

The First Heir Chapter 2921 - 2925

Chapter 2921

Hearing this, Fennel and Moses were shocked but quickly accepted it. That was right. This man looked too much like a boy toy. Fennel then glanced at Philip with a look of realization.

“Hey, did something happen between the two of you the other day? Is that why Lord Ludo treated you with such hostility after that?” Fennel nudged Philip as he asked.

Philip scratched his nose helplessly without a word. After that, their discussion revolved more around the upcoming challenges in the Mystic Cave.

“Based on the information I found out, the challenge this time is different from the previous ones.”

Moses looked very worried and said, “In the past, there were three levels, but this time, there are five levels.”

Philip frowned and asked, “What’s the challenge all about?”

Moses said, “As far as I know, the first level will be based on the individual’s level. Only disciples above the fourth zone can enter because there are many dangers in the Mystic Cave and ordinary people can’t set foot there.”

“The second level is a direct confrontation. Each person will fight on a one-to-one basis conducted in their respective areas. Only the winner will get to enter the third level. The third level is the start of the actual challenge, which is to kill the strange creatures in the Mystic Cave! Only the top five groups or individuals who killed the most will get the chance to enter the fourth level... As for the fourth and fifth levels, nothing has been revealed yet.”

After Moses finished speaking, Lord Ludo nodded and said, “He’s right. This challenge is different from the previous ones. Only those who enter the fourth and fifth levels have the right to find out.”

Hearing this, Philip fell silent. After thinking for a while, he asked, “What was the strength of those people just now?”

Lord Ludo replied solemnly, “Very strong. It’s more than enough to enter the fourth level!”

Philip nodded and added, “If I stop them from entering the fourth level, do you think they’ll send someone to hunt us down?”

Hearing this, Ludo stared at Philip in amazement before she shook her head and said with a smile, "That's impossible. Even if you think highly of yourself, you may not run into them at all. Even among the rest of the forces, the strength of Hugh Woods and his party is still at the top."

Philip nodded and made a rough judgment.

Soon, the broadcast was heard outside.

"The challenge of the Mystic Cave officially begins. Please get ready to enter the challenge area. This is an important reminder to all disciples below the fourth zone. Please do not enter the challenge area and wait outside the entrance!"

This broadcast was set on repeat. Soon, various forces headed toward the entrance of the challenge area. At the entrance, more than a dozen groups of forces had lined up.

When Philip and the others arrived, they saw Hugh Woods and the others in the first row. Hugh looked at Philip and his party with chills and mockery in his eyes. He made a swiping motion across his neck.

Philip frowned and ignored him.

Of course, the two Dragon Kings of Mystic City, Claus Motley and Windsor Well, stood at the entrance.

The first dragon king did not attend but was represented by a middle-aged man in a black coat with a grim face. Claus stood at the forefront and glanced at the groups participating in the challenge. He nodded with satisfaction and said with a smile, "I'd like to thank everyone for making the trip here to witness the secret treasures of the ancient sage. Now, the challenge of the Mystic Cave officially begins. I wish everyone a safe return!"

"Open the door!"

At Claus' command, the huge electronic door slowly opened.

Boom!

A very terrifying aura suddenly rushed out of the Mystic Cave and engulfed everyone. In the face of this terrifying aura, everyone felt as if they had become very small in an instant.

Particularly, the huge cave in front of them looked like the mouth of a huge beast that could swallow a soccer field.

Philip frowned and suddenly felt a strong reaction from the starstone in his pocket. The Mystic Cave had a connection with the starstone!

Chapter 2922

The huge electronic door dozens of meters wide opened slowly. The Mystic Cave that exuded ancient and weathered vibes appeared in front of everyone. One after another, the terrifying aura swept over everyone like huge waves of the ocean. It was too strong and terrifying. Philip immediately felt that this aura could only be exuded by a half-step to the other shore.

This Mystic Cave was more than met the eye!

While Philip observed, the starstone in his pocket started to get hot. With a frown, Philip took out the star stone from his pocket and found that the star stone had turned a strange black at this moment. Even the pattern on it glowed with a touch of gold.

