyment. No one would feel embarrassed to ask about the source of the food.

Soon after, the Green Fresh brand would be spread among the world's rich and noble.

.....

Bruce didn't expect that Gong Tianhao would be able to deliver the fresh fruits and vegetables of Green Fresh to the tables of these dignitaries so easily.

Bruce could not help but exclaim in admiration. However, he was also excited. He looked forward to that day.

They would amaze the world.

However, he had to admit that Gong Tianhao was indeed a man who loved and doted on his wife.

He was willing to put down his face for his wife and support her career.

For a man with status, to send an invitation to all the powerful people in the world just to promote his wife's products was not something every man would do. However, Gong Tianhao did it without hesitation.

Gong Tianhao hugged Xiao Lingyu's shoulders in response to Bruce's praise and said with a smile, "This is just a small matter. As my husband, I definitely have to support my wife's career with all my might!"

Bruce, "... " there is no need to show off like this. Do you know how much dogfood you've fed me?

It was just a small matter for Gong Tianhao, but it was impossible for everyone else.

Zeng Yaozu watched the couple show off. After a moment of silence, he said unconfidently, "But those who came that day were all the world's top dignitaries. Are they really willing to put down their face and ask about the source of the food?"

Without waiting for Gong Tianhao to answer, Bruce patted his shoulder and said confidently, "Don't worry, Zeng. The family members might not be willing to put down their pride, but they could go through their housekeepers."

Zeng Yaozu, "... " That is true.

Chapter 924: Beale Castle Manor

Beale Castle Manor, F country, is a private castle with a 16th-century aristocratic residence with a royal style.

The architecture and gardens of the manor fully demonstrate the imagination of the family's successive earls and clever, virtuous countesses.

Beale Castle Manor faced a street called Castle Street. The living room had a vault, and the walls were covered with classic wallpaper. There were also many family crests.

Although Beale Castle Manor was relatively large in size, it also exuded a cordial and grand atmosphere. The entire manor covered an area of 150 hectares. There were lakes, rivers, forests, and endless open spaces. These open spaces were dotted with nearly 2,000 rare trees and shrubs, many of which were more than 200 years old.

Later on, the decline of this family gradually led to the change of ownership of the Beale Castle Manor.

Just five years ago, Beale Castle Manor was purchased by a mysterious person.

The identity of this mysterious person had always been unknown. When Beale Castle went back for sale, many people fought for it, but a mysterious person beat them to it.

What made them even more depressed was that no matter how much they investigated, no one knew the identity of this mysterious person.

It wasn't until this time that they received the invitation from Mr. Gong to a gathering at Beale Castle Manor that they understood the mysterious owner was Mr. Gong. He was really low-key.

That was why this invitation was so confusing. Why would a man who was so low profile suddenly become so high profile?

As the helicopter hovered over the chateau, the view was beautiful from above.

The children looked through the window and exclaimed, "Is this Daddy's castle in F Country Manor? It's very beautiful."

Xiao Letong said, "Although this manor isn't as beautiful as the picturesque scenery in Taoyuan Village, it's a different style."

The beauty of Taoyuan Village lay in its tranquility and nature, which made people very relaxed.

Beale Manor was quiet and solemn.

Xiao Ling asked with a smile, "Daddy, can we play around when we get to the manor?" Now, playing had almost become his nature. Wherever he went, he wanted to play.

After his brother confessed, he didn't feel much burden anymore. He didn't need to be vigilant and serious every day.

Gong Tianhao patted his little head and said with a smile, "This is Daddy's territory. It's your home. You can play wherever you want."

When Xiao Ling heard that, he smiled happily. He said to Xiao Letong happily, "Brother, let's go there to play later, okay?"

The direction that Xiao Ling was pointing at was the small lake in the manor. There were many small animals next to the small lake.

Xiao Letong said helplessly, "Okay, I'll accompany you to play later!"

He was now mature in his heart, but his body was indeed only three or four years old. He could not show too much maturity.

Xiao Lingyu said with a smile, "Tong Tong, then you have to keep an eye on Ling 'Er.'"

