

Forgive My Ex-husband Chapter 151

Taking one more look at Emily was just an insult to Melinda's eyes, Melinda quickly left the hotel.

And in the study, Jonas knew nothing about her arrival.

Seeing that Melinda left, Emily breathed a sigh of relief. She was really worried that her plan would be ruined by the appearance of Mike.

However, it had nothing to do with Melinda's misunderstanding now.

Jonas wanted to get rid of her in front of Melinda but she wanted to make the relationship more ambiguous.

The driver had been waiting for her downstairs. Seeing that Melinda came downstairs alone soon, he was curious, but he didn't dare to ask more.

"Go to Starbucks downtown."

Melinda said. Then she contacted Leo in wechat, Leo telling her that he had collected many photos of Jonas and Emily, including the kissing between them in the coffee shop, and even the scene when they just met in the hotel.

It could be said that the means by which these people collected evidence for investigating things were very shocking, but Melinda didn't care about it at all now. What she wanted was nothing but a result.

At Starbucks, the two people arrived at the mall one after another. Leo made those photos into a USB flash drive and handed them to Melinda. Then he took out the developed photos in the envelope.

"All are here to prove that he cheated on you. I think that's enough."

He said while opening the envelope to look at the photos inside. The more she looked at the photos, the more disappointed she became. She was relaxed that she had decided to leave.

"Thank you."

Melinda carefully hid these things in her bag, thinking that it was time to end this time.

"In fact, I think that somebody is adding fuel to the fire. He's telling the truth. It's too easy to investigate that kind of stuff, which might become suspicious.

It was normal for ordinary people to have such an efficiency. But here in the photos was Jonas and a star Emily. They paid much attention to privacy.

"I don't care who he is. All I want is to get these."

Melinda shook the envelope in her hand, and had already guessed that the one who had instigated the quarrel might be Emily.

Hearing that, Leo thought for a while and agreed with her. He wanted to ask her what she was going to do next, but he bit back the words on the tip of his tongue.

She didn't stay long in the cafe. Along the way, she looked at the envelope and the USB drive with complicated emotions.

If she got divorced, Emily would be the happiest one. If it was before, Melinda would still think that she couldn't do such a thing to make the enemy happy.