“What the heck?” Philip was startled.

The starstone had formed a connection with the Mystic Cave. This connection was even stronger than the previous blackstone!

In other words, there were things with the same substance as the starstone in the Mystic Cave.

At the same time, Claus stood on the high platform at the forefront, looked at everyone, and said, “The challenge officially begins. I wish everyone good luck!”

With that said, the groups of various forces began to enter the Mystic Cave. Everyone who entered the Mystic Cave must undergo a check to determine their eligibility. Among them, many people who tried to sneak in were kicked out immediately, and those who wanted to make trouble were also arrested on the spot. After all, many heavily armed soldiers stood on guard nearby.

Windsor stood next to Claus, looked at Philip, and sneered.

Philip made eye contact with Windsor, and both of them looked away silently.

Fennel noticed this and reminded in a low voice, “Windsor Well has definitely arranged for someone among the groups to attack us. We have to be careful.”

Philip understood and nodded in response but did not tell him about the connection made by the starstone.

Soon, everyone entered the Mystic Cave. Once they entered, everyone felt the terrifying aura in the Mystic Cave. They felt cold all over and could not help the feeling of being watched.

Following the guide, they arrived at the challenge grounds of the first level. It was a machine to test the individual's realm. Anyone lower than the realm of the fourth zone would be eliminated. This process lasted for half an hour, and half of the people were immediately eliminated.

Next, the one-on-one fight in the second level was the highlight!

Everyone entered their respective challenge areas and competed according to the rules one-on-one. There were also competing groups instead of individuals. There were a total of 30 challenge areas.

Philip and the others stood in their challenge area and looked at the surrounding environment.

The Mystic Cave was dark and deep with terrifying auras leaking out from time to time. As everyone looked at the surroundings, a group of people walked in from the opposite passage. It was their opponents. This group of people was all in black with their faces covered.

As soon as they appeared, they rushed over immediately without a word. Their target was very clear, Philip!

Philip frowned and immediately knew the background of these people. Windsor Well sent them!

Boom!

In an instant, a dazzling battle broke out on this challenge ground which was only a hundred square meters!

Chapter 2923

A chimera soared through the air, sword energy sparkled, and a red dragon danced. In less than five minutes, this group of people fell to the ground.

Philip scowled as he held the longsword formed from the air in his hand. He wanted to get close to the group of people, but they suddenly turned into a pool of blood.

Lord Ludo walked over and said with a frown, "Dissolving corpse water. They're death warriors. Who did you offend?"

Philip shrugged and said, "It's nothing. Next level..."

Soon, they arrived at the challenge grounds of the third level. This was an open area full of gravel and platforms with ravines more than ten meters long between each platform. At this moment, many people were already standing on the platform, looking coldly at Philip and his party.

Hugh Woods and his gang stood on the largest platform. He stared at Philip and the others coldly while saying mockingly, "Wow, I didn't expect to see you alive here. It's really gratifying."

Philip frowned, glanced at the arrogant Hugh, and ignored him. Instead, he looked at the huge stone door in front of him.

The door was more than ten meters high and dozens of meters wide. Many totems and portraits were carved on the stone door. They were of many creatures that could not be explained in modern society. The stone door also exuded a terrifying aura that suppressed everyone. It was as if there were creatures that did not belong to this world behind the stone door. As long as the stone door was opened, they would rush out and massacre the human world.

At this moment, the major families and forces focused their attention on the stone door. These people were either carrying heavy machine guns or holding weapons in their hands. It was really quite contradictory to have a group of modern people appearing in the Mystic Cave facing a stone door that did not belong to the civilization of this era.

Seeing that Philip had ignored him, Hugh glared at him viciously, picked up a pistol, and aimed at the platform where Philip was!

Bang!

With a gunshot, the bullet hit the platform. It was a blatant provocation!

Philip stared coldly at Hugh who sneered at him.

Hugh said coldly, "How dare a bunch of riffraff like you enter the Mystic Cave? I advise you to go back quickly and don't go to your deaths!"

Philip smiled lightly, formed a longsword made of air in his hand, and slashed his sword at the platform where Hugh stood.

Boom!

