

## Forgive My Ex-husband Chapter 199

Emily's heart skipped a beat. She felt like she was making a deal with the devil. It was obvious that she was the one who put forward this, but why the one who took control was like Jerry.

However, since she had said that, there was no room for regret.

She had no other choice but to do that.

The people in the company were also pressing step by step, but now she needed the help of Jerry to complete her previous plan.

'To win or I perish.' Emily was now a gambler, and crazy gamblers had always the courage to go all out.

"What do you want?"

Jerry was alone, and there was nothing to fear. It was hatred that supported him all these years. Every step he took now was closer to take revenge.

Emily was the best stepping stone among them.

"It's very simple. You should have seen the news on the Internet. Those people, including me, noticed you because of your face. It looks like someone."

Emily told him the truth without any hiding, just to tell Jerry the sincerity of their cooperation.

Jerry laughed. Of course he knew, and he knew better than anyone else why he looked like that man, just because they had the similar blood.

And the blood made him sick.

"You mean Jonas?"

"It seems that you have found the news about him. He was my lover before, but he has changed his mind now. I want to get him back and need your help."

Emily said seriously about her love with Jonas. Others might think it was general story, but to Jerry, it was different.

His mother, just like Emily, was tricked by the disgusting father and son of Gu family, so she ended up like this.

"Just tell me the plan." Jerry's tone softened a lot.

He didn't want to see the tragedy of his mother repeat. He wanted to do something else.

Emily spoke out her plan without hesitation, "you look like him. As long as you are attracted by him, he will definitely look for you. At that time, we'll take this opportunity to take advantages.

The moment Jerry thought about Jonas, Jerry was thrilled and agreed without hesitation.
