

The First Heir Chapter 3206 -

Chapter 3206

As soon as Young Master Finn saw Philip, he looked as if he was going to eat Philip alive.

Philip just looked at him indifferently and said, "Because of me? I don't think I have that honor, do I?"

Young Master Finn's face was very gloomy. The men he brought said to him, "Young Master Finn, let's stop wasting time and just kill him. If not for him, the Finn family wouldn't have suffered such humiliation."

Hearing that, Young Master Finn snorted.

"What are you waiting for? Go ahead!"

As soon as he finished speaking, Cougar stepped out.

He looked at the Young Master Finn and said coldly, "Young Master Finn, you're stepping out of line. How dare you mess around in Cougar Squad?"

Young Master Finn looked solemn and said to Cougar, "Commander Yorkshire, you may not be aware of this, but if it wasn't for Philip Clarke, Arlene wouldn't have canceled our engagement and made me the laughingstock of the entire lower floor."

However, Cougar said with a smirk, "Is Arlene going to break up with you and marry Mr. Clarke instead?"

Young Master Finn shook his head.

"That's not the case, but if he hadn't awakened Arlene's talent, Arlene wouldn't have canceled our engagement!"

Philip smiled and said, "Is that why you didn't dare to kick up a fuss with the Shannon family but came here looking for me instead?"

Philip was right. If Young Master Finn could afford to mess with the Shannon family, he would have kicked up a fuss the moment they canceled the marriage agreement. He would not be looking for Philip either.

Young Master Finn snorted coldly, looked at Philip, and said, "Let's stop the crap. One of us must die today!"

Hearing that, Cougar laughed and said, "In that case, Young Master Finn, you can go to the life-and-death arena with Mr. Clarke. That's the fairest way and also fulfills the requirement that someone must die."

With that said, the people of Cougar Squad also stepped out at this time. Everyone cheered at the sound of a match at the life-and-death arena.

"Awesome!"

"Let's go to the life-and-death arena!"

Philip simply glanced at Young Master Finn indifferently and asked, "So, do you dare?"

Young Master Finn snorted coldly. "Let's go right now!"

The so-called life-and-death arena was not a special place. They simply put two people in a separate space that was covered by a light screen.

After two people went in, they could not come out until one party died.

Without any hesitation, Philip stepped onto the arena of life and death. However, at this time, Young Master Finn just looked at Philip's back and smiled. Not only did he not enter the life-and-death arena, but he told someone next to him to go instead.

"Philip Clarke, you're not worthy enough to engage in a life-and-death match with me yet!"

It was impossible for Philip to back out at this point. That was because Young Master Finn's subordinate had already entered the life-and-death arena.

"Philip Clarke, huh? I advise you not to struggle in vain. Let me kill you now and you can still have a whole body?"

However, before he could finish his words, Philip charged at the man.

Philip's target was Young Master Finn, so he did not care about this person and just wanted to end things quickly.

Seeing that Philip had already rushed over, the man shouted loudly, "Go to hell!"

With this roar, four rays of light burst out from his body in an instant. Obviously, he was a four-star practitioner. However, the light on his body had just flared up when Philip grabbed his neck.

Immediately after, Philip exerted force in his hand and broke the man's neck!

Young Master Finn obviously did not expect Philip to be so brutal, but Cougar chuckled at this scene.

Philip was ruthless and decisive. He would obviously be a good helper. Of course, that was if Philip was willing to join Cougar Squad!

Philip was about to come out at this time, but to his surprise, Young Master Finn turned to the person next to him and said, "You're up next. Take turns until he dies of exhaustion!"

At Young Master Finn's command, someone else rushed in before Philip came out. However, as this man had seen Philip's skills before, he immediately retreated to the edge as soon as he entered the arena.

Similar to the previous opponent, five rays of light exploded from him.

A five-star talent practitioner!

However, although his level was stronger than the earlier guy, he died even quicker. Philip's punch instantly went through the man's body.

This time, Philip did not give others a chance to enter the life-and-death arena at all. He rushed out and grabbed hold of Young Master Finn.