The white sword light fell right at Hugh's feet and frightened him so much that he quickly retreated!

"You seek death!" Hugh shouted angrily, clenched his fists, and wanted to rush over.

The middle-aged man beside him shouted solemnly, "Hugh, that's enough! We have more important things to do here!"

Hugh glared at Philip and said, "I hope you won't die here later!"

Philip laughed and said, "The same goes for you."

Rumble!

At this time, the huge stone door suddenly opened. A terrifying aura poured out from behind the stone door. It was accompanied by low roars. It was as if countless beasts were making their skin feel cold and their eardrums hurt!

Everyone held their breath in anticipation, took out their weapons, and aimed them in the direction of the stone door.

Boom!

The door opened completely and revealed a deep dark space behind the stone door, full of vibes from ancient times.

"Let's go!" Someone shouted, and a group of people ran toward the stone door immediately. It was a mad dash!

Philip was in no hurry at all. He stood there and looked at the stone door warily.

"What's wrong?" Fennel asked.

Philip said, "I have a bad feeling..."

Right after saying this, the mark of the royal monster on Philip's arm began to react a little.

Chapter 2924

This sudden turn of events startled Philip. He looked at the mark on his arm. That change only happened for an instant before it became motionless again.

Did it sense its kind?

Philip frowned. The others did not notice this but stared at the stone door that was already open. After the forces entered the door one after another, no one could be seen, and not even a sound could be heard. It was as if the space behind the door was an abyss that devoured everything.

After waiting for a while, Philip was about to enter the door. At this moment, a figure shrouded in a black robe suddenly appeared on a platform beside them. This person in a black robe watched as Philip and his party walked through the door and entered the deep space. At the moment he entered the door, Philip turned back and saw the figure in a black robe.

It was a very strange and familiar feeling.

“Did you see that guy over there?” Philip asked.

Fennel and the others looked back and shook their heads.

Whoosh!

With a bright flash, Philip and the others appeared on a very ancient battlefield. They were surrounded by broken walls and ruins, and the ground was full of withered bones. This place was gloomy with a blood-red setting sun and clouds on the horizon.

After Philip and the others landed on the ground, they felt that this place was different from the outside world.

Lord Ludo said immediately, “It’s an alternate space!”

“Alternate space?” Philip asked with a frown.

Lord Ludo frowned and said gravely for the first time, “Yes, it’s an alternate space! To explain with the current scientific concept, it’s the opposite dimension of space! This alternate space has always coexisted with the real space, but it requires a strong technical force or a strong power of rules to open the door of the alternate space! Now, the only ones that can open the alternate space are our country, County M, and Country Y. It’s the highest symbol of scientific and technological civilization.”

After that, Philip frowned and asked, “What is the alternate space used for?”

Lord Ludo frowned and said, “It’s used to train special beings and detain some special prisoners! There’s an alternate space in the Heavenly Court too, which is used to detain some special beings found by the Heavenly Court over thousands of years. If I’m not mistaken, the alternate space in this Mystic Cave should be used to detain the group of creatures from the other shore that wreaked havoc in our country back then!”

After Lord Ludo finished speaking, Philip and the others became very solemn. Philip looked around and found a pre-Kai symbol on a ruined wall.

Was this the battlefield where Emperor Kai led a million armies to face the creatures from the other shore?

No wonder it felt so familiar... Philip had felt and sensed this in the space tunnel!

Chapter 2925

“What about the others? Where did they go?” Moses asked at this moment.

Everyone looked around and saw no one else on this vast battlefield.

Lord Ludo said, "An alternate space is divided into different opposites and different levels. They should be in a different level of the alternate space we're in."

As soon as that was said, the ground suddenly shook and the gravel on the ground began jumping like popcorn. In the distance, there was a galloping sound like thousands of horses and deep roars.

"Here they come!" Fennel frowned, raised his hand, and the red dragon halberd appeared in his hand!

Creatures from the other shore were about to appear. Philip and the others also immediately prepared for battle. They formed a circle and watched for the movements in all directions.

Rumble!

Trampling sounds raged, and the space scorched.

