Chapter 9: Love Marks

“Fuck! Natalia...suck me harder!” he shouted loudly while he panted as our moans mixed with lewd sounds filled the enclosed space of the car’s interior. He gripped the hair at the back of my head hard yanking my head up so I had to release his cock from my mouth and then pulled my head up further to crash my swollen lips against his own in a wild kiss.

My saliva mixed with his precum poured out of my mouth into his and down my neck as we entwined our tongues together wildly. This all lasted a short moment and the next thing I knew, Edward has rammed my head back down towards his cock once more forcing his enlarged member into mouth. Without the need for my hands, this time Edward thrust his hips up to drive his cock deep into my mouth while he pushed my head down so he could fuck my mouth over and over again.

He thrust his cock rapidly hitting the back of my throat, almost causing me to gag on his hot cock. He removed his hand from my head to caress me roughly in between my legs, pushing my dress aside he shoved his expert hand inside my underwear to fondle my cunt directly. I moaned into his dick as it continued to fuck my lips when I felt pleasure electrifying my pussy and clit spreading towards my stomach and the rest of my body. I began jutting my hips upwards towards his fingers inviting him to screw them inside my dripping wet love cave.

“You’re drenched here...is sucking my dick turning you on so much?” Edward’s deep voice teased me.

He shoved two fingers into my wet opening stretching my folds as he entered. My pussy quivered from pleasure. My sore pussy felt more sensitive than usual as it wrapped around Edward’s fingers. He thrust his fingers hard and fast into my hole and I couldn’t help shaking my hips, grinding my pussy walls against his fingers, driven by lust. I bobbed my heads up and down his standing cock faster matching the rhythm of my hips and Edward thrust into my mouth harder. His moans were louder than before and his cock swelled thicker in my mouth and was twitching wildly signaling that he was close to cumming. The wet sounds of his fingers sliding in and out of my cunt hole echoed together with the wet sound of him fucking my mouth.

“Natalia!...I’m cumming...arghhh...eat my cum...Natalia,” Edward groaned and panted his release and I felt his hot seed spurting into my mouth hitting the back of my throat filling me with his male scent. His waves of cum filled my mouth and I lapped his tip with my tongue taking all his seed in. When his hips stopped jerking, I removed my lips from his cock. We stared at each other as I seductively swallowed his seed.

A few minutes after that the car came to a stop. Looking out the window, I guess we were in the outskirts of town. I could see green forest everywhere and there was a lake nearby. The place surely had beautiful scenery but it was clearly secluded and no one was around. Ok...why are we here? Is this the time I should get out of the car and make a run for it...into the wild? I guess not. I don't remember why exactly but...the forest freaks me out...

Turning my head around towards Edward to ask for an explanation, I was met with his emerald green eyes looking at me like a predator would at his prey. Time stopped. I held my breath as his hand slowly reached the back of my head, gently drawing me into a sweet kiss. Were his lips always this soft and warm? I wondered as his tongue lazily melded with mine and I moan softly into his mouth. His arms hugged by body closer to his so that both my breasts were pressed tightly against his hard and broad chest. Our kiss became more passionate as we began undressing each other. His hands were on the buttons on the front of my dress impatiently undoing them while I successfully removed his suit and vest and started unbuttoning his white shirt.

He paused to rip his shirt off his body exposing his naked torso to me for the first time. The last time we fucked, he was fully clothed in the lab...wow, I honestly did not expect such a gorgeous body under his suit. Clearly someone's been working out...his body was beautifully toned with firm muscles in his arms, chest and well-formed six packs adorned his stomach.

He took my hands and gently placed them on his chest and nibbled my ears whispering, "if you stare too much, I'm going to get embarrassed, you know?...let's get that dress off you too." He rained soft kisses along my neck as his hand pushed the sleeves of my dress off my shoulders and arm.

Suddenly, he went very still and I could sense a change in the air surrounding us...this is not good. Edward was staring hard at what seemed to be a red bite mark on Natalia's shoulder while his mind tried to make sense of that mark...how did this bitemark get here? Who did this? ...It wasn't here yesterday when I fucked her in the lab...

"Did Lucien leave his mark on you here? Did you finally fuck him last night?" Edward hissed in my face and his hands dug into my arms as he shook me with anger. I was scared of his outburst. What do I tell him now...? I didn't cover up the mark because I thought I would stay home all day today instead of getting naked to screw around with my step uncle in the middle of nowhere. I don't want him to think Lucien did this but I also can't tell him about Zak. Zak's mother is Edwards older sister and unlike her younger brothers, she is an uptight, manipulative and scary monster. She would kill Zak for sure if she found out about us...or anything that would damage the family's reputation.

