

The First Heir Chapter 3181 - 3190 -

Chapter 3181

Philip said to Kerry, "I bore you no grudges but you keep picking on me, so I have no choice but to fight you today. Today, let everyone here be a witness. If I lose, I won't go to the East District to seek revenge, and the same goes for you, okay?"

At this time, Kerry was full of fury.

He snorted and said, "Okay, but one of us will die today!"

While speaking, Kerry had charged toward Philip.

As expected of a six-star practitioner, his movements were extremely aggressive, and his strength and speed were beyond Keegan's!

Everyone was stunned at this scene. No one expected that Kerry from the East District was this strong.

As for Philip, not only were there no rays of light on him, but he was standing with his hands behind his back as if waiting for Kerry to approach him.

Everyone could not help but feel anxious for Philip.

Was Philip no match for him?

This question emerged in everyone's mind almost all at the same time. However, Philip seemed unmoved. As Kerry's powerful punch reached Philip, Philip's expression suddenly turned cold.

A strong fire elemental power exploded from Philip's body!

When everyone least expected it, Philip's punch collided with Kerry's fist.

The intense flames instantly burned the clothes on Kerry's body. At the same time, a sharp sound of broken bones was heard.

Crack!

Kerry lost all fighting ability with just one punch!

Philip put his hands behind his back again, glanced at Kerry, and said, "Remember our agreement!"

With that said, Philip turned around and left the boxing arena. Kerry fled away with a drooping arm.

The crowd booed at Kerry.

Philip's status soared to new heights in everyone's eyes!

Leopard also came up and said to Philip, "Boss, you're really amazing. You actually took down a six-star talent powerhouse in one move!"

Philip said without looking at Leopard, "If you train hard, you can do it too!"

Hearing that, Leopard immediately looked at Philip eagerly.

"Boss, how should I train then?"

As Leopard wondered, Philip sighed and said, "Let's do this. You and your buddies can start to remodel this place now. I'm going to hold a training cram school here."

Leopard was startled at Philip's words. "A cram school for practitioners?"

Philip nodded.

No matter where they were, to have a better chance to practice, one must first have money, which of course is referred to as star dollars here.

Philip fought with Kerry on the street just now because he wanted to promote himself. Including the testing at ten o'clock tomorrow, it was to promote himself too.

This was the most feasible way to make money that Philip had thought of so far. After all, he was now a rising star on the lower floor of the underground city.

After the establishment of the cram school for practitioners, in addition to guiding others to train, he could better understand the world, including training resources and technological resources. This was his capital for settling down in the land of the other shore.

With this, he could go further in search of opportunities.

However, at this moment, someone else turned up.

"I want to see who's so bold to molest my fiancée on the street!"

Chapter 3182

Hearing this voice, Philip immediately looked in the direction of the door.

A group of people was following a young man and marched into the boxing arena. With an unruly look on his face, he glanced around the boxing arena.

Philip wondered where this person came from. However, Leopard's face had changed drastically, then Philip knew that Leopard must know this person.

Immediately, Philip tapped Leopard beside him and asked, "Do you know him?"

Hearing Philip's question, Leopard's expression changed again.

"This is Young Master Finn of the lower floor underground city, also Arlene Shannon's fiancé. He must have found out that you tested Arlene, and he's now here to make trouble!"

Before Leopard could finish speaking, that group of people had approached them.

Young Master Finn practically had his nose up in the air.

Seeing this scene, Philip knew that the other party was here for him, and immediately stepped forward.

When Young Master Finn saw Philip, he snorted coldly.

"Are you the one who molested my fiancée in the street?"

Philip frowned slightly but grumbled inwardly.

Was there something wrong with this person?

He made adjustments to Arlene's condition and made her an elemental star talent practitioner. No matter what, he should thank Philip. However, the other party's attitude made it clear that he was here for trouble!

"Which one of your hands touched my fiancée? You can chop it off yourself to spare me the trouble, and maybe I can spare your life," Young Master Finn said arrogantly.

Philip snorted coldly and said to Young Master Finn, "Don't you know that your fiancée has now changed from a white husk to a level 2S water element star talent practitioner?"