Suddenly, in front of them, four huge creatures that looked like huge scorpions raised their spiked tails high in the air and rushed toward Philip and the others amid the billowing dust. These black giant scorpions were more than ten meters long with a glowing dark red imprint on their heads!

"Charge!" Philip shouted and took the lead by jumping into the air. The longsword that was formed by air in his hand turned into a dozen sword beams and slashed at one of the creatures.

Fennel was also ready to fight. The red dragon halberd sparked and stabbed one of the giant scorpions in the head in a streak of light. Moses, 17, and the others joined forces to attack the remaining two scorpions!

Meanwhile, Lord Ludo hid on one side and watched from a distance.

Philip's sword attack cut off the spiked tail of one of the giant scorpions in one strike. Dark green fluid oozed from the tail and dripped to the ground. Fennel's red dragon halberd also pierced through the head of one scorpion and came out from its abdomen with a large pool of dark green fluid!

Moses, 17, and the others quickly got rid of the other two too.

They quickly reassembled in a group. The entire process only took two minutes.

At this time, a screen appeared in the sky with a voice broadcast, "Four giant scorpions were killed in the sixth battlefield and 400 points are awarded!"

Hearing the announcement, Philip and the others glanced at each other and understood in an instant. They were supposed to kill these weird creatures on this battlefield and obtain points. In this way, only the top five with the highest scores would enter the fourth level.

Philip and the others looked at each other and said, "Let's move forward!"

Everyone nodded and set off.

Less than a mile away, the ground suddenly shook like an earthquake. Immediately after, the ground in front of them began to crack. Several huge tentacles surged from the ground and turned up the soil. With terrifying energy pressure, those tentacles slammed toward Philip and his party.

"The strength of the fifth zone!" Philip frowned and finally understood why the first level excluded all the people below the fourth zone. The second type of creature from the other shore they just encountered had already reached the strength of the fifth zone.

In an instant, a huge battle broke out here. These tentacles had terrifying stings just like giant centipedes!

Philip jumped into the air and punched one of the tentacles.

Boom!

The flaming fist collided with the huge tentacle and a terrifying pressure exploded. The next moment, the tentacles shattered into pieces and turned into ashes.

Fennel and the others also cut off several tentacles. Immediately after, the ground shook violently.

Rumble!

The ground collapsed and a huge head emerged. There were eight huge mouths on that head, each of which was full of scary-looking fangs spewing smelly mucus. This huge head that emerged from the ground was the size of half a basketball court.

"It's the Eight-Jawed Beast!" Lord Ludo shouted.

From a small device she carried with her, she scanned the giant beast and analyzed the name and strength of the creature.

That was the foundation of the Heavenly Court!

The First Heir Chapter 2926 - 2930

Chapter 2926

The internal information of the Heavenly Court recorded most of the creatures from the other shore that had appeared in this world. It was complete with their detailed data analysis and combat power comparison.

At this moment, the small device in Lord Ludo's hands clearly analyzed the huge extraterrestrial beast that suddenly emerged from the ground!

'The Eight-Jawed Beast.'

'Combat power: Advanced stage of the fifth zone.'

'Combat attributes: Strong destructive power, strong ability to survive.'

Lord Ludo stood at the back and shouted, "Philip, watch out! This Eight-Jawed Beast has very strong combat power with strength at the advanced stage of the fifth zone. Moreover, its ability to survive is also very strong—at least three stars!"

Lord Ludo was terrified. She did not expect to run into an Eight-Jawed Beast with an overall evaluation of three stars as soon as she arrived in the alternate space of this challenge ground. In terms of strength comparison, the creatures from the other shore were more powerful despite being in the same realm.

That was because their combat power and ability to survive were stronger than humans. Even if a disciple were in the advanced stage of the fifth zone, they would appear very weak in front of this monster. That was the gap between the ability to survive.

Philip and the others stood ready for battle, staring fixedly at the beast that emerged from the ground.

This beast had a huge and fat body that was covered in indestructible scales all over. Its severed tentacles glowed with green luster at this moment, and new tentacles covered in mucus emerged from its body.

Roar!

Shrill cries resounded in the entire area!

