

The First Heir Chapter 2946 - 2950

Chapter 2946

Buzz! Buzz!

The huge One-Horned Beast turned lava-like red with rolling heat waves and made a humming sound like charging energy. Moreover, as time went by, the beast became redder and hotter!

Boom!

The beast pawed the ground with its four huge hooves, opened its jaws with a loud roar, and charged at Philip with its huge lava-red horn. At that moment, the single horn broke through the void like a comet collision with terrifying energy pressure. It was comparable to a full blow from a powerhouse of the seventh zone.

Philip's eyes darkened as terrifying energy fluctuations raged all over his body. He put his hands together, and a roaring fire chimera suddenly appeared behind him. The chimera soared into the air with a loud roar, and the entire canyon trembled violently. He pulled his arms back and gathered the surrounding energy in his fists.

More and more energy gathered in his fists before they finally turned into the heads of two dragons. This was also an attack with all of Philip's strength.

"Dragon Scale!" Philip roared angrily, jumped in the air, turned into a huge fire dragon, and soared into the sky!

The tremendous energy gathered in his fists that had turned into the heads of two flame dragons roared and blasted down from the sky with terrifying energy pressure. It seemed as if only Philip with his Dragon Scale Fists and the beast with the single lava-red horn remained in this world.

Rumble!

The fist smashed into the horn!

Bang!

An earth-shattering sound like a sonic boom resounded throughout the canyon. In an instant, gravel flew, cliffs crumbled, and the earth cracked. A huge ball of red light exploded between the two!

This ball of light enlarged and engulfed the whole canyon.

Boom!

A huge sound spread in all directions throughout the entire space in an instant!

The four groups in other areas of this space also heard the huge sound at this moment. Someone climbed to the top of the giant tree, looked into the distance, and saw a red ball of light rising in the air.

Samuel Woods stood with his hands behind his back on the top of the tree. His eyes were sharp, and the rules of swordsmanship flashed. Below him, Hugh Woods and the others worked together to kill a beast that looked like a goat.

“We need to hurry up!”

Samuel jumped down from the treetop and took seven or eight seconds before he landed. He glanced coldly at the beast lying in a pool of blood.

“Uncle Samuel, what is this place? Is it really a corner of the other shore?” Hugh stepped forward and asked worriedly.

Samuel nodded and said, “Yes, this is one corner of the three abandoned worlds of the other shore in our country, all of which were separated from the other shore by the combined efforts of our predecessors. The purpose is to study the rules and survival methods of the other shore and to develop some special talents so that we can deal with future challenges.”

Hugh’s face darkened as he asked, “Uncle Samuel, are you saying that we’ll fight the existence of the other shore in the near future?”

Chapter 2947

Samuel was silent before he said, “It’s not impossible. The Heavenly Court has recently detected some instability in the stargate, and we have also found more signs of awakening in these creatures of the other shore that remain in the country, so we have to make advanced preparations.”

Having said that, Samuel tapped the electronic watch on his wrist and glanced at the map. They were on the west side.

“Let’s go. We don’t have many opportunities left,” Samuel said.

In the center of the storm, the cliffs and the ground were swept away, causing gravel to fly around. When the storm finally died away, the whole canyon no longer existed!

In the center of the storm, there was a huge deep pit hundreds of meters in size. In the center of the pit, the single horn on the One-Horned Beast had shattered and the beast had fallen to the ground while covered in blood, howling miserably. The four huge chains were also broken.

Philip was not in great shape either. He was fortunate enough to have withstood the storm. After he landed, he glanced at the beast howling in the pit, turned around, and ran to the exit.

The entire canyon had collapsed. Fennel and the others had gone several miles away. They stood on the branches of the towering giant tree and waited for Philip.

“He’s here!” Lord Ludo shouted and rushed over immediately.

She looked very worried and asked nervously, “Philip, are you hurt?!”

Philip shook his head, landed on the branch of the giant tree, and said with a smile, “I’m fine. Let’s go!”

Fennel and the others nodded and continued to move forward along a route shown on the map.

This place was a dense forest formed by towering giant trees. They were 100 meters tall, so tall that no one could see the top. A human jumping through these giant trees looked just like a squirrel.

Was this what a corner of the other shore looked like?

10 minutes later, Philip and the others were still walking through the giant forest. They finally found a lake and decided to stop for a break.

“What kind of place is the other shore exactly? Even the trees are hundreds of meters high, and the beasts are so powerful. If they really invade our civilization, What can we do to resist?” Moses asked worriedly.

Philip and the others sat on the rocks and glanced around. Philip said, “I don’t know, but now that we know more about the rules and existence of the other shore, it’ll be beneficial to how we can resist their invasion in the future.”

Philip was right, but everyone was still filled with uncertainty. That was because they were imagining what the other shore was like, everything in front of them went beyond their cognition.