The meaning behind Philip's words was to remind Young Master Finn that he actually helped his fiancée Arlene.

To Philip's surprise, however, Young Master Finn suddenly rushed toward Philip at this time.

“How dare you brag in front of me? You b*stard!”

Young Master Finn was not that strong. Even Philip could tell that Leopard could easily deal with him.

However, seeing Leopard's fearful expression and what Leopard said before, Philip immediately realized that Young Master Finn must have some strong backing. Despite that, having strong backing did not mean that he could bully others on a whim.

Especially Philip. In fact, Philip's strength was enough to lord over the entire lower floor, but Philip chose a steady route to develop slowly here.

At this time, Philip was fighting against Young Master Finn. He did not even use his true strength but Young Master Finn was already knocked away by him.

Yes, it was a head-on fight.

Against Young Master Finn's attack, Philip did not even bother to dodge. He simply chose to confront the other party head-on.

The result was obvious. Nothing happened to Philip, but Young Master Finn was knocked far away.

Seeing him flying out, his people helped him up.

Philip said to Young Master Finn, “You should stop embarrassing yourself!”

However, Young Master Finn snorted coldly and said, “Fine, I'm embarrassing myself. just you wait. I don't believe no one on the lower floor of the underground city can take you down!”

Chapter 3183

As Young Master Finn left with his people, Philip shook his head and said, “This Young Master Finn is really out of his depth!”

However, Leopard's expression crumbled.

“Boss, why don't we leave here now? Even if we go to the upper floor to be beggars, it's better than being hunted down by Young Master Finn...”

Seeing Leopard's expression, Philip just smiled. “Don't worry, that won't happen. You don't need to take him seriously. All you have to do now is to follow my orders!”

Philip did not say anything else but walked out of the underground boxing arena. He had been out for a long time. If he did not go back now, Emily would be worried.

On the other hand, Leopard was glum. Whether Young Master Finn or Philip, he could not afford to offend them. He dared not mess with Young Master Finn, much less disobey Philip.

“Young Master Firm is a petty person. Although the boss isn’t afraid of him, I am. I really hope he doesn’t come after me.”

Leopard could only keep praying.

Philip finally saw Emily at this time, but when Emily saw Philip, she said coquettishly, “Brother Philip, where have you been? I’ve been looking for you. Food is ready!”

Hearing that there was food to eat, Philip immediately moved to Emily’s house excitedly. However, to Philip’s surprise, Iris was here too.

“Oh, are you here to freeload again?”

When he saw Iris, Philip could not help teasing her, but the more Philip said that, the more Iris took it for granted.

As Philip had given Emily a lot of star dollars, the food today was much better than before. On the table, there was fine food such as pan-fried lamb chops too. This was the first good meal Philip had since he came from the original world.

However, when they were eating, Iris said to Emily, “Emily, have you heard? Someone tested Arlene of the Shannon family today. It turns out that Arlene is actually a level 2S water element!”

“I wonder who’s so powerful, even better than the test tower! It’d be great if I can get tested too!”

Iris was eating and talking, looking distracted.

However, when Philip heard what Iris said, he said softly, “Do you really think that you can also become a star talent practitioner if someone tested you?”

Iris froze at Philip’s words. This remark made Iris realize that even if someone tested her, it would be useless if she did not have talent.

Iris snorted as she glared at Philip and said, “Anyway, I don’t need your help. Why are you bothered?”

Philip smiled lightly.

He knew that as long as he appeared around the test tower, he would immediately attract everyone’s attention.

Chapter 3184

Seeing this bickering couple, Emily tried smoothing things out and said, "Brother Philip, since there's such a chance, why don't you go too? You're so strong. Maybe you have elemental talent too!"

When Philip used the fire element before, Emily did not see it, so she did not know that Philip was actually an element practitioner. Philip also did not tell them that he was the one who did the testing for Arlene in the test tower.

He did not explain to them either. After dinner, he went out for a walk. When he came back, he found that Iris had occupied the sofa that belonged to him.

"Hey, shouldn't you go back to Emily's room?" Philip asked Iris without sitting down.

Hearing that, Iris just snorted softly and said, "I want to settle things with you. Leopard and his men wrecked my bar, and they haven't sent the other part of the star dollars yet. I'm telling you, if they don't pay up, I'm going to sell those mechas!"