Puff!

Strong corrosive liquid spewed from the creature's eight huge mouths and sprayed at Philip and the others like a waterfall. Philip focused and led everyone to retreat quickly. At the same time, he spread his arms. His body suddenly surged with tremendous energy fluctuations.

Three meters in front of him, the ground began to crumble and shake violently.

Rumble!

In an instant, a huge and heavy stone wall began to appear on the crumbling ground. The stones and gravel in the surrounding area also flew over and smashed onto this thick stone wall, forming a huge stone wall with a length of 100 meters in front of them.

Bang, bang, bang!

The liquid sprayed from the eight mouths of the beast bombarded the stone wall, shattering it layer after layer. It even split the stone wall into dozens of pieces.

Boom!

Smoke billowed, and gravel flew. Behind the stone wall, a fire chimera soared into the sky with an earth-shattering roar and rushed toward Eight-Jawed Beast dozens of meters high. At the same time, Philip jumped into the air with the longsword in his hand and slashed out a huge sword beam that looked like a waterfall!

Swoosh!

Sword light dazzled!

The fire chimera fell from the sky and spewed fire with a roar that burned toward the huge beast. The beast was burned by the hot flames and roared in pain. Several huge tentacles waved wildly and blocked the searing flames!

Chapter 2927

The huge sword beam slashed out by Philip cut across the beast's stomach at this moment!

Roar!

A miserable scream resounded throughout the world. The body of the beast was cut across in an instant, separating it into two halves. An endless stream of green liquid sprayed.

Rumble!

The huge body fell to the ground and sent dust and gravel flying.

Philip and the others stepped back and stared solemnly at the body of the beast lying on the ground.

Lord Ludo trotted over and said in a panic, "We need to leave at once!"

"Leave?" Philip was puzzled and asked, "Isn't it already dead?"

Lord Ludo said, "No, the Eight-Jawed Beast has a three-star ability to survive. If this is an adult beast, it'll change its form and enter a berserk state when it encounters a life crisis! At that time, its combat power will increase exponentially, reaching the strength of the sixth zone in the mid-late stage!"

Hearing that, everyone looked puzzled. At this time, the device in Lord Ludo's hands flashed red. The analysis screen of the Eight-Jawed Beast also flashed red!

Roar!

Suddenly, a green mist rose from the beast that had fallen to the ground in two pieces. Amid the thick green mist, a huge beast with hairy tentacles that looked like a spider with eight mouths slowly stood up.

Roar!

This roar resounded throughout the area. Waves of huge energy fluctuations exploded from the middle of the green mist. This energy fluctuation had increased from the late stage of the fifth zone to the middle stage of the sixth zone.

Lord Ludo looked at the diagnostic device in her hand and shouted in horror, "It's gone berserk!"

With that said, Philip and the others rushed out.

"End it quickly!"

Philip shouted solemnly. The longsword in his hand dazzled with energy fluctuations and slashed out several sword beams at the huge spider-like beast with eight mouths. The beast was covered in tentacles, and the eight mouths on its head made a terrifying cackling sound as it quickly rushed toward Philip and the others.

It moved very fast!

One of the huge spiky tentacles slashed at Philip who was wielding his sword!

Swish!

The spike was extremely sharp!

Clang!

Philip's longsword collided with this sharp spike, and a terrifying energy fluctuation broke out, which sent him flying out several meters away.

'It's very strong...' Philip thought.

This Eight-jawed Beast that had entered the berserk state had the strength of the middle stage of the sixth zone, which made it no weaker than Philip.

Rumble!

On the other hand, Fennel soared into the air in battle-ready mode. The red dragon halberd in his hand slashed out dozens of red streaks like a machine gun and blasted toward the beast on the ground. However, his attacks seemed like they were smashing on a huge armor that only produced flames without causing any great damage at all!

“What the hell?!” Fennel was stunned, and the sharp tentacles of the beast had already stabbed Fennel violently.

Fennel had to retreat dozens of meters and threw out the red dragon halberd to block the attack. Soon, they were caught in a tussle!