Xiao Ling liked to play too much. Sometimes, he would get carried away.

The helicopter circled above the manor for a moment before stopping at a wide lawn.

The moment they got off the helicopter, there were fifty to sixty bodyguards and maids in black suits standing on both sides. A Butler in a black tuxedo stood in the middle of them.

"Welcome home, mistress and Young Masters!"

A neat and loud voice resounded throughout the manor.

"Welcome, guests!"

Apart from Gong Tianhao and his family of four, Bruce and Zeng Yaozu were also here.

The purpose of the banquet was to expand the foreign business of Green Fresh Group. As Xiao Lingyu's right-hand men, they had to attend the banquet too.

"Wow, this manor is so big!" Zeng Yaozu exclaimed.

Chapter 925: Beale Castle Manor

Bruce, who was born in Country F, had heard about Beale Castle Manor. Especially in recent years, Beale Castle Manor had been bought by a mysterious person. Bruce was also very curious.

Only today did he know that Beale Castle Manor had been bought by his boss's husband. Moreover, he was lucky enough to visit this castle manor. He was so happy.

Bruce said directly, "I've been meaning to visit this place!"

Zeng Yaozu immediately rolled his eyes at him and said disdainfully, "Do you think you're a child? Are we here to have a good time? We are here to work, don't forget about it. If you get too playful and forget about the important matters, even if Lingyu spared you, I wouldn't spare!"

Bruce retorted, "I know!"

After the group of people got off the plane, the Butler went forward and greeted respectfully, "Master, how are you?"

The Butler was the Chief Butler trained by country F's Butler Academy. Every word and action of his showed the quality of a Chief Butler.

Gong Tianhao nodded at the butler and said, "Yes, Butler, thank you for your hard work!"

The butler smiled and said, "This is what I should do!"

After saying that, he looked at Xiao Lingyu and the two children.

He smiled and asked, "I believe this beautiful lady and these two cute children are our madam and the two young Masters!"

Gong Tianhao nodded and said, "Yes!"

The Butler placed one hand in front of his chest and half-bent his back as he said very respectfully, "Hello, Madam and the two young masters! I am Butler Robert. If you have any matters, please feel free to let me know!"

.....

Xiao Lingyu nodded and said, "Alright."

The Butler turned around and pointed to the crowd behind him, "The row on the left is the security staff of Beale Manor. There are a total of 32 people present. There are 16 people currently working in the manor, so there are a total of 48 people. The row on the right is the servants of our manor, including the gardeners, cleaners, chefs, and so on. There are a total of 36 people. In the future, if Madam and the young masters have any requests or problems, please let them know!"

Xiao Lingyu nodded and said, "Okay!"

After the Butler introduced these people, he asked the security guards and servants to disperse and do their own things.

He said respectfully, "Master, Madam, the two young masters, please follow me!"

The Butler led them into the castle.

Zeng Yaozu stood in front of the castle and looked up at the majestic and magnificent castle. He could not help but exclaim, "This castle is so big!"

After hearing that, the butler smiled and introduced, "Beale Castle Manor is one of the larger castles in F nation. It was built in the 16th century..."

The Butler slowly introduced Beale Castle Manor.

After listening to the Butler's introduction, Zeng Yaozu was simply too shocked.

What shocked him was that Gong Tianhao was too rich and too powerful!

According to the butler, Beale Castle Manor was not something that could be bought with mere money.

A few years ago, so many top-tier tycoons were eyeing this castle manor covetously. In the end, it fell into Gong Tianhao's hands. It showed how capable he was.

As a native of country F, Bruce knew about the history of Beale Manor.

In the past, this manor had only been heard of by legends, but not a single photo had been leaked. Many people were curious about it and wanted to break in to take a look.

Beale Castle Manor was heavily guarded at all times, and it was impossible to break in.

Now that he was inside this castle manor, Bruce felt as if he was dreaming. He could finally admire this mysterious castle manor.

After the Butler welcomed the group of people into the castle, he let the servants serve them. The tea served was the best in the world.