Philip raised his brows and asked, "Do you have someone to sell those mechas to?"

Iris looked pretty confident about it.

"If I don't have such channels, how could I open a bar here? Just tell me what to do with those mechas!"

Hearing that, Philip stroked his chin.

If the training cram school were to open for business, he still needed to buy some stuff. Now, it seemed that selling those mechas was also a good idea.

Since Iris had a way, why not let her sell those mechas?

At the most, he would give Leopard a cut.

Thinking of this, Philip said to Iris, "In that case, help me sell the four mechas. I'll give you a cut as payment for being the middleman!"

Hearing that, Iris was startled before she muttered, "You must be sick! Those are not your mechas!"

While grumbling, Iris got up from the sofa and strode to Emily's room. Philip lay on the sofa.

When Iris and Emily got up early the next morning, Philip had just returned from a long workout.

“Brother Philip, we’re going to the test tower today. Do you want to go with us?” Emily came out, saw Philip, and asked.

Philip knew that although the other party was asking if he wanted to go with them, she wanted Philip to come along.

At this moment, Iris came out.

“He just has some brute force. How could he have any elemental talents? Just the two of us will do.”

Obviously, they had woken up long ago and were cleaning up in the room.

“Let’s go together. I can watch the fun!”

With that said, Philip went out the door. Emily smiled. Philip’s antics made her feel a sense of closeness.

A group of three, Emily and Iris walked in front while Philip followed. They walked leisurely to the test tower.

Chapter 3185

To Emily and Iris’s surprise, as they got closer to the test tower, most people turned to look at them. It was not just looking but also pointing at them!

This made both women feel a little flattered. They had never received such treatment when walking on the street before.

Iris was more forthright, holding her head high as if she enjoyed the feeling of being watched. However, they did not know that it was Philip behind them who really caught everyone’s attention. Although not everyone knew Philip’s name, most people saw Philip yesterday and recognized him.

At this time, seeing him following behind one older and one younger woman, would undoubtedly cause a commotion.

Many people crowded next to the test tower. They came early because of what Philip said yesterday.

Next to the test tower, the old man who lost 60,000 star dollars to Philip yesterday was still there, and a middle-aged man with a serious face was standing beside him. This middle-aged man exuded a sense of superiority with his every movement!

He came here because of the old man in charge of guarding the test tower. When he went back yesterday, the old man told his superior about this matter.

He was none other than this imposing middle-aged man.

“Mr. Clarke, are you sure you heard correctly that young man said he would definitely come?”

The middle-aged man asked the old man beside him.

The old man looked at the people around him and said softly, “Of course he’ll come. He said he’ll do the test for others at half price today!”

At this time, someone suddenly broke away from the crowd and came to this side.

“The Shannon family is here. Look, isn’t that Miss Arlene of the Shannon family?”

“I heard that she has become a star talent practitioner of the water element with the help of that man yesterday!”

The crowd chattered incessantly but suddenly, there was a commotion. It was the so-called Young Master Finn that Philip saw yesterday!

This was a meeting between two rivals. However, Young Master Finn seemed to want to present himself as a gentleman in front of Arlene today.

With that thought in mind, Philip saw Young Master Finn walking to Arlene.

“Arlene, haven’t you done the test already? Why are you still here?”

Hearing that, everyone knew that Young Master Finn wanted everyone to know that he was Arlene’s fiancé.

To his surprise, Arlene said coldly to Young Master Finn, “I’m here for him. Otherwise, do you think I’m here to see you?”

Young Master Finn scowled. His enthusiasm was put out like a bucket of cold water was dumped on him. Immediately, his face became ugly, and he was no longer as gentle to Arlene as before.

At this time, more and more people gathered around, hiding Philip in the crowd!

Young Master Finn suddenly snorted coldly and said, “If this person is as powerful as you said, he should be here by now, instead of wasting our time here!”

As soon as he finished speaking, someone immediately added, “He’s not a scammer, is he? Maybe he just wants to earn some star dollars. I advise everyone to leave!”

Chapter 3186

Hearing what Young Master Finn said, Arlene was immediately upset.