Was it a world filled with wilderness and exotic beasts? Or a highly civilized existence?

Everything was unknown. Maybe only the ancient sages who separated and moved the fragment of the other shore would know it.

Suddenly, the ground shook violently and caught everyone’s attention. It felt like thousands of beasts were galloping on the ground.

Everyone jumped on the tree trunks!

After a while, hordes of beasts passed under them and knocked down countless giant trees. These extraterrestrial beasts seemed to be running madly for their lives. Some beasts with the strength of the sixth zone among them either bit to death or knocked away the beasts blocking in front of them while they ran frantically.

Philip and the others kept jumping between the giant trees, and their expressions quickly became nervous. Something must have happened. Otherwise, these beasts would not be fleeing in a panic like this.

As they were puzzled over it, in the distance, a roar of a beast resounded throughout the space. Moreover, a powerful and terrifying aura spread.

“A king of the beasts is trying to breach the peak of the seventh zone!” Lord Ludo quickly judged and exclaimed!

Chapter 2948

Hearing this, everyone was stunned.

A king of the beasts was trying to breach the peak of the seventh zone. This was simply too scary!

Such a powerful beast actually existed on this piece of land?

“Are you serious?” Philip asked with a frown.

This was not good news.

Lord Ludo quickly nodded and said, “That’s right. We have records of this situation in the Heavenly Court database. Besides, look!”

While saying that, Lord Ludo took out the damaged diagnostic device, which had returned to normal by now. It must be the miasma in the canyon that had affected the normal operation of this device. At this moment, a red light constantly flashes on the screen in the middle of the device with the word ‘Danger’. The result of the diagnostic device stated that a king of the beasts was trying to breach the peak of the seventh zone!

Hiss!

Everyone gasped.

A beast in the peak of the seventh zone was not something they could face at this time!

Lord Ludo said gravely, "According to the results of the diagnostic device, every time a king of the beasts tries to breach the realm, a radius of a hundred miles will be shrouded in its presence, which is why these beasts are trying to escape because the surrounding area has been marked by the king of the beasts as its territory. Moreover, the king of the beasts will be most aggressive during this time. Thus, no one will dare to approach easily... These are some records of the king of the beasts that I saw inside the Heavenly Court."

After Lord Ludo finished speaking, Philip and the others stared intently into the distance where giant trees were collapsing as if a huge beast was rampaging. Below them, different beasts ran or flew for their lives.

Philip glanced at the map of the electronic watch on his wrist and found that the area where the king of beasts was trying to breach the realm was right in the middle of the route they had chosen to reach the exit. In other words, if they wanted to reach the exit, they had to pass through the territory where the king of beasts was, and they could not go around. That was because the map had marked this area as surrounded by broken cliffs.

"What should we do now?" Fennel asked with a frown.

He had noticed the severity of this matter. Passing through the territory of a king of beasts at the peak of the seventh zone was tantamount to courting death.

Philip looked at Ludo gravely and asked, "Is there any other way?"

Lord Ludo looked at the diagnostic device in her hand, shook her head, and said, "No. There's little information about the king of beasts. They're hard to come by. I didn't expect to meet a king of beasts from the other shore here..."

"In that case, we can only force our way through," Philip raised his eyebrows and looked into the distance.

After that, they gathered together, carefully looked at the electronic map, and analyzed the current situation. To pass through this area, they had to pass the stone bridge connecting the two cliffs. That was why Philip and the others had no other choice.

The stone bridge lay right behind the area belonging to the king of beasts. They could only reach the stone bridge after passing through the area where the beast was.

Chapter 2949

"Let's go and take a look first," Philip got up and said.

The others immediately followed and ran all the way.

The closer they got to the area where the king of beasts was, the more Philip and the others could feel the supreme pressure and terrifying power of rules that permeated the air. The pressure was like a strong gust of wind that hurt people's cheeks. More terrifyingly, the closer they got, the slower they became because there seemed to be a huge repelling force that prevented all creatures from approaching. It came from the center of the area where the beast was located.

The biting intent in the air made Philip and the others uneasy. A large piece of scorched earth lay before them. The surrounding giant trees had collapsed into ruins, and the ground was cracked as if an earth-shattering battle had just happened here.

"Did the king of beasts do this? This is too scary. This destructive power is comparable to a nuclear bomb!" Moses said in horror.

He was unable to calm down at the sight in front of him.

It was a huge pit the size of a small town, all scorched earth. Dozens of miles around were burnt black. In the middle of this deep pit, a huge winged beast shaped like a pterosaur sprawled. This beast was very huge. Its pair of wings alone was the size of a soccer field!

Its huge head, sharp beak, and huge fleshy horn on the top of its head glowed brightly with three colors like a luminous gem.

At this moment, the beast was panting as if it had just experienced a great battle. It lay in the deep pit and whimpered constantly, exuding a very unstable pressure. This pressure was the reason other beasts were fleeing for their lives!