Lord Ludo hid behind a huge stone pillar and operated the diagnostic device. She said, “Quick, analyze its weaknesses!”

Finally, the screen on the device locked onto one of the huge mouths of the beast.

Lord Ludo ran out and shouted, “Philip, the second mouth on the upper left corner of the beast is its weakness!”

Chapter 2928

Hearing Ludo’s remark, Philip looked over intently.

The second mouth in the upper left corner of the beast was indeed somewhat different from the rest. It seemed a little smaller and was full of sharp fangs.

Philip rushed out immediately, swung the longsword in his hand, and slashed out a sea dragon. With huge energy pressure, the dragon roared and rushed toward the beast. It was a fusion between the air longsword and water attribute!

The dragon soared into the sky and stared fixedly at the beast as it roared loudly. The entire space was engulfed by the water waves brought by the dragon.

Boom!

The dragon crashed into the Eight-jawed Beast and sent it flying out dozens of meters away, knocking down more than a dozen stone pillars. At the same time, Philip jumped into the air, and the longsword in his hand was instantly covered with flames. Then, Philip’s eyes dazzled brightly as he slashed the beast!

Boom!

A flaming wave dozens of meters long turned into a flaming sword beam and slashed at the Eight-jawed Beast.

The beast roared and broke away from its fight with the water dragon. A huge tentacle pierced the body of the water dragon. The dragon's body turned into water and flooded the beast.

Moses saw the opportunity and dashed forward. He raised his hand and slammed toward the water on the ground. In an instant, a huge wave of chill surged from Moses' hand. The water that filled the sky and engulfed the Eight-Jawed Beast crackled and turned into ice.

The beast was frozen in ice like a huge ice sculpture!

At the same time, Philip slashed out a sword with flames right at the huge head of the beast.

Boom!

The flaming longsword slashed on the ice and white mist exploded.

At the same time, the ice block shattered and the flaming longsword pierced through three mouths of the beast.

Roar!

In an instant, the beast roared angrily, smashed through the ice, and jumped out. However, green liquid spurted out of its three injured mouths. The Eight-Jawed Beast went on a rampage and began to attack indiscriminately.

The whole area turned into the most tragic battlefield!

Philip, Fennel, and Moses attacked together, aiming at the second mouth on the upper left corner of the beast. However, the beast seemed to know their intention. Several of its tentacles turned into a shield to protect that mouth. No matter how Philip and the others attacked, they could not penetrate the shield formed by the tentacles.

"I didn't expect the defense ability of this beast to be so strong!" Fennel retreated from mid-air, landed on Philip's side, and wiped the blood spilling from the corner of his mouth.

Philip looked grim and had many injuries on his body.

"How do we attack?" Philip asked.

Seeing the beast swatting Moses away, he suddenly raised his sword and attacked!

Chapter 2929

Lord Ludo stood at the back and kept operating the diagnostic device. She quickly locked on those tentacles and shouted anxiously, "Those tentacles have gone through special evolution and have very high defense. Only the strength of the seventh zone can destroy them!"

Hearing this, Philip and the others became gloomy.

Rumble!

The beast once again fought with Philip and the others in an earth-shattering battle. No one expected an Eight-Jawed Beast in the middle stage of the sixth zone to be so difficult to deal with!

How on earth did those predecessors resist these extraterrestrial creatures from the other shore back then?

"Wait a minute! I found it!" Lord Ludo exclaimed, "The fourth tentacle is the most fragile. Crush it and the other tentacles will degenerate!"

Hearing that, Philip immediately aimed at that particular tentacle with the longsword in his hand and slashed away!

"But we only have one chance! If the attack is unsuccessful, the beast will be on guard and make it difficult for us to attack again!"

When Lord Ludo finished speaking, Philip had already jumped onto the huge body of the beast. With a longsword in his right hand and a ball of flames in his left, he slapped down on the fourth tentacle.

Boom!

Roar!

The miserable scream from the beast rang in the air. Immediately after, a figure was flung away and fell from the air. The beast rampaged on the spot and smashed the huge stone pillars around them indiscriminately.

Philip had destroyed the fourth tentacle. In an instant, the tentacles that blocked the second mouth at the upper left corner degenerated!