“Don’t talk nonsense. He was the one who released my element. You don’t have the right to say that about him!”

At this time, everyone looked at the two people next to the test tower. This topic had turned into an argument between the two at some point. The onlookers merely looked at the commotion in front of them.

One party was the young lady of the Shannon family while the other was the young master of the Finn family. The two were at loggerheads at this time.

“Am I talking nonsense? I think you’re a shameless woman. As my fiancée, not only were you not ashamed of being molested by that man in the street, but you even stood up for him. I think you’re just a cheap wh*re!”

Young Master Finn’s words got harsher.

“To tell you the truth, I went looking for that man last night, but I still overestimated him. I didn’t expect him to be a coward who doesn’t even dare to come out now!”

‘What?’

Arlene immediately turned pale in shock and asked Young Master Finn, “What did you do to him?”

Young Master Finn smiled and said, “What do you think? Would I let him go?”

At this moment, Philip suddenly said in the crowd, “It looks like you have forgotten the pain from yesterday!”

Next to him, Emily and Iris were startled by his words.

“Are you tired of living? Why did you speak up at a time like this?” Iris grabbed Philip and tried to hide him.

But Young Master Finn had already heard Philip’s voice. However, he could not locate Philip.

At this moment, Philip walked to the space in the middle. Emily and Iris both wanted to stop Philip but to no avail. The two could only look at him worriedly.

When Young Master Finn saw Philip, he smiled. “Good, you’re finally willing to come out!”

As Philip walked toward the middle of the crowd, he said softly, "If I don't come out now, I'm afraid I'd be blown away by your hands!"

Of course, this was sarcasm, mocking Young Master Finn for hinting that Philip was taken down by him yesterday.

When Arlene saw Philip, surprise flashed across her face. "You're here!"

Philip just nodded lightly, not showing much enthusiasm for this woman.

"I said to come at ten o'clock yesterday. Anyone who's here for the test can line up now!"

Philip smiled at the crowd around before saying slowly.

At this time, Emily and Iris realized that the person who caused the sensation on the lower floor of the underground city was none other than Philip. However, at this time, Young Master Finn was obviously not about to let Philip open for business!

"Wait a minute!"

Young Master Finn walked up to Philip and said with a smile, "Where do you think this is? Do you want to test people here?"

Young Master Finn spoke in a bossy tone.

Chapter 3186

Hearing what Young Master Finn said, Arlene was immediately upset.

"Don't talk nonsense. He was the one who released my element. You don't have the right to say that about him!"

“Wait a minute!”

Young Master Finn walked up to Philip and said with a smile, “Where do you think this is? Do you want to test people here?”

Young Master Finn spoke in a bossy tone.

Chapter 3187

Hearing that, Philip waved his hand, indicating Young Master Finn to come closer to him.

However, as Young Master Finn approached, his head was grabbed by Philip.

With sudden force in Philip’s hand, he pressed Young Master Finn’s head to the ground. Young Master Finn’s head slammed to the floor and produced a muffled sound.

“Who do you think you are to poke your nose into my business?”

Philip loosened his hold, clapped his hands, and said to the crowd with a smile, “Anyone else wants to cause trouble here?”

However, before he finished speaking, the people brought by Young Master Finn had rushed toward Philip.

Obviously, there was no way to end this without a fight today. Even if he had to face many enemies, Philip was ready. However, at this moment, the imposing middle-aged man and the old man guarding the test tower had already stood in front of Philip.

“Stop it, all of you!”

The middle-aged man gave an order and made everyone stop what they were doing.

Philip could tell at a glance that this man was extraordinary.

When Young Master Finn’s men saw this middle-aged man at this time, they dared not disobey either.

The middle-aged man narrowed his eyes at Philip and asked, “Are you the one who could see elemental talent without using the test tower?”

Philip nodded and said, “That’s me...”

The middle-aged man laughed. “Hahaha! Can you show me how you did it?”

Philip snapped his fingers and said, “Then let the first person step up beside me.”

This time, everyone rushed toward Philip. However, Young Master Finn was still on the floor, but the people of the Finn family had not helped him up yet!

After being trampled by the crowd, the people of the Finn family finally remembered that their young master was still on the floor.