"Let go of me. You can't afford to mess with someone of my identity!" Young Master Finn immediately struggled in Philip's hold.

"Your identity? Do you really think your identity makes any difference to me?"

Philip punched him hard, and Young Master Finn was about to fly out. However, at this moment, Philip grabbed hold of him again.

To deal with a weakling like Young Master Finn, Philip did not use much strength at all. Even so, with just a few punches from Philip, Young Master Finn was already spitting blood and his life was obviously hanging on a thread.

Seeing this situation, although Young Master Finn's people wanted to fight Philip, they were no match at all.

They could only snatch Young Master Finn from Philip and threaten him, "Just you wait. The Finn family will definitely not let you off!"

Philip did not chase after them. He knew that even if he killed them all, he could not stop the Finn family from finding out about this matter.

Cougar walked up to Philip and said, "Did you kill Young Master Finn just now?"

Philip nodded and said softly, "Barring any accidents, he'll die as soon as he reaches home."

Hearing that, Cougar was surprised. "Are you really not afraid that the Finn family will seek revenge on you?"

Philip just smiled and said, "I'm more worried that they won't come after me. If they seek revenge on me, I can have the opportunity to earn star dollars and go to a higher floor!"

After hearing Philip's words, Cougar pondered for a long time and said, "If you want to go to the next floor, I can recommend you, but you need to help me first!"

Philip looked at Cougar and asked, "What is it?"

"It's nothing special. I just need you to join Cougar Squad for the time being and go to Blackwater Forest."

Philip thought about it and said, "I need to think about it."

That was Cougar's objective, to get Philip to join Cougar Squad. However, Cougar knew that Philip should be more suitable to display his talents on a larger platform and a higher floor.

The underground city was realistically divided into different classes. Even if Cougar Squad was considered one of the strongest organizations on the lower floor, it could not stand a chance on the middle floor.

"Alas! What a waste of talent!" Cougar Yorkshire sighed.

Philip left after a casual chat with Cougar.

Cougar's eyes were dark and troubled as he watched Philip leave. He knew that a person like Philip would look for an opportunity to achieve greater heights no matter what.

Philip did not go far before he saw Emily and Iris running out.

They were surprised at the sight of Philip.

“Brother Philip, did you go to the life-and-death arena just now?” Emily immediately asked Philip.

Philip nodded, but he wondered how they found out. Emily took out her communicator, which showed Philip’s fight record just now. Some people had placed bets too.

This surprised Philip a little.

Iris said to the two at this time, “This isn’t the place to talk. Let’s go to my bar.”

Hearing that, they went to Iris’ bar.

In the bar, Philip told them why he had to go to the life-and-death arena and how he beat Young Master Finn to death.

When Iris heard the news, she stood up. “What did you say? You killed the only son of the Finn family?”

Philip nodded.

At this moment, Iris anxiously paced back and forth in the bar.

“Philip, why were you so impulsive? Don’t you know that Young Master Finn is the only son of the Finn family? Your action will definitely anger the Finn family!”

Philip said indifferently, “Was I supposed to just stand there and let them kill me instead?”

Hearing that, Emily said to Philip, “Okay, let’s stop with the meaningless words. I’ll get someone to forge you a fake identity so that you can go to the middle floor!”

However, before she could finish her words, a clear female voice rang out.

“It’s too late to run now!”

Hearing this, all three of them turned to look at the door

A woman stood at the door with a large saber on her back that was not suitable for her figure at all.

Philip frowned at the sight of this woman and asked, “Who are you?”

The woman held the big saber and slashed out at Philip. “I’m the elder sister of the Young Master Finn you mentioned, Lorna Finn!”

Philip grabbed the woman's hand and avoided her saber.

Philip finally had a good look at this woman. She was exceptionally tall and slender with no trace of fat on her body at all. There was also a hint of wildness on her.

"Let go of me!" The woman suddenly shouted as a stern aura exploded from her body!

Philip took advantage of the situation and stepped aside.