After settling these people down, the butler followed Gong Tianhao and reported to him on various matters.

After listening to the Butler's report, Gong Tianhao nodded and said, "Well, all of you have done well!"

The butler said humbly, "Master, this is what we should do!"

Then, he asked, "Master, the gathering is the day after tomorrow. The world's big shots will fly over. We are also prepared to welcome these lovely people with the most enthusiastic attitude. However, I would like to ask you, master. What else do we need to do to prepare?"

Gong Tianhao said, "Butler, we will be transporting a batch of vegetables, fruits, and other non-staple food from China tomorrow. We must use these things to entertain the guests on the day of the banquet."

Although the Butler was puzzled, he still replied respectfully, "Yes, Master!"

Usually, the ingredients and food they bought were prepared by the Royal Forest Group. But why did master change the source this time?

Gong Tianhao didn't explain to him, so the butler naturally didn't ask too much.

Gong Tianhao said again, "If anyone asks about the source of these ingredients, just tell them that they are from China's Green Fresh Group. Don't say anything else!"

When the Butler heard this, he became even more confused. However, he still replied respectfully, "Yes, Master!"

Gong Tianhao looked at the Butler's confused face and smiled. Then, he explained, "Butler, Green Fresh group is Madam's company. Do you understand?"

The Butler was smart. He immediately nodded and said, "Master, I understand!"

"Alright, you can leave now. Go and do what you need to do. If there's anything, I will call you!" Gong Tianhao said.

"Yes, Master!" The Butler replied.

Chapter 926: Tempt the Butler

When they arrived at Beale Castle Manor, apart from the two children, even Bruce and Zeng Yaozu started to play hard.

Fortunately, they did not forget their mission here. When they were done playing, they took out the guest list to study it. They would focus on the most important people on the list. If these people started to support Green Fresh, the others would follow.

The two also had confidence and trust in Green Fresh. They believed that no one could resist such delicious food. They could imagine the orders coming to their doors.

The butler, Robert, arranged everything for the gathering. On the second day after they arrived at the castle manor, the fruits and vegetables from China's green fresh group arrived.

Looking at those fresh and lovely fruits and vegetables, even the butler was surprised. He almost drooled.

Bruce picked up a tomato and handed it to the butler. He smiled and said, "Mr. Butler, here, try it first. You will never forget this taste."

The Butler looked at the red tomato. It was beautiful, fragrant, and very tempting. He wanted to reach out to take it, but he immediately thought of his identity. He had to remain calm and resist the temptation, so he pulled his hand back with difficulty, then he refused, "No. We'll try it later with the rest of the staff."

Bruce said with a laugh, "Mr. Butler, are you really not going to try it?" There was a hint of temptation in his tone. "This tomato is different from ordinary tomatoes. This kind of tomato is sweet and delicious. When you eat it, it also gives off a fragrance. The fragrance will make you feel refreshed and comfortable."

The butler stared at the bright red tomato. He almost couldn't move his eyes away. His heart was moved.

However, as the chief butler, he had to withstand any temptation. Otherwise, he would be easily taken advantage of.

After all, the butler of a large family often knew the family's secrets. If he were tempted by the enemy and betrayed the family, he would have failed at his job.

Bruce saw that the Butler was rejecting the temptation with a serious face and thought it was funny. He deliberately took the tomato and waved it in front of him twice. Then, he opened his mouth and took a bite. He deliberately let out an exclamation, "Wow, this thing is so delicious."

With this bite, the fragrance of the tomato spread out. The taste was even more tempting.

.....

The Butler could hear the sound of the surrounding servants swallowing their saliva. He could not help but swallow his saliva as well. However, he still firmly refused, "No, let's save it for when it's time to eat!"

Bruce saw the butler's strict refusal and did not continue to entice him. He finished the tomato in a few bites. He kept praising, "Ah, it's really delicious. The taste is unforgettable no matter how long time I eat it." Tomatoes could be eaten as a vegetable or a fruit. It had a unique taste, and there were many people who liked to eat it.