I see...she's refusing to tell me anything...perhaps that is better than a deceitful lie. She was with me yesterday and I personally drove her home. I was there to pick her up the moment she woke up and came downstairs the next morning. Lucien is the only male in

the house that night who could have given her this mark...but would the righteous Lucien lay hands on his precious daughter after all this time? I find that hard to believe...which brings me back to where I started. Edward was very frustrated and he hated not getting answers.

"I was assaulted..." I broke the awkward silence between us.

Oh...let's see what creative lie she's come up with...

"...I took a late-night walk around the house and a random man assaulted me..." my voice trailed off unable to give more details because I couldn't.

"I see...that must have been a shocking experience. Have you reported it to the police?" Edward played along with her story while his mind has already crafted his own plan.

"It's ok, I didn't want to worry anyone and I'm safe so..." I tried to explain. Please, just let it end here.

"If what you told me is true, and I have no doubt that it is, I am very concerned for your safety. There are random stalkers out there who can assault you again. Therefore, I am going to arrange for a bodyguard to guard you 24/7," Edward stated this as a fact with an all-knowing smile on his face as he took my hand and kissed the back of it, all the while staring deep into my eyes. Since my story had to be true, I had to accept this bodyguard from Edward. Seems like I've really lost to him today...

Without further discussion, Edward ripped my dress off my body followed by my bra and panties. I was completely exposed to his hungry gaze in no time.

"Turn around. Put your hands on the window and lift your ass up towards me," his voice was low, calm and yet so commanding. I guess my punishment has officially started. For the life of me I couldn't understand why but I felt he had every right to punish me for fooling around with Zak behind his back. I rested my case and complied to his order.

"Ahhh! No! Edward!" I screamed and panted against the glass window fogging it up as Edward rammed his solid staff into my hole from behind all at once. My sore pussy stretched to accommodate his entry. His cock head split open my secret lips and made its way quickly inside while caressing the inside of my pussy walls. He hit my womb all in one thrust and I whimpered as pain quickly crossed into ecstasy. His cock was hot and I could feel his shape so clearly as I clenched my pussy muscles around him. I guess doing it without a condom really is different and more arousing.

"Shut up...Natalia..." he grunted behind my ears as he thrust two fingers inside my mouth to keep me from shouting. I sucked hungrily onto his fingers as they fucked my mouth just as his dick was ramming itself in between my legs. Wet sounds echoed loudly in the cramped space of the car as my love juices squirted out from my cunt each time Edward pulled his dick out from my pussy before ramming it back inside, harder

and deeper than the time before. My honey mucus dripped out of my hole in streams running down the inner and back of my thighs.

“I’m...gonna...cuuuuum...mhnnnn...” I moaned as I sucked his fingers harder feeling my climax approaching and my pussy spasmed uncontrollably squeezing his fat rod. Then my body went limp and I could no longer support myself...my orgasm taking its toll on my body. Edward lifted my hips up with both his hands and continued to fuck my hole...even harder than before. Then he bit my shoulder hard, sinking his teeth firmly into my soft naked skin.

“This is not it...” he murmured to himself while eyeing the teeth mark that he just left on my skin.

Edward climbed back to his driver seat and lowered the back all the way.

“Natalia...climb over here and straddle on top of me,” he ordered in an emotionless voice similar to reading an instruction manual for me to follow. I was tired and sore as I slowly moved over to straddle him on the driver’s seat. Edward was lying down and since it was pretty obvious what he wanted me to do next, I might as well...

I lifted my hips up above his erect joystick, using my hand to guide its head to my wet and throbbing opening. Then I slowly slid myself down, inch by inch, I took the entire length of his virile member into my secret passage. It felt so fulfilling as he filled me to the brim, stretching my walls once again as I felt him growing bigger and harder inside of me. He started thrusting his hips upwards and to the sides to penetrate me from different angles making me moan out loud. I started bouncing up and down his shaft faster and even faster, riding him wildly while I panted and moaned out his name countless times between my breaths.

Edward suddenly sat up to squeeze his big hands around both my breasts, kneading them as they bounced up and down in time with the rhythm of my hips riding him. I swung my arms around his neck to better anchor myself to him in order to bounce on his cock harder. The head of his cock pumping and hitting my g-spot and womb is driving me over the edge and I came once again, this time with no energy left to cry out my climax. Edward bit my shoulder hard as he pumped his final thrusts into me and groaned my name against my shoulder. It felt like a hot damn had burst inside my cunt hole as he shot his seed deep inside my womb, burying it deep within me for the second time.

“You see this, Natalia...this mark I just gave you looks fairly like the one that ‘random man’ gave you. No?”

Edward, what games are you playing? No matter what you think you know, I will never admit to anything...I thought as I dozed off to sleep.

I carried her limp and naked body in my arms into the small cottage on the side of the lake. I haven't been here for years, I thought, as I unlocked the front door. I placed Natalia on the bed which seemed pristinely clean meaning the cleaner has been doing their job of maintaining this place. I will wait until she wakes up before I wash her body clean of all signs of that "random man".