As everyone rushed to Philip, he said, "Each test will cost 50 star dollars, and don't push me!"

Even at that price, Philip could make a small fortune judging from the number of people around. At that time, he could go to the middle floor and start his investigation about the Multidew Herb.

Philip was very fast, and completed the examination in just a few minutes. However, Philip discovered at this time that there were not many people with elemental talent here.

Leopard and Arlene seemed to be special cases that allowed Philip to seize the opportunity. As for these ordinary people, most of them looked disappointed. Although they spent the money, they did not get the results they wanted.

Finally, when a child came over, Philip put his hand on his body, and a ray of light burst out from his eyes!

Philip did not notice that Young Master Finn had been dragged away by his people at this time. Moreover, they planned to go back to the Finn family house for reinforcements before coming back to cause trouble for Philip.

Philip did not care about them. All his attention was now on the child.

The middle-aged man walked over at this time.

"You don't have to test this child anymore. I'll take him and focus on training him!"

Philip took the child's other hand at this time.

"What do you mean?" Philip asked with a frown.

The middle-aged man chuckled lightly and said, "It means that I owe you a favor. You found me a good apprentice!"

Chapter 3188

"Even if it's a favor, I should know who owes me this favor..."

After Philip asked this question, the old man guarding the test tower said to Philip, "Presumptuous, you..."

However, before he finished speaking, the middle-aged man stopped him.

“Mr. Clarke, don’t say anymore!”

The middle-aged man turned to Philip and said with a smile, “Keep this card with you. No matter what problems you encounter in this underground city, with this card, I can keep you safe!”

Philip took the card, which was dark gold with a black mecha embossed on it. Glancing at the card with a frown, Philip was a little puzzled, having no idea what it was.

Next to Philip, Iris exclaimed when she saw the dark golden card and got closer to him.

“Philip, put this card away quickly!” She said with excitement on her face.

The middle-aged man smiled at Philip and said, “It seems that your friend recognizes this card. If so, let her tell you.”

After the middle-aged man finished speaking, he turned to the little boy and said, “Let’s go. I’ll take you to test your elemental talent carefully!”

With the old man guarding the test tower around, no one doubted the identity of this middle-aged man but was full of curiosity instead.

Next, under the watchful eyes of Emily and Iris, Philip started testing those people who wanted the test for 50 star dollars apiece. Due to the middle-aged man from before, the old man in the test tower turned a blind eye to Philip’s actions.

The test lasted until the afternoon.

As more and more people gathered, Philip said to the people around him, “The testing will end here today. Those who didn’t get tested today, please be early tomorrow!”

Philip immediately left with the others. Although he could earn star dollars if he continued testing, it was a waste of time.

When they got back to Emily’s house, both Emily and Iris looked at Philip, waiting for his explanation.

“Tell me what else you are hiding from us!” Iris crossed her arms and spoke as if she was interrogating a prisoner.

Philip sat on the sofa and said indifferently, “Am I very close to you? Even if I have something to hide from you, that’s not strange, isn’t it?”

Hearing that, Iris pushed Emily in front of Philip.

“Okay, even if I don’t know you well, she does!”

She was obviously going to use Emily as a shield.

Emily stood with arms akimbo and said, “Yes, although I know you’re amazing, I never knew you could test elemental talent for others!”

Philip said, “With my ability, isn’t it understandable for me to do that?”

Emily immediately snorted and said, “If you can test for others, why don’t you test it for me first?”

Hearing Emily’s words, Iris’s head drooped. She sighed inwardly. Emily’s thinking was too simple.

Why did she not question Philip’s background?

Why did he come to the lower floor of the underground city?

This was a wasted opportunity!

However, at this moment, Philip pulled Emily to him with a smile, and said, “Well, I’ll test it for you now, okay?”

As Philip said, he had already mobilized his rules of insight to check Emily.

At this time, Philip frowned. There was indeed an elemental talent in Emily, and it was very special.

Chapter 3189

Vaguely, Philip sensed that it was the spatial element. However, it was not clear.

Philip was surprised. While the lower floor was a difficult place to live in, and most people did not have a lot of star dollars, they should have had enough for a test at the test tower. However, the test tower on the lower floor of the underground city could not detect Emily’s spatial element at all.