Xiao Lingyu looked at Bruce's intentional expression and then at the housekeeper's forbearing expression. She was quite impressed by the housekeeper's endurance.

Xiao Lingyu smiled, "Butler, why don't you try one? The taste of this tomato is indeed different from other tomatoes. It's the same with other fruits and vegetables. You can all try it."

After hearing Xiao Lingyu, the butler nodded and smiled, "Since Madam has said so, let's try it."

With that, he picked up a tomato from the box. He put it into his mouth and took a bite. Instantly, a look of disbelief appeared in his eyes.

This tomato was too delicious.

Bruce smiled and asked, "Butler, how is it? Am I right? The tomato tastes amazing, right?"

Chapter 927: Tempting Mr. Butler

The Butler, who had always been calm and composed, said with a slightly excited expression, "This thing is too delicious! I have never eaten such delicious tomatoes!"

As the head butler, he had to taste every high-end brand of food when he received training. This was so that he could answer smoothly when asked by a guest.

Bruce said, "Mr. Butler, you will see that the things shipped over today are very delicious. Even the rapeseed has an unforgettable taste. If you don't believe me, you can try to cook a plate of rape for lunch."

Normally, vegetables would only appear as decorations on plates next to meats. Or they would be sides. Rare would they be the focus of the meals. However, Robert got to understand that since the vegetables came from the madam's company, he had to make them the main features.

The Butler thought for a moment and said with a smile, "Alright, we'll have the chef cook some rapeseed today."

Gong Tianhao had hired a chef from China. He was good at making Chinese cuisine. However, after eating the food made by his mother-in-law, he became slightly picky about the food made by any chef. But there was nothing he could do about it.

He needed to fly all over the world to do business negotiations. He couldn't bring his mother-in-law around to cook for him every day, right? Even if his mother-in-law were willing, his wife wouldn't be willing, not to mention his father-in-law.

After sorting the ingredients and fruits that had been brought from China into the freezer, the butler washed some fruits and served them.

Red apples, crystal-clear grapes that shone as bright as jade, and those bright red watermelons... well, every type of fruit exuded a tempting aroma. Waves after waves of it continuously attracted the butler's buds.

The butler's restraint was astonishing. As servants, they could not taste the fruits before the master had started eating.

"Master, Madam, the fruits are here. Please enjoy them!" The Butler said respectfully.

Gong Tianhao nodded and said, "Butler, there are many fruits here. You can share some with us."

At this moment, Xiao Letong picked a watermelon from the fruit plate and ran to the butler. He raised the watermelon and said to him, "Grandpa Butler, please eat the watermelon!"

.....

When the housekeeper saw the young master bringing the watermelon to him, he immediately said excitedly, "Thank you, young master. Young Master is really a sensible child!"

Xiao Letong said again, "Grandpa Butler, you're welcome. You can eat any of the fruits as you please. We grow them ourselves."

When the housekeeper heard this, he was even more moved and said, "Thank you, Young Master!"

After saying this, he picked up the watermelon and took a taste. It was sweet and fragrant. He said emotionally, "This watermelon is really sweet. It's really delicious! It's the best watermelon I've ever eaten!" Plus, the watermelon was given to him personally by the young master. It was the best.

"So sweet!" The Butler took another bite and said.

Xiao Letong smiled and said, "Grandpa Butler, after you eat the watermelon, you can also try other fruits. They are equally delicious!"

"I definitely will!" The Butler said. These fruits were really delicious. He was also eager to try the taste of other fruits.

"Then master, Madam, Young Masters, I'm going for now. If you need anything, just call me." The Butler said.

Gong Tianhao nodded.

After the Butler went down, Bruce said with a piece of watermelon in his hand, "I told you no one could resist the fruits and vegetables of our Green fresh group! I'm really looking forward to the banquet tomorrow. When our product is officially unveiled, it will amaze everyone!"

The butler had incredible self-control. He resisted eating the tomato until Xiao Lingyu gave him permission to have a taste. However, after tasting these flavors, no matter how strong his self-control and willpower were, he couldn't stop himself from tasting more of them.