Screech...

The beast howled as if in great pain. Its huge eyes noticed Philip and the others who had invaded its territory. It flapped its wings and blew up a hurricane. This hurricane destroyed the nearby giant trees and sent gravel flying!

Philip and the others took on a defensive posture. However, after a few movements, the beast slid down again as if exhausted.

"What's going on?" Fennel asked.

Lord Ludo took out the device and pointed it at the beast to collect and analyze its data.

"This is a Winged Dragon, an adult extraterrestrial beast in the mid-stage of the seventh zone. It failed in its attempt to reach the peak of the seventh zone and is now gathering its strength in preparation for the next attempt." Lord Ludo explained and became nervous.

Philip frowned, stared at the beast, and said, "Let's take advantage of this opportunity to force our way through!"

Several people looked at each other and set off immediately. Faced with the shocking pressure radiating from the winged dragon, they rushed to the rear!

Screech!

Seeing several uninvited guests breaking into its territory, the dragon was very angry. It wanted to flap its wings, but it had consumed too much energy just now. Thus, it could only screech to vent its anger!

Philip and the others circled the edge of this huge deep pit and ran several hundred meters forward.

Whoosh!

Suddenly, a huge gust of wind swept in front of them!

"Watch out!" Lord Ludo exclaimed.

Philip frowned. The dragon had swung its thick long tail at them with a huge gust of wind and flying gravel. It was comparable to an attack at the early stage of the seventh zone!

Philip dodged, put his hands together, and smacked out!

Rumble!

The ground collapsed and a thick stone wall rose from the ground in front of Philip and the others. They also jumped back dozens of meters!

Boom!

The huge tail of the dragon smashed through the huge stone wall and sent the shattered stones toward Philip and the others. Fortunately, Philip and the others had retreated to a safe area.

Huff!

Everyone gasped.

"What now? It refuses to let us go over," Moses asked anxiously.

Suddenly, the dragon flapped its huge wings and flew into the air, bringing winds like a sandstorm with it. It roared several times as if declaring its claim over its territory!

Chapter 2950

Everyone looked up at the huge dragon in the sky. It circled up high in the air with a huge gust of wind and screeched at Philip and the others on the ground with huge energy pressure. At that moment, that energy pressure was like a mountain that weighed tens of millions of tons, pressing down on everyone's heads!

Philip frowned and had no choice but to unleash his kingship energy field to shield Fennel and the others. The kingship energy field withstood the pressure from the sky. However, he was only in the early stage of the seventh zone. Besides, he had just advanced to this stage and his strength was still unstable. Faced with a king of beasts that was about to breach the peak of the seventh zone, his odds of winning were very low.

Screech!

The dragon opened its huge beak and spewed strong winds from its mouth. The winds contained wind blades that smashed all the giant trees around to bits!

The sky was full of strong winds with terrifying energy pressure that swept over Philip and the others!

Philip met the attack and unleashed the absolute barrier of the kingship energy field!

Whoosh!

The winds scraped on the absolute barrier of the kingship energy field with a loud whirring sound that tortured the eardrums of everyone inside. What was even more scary was that the winds splintered some cracks in the barrier!

"If this goes on, we definitely can't beat this beast!" Fennel made a judgment immediately and got ready to fight.

Philip raised his eyes, looked at the stone bridge in the distance, and shouted, "You guys leave first. I'll break the pursuit!"

"No, absolutely not! This is a king of beasts with the strength of the middle stage of the seventh zone! There's no way you can beat it now!"

Lord Ludo immediately grabbed Philip's arm and shook her head desperately.

Philip frowned and glanced at Fennel. With a violent slap, he shoved Lord Ludo and the others out of his kingship energy field!

At that moment, Lord Ludo's eyes widened as she stretched out her hand, trying to grab hold of Philip with all her might. She shouted, "Philip!"

Philip turned around and glared at the dragon in the sky. An energy vortex appeared around him, and the soles of his feet swirled with red flames.

Boom!

Philip soared into the air like a man on fire and punched the dragon in the sky. On Fennel's side, he led everyone and ran in the direction of the stone bridge.

In the sky, the dragon looked down and saw Philip jumping into the sky like a burning man. It also saw Fennel and the others who wanted to take the opportunity to escape. It screeched angrily and flapped its huge wings, wanting to dive down!

"Your opponent is me!" An angry shout!

Philip's body raged with energy pressure as his flaming fist punched the dragon in the sky.

Boom!

This punch contained Philip's killing intent. It turned into a huge flaming fist and slammed into the dragon!

The dragon screeched angrily and flapped strong winds with its wings at Philip!

Poof!

The wind collided with the flaming fist, and an earth-shattering power exploded. The flaming fist was blown away by the wind and filled the air with flames, making the sky burn red!