"Now's the time!" Lord Ludo shouted.

Philip, Fennel, and Moses looked at each other and jumped into the air. With the weapons in their hands, they displayed the most dazzling power and moves. They bombarded the second mouth at the upper left corner!

Boom! Bang!

“Flame attack!”

The red dragon halberd pierced through it!

The longsword slashed at it!

Ice crystals trapped it!

In an instant, terrifying energy fluctuations erupted from the head of the Eight-Jawed Beast.

Boom!

A shocking explosion sounded all around. The beast was engulfed by the overwhelming energy and was smashed into pieces. After the terrifying energy fluctuations dissipated, peace was restored in the area. A strong corrosive smell lingered in the air. At the same time, the 3D display screen appeared again in mid-air with a voice broadcast.

“Congratulations to the sixth battlefield for killing an adult Eight-Jawed Beast! You’ve been awarded 1,000 points, and you now have a total of 1,400 points!”

The current rankings were also displayed. There were more than 30 battlefields in total. The first place was the first battlefield, and the people there had already obtained 5,600 points!

On the battlefield where Philip was, the earlier 400 points had put them at the bottom. With 1,400 points now, they were placed within the top 30. The bottom three battlefields were already grayed out and marked with a red cross, which meant they had been eliminated.

Being eliminated meant dying in this alternate space!

At this moment, Lord Ludo stepped out and looked at everyone’s condition. Fortunately, it was not serious. She quickly took out a small box from her pocket, which contained some pills.

“These are developed using the essence of life. They can heal your injuries and restore your strength quickly.”

No one refused and simply popped one pill each. Sure enough, the injuries on their bodies were immediately covered by a light blue glow and they quickly recovered.

“Let’s go!” Philip said and stepped forward.

The following battles were even more cruel and tragic every time. Fortunately, with Lord Ludo around, she could quickly analyze the opponent's strengths and weaknesses!

Chapter 2930

Presumably, the same was true for Hugh Woods seeing as how he was able to obtain so many points so quickly. The sixth battlefield also obtained more than 4,000 points, and its ranking jumped from more than 20 to fourth place. The total points of the first battlefield had also been updated, reaching more than 7,000 points.

On this side, as Philip and his party went in further, the extraterrestrial beasts from the other shore they encountered also got stronger and stronger.

Philip and his party stopped outside a stone forest. The vast stone forest stretched out in front of them with bursts of disturbing Vibes from time to time. Moreover, a scorching airwave also accompanied them. Philip's sixth sense told him that it was very dangerous here.

The diagnostic device in Lord Ludo's hands also flashed red at this moment.

"What's up?" Philip asked.

With a solemn expression, Lord Ludo pointed the device at the stone forest for data collection and analysis. Finally, it got a result that shocked everyone!

"There may be a creature of the other shore with the true strength of the seventh zone sealed in there," Lord Ludo said in horror, her eyes grim.

Philip and the others also gasped and looked into the depths of the stone forest. They could sense a force that they could not mess with in the depths.

"Are we supposed to encounter creatures of the other shore with the strength of the seventh zone so soon?" Philip frowned and asked.

He had more or less figured out the rules of this alternate space. The further inside they went, the higher the level and strength of the creatures. However, compared to other battlefields, it seemed that the strongest was no more than the peak of the sixth zone. Thus, it was strange that Philip and his party had met creatures from the other shore with the strength of the seventh zone so quickly.

Lord Ludo shook her head and said, "I don't know either. I can't help the feeling that our area is different from other battlefields."

Philip looked at the surroundings intently. Suddenly, the ground shook and a heart-stopping roar suddenly rang from the depths of the stone forest in front of them!

Roar!

This terrifying roar resounded throughout the world. The whole stone forest began to shake!

Boom!

Suddenly, a raging wave of air gushed out from the depths of the stone forest. It swept over the whole area like a tornado. The scorching heatwave and power made Philip and the others feel the infinite pressure.

Beep, beep, beep!

At this time, a red screen appeared on the diagnostic device in Lord Ludo's hand, which displayed the analytical data of the scorching airwave just now.