“What’s the matter? Is there something wrong?” Iris asked worriedly.

Philip nodded, which made Iris more anxious.

She said, “What’s going on? Hurry up and tell us!”

Philip said softly, “Actually, Emily’s elemental talent is the rule of space!”

After saying that, let alone Iris, even Emily's grandfather, who had been in the room the whole time, coughed.

"What did you say?" Iris immediately exclaimed.

Philip said calmly, "I think you should know how rare the spatial elemental talent is, so you'd better keep it quiet!"

Iris quickly nodded.

No matter where, such a special elemental talent was extremely rare, and also a target that major forces wanted to grab hold of.

Often, a bloody storm could be triggered simply because of a practitioner with special elements. That was the reason Philip said that.

"Let's do this. Starting tomorrow, you'll go to the cram school for practitioners that I opened, and every afternoon, I'll teach you the use of your elements. What do you think?"

Emily nodded happily upon hearing that.

Iris seemed hesitant at this time, and Philip knew that she also wanted the test.

"If you want the test too, just ask!"

Hearing that, Iris was no longer embarrassed and said to him, "Please help me with the test!"

As soon as Iris finished speaking, Philip reached out his hand to Iris.

The meaning was obvious. He wanted Iris to pay for it!

At first, Iris was quite polite to Philip, and her good impression of him had somewhat revived.

However, even the last bit of good impression had disappeared now. Instead, she gritted her teeth at Philip and asked, "Are you short of those 50 star dollars?"

Philip shook his head at this time and said, "50 star dollars for others, 100 star dollars for you!"

Just as Iris was about to fly into a rage, someone spoke at the door. "Does Mr. Philip Clarke lives here?"

Chapter 3190

Hearing this voice, Emily opened the door and saw Arlene outside. She was alone at the door, looking a little nervous.

“May I ask if Mr. Clarke lives here?”

Hearing that, Emily invited Arlene into the small house.

Arlene saw Philip at this time.

Naturally, Philip also saw Arlene, and immediately asked indifferently, “Why are you looking for me?”

Hearing Philip’s question, Arlene said respectfully to Philip, “Although I’ve awakened my elemental talent, I’ve never practiced before, so I don’t know how to use it. So…”

There was no need to continue her sentence. She wanted to learn from Philip how to use her element.

Philip said to Arlene, “It’s no problem if you want to train. You should be able to find Leopard’s mecha boxing arena. I’ve opened a cram school for elements and star talents. You can go there in the afternoon!”

Arlene nodded and was about to leave when Philip stopped her.

“You need to pay the fee for the cram school first.”

Arlene turned around quickly and asked Philip, “How many star dollars?”

Philip did not speak but merely held up one finger. Arlene, on the other hand, used her communicator to transfer the money to Philip.

“100,000 star dollars has arrived. Please check your account!”

Philip was surprised. Arlene was so generous to transfer 100,000 star dollars to him.

“Is it enough?” Arlene asked Philip.

Emily and Iris looked at Arlene in surprise. The actions of these big families were different indeed, 100,000 star dollars in one go.

“Be punctual at one o’clock in the afternoon. Don’t be late!”

After saying this, Philip waved his hand at Arlene.

After Arlene left, Iris asked Philip, "You just accepted her star dollars like that. Doesn't your conscience hurt?"

Philip ignored Iris and got ready to eat something before heading to his cram school.

"I turned her from a white husk into a level 2S elemental practitioner. Do you think I cheated her? Not to mention 100,000 star dollars, even if it's 200,000, I don't think it's too much..."

Hearing that, Iris pondered for a while and actually agreed with his reasoning.

As Iris was about to talk to Philip again, Philip checked the time on the communicator and pulled Emily out the door.

It was still early but Philip did not want to continue talking to Iris. However, when Philip brought Emily to Leopard's boxing arena, he found that the place was a mess, and there was no sign of Leopard at all.

Several of Leopard's buddies were groaning and rolling on the ground.

Philip immediately walked in with a frown and asked, "What's going on?"

Hearing that, one of the men looked at Philip as if he had seen his savior.