Those celebrities and dignitaries, with their current status and power, no longer cared about brand logos. They only cared about enjoyment.

Therefore, at the banquet tomorrow, they would have the enjoyment of their lives.

Listening to Bruce's words, Zeng Yaozu suddenly looked forward to the gathering tomorrow. He was both nervous and excited.

Xiao Letong was holding a small bowl and eating a small watermelon. He looked at Bruce and suddenly asked, "Uncle, will you be nervous tomorrow?"

Bruce stopped eating the watermelon and then said with a smile, "It's not like I've never met people with great importance before. What's there to be nervous about?" Of course, he was lying. It was impossible to say that he was not nervous when he was about to meet the big shots of various countries.

After Xiao Letong heard that, he just replied with an oh and continued eating the watermelon.

Then, Xiao Letong said, "Then, uncle, we'll have you greet the guests tomorrow!"

"What?!" Bruce was so shocked that he almost jumped up.

Chapter 928: The Shocking Party

Gong Tianhao sent invitations to all the big shots in the name of discussing the direction of the world economy.

This meeting started at nine in the morning, and then lunch was served at the Castle Manor.

After the meeting, there was another cocktail party in the evening.

Although many people were puzzled about this arrangement, they didn't ask much.

The police had set up a cordon ten miles away from the manor. Then, there was a guard post every 10 steps.

Anyone who wanted to go to the Manor had to verify their identities first.

When they reached the entrance of Beale Manor, apart from checking their identity again, they had to bring no more than five bodyguards and an entourage with them. They couldn't go in with guns. After the infrared scan, they could enter the castle.

The rest of the bodyguards and entourage would be arranged to have their own rooms. It was to ensure the safety of everyone who entered the castle.

After all, the guests were all powerful people. Not everyone was so friendly. What if there was a conflict among them? It might lead to war.

Gong Tianhao, as the host, naturally did not want such a thing to happen.

Therefore, disarming them was the best way.

Even if there were a conflict among them, it would still be a physical conflict. As long as no one died, there was still room for negotiation.

Regarding the safety of the manor, Gong Tianhao and the butler took it seriously. They made all sorts of arrangements, especially the security issue. They had even increased their vigilance, and the security was very tight.

.....

Apart from the nearly fifty to sixty security personnel in the castle, Gong Tianhao directly transferred another fifty elites from his own bodyguard company to ensure the safety of everyone.

Among them, Yue Qilin, Li Wendong, Xie Zhenzhong, Yuan Min, and Wenzhi were all transferred over. He even transferred Situ Xing and Gong Yingxiong over as well, just in case of any accidents.

After all, the people who came to this gathering were all extraordinary people. They couldn't afford any accidents.

They called Situ Xing over because they needed a doctor too.

It had to be said that Gong Tianhao attached great importance to this meeting. No one knew that he was doing all these to promote his wife's products. That was how much he supported and loved his wife.

The two female bodyguards stayed by Xiao Lingyu's side to protect her. Yue Qilin and the other two followed Xiao Letong and Xiao Ling. As for Gong Yinxiong, he was in charge of the security operation.

Although the two children did not need anyone to protect them, in the eyes of outsiders, they were still weak children.

Gong Tianhao's arrangement was obviously to show how much he valued his wife and children.

This time, he was announcing his wife and children's identity to the world.

In the past, Gong Tianhao was responsible for hiding and protecting them well. But now, he changed his mind because his wife and children were more than capable of protecting themselves. Unless there was another immortal, no one could do anything to them.

As for the big shots who came to attend the meeting, although they didn't hear that Gong Tianhao's family was also at the manor beforehand, they instantly found out when they arrived at Beale Manor. They were intrigued. They had heard that Mr. Gong's wife is a very beautiful woman, and the son is a child prodigy.

Therefore, they were naturally curious. They were also curious why the normally low-profile Mr. Gong would suddenly become high-profile.

The interior of the castle was decorated with a festive atmosphere. Mr. Gong was Chinese, so there were red lanterns, red ribbons, and other red decorations everywhere.

