

My First and Last Man

Vol 1: Ch 6 - CEO Hwang

After seeing the man glares, Manager Xia got it right away of what the man means of his glare did and he also noted his warning.

"Sir, an excuse from me for taking it long and sorry for waiting for me. Let's speak inside the office, Sir."

"It's alright and I'm not really waiting for that long."

'Ah, really? But I hope CEO Hwang didn't see or heard anything from them. Geez, they're really unpredictable but since they've signed an agreement before joining the company they must aware of it, right? Thank goodness Ms. Rei stops and interrupts us right away or else I don't know what will happen to us. I'm very glad that Ms. Rei is smart enough that she knows how to handle this kind of situation even she got bullied by them but then having a high EQ was really needed for this kind of situation, huh. Luckily Ms. Rei also had a high EQ' Thinking while walking to his office together with the unexpected guest and then leaving a message to his team before entering his office.

"All of you do your work."

"Yes Manager Xia"

Manager Xia and the man who is the CEO of the company walk together before entering to Manager's Office. Manager Xia closes the door appropriately and checks if he really locked it. Then offer a seat to CEO Hwang right away.

"CEO Hwang, please take a seat. I just got a call from the Head Secretary that you're here in C Country and planning to visit the CA C Town City Branch but who knows you already here the moment I received the call from him."

"It's only my own plan and I didn't inform all Secretaries for my sudden visit and of what time I visit each branch since they only know that I'm visiting here."

"Eh, is that all CEO Hwang? But why did you suddenly visit here without notice?"

"To know the real personalities of my employees and my own people, I need to visit very suddenly to every branch without notice because they will show their true colors if they don't know. By the way, before I forgot please review the CCTV Footage 20 minutes ago before 8 am, make a backup copy for the important one and necessary video clips for those who violate the company rules then those involve and who violates the company rules and regulations make the choice to be getting fired or suspended for two months since they violate the signed agreement."

"Yes, CEO Hwang." 'And there it is; it really happened of what the most I'm afraid of.' Then Manager Xia reviews the CCTV Footage right away.

--First Video Clip--

CEO Hwang arrives and the 3 employees including Rei saw him entering the company premises but the two of them pretending to be busy and especially pretending that they didn't notice him. Only Rei greeted him, assist, and serve him without hesitation.

"So, CEO Hwang for both Ms. Qiao and Ms. Lin, they will have a light punishment?"

"Heavy punishment, let them choose either be getting fired out or 2 months suspension. That kind of reaction from them will lead the company to go down and what if they will react the same way to our partners and clients when they are visiting here without any appointments because of sudden visits from them, right? More worst they notice me but both of them are pretending, so heavy punishment for them."

"Yes, CEO Hwang."

---Second Video Clip---

The employees arrive one after another.

Mrs. Chi said something to Rei then scolded her about not company matters, followed by Ms. Lin and Ms. Ai about gossiping her co-workers in the company, then last was Mr. Yan with his comments and suggestions.

"And for this one, what will be Mrs. Chi, Ms. Lin again, Ms. Ai and Mr. Yan punishments, CEO Hwang?"

"Ms. Lin, what position she is?"

"My assigned Intern Secretary, CEO Hwang"

"Get her demoted and got back to being an admin staff if she chose of suspension for Two Months."

"Yes, CEO Hwang. So for Mrs. Chi, Ms. Ai and Mr. Yan is either kick out or 2 months suspension?"

CEO Hwang nodded and then instruct him "by the way give me the Employee Evaluation Sheet for Ms. Rei and your own evaluation to her" he already knows the name since he heard his own people mentioning her name many times.

"Yes, CEO Hwang"

"Let's discuss it tomorrow afternoon since it's their off duty during that time. I'm going now and no need to escort me back or else they will be getting suspicious of my identity especially to that lady (Ms. Rei)"

"Yes, CEO Hwang"

After CEO Hwang left, Manager Xia pulled out right away the Employee Evaluation Sheet of Rei and his evaluation while CEO Hwang leaves and stop at Rei's table.

"Miss thank you for your assistance awhile ago"

"You're welcome Sir"

Before he leaves, he notices a little glimpse of Rei's monitor screen and can familiar with who's that person that got the background from her screen and because of it, the CEO smile from this discovery from her, and then his lips moving upwardly.