When they entered the castle, they could immediately see the national flags of various countries erected in the center.

Then, the tall and burly bodyguards in black clothes and sunglasses were waiting solemnly. They were very alert and vigilant.

Chapter 929: The Shocking Party

Gong Yinxiong was in charge of coordinating the operation. The butler and two other bodyguards were in charge of checking the identity of the guests.

As for Gong Tianhao, he brought his wife and children to entertain the guests in the hall.

Gong Tianhao was handsome. His facial features were sculpted like a sculptor. They were exquisite and sharp. Today, he was wearing a white tuxedo that accentuated his tall and straight figure. At the same time, he appeared gentlemanly and imposing.

Xiao Lingyu, who was beside him, was dressed up for the occasion. She was wearing a red gown and had a tall and slender figure. Her curves were perfect, and she was a natural beauty. It was mesmerizing to look at her.

Her light makeup was stunning. Her facial features were exquisite and perfect, and her fair and tender skin was smooth. However, what people couldn't forget was her pair of eyes. They were big and spirited.

Xiao Lingyu was beautiful and charming yet elegant and dignified. She had the bearing of a noble lady, and it was difficult to ignore and forget her.

When Gong Tianhao first saw his wife after she finished dressing up, he was stunned.

Then, he reacted and hugged Xiao Lingyu, whispering, "Wife, you are abnormally beautiful today. I really want to hide you away from everyone else."

Xiao Lingyu's small hands gently pounded on his chest as she said shyly, "Alright then!" Following that, she looked into Gong Tianhao's eyes and said, "You are also very handsome today. I also want to hide you so that no woman can see you."

"..." Gong Tianhao chuckled and said, "We even have the same thoughts. We are truly a match made in heaven."

Xiao Lingyu could not help but laugh when she heard that.

The servants at the side acted as if they did not hear anything.

However, when they heard the master, they couldn't help but grin. They had no idea that their master, who had always been cold and stern, would be like around their mistress. They kept showing off before others. Plus, they didn't care that their two children were watching from the side. The servants were surprised by this.

Of course, what made them even more surprised was that the two children completely ignored their parents' display of affection. It was obvious that they were used to their parent's behavior. Sometimes, they even interrupted their parents. The male owner was so angry that he almost beat them with a stick.

In short, this family was happy and warm.

These servants and bodyguards used to work in big families. However, some of those families only looked happy on the surface. Deep inside, the family was rotten. Of course, that had nothing to do with the servants. They just had to do their own things well.

However, when they worked in a happy family, they would feel happy too. As long as they did their jobs well and did not commit any crimes, they would definitely not attract the master's dissatisfaction.

Standing beside Xiao Lingyu were the two children.

Today, the two children were also wearing two sets of small black tuxedos. Xiao Letong's appearance was 70-80% similar to his father. He was wearing the same clothes and had the same serious expression. At a glance, the father and son were practically carved from the same template.

As for Xiao Ling, he was the spirit and had a contractual relationship with Xiao Lingyu, so his human form was also somewhat similar to Xiao Lingyu. Xiao Lingyu told others that she had adopted Xiao Ling and no one really asked for more details. However, those who were not familiar with them would think that Xiao Ling was Xiao Lingyu's biological son.

Xiao Ling was beautiful and full of spirit. In a tuxedo, he was really cute and adorable.

"Welcome, Mr. Wright!" Gong Tianhao greeted the person politely.

"Mr. Gong, so you are the mysterious buyer who bought Beale Castle Manor!" Wright looked at Gong Tianhao and said in surprise, "You are too good at hiding it!"

Five years ago, he also intended to buy Beale manor, but a mysterious person beat him to it. This made him very depressed, so he sent someone to find out the identity of the mysterious person. The other party hid it too well, so he couldn't find out. He didn't know until now that it was the president of the Imperial Group who bought it.

Gong Tianhao smiled.

"Mr. Gong, who is this beautiful and elegant lady beside you?" When Wright entered the hall, he immediately noticed the lady beside Gong Tianhao. Out of courtesy, he greeted Gong Tianhao before asking about Xiao Lingyu's identity.

Gong Tianhao smiled and introduced, "This is my wife, Xiao Lingyu. Yu'er, this is Count Wright, a noble from country D!"

Xiao Lingyu extended her hand and greeted with a smile, "Hello, Mr. Wright!"

"Hello, Madam!" Wright said very politely, "It's an honor to meet you!"

After saying that, he wanted to take Xiao Lingyu's hand and kiss it.

Gong Tianhao immediately extended his hand and said, "Mr. Wright, your seat has been arranged inside. Please go in and rest!"

Mr. Wright, "..."

Chapter 930: Prank Rexham

Those who attended the meeting were all of the high statuses. The meeting started at nine. Most of them arrived at the manor on time. It was rare for them to arrive early, but there were some who wanted to be the last to arrive.

Gong Tianhao was very clear about the order of appearance. No matter what, once the time was up, the meeting would go on as usual.

"Oh, Mr. Gong, your wife is so beautiful. She is like a goddess of Venus." The guest praised, "And you have two such cute babies. Mr. Gong, you are so lucky and happy!"

Gong Tianhao smiled and said, "That's right. I married such a beautiful wife and have two such cute children. I am indeed lucky and happy!" He had always felt that meeting Xiao Lingyu was the greatest happiness in his life.

Although they had missed each other in his previous life, in this life, whether it was his wife or son, they had given him the greatest surprise.

Therefore, the only thing he could do now was to pamper them and let them live happily.

Of course, when a few guests saw the beautiful Xiao Lingyu, their eyes could not help but reveal some lewdness. They almost drooled. Fortunately, the attendant beside them reminded them. Otherwise, they might have been chased out by Gong Tianhao on the spot.

They must be tired of living.

Fortunately, that person also knew his own limits. He knew that Gong Tianhao's wife was not someone that he could easily offend. However, Gong Tianhao didn't treat him well. He did not even introduce his wife and child to him.

It was then that he made up his mind that he would definitely not invite Gong Tianhao to any events in the future.

This guest had been trying to figure out how he could get in touch with Madam Gong ever since he entered the hall. Madam Gong was too beautiful. It really moved him.

If he could have sex with her once or twice, it would be worth it even if he offended Gong Tianhao.

Furthermore, he was a member of the royal family, and Gong Tianhao was just a merchant. He didn't believe that Madam Gong wouldn't be moved. That was how the other rich ladies in the past reacted anyway. Even if they had a husband, as long as he said a few words of temptation, they would jump into his arms.

.....

This guest thought that Xiao Lingyu was the same as the noblewomen he had interacted with in the past.

Hehe, he was too naive.

Little did he know that his expression was noticed by a child. When he saw that this guest had ill intentions toward his mommy, a dark light flashed in Xiao Letong's eyes. His face revealed disdain as he thought to himself, "What a buffoon! He actually has bad intentions toward Mommy. He really needs to be taught a lesson!"

Therefore, the guest who was walking properly would suddenly fall. He would choke when he drank a mouthful of water. He would also suddenly become constipated when he went to the toilet. Or he would suddenly poop.

His entourage suspected that their master had been poisoned, but they couldn't find any evidence.

After all, they had been at the party for only half an hour. What kind of food poisoning act so quickly?

Furthermore, no host would be so stupid as to trick a guest at his own party. The host would lose face and time.

Also, every guest who came to attend the gathering had a high status in their country and was extremely powerful. Since Gong Tianhao invited them over, there was no reason for him to offend them.

Most importantly, they hadn't eaten anything since coming here. They hadn't even had a sip of tea. There was no reason for them to blame the host.

Therefore, the entourage did not dare to say anything lest they offend Mr. Gong.

"Shit, what is going on?" Marquis Rexham, who had been tormented by a series of small accidents, was almost driven mad.

The entourage asked carefully, "Master, why don't we invite a doctor to take a look?" Alternating constipation and diarrhea were torturous. The choking on water was unfortunate too.
